For necessary expenses of the National Cemetery Administration for operations and maintenance, not otherwise provided for, including uniforms or allowances therefor; cemetery expenses as authorized by law; purchase of one passenger motor vehicle for use in cemetery operations; hire of passenger motor vehicles; and repair, alteration or improvement of facilities under the jurisdiction of the National Cemetery Administration, \$250,934,000, of which not to exceed \$25,100,000 shall remain available until September 30, 2013: Provided, That none of the funds under this heading may be used to expand the Urban Initiative project beyond those sites outlined in the fiscal year 2012 or previous budget submissions until the National Cemetery Administration submits to the Committees on Appropriations of both Houses of Congress a detailed strategy to serve the burial needs of veterans residing in rural and highly rural areas: Provided further, That the report shall include a timeline for implementation of such strategy and cost estimates of establishing new burial sites in at least five rural or highly rural locations.

#### DEPARTMENTAL ADMINISTRATION

##### GENERAL ADMINISTRATION

##### (INCLUDING TRANSFER OF FUNDS)

For necessary operating expenses of the Department of Veterans Affairs, not otherwise provided for, including administrative expenses in support of Department-Wide capital planning, management and policy activities, uniforms, or allowances therefor; not to exceed \$25,000 for official reception and representation expenses; hire of passenger motor vehicles; and reimbursement of the General Services Administration for security guard services, \$416,737,000, of which not to exceed \$20,837,000 shall remain available until September 30, 2013: Provided, That funds provided under this heading may be transferred to "General operating expenses, Veterans Benefits Administration".

##### GENERAL OPERATING EXPENSES, VETERANS BENEFITS ADMINISTRATION

For necessary operating expenses of the Veterans Benefits Administration, not otherwise provided for, including hire of passenger motor vehicles, reimbursement of the General Services Administration for security guard services, and reimbursement of the Department of Defense for the cost of overseas employee mail, \$2,018,764,000: Provided, That expenses for services and assistance authorized under paragraphs (1), (2), (5), and (11) of section 3104(a) of title 38, United States Code, that the Secretary of Veterans Affairs determines are necessary to enable entitled veterans: (1) to the maximum extent feasible, to become employable and to obtain and maintain suitable employment; or (2) to achieve maximum independence in daily living, shall be charged to this account: Provided further, That of the funds made available under this heading, not to exceed \$105,000,000 shall remain available until September 30, 2013: Provided further, That from the funds made available under this heading, the Veterans Benefits Administration may purchase (on a one-for-one replacement basis only) up to two passenger motor vehicles for use in operations of that Administration in Manila, Philippines.

##### INFORMATION TECHNOLOGY SYSTEMS

For necessary expenses for information technology systems and telecommunications support, including developmental information systems and operational information systems; for pay and associated costs; and for the capital asset acquisition of information technology systems, including management and related contractual costs of said acquisitions, including contractual costs associated with operations authorized by section 3109 of title 5, United States Code, \$3,111,376,000, plus reimbursements: Provided, That \$915,000,000 shall be for pay and associated costs, of which not to exceed \$25,000,000 shall remain available until September 30, 2013: Provided further, That \$1,616,018,000 shall be for operations and maintenance, of which not to exceed \$110,000,000 shall remain available until September 30, 2013: Provided further, That \$580,358,000 shall be for information technology systems development, modernization, and enhancement, and shall remain available until September 30, 2013: Provided further, That none of the funds made available under this heading may be obligated until the Department of Veterans Affairs submits to the Committees on Appropriations of both Houses of Congress, and such Committees approve, a plan for expenditure that: (1) meets the capital planning and investment control review requirements established by the Office of Management and Budget; (2) complies with the Department of Veterans Affairs enterprise architecture; (3) conforms with an established enterprise life cycle methodology; and (4) complies with the acquisition rules, requirements, guidelines, and systems acquisition

management practices of the Federal Government: Provided further, That amounts made available for information technology systems development, modernization, and enhancement may not be obligated or expended until the Secretary of Veterans Affairs or the Chief Information Officer of the Department of Veterans Affairs submits to the Committees on Appropriations of both Houses of Congress a certification of the amounts, in parts or in full, to be obligated and expended for each development project: Provided further, That amounts made available for salaries and expenses, operations and maintenance, and information technology systems development, modernization, and enhancement may be transferred among the three subaccounts after the Secretary of Veterans Affairs requests from the Committees on Appropriations of both Houses of Congress the authority to make the transfer and an approval is issued: Provided further, That the funds made available under this heading for information technology systems development, modernization, and enhancement, shall be for the projects, and in the amounts, specified under this heading in the Joint Explanatory Statement of the Committee of Conference.

#### OFFICE OF INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General, to include information technology, in carrying out the provisions of the Inspector General Act of 1978 (5 U.S.C. App.), \$112,391,000, of which \$6,000,000 shall remain available until September 30, 2013.

#### CONSTRUCTION, MAJOR PROJECTS

For constructing, altering, extending, and improving any of the facilities, including parking projects, under the jurisdiction or for the use of the Department of Veterans Affairs, or for any of the purposes set forth in sections 316, 2404, 2406, 8102, 8103, 8106, 8108, 8109, 8110, and 8122 of title 38, United States Code, including planning, architectural and engineering services, construction management services, maintenance or guarantee period services costs associated with equipment guarantees provided under the project, services of claims analysts, offsite utility and storm drainage system construction costs, and site acquisition, where the estimated cost of a project is more than the amount set forth in section 8104(a)(3)(A) of title 38, United States Code, or where funds for a project were made available in a previous major project appropriation, \$589,604,000, to remain available until expended, of which \$5,000,000 shall be to make reimbursements as provided in section 13 of the Contract Disputes Act of 1978 (41 U.S.C. 612) for claims paid for contract disputes: Provided, That except for advance planning activities, including needs assessments which may or may not lead to capital investments, and other capital asset management related activities, including portfolio development and management activities, and investment strategy studies funded through the advance planning fund and the planning and design activities funded through the design fund, including needs assessments which may or may not lead to capital investments, and salaries and associated costs of the resident engineers who oversee those capital investments funded through this account, and funds provided for the purchase of land for the National Cemetery Administration through the land acquisition line item, none of the funds made available under this heading shall be used for any project which has not been approved by the Congress in the budgetary process: Provided further, That funds made available under this heading for fiscal year 2012, for each approved project shall be obligated: (1) by the awarding of a construction documents contract by September 30, 2012; and (2) by the awarding of a construction contract by September 30, 2013: Provided

further, That the Secretary of Veterans Affairs shall promptly submit to the Committees on Appropriations of both Houses of Congress a written report on any approved major construction project for which obligations are not incurred within the time limitations established above.

#### CONSTRUCTION, MINOR PROJECTS

For constructing, altering, extending, and improving any of the facilities, including parking projects, under the jurisdiction or for the use of the Department of Veterans Affairs, including planning and assessments of needs which may lead to capital investments, architectural and engineering services, maintenance or guarantee period services costs associated with equipment guarantees provided under the project, services of claims analysts, offsite utility and storm drainage system construction costs, and site acquisition, or for any of the purposes set forth in sections 316, 2404, 2406, 8102, 8103, 8106, 8108, 8109, 8110, 8122, and 8162 of title 38, United States Code, where the estimated cost of a project is equal to or less than the amount set forth in section 8104(a)(3)(A) of title 38, United States Code, \$482,386,000, to remain available until expended, along with unobligated balances of previous "Construction, minor projects" appropriations which are hereby made available for any project where the estimated cost is equal to or less than the amount set forth in such section: Provided, That funds made available under this heading shall be for: (1) repairs to any of the nonmedical facilities under the jurisdiction or for the use of the Department which are necessary because of loss or damage caused by any natural disaster or catastrophe; and (2) temporary measures necessary to prevent or to minimize further loss by such causes.

#### GRANTS FOR CONSTRUCTION OF STATE EXTENDED CARE FACILITIES

For grants to assist States to acquire or construct State nursing home and domiciliary facilities and to remodel, modify, or alter existing hospital, nursing home, and domiciliary facilities in State homes, for furnishing care to veterans as authorized by sections 8131 through 8137 of title 38, United States Code, \$85,000,000, to remain available until expended.

#### GRANTS FOR CONSTRUCTION OF VETERANS CEMETERIES

For grants to assist States and tribal governments in establishing, expanding, or improving veterans cemeteries as authorized by section 2408 of title 38, United States Code, \$46,000,000, to remain available until expended.

#### ADMINISTRATIVE PROVISIONS (INCLUDING TRANSFER OF FUNDS)

SEC. 201. Any appropriation for fiscal year 2012 for "Compensation and pensions", "Readjustment benefits", and "Veterans insurance and indemnities" may be transferred as necessary to any other of the mentioned appropriations: Provided, That before a transfer may take place, the Secretary of Veterans Affairs shall request from the Committees on Appropriations of both Houses of Congress the authority to make the transfer and such Committees issue an approval, or absent a response, a period of 30 days has elapsed.

#### (INCLUDING TRANSFER OF FUNDS)

SEC. 202. Amounts made available for the Department of Veterans Affairs for fiscal year 2012, in this Act or any other Act, under the "Medical services", "Medical support and compliance", and "Medical facilities" accounts may be transferred among the accounts: Provided, That any transfers between the "Medical services" and "Medical support and compliance" accounts of 1 percent or less of the total amount appropriated to the account in this or any other Act may take place subject to notification from the Secretary of Veterans Affairs to the Commit-

tees on Appropriations of both Houses of Congress of the amount and purpose of the transfer: Provided further, That any transfers between the "Medical services" and "Medical support and compliance" accounts in excess of 1 percent, or exceeding the cumulative 1 percent for the fiscal year, may take place only after the Secretary requests from the Committees on Appropriations of both Houses of Congress the authority to make the transfer and an approval is issued: Provided further, That any transfers to or from the "Medical facilities" account may take place only after the Secretary requests from the Committees on Appropriations of both Houses of Congress the authority to make the transfer and an approval is issued.

SEC. 203. Appropriations available in this title for salaries and expenses shall be available for services authorized by section 3109 of title 5, United States Code, hire of passenger motor vehicles; lease of a facility or land or both; and uniforms or allowances therefore, as authorized by sections 5901 through 5902 of title 5, United States Code.

SEC. 204. No appropriations in this title (except the appropriations for "Construction, major projects", and "Construction, minor projects") shall be available for the purchase of any site for or toward the construction of any new hospital or home.

SEC. 205. No appropriations in this title shall be available for hospitalization or examination of any persons (except beneficiaries entitled to such hospitalization or examination under the laws providing such benefits to veterans, and persons receiving such treatment under sections 7901 through 7904 of title 5, United States Code, or the Robert T. Stafford Disaster Relief and Emergency Assistance Act (42 U.S.C. 5121 et seq.)), unless reimbursement of the cost of such hospitalization or examination is made to the "Medical services" account at such rates as may be fixed by the Secretary of Veterans Affairs.

SEC. 206. Appropriations available in this title for "Compensation and pensions", "Readjustment benefits", and "Veterans insurance and indemnities" shall be available for payment of prior year accrued obligations required to be recorded by law against the corresponding prior year accounts within the last quarter of fiscal year 2011.

SEC. 207. Appropriations available in this title shall be available to pay prior year obligations of corresponding prior year appropriations accounts resulting from sections 3328(a), 3334, and 3712(a) of title 31, United States Code, except that if such obligations are from trust fund accounts they shall be payable only from "Compensation and pensions".

#### (INCLUDING TRANSFER OF FUNDS)

SEC. 208. Notwithstanding any other provision of law, during fiscal year 2012, the Secretary of Veterans Affairs shall, from the National Service Life Insurance Fund under section 1920 of title 38, United States Code, the Veterans' Special Life Insurance Fund under section 1923 of title 38, United States Code, and the United States Government Life Insurance Fund under section 1955 of title 38, United States Code, reimburse the "General operating expenses, Veterans Benefits Administration" and "Information technology systems" accounts for the cost of administration of the insurance programs financed through those accounts: Provided, That reimbursement shall be made only from the surplus earnings accumulated in such an insurance program during fiscal year 2012 that are available for dividends in that program after claims have been paid and actuarially determined reserves have been set aside: Provided further, That if the cost of administration of such an insurance program exceeds the amount of surplus earnings accumulated in that program, reimbursement

shall be made only to the extent of such surplus earnings: Provided further, That the Secretary shall determine the cost of administration for fiscal year 2012 which is properly allocable to the provision of each such insurance program and to the provision of any total disability income insurance included in that insurance program.

SEC. 209. Amounts deducted from enhanced-use lease proceeds to reimburse an account for expenses incurred by that account during a prior fiscal year for providing enhanced-use lease services, may be obligated during the fiscal year in which the proceeds are received.

(INCLUDING TRANSFER OF FUNDS)

SEC. 210. Funds available in this title or funds for salaries and other administrative expenses shall also be available to reimburse the Office of Resolution Management of the Department of Veterans Affairs and the Office of Employment Discrimination Complaint Adjudication under section 319 of title 38, United States Code, for all services provided at rates which will recover actual costs but not exceed \$42,904,000 for the Office of Resolution Management and \$3,360,000 for the Office of Employment and Discrimination Complaint Adjudication: Provided, That payments may be made in advance for services to be furnished based on estimated costs: Provided further, That amounts received shall be credited to the "General administration" and "Information technology systems" accounts for use by the office that provided the service.

SEC. 211. No appropriations in this title shall be available to enter into any new lease of real property if the estimated annual rental cost is more than \$1,000,000, unless the Secretary submits a report which the Committees on Appropriations of both Houses of Congress approve within 30 days following the date on which the report is received.

SEC. 212. No funds of the Department of Veterans Affairs shall be available for hospital care, nursing home care, or medical services provided to any person under chapter 17 of title 38, United States Code, for a non-service-connected disability described in section 1729(a)(2) of such title, unless that person has disclosed to the Secretary of Veterans Affairs, in such form as the Secretary may require, current, accurate third-party reimbursement information for purposes of section 1729 of such title: Provided, That the Secretary may recover, in the same manner as any other debt due the United States, the reasonable charges for such care or services from any person who does not make such disclosure as required: Provided further, That any amounts so recovered for care or services provided in a prior fiscal year may be obligated by the Secretary during the fiscal year in which amounts are received.

(INCLUDING TRANSFER OF FUNDS)

SEC. 213. Notwithstanding any other provision of law, proceeds or revenues derived from enhanced-use leasing activities (including disposal) may be deposited into the "Construction, major projects" and "Construction, minor projects" accounts and be used for construction (including site acquisition and disposition), alterations, and improvements of any medical facility under the jurisdiction or for the use of the Department of Veterans Affairs. Such sums as realized are in addition to the amount provided for in "Construction, major projects" and "Construction, minor projects".

SEC. 214. Amounts made available under "Medical services" are available—

(1) for furnishing recreational facilities, supplies, and equipment; and

(2) for funeral expenses, burial expenses, and other expenses incidental to funerals and burials for beneficiaries receiving care in the Department.

(INCLUDING TRANSFER OF FUNDS)

SEC. 215. Such sums as may be deposited to the Medical Care Collections Fund pursuant to section 1729A of title 38, United States Code, may be transferred to "Medical services", to remain available until expended for the purposes of that account.

SEC. 216. The Secretary of Veterans Affairs may enter into agreements with Indian tribes and tribal organizations which are party to the Alaska Native Health Compact with the Indian Health Service, and Indian tribes and tribal organizations serving rural Alaska which have entered into contracts with the Indian Health Service under the Indian Self Determination and Educational Assistance Act, to provide healthcare, including behavioral health and dental care. The Secretary shall require participating veterans and facilities to comply with all appropriate rules and regulations, as established by the Secretary. The term "rural Alaska" shall mean those lands sited within the external boundaries of the Alaska Native regions specified in sections 7(a)(1)–(4) and (7)–(12) of the Alaska Native Claims Settlement Act, as amended (43 U.S.C. 1606), and those lands within the Alaska Native regions specified in sections 7(a)(5) and 7(a)(6) of the Alaska Native Claims Settlement Act, as amended (43 U.S.C. 1606), which are not within the boundaries of the Municipality of Anchorage, the Fairbanks North Star Borough, the Kenai Peninsula Borough or the Matanuska Susitna Borough.

(INCLUDING TRANSFER OF FUNDS)

SEC. 217. Such sums as may be deposited to the Department of Veterans Affairs Capital Asset Fund pursuant to section 8118 of title 38, United States Code, may be transferred to the "Construction, major projects" and "Construction, minor projects" accounts, to remain available until expended for the purposes of these accounts.

SEC. 218. None of the funds made available in this title may be used to implement any policy prohibiting the Directors of the Veterans Integrated Services Networks from conducting outreach or marketing to enroll new veterans within their respective Networks.

SEC. 219. The Secretary of Veterans Affairs shall submit to the Committees on Appropriations of both Houses of Congress a quarterly report on the financial status of the Veterans Health Administration.

(INCLUDING TRANSFER OF FUNDS)

SEC. 220. Amounts made available under the "Medical services", "Medical support and compliance", "Medical facilities", "General operating expenses, Veterans Benefits Administration", "General administration", and "National Cemetery Administration" accounts for fiscal year 2012, may be transferred to or from the "Information technology systems" account: Provided, That before a transfer may take place, the Secretary of Veterans Affairs shall request from the Committees on Appropriations of both Houses of Congress the authority to make the transfer and an approval is issued.

(INCLUDING TRANSFER OF FUNDS)

SEC. 221. Amounts made available for the "Information technology systems" account for development, modernization, and enhancement may be transferred between projects or to newly defined projects: Provided, That no project may be increased or decreased by more than \$1,000,000 of cost prior to submitting a request to the Committees on Appropriations of both Houses of Congress to make the transfer and an approval is issued, or absent a response, a period of 30 days has elapsed.

SEC. 222. None of the funds appropriated or otherwise made available by this Act or any other Act for the Department of Veterans Affairs may be used in a manner that is inconsistent with: (1) section 842 of the Transportation, Housing and Urban Development, the Judiciary, the District of Columbia, and Independent Agencies Appropriations Act, 2006 (Public Law 109–115; 119 Stat. 2506); or (2) section 8110(a)(5) of title 38, United States Code.

SEC. 223. Of the amounts made available to the Department of Veterans Affairs for fiscal year 2012, in this Act or any other Act, under the "Medical facilities" account for non-recurring maintenance, not more than 20 percent of the funds made available shall be obligated during the last 2 months of that fiscal year: Provided, That the Secretary may waive this requirement after providing written notice to the Committees on Appropriations of both Houses of Congress.

(INCLUDING TRANSFER OF FUNDS)

SEC. 224. Of the amounts appropriated to the Department of Veterans Affairs for fiscal year 2012 for "Medical services", "Medical support and compliance", "Medical facilities", "Construction, minor projects", and "Information technology systems", up to \$241,666,000, plus reimbursements, may be transferred to the Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund, established by section 1704 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84; 123 Stat. 3571) and may be used for operation of the facilities designated as combined Federal medical facilities as described by section 706 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110–417; 122 Stat. 4500): Provided, That additional funds may be transferred from accounts designated in this section to the Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund upon written notification by the Secretary of Veterans Affairs to the Committees on Appropriations of both Houses of Congress.

(INCLUDING TRANSFER OF FUNDS)

SEC. 225. Such sums as may be deposited to the Medical Care Collections Fund pursuant to section 1729A of title 38, United States Code, for health care provided at facilities designated as combined Federal medical facilities as described by section 706 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110–417; 122 Stat. 4500) shall also be available: (1) for transfer to the Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund, established by section 1704 of the National Defense Authorization Act for Fiscal Year 2010 (Public Law 111–84; 123 Stat. 3571); and (2) for operations of the facilities designated as combined Federal medical facilities as described by section 706 of the Duncan Hunter National Defense Authorization Act for Fiscal Year 2009 (Public Law 110–417; 122 Stat. 4500).

(INCLUDING TRANSFER OF FUNDS)

SEC. 226. Of the amounts available in this title for "Medical services", "Medical support and compliance", and "Medical facilities", a minimum of \$15,000,000, shall be transferred to the DOD-VA Health Care Sharing Incentive Fund, as authorized by section 8111(d) of title 38, United States Code, to remain available until expended, for any purpose authorized by section 8111 of title 38, United States Code.

(INCLUDING RESCISSIONS OF FUNDS)

SEC. 227. (a) Of the funds appropriated in title X of division B of Public Law 112–10, the following amounts which became available on October 1, 2011, are hereby rescinded from the following accounts in the amounts specified:

(1) "Department of Veterans Affairs, Medical services", \$1,400,000,000.

(2) "Department of Veterans Affairs, Medical support and compliance", \$100,000,000.

(3) “Department of Veterans Affairs, Medical facilities”, \$250,000,000.

(b) In addition to amounts provided elsewhere in this Act, an additional amount is appropriated to the following accounts in the amounts specified to remain available until September 30, 2013:

(1) “Department of Veterans Affairs, Medical services”, \$1,400,000,000.

(2) “Department of Veterans Affairs, Medical support and compliance”, \$100,000,000.

(3) “Department of Veterans Affairs, Medical facilities”, \$250,000,000.

SEC. 228. The Secretary of the Department of Veterans Affairs shall notify the Committees on Appropriations of both Houses of Congress of all bid savings in major construction projects that total at least \$5,000,000, or 5 percent of the programmed amount of the project, whichever is less: Provided, That such notification shall occur within 14 days of a contract identifying the programmed amount: Provided further, That the Secretary shall notify the committees 14 days prior to the obligation of such bid savings and shall describe the anticipated use of such savings.

SEC. 229. The scope of work for a project included in “Construction, major projects” may not be increased above the scope specified for that project in the original justification data provided to the Congress as part of the request for appropriations.

SEC. 230. (a) EXCEPTION WITH RESPECT TO CONFIDENTIAL NATURE OF CLAIMS.—Section 5701 of title 38, United States Code, is amended by adding at the end the following new subsection:

“(l) Under regulations the Secretary shall prescribe, the Secretary may disclose information about a veteran or the dependent of a veteran to a State controlled substance monitoring program, including a program approved by the Secretary of Health and Human Services under section 399O of the Public Health Service Act (42 U.S.C. 280g–3), to the extent necessary to prevent misuse and diversion of prescription medicines.”.

(b) EXCEPTION WITH RESPECT TO CONFIDENTIALITY OF CERTAIN MEDICAL RECORDS.—Section 7332(b)(2) of title 38, United States Code, is amended by adding at the end the following new subparagraph:

“(G) To a State controlled substance monitoring program, including a program approved by the Secretary of Health and Human Services under section 399O of the Public Health Service Act (42 U.S.C. 280g–3), to the extent necessary to prevent misuse and diversion of prescription medicines.”.

SEC. 231. The Secretary of Veterans Affairs shall provide on a quarterly basis to the Committees on Appropriations of both Houses of Congress notification of any single national outreach and awareness marketing campaign in which obligations exceed \$2,000,000. The first report shall be submitted no later than April 15, 2012.

SEC. 232. None of the funds made available by this Act may be used to declare as excess to the needs of the Department of Veterans Affairs or otherwise take any action to exchange, trade, auction, transfer, or otherwise dispose of, or reduce the acreage of, Federal land and improvements at the St. Albans campus, consisting of approximately 55 acres of land, with borders near Linden Boulevard on the northwest, 115th Avenue on the west, the Long Island Railroad on the northeast, and Baisley Boulevard on the southeast.

SEC. 233. None of the funds made available in this Act may be used to enter into a contract using procedures that do not give to small business concerns owned and controlled by veterans (as that term is defined in section 3(q)(3) of the Small Business Act (15 U.S.C. 632(q)(3))) that are

included in the database under section 8127(f) of title 38, United States Code, any preference available with respect to such contract, except for a preference given to small business concerns owned and controlled by service-disabled veterans (as defined in section 3(q)(2) of the Small Business Act (15 U.S.C. 632(q)(2))).

SEC. 234. Section 315(b) of title 38, United States Code, is amended by striking “December 31, 2011” and inserting “December 31, 2012”.

#### TITLE III

##### RELATED AGENCIES

##### AMERICAN BATTLE MONUMENTS COMMISSION SALARIES AND EXPENSES

For necessary expenses, not otherwise provided for, of the American Battle Monuments Commission, including the acquisition of land or interest in land in foreign countries; purchases and repair of uniforms for caretakers of national cemeteries and monuments outside of the United States and its territories and possessions; rent of office and garage space in foreign countries; purchase (one-for-one replacement basis only) and hire of passenger motor vehicles; not to exceed \$7,500 for official reception and representation expenses; and insurance of official motor vehicles in foreign countries, when required by law of such countries, \$61,100,000, to remain available until expended.

##### FOREIGN CURRENCY FLUCTUATIONS ACCOUNT

For necessary expenses, not otherwise provided for, of the American Battle Monuments Commission, such sums as may be necessary, to remain available until expended, for purposes authorized by section 2109 of title 36, United States Code.

##### UNITED STATES COURT OF APPEALS FOR VETERANS CLAIMS

##### SALARIES AND EXPENSES

For necessary expenses for the operation of the United States Court of Appeals for Veterans Claims as authorized by sections 7251 through 7298 of title 38, United States Code, \$30,770,000: Provided, That \$2,726,323 shall be available for the purpose of providing financial assistance as described, and in accordance with the process and reporting procedures set forth, under this heading in Public Law 102–229.

##### DEPARTMENT OF DEFENSE—CIVIL

##### CEMETERIAL EXPENSES, ARMY

##### SALARIES AND EXPENSES

For necessary expenses, as authorized by law, for maintenance, operation, and improvement of Arlington National Cemetery and Soldiers' and Airmen's Home National Cemetery, including the purchase or lease of passenger motor vehicles for replacement on a one-for-one basis only, and not to exceed \$1,000 for official reception and representation expenses, \$45,800,000, to remain available until expended. In addition, such sums as may be necessary for parking maintenance, repairs and replacement, to be derived from the “Lease of Department of Defense Real Property for Defense Agencies” account.

Funds appropriated under this Act may be provided to Arlington County, Virginia, for the relocation of the federally owned water main at Arlington National Cemetery making additional land available for ground burials.

##### ARMED FORCES RETIREMENT HOME

##### TRUST FUND

For expenses necessary for the Armed Forces Retirement Home to operate and maintain the Armed Forces Retirement Home—Washington, District of Columbia, and the Armed Forces Retirement Home—Gulport, Mississippi, to be paid from funds available in the Armed Forces Retirement Home Trust Fund, \$67,700,000, of which \$2,000,000 shall remain available until expended for construction and renovation of the physical

plants at the Armed Forces Retirement Home—Washington, District of Columbia, and the Armed Forces Retirement Home—Gulport, Mississippi.

##### GENERAL FUND PAYMENT, ARMED FORCES RETIREMENT HOME

For payment to the “Armed Forces Retirement Home”, \$14,630,000, to remain available until expended, for expenses necessary to mitigate structural damage sustained to buildings on the Armed Forces Retirement Home—Washington, District of Columbia, campus as a result of the August 2011 earthquake.

#### TITLE IV

##### OVERSEAS CONTINGENCY OPERATIONS

##### DEPARTMENT OF DEFENSE

##### MILITARY CONSTRUCTION, ARMY

For an additional amount for “Military Construction, Army”, \$80,000,000, to remain available until September 30, 2012: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

##### MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

For an additional amount for “Military Construction, Navy and Marine Corps”, \$189,703,000, to remain available until September 30, 2012: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

##### ADMINISTRATIVE PROVISIONS

##### (INCLUDING RESCISSION OF FUNDS)

SEC. 401. Of the unobligated balances in title IV, division E of Public Law 111–117, \$269,703,000 are hereby rescinded: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

#### TITLE V

##### GENERAL PROVISIONS

SEC. 501. No part of any appropriation contained in this Act shall remain available for obligation beyond the current fiscal year unless expressly so provided herein.

SEC. 502. None of the funds made available in this Act may be used for any program, project, or activity, when it is made known to the Federal entity or official to which the funds are made available that the program, project, or activity is not in compliance with any Federal law relating to risk assessment, the protection of private property rights, or unfunded mandates.

SEC. 503. Such sums as may be necessary for fiscal year 2012 for pay raises for programs funded by this Act shall be absorbed within the levels appropriated in this Act.

SEC. 504. No part of any funds appropriated in this Act shall be used by an agency of the executive branch, other than for normal and recognized executive-legislative relationships, for publicity or propaganda purposes, and for the preparation, distribution, or use of any kit, pamphlet, booklet, publication, radio, television, or film presentation designed to support or defeat legislation pending before Congress, except in presentation to Congress itself.

SEC. 505. All departments and agencies funded under this Act are encouraged, within the limits of the existing statutory authorities and funding, to expand their use of “E-Commerce” technologies and procedures in the conduct of their business practices and public service activities.

SEC. 506. Unless stated otherwise, all reports and notifications required by this Act shall be

submitted to the Subcommittee on Military Construction and Veterans Affairs, and Related Agencies of the Committee on Appropriations of the House of Representatives and the Subcommittee on Military Construction and Veterans Affairs, and Related Agencies of the Committee on Appropriations of the Senate.

SEC. 507. None of the funds made available in this Act may be transferred to any department, agency, or instrumentality of the United States Government except pursuant to a transfer made by, or transfer authority provided in, this or any other appropriations Act.

SEC. 508. None of the funds made available in this Act may be used for a project or program named for an individual serving as a Member, Delegate, or Resident Commissioner of the United States House of Representatives.

SEC. 509. (a) Any agency receiving funds made available in this Act, shall, subject to subsections (b) and (c), post on the public website of that agency any report required to be submitted by the Congress in this or any other Act, upon the determination by the head of the agency that it shall serve the national interest.

(b) Subsection (a) shall not apply to a report if—

(1) the public posting of the report compromises national security; or

(2) the report contains confidential or proprietary information.

(c) The head of the agency posting such report shall do so only after such report has been made available to the requesting Committee or Committees of Congress for no less than 45 days.

SEC. 510. (a) None of the funds made available in this Act may be used to maintain or establish a computer network unless such network blocks the viewing, downloading, and exchanging of pornography.

(b) Nothing in subsection (a) shall limit the use of funds necessary for any Federal, State, tribal, or local law enforcement agency or any other entity carrying out criminal investigations, prosecution, or adjudication activities.

SEC. 511. (a) IN GENERAL.—None of the funds appropriated or otherwise made available to the Department of Defense in this Act may be used to construct, renovate, or expand any facility in the United States, its territories, or possessions to house any individual detained at United States Naval Station, Guantanamo Bay, Cuba, for the purposes of detention or imprisonment in the custody or under the control of the Department of Defense.

(b) The prohibition in subsection (a) shall not apply to any modification of facilities at United States Naval Station, Guantanamo Bay, Cuba.

(c) An individual described in this subsection is any individual who, as of June 24, 2009, is located at United States Naval Station, Guantanamo Bay, Cuba, and who—

(1) is not a citizen of the United States or a member of the Armed Forces of the United States; and

(2) is—

(A) in the custody or under the effective control of the Department of Defense; or

(B) otherwise under detention at United States Naval Station, Guantanamo Bay, Cuba.

SEC. 512. None of the funds appropriated or otherwise made available in this Act may be used by an agency of the executive branch to pay for first-class travel by an employee of the agency in contravention of sections 301–10.122 through 301–10.124 of title 41, Code of Federal Regulations.

SEC. 513. None of the funds provided in this Act may be used to execute a contract for goods or services, including construction services, where the contractor has not complied with Executive Order No. 12989.

SEC. 514. None of the funds made available by this Act may be used to enter into a contract,

memorandum of understanding, or cooperative agreement with, or to make a grant to, any corporation that was convicted of a felony criminal violation under any Federal or State law within the preceding 24 months, where the awarding agency is aware of the conviction, unless the agency has considered suspension or debarment of the corporation and made a determination that this further action is not necessary to protect the interests of the Government.

This division may be cited as the “Military Construction and Veterans Affairs, and Related Agencies Appropriations Act, 2012”.

## ***DIVISION I—DEPARTMENT OF STATE, FOREIGN OPERATIONS, AND RELATED PROGRAMS APPROPRIATIONS ACT, 2012***

### ***TITLE I***

#### ***DEPARTMENT OF STATE AND RELATED AGENCY***

##### ***DEPARTMENT OF STATE***

##### ***ADMINISTRATION OF FOREIGN AFFAIRS***

##### ***DIPLOMATIC AND CONSULAR PROGRAMS***

##### ***(INCLUDING TRANSFER OF FUNDS)***

For necessary expenses of the Department of State and the Foreign Service not otherwise provided for, \$6,550,947,000, of which up to \$1,355,000,000 is for Worldwide Security Protection (to remain available until expended): Provided, That funds made available under this heading shall be allocated as follows:

(1) HUMAN RESOURCES.—For necessary expenses for training, human resources management, and salaries, including employment without regard to civil service and classification laws of persons on a temporary basis (not to exceed \$700,000), as authorized by section 801 of the United States Information and Educational Exchange Act of 1948, \$2,277,862,000, to remain available until September 30, 2013, of which not less than \$121,814,000 shall be available only for public diplomacy American salaries, and up to \$203,800,000 is for Worldwide Security Protection and shall remain available until expended.

(2) OVERSEAS PROGRAMS.—For necessary expenses for the regional bureaus of the Department of State and overseas activities as authorized by law, \$2,109,293,000, to remain available until September 30, 2013, of which not less than \$347,572,000 shall be available only for public diplomacy international information programs.

(3) DIPLOMATIC POLICY AND SUPPORT.—For necessary expenses for the functional bureaus of the Department of State including representation to certain international organizations in which the United States participates pursuant to treaties ratified pursuant to the advice and consent of the Senate or specific Acts of Congress, general administration, and arms control, nonproliferation and disarmament activities as authorized, \$822,513,000, to remain available until September 30, 2013.

(4) SECURITY PROGRAMS.—For necessary expenses for security activities, \$1,341,279,000, to remain available until September 30, 2013, of which up to \$1,151,200,000 is for Worldwide Security Protection and shall remain available until expended.

(5) FEES AND PAYMENTS COLLECTED.—In addition to amounts otherwise made available under this heading—

(A) not to exceed \$1,753,991 shall be derived from fees collected from other executive agencies for lease or use of facilities located at the International Center in accordance with section 4 of the International Center Act, and, in addition, as authorized by section 5 of such Act, \$520,150, to be derived from the reserve authorized by that section, to be used for the purposes set out in that section;

(B) as authorized by section 810 of the United States Information and Educational Exchange Act, not to exceed \$5,000,000, to remain available

until expended, may be credited to this appropriation from fees or other payments received from English teaching, library, motion pictures, and publication programs and from fees from educational advising and counseling and exchange visitor programs; and

(C) not to exceed \$15,000, which shall be derived from reimbursements, surcharges and fees for use of Blair House facilities.

#### ***(6) TRANSFER, REPROGRAMMING, AND OTHER MATTERS.—***

(A) Notwithstanding any provision of this Act, funds may be reprogrammed within and between subsections under this heading subject to section 7015 of this Act;

(B) Of the amount made available under this heading, not to exceed \$10,000,000 may be transferred to, and merged with, funds made available by this Act under the heading “Emergencies in the Diplomatic and Consular Service”, to be available only for emergency evacuations and rewards, as authorized; and

(C) Funds appropriated under this heading are available for acquisition by exchange or purchase of passenger motor vehicles as authorized by law and, pursuant to 31 U.S.C. 1108(g), for the field examination of programs and activities in the United States funded from any account contained in this title.

(D) Of the amount made available under this heading, up to \$6,000,000 may be transferred to, and merged with, funds made available by this Act under the heading “Department of State, Administration of Foreign Affairs, Capital Investment Fund”: Provided, That the transfer authority of this subparagraph is in addition to any other transfer authority available to the Secretary of State.

(E)(i) The headings “Civilian Stabilization Initiative” in titles I and II of prior acts making appropriations for the Department of State, foreign operations, and related programs shall be renamed “Conflict Stabilization Operations”.

(ii) Of the funds appropriated under this heading, up to \$35,000,000, to remain available until expended, may be transferred to, and merged with, funds previously made available under the heading “Conflict Stabilization Operations” in title I of prior acts making appropriations for the Department of State, foreign operations and related programs, as amended by subparagraph (i).

(F) None of the funds appropriated under this heading may be used for the preservation of religious sites unless the Secretary of State determines and reports to the Committees on Appropriations that such sites are historically, artistically, or culturally significant, that the purpose of the project is neither to advance nor to inhibit the free exercise of religion, and that the project is in the national interest of the United States.

#### ***CAPITAL INVESTMENT FUND***

For necessary expenses of the Capital Investment Fund, \$59,380,000, to remain available until expended, as authorized: Provided, That section 135(e) of Public Law 103–236 shall not apply to funds available under this heading.

#### ***OFFICE OF INSPECTOR GENERAL***

For necessary expenses of the Office of Inspector General, \$61,904,000, notwithstanding section 209(a)(1) of the Foreign Service Act of 1980 (Public Law 96–465), as it relates to post inspections.

#### ***EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS***

For expenses of educational and cultural exchange programs, as authorized, \$583,200,000, to remain available until expended: Provided, That not to exceed \$5,000,000, to remain available until expended, may be credited to this appropriation from fees or other payments received from or in connection with English teaching,

educational advising and counseling programs, and exchange visitor programs as authorized.

#### REPRESENTATION ALLOWANCES

For representation allowances as authorized, \$7,300,000.

#### PROTECTION OF FOREIGN MISSIONS AND OFFICIALS

For expenses, not otherwise provided, to enable the Secretary of State to provide for extraordinary protective services, as authorized, \$27,000,000, to remain available until September 30, 2013.

#### EMBASSY SECURITY, CONSTRUCTION, AND MAINTENANCE

For necessary expenses for carrying out the Foreign Service Buildings Act of 1926 (22 U.S.C. 292–303), preserving, maintaining, repairing, and planning for buildings that are owned or directly leased by the Department of State, renovating, in addition to funds otherwise available, the Harry S Truman Building, and carrying out the Diplomatic Security Construction Program as authorized, \$762,000,000, to remain available until expended as authorized, of which not to exceed \$25,000 may be used for domestic and overseas representation as authorized: Provided, That none of the funds appropriated in this paragraph shall be available for acquisition of furniture, furnishings, or generators for other departments and agencies.

In addition, for the costs of worldwide security upgrades, acquisition, and construction as authorized, \$775,000,000, to remain available until expended: Provided, That not later than 45 days after enactment of this Act, the Secretary of State shall submit to the Committees on Appropriations the proposed allocation of funds made available under this heading and the actual and anticipated proceeds of sales for all projects in fiscal year 2012.

#### EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE

##### (INCLUDING TRANSFER OF FUNDS)

For necessary expenses to enable the Secretary of State to meet unforeseen emergencies arising in the Diplomatic and Consular Service, \$9,300,000, to remain available until expended as authorized, of which not to exceed \$1,000,000 may be transferred to, and merged with, funds appropriated by this Act under the heading “Repatriation Loans Program Account”, subject to the same terms and conditions.

#### REPATRIATION LOANS PROGRAM ACCOUNT (INCLUDING TRANSFER OF FUNDS)

For the cost of direct loans, \$1,447,000, as authorized, of which \$710,000 may be made available for administrative expenses necessary to carry out the direct loan program and may be paid to “Diplomatic and Consular Programs”: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974.

#### PAYMENT TO THE AMERICAN INSTITUTE IN TAIWAN

For necessary expenses to carry out the Taiwan Relations Act (Public Law 96–8), \$21,108,000.

#### PAYMENT TO THE FOREIGN SERVICE RETIREMENT AND DISABILITY FUND

For payment to the Foreign Service Retirement and Disability Fund, as authorized, \$158,900,000.

#### INTERNATIONAL ORGANIZATIONS

##### CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

For necessary expenses, not otherwise provided for, to meet annual obligations of membership in international multilateral organizations, pursuant to treaties ratified pursuant to the advice and consent of the Senate, conventions or specific Acts of Congress, \$1,449,700,000: Provided, That the Secretary of State shall, at the

time of the submission of the President's budget to Congress under section 1105(a) of title 31, United States Code, transmit to the Committees on Appropriations the most recent biennial budget prepared by the United Nations for the operations of the United Nations: Provided further, That the Secretary of State shall notify the Committees on Appropriations at least 15 days in advance (or in an emergency, as far in advance as is practicable) of any United Nations action to increase funding for any United Nations program without identifying an offsetting decrease elsewhere in the United Nations budget: Provided further, That the Secretary of State shall report to the Committees on Appropriations not later than May 1, 2012, on any credits available to the United States from the United Nations Tax Equalization Fund (TEF) and provide updated fiscal year 2013 assessment costs including offsets from available TEF credits and updated foreign currency exchange rates: Provided further, That any such credits shall only be available for United States assessed contributions to the United Nations and shall be subject to the regular notification procedures of the Committees on Appropriations: Provided further, That any payment of arrearages under this heading shall be directed toward activities that are mutually agreed upon by the United States and the respective international organization: Provided further, That none of the funds appropriated under this heading shall be available for a United States contribution to an international organization for the United States share of interest costs made known to the United States Government by such organization for loans incurred on or after October 1, 1984, through external borrowings.

##### CONTRIBUTIONS FOR INTERNATIONAL PEACEKEEPING ACTIVITIES

For necessary expenses to pay assessed and other expenses of international peacekeeping activities directed to the maintenance or restoration of international peace and security, \$1,828,182,000, of which 15 percent shall remain available until September 30, 2013: Provided, That none of the funds made available by this Act shall be obligated or expended for any new or expanded United Nations peacekeeping mission unless, at least 15 days in advance of voting for the new or expanded mission in the United Nations Security Council (or in an emergency as far in advance as is practicable), the Committees on Appropriations are notified: (1) of the estimated cost and duration of the mission, the national interest that will be served, and the exit strategy; (2) that the United Nations has taken necessary measures to prevent United Nations employees, contractor personnel, and peacekeeping troops serving in the mission from trafficking in persons, exploiting victims of trafficking, or committing acts of illegal sexual exploitation or other violations of human rights, and to bring to justice individuals who engage in such acts while participating in the peacekeeping mission, including prosecution in their home countries of such individuals in connection with such acts, and to make information about such cases publicly available in the country where an alleged crime occurs and on the United Nations' Web site; and (3) pursuant to section 7015 of this Act, and the procedures therein followed, setting forth the source of funds that will be used to pay the cost of the new or expanded mission: Provided further, That funds shall be available for peacekeeping expenses unless the Secretary of State determines that American manufacturers and suppliers are not being given opportunities to provide equipment, services, and material for United Nations peacekeeping activities equal to those being given to foreign manufacturers and suppliers: Provided further, That the Secretary of State shall work with the United Nations and

governments contributing peacekeeping troops to develop effective vetting procedures to ensure that such troops have not violated human rights: Provided further, That none of the funds appropriated or otherwise made available under this heading may be used for any United Nations peacekeeping mission that will involve United States Armed Forces under the command or operational control of a foreign national, unless the President's military advisors have submitted to the President a recommendation that such involvement is in the national interests of the United States and the President has submitted to the Congress such a recommendation: Provided further, That notwithstanding any other provision of law, funds appropriated or otherwise made available under this heading shall be available for United States assessed contributions up to the amount specified in Annex IV accompanying United Nations General Assembly Resolution 64/220: Provided further, That such funds may be made available above the amount authorized in section 404(b)(2)(B) of the Foreign Relations Authorization Act, fiscal years 1994 and 1995 (22 U.S.C. 287e note) only if the Secretary of State determines and reports to the Committees on Appropriations, the Committee on Foreign Affairs of the House of Representatives, and the Committee on Foreign Relations of the Senate that it is important to the national interest of the United States: Provided further, That the Secretary of State shall report to the Committees on Appropriations not later than May 1, 2012, of any credits available to the United States resulting from United Nations peacekeeping missions or the United Nations Tax Equalization Fund: Provided further, That any such credits shall only be available for United States assessed contributions to the United Nations and shall be subject to the regular notification procedures of the Committees on Appropriations.

##### INTERNATIONAL COMMISSIONS

For necessary expenses, not otherwise provided for, to meet obligations of the United States arising under treaties, or specific Acts of Congress, as follows:

##### INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

For necessary expenses for the United States Section of the International Boundary and Water Commission, United States and Mexico, and to comply with laws applicable to the United States Section, including not to exceed \$6,000 for representation; as follows:

##### SALARIES AND EXPENSES

For salaries and expenses, not otherwise provided for, \$44,722,000.

##### CONSTRUCTION

For detailed plan preparation and construction of authorized projects, \$31,453,000, to remain available until expended, as authorized.

##### AMERICAN SECTIONS, INTERNATIONAL COMMISSIONS

For necessary expenses, not otherwise provided for, for the International Joint Commission and the International Boundary Commission, United States and Canada, as authorized by treaties between the United States and Canada or Great Britain, and the Border Environment Cooperation Commission as authorized by Public Law 103–182, \$11,687,000: Provided, That of the amount provided under this heading for the International Joint Commission, \$9,000 may be made available for representation expenses.

##### INTERNATIONAL FISHERIES COMMISSIONS

For necessary expenses for international fisheries commissions, not otherwise provided for, as authorized by law, \$36,300,000: Provided, That the United States share of such expenses may be advanced to the respective commissions pursuant to 31 U.S.C. 3324.

## RELATED AGENCY

## BROADCASTING BOARD OF GOVERNORS

## INTERNATIONAL BROADCASTING OPERATIONS

For necessary expenses to enable the Broadcasting Board of Governors (BBG), as authorized, to carry out international communication activities, and to make and supervise grants for radio and television broadcasting to the Middle East, \$740,100,000: Provided, That funds appropriated under this heading shall be made available to expand unrestricted access to information on the Internet through the development and use of circumvention and secure communication technologies: Provided further, That the circumvention technologies and programs supported by such funds shall undergo a review, to include an assessment of protections against such technologies being used for illicit purposes: Provided further, That the BBG shall coordinate the development and use of such technologies with the Secretary of State, as appropriate: Provided further, That of the total amount appropriated under this heading, not to exceed \$16,000 may be used for official receptions within the United States as authorized, not to exceed \$35,000 may be used for representation abroad as authorized, and not to exceed \$39,000 may be used for official reception and representation expenses of Radio Free Europe/Radio Liberty: Provided further, That the authority provided by section 504(c) of the Foreign Relations Authorization Act, Fiscal Year 2003 (Public Law 107-228; 22 U.S.C. 6206 note) shall remain in effect through September 30, 2012: Provided further, That the BBG shall notify the Committees on Appropriations within 15 days of any determination by the Board that any of its broadcast entities, including its grantee organizations, provides an open platform for international terrorists or those who support international terrorism, or is in violation of the principles and standards set forth in the United States International Broadcasting Act of 1994 (22 U.S.C. 6202(a) and (b)) or the entity's journalistic code of ethics: Provided further, That significant modifications to BBG broadcast hours previously justified to Congress, including changes to transmission platforms (shortwave, medium wave, satellite, Internet, and television), for all BBG language services shall be subject to the regular notification procedures of the Committees on Appropriations: Provided further, That in addition to funds made available under this heading, and notwithstanding any other provision of law, up to \$2,000,000 in receipts from advertising and revenue from business ventures, up to \$500,000 in receipts from cooperating international organizations, and up to \$1,000,000 in receipts from privatization efforts of the Voice of America and the International Broadcasting Bureau, to remain available until expended for carrying out authorized purposes.

## BROADCASTING CAPITAL IMPROVEMENTS

For the purchase, rent, construction, and improvement of facilities for radio and television transmission and reception, and purchase and installation of necessary equipment for radio and television transmission and reception, including to Cuba, as authorized, \$7,030,000, to remain available until expended, as authorized.

## RELATED PROGRAMS

## THE ASIA FOUNDATION

For a grant to The Asia Foundation, as authorized by The Asia Foundation Act (22 U.S.C. 4402), \$17,000,000, to remain available until expended, as authorized.

## UNITED STATES INSTITUTE OF PEACE

For necessary expenses of the United States Institute of Peace, as authorized by the United States Institute of Peace Act, \$30,589,000, to remain available until September 30, 2013, which shall not be used for construction activities.

CENTER FOR MIDDLE EASTERN-WESTERN  
DIALOGUE TRUST FUND

For necessary expenses of the Center for Middle Eastern-Western Dialogue Trust Fund, as authorized by section 633 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 2004 (22 U.S.C. 2078), the total amount of the interest and earnings accruing to such Fund on or before September 30, 2012, to remain available until expended.

## EISENHOWER EXCHANGE FELLOWSHIP PROGRAM

For necessary expenses of Eisenhower Exchange Fellowships, Incorporated, as authorized by sections 4 and 5 of the Eisenhower Exchange Fellowship Act of 1990 (20 U.S.C. 5204–5205), all interest and earnings accruing to the Eisenhower Exchange Fellowship Program Trust Fund on or before September 30, 2012, to remain available until expended: Provided, That none of the funds appropriated herein shall be used to pay any salary or other compensation, or to enter into any contract providing for the payment thereof, in excess of the rate authorized by 5 U.S.C. 5376; or for purposes which are not in accordance with OMB Circulars A-110 (Uniform Administrative Requirements) and A-122 (Cost Principles for Non-profit Organizations), including the restrictions on compensation for personal services.

## ISRAELI ARAB SCHOLARSHIP PROGRAM

For necessary expenses of the Israeli Arab Scholarship Program, as authorized by section 214 of the Foreign Relations Authorization Act, Fiscal Years 1992 and 1993 (22 U.S.C. 2452), all interest and earnings accruing to the Israeli Arab Scholarship Fund on or before September 30, 2012, to remain available until expended.

## EAST-WEST CENTER

To enable the Secretary of State to provide for carrying out the provisions of the Center for Cultural and Technical Interchange Between East and West Act of 1960, by grant to the Center for Cultural and Technical Interchange Between East and West in the State of Hawaii, \$16,700,000: Provided, That none of the funds appropriated herein shall be used to pay any salary, or enter into any contract providing for the payment thereof, in excess of the rate authorized by 5 U.S.C. 5376.

## NATIONAL ENDOWMENT FOR DEMOCRACY

For grants made by the Department of State to the National Endowment for Democracy, as authorized by the National Endowment for Democracy Act, \$117,764,000, to remain available until expended, of which \$100,000,000 shall be allocated in the traditional and customary manner, including for the core institutes, and \$17,764,000 shall be for democracy, human rights, and rule of law programs: Provided, That the President of the National Endowment for Democracy shall submit to the Committees on Appropriations not later than 45 days after the date of enactment of this Act a report on the proposed uses of funds under this heading on a regional and country basis.

## OTHER COMMISSIONS

COMMISSION FOR THE PRESERVATION OF  
AMERICA'S HERITAGE ABROAD

## SALARIES AND EXPENSES

For necessary expenses for the Commission for the Preservation of America's Heritage Abroad, \$634,000, as authorized by section 1303 of Public Law 99-83.

UNITED STATES COMMISSION ON INTERNATIONAL  
RELIGIOUS FREEDOM

## SALARIES AND EXPENSES

For necessary expenses for the United States Commission on International Religious Freedom, as authorized by title II of the International Re-

ligious Freedom Act of 1998 (Public Law 105-292), \$3,000,000, to remain available until September 30, 2013: Provided, That section 209 of the International Religious Freedom Act of 1998 (22 U.S.C. 6436) shall be applied by substituting "September 30, 2012" for "September 30, 2011": Provided further, That notwithstanding the expenditure limitation specified in section 208(c)(1) of such Act (22 U.S.C. 6435a(c)(1)), the Commission may expend up to \$250,000 of the funds made available under this heading to procure temporary and intermittent services under the authority of section 3109(b) of title 5, United States Code: Provided further, That travel by members and staff of the Commission shall be arranged and conducted under the rules and procedures applying to travel by members and staff of the House of Representatives: Provided further, That for the purposes of employment rights, any employee of the Commission shall be considered to be a congressional employee as defined in section 2107 of title 5, United States Code and the Commission shall be treated as a congressional employing office.

COMMISSION ON SECURITY AND COOPERATION IN  
EUROPE

## SALARIES AND EXPENSES

For necessary expenses of the Commission on Security and Cooperation in Europe, as authorized by Public Law 94-304, \$2,715,000, to remain available until September 30, 2013.

CONGRESSIONAL-EXECUTIVE COMMISSION ON THE  
PEOPLE'S REPUBLIC OF CHINA

## SALARIES AND EXPENSES

For necessary expenses of the Congressional-Executive Commission on the People's Republic of China, as authorized by title III of the U.S.-China Relations Act of 2000 (22 U.S.C. 6911-6919), \$1,996,000, including not more than \$3,000 for the purpose of official representation, to remain available until September 30, 2013.

UNITED STATES-CHINA ECONOMIC AND SECURITY  
REVIEW COMMISSION

## SALARIES AND EXPENSES

For necessary expenses of the United States-China Economic and Security Review Commission, as authorized by section 1238 of the Floyd D. Spence National Defense Authorization Act for Fiscal Year 2001 (22 U.S.C. 7002), \$3,493,000, including not more than \$4,000 for the purpose of official representation, to remain available until September 30, 2013: Provided, That the authorities, requirements, limitations, and conditions contained in the second through sixth provisions under this heading in division F of Public Law 111-117 shall continue in effect during fiscal year 2012 and shall apply to funds appropriated under this heading as if included in this Act.

## TITLE II

UNITED STATES AGENCY FOR  
INTERNATIONAL DEVELOPMENT  
FUNDS APPROPRIATED TO THE PRESIDENT

## OPERATING EXPENSES

## (INCLUDING TRANSFER OF FUNDS)

For necessary expenses to carry out the provisions of section 667 of the Foreign Assistance Act of 1961, \$1,092,300,000, to remain available until September 30, 2013, of which not less than \$25,000,000 should be for costs associated with procurement reform: Provided, That none of the funds appropriated under this heading and under the heading "Capital Investment Fund" in this title may be made available to finance the construction (including architect and engineering services), purchase, or long-term lease of offices for use by the United States Agency for International Development (USAID), unless the USAID Administrator has identified such proposed use of funds in a report submitted to the Committees on Appropriations at least 15 days

prior to the obligation of funds for such purposes: Provided further, That contracts or agreements entered into with funds appropriated under this heading during fiscal year 2013 may entail commitments for the expenditure of such funds through the following fiscal year: Provided further, That any decision to open a new or reorganized USAID mission, bureau, center, or office or, except where there is a substantial security risk to mission personnel, to close or significantly reduce the number of personnel of any such mission or office, shall be subject to the regular notification procedures of the Committees on Appropriations: Provided further, That the authority of sections 610 and 109 of the Foreign Assistance Act of 1961 may be exercised by the Secretary of State to transfer funds appropriated to carry out chapter 1 of part I of such Act to "Operating Expenses" in accordance with the provisions of those sections: Provided further, That any reprogramming of funds in excess of \$1,000,000 or 10 percent, whichever is less, to the cost categories in the table included under this heading in the joint explanatory statement accompanying this Act for funds appropriated under this heading, shall be subject to the regular notification procedures of the Committees on Appropriations: Provided further, That of the funds appropriated or made available under this heading, not to exceed \$250,000 may be available for representation and entertainment allowances, of which not to exceed \$5,000 may be available for entertainment allowances, for USAID during the current fiscal year: Provided further, That no such entertainment funds may be used for the purposes listed in section 7020 of this Act: Provided further, That appropriate steps shall be taken to assure that, to the maximum extent possible, United States-owned foreign currencies are utilized in lieu of dollars.

#### CAPITAL INVESTMENT FUND

For necessary expenses for overseas construction and related costs, and for the procurement and enhancement of information technology and related capital investments, pursuant to section 667 of the Foreign Assistance Act of 1961, \$129,700,000, to remain available until expended: Provided, That this amount is in addition to funds otherwise available for such purposes: Provided further, That funds appropriated under this heading shall be available for obligation only pursuant to the regular notification procedures of the Committees on Appropriations.

#### OFFICE OF INSPECTOR GENERAL

For necessary expenses to carry out the provisions of section 667 of the Foreign Assistance Act of 1961, \$46,500,000, to remain available until September 30, 2013, which sum shall be available for the Office of Inspector General of the United States Agency for International Development.

#### TITLE III

##### BILATERAL ECONOMIC ASSISTANCE FUNDS APPROPRIATED TO THE PRESIDENT

For necessary expenses to enable the President to carry out the provisions of the Foreign Assistance Act of 1961, and for other purposes, as follows:

##### GLOBAL HEALTH PROGRAMS (INCLUDING TRANSFER OF FUNDS)

For necessary expenses to carry out the provisions of chapters 1 and 10 of part I of the Foreign Assistance Act of 1961, for global health activities, in addition to funds otherwise available for such purposes, \$2,625,000,000, to remain available until September 30, 2013, and which shall be apportioned directly to the United States Agency for International Development (USAID): Provided, That this amount shall be made available for training, equipment, and technical assistance to build the capacity of public health institutions and organizations in

developing countries, and for such activities as: (1) child survival and maternal health programs; (2) immunization and oral rehydration programs; (3) other health, nutrition, water and sanitation programs which directly address the needs of mothers and children, and related education programs; (4) assistance for children displaced or orphaned by causes other than AIDS; (5) programs for the prevention, treatment, control of, and research on HIV/AIDS, tuberculosis, polio, malaria, and other infectious diseases including neglected tropical diseases, and for assistance to communities severely affected by HIV/AIDS, including children infected or affected by AIDS; and (6) family planning/reproductive health: Provided further, That funds appropriated under this paragraph may be made available for a United States contribution to the GAVI Alliance: Provided further, That none of the funds made available in this Act nor any unobligated balances from prior appropriations Acts may be made available to any organization or program which, as determined by the President of the United States, supports or participates in the management of a program of coercive abortion or involuntary sterilization: Provided further, That any determination made under the previous proviso must be made no later than 6 months after the date of enactment of this Act, and must be accompanied by the evidence and criteria utilized to make the determination: Provided further, That none of the funds made available under this Act may be used to pay for the performance of abortion as a method of family planning or to motivate or coerce any person to practice abortions: Provided further, That nothing in this paragraph shall be construed to alter any existing statutory prohibitions against abortion under section 104 of the Foreign Assistance Act of 1961: Provided further, That none of the funds made available under this Act may be used to lobby for or against abortion: Provided further, That in order to reduce reliance on abortion in developing nations, funds shall be available only to voluntary family planning projects which offer, either directly or through referral to, or information about access to, a broad range of family planning methods and services, and that any such voluntary family planning project shall meet the following requirements: (1) service providers or referral agents in the project shall not implement or be subject to quotas, or other numerical targets, of total number of births, number of family planning acceptors, or acceptors of a particular method of family planning (this provision shall not be construed to include the use of quantitative estimates or indicators for budgeting and planning purposes); (2) the project shall not include payment of incentives, bribes, gratuities, or financial reward to: (A) an individual in exchange for becoming a family planning acceptor; or (B) program personnel for achieving a numerical target or quota of total number of births, number of family planning acceptors, or acceptors of a particular method of family planning; (3) the project shall not deny any right or benefit, including the right of access to participate in any program of general welfare or the right of access to health care, as a consequence of any individual's decision not to accept family planning services; (4) the project shall provide family planning acceptors comprehensive information on the health benefits and risks of the method chosen, including those conditions that might render the use of the method inadvisable and those adverse side effects known to be consequent to the use of the method; and (5) the project shall ensure that experimental contraceptive drugs and devices and medical procedures are provided only in the context of a scientific study in which participants are advised of potential risks and benefits; and, not less than 60 days after the date on

which the USAID Administrator determines that there has been a violation of the requirements contained in paragraph (1), (2), (3), or (5) of this proviso, or a pattern or practice of violations of the requirements contained in paragraph (4) of this proviso, the Administrator shall submit to the Committees on Appropriations a report containing a description of such violation and the corrective action taken by the Agency: Provided further, That in awarding grants for natural family planning under section 104 of the Foreign Assistance Act of 1961 no applicant shall be discriminated against because of such applicant's religious or conscientious commitment to offer only natural family planning; and, additionally, all such applicants shall comply with the requirements of the previous proviso: Provided further, That for purposes of this or any other Act authorizing or appropriating funds for the Department of State, foreign operations, and related programs, the term "motivate", as it relates to family planning assistance, shall not be construed to prohibit the provision, consistent with local law, of information or counseling about all pregnancy options: Provided further, That information provided about the use of condoms as part of projects or activities that are funded from amounts appropriated by this Act shall be medically accurate and shall include the public health benefits and failure rates of such use.

In addition, for necessary expenses to carry out the provisions of the Foreign Assistance Act of 1961 for the prevention, treatment, and control of, and research on, HIV/AIDS, \$5,542,860,000, to remain available until September 30, 2016, which shall be apportioned directly to the Department of State: Provided, That funds appropriated under this paragraph may be made available, notwithstanding any other provision of law, except for the United States Leadership Against HIV/AIDS, Tuberculosis and Malaria Act of 2003 (Public Law 108-25), as amended, for a United States contribution to the Global Fund to Fight AIDS, Tuberculosis and Malaria (Global Fund), and shall be expended at the minimum rate necessary to make timely payment for projects and activities: Provided further, That the amount of such contribution should be \$1,050,000,000: Provided further, That up to 5 percent of the aggregate amount of funds made available to the Global Fund in fiscal year 2012 may be made available to USAID for technical assistance related to the activities of the Global Fund: Provided further, That of the funds appropriated under this paragraph, up to \$14,250,000 may be made available, in addition to amounts otherwise available for such purposes, for administrative expenses of the Office of the United States Global AIDS Coordinator.

#### DEVELOPMENT ASSISTANCE

For necessary expenses to carry out the provisions of sections 103, 105, 106, 214, and sections 251 through 255, and chapter 10 of part I of the Foreign Assistance Act of 1961, \$2,519,950,000, to remain available until September 30, 2013: Provided, That relevant bureaus and offices of the United States Agency for International Development (USAID) that support cross-cutting development programs shall coordinate such programs on a regular basis: Provided further, That of the funds appropriated under this heading, not less than \$23,000,000 shall be made available for the American Schools and Hospitals Abroad program, and not less than \$10,000,000 shall be made available for USAID cooperative development programs within the Office of Private and Voluntary Cooperation.

#### INTERNATIONAL DISASTER ASSISTANCE

For necessary expenses to carry out the provisions of section 491 of the Foreign Assistance

Act of 1961 for international disaster relief, rehabilitation, and reconstruction assistance, \$825,000,000, to remain available until expended.

#### TRANSITION INITIATIVES

For necessary expenses for international disaster rehabilitation and reconstruction assistance pursuant to section 491 of the Foreign Assistance Act of 1961, \$50,141,000, to remain available until expended, to support transition to democracy and to long-term development of countries in crisis: Provided, That such support may include assistance to develop, strengthen, or preserve democratic institutions and processes, revitalize basic infrastructure, and foster the peaceful resolution of conflict: Provided further, That the United States Agency for International Development shall submit a report to the Committees on Appropriations at least 5 days prior to beginning a new program of assistance: Provided further, That if the Secretary of State determines that it is important to the national interests of the United States to provide transition assistance in excess of the amount appropriated under this heading, up to \$15,000,000 of the funds appropriated by this Act to carry out the provisions of part I of the Foreign Assistance Act of 1961 may be used for purposes of this heading and under the authorities applicable to funds appropriated under this heading: Provided further, That funds made available pursuant to the previous proviso shall be made available subject to prior consultation with the Committees on Appropriations.

#### COMPLEX CRISES FUND

For necessary expenses to carry out the provisions of the Foreign Assistance Act of 1961 to enable the Administrator of the United States Agency for International Development (USAID), in consultation with the Secretary of State, to support programs and activities to prevent or respond to emerging or unforeseen complex crises overseas, \$10,000,000, to remain available until expended: Provided, That funds appropriated under this heading may be made available on such terms and conditions as the USAID Administrator may determine, in consultation with the Committees on Appropriations, for the purposes of preventing or responding to such crises, except that no funds shall be made available to respond to natural disasters: Provided further, That funds appropriated under this heading may be made available notwithstanding any other provision of law, except sections 7007, 7008, and 7018 of this Act and section 620M of the Foreign Assistance Act of 1961, as amended by this Act: Provided further, That funds appropriated under this heading shall be subject to the regular notification procedures of the Committees on Appropriations, except that such notifications shall be transmitted at least 5 days in advance of the obligation of funds.

#### DEVELOPMENT CREDIT AUTHORITY (INCLUDING TRANSFER OF FUNDS)

For the cost of direct loans and loan guarantees provided by the United States Agency for International Development, as authorized by sections 256 and 635 of the Foreign Assistance Act of 1961, up to \$40,000,000 may be derived by transfer from funds appropriated by this Act to carry out part I of such Act and under the heading "Assistance for Europe, Eurasia and Central Asia": Provided, That funds provided under this paragraph and funds provided as a gift pursuant to section 635(d) of the Foreign Assistance Act of 1961 shall be made available only for micro and small enterprise programs, urban programs, and other programs which further the purposes of part I of such Act: Provided further, That such costs, including the cost of modifying such direct and guaranteed loans, shall be as defined in section 502 of the Congressional Budget Act of 1974, as amended: Provided further, That funds made available by this

paragraph may be used for the cost of modifying any such guaranteed loans under this Act or prior Acts, and funds used for such costs shall be subject to the regular notification procedures of the Committees on Appropriations: Provided further, That the provisions of section 107A(d) (relating to general provisions applicable to the Development Credit Authority) of the Foreign Assistance Act of 1961, as contained in section 306 of H.R. 1486 as reported by the House Committee on International Relations on May 9, 1997, shall be applicable to direct loans and loan guarantees provided under this heading, except that the principal amount of loans made or guaranteed under this heading with respect to any single country shall not exceed \$300,000,000: Provided further, That these funds are available to subsidize total loan principal, any portion of which is to be guaranteed, of up to \$750,000,000.

In addition, for administrative expenses to carry out credit programs administered by the United States Agency for International Development, \$8,300,000, which may be transferred to, and merged with, funds made available under the heading "Operating Expenses" in title II of this Act: Provided, That funds made available under this heading shall remain available until September 30, 2014.

#### ECONOMIC SUPPORT FUND (INCLUDING TRANSFER OF FUNDS)

For necessary expenses to carry out the provisions of chapter 4 of part II of the Foreign Assistance Act of 1961, \$3,001,745,000, to remain available until September 30, 2013: Provided, That of the funds appropriated under this heading, \$250,000,000 shall be available for assistance for Egypt, including not less than \$35,000,000 for education programs of which not less than \$10,000,000 is for scholarships at not-for-profit institutions for Egyptian students with high financial need, and to implement section 7041(a)(3) and (b) of this Act: Provided further, That funds appropriated under this heading that are made available for assistance for Cyprus shall be used only for scholarships, administrative support of the scholarship program, bicomunal projects, and measures aimed at reunification of the island and designed to reduce tensions and promote peace and cooperation between the two communities on Cyprus: Provided further, That \$12,000,000 of the funds made available for assistance for Lebanon under this heading shall be for scholarships at not-for-profit institutions for students in Lebanon with high financial need: Provided further, That of the funds appropriated under this heading, not less than \$360,000,000 shall be available for assistance for Jordan: Provided further, That up to \$30,000,000 of the funds appropriated for fiscal year 2011 under this heading in Public Law 112–10, division B, may be made available for the costs, as defined in section 502 of the Congressional Budget Act of 1974, of loan guarantees for Tunisia, which are authorized to be provided: Provided further, That amounts that are made available under the previous proviso for the cost of guarantees shall not be considered "assistance" for the purposes of provisions of law limiting assistance to a country: Provided further, That of the funds appropriated under this heading, not less than \$179,000,000 shall be apportioned directly to the United States Agency for International Development for alternative development/institution building programs in Colombia: Provided further, That of the funds appropriated under this heading that are available for assistance for Colombia, not less than \$7,000,000 shall be transferred to, and merged with, funds appropriated under the heading "Migration and Refugee Assistance" and shall be made available only for assistance to non-governmental and international organizations that provide assistance to Colombian refugees in neighboring countries: Provided further, That in

consultation with the Secretary of the Treasury, the Secretary of State may transfer up to \$200,000,000 of the funds made available under this heading to funds appropriated in this Act under the headings "Multilateral Assistance, Funds Appropriated to the President, International Financial Institutions" for additional payments to such institutions, facilities, and funds enumerated under such headings: Provided further, That prior to exercising the transfer authority under the previous proviso the Secretary of State shall consult with the Committees on Appropriations.

#### DEMOCRACY FUND

For necessary expenses to carry out the provisions of the Foreign Assistance Act of 1961 for the promotion of democracy globally, \$114,770,000, to remain available until September 30, 2013, of which \$68,000,000 shall be made available for the Human Rights and Democracy Fund of the Bureau of Democracy, Human Rights and Labor, Department of State, and \$46,770,000 shall be made available for the Office of Democracy and Governance of the Bureau for Democracy, Conflict, and Humanitarian Assistance, United States Agency for International Development.

#### ASSISTANCE FOR EUROPE, EURASIA AND CENTRAL ASIA

For necessary expenses to carry out the provisions of the Foreign Assistance Act of 1961, the FREEDOM Support Act, and the Support for East European Democracy (SEED) Act of 1989, \$626,718,000, to remain available until September 30, 2013, which shall be available, notwithstanding any other provision of law, for assistance and for related programs for countries identified in section 3 of the FREEDOM Support Act and section 3(c) of the SEED Act: Provided, That funds appropriated under this heading shall be considered to be economic assistance under the Foreign Assistance Act of 1961 for purposes of making available the administrative authorities contained in that Act for the use of economic assistance: Provided further, That funds made available for the Southern Caucasus region may be used for confidence-building measures and other activities in furtherance of the peaceful resolution of conflicts, including in Nagorno-Karabakh.

#### DEPARTMENT OF STATE

##### MIGRATION AND REFUGEE ASSISTANCE

For necessary expenses not otherwise provided for, to enable the Secretary of State to carry out the provisions of section 2(a) and (b) of the Migration and Refugee Assistance Act of 1962, and other activities to meet refugee and migration needs; salaries and expenses of personnel and dependents as authorized by the Foreign Service Act of 1980; allowances as authorized by sections 5921 through 5925 of title 5, United States Code; purchase and hire of passenger motor vehicles; and services as authorized by section 3109 of title 5, United States Code, \$1,639,100,000, to remain available until expended, of which \$20,000,000 shall be made available for refugees resettling in Israel, and not less than \$35,000,000 shall be made available to respond to small-scale emergency humanitarian requirements.

##### UNITED STATES EMERGENCY REFUGEE AND MIGRATION ASSISTANCE FUND

For necessary expenses to carry out the provisions of section 2(c) of the Migration and Refugee Assistance Act of 1962, as amended (22 U.S.C. 2601(c)), \$27,200,000, to remain available until expended.

#### INDEPENDENT AGENCIES

##### PEACE CORPS

##### (INCLUDING TRANSFER OF FUNDS)

For necessary expenses to carry out the provisions of the Peace Corps Act (22 U.S.C. 2501–

2523), including the purchase of not to exceed five passenger motor vehicles for administrative purposes for use outside of the United States, \$375,000,000, of which \$5,150,000 is for the Office of Inspector General, to remain available until September 30, 2013: Provided, That the Director of the Peace Corps may transfer to the Foreign Currency Fluctuations Account, as authorized by 22 U.S.C. 2515, an amount not to exceed \$5,000,000: Provided further, That funds transferred pursuant to the previous proviso may not be derived from amounts made available for Peace Corps overseas operations: Provided further, That of the funds appropriated under this heading, not to exceed \$4,000 may be made available for entertainment expenses: Provided further, That any decision to open, close, significantly reduce, or suspend a domestic or overseas office or country program shall be subject to prior consultation with, and the regular notification procedures of, the Committees on Appropriations, except that prior consultation and regular notification procedures may be waived when there is a substantial security risk to volunteers or other Peace Corps personnel, pursuant to section 7015(e) of this Act: Provided further, That none of the funds appropriated under this heading shall be used to pay for abortions.

#### MILLENNIUM CHALLENGE CORPORATION

For necessary expenses to carry out the provisions of the Millennium Challenge Act of 2003, \$898,200,000 to remain available until expended: Provided, That of the funds appropriated under this heading, up to \$105,000,000 may be available for administrative expenses of the Millennium Challenge Corporation (the Corporation): Provided further, That up to 5 percent of the funds appropriated under this heading may be made available to carry out the purposes of section 616 of the Millennium Challenge Act of 2003 for fiscal year 2012: Provided further, That section 605(e) of the Millennium Challenge Act of 2003 shall apply to funds appropriated under this heading: Provided further, That funds appropriated under this heading may be made available for a Millennium Challenge Compact entered into pursuant to section 609 of the Millennium Challenge Act of 2003 only if such Compact obligates, or contains a commitment to obligate subject to the availability of funds and the mutual agreement of the parties to the Compact to proceed, the entire amount of the United States Government funding anticipated for the duration of the Compact: Provided further, That the Chief Executive Officer of the Corporation shall notify the Committees on Appropriations not later than 15 days prior to signing any new country compact or new threshold country program; terminating or suspending any country compact or threshold country program; or commencing negotiations for any new compact or threshold country program: Provided further, That any funds that are deobligated from a Millennium Challenge Compact shall be subject to the regular notification procedures of the Committees on Appropriations prior to re-obligation: Provided further, That notwithstanding section 606(a)(2) of the Millennium Challenge Act of 2003, a country shall be a candidate country for purposes of eligibility for assistance for the fiscal year if the country has a per capita income equal to or below the World Bank's lower middle income country threshold for the fiscal year and is among the 75 lowest per capita income countries as identified by the World Bank; and the country meets the requirements of section 606(a)(1)(B) of the Millennium Challenge Act of 2003: Provided further, That notwithstanding section 606(b)(1) of the Millennium Challenge Act of 2003, in addition to countries described in the preceding proviso, a country shall be a candidate country for purposes of eligibility for assistance for the fiscal year if the country has a

per capita income equal to or below the World Bank's lower middle income country threshold for the fiscal year and is not among the 75 lowest per capita income countries as identified by the World Bank; and the country meets the requirements of section 606(a)(1)(B) of the Millennium Challenge Act of 2003: Provided further, That any Millennium Challenge Corporation candidate country under section 606 of the Millennium Challenge Act of 2003 with a per capita income that changes in the fiscal year such that the country would be reclassified from a low income country to a lower middle income country or from a lower middle income country to a low income country shall retain its candidacy status in its former income classification for the fiscal year and the two subsequent fiscal years: Provided further, That of the funds appropriated under this heading, not to exceed \$100,000 may be available for representation and entertainment allowances, of which not to exceed \$5,000 may be available for entertainment allowances.

#### INTER-AMERICAN FOUNDATION

For necessary expenses to carry out the functions of the Inter-American Foundation in accordance with the provisions of section 401 of the Foreign Assistance Act of 1969, \$22,500,000, to remain available until September 30, 2013: Provided, That of the funds appropriated under this heading, not to exceed \$2,000 may be available for entertainment and representation allowances.

#### AFRICAN DEVELOPMENT FOUNDATION

For necessary expenses to carry out title V of the International Security and Development Cooperation Act of 1980 (Public Law 96-533), \$30,000,000, to remain available until September 30, 2013: Provided, That funds made available to grantees may be invested pending expenditure for project purposes when authorized by the Board of Directors of the Foundation: Provided further, That interest earned shall be used only for the purposes for which the grant was made: Provided further, That notwithstanding section 505(a)(2) of the African Development Foundation Act, in exceptional circumstances the Board of Directors of the Foundation may waive the \$250,000 limitation contained in that section with respect to a project and a project may exceed the limitation by up to 10 percent if the increase is due solely to foreign currency fluctuation: Provided further, That the Foundation shall provide a report to the Committees on Appropriations after each time such waiver authority is exercised.

#### DEPARTMENT OF THE TREASURY

##### INTERNATIONAL AFFAIRS TECHNICAL ASSISTANCE

For necessary expenses to carry out the provisions of section 129 of the Foreign Assistance Act of 1961, \$25,448,000, to remain available until September 30, 2014, which shall be available notwithstanding any other provision of law.

##### DEBT RESTRUCTURING

For the cost, as defined in section 502 of the Congressional Budget Act of 1974, of modifying loans and loan guarantees, as the President may determine, for which funds have been appropriated or otherwise made available for programs within the International Affairs Budget Function 150, including the cost of selling, reducing, or canceling amounts owed to the United States as a result of concessional loans made to eligible countries, pursuant to part V of the Foreign Assistance Act of 1961, \$12,000,000, to remain available until September 30, 2013.

#### TITLE IV

##### INTERNATIONAL SECURITY ASSISTANCE

##### DEPARTMENT OF STATE

##### INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT

For necessary expenses to carry out section 481 of the Foreign Assistance Act of 1961,

\$1,061,100,000, to remain available until September 30, 2013: Provided, That during fiscal year 2012, the Department of State may also use the authority of section 608 of the Foreign Assistance Act of 1961, without regard to its restrictions, to receive excess property from an agency of the United States Government for the purpose of providing it to a foreign country or international organization under chapter 8 of part I of that Act subject to the regular notification procedures of the Committees on Appropriations: Provided further, That the Secretary of State shall provide to the Committees on Appropriations not later than 45 days after the date of enactment of this Act and prior to the initial obligation of funds appropriated under this heading, a report on the proposed uses of all funds under this heading on a country-by-country basis for each proposed program, project, or activity: Provided further, That section 482(b) of the Foreign Assistance Act of 1961 shall not apply to funds appropriated under this heading: Provided further, That assistance provided with funds appropriated under this heading that is made available notwithstanding section 482(b) of the Foreign Assistance Act of 1961 shall be made available subject to the regular notification procedures of the Committees on Appropriations: Provided further, That none of the funds appropriated under this heading shall be made available for assistance for the Bolivian military and police unless the Secretary of State determines and reports to the Committees on Appropriations that such funds are in the national security interest of the United States: Provided further, That, notwithstanding any other provision of law, of the funds appropriated under this heading, \$5,000,000 should be made available to combat piracy of United States copyrighted materials, consistent with the requirements of section 688(a) and (b) of the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2008 (division J of Public Law 110-161): Provided further, That the reporting requirements contained in section 1404 of Public Law 110-252 shall apply to funds made available by this Act, including a description of modifications, if any, to the security strategy of the Palestinian Authority: Provided further, That the provision of assistance which is comparable to assistance made available under this heading but which is provided under any other provision of law, shall be provided in accordance with the provisions of sections 481(b) and 622(c) of the Foreign Assistance Act of 1961.

##### NONPROLIFERATION, ANTI-TERRORISM, DEMINING AND RELATED PROGRAMS

For necessary expenses for nonproliferation, anti-terrorism, demining and related programs and activities, \$590,113,000, to carry out the provisions of chapter 8 of part II of the Foreign Assistance Act of 1961 for anti-terrorism assistance, chapter 9 of part II of the Foreign Assistance Act of 1961, section 504 of the FREEDOM Support Act, section 23 of the Arms Export Control Act or the Foreign Assistance Act of 1961 for demining activities, the clearance of unexploded ordnance, the destruction of small arms, and related activities, notwithstanding any other provision of law, including activities implemented through nongovernmental and international organizations, and section 301 of the Foreign Assistance Act of 1961 for a voluntary contribution to the International Atomic Energy Agency (IAEA), and for a United States contribution to the Comprehensive Nuclear Test Ban Treaty Preparatory Commission: Provided, That the clearance of unexploded ordnance should prioritize areas where such ordnance was caused by the United States: Provided further, That of the funds made available under this heading, not to exceed \$30,000,000, to remain available until expended, may be made available for the Nonproliferation and Disarmament

Fund, notwithstanding any other provision of law and subject to prior consultation with, and the regular notification procedures of, the Committees on Appropriations, to promote bilateral and multilateral activities relating to non-proliferation, disarmament and weapons destruction: Provided further, That such funds may also be used for such countries other than the Independent States of the former Soviet Union and international organizations when it is in the national security interest of the United States to do so: Provided further, That funds appropriated under this heading may be made available for the IAEA unless the Secretary of State determines that Israel is being denied its right to participate in the activities of that Agency: Provided further, That funds appropriated under this heading may be made available for public-private partnerships for conventional weapons and mine action by grant, cooperative agreement or contract: Provided further, That funds made available for demining and related activities, in addition to funds otherwise available for such purposes, may be used for administrative expenses related to the operation and management of the demining program: Provided further, That funds appropriated under this heading that are available for "Anti-terrorism Assistance" and "Export Control and Border Security" shall remain available until September 30, 2013.

#### PEACEKEEPING OPERATIONS

For necessary expenses to carry out the provisions of section 551 of the Foreign Assistance Act of 1961, \$302,818,000: Provided, That funds appropriated under this heading may be used, notwithstanding section 660 of such Act, to provide assistance to enhance the capacity of foreign civilian security forces, including gendarmes, to participate in peacekeeping operations: Provided further, That of the funds appropriated under this heading, not less than \$28,000,000 shall be made available for a United States contribution to the Multinational Force and Observers mission in the Sinai: Provided further, That of the funds appropriated under this heading, up to \$91,818,000 may be used to pay assessed expenses of international peacekeeping activities in Somalia and shall be available until September 30, 2013: Provided further, That funds appropriated under this Act should not be used to support any military training or operations that include child soldiers: Provided further, That none of the funds appropriated under this heading shall be obligated or expended except as provided through the regular notification procedures of the Committees on Appropriations.

#### FUNDS APPROPRIATED TO THE PRESIDENT INTERNATIONAL MILITARY EDUCATION AND TRAINING

For necessary expenses to carry out the provisions of section 541 of the Foreign Assistance Act of 1961, \$105,788,000, of which up to \$4,000,000 may remain available until September 30, 2013, and may only be provided through the regular notification procedures of the Committees on Appropriations: Provided, That the civilian personnel for whom military education and training may be provided under this heading may include civilians who are not members of a government whose participation would contribute to improved civil-military relations, civilian control of the military, or respect for human rights: Provided further, That the Secretary of State shall provide to the Committees on Appropriations, not later than 45 days after enactment of this Act, a report on the proposed uses of all program funds under this heading on a country-by-country basis, including a detailed description of proposed activities: Provided further, That of the funds appropriated under this heading, not to exceed \$55,000 may be available for entertainment allowances.

#### FOREIGN MILITARY FINANCING PROGRAM

For necessary expenses for grants to enable the President to carry out the provisions of section 23 of the Arms Export Control Act, \$5,210,000,000: Provided, That to expedite the provision of assistance to foreign countries and international organizations, the Secretary of State, following consultation with the Committees on Appropriations and subject to the regular notification procedures of such Committees, may use the funds appropriated under this heading to procure defense articles and services to enhance the capacity of foreign security forces: Provided further, That of the funds appropriated under this heading, not less than \$3,075,000,000 shall be available for grants only for Israel, and \$1,300,000,000 shall be made available for grants only for Egypt, including for border security programs and activities in the Sinai: Provided further, That the funds appropriated under this heading for assistance for Israel shall be disbursed within 30 days of enactment of this Act: Provided further, That to the extent that the Government of Israel requests that funds be used for such purposes, grants made available for Israel under this heading shall, as agreed by the United States and Israel, be available for advanced weapons systems, of which not less than \$808,725,000 shall be available for the procurement in Israel of defense articles and defense services, including research and development: Provided further, That funds appropriated under this heading estimated to be outlayed for Egypt during fiscal year 2012 may be transferred to an interest bearing account for Egypt in the Federal Reserve Bank of New York: Provided further, That of the funds appropriated under this heading, \$300,000,000 shall be made available for assistance for Jordan: Provided further, That, not later than 90 days after enactment of this Act and 6 months thereafter, the Secretary of State shall submit a report to the Committees on Appropriations detailing any crowd control items, including tear gas, made available with appropriated funds or through export licenses to foreign security forces that the Secretary of State has credible information have repeatedly used excessive force to repress peaceful, lawful, and organized dissent: Provided further, That the Secretary of State should consult with the Committees on Appropriations prior to obligating funds for such items to governments of countries undergoing democratic transition in the Middle East and North Africa: Provided further, That none of the funds made available under this heading shall be made available to support or continue any program initially funded under the authority of section 1206 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163; 119 Stat. 3456) unless the Secretary of State, in coordination with the Secretary of Defense, has justified such program to the Committees on Appropriations: Provided further, That funds appropriated or otherwise made available under this heading shall be non-repayable notwithstanding any requirement in section 23 of the Arms Export Control Act: Provided further, That funds made available under this heading shall be obligated upon apportionment in accordance with paragraph (5)(C) of title 31, United States Code, section 1501(a).

None of the funds made available under this heading shall be available to finance the procurement of defense articles, defense services, or design and construction services that are not sold by the United States Government under the Arms Export Control Act unless the foreign country proposing to make such procurement has first signed an agreement with the United States Government specifying the conditions under which such procurement may be financed with such funds: Provided, That all country and funding level increases in allocations shall

be submitted through the regular notification procedures of section 7015 of this Act: Provided further, That funds made available under this heading may be used, notwithstanding any other provision of law, for demining, the clearance of unexploded ordnance, and related activities, and may include activities implemented through nongovernmental and international organizations: Provided further, That only those countries for which assistance was justified for the "Foreign Military Sales Financing Program" in the fiscal year 1989 congressional presentation for security assistance programs may utilize funds made available under this heading for procurement of defense articles, defense services or design and construction services that are not sold by the United States Government under the Arms Export Control Act: Provided further, That funds appropriated under this heading shall be expended at the minimum rate necessary to make timely payment for defense articles and services: Provided further, That not more than \$62,800,000 of the funds appropriated under this heading may be obligated for necessary expenses, including the purchase of passenger motor vehicles for replacement only for use outside of the United States, for the general costs of administering military assistance and sales, except that this limitation may be exceeded only through the regular notification procedures of the Committees on Appropriations: Provided further, That of the funds appropriated under this heading for general costs of administering military assistance and sales, not to exceed \$4,000 may be available for entertainment expenses and not to exceed \$130,000 may be available for representation allowances: Provided further, That not more than \$836,900,000 of funds realized pursuant to section 21(e)(1)(A) of the Arms Export Control Act may be obligated for expenses incurred by the Department of Defense during fiscal year 2012 pursuant to section 43(b) of the Arms Export Control Act, except that this limitation may be exceeded only through the regular notification procedures of the Committees on Appropriations.

#### TITLE V

#### MULTILATERAL ASSISTANCE

##### FUNDS APPROPRIATED TO THE PRESIDENT

##### INTERNATIONAL ORGANIZATIONS AND PROGRAMS

For necessary expenses to carry out the provisions of section 301 of the Foreign Assistance Act of 1961, and of section 2 of the United Nations Environment Program Participation Act of 1973, \$348,705,000, of which up to \$10,000,000 may be made available for the Intergovernmental Panel on Climate Change/United Nations Framework Convention on Climate Change: Provided, That section 307(a) of the Foreign Assistance Act of 1961 shall not apply to contributions to the United Nations Democracy Fund.

##### INTERNATIONAL FINANCIAL INSTITUTIONS

##### GLOBAL ENVIRONMENT FACILITY

For payment to the International Bank for Reconstruction and Development as trustee for the Global Environment Facility by the Secretary of the Treasury, \$89,820,000, to remain available until expended.

##### CONTRIBUTION TO THE INTERNATIONAL DEVELOPMENT ASSOCIATION

For payment to the International Development Association by the Secretary of the Treasury, \$1,325,000,000, to remain available until expended.

For payment to the International Development Association by the Secretary of the Treasury for costs incurred under the Multilateral Debt Relief Initiative, \$167,000,000, to remain available until expended.

## CONTRIBUTION TO THE INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT

For payment to the International Bank for Reconstruction and Development by the Secretary of the Treasury, for the United States share of the paid-in portion of the increases in capital stock, \$117,364,344, to remain available until expended.

## LIMITATION ON CALLABLE CAPITAL SUBSCRIPTIONS

The United States Governor of the International Bank for Reconstruction and Development may subscribe without fiscal year limitation to the callable capital portion of the United States share of increases in capital stock in an amount not to exceed \$2,928,990,899.

## CONTRIBUTION TO THE CLEAN TECHNOLOGY FUND

For payment to the International Bank for Reconstruction and Development as trustee for the Clean Technology Fund by the Secretary of the Treasury, \$184,630,000, to remain available until expended.

## CONTRIBUTION TO THE STRATEGIC CLIMATE FUND

For payment to the International Bank for Reconstruction and Development as trustee for the Strategic Climate Fund by the Secretary of the Treasury, \$49,900,000, to remain available until expended.

## GLOBAL AGRICULTURE AND FOOD SECURITY PROGRAM

For payment to the Global Agriculture and Food Security Program by the Secretary of the Treasury, \$135,000,000, to remain available until expended.

## CONTRIBUTION TO THE INTER-AMERICAN DEVELOPMENT BANK

For payment to the Inter-American Development Bank by the Secretary of the Treasury for the United States share of the paid-in portion of the increase in capital stock, \$75,000,000, to remain available until expended.

For payment to the Inter-American Investment Corporation by the Secretary of the Treasury, \$4,670,000, to remain available until expended.

## LIMITATION ON CALLABLE CAPITAL SUBSCRIPTIONS

The United States Governor of the Inter-American Development Bank may subscribe without fiscal year limitation to the callable capital portion of the United States share of such capital stock in an amount not to exceed \$4,098,794,833.

## CONTRIBUTION TO THE ENTERPRISE FOR THE AMERICAS MULTILATERAL INVESTMENT FUND

For payment to the Enterprise for the Americas Multilateral Investment Fund by the Secretary of the Treasury, \$25,000,000, to remain available until expended.

## CONTRIBUTION TO THE ASIAN DEVELOPMENT BANK

For payment to the Asian Development Bank by the Secretary of the Treasury for the United States share of the paid-in portion of increase in capital stock, \$106,586,000, to remain available until expended.

## LIMITATION ON CALLABLE CAPITAL SUBSCRIPTIONS

The United States Governor of the Asian Development Bank may subscribe without fiscal year limitation to the callable capital portion of the United States share of such capital stock in an amount not to exceed \$2,558,048,769.

## CONTRIBUTION TO THE ASIAN DEVELOPMENT FUND

For payment to the Asian Development Bank's Asian Development Fund by the Secretary of the Treasury, \$100,000,000, to remain available until expended.

## CONTRIBUTION TO THE AFRICAN DEVELOPMENT BANK

For payment to the African Development Bank by the Secretary of the Treasury for the

United States share of the paid-in portion of the increase in capital stock, \$32,417,720, to remain available until expended.

## LIMITATION ON CALLABLE CAPITAL SUBSCRIPTIONS

The United States Governor of the African Development Bank may subscribe without fiscal year limitation to the callable capital portion of the United States share of such capital stock in an amount not to exceed \$507,860,808.

## CONTRIBUTION TO THE AFRICAN DEVELOPMENT FUND

For payment to the African Development Fund by the Secretary of the Treasury, \$172,500,000, to remain available until expended.

For payment to the African Development Fund by the Secretary of the Treasury for costs incurred under the Multilateral Debt Relief Initiative, \$7,500,000, to remain available until expended.

## EUROPEAN BANK FOR RECONSTRUCTION AND DEVELOPMENT

## LIMITATION ON CALLABLE CAPITAL SUBSCRIPTIONS

The United States Governor of the European Bank for Reconstruction and Development may subscribe without fiscal year limitation to the callable capital of the United States share of such capital in an amount not to exceed \$1,252,331,952.

## CONTRIBUTION TO THE INTERNATIONAL FUND FOR AGRICULTURAL DEVELOPMENT

For payment to the International Fund for Agricultural Development by the Secretary of the Treasury, \$30,000,000, to remain available until expended.

## TITLE VI

## EXPORT AND INVESTMENT ASSISTANCE

## EXPORT-IMPORT BANK OF THE UNITED STATES

## INSPECTOR GENERAL

For necessary expenses of the Office of Inspector General in carrying out the provisions of the Inspector General Act of 1978, as amended, \$4,000,000, to remain available until September 30, 2013.

## PROGRAM ACCOUNT

The Export-Import Bank of the United States is authorized to make such expenditures within the limits of funds and borrowing authority available to such corporation, and in accordance with law, and to make such contracts and commitments without regard to fiscal year limitations, as provided by section 104 of the Government Corporation Control Act, as may be necessary in carrying out the program for the current fiscal year for such corporation: Provided, That none of the funds available during the current fiscal year may be used to make expenditures, contracts, or commitments for the export of nuclear equipment, fuel, or technology to any country, other than a nuclear-weapon state as defined in Article IX of the Treaty on the Non-Proliferation of Nuclear Weapons eligible to receive economic or military assistance under this Act, that has detonated a nuclear explosive after the date of the enactment of this Act: Provided further, That not less than 10 percent of the aggregate loan, guarantee, and insurance authority available to the Export-Import Bank under this Act should be used for renewable energy technologies or end-use energy efficiency technologies: Provided further, That notwithstanding section 1(c) of Public Law 103-428, as amended, sections 1(a) and (b) of Public Law 103-428 shall remain in effect through October 1, 2012: Provided further, That notwithstanding the dates specified in section 7 of the Export-Import Bank Act of 1945 (12 U.S.C. 6350 and section 1(c) of Public Law 103-428), the Export-Import Bank of the United States shall

continue to exercise its functions in connection with and in furtherance of its objects and purposes through May 31, 2012.

## SUBSIDY APPROPRIATION

For the cost of direct loans, loan guarantees, insurance, and tied-aid grants as authorized by section 10 of the Export-Import Bank Act of 1945, as amended, not to exceed \$58,000,000: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That such funds shall remain available until September 30, 2027, for the disbursement of direct loans, loan guarantees, insurance and tied-aid grants obligated in fiscal years 2012, 2013, 2014, and 2015: Provided further, That none of the funds appropriated by this Act or any prior Acts appropriating funds for the Department of State, foreign operations, and related programs for tied-aid credits or grants may be used for any other purpose except through the regular notification procedures of the Committees on Appropriations.

## ADMINISTRATIVE EXPENSES

For administrative expenses to carry out the direct and guaranteed loan and insurance programs, including hire of passenger motor vehicles and services as authorized by 5 U.S.C. 3109, and not to exceed \$30,000 for official reception and representation expenses for members of the Board of Directors, not to exceed \$89,900,000: Provided, That the Export-Import Bank may accept, and use, payment or services provided by transaction participants for legal, financial, or technical services in connection with any transaction for which an application for a loan, guarantee or insurance commitment has been made: Provided further, That notwithstanding subsection (b) of section 117 of the Export Enhancement Act of 1992, subsection (a) thereof shall remain in effect until October 1, 2012: Provided further, That the Export-Import Bank shall charge fees for necessary expenses (including special services performed on a contract or fee basis, but not including other personal services) in connection with the collection of moneys owed the Export-Import Bank, repossession or sale of pledged collateral or other assets acquired by the Export-Import Bank in satisfaction of moneys owed the Export-Import Bank, or the investigation or appraisal of any property, or the evaluation of the legal, financial, or technical aspects of any transaction for which an application for a loan, guarantee or insurance commitment has been made, or systems infrastructure directly supporting transactions: Provided further, That, in addition to other funds appropriated for administrative expenses, such fees shall be credited to this account, to remain available until expended.

## RECEIPTS COLLECTED

Receipts collected pursuant to the Export-Import Bank Act of 1945, as amended, and the Federal Credit Reform Act of 1990, as amended, in an amount not to exceed the amount appropriated herein, shall be credited as offsetting collections to this account: Provided, That the sums herein appropriated from the General Fund shall be reduced on a dollar-for-dollar basis by such offsetting collections so as to result in a final fiscal year appropriation from the General Fund estimated at \$0: Provided further, That amounts collected in fiscal year 2012 in excess of obligations, up to \$50,000,000, shall become available on September 1, 2012 and shall remain available until September 30, 2015.

## OVERSEAS PRIVATE INVESTMENT CORPORATION

## NONCREDIT ACCOUNT

The Overseas Private Investment Corporation is authorized to make, without regard to fiscal year limitations, as provided by 31 U.S.C. 9104, such expenditures and commitments within the

limits of funds available to it and in accordance with law as may be necessary: Provided, That the amount available for administrative expenses to carry out the credit and insurance programs (including an amount for official reception and representation expenses which shall not exceed \$35,000) shall not exceed \$54,990,000: Provided further, That project-specific transaction costs, including direct and indirect costs incurred in claims settlements, and other direct costs associated with services provided to specific investors or potential investors pursuant to section 234 of the Foreign Assistance Act of 1961, shall not be considered administrative expenses for the purposes of this heading.

#### PROGRAM ACCOUNT

For the cost of direct and guaranteed loans, \$25,000,000, as authorized by section 234 of the Foreign Assistance Act of 1961, to be derived by transfer from the Overseas Private Investment Corporation Noncredit Account: Provided, That such costs, including the cost of modifying such loans, shall be as defined in section 502 of the Congressional Budget Act of 1974: Provided further, That such sums shall be available for direct loan obligations and loan guaranty commitments incurred or made during fiscal years 2012, 2013, and 2014: Provided further, That funds so obligated in fiscal year 2012 remain available for disbursement through 2020; funds obligated in fiscal year 2013 remain available for disbursement through 2021; and funds obligated in fiscal year 2014 remain available for disbursement through 2022: Provided further, That notwithstanding any other provision of law, the Overseas Private Investment Corporation is authorized to undertake any program authorized by title IV of chapter 2 of part I of the Foreign Assistance Act of 1961 in Iraq: Provided further, That funds made available pursuant to the authority of the previous proviso shall be subject to the regular notification procedures of the Committees on Appropriations.

In addition, such sums as may be necessary for administrative expenses to carry out the credit program may be derived from amounts available for administrative expenses to carry out the credit and insurance programs in the Overseas Private Investment Corporation Noncredit Account and merged with said account.

#### TRADE AND DEVELOPMENT AGENCY

For necessary expenses to carry out the provisions of section 661 of the Foreign Assistance Act of 1961, \$50,000,000, to remain available until September 30, 2013: Provided, That of the funds appropriated under this heading, not more than \$4,000 may be available for representation and entertainment allowances.

#### TITLE VII

##### GENERAL PROVISIONS

##### ALLOWANCES AND DIFFERENTIALS

SEC. 7001. Funds appropriated under title I of this Act shall be available, except as otherwise provided, for allowances and differentials as authorized by subchapter 59 of title 5, United States Code; for services as authorized by 5 U.S.C. 3109; and for hire of passenger transportation pursuant to 31 U.S.C. 1343(b).

##### UNOBLIGATED BALANCES REPORT

SEC. 7002. Any department or agency of the United States Government to which funds are appropriated or otherwise made available by this Act shall provide to the Committees on Appropriations a quarterly accounting of cumulative unobligated balances and obligated, but unexpended, balances by program, project, and activity, and Treasury Account Fund Symbol of all funds received by such department or agency in fiscal year 2012 or any previous fiscal year: Provided, That the report required by this section should specify by account the amount of funds obligated pursuant to bilateral agreements which have not been further sub-obligated.

#### CONSULTING SERVICES

SEC. 7003. The expenditure of any appropriation under title I of this Act for any consulting service through procurement contract, pursuant to 5 U.S.C. 3109, shall be limited to those contracts where such expenditures are a matter of public record and available for public inspection, except where otherwise provided under existing law, or under existing Executive order issued pursuant to existing law.

#### EMBASSY CONSTRUCTION

SEC. 7004. (a) Of funds provided under title I of this Act, except as provided in subsection (b), a project to construct a diplomatic facility of the United States may not include office space or other accommodations for an employee of a Federal agency or department if the Secretary of State determines that such department or agency has not provided to the Department of State the full amount of funding required by subsection (e) of section 604 of the Secure Embassy Construction and Counterterrorism Act of 1999 (as enacted into law by section 1000(a)(7) of Public Law 106-113 and contained in appendix G of that Act; 113 Stat. 1501A-453), as amended by section 629 of the Departments of Commerce, Justice, and State, the Judiciary, and Related Agencies Appropriations Act, 2005.

(b) Notwithstanding the prohibition in subsection (a), a project to construct a diplomatic facility of the United States may include office space or other accommodations for members of the United States Marine Corps.

(c) For the purposes of calculating the fiscal year 2012 costs of providing new United States diplomatic facilities in accordance with section 604(e) of the Secure Embassy Construction and Counterterrorism Act of 1999 (22 U.S.C. 4865 note), the Secretary of State, in consultation with the Director of the Office of Management and Budget, shall determine the annual program level and agency shares in a manner that is proportional to the Department of State's contribution for this purpose.

(d) Funds appropriated by this Act, and any prior Act making appropriations for the Department of State, foreign operations, and related programs, which may be made available for the acquisition of property for diplomatic facilities in Afghanistan, Pakistan, and Iraq, shall be subject to prior consultation with, and the regular notification procedures of, the Committees on Appropriations.

(e) Section 604(e)(1) of the Secure Embassy Construction and Counterterrorism Act of 1999 (22 U.S.C. 4865 note) is amended by striking "providing new," and inserting in its place "providing, maintaining, repairing, and renovating".

(f)(1) None of the funds appropriated under the heading "Embassy Security, Construction, and Maintenance" in this Act and in prior Acts making appropriations for the Department of State, foreign operations, and related programs, made available through Federal agency Capital Security Cost Sharing contributions and reimbursements, or generated from the proceeds of real property sales, other than from real property sales located in London, United Kingdom, may be made available for site acquisition and mitigation, planning, design or construction of the New London Embassy.

(2) Within 60 days of enactment of this Act and every 6 months thereafter until completion of the New London Embassy, the Secretary of State shall submit to the Committees on Appropriations a report on the project: Provided, That such report shall include revenue and cost projections, cost containment efforts, project schedule and actual project status, the impact of currency exchange rate fluctuations on project revenue and costs, and options for modifying the scope of the project in the event that proceeds of real property sales in London fall below the total cost of the project.

#### PERSONNEL ACTIONS

SEC. 7005. Any costs incurred by a department or agency funded under title I of this Act resulting from personnel actions taken in response to funding reductions included in this Act shall be absorbed within the total budgetary resources available under title I to such department or agency: Provided, That the authority to transfer funds between appropriations accounts as may be necessary to carry out this section is provided in addition to authorities included elsewhere in this Act: Provided further, That use of funds to carry out this section shall be treated as a reprogramming of funds under section 7015 of this Act and shall not be available for obligation or expenditure except in compliance with the procedures set forth in that section.

#### LOCAL GUARD CONTRACTS

SEC. 7006. In evaluating proposals for local guard contracts, the Secretary of State shall award contracts in accordance with section 136 of the Foreign Relations Authorization Act, Fiscal Years 1990 and 1991 (22 U.S.C. 4864), except that the Secretary may grant authorization to award such contracts on the basis of best value as determined by a cost-technical tradeoff analysis (as described in Federal Acquisition Regulation part 15.101) in Iraq, Afghanistan, and Pakistan, notwithstanding subsection (c)(3) of such section: Provided, That the authority in this section shall apply to any options for renewal that may be exercised under such contracts that are awarded during the current fiscal year: Provided further, That prior to issuing a solicitation for a contract to be awarded pursuant to the authority under this section, the Secretary of State shall consult with the Committees on Appropriations and other relevant congressional committees.

#### PROHIBITION AGAINST DIRECT FUNDING FOR CERTAIN COUNTRIES

SEC. 7007. None of the funds appropriated or otherwise made available pursuant to titles III through VI of this Act shall be obligated or expended to finance directly any assistance or reparations for the governments of Cuba, North Korea, Iran, or Syria: Provided, That for purposes of this section, the prohibition on obligations or expenditures shall include direct loans, credits, insurance and guarantees of the Export-Import Bank or its agents.

#### COUPS D'ÉTAT

SEC. 7008. None of the funds appropriated or otherwise made available pursuant to titles III through VI of this Act shall be obligated or expended to finance directly any assistance to the government of any country whose duly elected head of government is deposed by military coup d'état or decree or, after the date of enactment of this Act, a coup d'état or decree in which the military plays a decisive role: Provided, That assistance may be resumed to such government if the President determines and certifies to the Committees on Appropriations that subsequent to the termination of assistance a democratically elected government has taken office: Provided further, That the provisions of this section shall not apply to assistance to promote democratic elections or public participation in democratic processes: Provided further, That funds made available pursuant to the previous provisos shall be subject to the regular notification procedures of the Committees on Appropriations.

#### TRANSFER AUTHORITY

SEC. 7009. (a) DEPARTMENT OF STATE AND BROADCASTING BOARD OF GOVERNORS.—

(1) Not to exceed 5 percent of any appropriation made available for the current fiscal year for the Department of State under title I of this

Act may be transferred between such appropriations, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by any such transfers.

(2) Not to exceed 5 percent of any appropriation made available for the current fiscal year for the Broadcasting Board of Governors under title I of this Act may be transferred between such appropriations, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 10 percent by any such transfers.

(3) Any transfer pursuant to this section shall be treated as a reprogramming of funds under section 7015(a) and (b) of this Act and shall not be available for obligation or expenditure except in compliance with the procedures set forth in that section.

(b) **EXPORT FINANCING TRANSFER AUTHORITIES.**—Not to exceed 5 percent of any appropriation other than for administrative expenses made available for fiscal year 2012, for programs under title VI of this Act may be transferred between such appropriations for use for any of the purposes, programs, and activities for which the funds in such receiving account may be used, but no such appropriation, except as otherwise specifically provided, shall be increased by more than 25 percent by any such transfer: Provided, That the exercise of such authority shall be subject to the regular notification procedures of the Committees on Appropriations.

(c) **LIMITATION ON TRANSFERS BETWEEN AGENCIES.**—

(1) None of the funds made available under titles II through V of this Act may be transferred to any department, agency, or instrumentality of the United States Government, except pursuant to a transfer made by, or transfer authority provided in, this Act or any other appropriation Act.

(2) Notwithstanding paragraph (1), in addition to transfers made by, or authorized elsewhere in, this Act, funds appropriated by this Act to carry out the purposes of the Foreign Assistance Act of 1961 may be allocated or transferred to agencies of the United States Government pursuant to the provisions of sections 109, 610, and 632 of the Foreign Assistance Act of 1961.

(3) Any agreement entered into by the United States Agency for International Development (USAID) or the Department of State with any department, agency, or instrumentality of the United States Government pursuant to section 632(b) of the Foreign Assistance Act of 1961 valued in excess of \$1,000,000 and any agreement made pursuant to section 632(a) of such Act, with funds appropriated by this Act and prior Acts making appropriations for the Department of State, foreign operations, and related programs under the headings “Global Health Programs”, “Development Assistance”, and “Economic Support Fund” shall be subject to the regular notification procedures of the Committees on Appropriations: Provided, That the requirement in the previous sentence shall not apply to agreements entered into between USAID and the Department of State.

(d) **TRANSFERS BETWEEN ACCOUNTS.**—None of the funds made available under titles II through V of this Act may be obligated under an appropriation account to which they were not appropriated, except for transfers specifically provided for in this Act, unless the President, not less than 5 days prior to the exercise of any authority contained in the Foreign Assistance Act of 1961 to transfer funds, consults with and provides a written policy justification to the Committees on Appropriations.

(e) **AUDIT OF INTER-AGENCY TRANSFERS.**—Any agreement for the transfer or allocation of funds appropriated by this Act, or prior Acts, entered into between the Department of State or USAID

and another agency of the United States Government under the authority of section 632(a) of the Foreign Assistance Act of 1961 or any comparable provision of law, shall expressly provide that the Inspector General (IG) for the agency receiving the transfer or allocation of such funds, or other entity with audit responsibility if the receiving agency does not have an IG, shall perform periodic program and financial audits of the use of such funds: Provided, That such audits shall be transmitted to the Committees on Appropriations: Provided further, That funds transferred under such authority may be made available for the cost of such audits.

#### REPORTING REQUIREMENT

**SEC. 7010.** The Secretary of State shall provide the Committees on Appropriations, not later than April 1, 2012, and for each fiscal quarter, a report in writing on the uses of funds made available under the headings “Foreign Military Financing Program”, “International Military Education and Training”, “Peacekeeping Operations”, and “Pakistan Counterinsurgency Capability Fund”: Provided, That such report shall include a description of the obligation and expenditure of funds, and the specific country in receipt of, and the use or purpose of the assistance provided by such funds.

#### AVAILABILITY OF FUNDS

**SEC. 7011.** No part of any appropriation contained in this Act shall remain available for obligation after the expiration of the current fiscal year unless expressly so provided in this Act: Provided, That funds appropriated for the purposes of chapters 1 and 8 of part I, section 661, chapters 4, 5, 6, 8, and 9 of part II of the Foreign Assistance Act of 1961, section 23 of the Arms Export Control Act, and funds provided under the headings “Assistance for Europe, Eurasia and Central Asia” and “Development Credit Authority”, shall remain available for an additional 4 years from the date on which the availability of such funds would otherwise have expired, if such funds are initially obligated before the expiration of their respective periods of availability contained in this Act: Provided further, That notwithstanding any other provision of this Act, any funds made available for the purposes of chapter 1 of part I and chapter 4 of part II of the Foreign Assistance Act of 1961 which are allocated or obligated for cash disbursements in order to address balance of payments or economic policy reform objectives, shall remain available for an additional 4 years from the date on which the availability of such funds would otherwise have expired, if such funds are initially allocated or obligated before the expiration of their respective periods of availability contained in this Act: Provided further, That the Secretary of State shall provide a report to the Committees on Appropriations at the beginning of each fiscal year, detailing by account and source year, the use of this authority during the previous fiscal year.

#### LIMITATION ON ASSISTANCE TO COUNTRIES IN DEFAULT

**SEC. 7012.** No part of any appropriation provided under titles III through VI in this Act shall be used to furnish assistance to the government of any country which is in default during a period in excess of one calendar year in payment to the United States of principal or interest on any loan made to the government of such country by the United States pursuant to a program for which funds are appropriated under this Act unless the President determines, following consultations with the Committees on Appropriations, that assistance for such country is in the national interest of the United States.

#### PROHIBITION ON TAXATION OF UNITED STATES ASSISTANCE

**SEC. 7013.** (a) **PROHIBITION ON TAXATION.**—None of the funds appropriated under titles III

through VI of this Act may be made available to provide assistance for a foreign country under a new bilateral agreement governing the terms and conditions under which such assistance is to be provided unless such agreement includes a provision stating that assistance provided by the United States shall be exempt from taxation, or reimbursed, by the foreign government, and the Secretary of State shall expeditiously seek to negotiate amendments to existing bilateral agreements, as necessary, to conform with this requirement.

(b) **REIMBURSEMENT OF FOREIGN TAXES.**—An amount equivalent to 200 percent of the total taxes assessed during fiscal year 2012 on funds appropriated by this Act by a foreign government or entity against commodities financed under United States assistance programs for which funds are appropriated by this Act, either directly or through grantees, contractors and subcontractors shall be withheld from obligation from funds appropriated for assistance for fiscal year 2013 and allocated for the central government of such country and for the West Bank and Gaza program to the extent that the Secretary of State certifies and reports in writing to the Committees on Appropriations that such taxes have not been reimbursed to the Government of the United States.

(c) **DE MINIMIS EXCEPTION.**—Foreign taxes of a de minimis nature shall not be subject to the provisions of subsection (b).

(d) **REPROGRAMMING OF FUNDS.**—Funds withheld from obligation for each country or entity pursuant to subsection (b) shall be reprogrammed for assistance to countries which do not assess taxes on United States assistance or which have an effective arrangement that is providing substantial reimbursement of such taxes.

(e) **DETERMINATIONS.**—

(1) The provisions of this section shall not apply to any country or entity the Secretary of State determines—

(A) does not assess taxes on United States assistance or which has an effective arrangement that is providing substantial reimbursement of such taxes; or

(B) the foreign policy interests of the United States outweigh the purpose of this section to ensure that United States assistance is not subject to taxation.

(2) The Secretary of State shall consult with the Committees on Appropriations at least 15 days prior to exercising the authority of this subsection with regard to any country or entity.

(f) **IMPLEMENTATION.**—The Secretary of State shall issue rules, regulations, or policy guidance, as appropriate, to implement the prohibition against the taxation of assistance contained in this section.

(g) **DEFINITIONS.**—As used in this section—

(1) the terms “taxes” and “taxation” refer to value added taxes and customs duties imposed on commodities financed with United States assistance for programs for which funds are appropriated by this Act; and

(2) the term “bilateral agreement” refers to a framework bilateral agreement between the Government of the United States and the government of the country receiving assistance that describes the privileges and immunities applicable to United States foreign assistance for such country generally, or an individual agreement between the Government of the United States and such government that describes, among other things, the treatment for tax purposes that will be accorded the United States assistance provided under that agreement.

(h) **REPORT.**—The Secretary of State shall submit a report to the Committees on Appropriations not later than 90 days after the enactment of this Act detailing steps taken by the Department of State to comply with the requirements provided in subsections (a) and (f).

## RESERVATIONS OF FUNDS

SEC. 7014. (a) Funds appropriated under titles II through VI of this Act which are specifically designated may be reprogrammed for other programs within the same account notwithstanding the designation if compliance with the designation is made impossible by operation of any provision of this or any other Act: Provided, That any such reprogramming shall be subject to the regular notification procedures of the Committees on Appropriations: Provided further, That assistance that is reprogrammed pursuant to this subsection shall be made available under the same terms and conditions as originally provided.

(b) In addition to the authority contained in subsection (a), the original period of availability of funds appropriated by this Act and administered by the United States Agency for International Development (USAID) that are specifically designated for particular programs or activities by this or any other Act shall be extended for an additional fiscal year if the USAID Administrator determines and reports promptly to the Committees on Appropriations that the termination of assistance to a country or a significant change in circumstances makes it unlikely that such designated funds can be obligated during the original period of availability: Provided, That such designated funds that continue to be available for an additional fiscal year shall be obligated only for the purpose of such designation.

(c) Ceilings and specifically designated funding levels contained in this Act shall not be applicable to funds or authorities appropriated or otherwise made available by any subsequent Act unless such Act specifically so directs: Provided, That specifically designated funding levels or minimum funding requirements contained in any other Act shall not be applicable to funds appropriated by this Act.

## NOTIFICATION REQUIREMENTS

SEC. 7015. (a) None of the funds made available in title I of this Act, or in prior appropriations Acts to the agencies and departments funded by this Act that remain available for obligation or expenditure in fiscal year 2012, or provided from any accounts in the Treasury of the United States derived by the collection of fees or of currency reflows or other offsetting collections, or made available by transfer, to the agencies and departments funded by this Act, shall be available for obligation or expenditure through a reprogramming of funds that:

- (1) creates new programs;
  - (2) eliminates a program, project, or activity;
  - (3) increases funds or personnel by any means for any project or activity for which funds have been denied or restricted;
  - (4) relocates an office or employees;
  - (5) closes or opens a mission or post;
  - (6) creates, reorganizes, or renames bureaus, centers, or offices;
  - (7) reorganizes programs or activities; or
  - (8) contracts out or privatizes any functions or activities presently performed by Federal employees;
- unless the Committees on Appropriations are notified 15 days in advance of such reprogramming of funds: Provided, That unless previously justified to the Committees on Appropriations, the requirements of this subsection shall apply to all obligations of funds appropriated under title I of this Act for items (5) and (6) above.

(b) None of the funds provided under title I of this Act, or provided under previous appropriations Acts to the agency or department funded under title I of this Act that remain available for obligation or expenditure in fiscal year 2012, or provided from any accounts in the Treasury of the United States derived by the collection of fees available to the agency or department funded under title I of this Act, shall be available for

obligation or expenditure for activities, programs, or projects through a reprogramming of funds in excess of \$1,000,000 or 10 percent, whichever is less, that:

(1) augments existing programs, projects, or activities;

(2) reduces by 10 percent funding for any existing program, project, or activity, or numbers of personnel by 10 percent as approved by Congress; or

(3) results from any general savings, including savings from a reduction in personnel, which would result in a change in existing programs, activities, or projects as approved by Congress; unless the Committees on Appropriations are notified 15 days in advance of such reprogramming of funds.

(c) None of the funds made available under titles II through VI and VIII in this Act under the headings "Global Health Programs", "Development Assistance", "International Organizations and Programs", "Trade and Development Agency", "International Narcotics Control and Law Enforcement", "Assistance for Europe, Eurasia and Central Asia", "Economic Support Fund", "Democracy Fund", "Peacekeeping Operations", "Capital Investment Fund", "Operating Expenses", "Conflict Stabilization Operations", "Office of Inspector General", "Non-proliferation, Anti-terrorism, Demining and Related Programs", "Millennium Challenge Corporation", "Foreign Military Financing Program", "International Military Education and Training", "Pakistan Counterinsurgency Capability Fund", and "Peace Corps", shall be available for obligation for activities, programs, projects, type of materiel assistance, countries, or other operations not justified or in excess of the amount justified to the Committees on Appropriations for obligation under any of these specific headings unless the Committees on Appropriations are notified 15 days in advance: Provided, That the President shall not enter into any commitment of funds appropriated for the purposes of section 23 of the Arms Export Control Act for the provision of major defense equipment, other than conventional ammunition, or other major defense items defined to be aircraft, ships, missiles, or combat vehicles, not previously justified to Congress or 20 percent in excess of the quantities justified to Congress unless the Committees on Appropriations are notified 15 days in advance of such commitment: Provided further, That requirements of this subsection or any similar provision of any other Act shall not apply to any reprogramming for an activity, program, or project for which funds are appropriated under titles II through IV of this Act of less than 10 percent of the amount previously justified to the Congress for obligation for such activity, program, or project for the current fiscal year.

(d) Notwithstanding any other provision of law, with the exception of funds transferred to, and merged with, funds appropriated under title I of this Act, funds transferred by the Department of Defense to the Department of State and the United States Agency for International Development for assistance for foreign countries and international organizations, and funds made available for programs authorized by section 1206 of the National Defense Authorization Act for Fiscal Year 2006 (Public Law 109-163), shall be subject to the regular notification procedures of the Committees on Appropriations.

(e) The requirements of this section or any similar provision of this Act or any other Act, including any prior Act requiring notification in accordance with the regular notification procedures of the Committees on Appropriations, may be waived if failure to do so would pose a substantial risk to human health or welfare: Provided, That in case of any such waiver, notification to the Committees on Appropriations

shall be provided as early as practicable, but in no event later than 3 days after taking the action to which such notification requirement was applicable, in the context of the circumstances necessitating such waiver: Provided further, That any notification provided pursuant to such a waiver shall contain an explanation of the emergency circumstances.

(f) None of the funds appropriated under titles III through VI and VIII of this Act shall be obligated or expended for assistance for Serbia, Sudan, South Sudan, Zimbabwe, Afghanistan, Iraq, Pakistan, Cuba, Iran, Haiti, Libya, Ethiopia, Nepal, Colombia, Honduras, Burma, Yemen, Mexico, Kazakhstan, Uzbekistan, the Russian Federation, Somalia, Sri Lanka, or Cambodia except as provided through the regular notification procedures of the Committees on Appropriations.

## NOTIFICATION ON EXCESS DEFENSE EQUIPMENT

SEC. 7016. Prior to providing excess Department of Defense articles in accordance with section 516(a) of the Foreign Assistance Act of 1961, the Department of Defense shall notify the Committees on Appropriations to the same extent and under the same conditions as other committees pursuant to subsection (f) of that section: Provided, That before issuing a letter of offer to sell excess defense articles under the Arms Export Control Act, the Department of Defense shall notify the Committees on Appropriations in accordance with the regular notification procedures of such Committees if such defense articles are significant military equipment (as defined in section 47(9) of the Arms Export Control Act) or are valued (in terms of original acquisition cost) at \$7,000,000 or more, or if notification is required elsewhere in this Act for the use of appropriated funds for specific countries that would receive such excess defense articles: Provided further, That such Committees shall also be informed of the original acquisition cost of such defense articles.

## LIMITATION ON AVAILABILITY OF FUNDS FOR INTERNATIONAL ORGANIZATIONS AND PROGRAMS

SEC. 7017. Subject to the regular notification procedures of the Committees on Appropriations, funds appropriated under titles III through VI of this Act and prior Acts making appropriations for the Department of State, foreign operations, and related programs, which are returned or not made available for organizations and programs because of the implementation of section 307(a) of the Foreign Assistance Act of 1961 or section 7049(a) of this Act, shall remain available for obligation until September 30, 2013.

## PROHIBITION ON FUNDING FOR ABORTIONS AND INVOLUNTARY STERILIZATION

SEC. 7018. None of the funds made available to carry out part I of the Foreign Assistance Act of 1961, as amended, may be used to pay for the performance of abortions as a method of family planning or to motivate or coerce any person to practice abortions. None of the funds made available to carry out part I of the Foreign Assistance Act of 1961, as amended, may be used to pay for the performance of involuntary sterilization as a method of family planning or to coerce or provide any financial incentive to any person to undergo sterilizations. None of the funds made available to carry out part I of the Foreign Assistance Act of 1961, as amended, may be used to pay for any biomedical research which relates in whole or in part, to methods of, or the performance of, abortions or involuntary sterilization as a means of family planning. None of the funds made available to carry out part I of the Foreign Assistance Act of 1961, as amended, may be obligated or expended for any country or organization if the President certifies that the use of these funds by any such country or organization would violate any of the above provisions related to abortions and involuntary sterilizations.

## ALLOCATIONS

SEC. 7019. (a) Funds provided in this Act shall be made available for programs and countries in the amounts contained in the respective tables included in the joint explanatory statement accompanying this Act.

(b) For the purposes of implementing this section and only with respect to the tables included in the joint explanatory statement accompanying this Act, the Secretary of State, the Administrator of the United States Agency for International Development and the Broadcasting Board of Governors, as appropriate, may propose deviations to the amounts referenced in subsection (a), subject to the regular notification procedures of the Committees on Appropriations.

## PROHIBITION OF PAYMENT OF CERTAIN EXPENSES

SEC. 7020. None of the funds appropriated or otherwise made available by this Act under the headings "International Military Education and Training" or "Foreign Military Financing Program" for Informational Program activities or under the headings "Global Health Programs", "Development Assistance", and "Economic Support Fund" may be obligated or expended to pay for—

- (1) alcoholic beverages; or
- (2) entertainment expenses for activities that are substantially of a recreational character, including but not limited to entrance fees at sporting events, theatrical and musical productions, and amusement parks.

## PROHIBITION ON ASSISTANCE TO GOVERNMENTS SUPPORTING INTERNATIONAL TERRORISM

SEC. 7021. (a) LETHAL MILITARY EQUIPMENT EXPORTS.—

(1) None of the funds appropriated or otherwise made available by titles III through VI of this Act may be available to any foreign government which provides lethal military equipment to a country the government of which the Secretary of State has determined supports international terrorism for purposes of section 6(j) of the Export Administration Act of 1979: Provided, That the prohibition under this section with respect to a foreign government shall terminate 12 months after that government ceases to provide such military equipment: Provided further, That this section applies with respect to lethal military equipment provided under a contract entered into after October 1, 1997.

(2) Assistance restricted by paragraph (1) or any other similar provision of law, may be furnished if the President determines that to do so is important to the national interests of the United States.

(3) Whenever the President makes a determination pursuant to paragraph (2), the President shall submit to the Committees on Appropriations a report with respect to the furnishing of such assistance, including a detailed explanation of the assistance to be provided, the estimated dollar amount of such assistance, and an explanation of how the assistance furthers United States national interests.

## (b) BILATERAL ASSISTANCE.—

(1) Funds appropriated for bilateral assistance in titles III through VI of this Act and funds appropriated under any such title in prior acts making appropriations for the Department of State, foreign operations, and related programs, shall not be made available to any foreign government which the President determines—

(A) grants sanctuary from prosecution to any individual or group which has committed an act of international terrorism;

(B) otherwise supports international terrorism; or

(C) is controlled by an organization designated as a terrorist organization under section 219 of the Immigration and Nationality Act.

(2) The President may waive the application of paragraph (1) to a government if the Presi-

dent determines that national security or humanitarian reasons justify such waiver: Provided, That the President shall publish each such waiver in the Federal Register and, at least 15 days before the waiver takes effect, shall notify the Committees on Appropriations of the waiver (including the justification for the waiver) in accordance with the regular notification procedures of the Committees on Appropriations.

## AUTHORIZATION REQUIREMENTS

SEC. 7022. Funds appropriated by this Act, except funds appropriated under the heading "Trade and Development Agency", may be obligated and expended notwithstanding section 10 of Public Law 91-672, section 15 of the State Department Basic Authorities Act of 1956, section 313 of the Foreign Relations Authorization Act, Fiscal Years 1994 and 1995 (Public Law 103-236), and section 504(a)(1) of the National Security Act of 1947 (50 U.S.C. 414(a)(1)).

## DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

SEC. 7023. For the purpose of titles II through VI of this Act "program, project, and activity" shall be defined at the appropriations Act account level and shall include all appropriations and authorizations Acts funding directives, ceilings, and limitations with the exception that for the following accounts: "Economic Support Fund" and "Foreign Military Financing Program", "program, project, and activity" shall also be considered to include country, regional, and central program level funding within each such account; for the development assistance accounts of the United States Agency for International Development "program, project, and activity" shall also be considered to include central, country, regional, and program level funding, either as:

- (1) justified to the Congress; or
- (2) allocated by the executive branch in accordance with a report, to be provided to the Committees on Appropriations within 30 days of the enactment of this Act, as required by section 653(a) of the Foreign Assistance Act of 1961.

## AUTHORITIES FOR THE PEACE CORPS, INTER-AMERICAN FOUNDATION AND AFRICAN DEVELOPMENT FOUNDATION

SEC. 7024. Unless expressly provided to the contrary, provisions of this or any other Act, including provisions contained in prior Acts authorizing or making appropriations for the Department of State, foreign operations, and related programs, shall not be construed to prohibit activities authorized by or conducted under the Peace Corps Act, the Inter-American Foundation Act or the African Development Foundation Act: Provided, That prior to conducting activities in a country for which assistance is prohibited, the agency shall consult with the Committees on Appropriations and report to such Committees within 15 days of taking such action.

## COMMERCE, TRADE AND SURPLUS COMMODITIES

SEC. 7025. (a) None of the funds appropriated or made available pursuant to titles III through VI of this Act for direct assistance and none of the funds otherwise made available to the Export-Import Bank and the Overseas Private Investment Corporation shall be obligated or expended to finance any loan, any assistance or any other financial commitments for establishing or expanding production of any commodity for export by any country other than the United States, if the commodity is likely to be in surplus on world markets at the time the resulting productive capacity is expected to become operative and if the assistance will cause substantial injury to United States producers of the same, similar, or competing commodity: Provided, That such prohibition shall not apply to the Export-Import Bank if in the judgment of its Board of Directors the benefits to industry and

employment in the United States are likely to outweigh the injury to United States producers of the same, similar, or competing commodity, and the Chairman of the Board so notifies the Committees on Appropriations: Provided further, That this subsection shall not prohibit—

(1) activities in a country that is eligible for assistance from the International Development Association, is not eligible for assistance from the International Bank for Reconstruction and Development, and does not export on a consistent basis the agricultural commodity with respect to which assistance is furnished; or

(2) activities in a country the President determines is recovering from widespread conflict, a humanitarian crisis, or a complex emergency.

(b) None of the funds appropriated by this or any other Act to carry out chapter 1 of part I of the Foreign Assistance Act of 1961 shall be available for any testing or breeding feasibility study, variety improvement or introduction, consultancy, publication, conference, or training in connection with the growth or production in a foreign country of an agricultural commodity for export which would compete with a similar commodity grown or produced in the United States: Provided, That this subsection shall not prohibit—

(1) activities designed to increase food security in developing countries where such activities will not have a significant impact on the export of agricultural commodities of the United States;

(2) research activities intended primarily to benefit American producers;

(3) activities in a country that is eligible for assistance from the International Development Association, is not eligible for assistance from the International Bank for Reconstruction and Development, and does not export on a consistent basis the agricultural commodity with respect to which assistance is furnished; or

(4) activities in a country the President determines is recovering from widespread conflict, a humanitarian crisis, or a complex emergency.

(c) The Secretary of the Treasury shall instruct the United States Executive Directors of the International Bank for Reconstruction and Development, the International Development Association, the International Finance Corporation, the Inter-American Development Bank, the International Monetary Fund, the Asian Development Bank, the Inter-American Investment Corporation, the North American Development Bank, the European Bank for Reconstruction and Development, the African Development Bank, and the African Development Fund to use the voice and vote of the United States to oppose any assistance by these institutions, using funds appropriated or made available pursuant to titles III through VI of this Act, for the production or extraction of any commodity or mineral for export, if it is in surplus on world markets and if the assistance will cause substantial injury to United States producers of the same, similar, or competing commodity.

## SEPARATE ACCOUNTS

SEC. 7026. (a) SEPARATE ACCOUNTS FOR LOCAL CURRENCIES.—

(1) If assistance is furnished to the government of a foreign country under chapters I and 10 of part I or chapter 4 of part II of the Foreign Assistance Act of 1961 under agreements which result in the generation of local currencies of that country, the Administrator of the United States Agency for International Development (USAID) shall—

(A) require that local currencies be deposited in a separate account established by that government;

(B) enter into an agreement with that government which sets forth—

(i) the amount of the local currencies to be generated; and

(ii) the terms and conditions under which the currencies so deposited may be utilized, consistent with this section; and

(C) establish by agreement with that government the responsibilities of USAID and that government to monitor and account for deposits into and disbursements from the separate account.

(2) **USES OF LOCAL CURRENCIES.**—As may be agreed upon with the foreign government, local currencies deposited in a separate account pursuant to subsection (a), or an equivalent amount of local currencies, shall be used only—

(A) to carry out chapter 1 or 10 of part I or chapter 4 of part II of the Foreign Assistance Act of 1961 (as the case may be), for such purposes as—

- (i) project and sector assistance activities; or
- (ii) debt and deficit financing; or

(B) for the administrative requirements of the United States Government.

(3) **PROGRAMMING ACCOUNTABILITY.**—USAID shall take all necessary steps to ensure that the equivalent of the local currencies disbursed pursuant to subsection (a)(2)(A) from the separate account established pursuant to subsection (a)(1) are used for the purposes agreed upon pursuant to subsection (a)(2).

(4) **TERMINATION OF ASSISTANCE PROGRAMS.**—Upon termination of assistance to a country under chapter 1 or 10 of part I or chapter 4 of part II of the Foreign Assistance Act of 1961 (as the case may be), any unencumbered balances of funds which remain in a separate account established pursuant to subsection (a) shall be disposed of for such purposes as may be agreed to by the government of that country and the United States Government.

(5) **REPORTING REQUIREMENT.**—The USAID Administrator shall report on an annual basis as part of the justification documents submitted to the Committees on Appropriations on the use of local currencies for the administrative requirements of the United States Government as authorized in subsection (a)(2)(B), and such report shall include the amount of local currency (and United States dollar equivalent) used and/or to be used for such purpose in each applicable country.

(b) **SEPARATE ACCOUNTS FOR CASH TRANSFERS.**—

(1) If assistance is made available to the government of a foreign country, under chapter 1 or 10 of part I or chapter 4 of part II of the Foreign Assistance Act of 1961, as cash transfer assistance or as nonproject sector assistance, that country shall be required to maintain such funds in a separate account and not commingle them with any other funds.

(2) **APPLICABILITY OF OTHER PROVISIONS OF LAW.**—Such funds may be obligated and expended notwithstanding provisions of law which are inconsistent with the nature of this assistance including provisions which are referenced in the Joint Explanatory Statement of the Committee of Conference accompanying House Joint Resolution 648 (House Report No. 98–1159).

(3) **NOTIFICATION.**—At least 15 days prior to obligating any such cash transfer or nonproject sector assistance, the President shall submit a notification through the regular notification procedures of the Committees on Appropriations, which shall include a detailed description of how the funds proposed to be made available will be used, with a discussion of the United States interests that will be served by the assistance (including, as appropriate, a description of the economic policy reforms that will be promoted by such assistance).

(4) **EXEMPTION.**—Nonproject sector assistance funds may be exempt from the requirements of subsection (b)(1) only through the regular notification procedures of the Committees on Appropriations.

#### ELIGIBILITY FOR ASSISTANCE

**SEC. 7027. (a) ASSISTANCE THROUGH NON-GOVERNMENTAL ORGANIZATIONS.**—Restrictions contained in this or any other Act with respect to assistance for a country shall not be construed to restrict assistance in support of programs of nongovernmental organizations from funds appropriated by this Act to carry out the provisions of chapters 1, 10, 11, and 12 of part I and chapter 4 of part II of the Foreign Assistance Act of 1961, and from funds appropriated under the heading “Assistance for Europe, Eurasia and Central Asia”: Provided, That before using the authority of this subsection to furnish assistance in support of programs of nongovernmental organizations, the President shall notify the Committees on Appropriations under the regular notification procedures of those committees, including a description of the program to be assisted, the assistance to be provided, and the reasons for furnishing such assistance: Provided further, That nothing in this subsection shall be construed to alter any existing statutory prohibitions against abortion or involuntary sterilizations contained in this or any other Act.

(b) **PUBLIC LAW 480.**—During fiscal year 2012, restrictions contained in this or any other Act with respect to assistance for a country shall not be construed to restrict assistance under the Agricultural Trade Development and Assistance Act of 1954: Provided, That none of the funds appropriated to carry out title I of such Act and made available pursuant to this subsection may be obligated or expended except as provided through the regular notification procedures of the Committees on Appropriations.

(c) **EXCEPTION.**—This section shall not apply—

(1) with respect to section 620A of the Foreign Assistance Act of 1961 or any comparable provision of law prohibiting assistance to countries that support international terrorism; or

(2) with respect to section 116 of the Foreign Assistance Act of 1961 or any comparable provision of law prohibiting assistance to the government of a country that violates internationally recognized human rights.

#### IMPACT ON JOBS IN THE UNITED STATES

**SEC. 7028.** None of the funds appropriated under titles III through VI of this Act may be obligated or expended to provide—

(1) any financial incentive to a business enterprise currently located in the United States for the purpose of inducing such an enterprise to relocate outside the United States if such incentive or inducement is likely to reduce the number of employees of such business enterprise in the United States because United States production is being replaced by such enterprise outside the United States; or

(2) assistance for any program, project, or activity that contributes to the violation of internationally recognized workers rights, as defined in section 507(4) of the Trade Act of 1974, of workers in the recipient country, including any designated zone or area in that country: Provided, That the application of section 507(4)(D) and (E) of such Act should be commensurate with the level of development of the recipient country and sector, and shall not preclude assistance for the informal sector in such country, micro and small-scale enterprise, and smallholder agriculture.

#### INTERNATIONAL FINANCIAL INSTITUTIONS

**SEC. 7029. (a)** None of the funds appropriated under title V of this Act may be made as payment to any international financial institution while the United States executive director to such institution is compensated by the institution at a rate which, together with whatever compensation such executive director receives from the United States, is in excess of the rate

provided for an individual occupying a position at level IV of the Executive Schedule under section 5315 of title 5, United States Code, or while any alternate United States executive director to such institution is compensated by the institution at a rate in excess of the rate provided for an individual occupying a position at level V of the Executive Schedule under section 5316 of title 5, United States Code.

(b) The Secretary of the Treasury shall instruct the United States executive director of each international financial institution to oppose any loan, grant, strategy or policy of such institution that would require user fees or service charges on poor people for primary education or primary healthcare, including prevention, care and treatment for HIV/AIDS, malaria, tuberculosis, and infant, child, and maternal health, in connection with such institution's financing programs.

(c) The Secretary of the Treasury shall instruct the United States Executive Director of the International Monetary Fund (the Fund) to use the voice and vote of the United States to oppose any loan, project, agreement, memorandum, instrument, plan, or other program of the Fund to a Heavily Indebted Poor Country that imposes budget caps or restraints that do not allow the maintenance of or an increase in governmental spending on healthcare or education; and to promote government spending on healthcare, education, agriculture and food security, or other critical safety net programs in all of the Fund's activities with respect to Heavily Indebted Poor Countries.

(d) For the purposes of this Act “international financial institutions” shall mean the International Bank for Reconstruction and Development, the International Development Association, the International Finance Corporation, the Inter-American Development Bank, the International Monetary Fund, the Asian Development Bank, the Asian Development Fund, the Inter-American Investment Corporation, the North American Development Bank, the European Bank for Reconstruction and Development, the African Development Bank and the African Development Fund.

#### DEBT-FOR-DEVELOPMENT

**SEC. 7030.** In order to enhance the continued participation of nongovernmental organizations in debt-for-development and debt-for-nature exchanges, a nongovernmental organization which is a grantee or contractor of the United States Agency for International Development may place in interest bearing accounts local currencies which accrue to that organization as a result of economic assistance provided under title III of this Act and, subject to the regular notification procedures of the Committees on Appropriations, any interest earned on such investment shall be used for the purpose for which the assistance was provided to that organization.

#### FINANCIAL MANAGEMENT AND BUDGET TRANSPARENCY

**SEC. 7031. (a) LIMITATION ON DIRECT GOVERNMENT-TO-GOVERNMENT ASSISTANCE.**—

(1) Funds appropriated by this Act may be made available for direct Government-to-Government assistance only if—

(A) each implementing agency or ministry to receive assistance has been assessed and is considered to have the systems required to manage such assistance and any identified vulnerabilities or weaknesses of such agency or ministry have been addressed; and

(i) the recipient agency or ministry employs and utilizes staff with the necessary technical, financial, and management capabilities;

(ii) the recipient agency or ministry has adopted competitive procurement policies and systems;

(iii) effective monitoring and evaluation systems are in place to ensure that such assistance is used for its intended purposes; and

(iv) no level of acceptable fraud is assumed.

(B) The Government of the United States and the government of the recipient country have agreed, in writing—

(i) on clear and achievable objectives for the use of such assistance; and

(ii) that such assistance should be made on a cost-reimbursable basis.

(2) In addition to the requirements in subsection (a), no funds may be made available for such assistance without prior consultation with, and notification to, the Committees on Appropriations: Provided, That such notification shall contain an explanation of how the proposed activity meets the requirements of paragraph (1): Provided further, That the requirements of this paragraph shall only apply to direct Government-to-Government assistance in excess of \$10,000,000 and all funds available for cash transfer, budget support, and cash payments to individuals.

(3) The USAID Administrator or the Secretary of State, as appropriate, shall suspend any such assistance if the Administrator or the Secretary has credible information of material misuse of such assistance, unless the Administrator or the Secretary determines and reports to the Committees on Appropriations that it is in the national interest of the United States to continue such assistance.

(4) Not later than 90 days after the enactment of this Act and 6 months thereafter, the USAID Administrator shall submit to the Committees on Appropriations a report that—

(A) details all assistance described in subsection (a) provided during the previous 6-month period by country, funding amount, source of funds, and type of such assistance; and

(B) the type of procurement instrument or mechanism utilized and whether the assistance was provided on a cost-reimbursable basis.

(5) The USAID Administrator shall submit to the Committees on Appropriations, concurrent with the fiscal year 2013 congressional budget justification materials, amounts planned for assistance described in subsection (a) by country, proposed funding amount, source of funds, and type of assistance.

(b) NATIONAL BUDGET AND CONTRACT TRANSPARENCY.—

(1) LIMITATION ON FUNDING.—None of the funds appropriated under titles III and IV of this Act may be made available to the central government of any country that does not meet minimum standards of fiscal transparency: Provided, That the Secretary of State shall develop “minimum standards of fiscal transparency” to be updated and strengthened, as appropriate, to reflect best practices: Provided further, That the Secretary shall make an annual determination of “progress” or “no progress” for countries that do not meet minimum standards of fiscal transparency and make those determinations publicly available in an annual “Fiscal Transparency Report”.

(2) MINIMUM STANDARDS OF FISCAL TRANSPARENCY.—For purposes of paragraph (1), “minimum standards of fiscal transparency” shall include standards for the public disclosure of budget documentation, including receipts and expenditures by ministry, and government contracts and licenses for natural resource extraction, to include bidding and concession allocation practices.

(3) WAIVER.—The Secretary of State may waive the limitation on funding in paragraph (1) on a country-by-country basis if the Secretary reports to the Committees on Appropriations that the waiver is important to the national interest of the United States: Provided,

That such waiver shall identify any steps taken by the government of the country to publicly disclose its national budget and contracts which are additional to those which were undertaken in previous fiscal years, include specific recommendations of short- and long-term steps such government can take to improve budget transparency, and identify benchmarks for measuring progress.

(4) ASSISTANCE.—Of the funds appropriated under title III of this Act, not less than \$5,000,000 should be made available for programs and activities to assist the central governments of countries named in the list required by paragraph (1) to improve budget transparency or to support civil society organizations in such countries that promote budget transparency: Provided, That such sums shall be in addition to funds otherwise made available for such purposes.

(c) ANTI-KLEPTOCRACY.—

(1) Officials of foreign governments and their immediate family members who the Secretary of State has credible information have been involved in significant corruption, including corruption related to the extraction of natural resources, shall be ineligible for entry into the United States.

(2) Individuals shall not be ineligible if entry into the United States would further important United States law enforcement objectives or is necessary to permit the United States to fulfill its obligations under the United Nations Headquarters Agreement: Provided, That nothing in this provision shall be construed to derogate from United States Government obligations under applicable international agreements.

(3) The Secretary may waive the application of paragraph (1) if the Secretary determines that the waiver would serve a compelling national interest or that the circumstances which caused the individual to be ineligible have changed sufficiently.

(4) Not later than 90 days after enactment of this Act and 180 days thereafter, the Secretary of State shall submit a report, in classified form if necessary, to the Committees on Appropriations describing the information regarding corruption concerning each of the individuals found ineligible pursuant to paragraph (1), a list of any waivers provided under subsection (3), and the justification for each waiver.

AUTHORITY TO ENGAGE IN DEBT BUYBACKS OR SALES

SEC. 7032. (a) LOANS ELIGIBLE FOR SALE, REDUCTION, OR CANCELLATION.—

(1) AUTHORITY TO SELL, REDUCE, OR CANCEL CERTAIN LOANS.—Notwithstanding any other provision of law, the President may, in accordance with this section, sell to any eligible purchaser any concessional loan or portion thereof made before January 1, 1995, pursuant to the Foreign Assistance Act of 1961, to the government of any eligible country as defined in section 702(6) of that Act or on receipt of payment from an eligible purchaser, reduce or cancel such loan or portion thereof, only for the purpose of facilitating—

(A) debt-for-equity swaps, debt-for-development swaps, or debt-for-nature swaps; or

(B) a debt buyback by an eligible country of its own qualified debt, only if the eligible country uses an additional amount of the local currency of the eligible country, equal to not less than 40 percent of the price paid for such debt by such eligible country, or the difference between the price paid for such debt and the face value of such debt, to support activities that link conservation and sustainable use of natural resources with local community development, and child survival and other child development, in a manner consistent with sections 707 through 710 of the Foreign Assistance Act of 1961, if the sale, reduction, or cancellation

would not contravene any term or condition of any prior agreement relating to such loan.

(2) TERMS AND CONDITIONS.—Notwithstanding any other provision of law, the President shall, in accordance with this section, establish the terms and conditions under which loans may be sold, reduced, or canceled pursuant to this section.

(3) ADMINISTRATION.—The Facility, as defined in section 702(8) of the Foreign Assistance Act of 1961, shall notify the administrator of the agency primarily responsible for administering part I of the Foreign Assistance Act of 1961 of purchasers that the President has determined to be eligible, and shall direct such agency to carry out the sale, reduction, or cancellation of a loan pursuant to this section: Provided, That such agency shall make adjustment in its accounts to reflect the sale, reduction, or cancellation.

(4) LIMITATION.—The authorities of this subsection shall be available only to the extent that appropriations for the cost of the modification, as defined in section 502 of the Congressional Budget Act of 1974, are made in advance.

(b) DEPOSIT OF PROCEEDS.—The proceeds from the sale, reduction, or cancellation of any loan sold, reduced, or canceled pursuant to this section shall be deposited in the United States Government account or accounts established for the repayment of such loan.

(c) ELIGIBLE PURCHASERS.—A loan may be sold pursuant to subsection (a)(1)(A) only to a purchaser who presents plans satisfactory to the President for using the loan for the purpose of engaging in debt-for-equity swaps, debt-for-development swaps, or debt-for-nature swaps.

(d) DEBTOR CONSULTATIONS.—Before the sale to any eligible purchaser, or any reduction or cancellation pursuant to this section, of any loan made to an eligible country, the President should consult with the country concerning the amount of loans to be sold, reduced, or canceled and their uses for debt-for-equity swaps, debt-for-development swaps, or debt-for-nature swaps.

(e) AVAILABILITY OF FUNDS.—The authority provided by subsection (a) may be used only with regard to funds appropriated by this Act under the heading “Debt Restructuring”.

MULTI-YEAR COMMITMENTS

SEC. 7033. None of the funds appropriated by this Act may be used to make a future year funding pledge for any multilateral or bilateral program funded in titles III through VI of this Act unless such pledge was—

(1) previously justified in a congressional budget justification;

(2) included in an Act making appropriations for the Department of State, foreign operations, and related programs or previously authorized by an Act of Congress;

(3) notified in accordance with the regular notification procedures of the Committees on Appropriations; or

(4) the subject of prior consultation with the Committees on Appropriations and such consultation was conducted at least 7 days in advance of the pledge.

SPECIAL PROVISIONS

SEC. 7034. (a) VICTIMS OF WAR, DISPLACED CHILDREN, AND DISPLACED BURMESE.—Funds appropriated in titles III and VI of this Act that are made available for victims of war, displaced children, and displaced Burmese, and to assist victims of trafficking in persons and, subject to the regular notification procedures of the Committees on Appropriations, to combat such trafficking, may be made available notwithstanding any other provision of law.

(b) RECONSTITUTING CIVILIAN POLICE AUTHORITY.—In providing assistance with funds appropriated by this Act under section 660(b)(6) of the Foreign Assistance Act of 1961, support for a nation emerging from instability may be deemed to

mean support for regional, district, municipal, or other sub-national entity emerging from instability, as well as a nation emerging from instability.

(c) **WORLD FOOD PROGRAM.**—Funds managed by the Bureau for Democracy, Conflict, and Humanitarian Assistance, United States Agency for International Development (USAID), from this or any other Act, shall be made available as a general contribution to the World Food Program, notwithstanding any other provision of law.

(d) **DISARMAMENT, DEMOBILIZATION AND RE-INTEGRATION.**—Notwithstanding any other provision of law, regulation or Executive order, funds appropriated by this Act and prior Acts making appropriations for the Department of State, foreign operations, and related programs under the headings “Economic Support Fund”, “Peacekeeping Operations”, “International Disaster Assistance”, and “Transition Initiatives” should be made available to support programs to disarm, demobilize, and reintegrate into civilian society former members of foreign terrorist organizations: Provided, That the Secretary of State shall consult with the Committees on Appropriations prior to the obligation of funds pursuant to this subsection: Provided further, That for the purposes of this subsection the term “foreign terrorist organization” means an organization designated as a terrorist organization under section 219 of the Immigration and Nationality Act.

(e) **RESEARCH AND TRAINING.**—Funds appropriated by this Act under the heading “Economic Support Fund” may be made available to carry out the Program for Research and Training on Eastern Europe and the Independent States of the Former Soviet Union (title VIII) as authorized by the Soviet-Eastern European Research and Training Act of 1983 (22 U.S.C. 4501–4508).

(f) **CONTINGENCIES.**—During fiscal year 2012, the President may use up to \$50,000,000 under the authority of section 451 of the Foreign Assistance Act of 1961, notwithstanding any other provision of law.

(g) **CONSOLIDATION OF REPORTS.**—The Secretary of State, in coordination with the USAID Administrator, shall submit to the Committees on Appropriations, and other relevant congressional committees, not later than 90 days after enactment of this Act recommendations for the consolidation or combination of reports (including plans and strategies) that are called for by any provision of law to be submitted to the Congress and that are substantially duplicative of others called for by any other provision of law: Provided, That reports are considered “substantially duplicative” if they are required to address at least more than half of the same substantive factors, criteria and issues that are required to be addressed by any other report, and any such consolidated report must address all the substantive factors, criteria and issues required to be addressed in each of the individual reports: Provided further, That reports affected by this subsection are those within the purview of, or prepared primarily by, the Department of State and USAID and that relate to matters addressed under this Act or any other Act authorizing or appropriating funds for use by, or actions of, the Department of State or USAID.

(h) **PROMOTION OF DEMOCRACY.**—

(1) Funds made available by this Act that are made available for the promotion of democracy may be made available notwithstanding any other provision of law, and with regard to the National Endowment for Democracy, any regulation.

(2) For the purposes of funds appropriated by this Act, the term “promotion of democracy” means programs that support good governance, human rights, independent media, and the rule

of law, and otherwise strengthen the capacity of democratic political parties, governments, non-governmental organizations and institutions, and citizens to support the development of democratic states, institutions, and practices that are responsive and accountable to citizens.

(3) With respect to the provision of assistance for democracy, human rights and governance activities in this Act, the organizations implementing such assistance and the specific nature of that assistance shall not be subject to the prior approval by the government of any foreign country.

(4) Funds appropriated under the heading “Economic Support Fund” shall be made available to the Bureau of Democracy, Human Rights and Labor for programs to promote human rights by expanding open and uncensored access to information and communication as identified in the Department of State’s Internet freedom strategy: Provided, That funds made available by this paragraph should be matched by sources other than the United States Government, as appropriate: Provided further, That the Secretary of State shall coordinate the development and uses of circumvention and secure communications technologies with the Administrator of the United States Agency for International Development and the Broadcasting Board of Governors, as appropriate: Provided further, That the circumvention technologies and programs supported by funds made available by this Act, shall undergo a review, to include an assessment of the protection against such technologies being used for illicit purposes.

(5) Funds appropriated by this Act that are made available to promote democracy and human rights shall also be made available to support freedom of religion, especially in the Middle East and North Africa.

(i) **PARTNER VETTING.**—Funds appropriated in this Act or any prior Acts making appropriations for the Department of State, foreign operations, and related programs shall be used by the Secretary of State and the Administrator of the United States Agency for International Development (USAID), as appropriate, to support the development and implementation of a Partner Vetting System (PVS) pilot program: Provided, That such pilot program shall be implemented not later than September 30, 2012: Provided further, That the Secretary of State and the USAID Administrator shall jointly submit a report to the Committees on Appropriations not later than 30 days after completion of the pilot program on the estimated timeline and criteria for evaluating the PVS for expansion.

(j) **PROTECTIONS AND REMEDIES FOR EMPLOYEES OF DIPLOMATIC MISSIONS AND INTERNATIONAL ORGANIZATIONS.**—The Secretary of State shall implement section 203(a)(2) of the William Wilberforce Trafficking Victims Protection Reauthorization Act of 2008 (Public Law 110–457): Provided, That in determining whether to suspend the issuance of A–3 or G–5 visas to applicants seeking to work for officials of a diplomatic mission or international organization, the Secretary shall consider whether a final court judgment has been issued against a current or former employee of such mission or organization (and the time period for a final appeal has expired) or whether the Department of State has requested that immunity of individual diplomats or family members be waived to permit criminal prosecution: Provided further, That the Secretary should continue to assist in obtaining payment of final court judgments awarded to A–3 and G–5 visa holders, including encouraging the sending states to provide compensation directly to victims: Provided further, That the Secretary shall include, in a manner the Secretary deems appropriate, all trafficking cases involving A–3 or G–5 visa holders in the Trafficking in Persons annual report for which a final civil

judgment has been issued (and the time period for final appeal has expired) or the Department of Justice has determined that the United States Government would seek to indict the diplomat or a family member but for diplomatic immunity.

(k) **MODIFICATION OF AMENDMENT.**—Section 620J of the Foreign Assistance Act of 1961 (Limitation on Assistance to Security Forces) is amended as follows:

(1) by redesignating the section as section 620M;

(2) in subsection (a), by striking “evidence” and inserting “information” and by striking “gross violations” and inserting “a gross violation”;

(3) in subsection (b), by striking “measures” and inserting “steps”; and

(4) by adding the following subsection:

“(d) **CREDIBLE INFORMATION.**—The Secretary shall establish, and periodically update, procedures to—

“(1) ensure that for each country the Department of State has a current list of all security force units receiving United States training, equipment, or other types of assistance;

“(2) facilitate receipt by the Department of State and United States embassies of information from individuals and organizations outside the United States Government about gross violations of human rights by security force units;

“(3) routinely request and obtain such information from the Department of Defense, the Central Intelligence Agency, and other United States Government sources;

“(4) ensure that such information is evaluated and preserved;

“(5) ensure that when vetting an individual for eligibility to receive United States training the individual’s unit is also vetted;

“(6) seek to identify the unit involved when credible information of a gross violation exists but the identity of the unit is lacking; and

“(7) make publicly available, to the maximum extent practicable, the identity of those units for which no assistance shall be furnished pursuant to subsection (a).”

(l) **SECTIONS REPEALED.**—Sections 494, 495, and 495B through 495K of the Foreign Assistance Act of 1961 are hereby repealed.

(m) **EXTENSION OF AUTHORITIES.**—

(1) Section 1(b)(2) of the Passport Act of June 4, 1920 (22 U.S.C. 214(b)(2)) shall be applied by substituting “September 30, 2012” for “September 30, 2010”.

(2) The authority provided by section 301(a)(3) of the Omnibus Diplomatic Security and Antiterrorism Act of 1986 (22 U.S.C. 4831(a)(3)) shall remain in effect through September 30, 2012.

(3) The authority contained in section 1115(d) of Public Law 111–32 shall remain in effect through September 30, 2012.

(4) Section 824(g) of the Foreign Service Act of 1980 (22 U.S.C. 4064(g)) shall be applied by substituting “September 30, 2012” for “October 1, 2010” in paragraph (2).

(5) Section 61(a) of the State Department Basic Authorities Act of 1956 (22 U.S.C. 2733(a)) shall be applied by substituting “September 30, 2012” for “October 1, 2010” in paragraph (2).

(6) Section 625(j)(1) of the Foreign Assistance Act of 1961 (22 U.S.C. 2385(j)(1)) shall be applied by substituting “September 30, 2012” for “October 1, 2010” in subparagraph (B).

(7) The authority contained in section 1603(a)(2) of Public Law 109–234, as amended, shall remain in effect through September 30, 2012.

(8) The authority provided by section 1113 of Public Law 111–32 shall remain in effect through September 30, 2012: Provided, That none of the funds appropriated or otherwise made available by this Act or any other Act making appropriations for the Department of

State, foreign operations, and related programs may be used to implement phase 3 of such authority.

(n) **REPORTS REPEALED.**—Section 133(d) of Public Law 87–195; section 807 of Public Law 98–164; section 704(c) of Public Law 101–179; section 104 of Public Law 102–511; section 560(g) of Public Law 103–87; section 514(a) of Public Law 103–236; section 605(c) of Appendix G, Public Law 106–113; sections 3203 and 3204(f) of division B of Public Law 106–246; section 564(g)(4) of Public Law 106–429; sections 694(a), 694(b), 704 and 1321 of Public Law 107–228; and section 409(c) of Public Law 108–447 are hereby repealed.

(o) **GOVERNMENT EXPENDITURES.**—Funds appropriated under title III and under the heading “International Narcotics Control and Law Enforcement” in this Act should not be made available for assistance for any government for programs or activities in fiscal year 2013 if the Secretary of State or the Administrator of the United States Agency for International Development has credible information that such government is reducing its own expenditures for such programs or activities as a result of the assistance provided and for reasons that are inconsistent with the purposes of such assistance.

(p) **INTERNATIONAL CHILD ABDUCTIONS.**—The Secretary of State may withhold funds appropriated under title III of this Act for assistance for the central government of any country that the Secretary determines is not taking appropriate steps to comply with the Convention on the Civil Aspects of International Child Abductions, done at the Hague on October 25, 1980: Provided, That the Secretary shall report to the Committees on Appropriations within 15 days of making any such determination.

(q) **REDESIGNATIONS.**—

(1) The position of Advisor established pursuant to section 699B of division J of Public Law 110–161 shall, within 45 days of enactment of this Act and notwithstanding the requirements of such section, be moved to the United States Agency for International Development (USAID): Provided, That the Advisor shall hereafter be appointed by the USAID Administrator and shall report directly to the Administrator: Provided further, That the responsibilities of the Advisor enumerated in section 699B(b) shall remain in full force and effect.

(2) The position of Coordinator established pursuant to section 664 of division J of Public Law 110–161 shall, within 45 days of enactment of this Act and notwithstanding the requirements of such section, be moved to the United States Agency for International Development (USAID): Provided, That the Coordinator shall hereafter be appointed by the USAID Administrator and shall report directly to the Administrator: Provided further, That the responsibilities of the Coordinator enumerated in the first sentence of section 664(c) shall remain in full force and effect: Provided further, That the limitation in the second sentence of such section shall hereafter no longer apply to the Coordinator.

(r) **EXTENSION OF AUTHORITY.**—The Foreign Operations, Export Financing, and Related Programs Appropriations Act, 1990 (Public Law 101–167) is amended—

(1) In section 599D (8 U.S.C. 1157 note)—

(A) in subsection (b)(3), by striking “and 2011” and inserting “2011, and 2012”; and

(B) in subsection (e), by striking “June 1, 2011” each place it appears and inserting “October 1, 2012”; and

(2) in section 599E (8 U.S.C. 1255 note) in subsection (b)(2), by striking “2011” and inserting “2012”.

#### ARAB LEAGUE BOYCOTT OF ISRAEL

SEC. 7035. It is the sense of the Congress that—

(1) the Arab League boycott of Israel, and the secondary boycott of American firms that have

commercial ties with Israel, is an impediment to peace in the region and to United States investment and trade in the Middle East and North Africa;

(2) the Arab League boycott, which was regrettably reinstated in 1997, should be immediately and publicly terminated, and the Central Office for the Boycott of Israel immediately disbanded;

(3) all Arab League states should normalize relations with their neighbor Israel;

(4) the President and the Secretary of State should continue to vigorously oppose the Arab League boycott of Israel and find concrete steps to demonstrate that opposition by, for example, taking into consideration the participation of any recipient country in the boycott when determining to sell weapons to said country; and

(5) the President should report to Congress annually on specific steps being taken by the United States to encourage Arab League states to normalize their relations with Israel to bring about the termination of the Arab League boycott of Israel, including those to encourage allies and trading partners of the United States to enact laws prohibiting businesses from complying with the boycott and penalizing businesses that do comply.

#### PALESTINIAN STATEHOOD

SEC. 7036. (a) **LIMITATION ON ASSISTANCE.**—None of the funds appropriated under titles III through VI of this Act may be provided to support a Palestinian state unless the Secretary of State determines and certifies to the appropriate congressional committees that—

(1) the governing entity of a new Palestinian state—

(A) has demonstrated a firm commitment to peaceful co-existence with the State of Israel;

(B) is taking appropriate measures to counter terrorism and terrorist financing in the West Bank and Gaza, including the dismantling of terrorist infrastructures, and is cooperating with appropriate Israeli and other appropriate security organizations; and

(2) the Palestinian Authority (or the governing entity of a new Palestinian state) is working with other countries in the region to vigorously pursue efforts to establish a just, lasting, and comprehensive peace in the Middle East that will enable Israel and an independent Palestinian state to exist within the context of full and normal relationships, which should include—

(A) termination of all claims or states of belligerency;

(B) respect for and acknowledgment of the sovereignty, territorial integrity, and political independence of every state in the area through measures including the establishment of demilitarized zones;

(C) their right to live in peace within secure and recognized boundaries free from threats or acts of force;

(D) freedom of navigation through international waterways in the area; and

(E) a framework for achieving a just settlement of the refugee problem.

(b) **SENSE OF CONGRESS.**—It is the sense of Congress that the governing entity should enact a constitution assuring the rule of law, an independent judiciary, and respect for human rights for its citizens, and should enact other laws and regulations assuring transparent and accountable governance.

(c) **WAIVER.**—The President may waive subsection (a) if the President determines that it is important to the national security interests of the United States to do so.

(d) **EXEMPTION.**—The restriction in subsection (a) shall not apply to assistance intended to help reform the Palestinian Authority and affiliated institutions, or the governing entity, in order to help meet the requirements of sub-

section (a), consistent with the provisions of section 7040 of this Act (“Limitation on Assistance for the Palestinian Authority”).

#### RESTRICTIONS CONCERNING THE PALESTINIAN AUTHORITY

SEC. 7037. None of the funds appropriated under titles II through VI of this Act may be obligated or expended to create in any part of Jerusalem a new office of any department or agency of the United States Government for the purpose of conducting official United States Government business with the Palestinian Authority over Gaza and Jericho or any successor Palestinian governing entity provided for in the Israel-PLO Declaration of Principles: Provided, That this restriction shall not apply to the acquisition of additional space for the existing Consulate General in Jerusalem: Provided further, That meetings between officers and employees of the United States and officials of the Palestinian Authority, or any successor Palestinian governing entity provided for in the Israel-PLO Declaration of Principles, for the purpose of conducting official United States Government business with such authority should continue to take place in locations other than Jerusalem: Provided further, That as has been true in the past, officers and employees of the United States Government may continue to meet in Jerusalem on other subjects with Palestinians (including those who now occupy positions in the Palestinian Authority), have social contacts, and have incidental discussions.

#### PROHIBITION ON ASSISTANCE TO THE PALESTINIAN BROADCASTING CORPORATION

SEC. 7038. None of the funds appropriated or otherwise made available by this Act may be used to provide equipment, technical support, consulting services, or any other form of assistance to the Palestinian Broadcasting Corporation.

#### ASSISTANCE FOR THE WEST BANK AND GAZA

SEC. 7039. (a) **OVERSIGHT.**—For fiscal year 2012, 30 days prior to the initial obligation of funds for the bilateral West Bank and Gaza Program, the Secretary of State shall certify to the Committees on Appropriations that procedures have been established to assure the Comptroller General of the United States will have access to appropriate United States financial information in order to review the uses of United States assistance for the Program funded under the heading “Economic Support Fund” for the West Bank and Gaza.

(b) **VETTING.**—Prior to the obligation of funds appropriated by this Act under the heading “Economic Support Fund” for assistance for the West Bank and Gaza, the Secretary of State shall take all appropriate steps to ensure that such assistance is not provided to or through any individual, private or government entity, or educational institution that the Secretary knows or has reason to believe advocates, plans, sponsors, engages in, or has engaged in, terrorist activity nor, with respect to private entities or educational institutions, those that have as a principal officer of the entity's governing board or governing board of trustees any individual that has been determined to be involved in, or advocating terrorist activity or determined to be a member of a designated foreign terrorist organization: Provided, That the Secretary of State shall, as appropriate, establish procedures specifying the steps to be taken in carrying out this subsection and shall terminate assistance to any individual, entity, or educational institution which the Secretary has determined to be involved in or advocating terrorist activity.

(c) **PROHIBITION.**—

(1) None of the funds appropriated under titles III through VI of this Act for assistance under the West Bank and Gaza Program may be made available for the purpose of recognizing or

otherwise honoring individuals who commit, or have committed acts of terrorism.

(2) Notwithstanding any other provision of law, none of the funds made available by this or prior appropriations Acts, including funds made available by transfer, may be made available for obligation for security assistance for the West Bank and Gaza until the Secretary of State reports to the Committees on Appropriations on the benchmarks that have been established for security assistance for the West Bank and Gaza and reports on the extent of Palestinian compliance with such benchmarks.

(d) AUDITS.—

(1) The Administrator of the United States Agency for International Development shall ensure that Federal or non-Federal audits of all contractors and grantees, and significant sub-contractors and sub-grantees, under the West Bank and Gaza Program, are conducted at least on an annual basis to ensure, among other things, compliance with this section.

(2) Of the funds appropriated by this Act up to \$500,000 may be used by the Office of Inspector General of the United States Agency for International Development for audits, inspections, and other activities in furtherance of the requirements of this subsection: Provided, That such funds are in addition to funds otherwise available for such purposes.

(e) Subsequent to the certification specified in subsection (a), the Comptroller General of the United States shall conduct an audit and an investigation of the treatment, handling, and uses of all funds for the bilateral West Bank and Gaza Program, including all funds provided as cash transfer assistance, in fiscal year 2012 under the heading “Economic Support Fund”, and such audit shall address—

(1) the extent to which such Program complies with the requirements of subsections (b) and (c); and

(2) an examination of all programs, projects, and activities carried out under such Program, including both obligations and expenditures.

(f) Funds made available in this Act for West Bank and Gaza shall be subject to the regular notification procedures of the Committees on Appropriations.

(g) Not later than 180 days after enactment of this Act, the Secretary of State shall submit a report to the Committees on Appropriations updating the report contained in section 2106 of chapter 2 of title II of Public Law 109–13.

LIMITATION ON ASSISTANCE FOR THE PALESTINIAN AUTHORITY

SEC. 7040. (a) PROHIBITION OF FUNDS.—None of the funds appropriated by this Act to carry out the provisions of chapter 4 of part II of the Foreign Assistance Act of 1961 may be obligated or expended with respect to providing funds to the Palestinian Authority.

(b) WAIVER.—The prohibition included in subsection (a) shall not apply if the President certifies in writing to the Speaker of the House of Representatives, the President pro tempore of the Senate, and the Committees on Appropriations that waiving such prohibition is important to the national security interests of the United States.

(c) PERIOD OF APPLICATION OF WAIVER.—Any waiver pursuant to subsection (b) shall be effective for no more than a period of 6 months at a time and shall not apply beyond 12 months after the enactment of this Act.

(d) REPORT.—Whenever the waiver authority pursuant to subsection (b) is exercised, the President shall submit a report to the Committees on Appropriations detailing the justification for the waiver, the purposes for which the funds will be spent, and the accounting procedures in place to ensure that the funds are properly disbursed: Provided, That the report shall also detail the steps the Palestinian Au-

thority has taken to arrest terrorists, confiscate weapons and dismantle the terrorist infrastructure.

(e) CERTIFICATION.—If the President exercises the waiver authority under subsection (b), the Secretary of State must certify and report to the Committees on Appropriations prior to the obligation of funds that the Palestinian Authority has established a single treasury account for all Palestinian Authority financing and all financing mechanisms flow through this account, no parallel financing mechanisms exist outside of the Palestinian Authority treasury account, and there is a single comprehensive civil service roster and payroll.

(f) PROHIBITION TO HAMAS AND THE PALESTINE LIBERATION ORGANIZATION.—

(1) None of the funds appropriated in titles III through VI of this Act may be obligated for salaries of personnel of the Palestinian Authority located in Gaza or may be obligated or expended for assistance to Hamas or any entity effectively controlled by Hamas, any power-sharing government of which Hamas is a member, or that results from an agreement with Hamas and over which Hamas exercises undue influence.

(2) Notwithstanding the limitation of subsection (1), assistance may be provided to a power-sharing government only if the President certifies and reports to the Committees on Appropriations that such government, including all of its ministers or such equivalent, has publicly accepted and is complying with the principles contained in section 620K(b)(1)(A) and (B) of the Foreign Assistance Act of 1961, as amended.

(3) The President may exercise the authority in section 620K(e) of the Foreign Assistance Act as added by the Palestinian Anti-Terrorism Act of 2006 (Public Law 109–446) with respect to this subsection.

(4) Whenever the certification pursuant to paragraph (2) is exercised, the Secretary of State shall submit a report to the Committees on Appropriations within 120 days of the certification and every quarter thereafter on whether such government, including all of its ministers or such equivalent are continuing to comply with the principles contained in section 620K(b)(1)(A) and (B) of the Foreign Assistance Act of 1961, as amended: Provided, That the report shall also detail the amount, purposes and delivery mechanisms for any assistance provided pursuant to the abovementioned certification and a full accounting of any direct support of such government.

(5) None of the funds appropriated under titles III through VI of this Act may be obligated for assistance for the Palestine Liberation Organization.

NEAR EAST

SEC. 7041. (a) EGYPT.—

(1)(A) None of the funds appropriated under titles III and IV of this Act and in prior Acts making appropriations for the Department of State, foreign operations, and related programs may be made available for assistance for the central Government of Egypt unless the Secretary of State certifies to the Committees on Appropriations that such government is meeting its obligations under the 1979 Egypt-Israel Peace Treaty.

(B) Prior to the obligation of funds appropriated by this Act under the heading “Foreign Military Financing Program”, the Secretary of State shall certify to the Committees on Appropriations that the Government of Egypt is supporting the transition to civilian government including holding free and fair elections; implementing policies to protect freedom of expression, association, and religion, and due process of law.

(C) The Secretary of State may waive the requirements of paragraphs (A) and (B) if the Sec-

retary determines and reports to the Committees on Appropriations that to do so is in the national security interest of the United States: Provided, That such determination and report shall include a detailed justification for such waiver.

(2) The Secretary of State shall consult with the Committees on Appropriations prior to the transfer of funds appropriated by this Act under the heading “Foreign Military Financing Program” to an interest-bearing account for Egypt.

(3) Funds appropriated under the heading “Economic Support Fund” in this Act and prior Acts (including previously obligated funds), may be made available, notwithstanding any other provision of law, for an Egypt initiative, particularly for the specific costs referred to in the authorities referenced herein, for the purpose of improving the lives of the Egyptian people through education, investment in jobs and skills (including secondary and vocational education), and access to finance for small and medium enterprises with emphasis on expanding opportunities for women, as well as other appropriate market-reform and economic growth activities: Provided, That the provisions of title VI of Public Law 103–306 pertaining to funds for Jordan shall be deemed to apply to any such initiative and to funds available under this section to carry out such an initiative in the same manner as such cited provisions apply to Jordan, subject to the following provisos: Provided further, That subparagraph (b)(2) shall be deemed not to apply and the amount made available pursuant to this section as set forth in the joint explanatory statement accompanying this Act and incorporated herein shall be deemed to apply in lieu of the figure in subparagraph (b)(1): Provided further, That the authority to reduce debt shall include authority to exchange an outstanding obligation for a new obligation and to permit both principal and interest payments on new obligations to be deposited into a fund established for such purpose, to be used in accordance with purposes set forth in an agreement between the United States and Egypt: Provided further, That the authority of this paragraph shall only be made available after the Secretary of State certifies to the Committees on Appropriations that the Government of Egypt is implementing economic development policies consistent with the objectives of such initiative: Provided further, That funds made available for such initiative shall be subject to the regular notification procedures of the Committees on Appropriations.

(b) ENTERPRISE FUNDS.—Up to \$60,000,000 of funds appropriated under the heading “Economic Support Fund” in this Act and prior Acts making appropriations for the Department of State, foreign operations, and related programs (and including previously obligated funds), that are available for assistance for Egypt, up to \$20,000,000 of such funds that are available for assistance for Tunisia, and up to \$60,000,000 of such funds that are available for assistance for Jordan, respectively, may be made available notwithstanding any other provision of law, to establish and operate one or more enterprise funds for Egypt, Tunisia, and Jordan, respectively: Provided, That provisions contained in section 201 of the Support for East European Democracy (SEED) Act of 1989 (excluding the provisions of subsections (b), (c), (d)(3), and (f) of that section), shall be deemed to apply to any such fund or funds, and to funds made available to such fund or funds, in order to enable such fund or funds to provide assistance for purposes of this section: Provided further, That section 7077 of division F of Public Law 111–117 shall apply to any such fund or funds established pursuant to this subsection: Provided further, That not more than 5 percent of the funds made available pursuant to this subsection

should be available for administrative expenses of such fund or funds and not later than 1 year after the date of enactment of this Act, and annually thereafter until each fund is dissolved, each fund shall submit to the Committees on Appropriations a report detailing the administrative expenses of such fund: Provided further, That each fund shall be governed by a Board of Directors comprised of six private United States citizens and three private citizens of each country, respectively, who have had international business careers and demonstrated expertise in international and emerging markets investment activities: Provided further, That not later than 1 year after the entry into force of the initial grant agreement under this section and annually thereafter, each fund shall prepare and make available to the public on an Internet Web site administered by the fund a detailed report on the fund's activities during the previous year: Provided further, That the authority of any such fund or funds to provide assistance shall cease to be effective on December 31, 2022: Provided further, That funds made available pursuant to this section shall be subject to prior consultation with the Committees on Appropriations.

(c) **IRAN.**—

(1) It is the policy of the United States to seek to prevent Iran from achieving the capability to produce or otherwise manufacture nuclear weapons, including by supporting international diplomatic efforts to halt Iran's uranium enrichment program, and the President should fully implement and enforce the Iran Sanctions Act of 1996, as amended (Public Law 104-172) as a means of encouraging foreign governments to require state-owned and private entities to cease all investment in, and support of, Iran's energy sector and all exports of refined petroleum products to Iran.

(2) None of the funds appropriated or otherwise made available in this Act under the heading "Export-Import Bank of the United States" may be used by the Export-Import Bank of the United States to provide any new financing (including loans, guarantees, other credits, insurance, and reinsurance) to any person that is subject to sanctions under paragraph (2) or (3) of section 5(a) of the Iran Sanctions Act of 1996 (Public Law 104-172).

(3) The reporting requirements in section 7043(c) in division F of Public Law 111-117 shall continue in effect during fiscal year 2012 as if part of this Act: Provided, That the date in subsection (c)(1) shall be deemed to be "September 30, 2012".

(d) **IRAQ.**—

(1) Funds appropriated or otherwise made available by this Act for assistance for Iraq shall be made available in a manner that utilizes Iraqi entities to the maximum extent practicable, and in accordance with the cost-matching and other requirements in the Department of State's April 9, 2009 "Guidelines for Government of Iraq Financial Participation in United States Government-Funded Civilian Foreign Assistance Programs and Projects".

(2) None of the funds appropriated or otherwise made available by this Act may be used by the Government of the United States to enter into a permanent basing rights agreement between the United States and Iraq.

(3) Funds appropriated by this Act under titles III and VI for assistance for Iraq may be made available notwithstanding any other provision of law, except for this subsection and section 620M of the Foreign Assistance Act of 1961, as amended by this Act.

(4) Funds appropriated by this Act for assistance for Iraq under the heading "Economic Support Fund" shall be made available for programs and activities for which policy justifications and decisions shall be the responsibility of the United States Chief of Mission in Iraq.

(5)(A) Of the funds appropriated under the heading "Diplomatic and Consular Programs" in title VIII of this Act that are made available for security and provincial operations for the Department of State in Iraq, 15 percent shall be withheld from obligation until the Secretary of State submits a report to the Committees on Appropriations detailing—

(i) an assessment of the security environment in Iraq with respect to facilities and personnel, and the anticipated impact of the withdrawal of United States Armed Forces in Iraq on such environment, on a facility-by-facility basis;

(ii) an assessment of the security requirements at each facility, and the estimated cost of sustaining such requirements over the next 3 fiscal years;

(iii) the types of military equipment to be used to meet the security requirements at each facility;

(iv) the number of United States Government personnel anticipated at each facility, a general description of the duties of such personnel, and the number and cost of contractors anticipated at each facility required for operational and other support; and

(v) a description of contingency plans, including evacuation, at each facility for United States Government personnel and contractors.

(B) The report required by this paragraph may be submitted in classified form, if necessary.

(e) **LEBANON.**—

(1) None of the funds appropriated by this Act may be made available for the Lebanese Armed Forces (LAF) if the LAF is controlled by a foreign terrorist organization, as defined by section 219 of the Immigration and Nationality Act.

(2) Funds appropriated by this Act under the heading "Foreign Military Financing Program" for assistance for Lebanon may be made available only to professionalize the LAF and to strengthen border security and combat terrorism, including training and equipping the LAF to secure Lebanon's borders, interdicting arms shipments, preventing the use of Lebanon as a safe haven for terrorist groups, and to implement United Nations Security Council Resolution 1701: Provided, That funds may not be made available for obligation until the Secretary of State submits a detailed spend plan to the Committees on Appropriations, except such plan may not be considered as meeting the notification requirements under section 7015 of this Act or under section 634A of the Foreign Assistance Act of 1961, and shall be submitted not later than September 1, 2012: Provided further, That the Secretary of State shall regularly consult with the Committees on Appropriations on the activities of the LAF and assistance provided by the United States: Provided further, That not later than 90 days after enactment of this Act, the Secretary of State shall submit a report to the Committees on Appropriations detailing the actions taken to ensure that equipment provided to the LAF is used for intended purposes.

(3) Funds appropriated by this Act under titles III and VI for assistance for Lebanon may be made available notwithstanding any other provision of law, except for this subsection and section 620M of the Foreign Assistance Act of 1961, as amended by this Act.

(f) **LIBYA.**—Of the funds appropriated by this Act and prior Acts making appropriations for the Department of State, foreign operations, and related programs, up to \$20,000,000 should be made available to promote democracy, transparent and accountable governance, human rights, transitional justice, and the rule of law in Libya, and for exchange programs between Libyan and American students and professionals: Provided, That such funds shall be made available, to the maximum extent practicable, on a cost matching basis: Provided fur-

ther, That none of the funds appropriated by this Act may be made available for assistance for Libya for infrastructure projects, except on a loan basis with terms favorable to the United States, and only following consultation with the Committees on Appropriations.

(g) **MOROCCO.**—Prior to the obligation of funds appropriated by this Act under the heading "Foreign Military Financing Program" for assistance for Morocco, the Secretary of State shall submit a report to the Committees on Appropriations on steps being taken by the Government of Morocco to—

(1) respect the right of individuals to peacefully express their opinions regarding the status and future of the Western Sahara and to document violations of human rights; and

(2) provide unimpeded access to human rights organizations, journalists, and representatives of foreign governments to the Western Sahara.

(h) **SYRIA.**—Funds appropriated by this Act shall be made available to promote democracy and protect human rights in Syria, a portion of which should be programmed in consultation with governments in the region, as appropriate.

(i) **YEMEN.**—None of the funds appropriated by this Act may be made available for the Armed Forces of Yemen if such forces are controlled by a foreign terrorist organization, as defined by section 219 of the Immigration and Nationality Act.

**SERBIA**

SEC. 7042. (a) Funds appropriated by this Act may be made available for assistance for the central Government of Serbia after May 31, 2012, if the Secretary of State has submitted the report required in subsection (c).

(b) After May 31, 2012, the Secretary of the Treasury should instruct the United States executive directors of the international financial institutions to support loans and assistance to the Government of Serbia subject to the condition in subsection (c).

(c) The report referred to in subsection (a) is a report by the Secretary of State to the Committees on Appropriations that the Government of Serbia is cooperating with the International Criminal Tribunal for the former Yugoslavia, including apprehending and transferring indictees and providing investigators access to witnesses, documents, and other information.

(d) This section shall not apply to humanitarian assistance or assistance to promote democracy.

**AFRICA**

SEC. 7043. (a) **CONFLICT MINERALS.**—

(1) Funds appropriated by this Act under the heading "Foreign Military Financing Program" may be made available for assistance for Rwanda or Uganda unless the Secretary of State has credible information that the Government of Rwanda or the Government of Uganda is providing political, military or financial support to armed groups in the Democratic Republic of the Congo (DRC) that are involved in the illegal exportation of minerals out of the DRC or have violated human rights.

(2) The restriction in paragraph (1) shall not apply to assistance to improve border controls to prevent the illegal exportation of minerals out of the DRC by such groups, to protect humanitarian relief efforts, or to support the training and deployment of members of the Rwandan or Ugandan militaries in international peacekeeping operations or to conduct operations against the Lord's Resistance Army.

(b) **COUNTERTERRORISM PROGRAMS.**—Of the funds appropriated by this Act, not less than \$52,800,000 should be made available for the Trans-Sahara Counter-terrorism Partnership program, and not less than \$21,300,000 should be made available for the Partnership for Regional East Africa Counterterrorism program.

(c) **CRISIS RESPONSE.**—Notwithstanding any other provision of law, up to \$10,000,000 of the funds appropriated by this Act under the heading “Global Health Programs” for HIV/AIDS activities may be transferred to, and merged with, funds appropriated under the headings “Economic Support Fund” and “Transition Initiatives” to respond to unanticipated crises in Africa, except that funds shall not be transferred unless the Secretary of State certifies to the Committees on Appropriations that no individual currently on anti-retroviral therapy supported by such funds shall be negatively impacted by the transfer of such funds: Provided, That the authority of this subsection shall be subject to prior consultation with the Committees on Appropriations.

(d) **EXPANDED INTERNATIONAL MILITARY EDUCATION AND TRAINING.**—

(1) Funds appropriated under the heading “International Military Education and Training” (IMET) in this Act that are made available for assistance for Angola, Cameroon, Central African Republic, Chad, Côte d’Ivoire, Guinea and Zimbabwe may be made available only for training related to international peacekeeping operations and expanded IMET: Provided, That the limitation included in this paragraph shall not apply to courses that support training in maritime security for Angola and Cameroon.

(2) None of the funds appropriated under the heading “International Military Education and Training” in this Act may be made available for assistance for Equatorial Guinea or Somalia.

(e) **ETHIOPIA.**—

(1) Funds appropriated by this Act under the heading “Foreign Military Financing Program” that are available for assistance for Ethiopia shall not be made available unless the Secretary of State—

(A) certifies to the Committees on Appropriations that the Government of Ethiopia is implementing policies to respect due process and freedoms of expression and association, and is permitting access to human rights and humanitarian organizations to the Somalia region of Ethiopia; and

(B) submits a report to the Committees on Appropriations on the types and amounts of United States training and equipment proposed to be provided to the Ethiopian military including steps that will be taken to ensure that such assistance is not provided to military units or personnel that have violated human rights, and steps taken by the Government of Ethiopia to investigate and prosecute members of the Ethiopian military who have been credibly alleged to have violated such rights.

(2) The restriction in paragraph (1) shall not apply to assistance to Ethiopian military efforts in support of international peacekeeping operations, counterterrorism operations along the border with Somalia, and for assistance to the Ethiopian Defense Command and Staff College.

(f) **SUDAN LIMITATION ON ASSISTANCE.**—

(1) Notwithstanding any other provision of law, none of the funds appropriated by this Act may be made available for assistance for the Government of Sudan.

(2) None of the funds appropriated by this Act may be made available for the cost, as defined in section 502 of the Congressional Budget Act of 1974, of modifying loans and loan guarantees held by the Government of Sudan, including the cost of selling, reducing, or canceling amounts owed to the United States, and modifying concessional loans, guarantees, and credit agreements.

(3) The limitations of paragraphs (1) and (2) shall not apply to—

(A) humanitarian assistance;

(B) assistance for the Darfur region, Southern Kordofan/Nuba Mountains State, Blue Nile State, other marginalized areas and populations in Sudan, and Abyei; and

(C) assistance to support implementation of the Comprehensive Peace Agreement (CPA), mutual arrangements related to post-referendum issues associated with the CPA, or to promote peace and stability between Sudan and South Sudan, or any other internationally recognized viable peace agreement in Sudan.

(g) **SOUTH SUDAN.**—

(1) Funds appropriated by this Act should be made available for assistance for South Sudan including to increase agricultural productivity, expand educational opportunities especially for girls, strengthen democratic institutions and the rule of law, and enhance the capacity of the Federal Legislative Assembly to conduct oversight over government revenues and expenditures.

(2) Not less than 15 days prior to the obligation of funds appropriated by this Act that are available for assistance for the Government of South Sudan, the Secretary of State shall submit a report to the Committees on Appropriations detailing the extent to which the Government of South Sudan is—

(A) supporting freedom of expression, the establishment of democratic institutions including an independent judiciary, parliament, and security forces that are accountable to civilian authority; and

(B) investigating and punishing members of security forces who have violated human rights.

(3) The Secretary of State shall seek to obtain regular audits of the financial accounts of the Government of South Sudan to ensure transparency and accountability of funds, including revenues from the extraction of oil and gas, and the timely, public disclosure of such audits: Provided, That the Secretary should assist the Government of South Sudan in conducting such audits, and by providing technical assistance to enhance the capacity of the National Auditor Chamber to carry out its responsibilities, and shall submit a report not later than 90 days after enactment of this Act to the Committees on Appropriations detailing the steps that will be taken by the Government of South Sudan, which are additional to those taken in the previous fiscal year, to improve resource management and ensure transparency and accountability of funds.

(h) **UGANDA.**—Funds appropriated by this Act should be made available for programs and activities in areas affected by the Lord’s Resistance Army.

(i) **WAR CRIMES IN AFRICA.**—

(1) The Congress reaffirms its support for the efforts of the International Criminal Tribunal for Rwanda (ICTR) and the Special Court for Sierra Leone (SCSL) to bring to justice individuals responsible for war crimes and crimes against humanity in a timely manner.

(2) Funds appropriated by this Act may be made available for assistance for the central government of a country in which individuals indicted by the ICTR and the SCSL are credibly alleged to be living, if the Secretary of State determines and reports to the Committees on Appropriations that such government is cooperating with the ICTR and the SCSL, including the apprehension, surrender, and transfer of indictees in a timely manner: Provided, That this subsection shall not apply to assistance provided under section 551 of the Foreign Assistance Act of 1961 or to project assistance under title VI of this Act: Provided further, That the United States shall use its voice and vote in the United Nations Security Council to fully support efforts by the ICTR and the SCSL to bring to justice individuals indicted by such tribunals in a timely manner.

(3) The prohibition in paragraph (2) may be waived on a country-by-country basis if the President determines that doing so is in the national security interest of the United States:

Provided, That prior to exercising such waiver authority, the President shall submit a report to the Committees on Appropriations, in classified form if necessary, on—

(A) the steps being taken to obtain the cooperation of the government in apprehending and surrendering the indictee in question to the court of jurisdiction;

(B) a strategy, including a timeline, for bringing the indictee before such court; and

(C) the justification for exercising the waiver authority.

(j) **ZIMBABWE.**—

(1) The Secretary of the Treasury shall instruct the United States executive director of each international financial institution to vote against any extension by the respective institution of any loans or grants to the Government of Zimbabwe, except to meet basic human needs or to promote democracy, unless the Secretary of State determines and reports in writing to the Committees on Appropriations that the rule of law has been restored in Zimbabwe, including respect for ownership and title to property, freedom of speech and association.

(2) None of the funds appropriated by this Act shall be made available for assistance for the central Government of Zimbabwe, except for health, education, and macroeconomic growth assistance, unless the Secretary of State makes the determination required in paragraph (1).

#### ASIA

SEC. 7044. (a) **TIBET.**—

(1) The Secretary of the Treasury should instruct the United States executive director of each international financial institution to use the voice and vote of the United States to support projects in Tibet if such projects do not provide incentives for the migration and settlement of non-Tibetans into Tibet or facilitate the transfer of ownership of Tibetan land and natural resources to non-Tibetans; are based on a thorough needs-assessment; foster self-sufficiency of the Tibetan people and respect Tibetan culture and traditions; and are subject to effective monitoring.

(2) Notwithstanding any other provision of law, funds appropriated by this Act under the heading “Economic Support Fund” shall be made available to nongovernmental organizations to support activities which preserve cultural traditions and promote sustainable development and environmental conservation in Tibetan communities in the Tibetan Autonomous Region and in other Tibetan communities in China.

(b) **BURMA.**—

(1) The Secretary of the Treasury shall instruct the United States executive directors of the appropriate international financial institutions to vote against any loan, agreement, or other financial support for Burma.

(2) Funds appropriated by this Act under the heading “Economic Support Fund” may be made available for assistance for Burma notwithstanding any other provision of law, except no such funds shall be made available to the State Peace and Development Council, or its successor, and its affiliated organizations: Provided, That such funds shall be made available for programs along Burma’s borders and for Burmese groups and organizations located outside Burma, and may be made available to support programs in Burma: Provided further, That in addition to assistance for Burmese refugees appropriated under the heading “Migration and Refugee Assistance” in this Act, funds shall be made available for community-based organizations operating in Thailand to provide food, medical, and other humanitarian assistance to internally displaced persons in eastern Burma: Provided further, That any new program or activity initiated with funds made available by this Act shall be subject to prior consultation

with the Committees on Appropriations, and all such funds shall be subject to the regular notification procedures of the Committees on Appropriations.

(c) CAMBODIA.—Funds made available in this Act for a United States contribution to a Khmer Rouge tribunal may only be made available if the Secretary of State certifies to the Committees on Appropriations that the United Nations and the Government of Cambodia are taking credible steps to address allegations of corruption and mismanagement within the tribunal.

(d) INDONESIA.—Of the funds appropriated by this Act under the heading “Foreign Military Financing Program” that are available for assistance for Indonesia, \$2,000,000 may not be obligated until the Secretary of State submits to the Committees on Appropriations the report on Indonesia required under such heading in Senate Report 112–85.

(e) NORTH KOREA.—None of the funds made available by this Act under the heading “Economic Support Fund” may be made available for energy-related assistance for North Korea.

(f) PEOPLE’S REPUBLIC OF CHINA.—

(1) None of the funds appropriated under the heading “Diplomatic and Consular Programs” in this Act may be obligated or expended for processing licenses for the export of satellites of United States origin (including commercial satellites and satellite components) to the People’s Republic of China unless, at least 15 days in advance, the Committees on Appropriations are notified of such proposed action.

(2) The terms and requirements of section 620(h) of the Foreign Assistance Act of 1961 shall apply to foreign assistance projects or activities of the People’s Liberation Army (PLA) of the People’s Republic of China, to include such projects or activities by any entity that is owned or controlled by, or an affiliate of, the PLA: Provided, That none of the funds appropriated or otherwise made available pursuant to this Act may be used to finance any grant, contract, or cooperative agreement with the PLA, or any entity that the Secretary of State has reason to believe is owned or controlled by, or an affiliate of, the PLA.

(g) PHILIPPINES.—Of the funds appropriated by this Act under the heading “Foreign Military Financing Program” that are available for assistance for the Philippines, \$3,000,000 may not be obligated until the Secretary of State submits to the Committees on Appropriations the report on the Philippines required under such heading in Senate Report 112–85.

(h) VIETNAM.—Funds appropriated under the heading “Economic Support Fund” shall be made available for remediation of dioxin contaminated sites in Vietnam and may be made available for assistance for the Government of Vietnam, including the military, for such purposes, and funds under the heading “Development Assistance” shall be made available for related health/disability activities.

#### WESTERN HEMISPHERE

SEC. 7045. (a) COLOMBIA.—

(1) Funds appropriated by this Act and made available to the Department of State for assistance to the Government of Colombia may be used to support a unified campaign against narcotics trafficking, illegal armed groups, and organizations designated as Foreign Terrorist Organizations and successor organizations, and to take actions to protect human health and welfare in emergency circumstances, including undertaking rescue operations: Provided, That no United States Armed Forces personnel or United States civilian contractor employed by the United States will participate in any combat operation in connection with assistance made available by this Act for Colombia: Provided further, That rotary and fixed wing aircraft supported with funds appropriated under the

heading “International Narcotics Control and Law Enforcement” for assistance for Colombia may be used for aerial or manual drug eradication and interdiction including to transport personnel and supplies and to provide security for such operations: Provided further, That such aircraft may also be used to provide transport in support of alternative development programs and investigations by civilian judicial authorities: Provided further, That the President shall ensure that if any helicopter procured with funds in this Act or prior Acts making appropriations for the Department of State, foreign operations, and related programs, is used to aid or abet the operations of any illegal self-defense group, paramilitary organization, or other illegal armed group in Colombia, such helicopter shall be immediately returned to the United States: Provided further, That none of the funds appropriated by this Act or prior Acts making appropriations for the Department of State, foreign operations, and related programs may be made available for assistance for the Colombian Departamento Administrativo de Seguridad or successor organizations: Provided further, That none of the funds appropriated by this Act for assistance for Colombia shall be made available for the cultivation or processing of African oil palm, if doing so would contribute to significant loss of native species, disrupt or contaminate natural water sources, reduce local food security, or cause the forced displacement of local people: Provided further, That any complaints of harm to health or licit crops caused by aerial eradication shall be thoroughly investigated and evaluated, and fair compensation paid in a timely manner for meritorious claims: Provided further, That funds may not be made available for aerial eradication unless programs are being implemented by the United States Agency for International Development, the Government of Colombia, or other organizations, in consultation and coordination with local communities, to provide alternative sources of income in areas where security permits for small-acreage growers and communities whose illicit crops are targeted for aerial eradication: Provided further, That funds appropriated by this Act may not be used for aerial eradication in Colombia’s national parks or reserves unless the Secretary of State certifies to the Committees on Appropriations that there are no effective alternatives and the eradication is in accordance with Colombian laws.

(2) COLOMBIAN ARMED FORCES.—Of the funds appropriated by this Act that are available for assistance for the Colombian Armed Forces, 25 percent may be obligated only after the Secretary of State consults with, and subsequently certifies and submits a report to, the Committees on Appropriations that the Government of Colombia and Colombian Armed Forces are meeting the conditions that appear under this Section in the joint explanatory statement accompanying this Act: Provided, That the requirement to withhold funds from obligation shall not apply with respect to funds made available under the heading “International Narcotics Control and Law Enforcement” in this Act for continued support for the Critical Flight Safety Program or for any alternative development programs in Colombia administered by the Bureau of International Narcotics and Law Enforcement Affairs of the Department of State: Provided further, That not less than 30 days prior to making the certification the Secretary of State shall consult with Colombian and international human rights organizations.

(3) ILLEGAL ARMED GROUPS.—

(A) DENIAL OF VISAS.—Subject to paragraph (B), the Secretary of State shall not issue a visa to any alien who the Secretary determines, based on credible information—

(i) has willfully provided any support to or benefitted from the Revolutionary Armed Forces

of Colombia (FARC), the National Liberation Army (ELN), the United Self-Defense Forces of Colombia (AUC), or other illegal armed groups, including taking actions or failing to take actions which allow, facilitate, or otherwise foster the activities of such groups; or

(ii) has committed, ordered, incited, assisted, or otherwise participated in the commission of a violation of human rights in Colombia.

(B) WAIVER.—Paragraph (A) shall not apply if the Secretary of State certifies to the Committees on Appropriations, on a case-by-case basis, that the issuance of a visa to the alien is necessary to support the peace process in Colombia or for urgent humanitarian reasons.

(b) GUATEMALA.—Funds appropriated by this Act under the headings “International Military Education and Training” (IMET) and “Foreign Military Financing Program” that are available for assistance for Guatemala may be made available only for the Guatemalan Air Force, Navy, and Army Corps of Engineers: Provided, That expanded IMET may be made available for assistance for the Guatemalan Army.

(c) HAITI.—The Government of Haiti shall be eligible to purchase defense articles and services under the Arms Export Control Act (22 U.S.C. 2751 et seq.) for the Coast Guard.

(d) HONDURAS.—Prior to the obligation of 20 percent of the funds appropriated by this Act that are available for assistance for Honduras military and police forces, the Secretary of State shall report in writing to the Committees on Appropriations that: the Government of Honduras is implementing policies to protect freedom of expression and association, and due process of law; and is investigating and prosecuting in the civilian justice system, in accordance with Honduran and international law, military and police personnel who are credibly alleged to have violated human rights, and the Honduran military and police are cooperating with civilian judicial authorities in such cases: Provided, That the restriction in this subsection shall not apply to assistance to promote transparency, anti-corruption and the rule of law within the military and police forces.

(e) MEXICO.—Prior to the obligation of 15 percent of the funds appropriated by this Act that are available for assistance for Mexican military and police forces, the Secretary of State shall report in writing to the Committees on Appropriations that: the Government of Mexico is investigating and prosecuting in the civilian justice system, in accordance with Mexican and international law, military and police personnel who are credibly alleged to have violated human rights; is enforcing prohibitions on the use of testimony obtained through torture; and the Mexican military and police are cooperating with civilian judicial authorities in such cases: Provided, That the restriction in this subsection shall not apply to assistance to promote transparency, anti-corruption and the rule of law within the military and police forces.

(f) TRADE CAPACITY.—Of the funds appropriated by this Act, not less than \$10,000,000 under the heading “Development Assistance” and not less than \$10,000,000 under the heading “Economic Support Fund” shall be made available for labor and environmental capacity building activities relating to free trade agreements with countries of Central America, Peru and the Dominican Republic.

(g) AIRCRAFT OPERATIONS AND MAINTENANCE.—To the maximum extent practicable, the costs of operations and maintenance, including fuel, of aircraft funded by this Act should be borne by the recipient country.

#### SOUTH ASIA

SEC. 7046. (a) AFGHANISTAN.—

(1) LIMITATION.—None of the funds appropriated or otherwise made available by this Act under the headings “Economic Support Fund”

and “International Narcotics Control and Law Enforcement” may be obligated for assistance for the Government of Afghanistan until the Secretary of State, in consultation with the Administrator of the United States Agency for International Development (USAID), certifies to the Committees on Appropriations that—

(A) The funds will be used to design and support programs in accordance with the June 2011 “Administrator’s Sustainability Guidance for USAID in Afghanistan”.

(B) The Government of Afghanistan is—

(i) reducing corruption and improving governance, including by investigating, prosecuting, sanctioning or removing corrupt officials from office and implementing financial transparency and accountability measures for government institutions and officials (including the Central Bank) as well as conducting oversight of public resources;

(ii) taking credible steps to protect the human rights of Afghan women; and

(iii) taking significant steps to facilitate active public participation in governance and oversight.

(C) Funds will be used to support and strengthen the capacity of Afghan public and private institutions and entities to reduce corruption and to improve transparency and accountability of national, provincial and local governments.

(D) Representatives of Afghan national, provincial or local governments, and local communities and civil society organizations, including women-led organizations, will be consulted and participate in the design of programs, projects, and activities, including participation in implementation and oversight, and the development of specific benchmarks to measure progress and outcomes.

#### (2) ASSISTANCE AND OPERATIONS.—

(A) Funds appropriated or otherwise made available by this Act for assistance for Afghanistan may be made available as a United States contribution to the Afghanistan Reconstruction Trust Fund (ARTF) unless the Secretary of State determines and reports to the Committees on Appropriations that the World Bank Monitoring Agent of the ARTF is unable to conduct its financial control and audit responsibilities due to restrictions on security personnel by the Government of Afghanistan.

(B) Funds appropriated under the headings “Economic Support Fund” and “International Narcotics Control and Law Enforcement” in this Act that are available for assistance for Afghanistan—

(i) shall be made available, to the maximum extent practicable, in a manner that emphasizes the participation of Afghan women, and directly improves the security, economic and social well-being, and political status, and protects the rights of, Afghan women and girls and complies with sections 7060 and 7061 of this Act, including support for the Afghan Independent Human Rights Commission, the Afghan Ministry of Women’s Affairs, and women-led organizations;

(ii) may be made available for a United States contribution to an internationally managed fund to support the reconciliation with and disarmament, demobilization and reintegration into Afghan society of former combatants who have renounced violence against the Government of Afghanistan: Provided, That funds may be made available to support reconciliation and reintegration activities only if:

(I) Afghan women are participating at national, provincial and local levels of government in the design, policy formulation and implementation of the reconciliation or reintegration process, and such process upholds steps taken by the Government of Afghanistan to protect the human rights of Afghan women; and

(II) such funds will not be used to support any pardon or immunity from prosecution, or

any position in the Government of Afghanistan or security forces, for any leader of an armed group responsible for crimes against humanity, war crimes, or acts of terrorism; and

(iii) may be made available for a United States contribution to the North Atlantic Treaty Organization/International Security Assistance Force Post-Operations Humanitarian Relief Fund.

(C) The authority contained in section 1102(c) of Public Law 111–32 shall continue in effect during fiscal year 2012 and shall apply as if part of this Act.

(D)(i) Of the funds appropriated by this Act that are made available for assistance for Afghanistan, not less than \$50,000,000 shall be made available for rule of law programs: Provided, That decisions on the uses of such funds shall be the responsibility of the Coordinator for Rule of Law, in consultation with the Inter-agency Planning and Implementation Team, at the United States Embassy in Kabul, Afghanistan: Provided further, That \$250,000 of such funds shall be transferred to, and merged with, funds appropriated under the heading “Office of Inspector General” in title I of this Act for oversight of such programs and activities.

(ii) The Coordinator for Rule of Law at the United States Embassy in Kabul, Afghanistan shall be consulted on the use of all funds appropriated by this Act for rule of law programs in Afghanistan.

(E) None of the funds made available by this Act may be used by the United States Government to enter into a permanent basing rights agreement between the United States and Afghanistan.

(F) Any significant modification to the scope, objectives or implementation mechanisms of United States assistance programs in Afghanistan shall be subject to prior consultation with, and the regular notification procedures of, the Committees on Appropriations, except that the prior consultation requirement may be waived in a manner consistent with section 7015(e) of this Act.

(G) Not later than 90 days after enactment of this Act, the Secretary of State shall report to the Committees on Appropriations on the International Monetary Fund (IMF) country program for Afghanistan including actions requested by the IMF and taken by the Government of Afghanistan to address the Kabul Bank crisis and restore confidence in Afghanistan’s banking sector.

(H) Funds appropriated under titles III through VI of this Act that are made available for assistance for Afghanistan may be made available notwithstanding section 7012 of this Act or any similar provision of law and section 660 of the Foreign Assistance Act of 1961.

(3) OVERSIGHT.—The Special Inspector General for Afghanistan Reconstruction, the Inspector General of the Department of State and the Inspector General of USAID, shall jointly develop and submit to the Committees on Appropriations within 45 days of enactment of this Act a coordinated audit and inspection plan of United States assistance for, and civilian operations in, Afghanistan.

#### (b) NEPAL.—

(1) Funds appropriated by this Act under the heading “Foreign Military Financing Program” may be made available for assistance for Nepal only if the Secretary of State certifies to the Committees on Appropriations that the Nepal Army is—

(A) cooperating fully with investigations and prosecutions of violations of human rights by civilian judicial authorities; and

(B) working constructively to redefine the Nepal Army’s mission and adjust its size accordingly, implement reforms including strengthening the capacity of the civilian ministry of defense to improve budget transparency and ac-

countability, and facilitate the integration of former rebel combatants into the security forces including the Nepal Army, consistent with the goals of reconciliation, peace and stability.

(2) The conditions in paragraph (1) shall not apply to assistance for humanitarian relief and reconstruction activities in Nepal.

#### (c) PAKISTAN.—

##### (1) CERTIFICATION.—

(A) None of the funds appropriated or otherwise made available by this Act under the headings “Economic Support Fund”, “International Narcotics Control and Law Enforcement”, “Foreign Military Financing Program”, and “Pakistan Counterinsurgency Capability Fund” for assistance for the Government of Pakistan may be made available unless the Secretary of State certifies to the Committees on Appropriations that the Government of Pakistan is—

(i) cooperating with the United States in counterterrorism efforts against the Haqqani Network, the Quetta Shura Taliban, Lashkar e-Tayyiba, Jaish-e-Mohammed, Al Qaeda and other domestic and foreign terrorist organizations, including taking steps to end support for such groups and prevent them from basing and operating in Pakistan and carrying out cross border attacks into neighboring countries;

(ii) not supporting terrorist activities against United States or coalition forces in Afghanistan, and Pakistan’s military and intelligence agencies are not intervening extra-judicially into political and judicial processes in Pakistan;

(iii) dismantling improvised explosive device (IED) networks and interdicting precursor chemicals used in the manufacture of IEDs;

(iv) preventing the proliferation of nuclear-related material and expertise;

(v) issuing visas in a timely manner for United States visitors engaged in counterterrorism efforts and assistance programs in Pakistan; and

(vi) providing humanitarian organizations access to detainees, internally displaced persons, and other Pakistani civilians affected by the conflict.

(B) The Secretary of State may waive the requirements of paragraph (A) if to do so is in the national security interests of the United States.

##### (2) ASSISTANCE.—

(A) Funds appropriated by this Act under the heading “Foreign Military Financing Program” for assistance for Pakistan may be made available only to support counterterrorism and counterinsurgency capabilities in Pakistan, and are subject to section 620M of the Foreign Assistance Act of 1961, as amended by this Act.

(B) Funds appropriated by this Act under the heading “Economic Support Fund” for assistance for Pakistan should be made available to interdict precursor materials from Pakistan to Afghanistan that are used to manufacture improvised explosive devices, including calcium ammonium nitrate; to support programs to train border and customs officials in Pakistan and Afghanistan; and for agricultural extension programs that encourage alternative fertilizer use among Pakistani farmers.

(C) Of the funds appropriated by this Act under the heading “Economic Support Fund” for assistance for Pakistan, \$10,000,000 shall be made available through the Bureau of Democracy, Human Rights and Labor, Department of State, for human rights and democracy programs in Pakistan, including training of government officials and security forces, and assistance for human rights organizations and the development of democratic political parties.

(D) Funds appropriated by this Act under the heading “Economic Support Fund” for assistance for Pakistan may be made available for the Chief of Mission Fund, as authorized by section 101(c)(5) of Public Law 111–73.

(E) Funds appropriated by this Act under the heading “Economic Support Fund” that are

made available for assistance for infrastructure projects in Pakistan shall be implemented in a manner consistent with section 507(6) of the Trade Act of 1974 (19 U.S.C. 2467(6)).

(F) Funds appropriated by this Act under titles III and VI for assistance for Pakistan may be made available notwithstanding any other provision of law, except for this subsection and section 620M of the Foreign Assistance Act of 1961, as amended by this Act.

(3) **REPORTS.**—

(A)(i) The spend plan required by section 7078 of this Act for assistance for Pakistan shall include achievable and sustainable goals, benchmarks for measuring progress, and expected results regarding furthering development in Pakistan, countering extremism, and establishing conditions conducive to the rule of law and transparent and accountable governance: Provided, That such benchmarks may incorporate those required in title III of Public Law 111–73, as appropriate: Provided further, That not later than 6 months after submission of such spend plan, and each 6 months thereafter until September 30, 2013, the Secretary of State shall submit a report to the Committees on Appropriations on the status of achieving the goals and benchmarks in the spend plan.

(ii) The Secretary of State should suspend assistance for the Government of Pakistan if any report required by paragraph (A)(i) indicates that Pakistan is failing to make measurable progress in meeting these goals or benchmarks.

(B) Not later than 90 days after enactment of this Act, the Secretary of State shall submit a report to the Committees on Appropriations detailing the costs and objectives associated with significant infrastructure projects supported by the United States in Pakistan, and an assessment of the extent to which such projects achieve such objectives.

(d) **SRI LANKA.**—

(1) None of the funds appropriated by this Act under the heading “Foreign Military Financing Program” may be made available for assistance for Sri Lanka, no defense export license may be issued, and no military equipment or technology shall be sold or transferred to Sri Lanka pursuant to the authorities contained in this Act or any other Act, unless the Secretary of State certifies to the Committees on Appropriations that the Government of Sri Lanka is—

(A) conducting credible, thorough investigations of alleged war crimes and violations of international humanitarian law by government forces and the Liberation Tigers of Tamil Eelam;

(B) bringing to justice individuals who have been credibly alleged to have committed such violations;

(C) supporting and cooperating with any United Nations investigation of alleged war crimes and violations of international humanitarian law;

(D) respecting due process, the rights of journalists, and the rights of citizens to peaceful expression and association, including ending arrest and detention under emergency regulations;

(E) providing access to detainees by humanitarian organizations; and

(F) implementing policies to promote reconciliation and justice including devolution of power.

(2) Paragraph (1) shall not apply to assistance for humanitarian demining and aerial and maritime surveillance.

(3) If the Secretary makes the certification required in paragraph (1), funds appropriated under the heading “Foreign Military Financing Program” that are made available for assistance for Sri Lanka should be used to support the recruitment and training of Tamils into the Sri Lankan military, Tamil language training for Sinhalese military personnel, and human rights training for all military personnel.

(4) The Secretary of the Treasury shall instruct the United States executive directors of

the international financial institutions to vote against any loan, agreement, or other financial support for Sri Lanka except to meet basic human needs, unless the Secretary of State certifies to the Committees on Appropriations that the Government of Sri Lanka is meeting the requirements in paragraph (1)(D), (E), and (F) of this subsection.

(e) **REGIONAL CROSS BORDER PROGRAMS.**—Funds appropriated by this Act under the heading “Economic Support Fund” for assistance for Afghanistan and Pakistan may be provided notwithstanding any other provision of law that restricts assistance to foreign countries for cross border stabilization and development programs between Afghanistan and Pakistan or between either country and the Central Asian republics.

**PROHIBITION OF PAYMENTS TO UNITED NATIONS MEMBERS**

**SEC. 7047.** None of the funds appropriated or made available pursuant to titles III through VI of this Act for carrying out the Foreign Assistance Act of 1961, may be used to pay in whole or in part any assessments, arrearages, or dues of any member of the United Nations or, from funds appropriated by this Act to carry out chapter 1 of part I of the Foreign Assistance Act of 1961, the costs for participation of another country's delegation at international conferences held under the auspices of multilateral or international organizations.

**WAR CRIMES TRIBUNALS DRAWDOWN**

**SEC. 7048.** If the President determines that doing so will contribute to a just resolution of charges regarding genocide or other violations of international humanitarian law, the President may direct a drawdown pursuant to section 552(c) of the Foreign Assistance Act of 1961 of up to \$30,000,000 of commodities and services for the United Nations War Crimes Tribunal established with regard to the former Yugoslavia by the United Nations Security Council or such other tribunals or commissions as the Council may establish or authorize to deal with such violations, without regard to the ceiling limitation contained in paragraph (2) thereof: Provided, That the determination required under this section shall be in lieu of any determinations otherwise required under section 552(c): Provided further, That funds made available pursuant to this section shall be made available subject to the regular notification procedures of the Committees on Appropriations.

**UNITED NATIONS**

**SEC. 7049. (a) TRANSPARENCY AND ACCOUNTABILITY.**—

(1) Of the funds appropriated under title I and under the heading “International Organizations and Programs” in title V of this Act that are available for contributions to any United Nations agency or to the Organization of American States, 15 percent shall be withheld from obligation for such agency or organization if the Secretary of State determines and reports to the Committees on Appropriations that the agency or organization is not taking steps to—

(A) publish on a publicly available Web site, consistent with privacy regulations and due process, regular financial and programmatic audits of the agency or organization, and provide the United States Government with necessary access to such financial and performance audits; and

(B) implement best practices for the protection of whistleblowers from retaliation, including best practices for legal burdens of proof, access to independent adjudicative bodies, results that eliminate the effects of retaliation, and statutes of limitation for reporting retaliation.

(2) The Secretary may waive the restriction in this subsection if the Secretary determines and reports that to do so is in the national interest of the United States.

**(b) RESTRICTIONS ON UNITED NATIONS DELEGATIONS AND ORGANIZATIONS.**—

(1) None of the funds made available under title I of this Act may be used to pay expenses for any United States delegation to any specialized agency, body, or commission of the United Nations if such commission is chaired or presided over by a country, the government of which the Secretary of State has determined, for purposes of section 6(j)(1) of the Export Administration Act of 1979 (50 U.S.C. App. 2405(j)(1)), supports international terrorism.

(2) None of the funds made available under title I of this Act may be used by the Secretary of State as a contribution to any organization, agency, or program within the United Nations system if such organization, agency, commission, or program is chaired or presided over by a country, the government of which the Secretary of State has determined, for purposes of section 620A of the Foreign Assistance Act of 1961, section 40 of the Arms Export Control Act, section 6(j)(1) of the Export Administration Act of 1979, or any other provision of law, is a government that has repeatedly provided support for acts of international terrorism.

(3) The Secretary of State may waive the restrictions in this subsection if the Secretary determines and reports to the Committees on Appropriations that to do so is in the national interest of the United States.

(c) **UNITED NATIONS HUMAN RIGHTS COUNCIL.**—Funds appropriated by this Act may be made available for voluntary contributions or payment of United States assessments in support of the United Nations Human Rights Council if the Secretary of State determines and reports to the Committees on Appropriations that participation in the Council is in the national interest of the United States: Provided, That the Secretary of State shall report to the Committees on Appropriations not later than 30 days after the date of enactment of this Act, and every 180 days thereafter until September 30, 2012, on the resolutions considered in the United Nations Human Rights Council.

(d) **UNITED NATIONS RELIEF AND WORKS AGENCY.**—The reporting requirements regarding the United Nations Relief and Works Agency contained in the joint explanatory statement accompanying the Supplemental Appropriations Act, 2009 (Public Law 111–32, House Report 111–151) under the heading “Migration and Refugee Assistance” in title XI shall apply to funds made available by this Act under such heading.

(e) **UNITED NATIONS CAPITAL MASTER PLAN.**—None of the funds made available in this Act for the United Nations Capital Master Plan may be used for the design, renovation, or construction of the United Nations Headquarters in New York in excess of the United States payment for the assessment agreed upon pursuant to paragraph 10 of United Nations General Assembly Resolution 61/251.

(f) **REPORTING REQUIREMENT.**—Not later than 30 days after enactment of this Act, the Secretary of State shall submit a report to the Committees on Appropriation detailing the amount of funds available for obligation or expenditure in fiscal year 2012 under the headings “Contributions to International Organizations” and “International Organizations and Programs” that are withheld from obligation or expenditure due to any provision of law: Provided, That the Secretary of State shall update such report each time additional funds are withheld by operation of any provision of law: Provided further, That the reprogramming of any withheld funds identified in such report, including updates thereof, shall be subject to prior consultation with, and the regular notification procedures of, the Committees on Appropriations.

**COMMUNITY-BASED POLICE ASSISTANCE**

**SEC. 7050. (a) AUTHORITY.**—Funds made available by titles III and IV of this Act to carry out

the provisions of chapter 1 of part I and chapters 4 and 6 of part II of the Foreign Assistance Act of 1961, may be used, notwithstanding section 660 of that Act, to enhance the effectiveness and accountability of civilian police authority through training and technical assistance in human rights, the rule of law, anti-corruption, strategic planning, and through assistance to foster civilian police roles that support democratic governance including assistance for programs to prevent conflict, respond to disasters, address gender-based violence, and foster improved police relations with the communities they serve.

(b) **NOTIFICATION.**—Assistance provided under subsection (a) shall be subject to the regular notification procedures of the Committees on Appropriations.

#### ATTENDANCE AT INTERNATIONAL CONFERENCES

SEC. 7051. None of the funds made available in this Act may be used to send or otherwise pay for the attendance of more than 50 employees of agencies or departments of the United States Government who are stationed in the United States, at any single international conference occurring outside the United States, unless the Secretary of State reports to the Committees on Appropriations at least 5 days in advance that such attendance is important to the national interest: Provided, That for purposes of this section the term “international conference” shall mean a conference attended by representatives of the United States Government and of foreign governments, international organizations, or nongovernmental organizations.

#### AIRCRAFT TRANSFER AND COORDINATION

SEC. 7052. (a) **TRANSFER AUTHORITY.**—Notwithstanding any other provision of law or regulation, aircraft procured with funds appropriated by this Act and prior Acts making appropriations for the Department of State, foreign operations, and related programs under the headings “Diplomatic and Consular Programs”, “International Narcotics Control and Law Enforcement”, “Andean Counterdrug Initiative” and “Andean Counterdrug Programs” may be used for any other program and in any region, including for the transportation of active and standby Civilian Response Corps personnel and equipment during a deployment: Provided, That the responsibility for policy decisions and justification for the use of such transfer authority shall be the responsibility of the Secretary of State and the Deputy Secretary of State and this responsibility shall not be delegated.

(b) **PROPERTY DISPOSAL.**—The authority provided in subsection (a) shall apply only after the Secretary of State determines and reports to the Committees on Appropriations that the equipment is no longer required to meet programmatic purposes in the designated country or region: Provided, That any such transfer shall be subject to prior consultation with, and the regular notification procedures of, the Committees on Appropriations.

#### (c) AIRCRAFT COORDINATION.—

(1) The uses of aircraft purchased or leased by the Department of State and the United States Agency for International Development (USAID) with funds made available in this Act or prior Acts making appropriations for the Department of State, foreign operations, and related programs shall be coordinated under the authority of the appropriate Chief of Mission: Provided, That such aircraft may be used to transport, on a reimbursable or non-reimbursable basis, Federal and non-Federal personnel supporting Department of State and USAID programs and activities: Provided further, That official travel for other agencies for other purposes may be supported on a reimbursable basis, or without reimbursement when traveling on a space available basis.

(2) The requirement and authorities of this subsection shall only apply to aircraft, the primary purpose of which is the transportation of personnel.

#### PARKING FINES AND REAL PROPERTY TAXES OWED BY FOREIGN GOVERNMENTS

SEC. 7053. The terms and conditions of section 7055 of division F of Public Law 111–117 shall apply to this Act: Provided, That the date “September 30, 2009” in subsection (f)(2)(B) shall be deemed to be “September 30, 2011”.

#### LANDMINES AND CLUSTER MUNITIONS

SEC. 7054. (a) **LANDMINES.**—Notwithstanding any other provision of law, demining equipment available to the United States Agency for International Development and the Department of State and used in support of the clearance of landmines and unexploded ordnance for humanitarian purposes may be disposed of on a grant basis in foreign countries, subject to such terms and conditions as the Secretary of State may prescribe.

(b) **CLUSTER MUNITIONS.**—No military assistance shall be furnished for cluster munitions, no defense export license for cluster munitions may be issued, and no cluster munitions or cluster munitions technology shall be sold or transferred, unless—

(1) the submunitions of the cluster munitions, after arming, do not result in more than 1 percent unexploded ordnance across the range of intended operational environments; and

(2) the agreement applicable to the assistance, transfer, or sale of such cluster munitions or cluster munitions technology specifies that the cluster munitions will only be used against clearly defined military targets and will not be used where civilians are known to be present or in areas normally inhabited by civilians.

#### PROHIBITION ON PUBLICITY OR PROPAGANDA

SEC. 7055. No part of any appropriation contained in this Act shall be used for publicity or propaganda purposes within the United States not authorized before the date of the enactment of this Act by the Congress: Provided, That not to exceed \$25,000 may be made available to carry out the provisions of section 316 of Public Law 96–533.

#### LIMITATION ON RESIDENCE EXPENSES

SEC. 7056. Of the funds appropriated or made available pursuant to title II of this Act, not to exceed \$100,500 shall be for official residence expenses of the United States Agency for International Development during the current fiscal year: Provided, That appropriate steps shall be taken to assure that, to the maximum extent possible, United States-owned foreign currencies are utilized in lieu of dollars.

#### UNITED STATES AGENCY FOR INTERNATIONAL DEVELOPMENT MANAGEMENT (INCLUDING TRANSFER OF FUNDS)

SEC. 7057. (a) **AUTHORITY.**—Up to \$93,000,000 of the funds made available in title III of this Act to carry out the provisions of part I of the Foreign Assistance Act of 1961, including funds appropriated under the heading “Assistance for Europe, Eurasia and Central Asia”, may be used by the United States Agency for International Development (USAID) to hire and employ individuals in the United States and overseas on a limited appointment basis pursuant to the authority of sections 308 and 309 of the Foreign Service Act of 1980.

#### (b) RESTRICTIONS.—

(1) The number of individuals hired in any fiscal year pursuant to the authority contained in subsection (a) may not exceed 175.

(2) The authority to hire individuals contained in subsection (a) shall expire on September 30, 2013.

(c) **CONDITIONS.**—The authority of subsection (a) should only be used to the extent that an

equivalent number of positions that are filled by personal services contractors or other non-direct hire employees of USAID, who are compensated with funds appropriated to carry out part I of the Foreign Assistance Act of 1961, including funds appropriated under the heading “Assistance for Europe, Eurasia and Central Asia”, are eliminated.

(d) **PROGRAM ACCOUNT CHARGED.**—The account charged for the cost of an individual hired and employed under the authority of this section shall be the account to which such individual's responsibilities primarily relate: Provided, That funds made available to carry out this section may be transferred to, and merged with, funds appropriated by this Act in title II under the heading “Operating Expenses”.

(e) **FOREIGN SERVICE LIMITED EXTENSIONS.**—Individuals hired and employed by USAID, with funds made available in this Act or prior Acts making appropriations for the Department of State, foreign operations, and related programs, pursuant to the authority of section 309 of the Foreign Service Act of 1980, may be extended for a period of up to 4 years notwithstanding the limitation set forth in such section.

(f) **DISASTER SURGE CAPACITY.**—Funds appropriated under title III of this Act to carry out part I of the Foreign Assistance Act of 1961, including funds appropriated under the heading “Assistance for Europe, Eurasia and Central Asia”, may be used, in addition to funds otherwise available for such purposes, for the cost (including the support costs) of individuals detailed to or employed by USAID whose primary responsibility is to carry out programs in response to natural disasters, or man-made disasters subject to the regular notification procedures of the Committees on Appropriations.

(g) **PERSONAL SERVICES CONTRACTORS.**—Funds appropriated by this Act to carry out chapter 1 of part I, chapter 4 of part II, and section 667 of the Foreign Assistance Act of 1961, and title II of the Agricultural Trade Development and Assistance Act of 1954, may be used by USAID to employ up to 40 personal services contractors in the United States, notwithstanding any other provision of law, for the purpose of providing direct, interim support for new or expanded overseas programs and activities managed by the agency until permanent direct hire personnel are hired and trained: Provided, That not more than 15 of such contractors shall be assigned to any bureau or office: Provided further, That such funds appropriated to carry out title II of the Agricultural Trade Development and Assistance Act of 1954, may be made available only for personal services contractors assigned to the Office of Food for Peace.

(h) **SMALL BUSINESS.**—In entering into multiple award indefinite-quantity contracts with funds appropriated by this Act, USAID may provide an exception to the fair opportunity process for placing task orders under such contracts when the order is placed with any category of small or small disadvantaged business.

(i) **SENIOR FOREIGN SERVICE LIMITED APPOINTMENTS.**—Individuals hired pursuant to the authority provided by section 7059(o) of division F of Public Law 111–117 may be assigned to or support programs in Iraq, Afghanistan, or Pakistan with funds made available in this Act and prior Acts making appropriations for the Department of State, foreign operations, and related programs.

#### GLOBAL HEALTH ACTIVITIES

SEC. 7058. (a) **IN GENERAL.**—Funds appropriated by titles III and IV of this Act that are made available for bilateral assistance for child survival activities or disease programs including activities relating to research on, and the prevention, treatment and control of, HIV/AIDS may be made available notwithstanding any other provision of law except for provisions

under the heading "Global Health Programs" and the United States Leadership Against HIV/AIDS, Tuberculosis, and Malaria Act of 2003 (117 Stat. 711; 22 U.S.C. 7601 et seq.), as amended: Provided, That of the funds appropriated under title III of this Act, not less than \$575,000,000 should be made available for family planning/reproductive health, including in areas where population growth threatens biodiversity or endangered species.

(b) GLOBAL HEALTH MANAGEMENT.—

(1) Not later than 180 days after enactment of this Act, the Secretary of State, in consultation with the Administrator of the United States Agency for International Development (USAID), shall submit to the Committees on Appropriations an analysis of short and long-term costs, to include potential cost savings or increases, associated with transitioning the function, role, and duties of the Office of the United States Global AIDS Coordinator into USAID: Provided, That such report shall also assess any programmatic advantages and disadvantages, including the ability to achieve results, of making such a transition.

(2)(A) Not later than 45 days after enactment of this Act, the Secretary of State, in consultation with the Administrator of the United States Agency for International Development (USAID), shall submit to the Committees on Appropriations a report on the status of the Quadrennial Diplomacy and Development Review (QDDR) decision to transition the leadership of the Global Health Initiative (GHI) to USAID, to include the following—

(i) the metrics developed to measure progress in meeting each benchmark enumerated in Appendix 2 of the QDDR and the method utilized to develop such metrics; and

(ii) the status of, and estimated completion date for, meeting each benchmark.

(B) Within 90 days of submitting the initial report required by subparagraph (A), and each 90 days thereafter until the GHI transition is completed, an update shall be provided to the Committees on Appropriations on the status of meeting each benchmark: Provided, That if as part of any such update it is determined that the QDDR target date of September 2012 will not be met, the Secretary of State, in consultation with the USAID Administrator, shall submit a detailed explanation of the delay and a revised target date for the transition to be completed.

(c) GLOBAL FUND REFORMS.—

(1) Of funds appropriated by this Act that are available for a contribution to the Global Fund to Fight AIDS, Tuberculosis and Malaria (Global Fund), 10 percent should be withheld from obligation until the Secretary of State determines and reports to the Committees on Appropriations that—

(A) the Global Fund is maintaining and implementing a policy of transparency, including the authority of the Global Fund Office of the Inspector General (OIG) to publish OIG reports on a public Web site;

(B) the Global Fund is providing sufficient resources to maintain an independent OIG that—

(i) reports directly to the Board of the Global Fund;

(ii) maintains a mandate to conduct thorough investigations and programmatic audits, free from undue interference; and

(iii) compiles regular, publicly published audits and investigations of financial, programmatic, and reporting aspects of the Global Fund, its grantees, recipients, sub-recipients, and Local Fund Agents; and

(C) the Global Fund maintains an effective whistleblower policy to protect whistleblowers from retaliation, including confidential procedures for reporting possible misconduct or irregularities.

(2) The withholding required by this subsection shall not be in addition to funds that are

withheld from the Global Fund in fiscal year 2012 pursuant to the application of any other provision contained in this or any other Act.

(d) PANDEMIC RESPONSE.—If the President determines and reports to the Committees on Appropriations that a pandemic virus is efficient and sustained, severe, and is spreading internationally, funds made available under titles III, IV, and VIII in this Act and prior Acts making appropriations for the Department of State, foreign operations, and related programs may be made available to combat such virus: Provided, That funds made available pursuant to the authority of this subsection shall be subject to prior consultation with, and the regular notification procedures of, the Committees on Appropriations.

PROHIBITION ON PROMOTION OF TOBACCO

SEC. 7059. None of the funds provided by this Act shall be available to promote the sale or export of tobacco or tobacco products, or to seek the reduction or removal by any foreign country of restrictions on the marketing of tobacco or tobacco products, except for restrictions which are not applied equally to all tobacco or tobacco products of the same type.

PROGRAMS TO PROMOTE GENDER EQUALITY

SEC. 7060. (a) Programs funded under title III of this Act shall include, where appropriate, efforts to improve the status of women, including through gender considerations in the planning, assessment, implementation, monitoring and evaluation of such programs.

(b) Funds appropriated under title III of this Act shall be made available to support programs to expand economic opportunities for poor women in developing countries, including increasing the number and capacity of women-owned enterprises, improving property rights for women, increasing women's access to financial services and capital, enhancing the role of women in economic decisionmaking at the local, national and international levels, and improving women's ability to participate in the global economy.

(c) Funds appropriated under title III of this Act shall be made available to increase political opportunities for women, including strengthening protections for women's personal status, increasing women's participation in elections, and enhancing women's positions in government and role in government decisionmaking.

(d) Funds appropriated under title III of this Act for food security and agricultural development shall take into consideration the unique needs of women, and technical assistance for women farmers should be a priority.

(e) The Secretary of State, in consultation with the heads of other relevant Federal agencies, shall develop a National Action Plan in accordance with United Nations Security Council Resolution 1325 (adopted on October 31, 2000) to ensure the United States effectively promotes and supports the rights and roles of women in conflict-affected and post-conflict regions through clear, measurable commitments to—

(1) promote the active and meaningful participation of women in affected areas in all aspects of conflict prevention, management, and resolution;

(2) integrate the perspectives and interests of affected women into conflict-prevention activities and strategies;

(3) promote the physical safety, economic security, and dignity of women and girls;

(4) support women's equal access to aid distribution mechanisms and services; and

(5) monitor, analyze and evaluate implementation efforts and their impact.

(f) The Department of State and the United States Agency for International Development shall fully integrate gender into all diplomatic and development efforts through the inclusion

of gender in strategic planning and budget allocations, and the development of indicators and evaluation mechanisms to measure the impact of United States policies and programs on women and girls in foreign countries.

GENDER-BASED VIOLENCE

SEC. 7061. (a) Funds appropriated under the headings "Global Health Programs", "Development Assistance", "Economic Support Fund", and "International Narcotics Control and Law Enforcement" in this Act shall be made available for gender-based violence prevention and response efforts, and funds appropriated under the headings "International Disaster Assistance", "Complex Crises Fund", and "Migration and Refugee Assistance" should be made available for such efforts.

(b) Programs and activities funded under titles III and IV of this Act to train foreign police, judicial, and military personnel, including for international peacekeeping operations, shall address, where appropriate, prevention and response to gender-based violence and trafficking in persons.

SECTOR ALLOCATIONS

SEC. 7062. (a) BASIC AND HIGHER EDUCATION.—

(1) BASIC EDUCATION.—

(A) Of the funds appropriated by title III of this Act, not less than \$800,000,000 shall be made available for assistance for basic education, of which not less than \$288,000,000 should be made available under the heading "Development Assistance".

(B) The United States Agency for International Development shall ensure that programs supported with funds appropriated for basic education in this Act and prior Acts making appropriations for the Department of State, foreign operations, and related programs are integrated, when appropriate, with health, agriculture, governance, and economic development activities to address the economic and social needs of the broader community.

(C) Funds appropriated by title III of this Act for basic education may be made available for a contribution to the Global Partnership for Education.

(2) HIGHER EDUCATION.—Of the funds appropriated by title III of this Act, not less than \$200,000,000 shall be made available for assistance for higher education, of which \$25,000,000 shall be to support such programs in Africa, including for partnerships between higher education institutions in Africa and the United States.

(b) DEVELOPMENT GRANTS PROGRAM.—Of the funds appropriated in title III of this Act, not less than \$45,000,000 shall be made available for the Development Grants Program established pursuant to section 674 of the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2008 (division J of Public Law 110-161), primarily for unsolicited proposals, to support grants of not more than \$2,000,000 to small nongovernmental organizations: Provided, That funds made available under this subsection are in addition to other funds available for such purposes including funds designated by this Act by subsection (f).

(c) ENVIRONMENT PROGRAMS.—

(1) IN GENERAL.—Of the funds appropriated by this Act, not less than \$1,250,000,000 should be made available for programs and activities to protect the environment.

(2) CLEAN ENERGY PROGRAMS.—The limitation in section 7081(b) of division F of Public Law 111-117 shall continue in effect during fiscal year 2012 as if part of this Act: Provided, That the proviso contained in such section shall not apply.

(3) ADAPTATION PROGRAMS.—Funds appropriated by this Act may be made available for

United States contributions to the Least Developed Countries Fund and the Special Climate Change Fund to support adaptation programs and activities.

(4) **TROPICAL FOREST PROGRAMS.**—Funds appropriated under title III of this Act for tropical forest programs shall be used to protect biodiversity, and shall not be used to support or promote the expansion of industrial scale logging into primary tropical forests: Provided, That funds that are available for the Central African Regional Program for the Environment and other tropical forest programs in the Congo Basin for the United States Fish and Wildlife Service (USFWS) shall be apportioned directly to the USFWS: Provided further, That funds made available for the Department of the Interior (DOI) for programs in the Guatemala Mayan Biosphere Reserve shall be apportioned directly to the DOI.

(5) **AUTHORITY.**—Funds appropriated by this Act to carry out the provisions of sections 103 through 106, and chapter 4 of part II, of the Foreign Assistance Act of 1961 may be used, notwithstanding any other provision of law except for the provisions of this section and subject to the regular notification procedures of the Committees on Appropriations, to support environment programs.

(6) **CONSULTATION.**—Funds made available pursuant to this subsection are subject to prior consultation with, and the regular notification procedures of, the Committees on Appropriations.

(7) **EXTRACTION OF NATURAL RESOURCES.**—

(A) Funds appropriated by this Act shall be made available to promote and support transparency and accountability of expenditures and revenues related to the extraction of natural resources, including by strengthening implementation and monitoring of the Extractive Industries Transparency Initiative, implementing and enforcing section 8204 of Public Law 110-246 and the Kimberley Process Certification Scheme, and providing technical assistance to promote independent audit mechanisms and support civil society participation in natural resource management.

(B)(i) The Secretary of the Treasury shall inform the managements of the international financial institutions and post on the Department of the Treasury's Web site that it is the policy of the United States to vote against any assistance by such institutions (including but not limited to any loan, credit, grant, or guarantee) for the extraction and export of a natural resource if the government of the country has in place laws or regulations to prevent or limit the public disclosure of company payments as required by section 1504 of Public Law 111-203, and unless such government has in place functioning systems in the sector in which assistance is being considered for:

(I) accurately accounting for and public disclosure of payments to the host government by companies involved in the extraction and export of natural resources;

(II) the independent auditing of accounts receiving such payments and public disclosure of the findings of such audits; and

(III) public disclosure of such documents as Host Government Agreements, Concession Agreements, and bidding documents, allowing in any such dissemination or disclosure for the redaction of, or exceptions for, information that is commercially proprietary or that would create competitive disadvantage.

(ii) The requirements of subparagraph (i) shall not apply to assistance for the purpose of building the capacity of such government to meet the requirements of this paragraph.

(C) The Secretary of the Treasury or the Secretary of State, as appropriate, shall instruct the United States executive director of each

international financial institution and the United States representatives to all forest-related multilateral financing mechanisms and processes, that it is the policy of the United States to vote against the expansion of industrial scale logging into primary tropical forests.

(8) **CONTINUATION OF PRIOR LAW.**—Section 7081(g)(2) and (4) of division F of Public Law 111-117 shall continue in effect during fiscal year 2012 as if part of this Act.

(d) **FOOD SECURITY AND AGRICULTURE DEVELOPMENT.**—Of the funds appropriated by title III of this Act, \$1,170,000,000 should be made available for food security and agriculture development programs, of which \$31,500,000 shall be made available for Collaborative Research Support Programs: Provided, That such funds may be made available notwithstanding any other provision of law to address food shortages, and may be made available for a United States contribution to the endowment of the Global Crop Diversity Trust pursuant to section 3202 of Public Law 110-246.

(e) **MICROENTERPRISE AND MICROFINANCE.**—Of the funds appropriated by this Act, not less than \$265,000,000 should be made available for microenterprise and microfinance development programs for the poor, especially women.

(f) **RECONCILIATION PROGRAMS.**—(1) Of the funds appropriated by title III of this Act under the headings "Economic Support Fund" and "Development Assistance", \$26,000,000 shall be made available to support people-to-people reconciliation programs which bring together individuals of different ethnic, religious and political backgrounds from areas of civil strife and war, of which \$10,000,000 shall be made available for such programs in the Middle East: Provided, That the Administrator of the United States Agency for International Development shall consult with the Committees on Appropriations, prior to the initial obligation of funds, on the uses of such funds.

(2) Of the funds appropriated by title III of this Act under the headings "Economic Support Fund" and "Development Assistance", \$10,000,000 should be made available for a "New Generation in the Middle East" initiative to build understanding, tolerance, and mutual respect among the next generation of Israeli and Palestinian leaders.

(g) **TRAFFICKING IN PERSONS.**—Of the funds appropriated by this Act under the headings "Development Assistance", "Economic Support Fund", "International Narcotics Control and Law Enforcement", and "Assistance for Europe, Eurasia and Central Asia" not less than \$36,000,000 shall be made available for activities to combat trafficking in persons internationally.

(h) **WATER.**—Of the funds appropriated by this Act, not less than \$315,000,000 shall be made available for water and sanitation supply projects pursuant to the Senator Paul Simon Water for the Poor Act of 2005 (Public Law 109-121).

(i) **WOMEN'S LEADERSHIP CAPACITY.**—Of the funds appropriated by title III of this Act, not less than \$20,000,000 shall be made available for programs to improve women's leadership capacity in recipient countries.

(j) **NOTIFICATION REQUIREMENTS.**—Authorized deviations from funding levels contained in this section shall be subject to the regular notification procedures of the Committees on Appropriations.

#### CENTRAL ASIA

SEC. 7063. The terms and conditions of sections 7075(a) through (d) and 7076(a) through (e) of the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2009 (division H of Public Law 111-8) shall apply to funds appropriated by this Act, except that the Secretary of State may waive the application of section 7076(a) for a period of not more

than 6 months and every 6 months thereafter until September 30, 2013, if the Secretary certifies to the Committees on Appropriations that the waiver is in the national security interest and necessary to obtain access to and from Afghanistan for the United States, and the waiver includes an assessment of progress, if any, by the Government of Uzbekistan in meeting the requirements in section 7076(a): Provided, That the Secretary of State, in consultation with the Secretary of Defense, shall submit a report to the Committees on Appropriations not later than 180 days after enactment of this Act and 12 months thereafter, on all United States Government assistance provided to the Government of Uzbekistan and expenditures made in support of the Northern Distribution Network in Uzbekistan, including any credible information that such assistance or expenditures are being diverted for corrupt purposes: Provided further, That information provided in the report required by the previous proviso may be provided in a classified annex and such annex shall indicate the basis for such classification: Provided further, That for the purposes of the application of section 7075(c) to this Act, the report shall be submitted not later than October 1, 2012 and for the purposes of the application of section 7076(e) to this Act, the term "assistance" shall not include expanded international military education and training.

#### REQUESTS FOR DOCUMENTS

SEC. 7064. None of the funds appropriated or made available pursuant to titles III through VI of this Act shall be available to a nongovernmental organization, including any contractor, which fails to provide upon timely request any document, file, or record necessary to the auditing requirements of the United States Agency for International Development.

#### OVERSEAS PRIVATE INVESTMENT CORPORATION (INCLUDING TRANSFER OF FUNDS)

SEC. 7065. (a) Whenever the President determines that it is in furtherance of the purposes of the Foreign Assistance Act of 1961, up to a total of \$20,000,000 of the funds appropriated under title III of this Act may be transferred to, and merged with, funds appropriated by this Act for the Overseas Private Investment Corporation Program Account, to be subject to the terms and conditions of that account: Provided, That such funds shall not be available for administrative expenses of the Overseas Private Investment Corporation: Provided further, That designated funding levels in this Act shall not be transferred pursuant to this section: Provided further, That the exercise of such authority shall be subject to the regular notification procedures of the Committees on Appropriations.

(b) Notwithstanding section 235(a)(2) of the Foreign Assistance Act of 1961, the authority of subsections (a) through (c) of section 234 of such Act shall remain in effect until September 30, 2012.

#### INTERNATIONAL PRISON CONDITIONS

SEC. 7066. (a) Not later than 180 days after enactment of this Act, the Secretary of State shall submit to the Committees on Appropriations a report, which shall also be made publicly available including on the Department of State's Web site, describing—

(1) conditions in prisons and other detention facilities in at least 25 countries whose governments receive United States assistance and which the Secretary determines raise serious human rights or humanitarian concerns; and

(2) the extent to which such governments are taking steps to eliminate such conditions.

(b) For purposes of each determination made pursuant to subsection (a), the Secretary shall consider the criteria listed in section 7085(b)(1) through (10) of division F of Public Law 111-117.

(c) Funds appropriated by this Act to carry out the provisions of chapters 1 and 11 of part I and chapter 4 of part II of the Foreign Assistance Act of 1961, and the Support for East European Democracy (SEED) Act of 1989, shall be made available, notwithstanding section 660 of the Foreign Assistance Act of 1961, for assistance to eliminate inhumane conditions in foreign prisons and other detention facilities.

#### PROHIBITION ON USE OF TORTURE

SEC. 7067. (a) None of the funds made available in this Act may be used to support or justify the use of torture, cruel or inhumane treatment by any official or contract employee of the United States Government.

(b) Funds appropriated by this Act to carry out the provisions of chapters 1, 10, 11, and 12 of part I and chapter 4 of part II of the Foreign Assistance Act of 1961, and the Support for East European Democracy (SEED) Act of 1989, shall be made available, notwithstanding section 660 of the Foreign Assistance Act of 1961, for assistance to eliminate torture by foreign police, military or other security forces in countries receiving assistance from funds appropriated by this Act that are identified in the Department of State's most recent Country Reports on Human Rights Practices.

#### EXTRADITION

SEC. 7068. (a) None of the funds appropriated in this Act may be used to provide assistance (other than funds provided under the headings "International Narcotics Control and Law Enforcement", "Migration and Refugee Assistance", "Emergency Migration and Refugee Assistance", and "Nonproliferation, Anti-terrorism, Demining and Related Assistance") for the central government of a country which has notified the Department of State of its refusal to extradite to the United States any individual indicted for a criminal offense for which the maximum penalty is life imprisonment without the possibility of parole or for killing a law enforcement officer, as specified in a United States extradition request.

(b) Subsection (a) shall only apply to the central government of a country with which the United States maintains diplomatic relations and with which the United States has an extradition treaty and the government of that country is in violation of the terms and conditions of the treaty.

(c) The Secretary of State may waive the restriction in subsection (a) on a case-by-case basis if the Secretary certifies to the Committees on Appropriations that such waiver is important to the national interests of the United States.

#### COMMERCIAL LEASING OF DEFENSE ARTICLES

SEC. 7069. Notwithstanding any other provision of law, and subject to the regular notification procedures of the Committees on Appropriations, the authority of section 23(a) of the Arms Export Control Act may be used to provide financing to Israel, Egypt and NATO and major non-NATO allies for the procurement by leasing (including leasing with an option to purchase) of defense articles from United States commercial suppliers, not including Major Defense Equipment (other than helicopters and other types of aircraft having possible civilian application), if the President determines that there are compelling foreign policy or national security reasons for those defense articles being provided by commercial lease rather than by government-to-government sale under such Act.

#### INDEPENDENT STATES OF THE FORMER SOVIET UNION

SEC. 7070. (a) None of the funds appropriated under the heading "Assistance for Europe, Eurasia and Central Asia" shall be made available for assistance for a government of an Independent State of the former Soviet Union if that

government directs any action in violation of the territorial integrity or national sovereignty of any other Independent State of the former Soviet Union, such as those violations included in the Helsinki Final Act: Provided, That such funds may be made available without regard to the restriction in this subsection if the President determines that to do so is in the national security interest of the United States.

(b)(1) Of the funds appropriated under the heading "Assistance for Europe, Eurasia and Central Asia" that are allocated for assistance for the Government of the Russian Federation, 60 percent shall be withheld from obligation until the President determines and certifies in writing to the Committees on Appropriations that the Government of the Russian Federation—

(A) has terminated implementation of arrangements to provide Iran with technical expertise, training, technology, or equipment necessary to develop a nuclear reactor, related nuclear research facilities or programs, or ballistic missile capability; and

(B) is providing full access to international non-government organizations providing humanitarian relief to refugees and internally displaced persons in Chechnya.

(2) Paragraph (1) shall not apply to—

(A) assistance to combat infectious diseases, child survival activities, or assistance for victims of trafficking in persons; and

(B) activities authorized under title V (Nonproliferation and Disarmament Programs and Activities) of the FREEDOM Support Act.

(c) Section 907 of the FREEDOM Support Act shall not apply to—

(1) activities to support democracy or assistance under title V of the FREEDOM Support Act and section 1424 of Public Law 104-201 or non-proliferation assistance;

(2) any assistance provided by the Trade and Development Agency under section 661 of the Foreign Assistance Act of 1961 (22 U.S.C. 2421);

(3) any activity carried out by a member of the United States and Foreign Commercial Service while acting within his or her official capacity;

(4) any insurance, reinsurance, guarantee or other assistance provided by the Overseas Private Investment Corporation under title IV of chapter 2 of part I of the Foreign Assistance Act of 1961 (22 U.S.C. 2191 et seq.);

(5) any financing provided under the Export-Import Bank Act of 1945; or

(6) humanitarian assistance.

#### INTERNATIONAL MONETARY FUND

SEC. 7071. (a) The terms and conditions of sections 7086(b)(1) and (2) and 7090(a) of division F of Public Law 111-117 shall apply to this Act.

(b) The Secretary of the Treasury shall instruct the United States Executive Director of the International Monetary Fund (IMF) to seek to ensure that any loan will be repaid to the IMF before other private creditors.

(c) The Secretary of the Treasury shall seek to ensure that the IMF is implementing best practices for the protection of whistleblowers from retaliation, including best practices for legal burdens of proof, access to independent adjudicative bodies, results that eliminate the effects of retaliation, and statutes of limitation for reporting retaliation.

#### REPRESSION IN THE RUSSIAN FEDERATION

SEC. 7072. (a) None of the funds appropriated under the heading "Assistance for Europe, Eurasia and Central Asia" in this Act may be made available for the Government of the Russian Federation, after 180 days from the date of the enactment of this Act, unless the Secretary of State certifies to the Committees on Appropriations that the Government of the Russian Federation—

(1) has implemented no statute, Executive order, regulation or similar government action

that would discriminate, or which has as its principal effect discrimination, against religious groups or religious communities in the Russian Federation in violation of accepted international agreements on human rights and religious freedoms to which the Russian Federation is a party;

(2) is honoring its international obligations regarding freedom of expression, assembly, and press, as well as due process;

(3) is investigating and prosecuting law enforcement personnel credibly alleged to have committed human rights abuses against political leaders, activists and journalists; and

(4) is immediately releasing political leaders, activists and journalists who remain in detention.

(b) The Secretary of State may waive the requirements of subsection (a) if the Secretary determines that to do so is important to the national interests of the United States.

#### PROHIBITION ON FIRST-CLASS TRAVEL

SEC. 7073. None of the funds made available in this Act may be used for first-class travel by employees of agencies funded by this Act in contravention of sections 301-10.122 through 301-10.124 of title 41, Code of Federal Regulations.

#### DISABILITY PROGRAMS

SEC. 7074. Funds appropriated by this Act under the heading "Economic Support Fund" shall be made available for programs and activities administered by the United States Agency for International Development to address the needs and protect and promote the rights of people with disabilities in developing countries, including initiatives that focus on independent living, economic self-sufficiency, advocacy, education, employment, transportation, sports, and integration of individuals with disabilities, including for the cost of translation, and shall also be made available to support disability advocacy organizations to provide training and technical assistance for disabled persons organizations in such countries: Provided, That of the funds made available by this section, up to 7 percent may be for management, oversight, and technical support.

#### ENTERPRISE FUNDS

SEC. 7075. (a) Prior to the distribution of any assets resulting from any liquidation, dissolution, or winding up of an Enterprise Fund, in whole or in part, the President shall submit to the Committees on Appropriations, in accordance with the regular notification procedures of the Committees on Appropriations, a plan for the distribution of the assets of the Enterprise Fund.

(b) Funds made available under titles III through VI of this Act for Enterprise Funds shall be expended at the minimum rate necessary to make timely payment for projects and activities and no such funds may be available except through the regular notification procedures of the Committees on Appropriations.

#### CONSULAR AFFAIRS

SEC. 7076. (a) The Secretary of State shall implement the necessary steps, including hiring a sufficient number of consular officers to include limited non-career appointment officers, in the People's Republic of China, Brazil, and India to reduce the wait time to interview visa applicants who have submitted applications.

(b) The Secretary of State shall conduct a risk and benefit analysis regarding the extension of the expiration period for B-1 or B-2 visas for visa applicants before requiring a consular officer interview and, unless such analysis finds that risks outweigh benefits, develop a plan to extend such expiration period in a manner consistent with maintaining security controls.

(c) The Secretary of State may develop and conduct a pilot program for the processing of B-

1 and B-2 visas using secure remote videoconferencing technology as a method for conducting visa interviews of applicants: Provided, That any such pilot should be developed in consultation with other Federal agencies that use such secure communications to help ensure security of the videoconferencing transmission and encryption: Provided further, That no pilot program should be conducted if the Secretary determines and reports to the Committees on Appropriations that such program poses an undue security risk and that it cannot be conducted in a manner consistent with maintaining security controls.

#### PROCUREMENT REFORM

SEC. 7077. (a) **LOCAL COMPETITION.**—Notwithstanding any other provision of law, the Administrator of the United States Agency for International Development (USAID) may, with funds made available in this Act and prior Acts making appropriations for the Department of State, foreign operations, and related programs, award contracts and other acquisition instruments in which competition is limited to local entities if doing so would result in cost savings, develop local capacity, or enable the USAID Administrator to initiate a program or activity in appreciably less time than if competition were not so limited: Provided, That the authority provided in this section may not be used to make awards in excess of \$5,000,000 and shall not exceed more than 10 percent of the funds made available to USAID under this Act for assistance programs: Provided further, That such authority shall be available to support a pilot program with such funds: Provided further, That the USAID Administrator shall consult with the Committees on Appropriations and relevant congressional committees on the results of such pilot program.

(b) For the purposes of this section, local entity means an individual, a corporation, a nonprofit organization, or another body of persons that—

(1) is legally organized under the laws of;

(2) has as its principal place of business or operations in; and

(3) either is—

(A) majority owned by individuals who are citizens or lawful permanent residents of; or

(B) managed by a governing body the majority of whom are citizens or lawful permanent residents of;

a country receiving assistance from funds appropriated under title III of this Act.

(c) For purposes of this section, “majority owned” and “managed by” include, without limitation, beneficiary interests and the power, either directly or indirectly, whether exercised or exercisable, to control the election, appointment, or tenure of the organization’s managers or a majority of the organization’s governing body by any means.

#### OPERATING AND SPEND PLANS

SEC. 7078. (a) **OPERATING PLANS.**—Not later than 30 days after the date of enactment of this Act, each department, agency or organization funded in titles I and II, and the Department of the Treasury and Independent Agencies funded in title III of this Act shall submit to the Committees on Appropriations an operating plan for funds appropriated to such department, agency, or organization in such titles of this Act, or funds otherwise available for obligation in fiscal year 2012, that provides details of the use of such funds at the program, project, and activity level.

(b) **SPEND PLANS.**—Prior to the initial obligation of funds, the Secretary of State, in consultation with the Administrator of the United States Agency for International Development, shall submit to the Committees on Appropriations a detailed spend plan for the following—

(1) funds appropriated under the heading “Democracy Fund”;

(2) funds made available in titles III and IV of this Act for assistance for Iraq, Haiti, Colombia, and Mexico, for the Caribbean Basin Security Initiative, and for the Central American Regional Security Initiative;

(3) funds made available for assistance for countries or programs and activities referenced in—

(A) section 7040;

(B) section 7041(a), (e), (f), and (i);

(C) section 7043(b);

(D) section 7046(a) and (c); and

(4) funds appropriated in title III for food security and agriculture development programs and for environment programs.

(c) **NOTIFICATIONS.**—The spend plans referenced in subsection (b) shall not be considered as meeting the notification requirements under section 7015 of this Act or under section 634A of the Foreign Assistance Act of 1961.

#### RESCISSIONS

SEC. 7079. (a) Of the funds appropriated in prior Acts making appropriations for the Department of State, foreign operations, and related programs under the heading “Diplomatic and Consular Programs”, \$13,700,000 are rescinded, of which \$8,000,000 shall be from funds for Worldwide Security Protection: Provided, That no amounts may be rescinded from amounts that were designated by Congress as an emergency requirement pursuant to a concurrent resolution on the budget or the Balanced Budget and Emergency Deficit Control Act of 1985.

(b) Of the unexpended balances available under the heading “Export and Investment Assistance, Export-Import Bank of the United States, Subsidy Appropriation” from prior Acts making appropriations for the Department of State, foreign operations, and related programs, \$400,000,000 are rescinded.

(c) Of the unexpended balances available to the President for bilateral economic assistance under the heading “Economic Support Fund” from prior Acts making appropriations for the Department of State, foreign operations, and related programs, \$100,000,000 are rescinded: Provided, That no amounts may be rescinded from amounts that were designated by Congress as an emergency requirement pursuant to a concurrent resolution on the budget or the Balanced Budget and Emergency Deficit Control Act of 1985.

(d) The Secretary of State, as appropriate, shall consult with the Committees on Appropriations at least 15 days prior to implementing the rescissions made in this section.

#### SPECIAL DEFENSE ACQUISITION FUND

##### (INCLUDING LIMITATION ON OBLIGATIONS)

SEC. 7080. (a) **TRANSFER.**—Of the funds made available pursuant to the last proviso in the second paragraph under the heading “Foreign Military Financing Program” in this Act, up to \$100,000,000 of such funds may be transferred to the Special Defense Acquisition Fund pursuant to section 51 of the Arms Export Control Act.

(b) **LIMITATION ON OBLIGATIONS.**—Not to exceed \$100,000,000 may be obligated pursuant to section 51(c)(2) of the Arms Export Control Act for the purposes of the Special Defense Acquisition Fund (Fund), to remain available for obligation until September 30, 2015: Provided, That the provision of defense articles and defense services to foreign countries or international organizations from the Fund shall be subject to the concurrence of the Secretary of State.

#### AUTHORITY FOR CAPITAL INCREASES

SEC. 7081. (a) **INTERNATIONAL BANK FOR RECONSTRUCTION AND DEVELOPMENT.**—The Bretton Woods Agreements Act, as amended (22 U.S.C. 286 et seq.), is further amended by adding at the end thereof the following new sections:

#### “SEC. 69. ACCEPTANCE OF AN AMENDMENT TO THE ARTICLES OF AGREEMENT OF THE BANK TO INCREASE BASIC VOTES.”

“The United States Governor of the Bank may accept on behalf of the United States the amendment to the Articles of Agreement of the Bank as proposed in resolution No. 596, entitled ‘Enhancing Voice and Participation of Developing and Transition Countries,’ of the Board of Governors of the Bank that was approved by such Board on January 30, 2009.

#### “SEC. 70. CAPITAL STOCK INCREASES.”

“(a) **INCREASES AUTHORIZED.**—The United States Governor of the Bank is authorized—

“(1)(A) to vote in favor of a resolution to increase the capital stock of the Bank on a selective basis by 230,374 shares; and

“(B) to subscribe on behalf of the United States to 38,459 additional shares of the capital stock of the Bank, as part of the selective increase in the capital stock of the Bank, except that any subscription to such additional shares shall be effective only to such extent or in such amounts as are provided in advance in appropriations Acts;

“(2)(A) to vote in favor of a resolution to increase the capital stock of the Bank on a general basis by 484,102 shares; and

“(B) to subscribe on behalf of the United States to 81,074 additional shares of the capital stock of the Bank, as part of the general increase in the capital stock of the Bank, except that any subscription to such additional shares shall be effective only to such extent or in such amounts as are provided in advance in appropriations Acts.

“(b) **LIMITATIONS ON AUTHORIZATION OF APPROPRIATIONS.**—

“(1) In order to pay for the increase in the United States subscription to the Bank under subsection (a)(2)(B), there are authorized to be appropriated, without fiscal year limitation, \$9,780,361,991 for payment by the Secretary of the Treasury.

“(2) Of the amount authorized to be appropriated under paragraph (2)(A)—

“(A) \$586,821,720 shall be for paid in shares of the Bank; and

“(B) \$9,193,540,271 shall be for callable shares of the Bank.”

(b) **INTERNATIONAL FINANCE CORPORATION.**—The International Finance Corporation Act, Public Law 84-350, as amended (22 U.S.C. 282 et seq.), is further amended by adding at the end thereof the following new section:

#### “SEC. 17. SELECTIVE CAPITAL INCREASE AND AMENDMENT OF THE ARTICLES OF AGREEMENT.”

“(a) **VOTE AUTHORIZED.**—The United States Governor of the Corporation is authorized to vote in favor of a resolution to increase the capital stock of the Corporation by \$130,000,000.

“(b) **AMENDMENT OF THE ARTICLES OF AGREEMENT.**—The United States Governor of the Corporation is authorized to agree to and accept an amendment to Article IV, Section 3(a) of the Articles of Agreement of the Corporation that achieves an increase in basic votes to 5.55 percent of total votes.”

(c) **INTER-AMERICAN DEVELOPMENT BANK.**—The Inter-American Development Bank Act, Public Law 86-147, as amended (22 U.S.C. 283 et seq.), is further amended by adding at the end thereof the following new section:

#### “SEC. 41. NINTH CAPITAL INCREASE.”

“(a) **VOTE AUTHORIZED.**—The United States Governor of the Bank is authorized to vote in favor of a resolution to increase the capital stock of the Bank by \$70,000,000,000 as described in Resolution AG-7/10, ‘Report on the Ninth General Capital Increase in the resources of the Inter-American Development Bank’ as approved by Governors on July 21, 2010.

“(b) **SUBSCRIPTION AUTHORIZED.**—

“(1) The United States Governor of the Bank may subscribe on behalf of the United States to 1,741,135 additional shares of the capital stock of the Bank.

“(2) Any subscription by the United States to the capital stock of the Bank shall be effective only to such extent and in such amounts as are provided in advance in appropriations Acts.

“(c) **LIMITATIONS ON AUTHORIZATION OF APPROPRIATIONS.**—

“(1) In order to pay for the increase in the United States subscription to the Bank under subsection (b), there are authorized to be appropriated, without fiscal year limitation, \$21,004,064,337 for payment by the Secretary of the Treasury.

“(2) Of the amount authorized to be appropriated under paragraph (1)—

“(A) \$510,090,175 shall be for paid in shares of the Bank; and

“(B) \$20,493,974,162 shall be for callable shares of the Bank.”

(d) **AFRICAN DEVELOPMENT BANK.**—The African Development Bank Act, Public Law 97–35, as amended (22 U.S.C. 290i et seq.), is further amended by adding at the end thereof the following new section:

“**SEC. 1344. SIXTH CAPITAL INCREASE.**

“(a) **SUBSCRIPTION AUTHORIZED.**—

“(1) The United States Governor of the Bank may subscribe on behalf of the United States to 289,391 additional shares of the capital stock of the Bank.

“(2) Any subscription by the United States to the capital stock of the Bank shall be effective only to such extent and in such amounts as are provided in advance in appropriations Acts.

“(b) **LIMITATIONS ON AUTHORIZATION OF APPROPRIATIONS.**—

“(1) In order to pay for the increase in the United States subscription to the Bank under subsection (a), there are authorized to be appropriated, without fiscal year limitation, \$4,322,228,221 for payment by the Secretary of the Treasury.

“(2) Of the amount authorized to be appropriated under paragraph (1)—

“(A) \$259,341,759 shall be for paid in shares of the Bank; and

“(B) \$4,062,886,462 shall be for callable shares of the Bank.”

(e) **EUROPEAN BANK FOR RECONSTRUCTION AND DEVELOPMENT.**—The European Bank for Reconstruction and Development Act, Section 562(c) of Public Law 101–513, as amended (22 U.S.C. 290l et seq.), is further amended by adding at the end thereof the following new paragraph:

“(12) **CAPITAL INCREASE.**—

“(A) **SUBSCRIPTION AUTHORIZED.**—

“(i) The United States Governor of the Bank may subscribe on behalf of the United States up to 90,044 additional callable shares of the capital stock of the Bank in accordance with Resolution No. 128 as adopted by the Board of Governors of the Bank on May 14, 2010.

“(ii) Any subscription by the United States to additional capital stock of the Bank shall be effective only to such extent and in such amounts as are provided in advance in appropriations Acts.

“(B) **LIMITATIONS ON AUTHORIZATION OF APPROPRIATIONS.**—In order to pay for the increase in the United States subscription to the Bank under subsection (A), there are authorized to be appropriated, without fiscal year limitation, up to \$1,252,331,952 for payment by the Secretary of the Treasury.”

#### REFORMS RELATED TO GENERAL CAPITAL INCREASES

**SEC. 7082. (a) REFORMS.**—Funds appropriated by this Act may not be disbursed for a United States contribution to the general capital increases of the International Bank for Recon-

struction and Development (World Bank), the African Development Bank (AfDB), or the Inter-American Development Bank (IDB) until the Secretary of the Treasury reports to the Committees on Appropriations that such institution, as appropriate, is making substantial progress toward the following—

(1) implementing specific reform commitments agreed to by the World Bank and the AfDB as described in the Pittsburgh Leaders' Statement issued at the Pittsburgh G20 Summit in September 2009 concerning sound finances, effective management and governance, transparency and accountability, focus on core mission, and results;

(2) implementing specific reform commitments agreed to by the IDB in Resolution AG–7/10 “Report on the Ninth General Capital Increase in the resources of the Inter-American Development Bank” as approved by the Governors on July 12, 2010, including transfers of at least \$200,000,000 annually to a grant facility for Haiti;

(3) implementing procurement guidelines that maximize international competitive bidding in accordance with sound procurement practices, including transparency, competition, and cost-effective results for borrowers;

(4) implementing best practices for the protection of whistleblowers from retaliation, including best practices for legal burdens of proof, access to independent adjudicative bodies, results that eliminate the effects of retaliation, and statutes of limitation for reporting retaliation;

(5) requiring that each candidate for budget support or development policy loans provide an assessment of reforms needed to budgetary and procurement processes to encourage transparency, including budget publication and public scrutiny, prior to loan approval;

(6) making publicly available external and internal performance and financial audits of such institution's projects on the institution's Web site;

(7) adopting policies concerning the World Bank's proposed Program for Results (P4R) to: limit P4R to no more than 5 percent of annual World Bank lending as a pilot for a period of not less than two years; require that projects with potentially significant adverse social or environmental impacts and projects that affect indigenous peoples are either excluded from P4R or subject to the World Bank's own policies; require that at the close of the pilot there will be a thorough, independent evaluation, with input from civil society and the private sector, to provide guidance concerning next steps for the pilot; and fully staff the World Bank Group's Integrity Vice Presidency, with agreement from Borrowers on the World Bank's jurisdiction and authority to investigate allegations of fraud and corruption in any of the World Bank's lending programs including P4R; and

(8) concerning the World Bank, strengthening the public availability of information regarding International Finance Corporation (IFC) sub-projects when the IFC is funding a financial intermediary, including—

(A) requiring that higher-risk subprojects comply with the relevant Performance Standard requirements; and

(B) agreeing to periodically disclose on the IFC Web site a listing of the name, location, and sector of high-risk subprojects supported by IFC investments through private equity funds.

(b) **REPORT.**—Not later than 180 days after enactment of this Act and every 6 months thereafter until September 30, 2013, the Secretary of the Treasury shall submit to the Committees on Appropriations a report detailing the extent to which each institution has continued to make progress on each policy goal listed in subsection (a).

#### AUTHORITY FOR REPLENISHMENTS

**SEC. 7083. (a) INTERNATIONAL DEVELOPMENT ASSOCIATION.**—The International Development Association Act, Public Law 86–565, as amended (22 U.S.C. 284 et seq.), is further amended by adding at the end thereof the following new sections:

“**SEC. 26. SIXTEENTH REPLENISHMENT.**

“(a) The United States Governor of the International Development Association is authorized to contribute on behalf of the United States \$4,075,500,000 to the sixteenth replenishment of the resources of the Association, subject to obtaining the necessary appropriations.

“(b) In order to pay for the United States contribution provided for in subsection (a), there are authorized to be appropriated, without fiscal year limitation, \$4,075,500,000 for payment by the Secretary of the Treasury.

“**SEC. 27. MULTILATERAL DEBT RELIEF.**

“(a) The Secretary of the Treasury is authorized to contribute, on behalf of the United States, not more than \$474,000,000 to the International Development Association for the purpose of funding debt relief cost under the Multilateral Debt Relief Initiative incurred in the period governed by the sixteenth replenishment of resources of the International Development Association, subject to obtaining the necessary appropriations and without prejudice to any funding arrangements in existence on the date of the enactment of this section.

“(b) In order to pay for the United States contribution provided for in subsection (a), there are authorized to be appropriated, without fiscal year limitation, not more than \$474,000,000 for payment by the Secretary of the Treasury.

“(c) In this section, the term ‘Multilateral Debt Relief Initiative’ means the proposal set out in the G8 Finance Ministers’ Communiqué entitled ‘Conclusions on Development’, done at London, June 11, 2005, and reaffirmed by G8 Heads of State at the Gleneagles Summit on July 8, 2005.”

(b) **AFRICAN DEVELOPMENT BANK.**—The African Development Fund Act, Public Law 94–302, as amended (22 U.S.C. 290g et seq.), is further amended by adding at the end thereof the following new sections:

“**SEC. 221. TWELFTH REPLENISHMENT.**

“(a) The United States Governor of the Fund is authorized to contribute on behalf of the United States \$585,000,000 to the twelfth replenishment of the resources of the Fund, subject to obtaining the necessary appropriations.

“(b) In order to pay for the United States contribution provided for in subsection (a), there are authorized to be appropriated, without fiscal year limitation, \$585,000,000 for payment by the Secretary of the Treasury.

“**SEC. 222. MULTILATERAL DEBT RELIEF.**

“(a) The Secretary of the Treasury is authorized to contribute, on behalf of the United States, not more than \$60,000,000 to the African Development Fund for the purpose of funding debt relief costs under the Multilateral Debt Relief Initiative incurred in the period governed by the twelfth replenishment of resources of the African Development Fund, subject to obtaining the necessary appropriations and without prejudice to any funding arrangements in existence on the date of the enactment of this section.

“(b) In order to pay for the United States contribution provided for in subsection (a), there are authorized to be appropriated, without fiscal year limitation, not more than \$60,000,000 for payment by the Secretary of the Treasury.

“(c) In this section, the term ‘Multilateral Debt Relief Initiative’ means the proposal set out in the G8 Finance Ministers’ Communiqué entitled ‘Conclusions on Development’, done at London, June 11, 2005, and reaffirmed by G8 Heads of State at the Gleneagles Summit on July 8, 2005.”

**AUTHORITY FOR THE FUND FOR SPECIAL OPERATIONS**

SEC. 7084. Up to \$36,000,000 of funds appropriated for the account “Department of the Treasury, Debt Restructuring” by the Full-Year Continuing Appropriations Act, 2011 (Public Law 112–10, Division B) may be made available for the United States share of an increase in the resources of the Fund for Special Operations of the Inter-American Development Bank in furtherance of debt relief provided to Haiti in view of the Cancun Declaration of March 21, 2010.

**UNITED NATIONS POPULATION FUND**

SEC. 7085. (a) **CONTRIBUTION.**—Of the funds made available under the heading “International Organizations and Programs” in this Act for fiscal year 2012, \$35,000,000 shall be made available for the United Nations Population Fund (UNFPA).

(b) **AVAILABILITY OF FUNDS.**—Funds appropriated by this Act for UNFPA, that are not made available for UNFPA because of the operation of any provision of law, shall be transferred to the “Global Health Programs” account and shall be made available for family planning, maternal, and reproductive health activities, subject to the regular notification procedures of the Committees on Appropriations.

(c) **PROHIBITION ON USE OF FUNDS IN CHINA.**—None of the funds made available by this Act may be used by UNFPA for a country program in the People’s Republic of China.

(d) **CONDITIONS ON AVAILABILITY OF FUNDS.**—Funds made available by this Act for UNFPA may not be made available unless—

(1) UNFPA maintains funds made available by this Act in an account separate from other accounts of UNFPA and does not commingle such funds with other sums; and

(2) UNFPA does not fund abortions.

(e) **REPORT TO CONGRESS AND DOLLAR-FOR-DOLLAR WITHHOLDING OF FUNDS.**—

(1) Not later than 4 months after the date of enactment of this Act, the Secretary of State shall submit a report to the Committees on Appropriations indicating the amount of funds that the UNFPA is budgeting for the year in which the report is submitted for a country program in the People’s Republic of China.

(2) If a report under paragraph (1) indicates that the UNFPA plans to spend funds for a country program in the People’s Republic of China in the year covered by the report, then the amount of such funds the UNFPA plans to spend in the People’s Republic of China shall be deducted from the funds made available to the UNFPA after March 1 for obligation for the remainder of the fiscal year in which the report is submitted.

**LIMITATIONS**

SEC. 7086. (a)(1) None of the funds appropriated under the heading “Economic Support Fund” in this Act may be made available for assistance for the Palestinian Authority if the Palestinians obtain, after the date of enactment of this Act, the same standing as member states or full membership as a state in the United Nations or any specialized agency thereof outside an agreement negotiated between Israel and the Palestinians.

(2) The Secretary of State may waive the restriction in paragraph (1) if the Secretary certifies to the Committees on Appropriations that to do so is in the national security interest of the United States, and submits a report to such Committees detailing how the waiver and the continuation of assistance would assist in furthering Middle East peace.

(b)(1) The President may waive the provisions of section 1003 of Public Law 100–204 if the President determines and certifies in writing to the Speaker of the House of Representatives, the President pro tempore of the Senate, and the

Committees on Appropriations that the Palestinians have not, after the date of enactment of this Act, obtained in the United Nations or any specialized agency thereof the same standing as member states or full membership as a state outside an agreement negotiated between Israel and the Palestinians.

(2) Not less than 90 days after the President is unable to make the certification pursuant to subsection (b)(1), the President may waive section 1003 of Public Law 100–204 if the President determines and certifies in writing to the Speaker of the House of Representatives, the President pro tempore of the Senate, and the Committees on Appropriations that the Palestinians have entered into direct and meaningful negotiations with Israel: Provided, That any waiver of the provisions of section 1003 of Public Law 100–204 under paragraph (1) of this subsection or under previous provisions of law must expire before the waiver under the preceding sentence may be exercised.

(3) Any waiver pursuant to this subsection shall be effective for no more than a period of 6 months at a time and shall not apply beyond 12 months after the enactment of this Act.

**USE OF FUNDS IN CONTRAVENTION OF THIS ACT**

SEC. 7087. If the Executive Branch makes a determination not to comply with any provision of this Act on constitutional grounds, the head of the relevant Federal agency shall notify the Committees on Appropriations in writing within 5 days of such determination, the basis for such determination and any resulting changes to program and policy.

**TITLE VIII**

**OVERSEAS CONTINGENCY OPERATIONS/  
GLOBAL WAR ON TERRORISM**

**DEPARTMENT OF STATE**

**ADMINISTRATION OF FOREIGN AFFAIRS**

**DIPLOMATIC AND CONSULAR PROGRAMS**

**(INCLUDING TRANSFER OF FUNDS)**

For an additional amount for “Diplomatic and Consular Programs”, \$4,389,064,000, to remain available until September 30, 2013, of which \$236,201,000 is for Worldwide Security Protection and shall remain available until expended: Provided, That the Secretary of State may transfer up to \$230,000,000 of the total funds made available under this heading to any other appropriation of any department or agency of the United States, upon the concurrence of the head of such department or agency, to support operations in and assistance for Afghanistan and to carry out the provisions of the Foreign Assistance Act of 1961: Provided further, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

**CONFLICT STABILIZATION OPERATIONS**

**EMBASSY SECURITY, CONSTRUCTION, AND MAINTENANCE**

For an additional amount for “Embassy Security, Construction, and Maintenance”, \$33,000,000, to remain available until expended: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

**INTERNATIONAL ORGANIZATIONS  
CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS**

For an additional amount for “Contributions to International Organizations”, \$101,300,000: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

**RELATED AGENCY**

**BROADCASTING BOARD OF GOVERNORS**

**INTERNATIONAL BROADCASTING OPERATIONS**

For an additional amount for “International Broadcasting Operations”, \$4,400,000: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

**RELATED PROGRAMS**

**UNITED STATES INSTITUTE OF PEACE**

For an additional amount for “United States Institute of Peace”, \$8,411,000, to remain available until September 30, 2013: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

**UNITED STATES AGENCY FOR  
INTERNATIONAL DEVELOPMENT  
FUNDS APPROPRIATED TO THE PRESIDENT**

**OPERATING EXPENSES**

For an additional amount for “Operating Expenses”, \$255,000,000, to remain available until September 30, 2013: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

**OFFICE OF INSPECTOR GENERAL**

For an additional amount for “Office of Inspector General”, \$4,500,000, to remain available until September 30, 2013: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

**BILATERAL ECONOMIC ASSISTANCE**

**FUNDS APPROPRIATED TO THE PRESIDENT**

**INTERNATIONAL DISASTER ASSISTANCE**

For an additional amount for “International Disaster Assistance”, \$150,000,000, to remain

available until September 30, 2013: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

#### TRANSITION INITIATIVES

For an additional amount for “Transition Initiatives”, \$6,554,000, to remain available until September 30, 2013: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

#### COMPLEX CRISES FUND

For an additional amount for “Complex Crises Fund”, \$30,000,000, to remain available until September 30, 2013: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

#### ECONOMIC SUPPORT FUND

For an additional amount for “Economic Support Fund”, \$2,761,462,000, to remain available until September 30, 2013: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

#### DEPARTMENT OF STATE

##### MIGRATION AND REFUGEE ASSISTANCE

For an additional amount for “Migration and Refugee Assistance”, \$229,000,000, to remain available until September 30, 2013: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

#### DEPARTMENT OF THE TREASURY

##### INTERNATIONAL AFFAIRS TECHNICAL ASSISTANCE

For an additional amount for “International Affairs Technical Assistance”, \$1,552,000, to remain available until September 30, 2013, which shall be available notwithstanding any other provision of law: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

##### INTERNATIONAL SECURITY ASSISTANCE

#### DEPARTMENT OF STATE

##### INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT

For an additional amount for “International Narcotics Control and Law Enforcement”, \$983,605,000, to remain available until September 30, 2013: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

##### NONPROLIFERATION, ANTI-TERRORISM, DEMINING AND RELATED PROGRAMS

For an additional amount for “Nonproliferation, Anti-terrorism, Demining and Related Programs”, \$120,657,000, to remain available until September 30, 2013: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

#### PEACEKEEPING OPERATIONS

For an additional amount for “Peacekeeping Operations”, \$81,000,000, to remain available until September 30, 2013: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

#### FUNDS APPROPRIATED TO THE PRESIDENT

##### FOREIGN MILITARY FINANCING PROGRAM

For an additional amount for “Foreign Military Financing Program”, \$1,102,000,000, to remain available until September 30, 2013: Provided, That such amount is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

##### PAKISTAN COUNTERINSURGENCY CAPABILITY FUND (INCLUDING TRANSFER OF FUNDS)

For necessary expenses to carry out the provisions of chapter 8 of part I and chapters 2, 5, 6, and 8 of part II of the Foreign Assistance Act of 1961 and section 23 of the Arms Export Control Act, \$850,000,000, to remain available until September 30, 2013, for the purpose of providing assistance for Pakistan to build and maintain the counterinsurgency capability of Pakistani security forces (including the Frontier Corps), to include program management, training in civil-military humanitarian assistance, human rights training, and the provision of equipment, supplies, services, training, and facility and infrastructure repair, renovation, and construction: Provided, That notwithstanding any other provision of law except section 620M of the Foreign Assistance Act of 1961, as amended by this Act, such funds shall be available to the Secretary of State, with the concurrence of the Secretary of Defense: Provided further, That such funds may be transferred by the Secretary of State to the Department of Defense or other Federal departments or agencies to support counterinsurgency operations and may be merged with, and be available, for the same purposes and for the same time period as the appropriation or fund to which transferred or may be transferred pursuant to the authorities contained in the Foreign Assistance Act of 1961: Provided further, That the Secretary of State shall, not fewer than 15 days prior to making transfers from this appropriation, notify the Committees on Appropriations, in writing, of the details of any such transfer: Provided further, That the Secretary of State shall submit not later than 30 days after the end of each fiscal quarter to the Committees on Appropriations a report in writing summarizing, on a project-by-project basis, the uses of funds under this heading: Provided further, That upon determination by the Secretary of State, with the concurrence of the Secretary of Defense, that all or part of the funds so transferred from this appropriation are not necessary for the purposes herein, such amounts may be transferred by the head of the relevant Federal department or agency back to this appropriation and shall be available for the same purposes and for the same time period as originally appropriated: Provided further, That any required notification or report may be submitted in classified form: Provided further, That the amount in this paragraph is designated by the Congress for Overseas Contingency Operations/Global War on Terrorism pursuant to section 251(b)(2)(A) of the Balanced Budget and Emergency Deficit Control Act of 1985.

#### GENERAL PROVISIONS

SEC. 8001. Notwithstanding any other provision of law, funds appropriated in this title are in addition to amounts appropriated or otherwise made available in this Act for fiscal year 2012.

SEC. 8002. Unless otherwise provided for in this Act, the additional amounts appropriated by this title to appropriations accounts in this Act shall be available under the authorities and conditions applicable to such appropriations accounts.

SEC. 8003. Funds appropriated by this title under the headings “International Disaster Assistance”, “Transition Initiatives”, “Complex Crises Fund”, “Economic Support Fund”, “Migration and Refugee Assistance”, “International Narcotics Control and Law Enforcement”, “Nonproliferation, Anti-terrorism, Demining, and Related Programs”, “Peacekeeping Operations”, “Foreign Military Financing Program”, and “Pakistan Counterinsurgency Capability Fund”, may be transferred to, and merged with, funds appropriated by this title under such headings: Provided, That such transfers shall be subject to the regular notification procedures of the Committees on Appropriations: Provided further, That the transfer authority in this section is in addition to any transfer authority otherwise available under any other provision of law, including section 610 of the Foreign Assistance Act which may be exercised by the Secretary of State for the purposes of this title.

SEC. 8004. If authorized during fiscal year 2012, there shall be established in the Treasury of the United States the “Global Security Contingency Fund” (the Fund): Provided, That notwithstanding any provision of law, during the current fiscal year, not to exceed \$50,000,000 from funds appropriated under the headings “International Narcotics Control and Law Enforcement”, “Foreign Military Financing Program”, and “Pakistan Counterinsurgency Capability Fund” under title VIII of this Act may be transferred to the Fund: Provided further, That this transfer authority is in addition to any other transfer authority available to the Department of State, and shall be subject to prior consultation with the Committees on Appropriations: Provided further, That the Secretary of State shall, not later than 15 days prior to making any such transfer, notify the Committees on Appropriations in accordance with the regular notification procedures of the Committees on Appropriations, including the source of funds and a detailed justification, implementation plan, and timeline for each proposed project: Provided further, That, notwithstanding any provision of law, the requirements of this section, including the amount and source of transferred funds, shall apply to any transfer or other authority relating to the Fund enacted subsequent to the enactment of this Act unless such subsequently enacted provision of law specifically references this section.

This division may be cited as the “Department of State, Foreign Operations, and Related Programs Appropriations Act, 2012”.

And the Senate agree to the same.

#### JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The managers on the part of the House and Senate at the conference on the disagreeing votes of the two Houses on the amendment of the Senate to the bill (H.R. 2055) making appropriations for military construction, the Department of Veterans Affairs, and related agencies for the fiscal year ending September 30, 2012, and for other purposes, submit the following joint statement to the House and Senate in explanation of the effect of the action agreed upon by the managers and recommended in the accompanying conference report.

This conference agreement includes the Department of Defense Appropriations Act, 2012; the Energy and Water Development Appropriations Act, 2012; the Financial Services and General Government Appropriations Act, 2012; the Department of Homeland Security Appropriations Act, 2012; the Department of the Interior, Environment, and Related Agencies Appropriations Act, 2012; the Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2012; the Legislative Branch Appropriations Act, 2012; the Military Construction and Veterans Affairs and Related Agencies Appropriations Act, 2012; and the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2012.

The conference agreement includes a provision stating that each amount designated by Congress as being for Overseas Contingency Operations/Global War on Terrorism is contingent on the President so designating all such amounts and transmitting such designations to Congress. The provision is consistent with new requirements enacted in the Budget Control Act of 2011 for Overseas Contingency Operations/Global War on Terrorism designations by the President.

The conference agreement does not contain any congressional earmarks, limited tax benefits, or limited tariff benefits as defined by clause 9 of rule XXI of the Rules of the House of Representatives.

#### DIVISION A—DEPARTMENT OF DEFENSE APPROPRIATIONS ACT, 2012

The conference agreement on the Department of Defense Appropriations Act, 2012, incorporates some of the provisions of both the House and the Senate versions of the bill. The language and allocations set forth in House Report 112-110 and Senate Report 112-77 shall be complied with unless specifically addressed to the contrary in the accompanying bill and explanatory statement.

##### DEFINITION OF PROGRAM, PROJECT, AND ACTIVITY

The conferees agree that for the purposes of the Balanced Budget and Emergency Deficit Control Act of 1985 (Public Law 99-177) as amended by the Balanced Budget and Emergency Deficit Control Reaffirmation Act of 1987 (Public Law 100-119) and by the Budget Enforcement Act of 1990 (Public Law 101-508), the terms program, project, and activity for appropriations contained in this Act shall be defined as the most specific level of budget items identified in the Department of Defense Appropriations Act, 2012, the related classified annexes and explanatory statements, and the P-1 and R-1 budget justification documents as subsequently modified by congressional action. The following exception to the above definition shall apply: for the military personnel and the operation and maintenance accounts, for which the term “program, project, and activity” is defined as the appropriations accounts contained in the Department of Defense Appropriations Act.

At the time the President submits the budget for fiscal year 2013, the Department of Defense is directed to transmit to the congressional defense committees budget justification documents to be known as the “M-1” and “O-1” which shall identify, at the budget activity, activity group, and sub-activity group level, the amounts requested by the President to be appropriated to the Department of Defense for military personnel and operation and maintenance in any budget request, or amended budget request, for fiscal year 2013.

In carrying out any Presidential sequestration, the Department of Defense and related agencies shall conform to the definition for “program, project, and activity” set forth above except that military personnel accounts will be exempt from sequestration per the notification made by the Director of the Office of Management and Budget on August 10, 2011.

##### CLASSIFIED ANNEX

Adjustments to classified programs are addressed in the accompanying classified annex.

##### CONGRESSIONAL SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” are congressional special inter-

est items for purposes of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount, as specifically addressed in these materials.

##### REPROGRAMMING GUIDANCE

The Department of Defense is directed to continue to follow the reprogramming guidance for acquisition accounts as specified in the report accompanying the House version of the fiscal year 2008 Department of Defense Appropriations bill (H.R. 110-279). For operation and maintenance accounts, the Department of Defense shall continue to follow the reprogramming guidelines specified in the conference report accompanying H.R. 3222, the Department of Defense Appropriations Act, 2008, which are also expressed under title II of this statement. The dollar threshold for reprogramming funds shall remain at \$15,000,000 for operation and maintenance; \$20,000,000 for procurement; and \$10,000,000 for research, development, test and evaluation.

Also, the Under Secretary of Defense (Comptroller) is directed to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for service and defense-wide accounts in titles I, II, III, and IV of this Act. Reports for titles III and IV shall comply with guidance specified in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative from the base for reprogramming value as modified by any adjustments. Therefore, if the combined value of transfers into or out of an operation and maintenance (O-1), a procurement (P-1), or a research, development, test and evaluation (R-1) line exceeds the identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

##### FUNDING INCREASES

The funding increases outlined in the tables for each appropriation account shall be provided only for the specific purposes indicated in the tables.

##### TITLE I—MILITARY PERSONNEL

The conference agreement provides \$131,090,539,000 in Title I, Military Personnel, instead of \$132,092,225,000 as proposed by the House and \$131,000,559,000 as proposed by the Senate. The conference agreement on items addressed by either the House or the Senate is as follows:

(IN THOUSANDS OF DOLLARS)

	BUDGET REQUEST	CONFERENCE
-----		
RECAPITULATION		
MILITARY PERSONNEL, ARMY	43,596,949	43,298,409
MILITARY PERSONNEL, NAVY	27,154,384	26,803,334
MILITARY PERSONNEL, MARINE CORPS	13,573,546	13,635,136
MILITARY PERSONNEL, AIR FORCE	28,304,432	28,096,708

MILITARY PERSONNEL ANTI-DEFICIENCY ACT  
VIOLATIONS

Since 2001, the Department of Defense has had 11 violations of the Anti-Deficiency Act (ADA) in its military personnel accounts. The conferees recognize the uncertainty that exists in the military personnel accounts due to their entitlement nature and the fact that resource requirements are driven by millions of individual and organizational personnel decisions. To further complicate management of these accounts, a significant number of obligations are incurred in the fourth quarter of the fiscal year. The conferees recognize the Department's efforts to improve the management and oversight of these accounts, but remain concerned over the Department's failure to adequately manage the military personnel budgets.

Therefore, the recommendation includes a new general provision requiring the Inspector General of the Department of Defense to conduct a review of military personnel ADA violations and their causes. Based on the findings of the review, the Inspector General shall submit to the congressional defense committees a report examining the Department's budgeting and oversight

of the military personnel accounts, including recommendations for corrective actions to avoid additional ADA violations going forward. This report should be submitted to the congressional defense committees not later than 180 days after enactment of this Act.

RESERVE COMPONENT BUDGET STRUCTURE

The conferees direct each of the reserve components to provide a semi-annual detailed report to the congressional defense committees showing transfers between subactivities within the military personnel appropriation accounts. Reports shall be submitted not later than 30 days following the end of the second quarter and 30 days following the end of the fiscal year.

EXCESS BAGGAGE FEES FOR SERVICEMEMBERS

The conferees are concerned by recent incidents in which servicemembers on military orders deploying to or returning from overseas contingency operations on commercial airlines have been charged excess baggage fees. In some instances, servicemembers were asked to pay out of their own pockets for charges placed on checked baggage carrying U.S. military equipment and not personal effects. Servicemembers make great sacrifices to serve their country in

dangerous wartime conditions. They should not be asked to endure personal financial hardships as a result of traveling to and from overseas deployments.

Although the Department of Defense states that it has the authority to pay for excess baggage fees and to reimburse servicemembers for any fees they have paid, the conferees firmly believe that servicemembers should not be burdened with out-of-pocket expenses at all. The conferees strongly encourage the Department to avoid entering into contract agreements with airlines that charge excess baggage fees to servicemembers who are traveling on military orders and are being deployed to or returning from overseas contingency operations. In addition, the Secretary of Defense is directed to submit a report to the congressional defense committees not later than 90 days after enactment of this Act on measures being taken that will prevent servicemembers from having to pay out-of-pocket costs on checked baggage in such instances.

MILITARY PERSONNEL, ARMY

The conference agreement on items addressed by either the House or the Senate is as follows:

OPERATION AND MAINTENANCE  
REPROGRAMMINGS

The Secretary of Defense is directed to submit the Base for Reprogramming (DD Form 1414) for each of the fiscal year 2012 appropriation accounts not later than 60 days after enactment of this Act. The Secretary of Defense is prohibited from executing any reprogramming or transfer of funds for any purpose other than originally appropriated until the aforementioned report is submitted to the House and Senate Appropriations Committees.

The Secretary of Defense is directed to use the normal prior approval reprogramming procedures to transfer funds in the Services' operation and maintenance accounts between O-1 budget activities in excess of \$15,000,000. In addition, the Secretary of Defense should follow prior approval reprogramming procedures for transfers in excess of \$15,000,000 out of the following budget subactivities:

Army:  
Maneuver units  
Modular support brigades  
Land forces operations support  
Force readiness operations support  
Land forces depot maintenance  
Base operations support  
Facilities Sustainment, Repair, and Modernization  
Navy:  
Aircraft depot maintenance  
Ship depot maintenance  
Facilities Sustainment, Repair, and Modernization  
Marine Corps:  
Depot maintenance  
Facilities Sustainment, Repair, and Modernization  
Air Force:  
Primary combat forces  
Combat enhancement forces  
Combat communications  
Facilities Sustainment, Repair, and Modernization

During fiscal year 2012, the Air Force is required to submit written notification and justification to the congressional defense committees not later than 30 days prior to implementing transfers in excess of \$15,000,000 out of the following budget subactivities:

Operating forces depot maintenance  
Mobilization depot maintenance  
Training and recruiting depot maintenance  
Administration and service-wide depot maintenance

The transfer may be implemented 30 days after congressional notification unless an objection is received from a congressional defense committee.

Finally, the Secretary of Defense should follow prior approval reprogramming proce-

dures for transfers in excess of \$15,000,000 into the following budget subactivity:

Operation and Maintenance, Army National Guard:

Other personnel support/recruiting and advertising

With respect to Operation and Maintenance, Defense-Wide, proposed transfers of funds to or from the levels specified for defense agencies in excess of \$15,000,000 shall be subject to prior approval reprogramming procedures.

OPERATION AND MAINTENANCE FUNDING FOR  
MILITARY TECHNICIANS

The House recommendation included adjustments to Army and Air Force Reserve and National Guard operation and maintenance accounts based on discrepancies in the number of military technicians included in the request. The conference agreement does not include these adjustments; however, the Department is directed to ensure consistency in the number of military technicians included in the request between the military personnel appropriations in the PB-31R Personnel Summary exhibit and noted on the OP-5 exhibit in the operation and maintenance appropriations in the future.

STRATEGIC COMMUNICATIONS AND INFORMATION  
OPERATIONS/MILITARY INFORMATION SUPPORT  
OPERATIONS

The conference agreement includes \$224,975,000 for Department of Defense information operations (IO)/military information support operations (MISO) programs, instead of \$176,575,000 as proposed by the House and \$300,570,000 as proposed by the Senate. The budget request includes \$120,570,000 in title II and \$180,000,000 in title IX. The conference agreement includes all funds for these activities in title IX of this division as proposed by the House. Of the \$120,570,000 requested in title II, the conference agreement includes program reductions totaling \$16,795,000 and transfers the remaining \$103,775,000 to title IX. The allocation of funding by combatant command and funding levels for certain programs is specifically delineated in the classified annex accompanying this Act. The conferees direct that these delineations shall be considered congressional special interest items and be subject to normal reprogramming procedures.

The conferees agree that combatant commanders need the ability to effectively communicate in their respective areas of responsibility and provide adequate resources to support such military objectives. The conferees appreciate the progress made by the Office of the Secretary of Defense over the past three years to define and consolidate strategic communications (SC) and IO into a more accountable and transparent structure

within the Department and improve inter-agency coordination. Even with this progress, concerns remain that some activities being funded under IO/MISO and SC are duplicative of, or operate at cross purposes with, other federal agencies' efforts. As the Secretary of Defense Memorandum dated January 25, 2011 indicates, further refinements are necessary to identify IO-related costs and develop standardized budgeting methodologies for SC and IO-related capabilities and activities, as well as MISO costs. In an era of declining budgets, Department of Defense funding for these activities must be fully captured and carefully reviewed to ensure that each request meets a primary military requirement.

The conference agreement does not provide funds within the fiscal year 2012 base budget for these activities, but instead continues funding them within title IX of this division. The conferees will consider transitioning the funding for SC and IO/MISO programs to the base budget in fiscal year 2013 after a review of the comprehensive budget requests for SC, IO/MISO, and IO-related capabilities and activities.

The conferees reiterate the direction included in the House report requiring the Secretary of Defense to develop a format for improving the budget submission for these programs in fiscal year 2013. The submission shall include, at a minimum, a delineation of all programs and activities, and the funding associated with each, for all SC and IO/MISO programs within the Department of Defense. The conferees further direct the Secretary of Defense to follow the direction in the House report regarding execution reports for funds provided for these programs.

ENERGY INDEPENDENCE AND SECURITY ACT

The conference agreement does not include a provision (House Section 10011) on the Energy Independence and Security Act of 2007. The conferees note that the enforcement of section 526 of the Energy Independence and Security Act of 2007 may lead to higher fuel costs for federal fleets in the absence of competitively priced new generation fuels that emit fewer emissions. In carrying out this statute, the Secretary of Defense and the Service Secretaries should work to ensure that costs associated with fuel purchases necessary to carry out the missions of their respective departments and agencies should be minimized to the extent possible under the law.

## OVERHEAD COSTS AT NAVAL SHIPYARDS

One of the major themes of the Department of Defense's fiscal year 2012 budget submission has been the generation of efficiency savings through reduced overhead and improved business practices. However, the Navy's own budget materials indicate a plan to spend over \$1,700,000,000 for overhead costs

at Naval shipyards in fiscal year 2012, an amount equal to 33 percent of Naval shipyard funding. The conferees believe there are opportunities to find Naval shipyard efficiency savings and direct the Secretary of the Navy to carefully assess shipyard overhead costs with a goal of identifying and eliminating all unnecessary overhead expenditures. The con-

ferees recommend that funding garnered from overhead savings be reapplied to ship depot and intermediate maintenance in order to improve the readiness of the fleet.

## PERSONAL PROTECTIVE EYEWEAR

The conferees do not agree to the reporting requirements carried in the Senate report accompanying the Department of Defense Appropriations Act, 2012 regarding the Ma-

rine Corps' personal protective eyewear. However, the conferees remain committed to ensuring that the Marine Corps' acquisition program and its performance meet the standards and procedures required for these important protective devices.

## OPERATION AND MAINTENANCE, AIR FORCE

## VISIBILITY OF DEPOT MAINTENANCE FUNDING

All depot maintenance funding contained in the Air Force's fiscal year 2012 budget request has been identified, consolidated, and displayed in the Depot Maintenance Subactivity Group. In fiscal year 2013, all depot maintenance funds requested in the budget

must be discretely visible and fully justified. Air Force officials have provided assurances that contracts will be modified as necessary to include specific accounting of depot maintenance costs and that implementation of the Air Force's Next Generation Contractor Logistics Support concept will provide need-

ed data in the required format to achieve full cost visibility and proper accounting of depot maintenance funding in the future.

## OPERATION AND MAINTENANCE, DEFENSE-WIDE

UNITED STATES COURT OF APPEALS FOR THE  
ARMED SERVICES

The conference agreement provides \$13,861,000 for the United States Court of Appeals for the Armed Services, as proposed by both the House and the Senate.

## ENVIRONMENTAL RESTORATION

The conference agreement provides \$1,517,363,000 for the Environmental Restoration program, as proposed by the Senate, instead of \$1,467,363,000 as proposed by the House.

## CONTRACT OVERSIGHT AND TRANSPARENCY

The conferees are pleased that the adoption of performance-based contracting has led to increased efficiencies within the Department of Defense Environmental Restoration program. However, improved oversight and management would bring even greater benefits. The conferees direct the Secretary of Defense to implement measures to improve management of the program and to institute a process by which better oversight can be conducted of the contracting process and progress of cleanup.

Additionally, included as part of the Defense Environmental Program's Annual Report to Congress, the Secretary of Defense is directed to provide the following information: the amount of environmental restoration funding provided to each installation during the previous year as well as the subsequent reduction in the projected cost-to-complete at that installation, a listing along with explanation of those installations where the cost-to-complete is not reduced by the corresponding amount of monetary investment, a detailed justification regarding any increase of ten percent or more in the projected cost-to-complete from the previous year at an installation, and a detailed justification for any installation in which the projected "response complete" date has been delayed by a year or more from the previous year.

## ENVIRONMENTAL RESTORATION, ARMY

The conference agreement provides \$346,031,000 for Environmental Restoration, Army, as proposed by both the House and the Senate.

## ENVIRONMENTAL RESTORATION, NAVY

The conference agreement provides \$308,668,000 for Environmental Restoration, Navy, as proposed by both the House and the Senate.

## ENVIRONMENTAL RESTORATION, AIR FORCE

The conference agreement provides \$525,453,000 for Environmental Restoration, Air Force, as proposed by both the House and the Senate.

## ENVIRONMENTAL RESTORATION, DEFENSE-WIDE

The conference agreement provides \$10,716,000 for Environmental Restoration, Defense-Wide, as proposed by both the House and the Senate.

ENVIRONMENTAL RESTORATION, FORMERLY  
USED DEFENSE SITES

The conference agreement provides \$326,495,000 for Environmental Restoration, Formerly Used Defense Sites, as proposed by the Senate, instead of \$276,495,000 as proposed by the House.

NATIONAL CAPITAL REGION ENVIRONMENTAL  
HEALTH STUDY

The conferees encourage the Secretary of Defense to support both new and ongoing public health scoping studies of densely populated residential communities located on or near formerly used defense sites that have conducted research and tested chemical agents, equipment, and munitions.

OVERSEAS HUMANITARIAN, DISASTER, AND  
CIVIC AID

The conference agreement provides \$107,662,000 for Overseas Humanitarian, Disaster, and Civic Aid, as proposed by both the House and the Senate.

## COOPERATIVE THREAT REDUCTION ACCOUNT

The conference agreement provides \$508,219,000 for the Cooperative Threat Reduction Account, as proposed by both the House and the Senate.

DEPARTMENT OF DEFENSE ACQUISITION  
WORKFORCE DEVELOPMENT FUND

The conference agreement provides \$105,501,000 for the Department of Defense Acquisition Workforce Development Fund (DAWDF), as proposed by the House, instead of \$175,501,000 as proposed by the Senate, a reduction of \$200,000,000 below the request.

Along with the funding reduction due to carryover from large unobligated balances for the past several years, the conferees believe the Department should reassess further growth of its acquisition workforce in light of two considerations. First, the goal of 147,000 personnel set forth in the 2010 Human Capital Plan Update should be revisited considering today's uncertain fiscal environ-

ment and budgetary outlook. For example, 10 USC 1705 mandates annual funding floors for the DAWDF—floors that exceed \$1,000,000,000 in the outyears. The conferees believe that these floors may need to be adjusted and direct the Secretary of Defense to provide recommendations for appropriate funding levels to the congressional defense committees not later than 180 days after enactment of this Act. Second, the conferees are aware that the Department has not yet completed competency assessments for all of the functional areas that compose this workforce, which suggests the ability to assess the full range of required competencies within the workforce may be limited. Having these assessments completed is essential to understanding how best to prioritize future hiring and to optimize workforce training. The conferees direct the Secretary of Defense to publish a revised strategic Human Capital Plan Update for the defense acquisition workforce not later than August 1, 2012, detailing future workforce needs. In so doing, the conferees expect the Secretary to ensure that competency assessments for all functional areas that make up the defense acquisition workforce are completed, using DAWDF resources to facilitate this task if necessary.

To assist in the Human Capital Plan Update, the conferees direct the Comptroller General to report on the funding mechanisms and statutory limits established for the DAWDF through Section 852 of the National Defense Authorization Act, 2008 and codified by 10 USC 1705 to the congressional defense committees not later than 180 days after enactment of this Act. The current statute should be revisited in the near term. Absent this, the Department will be forced either to over-commit precious resources or violate the law, neither of which is an acceptable option. Therefore, the Comptroller General report should include recommendations to improve the overall funding process for the DAWDF.

## TITLE III—PROCUREMENT

The conference agreement provides \$104,579,701,000 in Title III, Procurement, instead of \$107,581,474,000 as proposed by the House and \$102,118,282,000 as proposed by the Senate. The conference agreement on items addressed by either the House or the Senate is as follows:

## SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount specifically addressed in the explanatory statement.

## REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The conferees direct the Department of Defense to continue to follow the reprogramming guidance specified in the report accompanying the House version of the fiscal year 2006 Department of Defense Appropriations bill (H.R. 109–119). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative. Therefore, if the combined value of transfers into or out of a procurement (P–1) or research, development, test and evaluation (R–1) line exceeds the

identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

## REPROGRAMMING REPORTING REQUIREMENTS

The conferees direct the Under Secretary of Defense (Comptroller) to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for Service and defense-wide accounts in titles III and IV of this Act as required in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006.

## JOINT STRIKE FIGHTER

The conference agreement reduces the budget request by \$151,000,000 for the procurement of one F–35A Conventional Take-off and Landing aircraft, by \$94,500,000 for advance procurement of Conventional Take-off and Landing aircraft, and by \$109,000,000 for advance procurement of Carrier Variant aircraft. Additionally, the conferees are concerned with the cost of concurrency changes on the Joint Strike Fighter program and provide \$100,000,000 to help offset the cost of concurrency for lot six aircraft and pre-

viously procured aircraft. The conferees encourage the Joint Strike Fighter Team to review processes and oversight of concurrency changes and establish a process that will reduce the time it takes to discover a problem, develop a solution, and implement this solution to reduce future concurrency change costs.

The conferees recognize that, for a variety of reasons, the Joint Strike Fighter program is burdened with what could be the highest level of concurrency ever seen in an acquisition program. Therefore, the conferees direct the Secretary of Defense to provide a semi-annual report to the congressional defense committees that shows the actual concurrency costs for the Joint Strike Fighter program. The report showing these actual concurrency costs shall be made available to the Director, Cost Assessment and Program Evaluation for the purposes of cost estimating and to develop lessons learned from allowing programmatic concurrency, so this cost can be considered when decisions are made regarding allowing such a high degree of concurrency in future programs.

## M1 TANK

The conferees are aware that the Army has been reviewing alternative courses of action for future tank production. Options have been studied ranging from a temporary shutdown and storage of facilities to adding funds to the tank program in order to maintain a steady flow of new tanks and a ready capacity in case of urgent need. Both the House and the Senate added funds for the

Abrams Upgrade Program in fiscal year 2012. The House proposed a funding increase of \$272,000,000 and the Senate proposed a funding increase of \$240,000,000. The conference agreement provides an additional amount of \$255,000,000 above the President's request to continue upgrading M1 tanks to the M1A2SEP variant. The additional funding supports production of 42 additional M1A2SEP tanks. The conferees direct the

Secretary of the Army to provide a report not later than 60 days after enactment of this Act on the plan for the use of the additional funds, including the plan to sustain tank production.

## PROCUREMENT OF AMMUNITION, ARMY

The conference agreement on items addressed by either the House or the Senate is as follows:

(IN THOUSANDS OF DOLLARS)

	BUDGET REQUEST	CONFERENCE
PROCUREMENT OF AMMUNITION, ARMY

## MQ-8 UNMANNED AERIAL VEHICLE

The conference agreement provides \$191,986,000 for the procurement of 12 MQ-8 unmanned aerial vehicles and associated support equipment. Although the budget justification materials provided by the Navy

were unclear about the MQ-8 model to be procured, the conferees understand that the Navy will actually procure the longer range MQ-8C variant. The conferees fully support this decision as the longer range will provide greater operational flexibility for the var-

ious missions the aircraft is expected to conduct.

## WEAPONS PROCUREMENT, NAVY

## RETIREMENT OF B-1 AIRCRAFT

The fiscal year 2012 budget request includes a proposal to retire six B-1 bomber aircraft. The conferees understand that the B-1 fleet continues to operate almost constantly over Afghanistan in support of troops on the ground and that the B-1 is a critical component of the Nation's long-range strike

capabilities. The Air Force proposed to reinvest less than 40 percent of the savings from aircraft retirements in the B-1 modernization program across the Future Years Defense Program. The conferees are concerned that premature retirement of six B-1 aircraft could negatively impact long-range strike capabilities. Therefore, the conferees direct the Secretary of the Air Force to reinvest a

larger portion of savings realized from B-1 aircraft retirements, to the extent authorized by law, in the sustainment and modernization of the B-1 fleet.

## MISSILE PROCUREMENT, AIR FORCE

The conference agreement on items addressed by either the House or the Senate is as follows:

## SPACE ACQUISITION AND THE EVOLUTIONARY ACQUISITION FOR SPACE EFFICIENCY ACTIVITIES

The conferees continue to support block buys of satellites that are evolved from previous designs as described in the “Evolutionary Acquisition for Space Efficiency (EASE)” concept. However, the conferees remain concerned that the details associated with the technology insertion program are missing in the budget justification material. Therefore, the conferees direct that of the funds appropriated for the Advanced Extremely High Frequency (AEHF) system Capabilities/Affordability Insertion Program (CAIP), no more than 50 percent shall be available for obligation until the Secretary of the Air Force submits a report to the congressional defense committees on the individual CAIP efforts with a description of the technology insertion plans being pursued.

Further, the conferees direct the Secretary of the Air Force to include the detailed budget definition for each of the CAIP efforts in the R-3 documents for the fiscal year 2013 and future budget submissions. The conferees also direct that not more than the specified amounts shall be obligated for the AEHF CAIP/Space Modernization Initiative unless the Secretary of the Air Force notifies the congressional defense committees in writing 15 days prior to the obligation of funds which exceeds the following amounts: \$28,300,000 for cryptology parts obsolescence; \$20,000,000 for radiation hardened parts technologies; \$3,200,000 for remotely piloted aircraft concept definition; \$58,700,000 for protected military satellite communications (MILSATCOM) designs for affordability; \$7,000,000 for hosted payloads; and \$25,000,000 for MILSATCOM architecture and support.

In addition, the conferees reiterate their opposition to using advance appropriations for procurement of satellites and recommend that an alternative concept be proposed in future budget submissions.

Finally, the conferees are disappointed that it took the Department of Defense over two years to develop a 15-year space strategic plan. It is the intention of the conferees that such plans be regularly developed and updated; therefore, the conferees direct that the next 15-year space strategic plan be delivered with the fiscal year 2014 budget submission.

SM-3 BLOCK IB MISSILE

The fiscal year 2012 budget request includes \$565,393,000 for the procurement of SM-3 Block IB missiles in support of Aegis Ballistic Missile Defense. The conferees have been informed by the Missile Defense Agency (MDA) that following a recent flight test failure, those funds are partially ahead of need. The conferees have also been informed that funding is required for a failure review of the SM-3 Block IB, sustainment of the industrial base, and the procurement of SM-3 Block IA missiles before SM-3 Block IB missiles will be procured. The conferees understand that the details of the specific funding requirements are currently being analyzed by MDA and direct MDA to submit a prior approval reprogramming request prior to executing funds from this line.

SPECIAL OPERATIONS COMMAND AVIATION  
FOREIGN INTERNAL DEFENSE

The conferees are aware of ongoing reviews of the proposed expansion of the Aviation Foreign Internal Defense (AvFID) mission in the Special Operations Command. While these reviews are not yet complete, the conferees believe that the rapid expansion of this mission, as proposed in the fiscal year 2012 budget request, must be tempered. The agreement contains reductions of \$45,000,000 from procurement of AvFID fixed-wing aircraft, \$10,000,000 from procurement of an AvFID rotary-wing aircraft simulator, and \$17,607,000 from operation and maintenance for aircraft that will not deliver until fiscal year 2013. The agreement fully funds the procurement of two AvFID rotary-wing aircraft and associated support equipment.

The conferees direct that no funds provided for fixed-wing Aviation Foreign Internal Defense aircraft may be obligated until 30 days

after submission of a report by the Commander, Special Operations Command to the congressional defense committees describing how the funds will be used to support the AvFID or the non-standard aviation (NSAV) missions, a summary of AvFID and NSAV funding contained in the fiscal year 2013 budget request and the Future Years Defense Program, and an analysis of alternatives used to justify the described program. The report shall be submitted not later than February 15, 2012.

DEFENSE PRODUCTION ACT PURCHASES

The conference agreement on items addressed by either the House or the Senate is as follows:

EXPLANATION OF PROJECT LEVEL ADJUSTMENTS		
(in thousands of dollars)		
P-1	Budget request	Conference
DEFENSE PRODUCTION ACT:		
GALLIUM NITRIDE RADAR AND ELECTRONIC WARFARE MONOLITHIC MICROWAVE INTEGRATED CIRCUITS .....	8,373	8,373
GALLIUM NITRIDE ADVANCED ELECTRONIC WARFARE MONOLITHIC MICROWAVE INTEGRATED CIRCUITS .....	2,321	2,321

CADMIUM ZINC TELLURIDE SUBSTRATE PRODUCTION .....	1,900	1,900
READ OUT INTEGRATED CIRCUIT FOUNDRY IMPROVEMENT AND SUSTAINABILITY .....	1,200	1,200
SPACE QUALIFIED SOLAR CELL SUPPLY CHAIN .....	600	600
TRAVELING WAVE TUBE AMPLIFIERS .....	1,310	1,310
COMPLEMENTARY METAL OXIDE SEMICONDUCTOR FOCAL PLAN ARRAYS FOR VISIBLE SENSORS FOR STAR TRACKERS .....	1,800	1,800
ADVANCED PROJECTS .....	1,690	1,690
PROGRAM INCREASE .....		150,000
TOTAL, DEFENSE PRODUCTION ACT .....	19,964	169,964

LONG TERM CONTRACTS

The conferees believe that the time and money being invested by the Department of Defense in biofuels and alternative energy will reap dividends not only for the Nation's armed forces, but eventually for the Nation itself. The conferees want the Department to be in the best position possible to take advantage of the expected breakthroughs in this area and encourage the Department to eventually pursue extended multi-year contracts, pursuant to the Financial Management Regulation, for biofuels products in order to maximize efficiencies of scale for the best purchase price.

ADDITIONAL FUNDING

The conferees recognize the critical role the Defense Production Act program serves in strengthening the Nation's industrial base. Therefore, the conferees provide \$150,000,000 over the budget request to supplement this important program. As stated in the Senate report, the conferees direct the Under Secretary of Defense (Acquisition, Technology and Logistics) to award this funding to multiple projects using full and open competition and to notify the congressional defense committees not later than 30 days in advance of this funding being obligated.

TITLE IV—RESEARCH, DEVELOPMENT,  
TEST AND EVALUATION

The conference agreement provides \$72,420,675,000 in Title IV, Research, Development, Test and Evaluation, instead of \$72,983,469,000 as proposed by the House and \$71,033,956,000 as proposed by the Senate. The conference agreement on items addressed by either the House or the Senate is as follows:

	=====	=====

## SPECIAL INTEREST ITEMS

Items for which additional funds have been provided as shown in the project level tables or in paragraphs using the phrase “only for” or “only to” in this report are congressional special interest items for the purpose of the Base for Reprogramming (DD Form 1414). Each of these items must be carried on the DD Form 1414 at the stated amount specifically addressed in the explanatory statement.

## REPROGRAMMING GUIDANCE FOR ACQUISITION ACCOUNTS

The conferees direct the Department of Defense to continue to follow the reprogramming guidance specified in the report accompanying the House version of the fiscal year 2006 Department of Defense Appropriations bill (H.R. 109–119). Specifically, the dollar threshold for reprogramming funds will remain at \$20,000,000 for procurement and \$10,000,000 for research, development, test and evaluation. The Department shall continue to follow the limitation that prior approval reprogrammings are set at either the specified dollar threshold or 20 percent of the procurement or research, development, test and evaluation line, whichever is less. These thresholds are cumulative. Therefore, if the

combined value of transfers into or out of a procurement (P–1) or research, development, test and evaluation (R–1) line exceeds the identified threshold, the Department of Defense must submit a prior approval reprogramming to the congressional defense committees. In addition, guidelines on the application of prior approval reprogramming procedures for congressional special interest items are established elsewhere in this statement.

## REPROGRAMMING REPORTING REQUIREMENTS

The conferees direct the Under Secretary of Defense (Comptroller) to continue to provide the congressional defense committees quarterly, spreadsheet-based DD Form 1416 reports for service and defense-wide accounts in titles III and IV of this Act as required in the explanatory statement accompanying the Department of Defense Appropriations Act, 2006.

## DEPARTMENT OF DEFENSE AND SERVICE CYBER ACTIVITIES

The conferees acknowledge the threat to and from the cyber realm has been well documented; however, the resources being expended against the threat have not. In order to better evaluate the planning and resourcing for Department of Defense cyber

activities, the conferees direct the Commander, United States Cyber Command, in coordination with the Secretary of Defense and each of the Service Secretaries, to provide the congressional defense committees separate budget justification material, in the form of the budget documents as defined in the Department's own Financial Management Regulation, that details the year-to-year budgets, schedule, and milestone goals over the Future Years Defense Program for the individual programs that support the goals of the cyber initiative. The programs detailed must include cyberspace operations, computer network operations, information assurance, and full spectrum cyber operations for the Department of Defense and the Services.

The conferees suggest that the Department continue to refine what activities, budget lines, and programs should be considered cyber in order to better coordinate and track these budgets.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION, ARMY

## ARMY MODERNIZATION AND ACQUISITION

The conferees agree with the Army's steps to improve acquisition processes through implementation of the Decker-Wagner Army Acquisition Review findings as well as introducing other metrics and monthly reports to enable and strengthen senior civilian oversight across all Army modernization portfolios. The conferees believe continued acquisition improvement is only achievable with a strong, stable acquisition workforce and therefore urge the Secretary of the Army and the Secretary of Defense to guard against misguided efforts that shrink the acquisition workforce as was done in the 1990s with disastrous results. The conferees also believe that even with improvements in acquisition processes and a stable workforce, these steps alone will not ensure that the Army will achieve its modernization objectives.

After both the House and Senate Appropriations Committees completed their reviews of the fiscal year 2012 budget request, the Army provided additional information for its top-ten priority programs. Of these top-ten programs, six programs had undergone significant acquisition strategy modifications causing schedule and programmatic perturbations. As a result of these changes, the Army identified over \$1,000,000,000 from its original fiscal year 2012 budget request as excess to its funding requirements in fiscal year 2012. Additionally, the Army notified the congressional defense committees of over \$309,000,000 in excess funds from its budget request due to program terminations and requested transfers of over \$282,000,000 among ten different programs. This magnitude of change in funding across a multitude of programs, identified after submitting the budget only ten months prior, indicates a pervasive instability in Army programs.

While the conferees recognize that ten years of continuous war can force out-of-cycle changes, the Army's acquisition challenges precede the post-September 11, 2001 war efforts. Since 1995, the Army has spent \$32,000,000,000 on development of 22 programs that were eventually cancelled. The conferees believe this history of programmatic instability indicates a lack of focus and discipline in the requirements generation process that must be corrected before the Army will see any improvement in its ability to successfully modernize. Improvement must begin with clearly documented, stable, and affordable requirements. The conferees are aware that Army acquisition has taken on the responsibility of vetting each requirement for technical maturity and affordability prior to initiating a contract action, but the conferees are concerned that this is a short-term correction to a larger institutional problem with the requirements generation process.

Furthermore, while the conferees congratulate the Army on the success of the newly implemented Network Integration Evaluations, which ensure new equipment is interoperable, effective, and adds benefit to deployed troops, the process has revealed that a handful of programs would not be effective if deployed. The evaluations are causing the Army to reevaluate, restructure, and even terminate several programs that began years ago with established requirements. Thus, the conferees question the long-standing requirements process that serves as the foundation for Army modernization. Therefore, in addition to implementing changes identified in the Decker-Wagner Army Acquisition Review, the Secretary of the Army is encouraged to undertake a similar exam-

ination of the requirements generation process.

## FUTURE COMBAT SYSTEMS' SYSTEM OF SYSTEMS ENGINEERING AND PROGRAM MANAGEMENT AND NETWORK INTEGRATION EVALUATION

The conference agreement provides \$298,872,000 for the Future Combat Systems' System of Systems Engineering and Program Management, instead of \$311,872,000 as proposed by the House and \$283,872,000 as proposed by the Senate. The conferees note that this line now funds the Army's bi-annual Network Integration Evaluations (NIE). The conferees support the NIE and direct the Army to regularly update the congressional defense committees on the cost, schedule, scope, and methods for the tests and other associated reviews to be accomplished in the NIE, as well as outcomes and findings. Additionally, the conferees are aware of the savings the Army has achieved in Future Combat Systems termination costs and the lower costs projected for the fiscal year 2012 NIE. The conferees note that the continued use of the former "Future Combat Systems" terminology has become a counter-productive distraction and recommend updating program descriptions to improve communications among those who review and shape defense appropriations and to more accurately reflect the purpose for which appropriations are requested. The conferees believe that funding requirements for the NIE should be presented distinctly and separately in future budget submissions.

## ACTIVE AND SEMI-ACTIVE VEHICLE SUSPENSION COMPONENTS

The conferees are aware that the Army has begun the testing and development of active and semi-active vehicle suspension components with regenerative capabilities. The conferees understand that this technology may improve vehicle fuel efficiency and reduce maintenance. Accordingly, the conferees encourage the Army to continue the testing and development of this technology and to fully explore the potential benefits for application across vehicle programs.

## SUPPORT FOR BASE REALIGNMENT AND CLOSURE 2005 ACTIONS

The conferees support actions taken by the Army and the Defense Logistics Agency to fully fund the integration of their information technology systems in a timely manner to support the 2005 Base Realignment and Closure (BRAC) Commission's mandate to transfer re-procurement of depot level repairables. The conferees are aware that although the BRAC Commission determined the transfer has the potential to save millions of dollars, the Government Accountability Office has recently concluded that the savings are jeopardized by inadequate up-front funding for BRAC implementation. The conferees note that the Army's Tank and Automotive Research, Development, and Engineering Command (TARDEC) manages the repository of all ground vehicle technical data for the Army, and has built infrastructure for use by all Army programs to store weapons system technical information, drawings, and specifications. The conferees urge that the TARDEC use funds available for this effort to assist in meeting the 2005 BRAC recommendation for depot-level repairable transfer.

## ARMORED MULTI-PURPOSE VEHICLE

The conferees recommend \$14,300,000 for the Armored Multi-purpose Vehicle instead of \$31,400,000 as proposed by the House and no funding as proposed by the Senate. The conferees note that the requirement to find a re-

placement for the M113 series of vehicles has received scant attention for too long. The conferees believe that prompt and decisive action is needed to select and advance a near-term solution rather than continuing a long-term search for the perfect solution. The conferees note that the recommendation fully funds the Analysis of Alternatives, as requested by the Army. Subsequently, after notification to the congressional defense committees, available funds may be applied to expedite the acquisition effort.

## GROUND COMBAT VEHICLE

The conferees recommend \$449,387,000 for the Ground Combat Vehicle, instead of \$768,053,000 as proposed by the House and \$240,387,000 as proposed by the Senate. The conferees have been informed of a change to the acquisition strategy and note that the recommendation fully funds this revised strategy.

## ARMED SCOUT HELICOPTER

The conferees recommend no funding for technology development of the Armed Scout Helicopter (ASH), instead of \$63,690,000 as proposed by the House and \$4,761,000 as proposed by the Senate, because contrary to plans submitted with the fiscal year 2012 budget submission, the Army does not plan to award a technology development contract in fiscal year 2012. The conferees recommend \$15,000,000 for a flight demonstration of ASH capabilities, as requested by the Army. The conferees understand that this flight demonstration will occur in the spring of 2012, and direct the Army to brief the congressional defense committees in detail on the outcome of this demonstration not later than 30 days after its completion.

## JOINT LIGHT TACTICAL VEHICLE

The budget request includes \$243,940,000 within Army and Marine Corps accounts for the development of the Joint Light Tactical Vehicle (JLTV). The JLTV program has undergone significant changes since its inception and the submission of the fiscal year 2012 budget request. The principal reason for the changes is the discovery that the plan to acquire multiple variants of a limited number of vehicles with demanding performance specifications would result in an unaffordable program for both the Army and Marine Corps. As a result, the program will now pursue a competitively-selected single vehicle with a less complex design on a significantly accelerated timeline.

The conferees are encouraged to see the Army and Marine Corps taking definitive action to change their approach in evaluating requirements, technology, key performance parameters, and costs as they apply to this acquisition program. Continuing on the nine year path of studies, development, and testing to field a lightweight tactical vehicle that will carry four passengers and 3,500 pounds of cargo onto the battlefield was unacceptable.

Recognizing the renewed focus and approach, the conference agreement provides \$87,300,000 in Research, Development, Test and Evaluation, Army and \$46,700,000 in Research, Development, Test and Evaluation, Navy for continued JLTV development, in accordance with revised estimates for the program. The conferees strongly encourage the Army and Marine Corps, in conjunction with the Under Secretary of Defense (Acquisition, Technology and Logistics), to examine the feasibility of accelerating a competition for production through more efficient testing and acquisition practices and by embracing off-the-shelf technology demonstrated by industry so that improved vehicles are delivered to the warfighter as soon

as possible. Accordingly, the Army and Marine Corps are encouraged to acquire, test, and evaluate, as necessary, available off-the-shelf systems that meet the essential program requirements.

RESEARCH, DEVELOPMENT, TEST AND  
EVALUATION, NAVY

The conference agreement on items addressed by either the House or the Senate is as follows:

RESEARCH, DEVELOPMENT, TEST AND  
EVALUATION, AIR FORCE

The conference agreement on items addressed by either the House or the Senate is as follows:

(IN THOUSANDS OF DOLLARS)

		BUDGET REQUEST	CONFERENCE
	RESEARCH, DEVELOPMENT, TEST & EVAL, AIR FORCE		
1	BASIC RESEARCH DEFENSE RESEARCH SCIENCES.....	364,328	364,328
2	UNIVERSITY RESEARCH INITIATIVES.....	140,273	152,273
3	HIGH ENERGY LASER RESEARCH INITIATIVES.....	14,258	14,258
	TOTAL, BASIC RESEARCH.....	518,859	530,859
4	APPLIED RESEARCH MATERIALS.....	136,230	144,230
5	AEROSPACE VEHICLE TECHNOLOGIES.....	147,628	147,628
6	HUMAN EFFECTIVENESS APPLIED RESEARCH.....	86,663	86,663
7	AEROSPACE PROPULSION.....	207,508	207,508
8	AEROSPACE SENSORS.....	134,787	134,787
9	SPACE TECHNOLOGY.....	115,285	115,285
10	CONVENTIONAL MUNITIONS.....	60,692	60,692
11	DIRECTED ENERGY TECHNOLOGY.....	111,156	141,156
12	DOMINANT INFORMATION SCIENCES AND METHODS.....	127,866	127,866
13	HIGH ENERGY LASER RESEARCH.....	54,059	54,059
	TOTAL, APPLIED RESEARCH.....	1,181,874	1,219,874
14	ADVANCED TECHNOLOGY DEVELOPMENT ADVANCED MATERIALS FOR WEAPON SYSTEMS.....	39,738	60,738
15	SUSTAINMENT SCIENCE AND TECHNOLOGY (S&T).....	5,780	5,780
16	ADVANCED AEROSPACE SENSORS.....	53,075	63,075
17	AEROSPACE TECHNOLOGY DEV/DEMO.....	67,474	67,474
18	AEROSPACE PROPULSION AND POWER TECHNOLOGY.....	120,953	120,953
19	ELECTRONIC COMBAT TECHNOLOGY.....	22,268	22,268
20	ADVANCED SPACECRAFT TECHNOLOGY.....	74,636	74,636
21	MAUI SPACE SURVEILLANCE SYSTEM (MSSS).....	13,555	13,555
22	HUMAN EFFECTIVENESS ADVANCED TECHNOLOGY DEVELOPMENT...	25,319	25,319
23	CONVENTIONAL WEAPONS TECHNOLOGY.....	54,042	45,542
24	ADVANCED WEAPONS TECHNOLOGY.....	28,683	48,683
25	MANUFACTURING TECHNOLOGY PROGRAM.....	40,103	40,103
26	BATTLESPACE KNOWLEDGE DEVELOPMENT & DEMONSTRATION.....	38,656	38,656

(IN THOUSANDS OF DOLLARS)

	BUDGET REQUEST	CONFERENCE
27 HIGH ENERGY LASER ADVANCED TECHNOLOGY PROGRAM.....	1,122	1,122
TOTAL, ADVANCED TECHNOLOGY DEVELOPMENT.....	585,404	627,904
28 ADVANCED COMPONENT DEVELOPMENT INTELLIGENCE ADVANCED DEVELOPMENT.....	4,013	4,013
29 PHYSICAL SECURITY EQUIPMENT.....	3,586	3,586
31 ADVANCED EHF MILSATCOM (SPACE).....	421,687	401,687
32 POLAR MILSATCOM (SPACE).....	122,991	102,991
33 SPACE CONTROL TECHNOLOGY.....	45,755	45,755
34 COMBAT IDENTIFICATION TECHNOLOGY.....	38,496	38,496
35 NATO RESEARCH AND DEVELOPMENT.....	4,424	4,424
36 INTERNATIONAL SPACE COOPERATIVE R&D.....	642	642

## INTEGRATED AIRCREW ENSEMBLE

The conference agreement provides \$3,980,000 for the Integrated Aircrew Ensemble (IAE), a decrease of \$2,000,000 below the request. The conferees understand that the IAE will provide more fully integrated upgrades to various flight safety gear and special protections in unique threat environments and is not a redesign of the current

flight suit. Given existing and prospective budget constraints, the conferees urge the Air Force to proceed with the program in a requirements-focused and fiscally sustainable manner.

## KC-46A

The conferees direct the Secretary of the Air Force to submit the reports regarding

the KC-46A required in House Report 112-110 on a quarterly basis, with the first report to be submitted not later than March 30, 2012.

RESEARCH, DEVELOPMENT, TEST AND  
EVALUATION, DEFENSE-WIDE

The conference agreement on items addressed by either the House or the Senate is as follows:

DEFENSE ADVANCED RESEARCH PROJECTS  
AGENCY

The conferees recommend a total of \$166,122,000 in undistributed reductions throughout the Defense Advanced Research Projects Agency (DARPA). The conferees direct the Director of DARPA to provide a report to the congressional defense committees, not later than 60 days after enactment of this Act, detailing by program element and project the application of each undistributed reduction.

## PROMPT GLOBAL STRIKE

The fiscal year 2012 budget request includes \$204,824,000 to continue the Prompt Global Strike program. The conferees recommend \$179,824,000, a reduction of \$25,000,000, based on program delays caused by two consecutive flight test failures of the Hypersonic Technology Vehicle 2. The conferees remain supportive of the Prompt Global Strike program and direct that the reduction not be applied to the Advanced Hypersonic Weapon program, which just completed a successful flight demonstration.

SPECIAL OPERATIONS COMMAND UNDERSEA  
MOBILITY CONCEPTS

The fiscal year 2012 budget request includes \$92,242,000 for several programs that are designed to collectively fill the capability gap that remains following termi-

nation of the Advanced SEAL Delivery System and its successor, the Joint Multi-Mission Submersible. The conferees note that unobligated prior year appropriations, combined with funds provided in the Department of Defense Appropriations Act, 2012, would allow the Special Operations Command (SOCOM) to award several commercial contracts to develop a Family of Systems to meet its requirement. The conferees direct the Commander, SOCOM to provide separate cost estimates for the Technology Development and Engineering and Manufacturing Development phases for each of the projects in support of Undersea Mobility, as well as the estimated procurement costs, with the fiscal year 2013 budget submission.

## ISRAELI COOPERATIVE PROGRAMS

The fiscal year 2012 budget request includes \$106,100,000 to continue Israeli Cooperative Programs, a decrease of over \$100,000,000 from amounts appropriated in fiscal year 2011. The conferees find the request insufficient and provide an additional \$129,600,000 to address Israel's security requirements. Within this amount, \$15,000,000 shall be used only for the Low Rate Initial Production activities as included in the David's Sling Weapon System project agreement between the two governments.

## MEDICAL COUNTERMEASURES INITIATIVE

The conferees recommend \$101,670,000, instead of \$151,670,000 as proposed by the House and no funding as proposed by the Senate, for the Medical Countermeasures Initiative (MCMI) System Development and Demonstration. The conferees support the purpose of the MCMI program but are concerned that synergies with other government programs have not been sufficiently explored and that the government is creating slightly distinct, yet largely redundant capabilities. Therefore, the conferees direct the Assistant Secretary of Defense (Nuclear, Chemical, and Biological Defense Programs) to continue efforts to reduce costs and program overlap.

## 90NM NEXT GENERATION FOUNDRY

The recommendation includes no funding for the requested 90nm Next Generation Foundry, due to the lack of justification in support of the budget submission. However, the conferees recognize the criticality of ensuring a safe and stable supply of microchips to the Department of Defense and will revisit this issue in the future.

OPERATIONAL TEST AND EVALUATION,

DEFENSE HEALTH PROGRAM REPROGRAMMING  
PROCEDURES

The conferees remain concerned over the transfer of funds from Direct (or In-house) Care to pay for contractor-provided medical care. To limit such transfers and continue oversight within the Defense Health Program operation and maintenance account, the conferees include bill language which caps the funds available for Private Sector Care under the TRICARE program subject to prior approval reprogramming procedures. The bill language and accompanying statement language included by the conferees should not be interpreted by the Department of Defense as limiting the amount of funds that may be transferred to the Direct Care System from other budget activities within the Defense Health Program. In addition, the conferees continue to designate the funding for the Direct Care System as a special interest item. Any transfer of funds from the Direct (or In-house) Care budget activity into the Private Sector Care budget activity or any other budget activity will require the Department of Defense to follow prior approval reprogramming procedures.

The Department shall also provide written notification to the House and Senate Appropriations Committees of cumulative transfers in excess of \$15,000,000 out of the Private Sector Care budget activity. The conferees further direct the Assistant Secretary of Defense (Health Affairs) to provide quarterly reports to the House and Senate Appropriations Committees on budget execution data for all of the Defense Health Program accounts and to adequately reflect changes to the budget activities requested by the Services in future budget submissions.

## CARRYOVER

For fiscal year 2012, the conferees recommend one percent carryover authority for the operation and maintenance account of the Defense Health Program. The conferees

direct the Assistant Secretary of Defense (Health Affairs) to submit a detailed spending plan for any fiscal year 2011 designated carryover funds to the congressional defense committees not fewer than 15 days prior to executing the carryover funds.

## PEER-REVIEWED CANCER RESEARCH PROGRAM

The conference agreement provides \$12,800,000 for a Peer-Reviewed Cancer Research Program that would research cancers not addressed in the breast, prostate, ovarian, and lung cancer research programs currently executed by the Department of Defense, and specifically by the U.S. Army Medical Research and Materiel Command.

The funds provided are directed to be used to conduct research in the following areas: melanoma and other skin cancers, pediatric brain tumors, genetic cancer research, pancreatic cancer, kidney cancer, blood cancer, colorectal cancer, mesothelioma, and listeria vaccine for infectious disease and cancer.

The funds provided under the Peer-Reviewed Cancer Research Program shall only be used for the purposes listed above. The Assistant Secretary of Defense (Health Affairs) is directed to provide a report not later than 60 days after enactment of this Act to the congressional defense committees on the status of the Peer-Reviewed Cancer Research Program. For each research area, the report should include the funding amount awarded, the progress of the research, and the relevance of the research for servicemembers and their families.

JOINT WARFIGHTER MEDICAL RESEARCH  
PROGRAM

The conference agreement provides \$50,000,000 for the Joint Warfighter Medical Research Program. Funds shall be used to augment and accelerate high priority Department of Defense and Service medical requirements and to continue prior year initiatives that are close to achieving their objectives and yielding a benefit to military medi-

cine. The funds shall not be used for new projects or for basic research. The funding shall be awarded at the Department's discretion following a review of medical research and development gaps, as well as unfinanced medical requirements of the Services. Further, the conferees direct the Assistant Secretary of Defense (Health Affairs) to provide a report not later than 120 days after enactment of this Act to the congressional defense committees, which lists the projects that receive funding. The report should include the amount of funding provided to each project and a thorough description of each project's research.

## PEER-REVIEWED MEDICAL RESEARCH PROGRAM

The conference agreement provides \$50,000,000 for a Peer-Reviewed Medical Research Program. The conferees direct the Secretary of Defense, in conjunction with the Service Surgeons General, to select medical research projects of clear scientific merit and direct relevance to military health. Research areas considered under this funding are restricted to: arthritis, composite tissue transplantation, drug abuse, dystonia, epilepsy, food allergies, Fragile X syndrome, hereditary angioedema, inflammatory bowel disease, interstitial cystitis, lupus, malaria, nanomedicine for drug delivery science, neuroblastoma, osteoporosis and related bone disease, Paget's disease, polycystic kidney disease, post-traumatic osteoarthritis, scleroderma, tinnitus, and tuberculosis. The conferees emphasize that the additional funding provided under the Peer-Reviewed Medical Research Program shall be devoted only to the purposes listed above.

CHEMICAL AGENTS AND MUNITIONS  
DESTRUCTION, DEFENSE

The conference agreement on items addressed either by the House or the Senate is as follows:

(IN THOUSANDS OF DOLLARS)

## CLASSIFIED ANNEX

Adjustments to classified programs are addressed in a separate detailed and comprehensive classified annex. The Intelligence Community, Department of Defense, and other organizations are expected to fully comply with the recommendations and directions in the classified annex accompanying the Department of Defense Appropriations Act, 2012.

## CENTRAL INTELLIGENCE AGENCY RETIREMENT AND DISABILITY SYSTEM FUND

The conference agreement provides \$513,700,000 for the Central Intelligence Agency Retirement and Disability Fund, as proposed by both the House and the Senate.

## INTELLIGENCE COMMUNITY MANAGEMENT ACCOUNT

The conference agreement provides \$547,891,000 for the Intelligence Community Management Account, instead of \$458,225,000 as proposed by the House and \$593,713,000 as proposed by the Senate.

## TITLE VIII—GENERAL PROVISIONS

The conference agreement incorporates general provisions from the House and Senate versions of the bill which were not amended. Those general provisions that were addressed in conference follow:

The conference agreement modifies a provision proposed by the House and Senate which provides general transfer authority not to exceed \$3,750,000,000.

The conference agreement retains a provision proposed by the Senate which prohibits the use of funds to demilitarize or dispose of certain small firearms. The House bill contained a similar provision but made it permanent.

The conference agreement retains a provision proposed by the House concerning incentive payments authorized by section 504 of the Indian Financing Act (25 U.S.C. 1544). The Senate bill contained a similar provision.

The conference agreement retains a provision proposed by the Senate which provides funding from various appropriations for the Civil Air Patrol Corporation. The House bill contained a similar provision.

The conference agreement retains a provision proposed by the Senate related to funding provided for Federally Funded Research and Development Centers. The House bill contained a similar provision.

The conference agreement retains a provision proposed by the House which provides that the Office of Economic Adjustment may use funds made available under Operation and Maintenance, Defense-Wide to make grants and supplement other federal funds in accordance with guidance provided. The Senate bill contained no similar provision.

The conference agreement retains a provision proposed by the Senate which prohibits the conversion of any activity or function performed by civilian employees of the Department of Defense to contractor with certain exceptions. The House bill contained no similar provision.

The conference agreement modifies a provision proposed by the House and the Senate recommending rescissions. The rescissions agreed to are:

The conference agreement retains a provision proposed by the House which prohibits the use of funds for nuclear armed interceptors of a missile defense system. The Senate bill contained a similar provision but made it permanent.

The conference agreement retains a provision proposed by the House which provides funding to the United Service Organizations and the Red Cross. The Senate bill contained a similar provision but did not provide funding to the Red Cross.

The conference agreement modifies a provision proposed by the Senate which provides funding of up to \$200,000,000 from Operation and Maintenance, Defense-Wide, to be combined with funds from the Department of State, should a Global Security Contingency Fund be created. The House bill contained no similar provision.

The conference agreement retains a provision proposed by the House which requires submission of P-1 exhibit and R-1 exhibits for National Intelligence programs based on certain dollar thresholds. The Senate bill contained a similar provision.

The conference agreement retains a provision proposed by the Senate which reduces funding appropriated in Operation and Maintenance, Army to reflect excess cash balances in the Working Capital Funds. The House bill contained no similar provision.

The conference agreement retains a provision proposed by the Senate which requires submission of a baseline for reprogramming at the project level. The House bill contained a similar provision which required submission of the baseline at the subproject level.

The conference agreement modifies a provision proposed by the House establishing prior approval reprogramming and transfer procedures for National Intelligence Programs. The Senate bill contained no similar provision.

The conference agreement retains a provision proposed by the Senate which provides for the transfer of funds by the Director of National Intelligence to other departments and agencies for purposes of government-wide information sharing activities. The House bill contained a similar provision.

The conference agreement retains a provision proposed by the Senate which provides funds for transfer to the Joint Department of Defense-Department of Veterans Affairs Medical Facility Demonstration Fund. The House bill contained a similar provision.

The conference agreement retains a provision proposed by the House which extends the period of time during which claims for retroactive stop-loss special pay may be submitted. The Senate bill contained no similar provision.

The conference agreement modifies a provision proposed by the House which places a limitation on the total number of Senior Executive Service employees in the Office of the Director of National Intelligence and requires submission of certain reports. The Senate bill contained no similar provision.

The conference agreement modifies a provision proposed by the House regarding Anti-Deficiency Act violations in the military personnel accounts. The provision requires the Inspector General of the Department of Defense to conduct a review of the violations and make recommendations for corrective actions to be implemented. The Senate bill contained no similar provision.

The conference agreement modifies a provision proposed by the House to provide

grants through the Office of Economic Adjustment to assist the civilian population of Guam. The Senate bill contained no similar provision.

The conference agreement modifies a provision proposed by the House regarding parking spaces provided by the BRAC 133 project. The Senate contained no similar provision.

The conference agreement retains a provision proposed by the House which prohibits the Secretary of the Air Force from transferring Air Force Material Command functions until after the Secretary transmits a report. The Senate bill contained no similar provision.

The conference agreement modifies a provision proposed by the House regarding reporting requirements for civilian personnel end strength by appropriation account. The Senate bill contained no similar provision.

The conference agreement retains a provision proposed by the House which provides funding from Research, Development, Test and Evaluation, Army to conduct research on alternative energy resources for the deployed forces. The Senate bill contained no similar provision.

The conference agreement retains a provision proposed by the House which requires the Department to report on the feasibility of using commercially available telecommunications expense management solutions. The Senate bill contained no similar provision.

The conference agreement retains a provision proposed by the House which prohibits funds from being used to separate the National Intelligence Program from the Department of Defense budget. The Senate bill contained no similar provision.

The conference agreement modifies a provision proposed by the House which provides general transfer authority of \$2,000,000,000 for funds made available for the intelligence community. The Senate bill contained no similar provision.

The conference agreement retains a provision proposed by the House which provides funds to construct, renovate, repair, or expand elementary and secondary public schools on military installations. The Senate bill contained no similar provision.

The conference agreement modifies language proposed by the House which prohibits the use of current and prior year funds from being used to transfer detainees from Naval Station Guantanamo Bay, Cuba to the United States. The Senate bill contained a similar provision.

The conference agreement modifies a provision proposed by the House which requires certain certifications prior to the transfer of detainees from Naval Station Guantanamo Bay, Cuba to foreign countries. The Senate bill contained a similar provision.

The conference agreement modifies language proposed by the House which prohibits the use of current and prior year funds from being used to construct, renovate, or modify

U.S. facilities to house any detainees at Naval Station Guantanamo Bay, Cuba. The Senate bill contained a similar provision.

The conference agreement modifies a provision proposed by the House which provides funds to conduct an assessment of the current and prospective situation on the ground in Afghanistan and Pakistan. The Senate bill contained no similar provision.

The conference agreement retains a provision proposed by the House which directs the Secretary of Defense to submit a report regarding the efficiency savings identified in the fiscal year 2012–2016 budgets. The Senate bill contained no similar provision.

The conference agreement modifies a provision proposed by the House which prohibits funding from being used to enter into agreements with corporations with unpaid tax liabilities. The Senate bill contained no similar provision.

The conference agreement modifies a provision proposed by the House which prohibits funding from being used to enter into agreements with a corporation that was convicted of a federal criminal violation in the past 24 months. The Senate bill contained no similar provision.

The conference agreement includes a new provision which creates a Military Intelligence Program Transfer Fund. The House bill and Senate bill contained no similar provisions.

The conference agreement retains a provision proposed by the House which prohibits funds from being used to violate the Trafficking Victims Protection Act of 2000. The Senate bill contained no similar provision.

The conference agreement retains a provision proposed by the House which prohibits funds from being used to violate the Child Soldier Prevention Act of 2008. The Senate bill contained no similar provision.

The conference agreement retains a provision proposed by the House which prohibits funds from being used to violate the War Powers Resolution. The Senate bill contained no similar provision.

#### TITLE IX—OVERSEAS CONTINGENCY OPERATIONS

The conference agreement provides \$115,082,635,000 in Title IX, Overseas Contingency Operations, instead of \$118,669,277,000 as proposed by the House and \$117,583,000,000 as proposed by the Senate. The conference agreement on items addressed by either the House or the Senate is as follows:

##### REPORTING REQUIREMENTS

The conferees direct that the Department continue to report incremental contingency operations costs for Operation New Dawn and Operation Enduring Freedom on the monthly basis in the Cost of War Execution report as required by Department of Defense Financial Management Regulation, Chapter 23, Volume 12. The conferees further direct the Department to continue providing Cost of War reports to the congressional defense

committees that include the following information by appropriation account: Funding appropriated, funding allocated, monthly obligations, monthly disbursements, cumulative fiscal year obligations, and cumulative fiscal year disbursements.

The conferees expect that in order to meet unanticipated requirements, the Department of Defense may need to transfer funds within these appropriations accounts for purposes other than those specified in this report. The conferees direct the Department of Defense to follow normal prior approval reprogramming procedures should it be necessary to transfer funding between different appropriations accounts in this title.

##### MILITARY ACTIVITIES IN LIBYA

General provisions 10003 and 10017, included in the House version of the Department of Defense Appropriations bill, restricted the use of Department of Defense funding for certain activities in or against Libya. The conference agreement does not include those provisions. Since the House passage of the Department of Defense Appropriations bill, political conditions in Libya have changed and power has transferred to a new regime.

As part of a greater NATO force, the United States participated in, and took direct forceful action against the country of Libya to topple its former regime. The action was successful and fortunately no American lives were lost during this incursion. However, the conferees insist that when determining that military engagements are necessary, the President is subject to the terms of the War Powers Resolution (50 U.S.C. 1541 et seq.).

##### EXTREMIST ORGANIZATIONS

The conferees are aware that certain governments and organizations such as the Government of Iran, Hamas, and Hizbullah have policies and practices counter to the best interests of the United States. The conferees reiterate that extremist governments and organizations should not be funded by this Act and that the conferees will closely monitor the expenditure of funds by the Department of Defense regarding such matters.

##### HUMAN RIGHTS ABUSES

The House included language directing reports on human rights abuses. The conferees direct the initial report be completed not later than 60 days after enactment of this Act and quarterly throughout the fiscal year.

##### MILITARY PERSONNEL

The conference agreement provides \$11,639,252,000 for Military Personnel, instead of \$10,813,624,000 as proposed by the House and \$11,657,252,000 as proposed by the Senate. The conference agreement on items addressed by either the House or the Senate is as follows:

## EXPLANATION OF PROJECT LEVEL ADJUSTMENTS

[in thousands of dollars]

M-1	Budget	
	Request	Conference
<b>MILITARY PERSONNEL, ARMY</b>		
<b>BA-1: PAY AND ALLOWANCES OF OFFICERS</b>		
BASIC PAY	783,035	783,035

## PAKISTAN COUNTERINSURGENCY FUND

The House version of the Department of Defense Appropriations bill included \$1,100,000,000 for the Pakistan Counterinsurgency Fund. The Senate included an appropriation for this fund in the State, Foreign Operations, and Related Agencies Appropriations bill. The fund is addressed in the State, Foreign Operations, and Related Agencies Division of this Act.

## AFGHANISTAN RESOURCES OVERSIGHT COUNCIL

The conferees have modified Section 9009 of the Senate version of the Department of Defense Appropriations bill to include re-

vised thresholds for contracts requiring approval of the Afghanistan Resources Oversight Council (AROC) and other responsibilities of the AROC. As outlined in this section, the AROC is responsible for approving all financial and activity plans for the Afghanistan Security Forces Fund (ASFF). The conferees direct the AROC to establish policies, regulations, and processes to include consideration of the extent of competition and the relevant qualifications and eligibility of contractors as part of the acquisition plan for major purchases of goods and services. The conferees further direct the AROC to establish business rules and criteria

for reviewing ASFF construction and sustainment plans for infrastructure and to establish a plan for the oversight of contractor performance and services and goods rendered. These are critical steps in ensuring that proper oversight is conducted on one of the largest Department of Defense programs.

## PROCUREMENT

The conference agreement provides \$13,633,461,000 for Procurement, instead of \$13,375,288,000 as proposed by the House and \$15,518,701,000 as proposed by the Senate. The conference agreement on items addressed by either the House or the Senate is as follows:

**EXPLANATION OF PROJECT LEVEL ADJUSTMENTS**

## NATIONAL GUARD AND RESERVE EQUIPMENT

The conference agreement provides \$1,000,000,000 for National Guard and Reserve Equipment. Of that amount, \$325,000,000 is for the Army National Guard; \$315,000,000 is for the Air National Guard; \$145,000,000 is for the Army Reserve; \$75,000,000 is for the Navy Reserve; \$65,000,000 is for the Marine Corps Reserve; and \$75,000,000 is for the Air Force Reserve to meet urgent equipment needs that may arise this fiscal year.

This funding will allow the Guard and reserve components to procure high priority equipment that may be used by these units for both their combat missions and their missions in support of State governors. The conferees direct that the National Guard and Reserve Equipment account shall be executed by the Chiefs of the National Guard and reserve components with priority consideration given to the following items: AB-FIST Gunnery Trainer Upgrades; Active Noise Cancellation Systems for ANG C-130; ANG Block 42 F-16 Engine Upgrades; ARC 210 Radios for ANG F-16s; Batteries and Battery Support Equipment; Bradley Modifications; C-130 Loadmaster Lookout Windows and Crashworthy Loadmaster Seats; C-130 Secure Line of Sight and Beyond Line of Sight Capability; CH-47 Door Gun Mounts; Chemical/Biological Protective Shelter; Civil Support

Radios; Combined Arms Virtual Trainers; Command Posts—Tactical Operations Centers and Standardized Integrated Command Post Systems; Communications Aerial Platforms; External and Internal Fuel Tanks; F-15 Active Electronically Scanned Array Radars; Field Engineering, Logistics, and Maintenance Equipment; General Engineering Equipment; Generation 4 Advanced Targeting Pods; HC-130 Integrated EW Suites (ALQ-213) with VECTS; Helicopter Firefighting Equipment; Helmet Mounted Cueing Systems; HMMWV Ambulances; Homeland Defense Communications Equipment; Integrated Vehicle Health Management Systems; Joint Threat Emitters; Large Aircraft Infrared Countermeasures; Light Utility Helicopters; Lightweight Airborne Recovery Systems; LITENING Upgrades; MRAP Vehicle Virtual Trainers; Personal Protective Equipment and Weapons; Reduced Size Crashworthy External and Extended Range Fuel Systems (RCEFS) for Apaches and Chinooks; Remotely Operated Video Enhanced Receivers; SATCOM Ground Stations; Security Force Mobility Bag Upgrades; Self-Contained Live Fire Shooting Ranges; Shadow Tactical Unmanned Aircraft Systems; Simulation Training Systems; Tactical Communications Equipment; Tactical Radios; Tactical Trailers; Thermal Imaging Systems; Unit Maintenance

Aerial Recovery Kits; Virtual Convoy Operations Trainers; Virtual Door Gunner Trainers; and Wideband Imagery Dissemination.

## MINE RESISTANT AMBUSH PROTECTED AND MRAP-ALL TERRAIN VEHICLES

The conference agreement provides \$2,600,170,000 to address Mine Resistant Ambush Protected (MRAP) vehicle and MRAP-All Terrain Vehicle (M-ATV) requirements, as identified by the Department of Defense. The request was reduced by an amount previously provided by the Department of the Army to the MRAP Joint Program Office to support operations and maintenance from within funds available to the Army. The Department shall continue to adhere to the execution and reporting requirements contained in section 8122 of Public Law 110-116.

## RESEARCH, DEVELOPMENT, TEST AND EVALUATION

The conference agreement provides \$526,358,000 for Research, Development, Test and Evaluation, instead of \$436,758,000 as proposed by the House and \$581,958,000 as proposed by the Senate. The conference agreement on items addressed by either the House or the Senate is as follows:

The conference agreement provides funding for the Joint Improvised Explosive Device Defeat Organization (JIEDDO) in title IX. The conferees believe that the requirements are war related and should be funded through Overseas Contingency Operations funding.

The conferees direct JIEDDO to submit to the congressional defense committees monthly commitment, obligation, and expenditure data by line of operation and by year of appropriation. Further, the conferees direct JIEDDO to submit to the congressional defense committees monthly reports of obligation data on a project by project basis by line of operation. The conferees also continue the direction that JIEDDO follow standard reprogramming procedures when transferring a cumulative amount of \$20,000,000 or more between lines of operation.

## OFFICE OF THE INSPECTOR GENERAL

The conference agreement provides \$11,055,000 for the Office of the Inspector General, as proposed by both the House and the Senate.

## GENERAL PROVISIONS—THIS TITLE

The conference agreement for title IX incorporates general provisions from the House and Senate versions of the bill which were not amended. Those general provisions that were addressed in conference follow:

The conference agreement retains a provision proposed by the Senate which provides for general transfer authority within title IX. The House bill contained a similar provision.

The conference agreement modifies a provision proposed by the Senate concerning the Afghanistan Resources Executive Council approval of funding for projects under the Afghanistan Security Forces Fund, Afghanistan Infrastructure Fund, and the Commanders Emergency Response Program. The House bill contained a similar provision.

The conference agreement modifies a provision proposed by the Senate concerning funding and guidelines for the Task Force for Business and Stability Operations in Afghanistan. The House bill contained a similar provision.

The conference agreement retains a provision proposed by the Senate concerning transition activities of the Office of Security Cooperation in Iraq and security assistance teams. The House bill contained a similar provision.

The conference agreement modifies a provision proposed by the Senate which reduces funding from title IX military personnel and operation and maintenance accounts to reflect reduced troop strength in theater. The House bill contained no similar provision.

The conference agreement modifies a provision proposed by the House and the Senate recommending rescissions. The rescissions agreed to are:

(RESCISSIONS)

2010 Appropriations:

Overseas Contingency  
Operations Transfer  
Fund:

Unobligated Balances .. \$356,810,000

## DIVISION B—ENERGY AND WATER DEVELOPMENT APPROPRIATIONS ACT, 2012 JOINT EXPLANATORY STATEMENT OF THE COMMITTEE OF CONFERENCE

The language and allocations set forth in House Report 112–118 and Senate Report 112–75 should be complied with unless specifically addressed to the contrary in the conference report and statement of managers. Report language included by the House which is not contradicted by the report of the Senate or the conference, and Senate report language which is not contradicted by the report of the House or the conference is approved by the committee of conference. The statement of managers, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where both the House report and Senate report address a particular issue not specifically addressed in the conference report

or joint statement of managers, the conferees have determined that the House report and Senate report are not inconsistent and are to be interpreted accordingly. In cases in which the House or Senate have directed the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations.

Funds for the individual programs and activities within the accounts in this Act are displayed in the detailed table at the end of the explanatory statement for this Act. Funding levels that are not displayed in the detailed table are identified in this explanatory statement.

TITLE I  
CORPS OF ENGINEERS—CIVIL  
DEPARTMENT OF THE ARMY  
CORPS OF ENGINEERS—CIVIL

The summary tables included in this title set forth the dispositions with respect to the

individual appropriations, projects, and activities of the Corps of Engineers. The conference agreement includes no new starts as proposed by the House and Senate. Additional items of the Act are discussed below.

INVESTIGATIONS

The conference agreement provides \$125,000,000 for Investigations as proposed by the Senate, instead of \$104,000,000 as proposed by the House. The Act does not include language regarding expenditure of funds as proposed by the House.

The allocation for projects and activities within the Investigations account is shown in the following table:

*Additional Funding for Ongoing Work.*—The fiscal year 2012 budget request does not reflect the extent of need for project studies funding. The Corps has numerous continuing studies that will be suspended under the limits of the budget request. These studies could lead to projects with significant economic benefits, particularly by increasing national competitiveness through marine transportation improvements and by avoiding damages caused by flooding and coastal storms. The conference agreement includes additional funds to continue ongoing studies. While this additional funding is shown in the feasibility column, the Corps should utilize these funds in any applicable phase of work. The intent of these funds is for ongoing work that either was not included in the Administration's request or was inadequately budgeted. In no case shall funds be used to initiate new studies within this account.

A study shall be eligible for this funding if it has received funding, other than through a reprogramming, in at least one of the previous three fiscal years. Funding associated with each category may be allocated to any

eligible study within that category; funding associated with each subcategory may be allocated only to eligible studies within that subcategory. The list of subcategories is not meant to be exhaustive. The conferees direct that priority in allocating these funds be given to completing or accelerating ongoing studies which will enhance the nation's economic development, job growth and international competitiveness, or are for projects located in areas that have suffered recent natural disasters.

Within 45 days of enactment of this Act, the Corps shall provide to the House and Senate Committees on Appropriations a work plan delineating how these funds are to be distributed and in which phase the work is to be accomplished. A document providing the Administration's criteria for justifying the funding decisions made shall accompany this work plan. No funds shall be obligated for any project under this program which has not been justified in such a report.

*Water Resources Principles and Guidelines.*—No funds are provided for the line item proposed for Water Resources Principles and Guidelines, as this is considered a new start.

No funds provided to the Corps shall be used to develop or implement rules or guidance if an update or replacement to the document dated March 10, 1983, and entitled "Economic and Environmental Principles and Guidelines for Water and Related Land Resources Implementation Studies" is finalized during the fiscal year period covered by the Energy and Water Development Act for 2012. The Corps shall continue to use the Water Resources Principles and Guidelines in effect as of the date of enactment of this Act during that same period.

#### CONSTRUCTION

The conference agreement provides \$1,694,000,000 for Construction, instead of \$1,565,191,000 as proposed by the House and \$1,610,000,000 as proposed by the Senate. The Act does not include a rescission of \$50,000,000 as proposed by the House. The Act does not include language regarding expenditure of funds as proposed by the House.

The allocation for projects and activities within the Construction account is shown in the following table:

*Napa River, Salt Marsh Restoration, California.*—The conferees support language in the Senate report regarding this project.

*Savannah Harbor Expansion, Georgia.*—The budget request for this item that was proposed in the Investigations account has been moved to this account where it has been funded for the past 3 fiscal years.

*Chicago Sanitary and Ship Canal Dispersal Barrier, Illinois.*—The budget request includes funding for this project in both the Construction and Operation and Maintenance accounts. Since the submission, however, the Corps informed the Committees that the entire amount is required in the Construction account and no funding is needed in the Operation and Maintenance account. The conference agreement accommodates this shift in funding.

*Norfolk Harbor, Craney Island, Virginia.*—The conferees support language in the Senate report regarding this project.

*Additional Funding for Ongoing Work.*—The Corps has ongoing, authorized Construction projects that would cost tens of billions of dollars to complete, yet the Administration continues to request a mere fraction of the funding necessary to complete those projects. The conference agreement includes additional funds to continue ongoing projects and activities to enhance the nation's economic growth and international competitiveness. The intent of these funds is for ongoing work that either was not included in the Administration's request or was inadequately budgeted. None of these funds may be used to start new projects. None of these funds shall be used for projects in the Continuing Authorities Program. Funding associated with each category may be allocated to any eligible project within

that category; funding associated with each subcategory may be allocated only to eligible projects within that subcategory. The list of subcategories is not meant to be exhaustive.

The Corps shall evaluate all ongoing projects that have received funding, other than through a reprogramming, in at least one of the previous three fiscal years. Priority in allocating these funds should consider the following: number of jobs created directly by the funded activity; the benefits of the funded work to the national economy; ability to obligate the funds allocated within the fiscal year, including consideration of the ability of the non-federal sponsor to provide any required cost-share; ability to complete the project, separable element, or project phase within the funds allocated; for flood and storm damage reduction, population at risk and economic activity or public infrastructure at risk; and for navigation, number of jobs or level of economic activity to be supported by completion of the project, separable element, or project phase.

Within 45 days of enactment of this Act, the Corps shall provide to the House and Senate Committees on Appropriations a work plan delineating how these funds are to be distributed. A document detailing the Administration's specific criteria and project evaluations used to justify the funding decisions shall accompany this work plan. No funds shall be obligated for any project under this program which has not been justified in such a report.

*Continuing Authorities Program.*—The conferees believe the various sections of the Continuing Authorities Program provide a useful tool for the Corps to undertake small localized projects without the lengthy study

and authorization process typical of most larger Corps projects. The conference agreement rejects the Administration's proposal to reprogram prior-year appropriations to fund only sections 111, 204, 206, and 1135 in fiscal year 2012. Instead a total of \$49,430,000 is provided for eight CAP sections. The management of the program should continue consistent with the guidelines outlined in the Senate report.

*Inland Waterways Users Board.*—The conferees note that the terms of all members of the Inland Waterways Users Board (IWUB) have expired and no appointments to reconstitute the Board have been forthcoming from the Secretary of the Army. The IWUB was created by Congress in the 1986 Water Resources Development Act for the express purpose of providing expert advice to the U.S. Army Corps of Engineers and to the Congress on the implementation of the inland waterways navigation infrastructure modernization programs. This aging system is vital to the movement of commerce. The conferees direct the Secretary of the Army to act on the appointments to the IWUB as expeditiously as possible.

#### MISSISSIPPI RIVER AND TRIBUTARIES

The conference agreement provides \$252,000,000 for Mississippi River and Tributaries, instead of \$210,000,000 as proposed by the House and \$250,000,000 as proposed by the Senate. The Act does not include language regarding expenditure of funds as proposed by the House.

The allocation for projects and activities within the Mississippi River and Tributaries account is shown in the following table:

DREDGING	---	5,000
FLOOD CONTROL	---	24,000
OTHER AUTHORIZED PROJECT PURPOSES	---	17,037
TOTAL	210,000	252,000

*Additional Funding for Ongoing Work.*—After a flood such as was experienced this year on the Mississippi River, the value of prior investments in the Mississippi River and Tributaries Project cannot be disputed. Yet considerable work remains to complete this vital project in the heart of our nation. The budget request reflects neither the need nor the importance of this project. Therefore, the conferees provide additional funds to continue ongoing studies, projects or maintenance. The conferees direct that these funds be used for flood control, navigation, water supply, ground water protection, waterfowl management, bank stabilization and environmental restoration work. The intent of these funds is for ongoing work primarily along the Mississippi River tributaries that either was not included in the Administration's request or was inadequately budgeted. While this additional funding is shown under

remaining items, the Corps should utilize these funds in any applicable phase of work. None of these funds may be used to start new projects or activities.

The conferees direct that priority in allocating these funds be given to completing or accelerating ongoing work which will enhance the region and Nation's economic development, job growth and international competitiveness, or is located in areas that have suffered recent natural disasters. Within 45 days of enactment of this Act, the Corps shall provide to the House and Senate Committees on Appropriations a work plan delineating how these funds are to be distributed. A document providing the Administration's criteria for justifying the funding decisions made shall accompany this work plan. No funds shall be obligated for any project under this program which has not been justified in such a report.

#### OPERATION AND MAINTENANCE

The conference agreement provides \$2,412,000,000 for Operation and Maintenance, instead of \$2,368,925,000 as proposed by the House and \$2,360,000,000 as proposed by the Senate. The Act includes legislative language proposed by the House directing the Corps to allocate no more than 99 percent of the funds provided in this Act for Operation and Maintenance prior to the fourth quarter. This measure is intended to allow Headquarters flexibility to respond to national emergencies. The Act does not include language regarding expenditure of funds as proposed by the House.

*The allocation for projects and activities within the Operation and Maintenance account is shown in the following table:*

**Additional Funding for Ongoing Work.**—The fiscal year 2012 budget request does not fund operation, maintenance, and rehabilitation of our nation's aging infrastructure sufficiently to ensure continued competitiveness in a global marketplace. Federal navigation channels maintained at only a fraction of authorized dimensions, and navigation locks and hydropower facilities well beyond their design life result in economic inefficiencies and risks infrastructure failure, which cause substantial economic losses. The conferees believe that investing in operation, maintenance, and rehabilitation of infrastructure today will save taxpayers money in the future.

The conference agreement includes additional funds to continue ongoing projects and activities. The intent of these funds is for ongoing work that either was not included in the Administration's request or was inadequately budgeted. None of these funds may be used to start new projects or programs. The conferees direct that priority in allocating these funds be given to completing ongoing work maintaining authorized depths and widths of harbors and shipping channels, including where contaminated sediments are present, and for addressing critical maintenance backlog. Particular emphasis should be placed on projects where there is a U.S. Coast Guard presence; that will enhance national, regional, or local economic development; or that will promote job growth or international competitiveness.

The conferees are concerned that the Administration's criteria for navigation maintenance does not allow small, remote, or subsistence harbors and waterways to properly compete for scarce navigation maintenance funds. The conferees urge the Corps to revise the criteria used for determining which navigation maintenance projects are funded in order to develop a reasonable and equitable allocation under this account. The criteria should include the economic impact that these projects provide to local and regional economies, in particular, those with national defense or public health and safety importance.

Funding associated with each category may be allocated to any eligible project within that category; funding associated with each subcategory may be allocated only to eligible projects within that subcategory. The list of subcategories is not meant to be exhaustive. Priority in allocating these funds should consider the following: number of jobs created directly by the funded activity; benefits to the local, regional or national economy; ability to obligate the funds allocated within the fiscal year; ability to complete the project, separable element, or project phase within the funds allocated; and risk of imminent failure or closure of the facility.

Within 45 days of enactment of this Act, the Corps shall provide to the House and Senate Committees on Appropriations a work plan delineating how these funds are to be distributed. A document providing the Administration's criteria for justifying the funding decisions made shall accompany this work plan. No funds shall be obligated for any project under this program which has not been justified in such a report.

**Coastal and Ocean Systems Data.**—The conferees have provided funding to ensure the maintenance of wave observations and the expansion of the national wave monitoring network as outlined in the National Operational Wave Observation Plan. Funds are also included for continuation of integrated long-term beach surveys to monitor shoreline risk.

#### REGULATORY PROGRAM

The conference agreement provides \$193,000,000 for the Regulatory Program as proposed by the Senate, instead of \$196,000,000 as proposed by the House. The Act includes language making funds available until September 30, 2013, as proposed by the Senate.

#### FORMERLY UTILIZED SITES REMEDIAL ACTION PROGRAM

The conference agreement provides \$109,000,000 for the Formerly Utilized Sites Remedial Action Program as proposed by the House and Senate. The Corps is directed to prioritize sites that are nearing completion. Within the funds provided in accordance with the budget request, the Corps is directed to complete the Remedial Investigation/Feasibility Study of the former Pennsylvania nuclear fuel site at Hicksville, New York, and, as appropriate, to proceed expeditiously to a Record of Decision and initiation of any necessary remediation in accordance with the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA).

#### FLOOD CONTROL AND COASTAL EMERGENCIES

The conference agreement provides \$27,000,000 for Flood Control and Coastal Emergencies as proposed by the House and Senate.

#### EXPENSES

The conference agreement provides \$185,000,000 for Expenses as proposed by the Senate, instead of \$177,640,000 as proposed by the House. The Act includes language making funds available until September 30, 2013, as proposed by the Senate. Within the funds provided, the Institute for Water Resources is directed to submit to the Senate and House Committees on Appropriations within 180 days of enactment of this Act, a report on how the Congress should address the critical need for additional port and inland waterway modernization to accommodate post-Panamax vessels. This study will not impede nor delay port or inland waterway projects already authorized by Congress. Factors for consideration should include costs associated with deepening and widening deep-draft harbors; the ability of the waterways and ports to enhance the nation's export initiatives benefitting the agricultural and manufacturing sectors; the current and projected population trends that distinguish regional ports and ports that are immediately adjacent to population centers; the availability of inland intermodal access; and the environmental impacts resulting from the modernization of inland waterways and deep-draft ports.

#### OFFICE OF THE ASSISTANT SECRETARY OF THE ARMY FOR CIVIL WORKS

The conference agreement provides \$5,000,000 for the Office of the Assistant Secretary of the Army for Civil Works as proposed by the House and Senate. The Act includes language making funds available until September 30, 2013, as proposed by the Senate.

#### ADMINISTRATIVE PROVISION

The conference agreement includes a provision relating to the replacement and hire of passenger motor vehicles as proposed by the House and Senate.

#### GENERAL PROVISIONS—CORPS OF ENGINEERS—CIVIL

##### (INCLUDING TRANSFERS OF FUNDS)

The conference agreement includes a provision proposed by the Senate relating to reprogramming. The House proposed a similar provision.

The conference agreement does not include a provision proposed by the Senate regarding implementation of competitive sourcing or High Performance Organizations. The House proposed no similar provision.

The conference agreement includes a provision proposed by the House prohibiting the use of funds to carry out any contract that commits funds beyond the amounts appropriated for that program, project, or activity. The Senate proposed no similar provision.

The conference agreement includes a provision proposed by the House relating to continuing contracts and the Inland Waterway Trust Fund. The Senate proposed a similar provision.

The conference agreement includes a provision proposed by the Senate relating to report notifications. The House proposed a similar provision.

The conference agreement includes a provision proposed by the Senate providing the Corps of Engineers authorization for emergency measures to exclude Asian carp from the Great Lakes. The House proposed a similar provision. The conferees do not consider hydrologic separation of the Great Lakes Basin from the Mississippi River Basin to be an emergency measure authorized by this Act. The issue should be fully studied by the Corps of Engineers and considered by the appropriate congressional committees.

The conference agreement includes a provision proposed by the House and Senate authorizing the transfer of funds to facilitate progress on the Greater New Orleans Hurricane and Storm Damage Risk Reduction System.

The conference agreement includes a provision proposed by the House and Senate authorizing the transfer of funds to the Fish and Wildlife Service to mitigate for fisheries lost due to Corps of Engineers projects.

The conference agreement does not include a provision proposed by the House regarding implementation of revised guidance on determining jurisdiction under the Clean Water Act. The Senate proposed no similar provision.

The conference agreement includes a provision proposed by the Senate authorizing employees to serve on an international commission. The House proposed no similar provision.

The conference agreement includes a provision proposed by the Senate authorizing the acquisition of real property for the Cold Regions Research and Engineering Laboratory. The House proposed no similar provision.

The conference agreement includes a provision proposed by the House regarding the relocation of any regional division headquarters located at a military installation. The Senate proposed no similar provision.

The conference agreement includes a provision proposed by the House regarding additional authority for the Corps to accept funding from non-federal sponsors for authorized federal projects. The Senate proposed no similar provision. The conferees do not expect these changes to result in more architect-engineer design work being undertaken by Corps personnel. The conferees expect the Corps to continue its contracting efforts for such services as in prior years.

The conference agreement does not include a provision proposed by the Senate regarding restrictions on the use or maintenance of any federal dredge. The House proposed no similar provision.

The conference agreement does not include a provision proposed by the Senate relating

to maintenance standards for the federal dredging fleet. The House proposed no similar provision.

The conference agreement does not include a provision proposed by the Senate relating to health and safety improvements to the dredge “McFarland”. The House proposed no similar provision.

The conference agreement modifies a provision proposed by the Senate relating to deed restrictions in Benton County, Washington. The House proposed no similar provision.

The conference agreement includes a provision proposed by the Senate deauthorizing a portion of the Block Island Harbor of Refuge in Rhode Island. The House proposed no similar provision.

The conference agreement includes a provision proposed by the Senate relating to improvements to installations and facilities of the Engineer Research and Development Center. The House proposed no similar provision.

The conference agreement includes a provision proposed by the Senate relating to the disposition of acquired land in the Passaic River Basin in New Jersey. The House proposed no similar provision.

The conference agreement modifies a provision proposed by the Senate relating to

disposal sites in Long Island Sound. The House proposed no similar provision.

The conference agreement includes a provision proposed by the Senate deauthorizing a portion of the Newport Harbor in Rhode Island. The House proposed no similar provision.

The conference agreement includes a provision proposed in Title VI of the House bill relating to FERC Project number 2342. The Senate proposed no similar provision.

The conference agreement includes a provision proposed in Title VI of the House bill prohibiting funds for the Missouri River Authorized Purposes Study. The Senate proposed no similar provision.

The conference agreement includes a provision proposed in Title VI of the House bill relating to section 5018(a)(1) of the Water Resources Development Act of 2007 regarding Missouri River Recovery. The Senate proposed no similar provision. The conferees are aware of the challenges associated with water management in the Missouri River Basin and urge all parties to work cooperatively in addressing these issues.

## TITLE II

### DEPARTMENT OF THE INTERIOR

#### CENTRAL UTAH PROJECT

##### CENTRAL UTAH PROJECT COMPLETION ACCOUNT

The conference agreement provides a total of \$28,704,000 for the Central Utah Project as proposed by the House, instead of \$28,991,000 as proposed by the Senate.

#### BUREAU OF RECLAMATION

##### WATER AND RELATED RESOURCES

##### (INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$895,000,000 for Water and Related Resources, instead of \$822,300,000 as proposed by the House and \$885,670,000 as proposed by the Senate. The Act does not include a restriction on projects carried out by the Youth Conservation Corps (YCC) as proposed by the House, but the conferees direct the Bureau of Reclamation to report to the House and Senate Committees on Appropriations by January 1, 2015, on the use of the YCC for carrying out Reclamation projects. The Act does not include language regarding expenditure of funds as proposed by the House.

The conference agreement for Water and Related Resources is shown in the following table:

**Indian Water Rights Settlements.**—The conference agreement includes funds for these activities in the Water and Related Resources account as proposed by both the House and Senate, instead of in a separate account as proposed in the budget request.

**San Joaquin River Restoration.**—The conference agreement does not include a separate account for this item. Funding is included in the Water and Related Resources account as a separate line item under the Friant Division of the Central Valley Project. The conferees note that the San Joaquin River Restoration Settlement Act has two goals: to restore and maintain fish populations in good condition and to reduce or avoid adverse water supply impacts to long-term contractors and other water users. The conferees direct the Bureau of Reclamation to continue to work with all relevant state and federal agencies, settlement parties, and third party interests to address all concerns so the mutual goals of the Settlement Act can be achieved.

**Arthur Bowman Dam.**—The conference agreement includes House direction regarding hydropower development at Arthur Bowman Dam located in Crook County, Oregon.

**Buried Metallic Water Pipe.**—The conferees are aware of several concerns regarding implementation and review of Reclamation's Technical Memorandum 8140-CC-2004-1 ("Corrosion Considerations for Buried Metallic Water Pipe"). Specifically, the conferees are concerned that Reclamation's use of this memorandum may be holding different materials to different standards of reliability and increasing project costs unnecessarily. Therefore, Reclamation should not use the memorandum as the sole basis to deny funding or approval of a project or to disqualify any material from use in highly corrosive soils. Additionally, the conferees direct Reclamation to follow the recommendation of the National Academy of Sciences to assemble data on pipeline reliability for all types of pipe specified in Table 2 of Technical Memorandum 8140-CC-2004-1 along with the specified corrosion protection applied in the various soil types ("Review of the Bureau of Reclamation's Corrosion Prevention Standards for Ductile Iron Pipe" (2009)) and to conduct an analysis of the performance of these types of pipe installed in the same or similar conditions. This review should also include an analysis of the economics, cost-effectiveness and life-cycle costs associated with the various materials under evaluation.

**Additional Funding for Water and Related Resources Work.**—The conference agreement includes additional funds as proposed by the Senate. The conferees direct that priority in allocating these funds should be to advance and complete ongoing work, improve water supply reliability, improve water deliveries, enhance regional or local economic development, promote job growth or for critical backlog maintenance and rehabilitation activities. Within 30 days of enactment, Reclamation shall provide to the House and Senate Committees on Appropriations a report delineating how these funds are to be distributed, in which phase the work is to be accomplished, and an explanation of the criteria and rankings used to justify each allocation. This report shall also include the reassessment of allocation among rural water systems as directed by the House.

#### CENTRAL VALLEY PROJECT RESTORATION FUND

The conference agreement provides \$53,068,000 for the Central Valley Project Restoration Fund, as proposed by the House and Senate.

#### CALIFORNIA BAY-DELTA RESTORATION (INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$39,651,000 for the California Bay-Delta Restoration program as proposed by the Senate, instead of \$35,928,000 as proposed by the House.

#### POLICY AND ADMINISTRATION

The conference agreement provides \$60,000,000 for Policy and Administration as proposed by the House and Senate. The Act includes language making funds available until September 30, 2013, as proposed by the Senate.

#### ADMINISTRATIVE PROVISION

The conference agreement includes a provision limiting the Bureau of Reclamation to purchase not more than five passenger vehicles for replacement only, as proposed by the House.

#### GENERAL PROVISIONS—DEPARTMENT OF THE INTERIOR

The conference agreement includes a provision proposed by the Senate outlining the circumstances under which the Bureau of Reclamation may reprogram funds. The House proposed a similar provision.

The conference agreement includes a provision proposed by the House and Senate regarding the San Luis Unit and the Kesterson Reservoir in California.

The conference agreement does not include a provision proposed by the House permanently rescinding mandatory funds from the San Joaquin River Restoration Fund. The Senate proposed no similar provision.

The conference agreement includes a provision proposed by the Senate regarding the Lake Mead/Las Vegas Wash Program. The House proposed no similar provision.

The conference agreement modifies a provision proposed by the Senate extending authorizations under the Water Desalination Act of 1996. The House proposed no similar provision.

The conference agreement includes a provision proposed by the Senate regarding the Bay Delta Conservation Plan. The House proposed no similar provision.

The conference agreement includes a provision proposed by the Senate regarding participation in non-federal groundwater banking programs. The House proposed no similar provision.

The conference agreement includes a provision proposed by the Senate regarding water transfers in California. The House proposed no similar provision.

The conference agreement does not include a provision proposed by the Senate regarding expenditure of mandatory funds under the San Joaquin River Restoration Fund. The House proposed no similar provision.

The conference agreement includes a provision proposed by the Senate regarding the Desert Terminal Lakes Program. The House proposed no similar provision.

#### TITLE III

#### DEPARTMENT OF ENERGY

The summary tables at the end of this title set forth the dispositions with respect to the individual appropriations, programs, and activities of the Department of Energy. Additional items in the Act are discussed below.

The conference agreement provides \$25,748,081,000 for the Department of Energy, instead of \$24,722,046,000 as proposed by the House and \$25,548,976,000 as proposed by the Senate, to fund programs in its five primary mission areas: science, energy, environment, nuclear non-proliferation and national security.

**Contractor Pensions and Benefits.**—The conferees support actions taken to improve headquarters oversight of contractor pensions and other post-retirement benefits. Given the government has assumed the long-term liability for pension costs, the conferees encourage the Department to evaluate alternatives to contractually formalize requirements for the management of pension and other post-retirement benefits. Instead of the House direction on reporting requirements for pensions and prohibition on contribution amounts, the conferees direct the Department to report current plan status, funding ratios, reimbursement levels, projected plan status at budgeted levels, and any updates to funding ratios and contributions with or as supplemental information to the budget request. This information should be updated in April and September of each year. Changes to expected contribution levels should be clearly explained and the Department should note any changes in plan management that have impacted contribution amounts. Any funding request which proposes a contribution in excess of the minimum ERISA or Pension Protection Act requirements should include a detailed justification.

**Nuclear Safety.**—Instead of the House direction for a safety review of all cleanup sites, the conferees direct the Secretary of Energy to review all Department of Energy nuclear facility construction projects with a total project cost greater than \$1,000,000,000 to determine if those projects are being managed in a way which could pressure contractors or Department managers to disregard nuclear safety in order to demonstrate acceptable project performance. The review should investigate contract management, including the award of contractor fee, project management practices, and the framing of program and policy goals to evaluate if Department practices have complicated efforts to foster a positive nuclear safety culture or resolve nuclear safety-related design issues. The Secretary shall report to the House and Senate Committees on Appropriations no later than May 1, 2012, on improvements to contracting and other management practices which will assist Department managers in ensuring that design flaws and safety issues do not go ignored or unrecognized.

**H-Canyon.**—Instead of the House requirement to provide funding to the National Academy of Sciences, the Department shall conduct its own review to explore the full range of potential uses for the chemical processing areas of H-Canyon at the Savannah River Site and report back to the House and Senate Committees on Appropriations within 3 months of enactment of this Act. The options considered should not be limited to uses by the Office of Environmental Management, but should incorporate uses which may contribute to meeting the goals of other program offices within the Department of Energy and the National Nuclear Security Administration.

**Exascale Computing.**—The conferees support the Department's initiative to develop exascale computing as a crucial component of long-term U.S. leadership, but are concerned that the Department has not yet developed an integrated strategy and program plan. The Department is directed to submit to the House and Senate Committees on Appropriations, not later than February 10, 2012, a joint, integrated strategy and program plan for the crosscutting effort to develop exascale computing that includes:

—a target date for developing an operational exascale platform;

—interim milestones toward reaching that target;

—minimum requirements for an exascale system, including power consumption efficiency goals;

—multi-year budget estimates for the exascale initiative and costs of meeting each interim milestone;

—clear roles and responsibilities for each office involved in exascale research and development; and

—a complete listing of exascale activities included in the fiscal year 2013 budget request broken out by program, project and activity with comparisons to the current year's funding levels.

**Energy Innovation Hubs.**—For each Energy Innovation Hub funded in this Act, the Department is directed to deliver to the House and Senate Committees on Appropriations, not later than 120 days after enactment of this Act, a report detailing milestones and performance goals for the end of each of the Hub's five fiscal years, and specific milestones and performance criteria the Hub must meet to be considered for a second five-year term. For Hubs established in prior fiscal years, the report shall include current performance against planned milestones, and a summary of progress against plans for staffing and facilities. For new Hubs, the report shall include a plan and timeline for selecting an awardee.

**PCAST Recommendations.**—The conferees direct the Secretary of Energy, within 6 months of enactment of this Act, to submit a report detailing how the Department has or will implement in all Energy Programs the following features that have been used successfully in ARPA-E and highlighted by the President's Council of Advisors on Science and Technology:

—a rigorous review process;

—contract or grant negotiations completed in just a few months;

—co-location within the program offices of such support functions as procurement, contracts, human resources, and information technology services; and

—an agile and innovative workforce.

#### REPROGRAMMING REQUIREMENTS

The conference agreement carries the Department's reprogramming authority in statute to ensure that the Department carries out its programs consistent with congressional direction, as proposed by the House. This modified provision includes reprogramming authority internal to each account, as long as no program, project or activity is increased or decreased by more than \$5,000,000 or 10 percent, compared to the levels included in the "Conference" column in the "Department of Energy" table included under the heading "Title III—Department of Energy" in this joint explanatory statement. No new transfer authority between accounts other than that explicitly granted in this Act is included or implied. The conferees expect the Department to use this additional flexibility to improve budget execution, meet emergent program needs, and reduce program costs. For reallocations above the \$5,000,000 or 10 percent cumulative threshold, a reprogramming request must be submitted to the House and Senate Committees on Appropriations for consideration and may not be implemented prior to approval by the Committees. Any reallocation of new or prior-year budget authority or prior-year deobligations, or any request to implement a reorganization which includes moving previous appropriations between appropriations accounts must be submitted to the House and Senate Committees on Appropriations in

writing and may not be implemented prior to approval by the Committees.

**Definitions.**—A reprogramming includes the reallocation of funds from one program, project or activity to another within an appropriation.

The conferees are concerned the Department is over-committing future budgets by announcing multi-year awards subject to future appropriations for a substantial portion of activities within Energy Programs. The Department is directed to transition to a model in which it fully funds multi-year awards with appropriated funds, except in the cases of major capital projects, management and operating contracts, and large research centers which require multi-year awards subject to appropriations. As part of that transition, the conference agreement includes a provision requiring that any multi-year award must be subject to appropriations and the Department must notify the House and Senate Committees on Appropriations at least 14 calendar days prior to public announcement of the award. The Department shall deliver each notification as a cumulative list of all notifications under this subsection, to include: recipient; appropriations account, program, and activity; award date; total amount of award; amount awarded from fiscal year 2012 appropriations; amount awarded from prior appropriations; amount awarded subject to future appropriations; and an explanation of the special circumstances justifying commitment of future funds. The conferees do not include a House provision prohibiting the use of multi-year awards, but will reconsider this legislative prohibition in future years depending on the Department's performance in transitioning to fully funding its multi-year awards.

#### ENERGY PROGRAMS

##### ENERGY EFFICIENCY AND RENEWABLE ENERGY (INCLUDING RESCISSION OF FUNDS)

The conference agreement provides \$1,825,000,000 in new budget authority for Energy Efficiency and Renewable Energy, instead of \$1,308,436,000 as proposed by the House and \$1,795,641,000 as proposed by the Senate, and rescinds \$9,909,000 in prior-year balances.

The conference agreement does not include a Senate provision directing energy efficiency rulemakings for televisions and set-top boxes within 12 months of enactment of this Act. The conference agreement does not include a Senate provision regarding the Defense Production Act.

**Biomass and Biorefinery Systems Research and Development.**—The conferees strongly encourage the Department to conduct only research, development, and demonstration activities advancing technologies that produce fuels and electricity from biomass, crops and crop components that could not otherwise be used as food. To that end, the conferees support efforts to develop cellulosic feedstocks and direct the Department to consider a broad portfolio of options, including biofuels sources such as the non-food components of biomass sorghum.

Within available funds, a total of \$30,000,000 is provided for algae biofuels. The conference agreement includes no funds for the cellulosic biofuels reverse auction proposed in the request.

**Solar Energy.**—The conferees support the Department's existing solar energy research, development, and demonstration activities, and encourage the Department to include in these efforts disruptive solar energy utilization technologies, fabrication methods that yield ultra-low cost solar cells, technologies

for ultra-high efficiency solar cells, technologies designed to simulate the operation of solar cells, and other methods to yield advanced science and engineering approaches to solar cells.

**Wind Energy.**—The conferees support the Department's efforts to develop advanced offshore wind energy technologies, including freshwater, deepwater, shallow water, and transitional depth installations.

**Geothermal Technology.**—The Geothermal Technology program may not announce new funding opportunities that result in total mortgages on future fiscal years in excess of half of the program's fiscal year 2012 appropriation. Within available funds, the conferees direct the Department to make not less than \$5,000,000 available to continue development and deployment of low-temperature geothermal systems. The Department shall continue its support of comprehensive programs that support academic and professional development initiatives. For future awards, the full spectrum of geothermal technologies as authorized by the Energy Independence and Security Act of 2007 (Public Law 110-140) shall be eligible for the funds appropriated for Geothermal Technology by this Act.

**Water Power.**—The conference agreement provides \$59,000,000 for Water Power, of which \$34,000,000 is for marine and hydrokinetic technology research, development and demonstration, and \$25,000,000 is for conventional hydropower research, development and demonstration. Within available funds, the Department is directed to provide not less than \$10,000,000 to build necessary infrastructure, including environmental performance monitoring, at marine and hydrokinetic industry testing sites designated by the Department as National Marine Renewable Energy Centers.

**Vehicle Technologies.**—The conference agreement includes \$28,244,000 for lightweight materials, to include \$4,000,000 for modeling and design for vehicle optimization. The conferees provide \$28,000,000 for Vehicle Technologies Deployment, of which \$3,000,000 is to commission a National Academies study on electric vehicle market barriers, as directed in the House report.

**Building Technologies.**—The conference agreement includes \$24,300,000 for the Energy Efficient Building Systems Design Energy Innovation Hub, and the House direction for a strategic plan regarding geothermal heat pumps. The conferees provide \$25,832,000 for lighting research and development, to include \$12,000,000 for research and development into manufacturing improvements for general illumination solid state lighting. The conference agreement includes no funds within Commercial Buildings Integration for new state and municipal government grant programs relating to codes, performance standards and regulations.

**Industrial Technologies.**—The conference agreement includes \$20,000,000 for the Energy Innovation Hub for Critical Materials. Within available funds, the conference agreement includes not less than \$4,205,000 for improvements in production in the steel industry, and the Department is directed to continue supporting improvements in mechanical insulation. The Department is directed to continue funding mortgages on all past multi-year awards within the Combined Heat and Power program, unless a project fails to meet milestones or other terms of the award. The conferees provide no funding for Manufacturing Energy Systems.

**Strategic Programs.**—The Department is directed to only fund activities within the

International Program that directly benefit domestic industry, increase American energy self-sufficiency, further United States research efforts, or reduce domestic pollution. Within available funds, the conference agreement includes \$2,000,000 for the U.S.-Israel energy cooperative agreement.

*Weatherization Assistance.*—The conference agreement includes a provision giving the Secretary authority to waive the weatherization formula in order to distribute fiscal year 2012 funds to states, once they have spent all prior-year and emergency funds, at a rate of spending consistent with the fiscal year 2011 level.

#### ELECTRICITY DELIVERY AND ENERGY RELIABILITY

The conference agreement provides \$139,500,000 for Electricity Delivery and Energy Reliability, instead of \$139,496,000 as proposed by the House and \$141,010,000 as proposed by the Senate.

The conferees provide \$25,490,000 for Clean Energy Transmission and Reliability, and include no funds for the proposed Smart Grid Technology and Systems Energy Innovation Hub. The conference agreement includes \$24,000,000 for Smart Grid Research and Development, \$20,000,000 for Energy Storage, and \$30,000,000 for Cyber Security for Energy Delivery Systems.

#### NUCLEAR ENERGY

The conference agreement provides \$768,663,000 for nuclear energy activities, instead of \$733,633,000 as proposed by the House and \$583,834,000 as proposed by the Senate.

The conferees direct the Department to develop a strategy for the management of spent nuclear fuel and other nuclear waste within 6 months of publication of the final report of the Blue Ribbon Commission on America's Nuclear Future.

*Nuclear Energy Enabling Technologies.*—The conference agreement provides \$74,880,000, to include \$14,580,000 for the National Science User Facility at Idaho National Laboratory, \$24,300,000 for the Modeling and Simulation Energy Innovation Hub, and \$36,000,000 for Crosscutting Research.

*Small Modular Reactor Licensing Technical Support.*—The conference agreement includes \$67,000,000 to provide licensing and first-of-a-kind engineering support for small modular reactor designs that can be deployed expeditiously, to be administered as specified in the budget request. The Department is directed to consider applications utilizing any small modular reactor technologies. The conferees expect the program to total \$452,000,000 over five years.

*Reactor Concepts Research and Development.*—The conferees provide \$115,544,000, to include \$28,674,000 for Small Modular Reactors Advanced Concepts and \$21,870,000 for Advanced Reactor Concepts.

The conference agreement includes \$25,000,000 for Light Water Reactor Sustainability. Within available funds, the Department is directed to conduct research and development furthering knowledge on how long the current fleet of reactors can safely operate.

The conference agreement includes \$40,000,000 for the Next Generation Nuclear Plant program, \$30,000,000 of which is to accelerate fuel development and qualification activities and \$10,000,000 of which is to continue ongoing research and development projects begun in prior fiscal years.

*Fuel Cycle Research and Development.*—The conference agreement provides \$187,351,000.

The conference agreement includes \$60,000,000 for Used Nuclear Fuel Disposition.

Within available funds, \$10,000,000 is for development and licensing of standardized transportation, aging, and disposition canisters and casks. Multiple geologic repositories will ultimately be required for the long-term disposition of the nation's spent fuel and nuclear waste; the Department should build upon its current knowledge base to fully understand all repository media and storage options and their comparative advantages, and the conferees direct the Department to focus, within available funds, \$3,000,000 on development of models for potential partnerships to manage spent nuclear fuel and high level waste, and \$7,000,000 on characterization of potential geologic repository media. The Department is directed to preserve all documentation relating to Yucca Mountain, including technical information, records, and other documents, as well as scientific data and physical materials.

The conference agreement includes \$10,000,000 to expand the Department's capabilities for assessing issues related to the aging and safety of storing spent nuclear fuel, to include experimentation, modeling, and simulation for dry storage casks, as well as for spent fuel pools, as necessary.

The conference agreement includes \$59,000,000 for Advanced Fuels, and directs that priority for the increase in funding be given to efforts to develop and qualify melt-down-resistant, accident-tolerant nuclear fuels that would enhance the safety of light water reactors.

*Radiological Facilities Management.*—The conference agreement provides \$64,902,000 for space and defense infrastructure, to include \$15,000,000 for nuclear infrastructure at Oak Ridge National Laboratory. The conferees provide no funds for the Plutonium-238 Production Restart Project.

#### FOSSIL ENERGY RESEARCH AND DEVELOPMENT (INCLUDING RESCISSION OF FUNDS)

The conference agreement provides \$534,000,000 in new budget authority for Fossil Energy Research and Development, instead of \$476,993,000 as proposed by the House and \$445,471,000 as proposed by the Senate, and rescinds \$187,000,000 in prior-year balances, as proposed by the Senate. The conference agreement does not include the use of prior-year balances, as proposed by the House and the Senate.

*CCS and Power Systems.*—The conferees provide \$368,609,000 for CCS and Power Systems. The conference agreement includes \$100,000,000 for Advanced Energy Systems, to include \$5,000,000 for the Coal and Coal-Biomass to Liquids, and not less than \$25,000,000 to continue research, development, and demonstration of solid oxide fuel cell systems.

Within CCS and Power Systems, the conference agreement includes \$35,031,000 for NETL Coal Research and Development, to include Integrated Gasification Combined Cycle, Turbines, Carbon Sequestration, Fuels, Fuel Cells, and Advanced Research activities. The reduction in Program Direction funding reflects the relocation of NETL Direct Program Direction into this research line, in order to increase transparency by grouping together all fossil energy research activities and by including only oversight and management activities within Program Direction. The Department is directed to continue including in the budget request all full-time equivalent information within this program line, as it has been doing previously within Program Direction.

*Natural Gas Technologies.*—The conference agreement provides \$15,000,000, of which \$10,000,000 is for gas hydrates research.

*Other Programs.*—Within available funds, the conference agreement includes \$2,000,000 for the Department to continue the Risk Based Data Management System.

#### NAVAL PETROLEUM AND OIL SHALE RESERVES

The conference agreement provides \$14,909,000 for the operation of the Naval Petroleum and Oil Shale Reserves as proposed by the House and Senate.

#### STRATEGIC PETROLEUM RESERVE

The conference agreement provides \$192,704,000 for the Strategic Petroleum Reserve as proposed by the House and Senate.

#### SPR PETROLEUM ACCOUNT

##### (INCLUDING RESCISSION OF FUNDS)

The conference agreement includes a rescission of funds in the amount of \$500,000,000 from existing balances within this account, rather than direction included in the House and Senate bills to sell an additional \$500,000,000 of Reserves to enable operational maintenance of the caverns. A sale in calendar year 2011 unanticipated by the Administration's fiscal year 2012 budget request provides the necessary flexibility to address the infrastructure needs. The conference agreement includes no repeal or modification of royalty-in-kind provisions, as proposed by the Senate and House, respectively.

#### NORTHEAST HOME HEATING OIL RESERVE

##### (INCLUDING RESCISSION OF FUNDS)

The conference agreement provides \$10,119,000 for the Northeast Home Heating Oil Reserve as proposed by the House and Senate. The conference agreement includes a rescission of excess revenues from a sale in fiscal year 2011, valued at approximately \$100,000,000, as proposed by the House and Senate. The conference agreement includes a provision proposed by the House affirming the Administration's plans to limit the size of the Reserve to one million barrels of petroleum distillate.

#### ENERGY INFORMATION ADMINISTRATION

The conference agreement provides \$105,000,000 for the Energy Information Administration.

#### NON-DEFENSE ENVIRONMENTAL CLEANUP

The conference agreement provides \$235,721,000 for Non-Defense Environmental Cleanup, instead of \$254,121,000 as proposed by the House and \$219,121,000 as proposed by the Senate.

*Small Sites.*—The conference agreement provides \$67,430,000 for Small Sites. In response to a lack of progress on addressing existing contamination and seismic deficiencies within buildings that are located in heavily used areas at some Department national laboratories, the Department is directed to use additional funds above the amount requested to improve health and safety by cleaning up existing contamination and improving the seismic standards of buildings within Department laboratory grounds. The conference agreement directs the Department to provide a report on Small Sites as directed in the House and Senate reports within 3 months of enactment of this Act.

#### URANIUM ENRICHMENT DECONTAMINATION AND DECOMMISSIONING FUND

The conference agreement provides \$472,930,000 for activities funded from the Uranium Enrichment Decontamination and Decommissioning Fund, instead of \$449,000,000 as proposed by the House and \$429,000,000 as proposed by the Senate. This amount includes post closure contract liabilities, pensions, and community and regulatory program support. The conference

agreement does not include the House provision restricting the Department's use of up to \$150,000,000 in proceeds from the barter, transfer, or sale of uranium to carry out uranium enrichment facility decontamination and decommissioning and remedial actions.

The conferees are aware that the Department has yet to alter the contractual mechanism by which it has been transferring uranium to a contractor in exchange for additional cleanup services at Portsmouth in order to correct the violations of federal law cited in the Government Accountability Office's report "Clarifying DOE's Disposition Options Could Help Avoid Further Legal Violations" (GAO-11-846). This type of arrangement continues to be off-budget and inappropriately bypasses the congressional appropriations process. There is also considerable concern that the increasing amount of uranium being transferred could destabilize the uranium market and thereby adversely impact our domestic uranium mining industry.

The conferees request the Comptroller General to report to the Committees on Appropriations of the House of Representatives and the Senate, not later than March 15, 2012, on the progress the Department has made in resolving the concerns raised in GAO-11-846. To increase transparency into Department of Energy actions, the Department shall fully adhere to the reporting requirements in this Act and have a current determination by the Secretary that any barter, transfer or sale of uranium carried out by the Department will not have an adverse material impact on the domestic uranium mining, conversion, or enrichment industry. The Department is further directed to provide the full details of any proposed barter, transfer or sale of uranium in its fiscal year 2013 budget request.

#### SCIENCE

The conference agreement provides \$4,889,000,000 for Science, instead of \$4,800,000,000 as proposed by the House and \$4,842,665,000 as proposed by the Senate.

The conference agreement includes the House direction for a report regarding underrepresented college minorities in science, technology, engineering, and mathematics areas.

In order to increase transparency and accountability across all Science activities, the Department is directed, not later than September 1, 2012, to create a performance ranking of all ongoing multi-year research projects across the six major Science research programs, including those at universities, national laboratories, Energy Frontier Research Centers, Energy Innovation Hubs and other recipients, by comparing current performance with original project goals. The report shall include an inventory of the number and dollar amount of awards that have been terminated in fiscal years 2011 and 2012 before their multi-year awards have concluded.

The conferees direct the Department to provide to the House and Senate Committees on Appropriations, not later than February 10, 2012, a budget scenario for fiscal years 2013 and 2014 with the Office of Science funded at the fiscal year 2012 level, highlighting funding levels for each major program and project, including activities, such as ITER, with scheduled changes in funding requirements.

**Advanced Scientific Computing Research.**—The conferees provide \$442,000,000 for Advanced Scientific Computing Research. The conferees support the exascale initiative, but note that future funding for the initiative is contingent upon delivery of the joint

exascale plan, as directed. The conferees provide the budget request for the Leadership Computing Facilities and for High Performance Production Computing, in support of continuing petascale upgrades at the three facilities.

**Basic Energy Sciences.**—The conference agreement provides \$1,694,000,000 for Basic Energy Sciences. The conference agreement includes \$24,300,000 to continue the Fuels from Sunlight Energy Innovation Hub, and \$20,000,000 to establish the Batteries and Energy Storage Energy Innovation Hub. The conference agreement includes up to \$100,000,000 for the existing Energy Frontier Research Centers; \$10,000,000 for predictive modeling of internal combustion engines; \$8,520,000 for the Experimental Program to Stimulate Competitive Research; and no funding for gas hydrates research within the Office of Science.

The conference agreement includes \$97,000,000 to fund each major item of equipment at the level provided in the budget request. Funding provided for the Linac Coherent Light Source II at SLAC is for the exploration and design of the two-tunnel option.

**Biological and Environmental Research.**—The conference agreement provides \$611,823,000 for Biological and Environmental Research. Within available funds, the conference agreement includes \$12,000,000 to continue nuclear medicine research with human application. The conferees direct the Department to report to the House and Senate Committees on Appropriations, not later than June 1, 2012, on the Administration's strategy to continue funding this research through more appropriate federal agencies with health-focused missions.

Within available funds, \$16,000,000 is provided for radiobiology to help determine health risks from exposures to low levels of ionizing radiation to properly protect radiation workers and the general public, and to conduct studies of health impacts at and around the Fukushima Daiichi nuclear plant.

**Fusion Energy Sciences.**—The conference agreement provides \$402,177,000 for Fusion Energy Sciences, of which not more than \$105,000,000 is for U.S. Contributions to ITER. The conference agreement includes \$24,741,000 for the High Energy Density Laboratory Plasma program, of which \$12,000,000 is to be evenly distributed among heavy-ion fusion, laser-driven fusion, and magneto-inertial fusion. The conference agreement includes direction for the submission of a 10-year fusion plan as provided by both the House and Senate.

**High Energy Physics.**—The conference agreement provides \$791,700,000 for High Energy Physics research.

The conferees understand that the United States has unique capabilities to develop a world-leading neutrino science program. To begin the transition to the intensity frontier, the conferees provide \$21,000,000 for the Long Baseline Neutrino Experiment, which includes \$17,000,000 for research and development and \$4,000,000 for project engineering and design. The conferees provide no funding for long-lead procurements or construction activities. The conferees are concerned that this project is not mature enough for construction because a location and technology for the underground detectors has not been selected. Before consideration of congressional approval of construction, the Department is directed to provide to the House and Senate Committees on Appropriations a detailed project plan and refined total cost estimate for construction, not later than April 1, 2012.

Within available funds, the conferees provide \$15,000,000 as requested, \$10,000,000 within High Energy Physics and \$5,000,000 within Nuclear Physics, to support minimal, sustaining operations at the Homestake Mine in South Dakota.

**Nuclear Physics.**—The conference agreement provides \$550,000,000 for Nuclear Physics. Within available funds, the conference agreement includes \$22,000,000 for the Facility for Rare Isotope Beams, and \$50,000,000 for the 12 GeV upgrade of the Continuous Electron Beam Accelerator Facility.

**Workforce Development for Teachers and Scientists.**—The conference agreement provides \$18,500,000 for Science Workforce Development. Within available funds, up to \$5,000,000 is for the graduate fellowship program to fund the existing cohort established in fiscal year 2010.

**Science Laboratories Infrastructure.**—The conference agreement provides \$111,800,000 for Science Laboratories Infrastructure.

**Safeguards and Security.**—The conference agreement provides \$82,000,000 for Safeguards and Security.

**Science Program Direction.**—The conference agreement provides \$185,000,000 for Science Program Direction. No funds shall be used to hire new site office personnel, except for field staff at the Integrated Support Centers in Chicago and Oak Ridge.

#### NUCLEAR WASTE DISPOSAL

The conference agreement provides \$25,000,000 for nuclear waste disposal, instead of \$25,000,000 as proposed by the House and \$0 as proposed by the Senate.

#### ADVANCED RESEARCH PROJECTS AGENCY—ENERGY

The conference agreement provides \$275,000,000 for the Advanced Research Projects Agency—Energy, of which \$20,000,000 is provided for Program Direction.

#### TITLE 17 INNOVATIVE TECHNOLOGY LOAN GUARANTEE PROGRAM

The conference agreement provides \$38,000,000 for administrative expenses for the Title 17 Innovative Loan Guarantee Program, as proposed by the House and Senate. This appropriation is fully offset by revenue, resulting in a \$0 net appropriation. The conference agreement includes no funding for new loan guarantees, instead of \$160,000,000 as proposed by the House and \$200,000,000 as proposed by the Senate.

#### ADVANCED TECHNOLOGY VEHICLES MANUFACTURING LOAN PROGRAM

The conference agreement provides \$6,000,000 for Advanced Technology Vehicles Manufacturing Loan Program, as proposed by the House and Senate.

#### DEPARTMENTAL ADMINISTRATION

The conference agreement provides \$237,623,000 for Departmental Administration as proposed by the Senate, instead of \$63,374,000 as proposed by the House. The conferees provide \$1,000,000 within available funds to contract with the National Academy of Public Administration (NAPA) for an independent review of the management and oversight of the Department's national laboratories. NAPA should consider such issues as whether existing laboratory performance metrics for the Department's management and operations contractors measure critical aspects of their performance and how the Department utilizes performance metrics and data. NAPA should coordinate with the GAO and the National Academy of Sciences over the course of its study to prevent duplication of effort by using the results of their studies to the extent that they are available. NAPA

should submit a report with its findings, conclusions, and recommendations no later than 9 months after the Department has contracted with NAPA pursuant to this directive.

#### OFFICE OF THE INSPECTOR GENERAL

The conference agreement provides \$42,000,000 for the Office of the Inspector General, instead of \$41,774,000 as proposed by the House and Senate.

#### ATOMIC ENERGY DEFENSE ACTIVITIES NATIONAL NUCLEAR SECURITY ADMINISTRATION

The National Nuclear Security Administration (NNSA), a semi-autonomous agency within the Department of Energy, manages the nation's nuclear weapons programs, nuclear nonproliferation programs, and naval reactors activities.

The conference agreement provides \$11,000,000,000 for the National Nuclear Security Administration.

**Warhead Life Extensions.**—The NNSA is directed to fully adhere to the new reporting requirements for early life extension activities contained in the House report beginning with submission of the fiscal year 2013 budget request, and to the reporting requirement for the B61 Life Extension Program in the Senate report within 3 months of enactment. In lieu of the JASON B61 study directed in the Senate report, if the NNSA's selected option for the B61 Life Extension Program includes any nuclear scope, the JASON group of scientific advisors shall submit an assessment by September 1, 2012, to the House and Senate Committees on Appropriations on the extent to which the nuclear scope is needed to enhance the safety, security, and maintainability of a refurbished B61 and whether changes to the weapon will affect its long-term safety, security, reliability, and military characteristics.

**Maintenance and Operations.**—The conferees support the guidance in the House and Senate reports to establish standardized direct reporting for facility and infrastructure maintenance costs at each site and to identify separate maintenance funding by site in the fiscal year 2014 budget request for Readiness in Technical Base and Facilities.

**Human Capital.**—In order to meet human capital requirements for the NNSA sites and to support the NNSA's strategic efforts to strengthen its science, technology, management and engineering base, the NNSA should provide incentives for its management and operations contractors, including those at the production sites, to work with universities and other institutions of higher education to develop programs that support graduate research assistantships, implement educational programs that meet NNSA technical needs, and implement workforce development initiatives.

#### WEAPONS ACTIVITIES

The conference agreement provides \$7,233,997,000 for Weapons Activities, instead of \$7,091,661,000 as proposed by the House and \$7,190,000,000 as proposed by the Senate.

**Directed Stockpile Work.**—The conference agreement provides \$1,879,527,000 for Directed Stockpile Work. The NNSA is directed to use \$175,000,000 within Stockpile Systems and \$64,000,000 within Stockpile Services for surveillance activities. If the NNSA accomplishes the planned scope of surveillance activities more efficiently than estimated, up to 10 percent of the \$175,000,000 and \$64,000,000 may be reallocated to other activities. The NNSA is directed to provide full funding within amounts provided for Management, Technology, and Production to implement

JASON Surety Study recommendations to counter current and future threats to the stockpile. The NNSA is further directed to adhere to the guidance in the Senate report to provide a report on maintaining a pit manufacturing capability to meet stockpile needs to the House and Senate Committees on Appropriations within 3 months of enactment of this Act.

The conference agreement provides \$223,562,000 for the B61 Life Extension Program, as requested. Of these funds, \$134,137,000 shall not be made available for the B61 Life Extension Program until the NNSA submits to the House and Senate Committees on Appropriations the outcome of the Phase 6.2/2A design definition and cost study. The conferees remain concerned about the NNSA's ability to execute its planned scope for the B61 under an affordable life extension program that will meet the requirement to refurbish the first unit by 2017.

The conference agreement provides \$99,518,000 for W78 Stockpile Systems as proposed by the House, which includes \$37,087,000 for a life extension study of the W78 because of delays in commencing the Phase 6.1 study. The conference agreement provides \$75,728,000 for W88 Stockpile Systems, which includes \$30,000,000 to commence a conceptual study for a minor refurbishment of the W88. The NNSA is directed to maintain separate accounting for the W78 and W88 studies and to identify those costs separately within the budget request for Stockpile Systems.

**Campaigns.**—The conference agreement provides \$1,701,982,000 for the science, technology and engineering campaigns. The conferees provide \$476,274,000 for the Inertial Confinement Fusion and High Yield Campaign, which includes \$62,500,000 for Omega at the University of Rochester, \$48,000,000 for the Z facility at Sandia National Laboratory, and \$5,000,000 for the Naval Research Laboratory, as requested.

**Readiness in Technical Base and Facilities.**—The conference agreement provides \$2,009,155,000 for Readiness in Technical Base and Facilities. No funding is provided for Institutional Site Support. Historically, the NNSA has used this funding line to mask underfunding in the request for individual site facility operations. More recently, it has pushed the costs of contractor pensions into this activity. Since the conference agreement fully funds operations and maintenance at each site and separately budgets for legacy pensions, this activity is no longer required. Infrastructure activities that are not site specific, such as headquarters contractor support and assessments, may be funded under Program Readiness.

**TRU Waste Facility.**—The conferees provide \$9,881,000 for Phase A of the TRU Waste Facility project, which consists of site infrastructure preparatory work. No Phase B activities are permitted until a project baseline is completed and provided to the House and Senate Committees on Appropriations.

**Chemistry and Metallurgy Research Replacement (CMRR) Project.**—The conference agreement provides \$200,000,000. No construction activities are funded for the CMRR-Nuclear Facility during fiscal year 2012.

**Legacy Contractor Pensions.**—The conference agreement provides \$168,232,000 for Legacy Contractor Pensions to meet the ongoing costs of the University of California contractor defined benefit pension plans. The NNSA requested these funds within Readiness in Technical Base and Facilities and a separate line is provided to improve transparency.

**National Security Applications.**—The conference agreement provides \$10,000,000, for Advanced Analysis, Tools, and Technologies activities to continue improved support to the intelligence community and to maintain the nuclear technical capabilities for nuclear weapons assessments.

#### DEFENSE NUCLEAR NONPROLIFERATION

##### (INCLUDING RESCISSION OF FUNDS)

The conference agreement provides \$2,324,303,000 for Defense Nuclear Nonproliferation, instead of \$2,091,770,000 as proposed by the House and \$2,383,300,000 as proposed by the Senate, and rescinds \$21,000,000, as proposed by the Senate.

**Nonproliferation and Verification Research and Development.**—The conference agreement provides \$356,150,000 for Nonproliferation and Verification Research and Development. Within this amount, the conferees provide \$132,800,000 for Nuclear Detonation Detection, which includes an additional \$5,700,000 above the request for underground, underwater, and atmospheric detonation detection. The request included \$55,823,000 for legacy contractor pensions that are provided separately, as well as an additional \$15,625,000 above program needs to meet anticipated growth in contractor defined benefit pension plan costs that are no longer needed.

**Nonproliferation and International Security.**—The conference agreement provides \$155,305,000 for Nonproliferation and International Security. Within this amount, the conferees provide \$14,972,000 for the Global Initiative for Proliferation Prevention.

**Fissile Materials Disposition.**—The conference agreement provides \$685,386,000 for Fissile Materials Disposition. The conferees provide no construction funding for the Pit Disassembly and Conversion (PDCF) project because the NNSA has not completed a study of alternatives or a conceptual design report with a cost and schedule estimate that is required under Department of Energy guidance. Instead of the Senate requirement for an update of the costs for the PDCF and the MOX Fuel Fabrication Facility, the conferees direct the NNSA to provide a report on the status of plans to provide adequate plutonium feedstock to operate the MOX facility to the House and Senate Committees on Appropriations within 3 months of enactment of this Act. The conferees direct the use of \$20,500,000 in prior-year uncommitted balances within U.S. Plutonium Disposition to prepare plutonium feedstock at H-Canyon in fiscal year 2012 and to identify funding for both H-Canyon and ARIES within the fiscal year 2013 budget request.

**Global Threat Reduction Initiative.**—The conference agreement provides \$500,000,000 for the Global Threat Reduction Initiative. The conference agreement does not include House direction which restricts funding for Domestic Radiological Material Removal.

**Legacy Contractor Pensions.**—The conference agreement provides \$55,823,000 for Legacy Contractor Pensions to meet the ongoing costs of the legacy University of California defined benefit pension plans. The NNSA requested these funds within Nonproliferation and Verification Research and Development and a separate line is provided to improve transparency.

**Rescission.**—The conference agreement rescinds \$21,000,000 in prior-year balances and directs their application to meet fiscal year 2012 needs as described above.

#### NAVAL REACTORS

The conference agreement provides \$1,080,000,000 for Naval Reactors, instead of

\$1,030,600,000 as proposed by the House and \$1,100,000,000 as proposed by the Senate. The conference agreement does not include House language directing a transition to budgeting by ship system. Funding for Naval Reactors Operations and Maintenance is provided under the following control points starting in fiscal year 2012, in order to improve the transparency of the major multi-year initiatives and to distinguish the cost of operations and infrastructure from the cost of research and development.

**OHIO Replacement Reactor Systems Development.**—The conference agreement provides \$121,300,000 as requested.

**S8G Prototype Refueling.**—The conference agreement provides \$99,500,000 as requested.

**Naval Reactors Development.**—The conference agreement provides \$421,000,000.

**Naval Reactors Operations and Infrastructure.**—The conference agreement provides \$358,300,000, which includes funding for conceptual design of the Spent Fuel Infrastructure Recapitalization Project at Idaho in order to continue critical path activities.

#### OFFICE OF THE ADMINISTRATOR

The conference agreement provides \$410,000,000 for the Office of the Administrator, instead of \$400,000,000 as proposed by the House and \$404,000,000 as proposed by the Senate. The conference agreement includes the requested amount of \$6,000,000 for Weapons, \$3,000,000 for Defense Nuclear Nonproliferation, and \$1,000,000 for Naval Reactors to engage Historically Black Colleges and Universities, and further directs the engagement of Hispanic Serving Institutions and minority outreach at other colleges and universities.

The conferees are concerned with overlap and duplication between the NNSA Office of Congressional Affairs, the Department of Energy (DOE) Office of Congressional Affairs, and the DOE Chief Financial Officer's External Coordination office (CFO ExCo). The conferees believe that the CFO ExCo can provide appropriate liaison support to the Committees on Appropriations and that one consolidated Congressional Affairs office can provide adequate support to the rest of the legislative branch. The conferees direct the Department to propose a consolidation of the NNSA Congressional Affairs functions into DOE's CFO ExCo, Office of Congressional Affairs, or a combination of both, within 60 days of enactment of this Act. Such consolidation should provide \$1-2 million in budgetary savings.

#### ENVIRONMENTAL AND OTHER DEFENSE ACTIVITIES

##### DEFENSE ENVIRONMENTAL CLEANUP

The conference agreement provides \$5,023,000,000 for the Defense Environmental Cleanup program, instead of \$4,937,619,000 as proposed by the House and \$5,002,308,000 as proposed by the Senate. Within the amounts provided, the Department is directed to fund hazardous waste worker training at \$10,000,000. The conferees direct the Department to adhere to the House requirement to report all operating projects with a total project cost greater than \$10,000,000 no later than 90 days after enactment of this Act.

**Hanford Site.**—The conference agreement provides \$953,252,000 for the Hanford Site, including \$19,540,000 for Richland community and regulatory support. Within this amount, funding is provided for the Hazardous Materials Management and Emergency Response facilities. The conferees provide \$68,458,000 to accelerate cleanup of the Plutonium Finishing Plant.

**Idaho National Laboratory.**—The conference agreement provides \$386,869,000 for Idaho Na-

tional Laboratory cleanup activities, including \$4,100,000 for Idaho community and regulatory support.

**NNSA Sites.**—The conference agreement provides \$282,393,000 for cleanup activities at NNSA sites, including funding for community and regulatory support. Within this amount, the conferees provide \$873,000 for Lawrence Livermore National Laboratory, \$65,945,000 for the Nevada Test Site, \$3,014,000 for Sandia National Laboratories, \$188,561,000 for Los Alamos National Laboratory, and \$24,000,000 to stabilize work at the Separations Process Research Unit following damages that resulted from Hurricane Irene.

**Oak Ridge Reservation.**—The conference agreement provides \$199,509,000 for the Oak Ridge Reservation, including \$6,409,000 for community and regulatory support.

**Office of River Protection.**—The conference agreement provides \$1,185,000,000 for the Office of River Protection.

**Savannah River Site.**—The conference agreement provides \$1,193,822,000 for cleanup activities at the Savannah River Site, including \$9,584,000 for community and regulatory support.

**Waste Isolation Pilot Plant.**—The conference agreement provides \$215,134,000 for the Waste Isolation Pilot Plant. No funding is provided for voluntary payments of economic assistance.

**Use of prior-year balances.**—The conference agreement directs the use of \$3,381,000 in prior-year balances to meet fiscal year 2012 needs as described above.

#### OTHER DEFENSE ACTIVITIES

The conference agreement provides \$823,364,000 for Other Defense Activities, instead of \$814,000,000 as proposed by the House and \$819,000,000 as proposed by the Senate.

**Office of Health, Safety, and Security.**—The conference agreement provides \$437,436,000 for the Office of Health, Safety, and Security. Within this amount, \$186,699,000 is provided for Specialized Security Activities.

#### POWER MARKETING ADMINISTRATIONS

##### BONNEVILLE POWER ADMINISTRATION FUND

The conference agreement provides no appropriation for the Bonneville Power Administration, which derives its funding from revenues deposited into the Bonneville Power Administration Fund. The Act includes a provision regarding funds for official reception and representation expenses as proposed by the Senate. The House proposed a similar provision.

##### OPERATION AND MAINTENANCE, SOUTHEASTERN POWER ADMINISTRATION

The conference agreement provides a net appropriation of \$0 for the Southeastern Power Administration as proposed by the House and Senate. An additional \$1,000,000 is recorded separately as a scorekeeping adjustment.

##### OPERATION AND MAINTENANCE,

##### SOUTHWESTERN POWER ADMINISTRATION

The conference agreement provides a net appropriation of \$11,892,000 for the Southwestern Power Administration, as proposed by the House and Senate.

##### CONSTRUCTION, REHABILITATION, OPERATION AND MAINTENANCE, WESTERN AREA POWER ADMINISTRATION

The conference agreement provides a net appropriation of \$95,968,000 for the Western Area Power Administration, as proposed by the House and Senate. An additional \$3,000,000 is recorded separately as a scorekeeping adjustment.

##### FALCON AND AMISTAD OPERATING AND MAINTENANCE FUND

The conference agreement provides a net appropriation of \$220,000 for the Falcon and

Amistad Operating and Maintenance Fund, as proposed by the House and Senate. An additional \$1,000,000 is recorded separately as a scorekeeping adjustment.

#### FEDERAL ENERGY REGULATORY COMMISSION

##### SALARIES AND EXPENSES

The conference agreement provides \$304,600,000 for the Federal Energy Regulatory Commission (FERC), as proposed by the House and Senate. Revenues for FERC are set to an amount equal to the budget authority, resulting in a net appropriation of \$0. The Act does not include language proposed by the Senate directing a rulemaking.

The conferees are aware of significant local concerns with the process for developing, reviewing and approving shoreline management plans at Smith Mountain Lake and Lake of the Ozarks. As the licensees develop and FERC reviews and approves shoreline management plans, both parties must not only ensure the continued unimpeded operation of the project, but also recognize the rights and concerns of private property owners and local communities. The parties should develop innovative and mutually agreeable solutions to resolve conflicts among project purposes and private property, which should be implemented without delay. The conferees note that several options already exist for resolving such conflicts—such as realigning project boundaries, grandfathering non-conforming structures, or conveying the disputed property—and that the removal of private structures should only be required, if at all, when all other options are inadequate. The conferees direct FERC to review the shoreline management plan process to identify any improvements that could be made to address local concerns at each stage of the process and to submit to the appropriate congressional committees a report detailing any administrative changes to be undertaken as well as any recommended legislative changes that may be necessary.

#### GENERAL PROVISIONS—DEPARTMENT OF ENERGY

##### (INCLUDING RESCISSION AND TRANSFER OF FUNDS)

The conference agreement includes a modification to the House provision regarding reprogramming of funds. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House regarding workforce restructuring. The Senate proposed no similar provision. The conferees expect the Department to continue to follow the guidelines established by this provision.

The conference agreement includes a provision proposed by the House and Senate relating to unexpended balances.

The conference agreement includes a provision proposed by the Senate specifically authorizing intelligence activities pending enactment of the fiscal year 2012 Intelligence Authorization Act. The House proposed a similar provision.

The conference agreement does not include a House provision regarding Bonneville Power Administration energy efficiency services, although the conferees expect the BPA to continue to follow the guidelines established by that provision. The Senate proposed no similar provision.

The conference agreement includes a provision proposed by the Senate relating to a future-years energy program. The House proposed no similar provision.

The conference agreement does not include a provision proposed by the House and Senate directing the governance of user facilities. The conferees expect the Department to

continue to follow the guidelines established by this provision.

The conference agreement includes a provision proposed by the Senate relating to loan guarantee co-pay. The House proposed no similar provision.

The conference agreement does not include a provision proposed by the House that establishes certain limitations and requirements with respect to the transfer of funds by the Secretary of Energy to reimburse the costs of defined benefits pension plans for contractor employees. This provision is now contained in current law. The Senate proposed no similar provision.

The conference agreement includes a provision proposed by the House establishing estimated cost parameters for plant and construction activities for the purposes of sections 4703 and 4704 of the Atomic Energy Defense Act.

The conference agreement modifies a provision proposed by the Senate relating to the minor construction threshold for the Bonneville Power Administration. The House proposed no similar provision.

The conference agreement includes a provision proposed by the House that prohibits the use of funds in this title for capital construction of high hazard nuclear facilities,

unless certain independent oversight is conducted. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the Senate relating to the Ultra-Deepwater and Unconventional Natural Gas and Other Petroleum Research Fund. The House proposed no similar provision.

The conference agreement modifies a provision proposed by the Senate related to contractor pay freeze. The House proposed no similar provision.

The conference agreement includes a provision proposed by the House that prohibits the use of funds to approve critical decision-2 or critical decision-3 for certain construction projects, unless a separate independent cost estimate has been developed for that critical decision.

The conference agreement modifies a provision proposed by the House that establishes certain notification requirements that must be fulfilled before any funds may be used to make certain awards, allocations, agreements, or public announcements. The Senate proposed no similar provision.

The conference agreement includes a provision proposed by the Senate relating to the

barter of uranium. The House proposed no similar provision.

The conference agreement does not include a provision relating to loan guarantee notifications. The Senate proposed no similar provision.

The conference agreement includes a provision proposed by the House regarding the weatherization program eligibility cap. The Senate proposed no similar provision.

The conference agreement includes a provision proposed by the Senate on lighting standards. The House proposed no similar provision.

The conference agreement includes a provision proposed by the House prohibiting funds to implement or enforce higher efficiency light bulb standards. The Senate proposed no similar provision.

The conference agreement modifies a provision proposed by the Senate relating to the third-party use of metering stations for the Strategic Petroleum Reserve. The House proposed no similar provision.

The conference agreement does not include a provision proposed by the House relating to significant regulatory actions. The Senate proposed no similar provision.

## TITLE IV

## INDEPENDENT AGENCIES

## APPALACHIAN REGIONAL COMMISSION

The conference agreement provides \$68,263,000 for the Appalachian Regional Commission, instead of \$68,400,000 as proposed by the House and \$58,024,000 as proposed by the Senate.

DEFENSE NUCLEAR FACILITIES SAFETY BOARD  
SALARIES AND EXPENSES

The conference agreement provides \$29,130,000 for the Defense Nuclear Facilities Safety Board, as proposed by the House and Senate. The conferees direct the Board to enter into an agreement for fiscal years 2012 and 2013 with the Office of Inspector General for the Nuclear Regulatory Commission. The conferees direct the Board to enter into an enduring procurement with a provider of inspector general services thereafter.

DELTA REGIONAL AUTHORITY  
SALARIES AND EXPENSES

The conference agreement provides \$11,677,000 for the Delta Regional Authority, instead of \$11,700,000 as proposed by the House and \$9,925,000 as proposed by the Senate.

## DENALI COMMISSION

The conference agreement provides \$10,679,000 for the Denali Commission, instead of \$10,700,000 as proposed by the House and \$9,077,000 as proposed by the Senate.

## NORTHERN BORDER REGIONAL COMMISSION

The conference agreement provides \$1,497,000 for the Northern Border Regional Commission, instead of \$1,350,000 as proposed by the House and \$1,275,000 as proposed by the Senate.

## SOUTHEAST CRESCENT REGIONAL COMMISSION

The conference agreement provides \$250,000 for the Southeast Crescent Regional Commission, as proposed by the House, instead of \$213,000 as proposed by the Senate.

NUCLEAR REGULATORY COMMISSION  
SALARIES AND EXPENSES

The conference agreement provides \$1,027,240,000 for the Nuclear Regulatory Commission (NRC) salaries and expenses, as proposed by the Senate, instead of \$1,037,240,000 as proposed by the House. This amount is offset by estimated revenues of \$899,726,000, resulting in a net appropriation of \$127,514,000. The fee recovery is consistent with that authorized by section 637 of the Energy Policy Act of 2005. The conference agreement does not include \$20,000,000 to be made available from the Nuclear Waste Fund to support the geological repository for nuclear fuel and waste, as proposed by the House. The Senate proposed no similar provision.

The conference agreement includes a National Academy of Sciences study of the lessons learned from the events at the Fukushima nuclear plant, as proposed by the Senate. The Commission is directed to transfer \$2,000,000 to the National Academy of Sciences for this study within 30 days of enactment of this Act.

The conference agreement includes \$15,000,000, as proposed by the House, to support university education programs relevant to the NRC mission, of which not less than \$5,000,000 is for grants to support research projects that do not align with programmatic missions but are critical to maintaining the discipline of nuclear science and engineering.

The conferees recognize the progress that the Nuclear Regulatory Commission has

made on the recommendations of the Near Term Task Force. Commission staff has proposed a prioritized list of the Task Force recommendations that reflects the order regulatory actions are to be taken. The conferees direct the Commission to implement these recommendations consistent with, or more expeditiously than, the "schedules and milestones" proposed by NRC staff on October 3, 2011. The conferees direct the Commission to maintain an implementation schedule such that the remaining recommendations (not identified as Tier 1 priorities) will be evaluated and acted upon as expeditiously as practicable. The conferees request that the Commission provide a written status report to the House and Senate Committees on Appropriations on its implementation of the Task Force recommendations on the one year anniversary of the Fukushima disaster.

## OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$10,860,000 for the Office of the Inspector General in the Nuclear Regulatory Commission, as proposed by the House and Senate. This amount is offset by revenues of \$9,774,000, for a net appropriation of \$1,086,000.

NUCLEAR WASTE TECHNICAL REVIEW BOARD  
SALARIES AND EXPENSES

The conference agreement provides \$3,400,000 for the Nuclear Waste Technical Review Board, as proposed by the House and Senate.

OFFICE OF THE FEDERAL COORDINATOR FOR  
ALASKA NATURAL GAS TRANSPORTATION  
PROJECTS

The conference agreement provides \$1,000,000 for the Office of the Federal Coordinator for Alaska Natural Gas Transportation Projects, as proposed by the Senate, instead of \$4,032,000 as proposed by the House. The conference agreement does not include a House provision addressing excess fees.

GENERAL PROVISIONS—INDEPENDENT  
AGENCIES

The conference agreement modifies a provision proposed by the House relating to the Nuclear Regulatory Commission. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the Senate relating to spent fuel pools. Language addressing this issue is included under the heading "Nuclear Regulatory Commission—Salaries and Expenses" in the Statement of Managers.

The conferees include a modified Senate provision regarding certain NRC requirements. The House proposed no similar provision. The conferees intend that licensees proactively evaluate new information and, where necessary, improve their facilities to keep them current with all NRC requirements relevant to their licenses, including all updates, and urge the NRC to continue its efforts to ensure all license requirements are updated to incorporate the latest knowledge of external hazards facing each site.

## TITLE V

## GENERAL PROVISIONS

The conference agreement includes a provision proposed by the House and Senate relating to lobbying restrictions.

The conference agreement includes a provision proposed by the House and Senate relating to transfer authority.

The conference agreement does not include a provision proposed by the House prohibiting funds to be provided in contravention of section 6(b) of the Iran Sanctions Act. The Senate proposed no similar provision. The conferees direct the Administration to continue to follow these requirements.

The conference agreement includes a provision proposed by the House requiring new federal hires to be vetted through the E-Verify Program. The Senate proposed no similar provision.

The conference agreement modifies a provision proposed by the House prohibiting the government from entering into contracts or agreements with any corporation that was convicted of a felony criminal violation under any federal law within the preceding 24 months. The Senate proposed no similar provision.

The conference agreement modifies a provision proposed by the House prohibiting funds for contracts or agreements with entities with unpaid federal tax liabilities that have not entered into payment agreements to remedy the liability. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House regarding the amount within the Spending Reduction Account. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House relating to the use of firearms on Corps of Engineers land. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House prohibiting funds made available for the Science account to be used in contravention of the Department of Energy Organization Act. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House relating to the McNary Shoreline Management Plan. The Senate proposed no similar provision. The conferees note that concerns remain regarding the most recent plan and direct the Corps to continue working with residents to address these issues.

The conference agreement does not include a provision proposed by the House prohibiting the use of funds to move the Office of Environmental Management under the Under Secretary for Nuclear Energy of the Department of Energy. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House relating to the lease or purchase of new light duty vehicles. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House relating to reintroduction of salmon in the San Joaquin River. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House prohibiting funds to enforce section 526 of the Energy Independence and Security Act. The Senate proposed no similar provision. The conferees agree that increased energy self-sufficiency is an important national goal and the Department of Energy should continue to focus on research, development and government procurements that further progress towards that end.

The conference agreement does not include a provision proposed by the House prohibiting development of a proposal to expand the authorized uses of the Harbor Maintenance Trust Fund. The Senate proposed no similar provision. The conferees support language in the House report opposing the diversion of revenue from existing authorized purposes, namely maintenance dredging, and in light of widespread congressional opposition to the budget proposal, suggest a wiser course of action would be to focus on utilizing the annual receipts for additional harbor dredging work rather than allowing the

balance in the Trust Fund to continue to increase.

The conference agreement does not include a provision proposed by the House prohibiting funds for International activities at the Office of Energy Efficiency and Renewable Energy of the Department of Energy in China. The Senate proposed no similar provision.

The conference agreement includes a provision proposed by the House prohibiting funds to be used in contravention of the executive order entitled "Federal Actions to Address Environmental Justice in Minority Populations and Low-Income Populations". The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House transferring funds between accounts for the Department of Energy. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House transferring funds between accounts for the Corps of Engineers. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House prohibiting salaries for recess-appointed Presidential appointees who fall under certain exemptions to Senate confirmation. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House prohibiting funds for International activities of the Office of Energy Efficiency and Renewable Energy at the Department of Energy, except for the U.S.-Israel program. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House prohibiting funds in this bill from being used to close the Yucca Mountain license applica-

tion process until a specific condition is met or for actions that would remove the possibility that Yucca Mountain might be an option in the future. The Senate proposed no similar provision.

The conference agreement does not include a provision proposed by the House prohibiting funds to implement any new requirement regarding the disclosure of political contributions. The Senate proposed no similar provision.

#### TITLE V/VI

#### EMERGENCY SUPPLEMENTAL FUNDING FOR DISASTER RELIEF

The conference agreement does not include funding for the Corps of Engineers for disaster-related work as proposed in Title V of the House bill and Title VI of the Senate bill. Additional funding to address these needs will be considered separately.

**DIVISION C—FINANCIAL SERVICES AND GENERAL GOVERNMENT APPROPRIATIONS ACT, 2012**

References in this statement to the Senate bill are to the bill (S. 1573) as reported to the Senate by the Committee on Appropriations on September 15, 2011 (S. Rept. 112-79). References to the House bill are to the bill (H.R. 2434) as reported to the House by the Committee on Appropriations on July 7, 2011 (H. Rept. 112-136).

Language included in House Report 112-36 or Senate Report 112-79 that is not changed by this joint explanatory statement is approved by the committee of conference. This explanatory statement, while repeating some report language for emphasis, is not intended to negate the language in the referenced House and Senate committee reports unless expressly provided herein.

Where the House or Senate has directed submission of a report, that report is to be submitted to the Committees on Appropriations of both the House of Representatives and the Senate.

**TITLE I**

**DEPARTMENT OF THE TREASURY  
DEPARTMENTAL OFFICES  
SALARIES AND EXPENSES**

The conference agreement provides \$308,388,000 for departmental offices salaries and expenses, instead of \$185,749,000 as proposed by the House and \$306,388,000 as proposed by the Senate.

Within the amount provided under this heading, the conference agreement provides \$100,000,000 for the Office of Terrorism and Financial Intelligence and within that amount no more than \$26,608,000 for administrative expenses. The conference agreement also provides full funding for the Secretary's security and travel, both domestic and international (including civilian and military).

*Judgment Fund.*—The conferees adopt the House report language regarding the Judgment Fund, except that the first report is due within 180 days of enactment of this Act and annually thereafter.

*Volcker Rule.*—The conferees note that consistent with Public Law 111-203, the appropriate Federal banking regulators and the U.S. Securities and Exchange Commission proposed regulations implementing the "Volcker Rule," and the U.S. Commodity Futures Trading Commission is expected to propose a similar rule, that appropriately accommodates the business of insurance by permitting trading by a regulated insurance company for its general account. These accommodations are subject to subsections (d)(1)(F) and (d)(2)(A) of section 13 (or "sections 13(d)(1)(F) and 13(d)(2)(A)") of the Bank Holding Company Act of 1956.

*Economic Sanctions and Divestments.*—The conferees direct the Department to fully implement the sanctions and divestment measures applicable to North Korea, Burma, Belarus, Iran, Sudan, and Zimbabwe. The Department is further directed to promptly notify the Appropriations Committees of any resource constraints that adversely impact the implementation of these sanctions programs.

*Management of Capital Investments.*—The conferees reiterate the Senate report language regarding management of capital investments and direct the Department to continue improving the management of capital investments, specifically focusing on integrating all of the Department's bureaus into improvement efforts and institutionalizing improvements so that taxpayers will benefit from better management of future capital

projects. The conferees note that section 121 of this Act requires the Secretary of the Treasury to develop an annual Capital Investment Plan, to be submitted to the Committees on Appropriations of the Senate and the House of Representatives within 30 days following submission of the President's annual budget request. The conferees direct the Office of the Chief Information Officer to ensure that adequate resources are devoted both to projects in the capital phase and to proper maintenance and modernization of existing systems and to ensure that all projects are tracked properly and described completely in the annual Capital Investment Plan.

**OFFICE OF INSPECTOR GENERAL  
SALARIES AND EXPENSES**

The conference agreement provides \$29,641,000 for the Office of Inspector General as proposed by the House and the Senate.

**TREASURY INSPECTOR GENERAL FOR TAX  
ADMINISTRATION  
SALARIES AND EXPENSES**

The conference agreement provides \$151,696,000 for salaries and expenses of the Treasury Inspector General for Tax Administration as proposed by the House and the Senate.

**SPECIAL INSPECTOR GENERAL FOR THE  
TROUBLED ASSET RELIEF PROGRAM  
SALARIES AND EXPENSES**

The conference agreement provides \$41,800,000 for salaries and expenses of the Office of the Special Inspector General for the Troubled Asset Relief Program (SIGTARP) as proposed by the Senate, instead of \$41,801,000 as proposed by the House.

**FINANCIAL CRIMES ENFORCEMENT NETWORK  
SALARIES AND EXPENSES**

The conference agreement provides \$110,788,000 for salaries and expenses of the Financial Crimes Enforcement Network (FinCEN), as proposed by the House and the Senate.

The conferees reiterate the House and Senate language rejecting the Administration's proposed \$3 million in reductions for State and local and intelligence community access to Bank Secrecy Act information and the Senate language rejecting the Administration's proposal to fund a portion of FinCEN's needs in fiscal year 2012 using proceeds from the Treasury Forfeiture Fund.

**TREASURY FORFEITURE FUND  
(RESCISSION)**

The conference agreement includes a rescission of \$950,000,000 of the unobligated balances in the Treasury Forfeiture Fund.

The funds collected, disbursed and rescinded out of the Treasury Forfeiture Fund (the Fund) are incidental to law enforcement priorities that led to the seizures and forfeitures. Disrupting and dismantling criminal organizations that pose the greatest threat to public safety and security is the highest priority of any law enforcement agency. The Fund can ensure resources are managed efficiently to cover the costs of an effective asset seizure and forfeiture program, including the costs of seizing, evaluating, inventorying, maintaining, protecting, advertising, forfeiting and disposing of property, but it must not be used to augment agency funding or to circumvent the appropriations process. Reliance on the Fund to offset the day-to-day operations, or to pay for new activities, creates an incentive to pursue cases suspected of high valued forfeitures rather than to target individuals or organizations that perpetrate the worst crimes against society.

In addition to the Department of Treasury, the Department of Homeland Security is the other primary participant in the Fund since it does not have the authority or expertise to operate its own forfeiture fund. In fiscal year 2010, the Department of Homeland Security activities resulted in approximately 30 percent of the collections to the Fund and accounted for approximately 50 percent of the costs incurred by the Fund. In recent years, the available balances in the Fund have increased as the Federal Government has taken enforcement actions against large banks, increasing the surplus funding available. This surplus funding can either be used to fund law enforcement expenses to enhance forfeiture capabilities, be held in reserve or be rescinded. In considering the allocation of super surplus balances or rescission of resources in the Fund, the conferees direct the Administration not to use a formulaic approach where agencies that conduct seizures automatically get to spend or rescind surplus balances. The resources in the Fund should not be considered a "bounty" for the collecting agencies. Future proposed rescissions and super surplus spending requests should be based on programmatic need and funding priorities not a predetermined formula. Using a formulaic approach, such as distributing super surplus funds and rescissions in proportion to an agency's collections, would distort the role of the Fund.

**FINANCIAL MANAGEMENT SERVICE  
SALARIES AND EXPENSES**

The conference agreement provides \$217,805,000 for salaries and expenses of the Financial Management Service as proposed by the Senate instead of \$216,617,000 as proposed by the House.

**ALCOHOL AND TOBACCO TAX AND TRADE  
BUREAU  
SALARIES AND EXPENSES**

The conference agreement provides \$99,878,000 for salaries and expenses of the Alcohol and Tobacco Tax and Trade Bureau as proposed by the Senate instead of \$96,899,000 as proposed by the House. Within this amount, \$2,000,000 is for the cost of special law enforcement agents to target tobacco smuggling and other criminal diversion activities.

**UNITED STATES MINT**

**UNITED STATES MINT PUBLIC ENTERPRISE FUND**

The conference agreement provides that not more than \$20,000,000 in new liabilities and obligations may be incurred during fiscal year 2012 for circulating coinage and protective service capital investments of the U.S. Mint, as proposed by the House and the Senate.

**BUREAU OF THE PUBLIC DEBT  
ADMINISTERING THE PUBLIC DEBT**

The conference agreement provides \$173,635,000 for costs associated with administering the public debt, as proposed by the Senate instead of the \$171,979,000 as proposed by the House. Within this amount, \$10,000,000 is available until September 30, 2014, to reduce improper payments. The conference agreement further directs that \$8,000,000 in user fees be used to offset the appropriated amounts.

**COMMUNITY DEVELOPMENT FINANCIAL  
INSTITUTIONS FUND PROGRAM ACCOUNT**

The conference agreement provides \$221,000,000 for the Community Development Financial Institutions (CDFI) Fund program.

The conference agreement waives the matching fund requirement for the Small and/or Emerging CDFI applicants (SECA)

and the Native Initiatives for only one year. SECAs are insured depository institutions and depository institution holding companies with total assets up to \$250 million, insured credit unions with total assets up to \$10 million, venture capital funds with total assets up to \$10 million, or other type of certified/certifiable CDFI with total assets up to \$5 million as of September 30, 2011, or began operations on or after January 1, 2008.

The conference agreement designates no funding for the Bank on USA Initiative.

#### INTERNAL REVENUE SERVICE TAXPAYER SERVICES

The conference agreement provides \$2,239,703,000 for Internal Revenue Service (IRS) Taxpayer Services. Within the overall amount, not less than \$9,750,000 is for low-income taxpayer clinic grants, and not less than \$5,600,000 is for the Tax Counseling for the Elderly program. Not less than \$205,000,000 is provided for operating expenses of the IRS Taxpayer Advocate Service.

In addition, within the overall amount provided, \$12,000,000, available until September 30, 2013, is included for the Community Volunteer Income Tax Assistance (VITA) matching grants program.

#### ENFORCEMENT

The conference agreement provides \$5,299,367,000 for Enforcement.

#### OPERATIONS SUPPORT

The conference agreement provides \$3,947,416,000 for Operations Support.

*Information Technology Reports.*—The conferees direct the IRS to submit quarterly reports to the Committees on Appropriations and the Government Accountability Office (GAO), with the first such report due no later than two weeks after March 31, 2012. The conferees expect the reports to include a detailed, plain English explanation of the cost and schedule for the previous three months and a description of the expected cost and schedule for the upcoming three months for the following major information technology project activities: IRS.gov; Returns Remittance Processing; EDAS/IPM; Information Returns and Document Matching; E-services; and other projects associated with significant changes in law. The conferees further direct GAO to review and provide an annual report to the Committees on the cost and schedule of activities of all major IRS information technology projects for the year, with particular focus on the projects about which the IRS is providing quarterly reports to the Committees.

#### BUSINESS SYSTEMS MODERNIZATION

The conference agreement provides \$330,210,000 for Business Systems Modernization (BSM).

*Information Technology Reports.*—The conferees direct the IRS to submit quarterly reports to the Committees on Appropriations and the Government Accountability Office (GAO), with the first such report due no later than two weeks after March 31, 2012. The conferees expect the reports to include a detailed, plain English explanation of the cost and schedule of CADE2 and MeF activities for the previous three months and a description of the expected cost and schedule for the upcoming three months. The conferees further direct GAO to review and provide an annual report to the Committees on the cost and schedule of CADE2 and MeF activities for the year.

#### ADMINISTRATIVE PROVISIONS—INTERNAL REVENUE SERVICE

##### (INCLUDING TRANSFER OF FUNDS)

The conferees agree to the following provisions:

Section 101 provides transfer authority.

Section 102 requires the IRS to maintain training in taxpayer rights.

Section 103 requires the IRS to safeguard taxpayer information and to protect taxpayers against identity theft.

Section 104 permits funding for 1-800 help line services for taxpayers and directs the Commissioner to make improving phone service a priority.

#### ADMINISTRATIVE PROVISIONS—DEPARTMENT OF THE TREASURY

##### (INCLUDING TRANSFERS OF FUNDS)

The conferees agree to the following provisions:

Section 105 allows Treasury to use funds for certain specified expenses.

Section 106 allows for the transfer of up to 2 percent of funds between "Departmental Offices" and the various Treasury bureaus, except the IRS.

Section 107 allows for the transfer of up to 2 percent from the IRS accounts to TIGTA.

Section 108 directs that the purchase of vehicles be consistent with vehicle management principles.

Section 109 prohibits funding to redesign the \$1 note.

Section 110 allows for the transfer of funds from "Financial Management Service, Salaries and Expenses" to the Debt Collection Fund conditional on future reimbursement.

Section 111 extends a pay demonstration program for one year.

Section 112 prohibits funds to build a United States Mint museum without the approval of the House and Senate Committees on Appropriations and the authorizing committees of jurisdiction.

Section 113 prohibits funding for consolidating the functions of the United States Mint and the Bureau of Engraving and Printing without the approval of the House and Senate Committees on Appropriations and the authorizing committees of jurisdiction.

Section 114 specifies that funds for Treasury intelligence activities are deemed to be specifically authorized until enactment of the fiscal year 2012 intelligence authorization act.

Section 115 permits the Bureau of Engraving and Printing to use up to \$5,000 from the Industrial Revolving Fund for reception and representation expenses.

Section 116 removes the 4 year limit on currency paper contracts.

Section 117 requires persons who exchange \$10,000 or more in mutilated cash to provide the Bureau of Engraving and Printing with a taxpayer identification number.

Section 118 concerns disclosure prohibitions with regards to FinCEN activities.

Section 119 concerns disclosure of FinCEN activities.

Section 120 provides FinCEN with access to certain reports of cash payments that are only filed with the IRS.

Section 121 requires the Secretary to submit a Capital Investment Plan.

#### TITLE II

#### EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

##### COMPENSATION OF THE PRESIDENT

The conference agreement provides \$450,000 for compensation of the President as proposed by the Senate. The House proposed funding this mandatory cost as a general provision.

##### THE WHITE HOUSE

##### SALARIES AND EXPENSES

The conference agreement provides \$56,974,000 for the salaries and expenses of the

White House, instead of \$55,513,000 as proposed by the House and \$57,851,000 as proposed by the Senate.

The conferees note that a lengthy clearance process at the Executive Office of the President (EOP) often delays submission of information requested by the Committees on Appropriations. The conferees expect EOP to respond to such requests in a timely manner because such information is critical to the Committees' ability to make informed budgetary decisions. In that regard, the conferees have encountered particular difficulty in receiving timely and comprehensive responses to requests for information from the Office of National Drug Control Policy (ONDCP) and therefore, direct EOP to remedy this issue. Language has also been included on this topic in the ONDCP section.

#### EXECUTIVE RESIDENCE AT THE WHITE HOUSE

##### OPERATING EXPENSES

The conference agreement provides \$13,425,000 for the Executive Residence at the White House, instead of \$12,989,000 as proposed by the House and \$13,536,000 as proposed by the Senate.

#### WHITE HOUSE REPAIR AND RESTORATION

The conference agreement provides \$750,000 for repair, alteration and improvement of the Executive Residence at the White House, instead of \$1,000,000 as proposed by the House and \$990,000 as proposed by the Senate.

#### COUNCIL OF ECONOMIC ADVISERS

##### SALARIES AND EXPENSES

The conference agreement provides \$4,192,000 for the salaries and expenses of the Council of Economic Advisers as proposed by the Senate, instead of \$3,982,000 as proposed by the House.

#### NATIONAL SECURITY COUNCIL AND HOMELAND

##### SECURITY COUNCIL

##### SALARIES AND EXPENSES

The conference agreement provides \$13,048,000 for the salaries and expenses of the National Security Council and Homeland Security Council as proposed by the Senate, instead of \$12,396,000 as proposed by the House.

#### OFFICE OF ADMINISTRATION

##### SALARIES AND EXPENSES

The conference agreement provides \$112,952,000 for the salaries and expenses of the Office of Administration, instead of \$109,297,000 as proposed by the House and \$114,908,000 as proposed by the Senate. The conference agreement includes \$10,403,000, to remain available until expended, for information technology modernization.

#### OFFICE OF MANAGEMENT AND BUDGET

##### SALARIES AND EXPENSES

The conference agreement provides \$89,456,000 for the salaries and expenses of the Office of Management and Budget (OMB), instead of \$82,575,000 as proposed by the House and \$90,833,000 as proposed by the Senate.

The conferees direct OMB to submit a report to the Committee within 120 days of enactment of this Act detailing current capabilities of and deficiencies in the Federal Government's core budgeting system.

In light of increased efforts to identify government-wide efficiencies and anticipate the cost of major infrastructure projects, the Committee instructs OMB to examine Circular A-94. The Committee expects OMB's review of Circular A-94 to include an examination of the potential to incorporate lifecycle cost analysis. Moreover, this analysis should be as accurate, complete and reflective of the real costs and lifespans of materials as possible, including the use of material-specific discount rates and maintenance

scheduled cost. OMB is directed to report to the Committee within 180 days of enactment of this Act on the status of reviewing Circular A-94. OMB should include appropriate experts in the field of life-cycle cost analysis, as well as appropriate industry experts and research centers.

The conferees believe that agency staffing decisions should be based on agency workload and the level of funds made available, rather than pre-determined formulaic reductions. Decisions to backfill vacant positions should be based on the number of staff with the combination of skills and qualifications necessary to carry out the agency's mission within available funding levels. The OMB Director shall report in February annually to the House and Senate Appropriations Committees on any agencies not adhering to the policies mentioned above.

The conferees direct OMB to issue guidance, consistent with section 735 of division D of the Omnibus Appropriations Act, 2009, Public Law 111-8, and section 739(a)(1) of division D of the Consolidated Appropriations Act, 2008 (Public Law 110-161), and section 327 of the 2008 National Defense Authorization Act (Public Law 110-181), regarding use of direct conversions to contract out, in whole or in part, activities or functions last performed by Federal employees.

The conferees expect OMB to honor the terms and conditions of appropriations Acts by not only reviewing reprogramming requests submitted to the Committees on Appropriations pursuant to the reprogramming conditions of this or any other Act, but also by reviewing agency activities for compliance with reprogramming conditions. With regard to section 608 of this Act, the conferees find that reimbursable agreements and other similar funding mechanisms utilized for the purpose of reallocating funding shall be considered a reprogramming of funds under such section. When determining the applicability of section 608, OMB and the agencies should consult with the Committees on Appropriations.

#### OFFICE OF NATIONAL DRUG CONTROL POLICY SALARIES AND EXPENSES

The conference agreement provides \$24,500,000 for salaries and expenses of the Office of National Drug Control Policy (ONDCP), instead of \$23,000,000 as proposed by the House and \$26,125,000 as proposed by the Senate.

The conferees note that a lengthy clearance process at the Executive Office of the President (EOP) often delays submission of information requested by the Committees on Appropriations. The conferees have encountered particular difficulty in receiving timely and comprehensive responses to requests for information from ONDCP. The conferees expect ONDCP to respond to such requests in a timely manner because such information is critical to the Committees' ability to make informed budgetary decisions. The conferees expect EOP to remedy this issue and improve ONDCP's responsiveness. Language has also been included on this topic under the White House Office account.

#### FEDERAL DRUG CONTROL PROGRAMS HIGH INTENSITY DRUG TRAFFICKING AREAS PROGRAM

(INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$238,522,000 for the High Intensity Drug Trafficking Areas Program as proposed by the House and the Senate.

#### OTHER FEDERAL DRUG CONTROL PROGRAMS (INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$105,550,000 for Other Federal Drug Control

Programs, instead of \$101,978,000 as proposed by the House and \$105,950,000 as proposed by the Senate. The agreement allocates funds among specific programs as follows:

National Youth Anti-Drug Media Campaign .....	\$0
Drug-Free Communities Program .....	92,000,000
(Training .....	2,000,000)
Drug court training and technical assistance .....	1,400,000
Anti-Doping activities .....	9,000,000
World Anti-Doping Agency (U.S. membership dues) .....	1,900,000
Discretionary Grants as authorized by PL 109-469, section 1105 .....	1,250,000
Performance Measures Development .....	0

The conference agreement provides no funding for the media campaign, as proposed by the House and the Senate. The conferees are supportive of a plan to preserve the substantial federal investment in anti-drug messaging and direct ONDCP to report to the Committees on Appropriations on the planned uses of the remaining unobligated balances for the media campaign not later than 180 days after enactment of this Act.

The conferees expect grant funding provided under ONDCP's Other Federal Drug Control Programs be awarded through a competitive process.

The conferees are troubled by ONDCP's decision-making in the management of unobligated balances. The President's budget proposed rescinding \$11,328,000 from the Counterdrug Technology Assessment Center. Despite this, ONDCP obligated \$6,083,361 of those balances. The conferees believe that ONDCP's decision to obligate funds that the President's budget proposed to rescind demonstrates an inability to effectively manage their funds.

#### INTEGRATED, EFFICIENT AND EFFECTIVE USES OF INFORMATION TECHNOLOGY (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$5,000,000 for this activity as proposed by the House, instead of no funds as proposed by the Senate. The conferees direct that information technology reform initiatives shall not be a substitute for consideration of agency requirements and the Executive Office of the President shall keep the Committees on Appropriations informed of changes in information technology spending plans.

#### UNANTICIPATED NEEDS

The conference agreement provides \$988,000 for unanticipated needs as proposed by the Senate. The House provided no funding for this activity.

#### SPECIAL ASSISTANCE TO THE PRESIDENT SALARIES AND EXPENSES

The conference agreement provides \$4,328,000 for salaries and expenses to enable the Vice President to provide special assistance to the President as proposed by the Senate, instead of \$4,322,000 as proposed by the House.

#### OFFICIAL RESIDENCE OF THE VICE PRESIDENT OPERATING EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$307,000 for operating expenses for the official residence of the Vice President as proposed by the House and the Senate.

#### ADMINISTRATIVE PROVISIONS—EXECUTIVE OFFICE OF THE PRESIDENT AND FUNDS APPROPRIATED TO THE PRESIDENT

(INCLUDING TRANSFERS OF FUNDS AND RESCISSIONS)

The conference agreement provides the following Administrative Provisions under this title:

Section 201 provides transfer authority among various Executive Office of the President accounts.

Section 202 requires OMB to submit a report on the implementation of Executive Order 13563 relating to improving regulation and regulatory review.

Section 203 requires OMB to report on the costs of implementing the Dodd-Frank Wall Street Reform and Consumer Protection Act (Public Law 111-203).

Section 204 requires a detailed narrative and financial plan for Office of National Drug Control Policy funds.

Section 205 provides transfer authority among Office of National Drug Control Policy accounts.

Section 206 governs reprogramming of Office of National Drug Control Policy funds.

Section 207 rescinds \$5,244,639 in unobligated prior year balances from the Counterdrug Technology Assessment Center.

Section 208 rescinds \$359,958 in unobligated prior year balances from Other Federal Drug Control Programs for a chronic users study and \$5,723,403 in unobligated prior year balances from Other Federal Drug Control Programs for a national youth anti-drug media campaign.

Section 209 extends the availability of funds under the Partnership Fund for Program Integrity Innovation. The conferees do not recommend additional funding for the Partnership Fund in fiscal year 2012 and direct the Administration to continue to leverage funds provided in fiscal year 2010 to continue the initiative during fiscal years 2012 and 2013.

#### TITLE III THE JUDICIARY

##### SUPREME COURT OF THE UNITED STATES SALARIES AND EXPENSES

The conference agreement provides \$74,819,000 for the salaries and expenses of the Supreme Court as proposed by the House and the Senate.

##### CARE OF THE BUILDING AND GROUNDS

The conference agreement provides \$8,159,000 for the care of the Supreme Court building and grounds as proposed by the House and the Senate.

##### UNITED STATES COURT OF APPEALS FOR THE FEDERAL CIRCUIT

##### SALARIES AND EXPENSES

The conference agreement provides \$32,511,000 for the salaries and expenses of the United States Court of Appeals for the Federal Circuit, instead of \$31,472,000 as proposed by the House and \$31,913,000 as proposed by the Senate.

##### UNITED STATES COURT OF INTERNATIONAL TRADE

##### SALARIES AND EXPENSES

The conference agreement provides \$21,447,000 for the salaries and expenses of the United States Court of International Trade, instead of \$20,628,000 as proposed by the House and \$20,968,000 as proposed by the Senate.

##### COURTS OF APPEALS, DISTRICT COURTS, AND OTHER JUDICIAL SERVICES

##### SALARIES AND EXPENSES

The conference agreement provides \$5,015,000,000 for the salaries and expenses of

the Courts of Appeals, District Courts, and Other Judicial Services, instead of \$4,790,855,000 as proposed by the House and \$4,970,646,000 as proposed by the Senate. In addition, the agreement provides \$5,000,000 from the Vaccine Injury Compensation Trust Fund, instead of \$4,775,000 as proposed by the House and the Senate.

#### DEFENDER SERVICES

The conference agreement provides \$1,031,000,000 for Defender Services, instead of \$1,050,000,000 as proposed by the House and \$1,034,182,000 as proposed by the Senate.

#### FEES OF JURORS AND COMMISSIONERS

The conference agreement provides \$51,908,000 for Fees of Jurors and Commissioners, instead of \$57,305,000 as proposed by the House and \$59,000,000 as proposed by the Senate.

#### COURT SECURITY

##### (INCLUDING TRANSFERS OF FUNDS)

The conference agreement provides \$500,000,000 for court security, as proposed by the House and the Senate.

#### ADMINISTRATIVE OFFICE OF THE UNITED STATES COURTS

##### SALARIES AND EXPENSES

The conference agreement provides \$82,909,000 for the salaries and expenses of the Administrative Office of the United States Courts, instead of \$80,007,000 as proposed by the House and \$82,000,000 as proposed by the Senate.

#### FEDERAL JUDICIAL CENTER

##### SALARIES AND EXPENSES

The conference agreement provides \$27,000,000 for the salaries and expenses of the Federal Judicial Center, as proposed by the Senate, instead of \$26,318,000 as proposed by the House.

#### JUDICIAL RETIREMENT FUNDS

##### PAYMENT TO JUDICIARY TRUST FUNDS

The conference agreement provides \$103,768,000 for payments to the judiciary trust funds, as proposed by the Senate. The House proposed funding these mandatory costs in a general provision.

#### UNITED STATES SENTENCING COMMISSION

##### SALARIES AND EXPENSES

The conference agreement provides \$16,500,000 for the salaries and expenses of the United States Sentencing Commission, as proposed by the Senate, instead of \$16,215,000 as proposed by the House.

#### ADMINISTRATIVE PROVISIONS—THE JUDICIARY

##### (INCLUDING TRANSFER OF FUNDS)

The conference agreement includes the following administrative provisions:

Section 301 makes funds appropriated for salaries and expenses available for services authorized by 5 U.S.C. 3109.

Section 302 provides transfer authority among Judiciary appropriations.

Section 303 permits not more than \$11,000 to be used for official reception and representation expenses of the Judicial Conference.

Section 304 extends through fiscal year 2012 the delegation of authority to the Judiciary for contracts for repairs of less than \$100,000.

Section 305 continues a pilot program where the United States Marshals Service provides perimeter security services at selected courthouses.

Section 306 extends for one year the authorization of temporary district judgeships in Kansas and Hawaii.

#### TITLE IV

##### DISTRICT OF COLUMBIA

##### FEDERAL FUNDS FEDERAL PAYMENT FOR RESIDENT TUITION SUPPORT

The conference agreement includes \$30,000,000 for District of Columbia resident tuition support as proposed by the House and the Senate.

##### FEDERAL PAYMENT FOR EMERGENCY PLANNING AND SECURITY COSTS IN THE DISTRICT OF COLUMBIA

The conference agreement provides \$14,900,000 for emergency planning and security costs in the District of Columbia as proposed by the House and the Senate.

##### FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA COURTS

The conference agreement provides \$232,841,000 for the District of Columbia Courts, instead of \$224,394,000 as proposed by the House and \$230,319,000 as proposed by the Senate. Within the amount provided, \$12,830,000 is for the District of Columbia Court of Appeals, \$114,209,000 is for the District of Columbia Superior Court, \$66,712,000 is for the District of Columbia Court System, and \$39,090,000 is for capital improvements to Court facilities.

For the District of Columbia Superior Court, the conference agreement provides \$114,209,000 instead of \$109,307,000 as proposed by the House and \$111,687,000 as proposed by the Senate. Increased funding is provided to address the Court's top priorities, including the Fathering Court Initiative and the Drop-In Center for Juvenile Girls.

The conference agreement does not continue bill language from prior years requiring the District of Columbia Courts to use GSA for payroll and financial services, as proposed by the House. While not excluding the use of GSA for these services, the conferees are aware this provision will allow the District of Columbia Courts greater flexibility in selecting and contracting for its payroll and financial services.

##### FEDERAL PAYMENT FOR DEFENDER SERVICES IN DISTRICT OF COLUMBIA COURTS

##### (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$55,000,000 for Defender Services in District of Columbia Courts as proposed by the Senate, instead of \$54,890,000 as proposed by the House.

The conference agreement does not continue bill language from prior years requiring the Defender Services in District of Columbia Courts to use GSA for payroll and financial services as proposed by the House. While not excluding the use of GSA for these services, the conferees are aware this provision will allow the Defender Services in District of Columbia Courts greater flexibility in selecting and contracting for its payroll and financial services.

##### FEDERAL PAYMENT TO THE COURT SERVICES AND OFFENDER SUPERVISION AGENCY FOR THE DISTRICT OF COLUMBIA

The conference agreement provides \$212,983,000 to the Court Services and Offender Supervision Agency for the District of Columbia as proposed by the House and the Senate. Within the amount provided, \$153,548,000 is for Community Supervision and Sex Offender Registration and \$59,435,000 is for the Pretrial Services Agency.

##### FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA PUBLIC DEFENDER SERVICE

The conference agreement provides \$37,241,000 for the Public Defender Service as proposed by the House and the Senate.

##### FEDERAL PAYMENT TO THE DISTRICT OF COLUMBIA WATER AND SEWER AUTHORITY

The conference agreement provides \$15,000,000 for the District of Columbia Water and Sewer Authority as proposed by the Senate instead of no funds as proposed by the House.

##### FEDERAL PAYMENT TO THE CRIMINAL JUSTICE COORDINATING COUNCIL

The conference agreement provides \$1,800,000 for the Criminal Justice Coordinating Council as proposed by the Senate instead of \$1,796,000 as proposed by the House.

##### FEDERAL PAYMENT FOR JUDICIAL COMMISSIONS

The conference agreement provides \$500,000 for Judicial Commissions as proposed by the Senate instead of \$499,000 as proposed by the House. Within the amount provided, \$295,000 is for the Commission on Judicial Disabilities and Tenure, and \$205,000 is for the Judicial Nomination Commission.

##### FEDERAL PAYMENT FOR SCHOOL IMPROVEMENT

The conference agreement includes \$60,000,000 for school improvement in the District of Columbia as proposed by the House and the Senate. As authorized by the Scholarship for Opportunity and Results Act, funds are equally divided between District of Columbia Public Schools (\$20,000,000), District of Columbia Public Charter Schools (\$20,000,000) and District of Columbia Opportunity Scholarships (\$20,000,000). The conference agreement does not adopt the Senate requirement that the Secretary of Education perform an assessment of schools participating in the Opportunity Scholarships program.

##### FEDERAL PAYMENT FOR THE DISTRICT OF COLUMBIA NATIONAL GUARD

The conference agreement provides \$375,000 for the Major General David F. Wherley, Jr. District of Columbia National Guard Retention and College Access Program as proposed by the House and the Senate.

##### FEDERAL PAYMENT FOR TESTING AND TREATMENT OF HIV/AIDS

The conference agreement provides a \$5,000,000 Federal payment to the District of Columbia solely for the purpose of HIV/AIDS testing and treatment. No funds were provided for this activity in the House or the Senate.

##### DISTRICT OF COLUMBIA FUNDS

The conference agreement provides authority for the District of Columbia to spend its local funds in accordance with the Fiscal Year 2012 Budget Request Act of 2011 (DC Act 19-92), as modified as of the date of the enactment of this Act.

#### TITLE V

##### INDEPENDENT AGENCIES

##### ADMINISTRATIVE CONFERENCE OF THE UNITED STATES

##### SALARIES AND EXPENSES

The conference agreement provides \$2,900,000, to remain available until September 30, 2013, for the Administrative Conference of the United States as proposed by the Senate, instead of \$2,608,000 as proposed by the House.

##### CHRISTOPHER COLUMBUS FELLOWSHIP FOUNDATION

##### SALARIES AND EXPENSES

The conference agreement provides \$450,000 for the Christopher Columbus Fellowship Foundation as proposed by the Senate, instead of no funds as proposed by the House.

##### CONSUMER PRODUCT SAFETY COMMISSION

##### SALARIES AND EXPENSES

The conference agreement includes \$114,500,000 for the Consumer Product Safety

Commission (CPSC) as proposed by the Senate, instead of \$111,288,000 as proposed by the House.

The conferees are aware that small, round, coin-shaped batteries, known as “button cell batteries” are increasingly present in consumer products, and pose a hazard—potentially fatal—to small children who ingest them. The conferees support efforts to ensure that these batteries are securely enclosed in products (like the existing Federal safety rules that require toys that use batteries to have such compartments), with accompanying warning labels.

CPSC has identified window coverings with cords as one of the top five hidden hazards in the home and CPSC is aware of 120 fatalities and 113 serious injuries related to corded window blinds since 1999. The conferees urge parties involved in the standards process to redouble efforts to address the strangulation risk posed by corded window coverings in a timely manner.

#### ADMINISTRATIVE PROVISIONS—CONSUMER PRODUCT SAFETY COMMISSION

The conference agreement includes the following administrative provisions for the Consumer Product Safety Commission:

Section 501 permits CPSC staff serving abroad to be eligible for benefits similar to those authorized for Foreign Service officials.

Section 502 includes language making technical corrections to the Virginia Graeme Baker Pool and Spa Safety Act.

Section 503 requires the Government Accountability Office (GAO) to study the potential risks associated with new and emerging consumer products.

Section 504 requires the GAO to study the efficacy of voluntary industry standards for consumer products.

#### ELECTION ASSISTANCE COMMISSION

##### SALARIES AND EXPENSES

##### (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$11,500,000 for the salaries and expenses of the Election Assistance Commission (EAC), instead of \$6,858,000 as proposed by the House and \$14,750,000 as proposed by the Senate. This includes \$2,750,000 to be transferred to the National Institute of Standards and Technology and \$1,250,000 for the EAC Inspector General.

#### FEDERAL COMMUNICATIONS COMMISSION

##### SALARIES AND EXPENSES

The conference agreement includes \$339,844,000 for the salaries and expenses of the Federal Communications Commission (FCC), instead of \$319,004,000 as proposed by the House and \$354,181,000 as proposed by the Senate. This includes \$9,750,000 for the FCC Inspector General. The conference agreement provides that \$339,844,000 be derived from offsetting collections, resulting in no net appropriation.

The conferees note that the Fairness Doctrine was removed from the FCC’s rulebooks as of August 22, 2011.

#### ADMINISTRATIVE PROVISIONS—FEDERAL COMMUNICATIONS COMMISSION

The conferees agree to the following administrative provisions for the Federal Communications Commission:

Section 510 extends an exemption for the Universal Service Fund.

Section 511 prohibits the Federal Communications Commission from changing rules governing the Universal Service Fund regarding single connection or primary line restrictions.

#### FEDERAL DEPOSIT INSURANCE CORPORATION OFFICE OF THE INSPECTOR GENERAL

The conference agreement provides a transfer of \$45,261,000 to fund the Office of Inspector General (OIG) for the Federal Deposit Insurance Corporation as proposed by both the House and Senate. The OIG’s appropriations are derived from the Deposit Insurance Fund and the FSLIC Resolution Fund.

#### FEDERAL ELECTION COMMISSION

##### SALARIES AND EXPENSES

The conference agreement provides \$66,367,000 for the salaries and expenses of the Federal Election Commission as proposed by the House and Senate.

#### FEDERAL LABOR RELATIONS AUTHORITY

##### SALARIES AND EXPENSES

The conference agreement provides \$24,723,000 for the Federal Labor Relations Authority as proposed by the Senate, instead of \$24,105,000 as proposed by the House.

#### FEDERAL TRADE COMMISSION

##### SALARIES AND EXPENSES

The conference agreement provides \$311,563,000 for the salaries and expenses of the Federal Trade Commission (FTC) as proposed by the Senate, instead of \$284,067,000 as proposed by the House. This appropriation is partially offset by premerger filing fees estimated at \$108,000,000 and \$21,000,000 from fees to implement the Telemarketing Sales Rule.

The conference agreement does not adopt the Senate requirement that the FTC submit voluntary food marketing principles in a final report to the Committees.

#### GENERAL SERVICES ADMINISTRATION

##### REAL PROPERTY ACTIVITIES

##### FEDERAL BUILDINGS FUND

##### LIMITATIONS ON AVAILABILITY OF REVENUE

The conference agreement provides resources from the General Services Administration (GSA) Federal Buildings Fund totaling \$8,017,967,000, instead of \$7,223,801,000 as proposed by the House and \$8,144,967,000 as proposed by the Senate.

*Construction and Acquisition.*—The conference agreement provides \$50,000,000 for construction and acquisition, instead of \$0 as proposed by the House and \$65,000,000 as proposed by the Senate.

The conferees clarify the House report language about use of prior appropriations for projects and agree, unless GSA follows the reprogramming process in Section 608 that requires the approval of the Committees, that GSA is prohibited from using either funding appropriated for any construction project yet to be completed or the proceeds from the sale of land from the yet-to-be-completed project other than to address the need for space for which the construction project was intended.

*Repairs and Alterations.*—The conference agreement provides \$280,000,000 for repairs and alterations, as proposed by the House and Senate. Funds are provided in the amounts indicated:

Judiciary Capital Security Program .....	\$20,000,000
Basic Repairs and Alterations .....	\$260,000,000

*Energy Saving Lighting Technologies.*—The conference agreement adopts the House reporting requirement on LED lights and clarifies that LED lights are expected to be incorporated into GSA’s building specifications as appropriate.

*Installment Acquisition Payments.*—The conference agreement includes \$126,801,000 for

installment acquisition payments, as proposed by both the House and the Senate.

*Rental of Space.*—The conference agreement provides \$5,210,198,000 for rental of space, instead of \$4,700,000,000 as proposed by the House and \$5,285,198,000 as proposed by the Senate.

*Building Operations.*—The conference agreement provides \$2,350,968,000 for building operations, instead of \$2,117,000,000 as proposed by the House and \$2,387,968,000 as proposed by the Senate.

#### GENERAL ACTIVITIES

##### GOVERNMENT-WIDE POLICY

The conference agreement provides \$61,115,000 for GSA Government-wide policy activities, instead of \$64,826,000 as proposed by the House and \$61,750,000 as proposed by the Senate.

##### OPERATING EXPENSES

The conference agreement provides \$69,500,000 for operating expenses of GSA instead of \$68,135,000 as proposed by the House and \$70,000,000 as proposed by the Senate.

#### OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$58,000,000 for the Office of Inspector General as proposed by the Senate instead of \$58,882,000 as proposed by the House.

#### ELECTRONIC GOVERNMENT FUND (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$12,400,000 for the Electronic Government Fund. These funds may be transferred to other Federal agencies to carry out the purposes of the Electronic Government Fund, but only after a spending plan and explanation for each project has been submitted to the Committees on Appropriations.

#### ALLOWANCES AND OFFICE STAFF FOR FORMER PRESIDENTS

The conference agreement includes \$3,671,000 for allowances and staff for former Presidents, as proposed by both the House and the Senate.

#### FEDERAL CITIZEN SERVICES FUND

The conference agreement provides \$34,100,000 for deposit into the Federal Citizens Services Fund (the Fund) and authorizes use of appropriations, revenues and collections in the Fund in an aggregate amount not to exceed \$90,000,000.

#### ADMINISTRATIVE PROVISIONS—GENERAL SERVICES ADMINISTRATION

##### (INCLUDING TRANSFERS OF FUNDS AND RESCISSION)

The conferees agree to the following provisions:

Section 520 specifies that funds are available for hire of motor vehicles.

Section 521 authorizes transfers within the Federal Buildings Fund, with advance approval of the Committees on Appropriations.

Section 522 prohibits the use of funds to transmit a fiscal year 2013 request for courthouse construction unless the request meets design guide standards, reflects the priorities in the Judicial Conference 5-year construction plan, and includes a standardized courtroom utilization study.

Section 523 specifies that funds in this Act may not be used to increase the amount of occupiable space or provide services such as cleaning or security for any agency that does not pay the rental charges assessed by GSA.

Section 524 permits GSA to pay certain construction-related claims against the Federal Government from savings achieved in other projects.

Section 525 requires that the delineated area of procurement for leased space match

the approved prospectus, unless the Administrator provides an explanatory statement to the appropriate congressional committees.

Section 526 increases the permissible uses of the fees collected by the GSA Federal Acquisition Institute.

Section 527 rescinds \$4,600,000 from completed projects.

Section 528 directs GSA to submit a report within 120 days of enactment of this Act about programs funded by appropriations to GSA, but not under GSA control.

#### HARRY S TRUMAN SCHOLARSHIP FOUNDATION SALARIES AND EXPENSES

The conference agreement includes \$748,000 for a payment to the Harry S Truman Scholarship Foundation Trust Fund as proposed by the House instead of \$700,000 as proposed by the Senate.

#### MERIT SYSTEMS PROTECTION BOARD SALARIES AND EXPENSES (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$42,603,000, to remain available until September 30, 2013, for the salaries and expenses of the Merit Systems Protection Board as proposed by the Senate, instead of \$41,761,000 as proposed by the House. Within the amount provided, \$40,258,000 is a direct appropriation and \$2,345,000 is a transfer from the Civil Service Retirement and Disability Fund to adjudicate retirement appeals.

#### MORRIS K. UDALL AND STEWART L. UDALL FOUNDATION

##### MORRIS K. UDALL AND STEWART L. UDALL TRUST FUND

The conference agreement includes \$2,200,000 for payment to the Morris K. Udall and Stewart L. Udall Trust Fund as proposed by the Senate.

#### ENVIRONMENTAL DISPUTE RESOLUTION FUND

The conference agreement includes \$3,792,000 for payment to the Environmental Dispute Resolution Fund as proposed by the Senate.

#### NATIONAL ARCHIVES AND RECORDS ADMINISTRATION OPERATING EXPENSES (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$373,300,000 for the operating expenses of the National Archives and Records Administration (NARA), instead of \$360,969,000 as proposed by the House and \$378,845,000 as proposed by the Senate.

The conferees reiterate Senate language noting material weakness in the security of NARA's holdings. The conferees direct NARA to institute and enforce effective inventory controls and adequate levels of security within its facilities to reduce the risk of loss and damage to our Nation's documents and records.

In addition, the conferees direct NARA to continue to work with agencies on records management policies, especially those related to document destruction. The conferees believe it is critical for all agencies to be aware of the importance of these policies and to have proper systems in place for document retention and preservation.

#### OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$4,100,000 for NARA's Office of Inspector General as proposed by the House and the Senate.

#### REPAIRS AND RESTORATION

The conference agreement provides \$9,100,000 for repairs and restoration, instead

of \$8,693,000 as proposed by the House and \$9,659,000 as proposed by the Senate.

#### NATIONAL HISTORICAL PUBLICATIONS AND RECORDS COMMISSION GRANTS PROGRAM

The conference agreement provides \$5,000,000 for the National Historical Publications and Records Commission grant program as proposed by the Senate, instead of \$1,000,000 as proposed by the House.

#### NATIONAL CREDIT UNION ADMINISTRATION CENTRAL LIQUIDITY FACILITY

The conference agreement limits administrative expenses to \$1,250,000 and provides for authorized lending, as proposed by the Senate.

#### COMMUNITY DEVELOPMENT REVOLVING LOAN FUND

The conference agreement includes \$1,247,000 for the Community Development Revolving Loan Fund as proposed by the Senate, instead of \$500,000 as proposed by the House.

#### OFFICE OF GOVERNMENT ETHICS SALARIES AND EXPENSES

The conference agreement provides \$13,664,000 for salaries and expenses of the Office of Government Ethics as proposed by the Senate, instead of \$13,483,000 as proposed by the House.

#### OFFICE OF PERSONNEL MANAGEMENT SALARIES AND EXPENSES (INCLUDING TRANSFER OF TRUST FUNDS)

The conference agreement provides \$210,290,000 for salaries and expenses as proposed by both the House and the Senate. Within the amount provided, \$99,774,000 is a direct appropriation and \$112,516,000 is a transfer from Office of Personnel Management (OPM) trust funds.

#### OFFICE OF INSPECTOR GENERAL SALARIES AND EXPENSES (INCLUDING TRANSFER OF TRUST FUNDS)

The conference agreement provides \$24,316,000 for salaries and expenses of the Office of Inspector General as proposed by the House and the Senate. Within the amount provided, \$3,142,000 is a direct appropriation and \$21,174,000 is a transfer from OPM trust funds.

#### GOVERNMENT PAYMENT FOR ANNUITANTS, EMPLOYEES HEALTH BENEFITS

The conference agreement provides such sums as necessary for health benefits payments as proposed by the Senate. The House proposed funding these mandatory costs in a general provision.

#### GOVERNMENT PAYMENT FOR ANNUITANTS, EMPLOYEE LIFE INSURANCE

The conference agreement provides such sums as necessary for life insurance payments as proposed by the Senate. The House proposed funding these mandatory costs in a general provision.

#### PAYMENT TO CIVIL SERVICE RETIREMENT AND DISABILITY FUND

The conference agreement provides such sums as necessary for retirement and disability payments as proposed by the Senate. The House proposed funding these mandatory costs in a general provision.

#### OFFICE OF SPECIAL COUNSEL SALARIES AND EXPENSES

The conference agreement includes \$18,972,000 for the salaries and expenses of the Office of Special Counsel as proposed by the Senate, instead of \$17,997,000 as proposed by the House.

#### POSTAL REGULATORY COMMISSION SALARIES AND EXPENSES (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$14,304,000 for the salaries and expenses of the Postal Regulatory Commission as proposed by the Senate, instead of \$13,946,000 as proposed by the House.

#### PRIVACY AND CIVIL LIBERTIES OVERSIGHT BOARD SALARIES AND EXPENSES

The conference agreement provides \$900,000 for the salaries and expenses of the Privacy and Civil Liberties Oversight Board (PCLOB) instead of \$1,000,000 as proposed by the Senate and no funding as proposed by the House. The conferees are concerned that the Administration has not reconstituted the PCLOB as required by law. Section 618 rescinds \$998,000 of prior year unobligated balances.

#### RECOVERY ACCOUNTABILITY AND TRANSPARENCY BOARD SALARIES AND EXPENSES

The conference agreement provides \$28,350,000, to remain available until September 30, 2013, for the salaries and expenses of the Recovery Accountability and Transparency Board, instead of \$25,000,000 as proposed by the House and \$28,400,000 as proposed by the Senate. The conferees note that funding provided for the Recovery Board may be used to develop and test information technology to enhance transparency and detect waste, fraud, and abuse in federal spending. Within 90 days of enactment of this Act, the conferees direct the Recovery Board to report to the Committees on Appropriations on their plan for such activities. The report shall include detailed descriptions and planned spending.

#### SECURITIES AND EXCHANGE COMMISSION SALARIES AND EXPENSES

The conference agreement provides \$1,321,000,000 for the Securities and Exchange Commission (SEC), instead of \$1,185,000,000 as proposed by the House and \$1,407,483,130 as proposed by the Senate. The conference agreement provides that \$1,321,000,000 be derived from offsetting collections resulting in no net appropriation.

The conference agreement provides that the SEC Office of Inspector General shall receive no less than \$6,795,000 as proposed by the Senate, instead of \$6,790,000 as proposed by the House.

The conferees do not adopt the Senate designation of \$483,130 specifically for the strengthening of the acquisition workforce. However, while not designating funding, the Committee remains concerned about the SEC's acquisition processes and expects the SEC to dedicate sufficient resources to strengthening the agency's capacity and capabilities of the acquisition workforce.

The conferees remain seriously concerned with the SEC's lack of judgment in its past leasing practices, most notably the mismanagement of the agency's Constitution Center lease. The conferees are unconvinced that the SEC's efforts to reform their leasing practices have fully addressed the problems. The agency's leasing and budgetary recording practices over the last 20 years of independent leasing authority have led the SEC to experience budget deficiencies. The conferees consider this unacceptable and expect the SEC to carefully evaluate all prospective leases and renewals of existing leases going forward in relation to the budget resources. The conferees are aware of the SEC's arrangement with the General Services Administration, which the conferees believe is a

good first step. The conferees intend to closely monitor how the SEC exercises its leasing authority to ensure that the SEC has adequately reformed its leasing practices.

The conferees are also highly concerned about the unauthorized destruction of documents by the SEC which spanned a decade and remained ongoing even after the National Archives and Records Administration asked for an explanation. The preservation of agency documents is critical to the record keeping of every agency and Federal rules have been established in the interest of transparency and disclosure. As the agency tasked with monitoring companies' disclosures, this latest chapter of mismanagement at the SEC contravenes the agency's own mission and distracts SEC management from focusing on the critical work of protecting investors.

Due to the above concerns, the conferees direct the SEC to provide the House and Senate Appropriations Committees with corrective action reports, submitted to the SEC Inspector General, related to lease agreements and document destruction no later than 30 days after enactment of this Act.

#### SELECTIVE SERVICE SYSTEM SALARIES AND EXPENSES

The conference agreement provides \$23,984,000 for the salaries and expenses of the Selective Service System as proposed by the Senate, instead of \$23,620,000 as proposed by the House.

#### SMALL BUSINESS ADMINISTRATION SALARIES AND EXPENSES

The conference agreement includes \$417,348,000 for the salaries and expenses account of the Small Business Administration (SBA), instead of \$422,296,000 as proposed by the House and \$404,202,000 as proposed by the Senate.

Of the amount provided under this heading, \$245,000,000 is for the operating expenses of the SBA and \$172,348,000 is for non-credit programs.

The conferees direct that no less than the following amounts shall be dedicated to the following SBA non-credit programs:

Veterans Programs .....	\$2,500,000
7(j) Technical Assistance Programs .....	3,100,000
Small Business Development Centers ...	112,500,000
SCORE .....	7,000,000
Women's Business Centers .....	14,000,000
Women's Business Council .....	998,000
Native American Outreach .....	1,250,000
Microloan Technical Assistance .....	20,000,000
PRIME .....	3,500,000
HUBZone .....	2,500,000
Entrepreneurial Development Initiative	
(Clusters) .....	5,000,000
Total, non-credit programs .....	172,348,000

The conferees direct that the SBA shall not reduce these non-credit programs from the amounts specified above and the SBA shall not merge any of the non-credit programs without advance written approval from the Committees on Appropriations.

Although set aside funding for the Emerging Leaders program is not specified, the conferees note that in prior years SBA derived funds for the Emerging Leaders program from base resources in the Salaries and Expenses account.

The conferees adopt Senate report language regarding veterans' business outreach centers.

#### OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$16,267,000 for the Office of Inspector General

of the Small Business Administration as proposed by the House instead of \$16,267,400 as proposed by the Senate.

#### OFFICE OF ADVOCACY

The conference agreement provides \$9,120,000 for this account as proposed by the House and the Senate.

#### BUSINESS LOANS PROGRAM ACCOUNT (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$358,736,000 for the Business Loans Program Account, instead of \$363,323,000 as proposed by the House and \$358,498,000 as proposed by the Senate. Of the amount provided, \$3,678,000 is for the cost of direct loans in the microloan program, \$207,100,000 is for the cost of guaranteed loans, and \$147,958,000 is for administrative expenses to carry out the direct and guaranteed loan programs and may be transferred to and merged with Salaries and Expenses.

#### DISASTER LOANS PROGRAM ACCOUNT (INCLUDING TRANSFERS OF FUNDS)

The conference agreement includes \$117,300,000 for the administrative costs of the Disaster Loans Program Account, instead of \$167,300,000 as proposed by both the House and the Senate.

#### ADMINISTRATIVE PROVISIONS—SMALL BUSINESS ADMINISTRATION (INCLUDING TRANSFER OF FUNDS)

The conference agreement includes the following administrative provisions for the Small Business Administration.

Section 530 concerns transfer authority and availability of funds.

Section 531 extends, for businesses that can obtain credit elsewhere, the length of time for repaying a disaster loan from three years to seven years.

Section 532 details the information to be provided in the SBA's annual budget request.

#### UNITED STATES POSTAL SERVICE

##### PAYMENT TO THE POSTAL SERVICE FUND

The conference agreement provides \$78,153,000 for a payment to the Postal Service Fund as proposed by the House and the Senate. This is an advance appropriation for fiscal year 2013 to continue free mail for the blind and overseas voting.

#### OFFICE OF INSPECTOR GENERAL

##### SALARIES AND EXPENSES

##### (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides up to \$241,468,000 for the Office of Inspector General as proposed by the Senate, instead of \$237,810,000 as proposed by the House.

#### UNITED STATES TAX COURT

##### SALARIES AND EXPENSES

The conference agreement provides \$51,079,000 for salaries and expenses of the United States Tax Court, instead of \$50,689,000 as proposed by the House and \$51,469,000 as proposed by the Senate.

#### TITLE VI

##### GENERAL PROVISIONS—THIS ACT

##### (INCLUDING RECISSIONS)

The conferees agree to the following provisions:

Section 601 prohibits paying expenses or otherwise compensating non-Federal parties in regulatory or adjudicatory proceedings funded in this Act.

Section 602 prohibits obligations beyond the current fiscal year and transfers of funds unless expressly so provided herein.

Section 603 limits consulting service expenditures to contracts where such expendi-

tures are a matter of public record, with exceptions.

Section 604 prohibits funds from being transferred to any department, agency, or instrumentality of the United States without express authority provided in this or any other appropriations Act.

Section 605 prohibits the use of funds to engage in activities that would prohibit the enforcement of section 307 of the 1930 Tariff Act.

Section 606 prohibits funds from being expended unless the recipient agrees to comply with the Buy American Act.

Section 607 prohibits funding to a person or entity convicted of violating the Buy American Act.

Section 608 provides reprogramming authority and requires agencies to submit financial plans to the House and Senate Appropriations Committees.

Section 609 provides that not to exceed 50 percent of unobligated balances from salaries and expenses may remain available for certain purposes.

Section 610 prohibits funds for the Executive Office of the President to request any official background investigation from the Federal Bureau of Investigation unless the person has given consent or there are national security circumstances.

Section 611 requires that cost accounting standards not apply to a contract under the Federal Employees Health Benefits Program.

Section 612 permits the Office of Personnel Management to accept funds regarding the nonforeign area cost of living allowances.

Section 613 prohibits the expenditure of funds for abortions under the Federal Employees Health Benefits Program.

Section 614 provides an exemption from section 613 if the life of the mother is in danger or the pregnancy is a result of an act of rape or incest.

Section 615 waives restrictions on the purchase of non-domestic articles, materials, and supplies for information technology acquired by the Federal Government.

Section 616 prohibits the acceptance by any regulatory agency or commission funded by this Act, or by their officers or employees, of payment or reimbursement for travel, subsistence, or related expenses from any person or entity (or their representative) that engages in activities regulated by such agency or commission.

Section 617 provides authority for the Public Company Accounting Oversight Board to obligate funds for a scholarship program.

Section 618 rescinds \$998,000 in unobligated balances for the Privacy and Civil Liberties Oversight Board. The conferees note the Board has yet to be established.

Section 619 requires the President to transmit proposed deficiency and supplemental appropriations requests to Congress on behalf of the judicial and legislative branches as is presently done for the executive branch.

Section 620 permits the SEC and CFTC to fund a joint advisory committee to advise on emerging regulatory issues, notwithstanding section 708 of this Act.

Section 621 includes language regarding the Abraham Lincoln Commemorative Coin Act.

Section 622 allows the publication in the Federal Register of a reference to the Help America Vote Act State plans, rather than publication of the complete State plans.

Section 623 rescinds \$25,000,000 from the Securities and Exchange Commission Reserve Fund established by the Dodd-Frank Wall Street Reform and Consumer Protection Act.

Section 624 requires certain agencies to provide quarterly reports on unobligated prior year balances.

Section 625 requires agencies covered by this Act with independent leasing authority to consult with the General Services Administration before seeking new office space or making alterations to existing office space.

Section 626 prohibits funds for the FTC to complete the draft report on food marketed to children unless certain requirements are met.

Section 627 prohibits funds for certain positions.

Section 628 provides that no FCC funds may be used, or otherwise permitted, for certain commercial terrestrial operations.

Section 629 prohibits funding for hiring new Federal employees that are not verified through the E-Verify Program.

Section 630 prohibits funds to any corporation with certain unpaid Federal tax liabilities unless the agency has considered suspension or debarment of the corporation and made a determination that further action is not necessary to protect the interests of the Government.

Section 631 prohibits funds to any corporation that was convicted of a felony criminal violation within the preceding 24 months unless the agency has considered suspension or debarment of the corporation and made a determination that further action is not necessary to protect the interests of the Government.

Section 632 delays a statutory requirement for the United States Postal Service to make a payment to the Postal Service Retiree Health Benefit Fund until August 1, 2012.

#### TITLE VII

##### GENERAL PROVISIONS—GOVERNMENT-WIDE

##### DEPARTMENTS, AGENCIES, AND CORPORATIONS

The conferees agree to the following provisions:

Section 701 requires all agencies have a written policy for ensuring a drug-free workplace.

Section 702 sets specific limits on the cost of passenger vehicles with exceptions for police, heavy duty, electric hybrid and clean fuels vehicles.

Section 703 makes appropriations available for quarters/cost-of-living allowances.

Section 704 prohibits the use of appropriated funds to compensate officers or employees of the Federal government in the continental United States unless they are citizens of the United States or qualify under other specified exceptions.

Section 705 ensures that appropriations made available to any department or agency for space, services and rental charges shall also be available for payment to the General Services Administration.

Section 706 allows the use of receipts from the sale of materials for acquisition, waste reduction and prevention, environmental management programs and other Federal employee programs as appropriate.

Section 707 allows funds for administrative expenses of government corporations and certain agencies to also be available for rent in the District of Columbia, services under 5 U.S.C. 3109, and the objects specified under this head.

Section 708 prohibits funds for interagency financing of boards (with exception), commissions, councils, committees or similar groups to receive multi-agency funding without prior statutory approval.

Section 709 precludes funds for regulations which have been disapproved by joint resolution.

Section 710 limits the amount of funds that can be used for redecoration of offices under

certain circumstances to \$5,000, unless advance notice is transmitted to the House and Senate Committees on Appropriations.

Section 711 allows for interagency funding of national security and emergency preparedness telecommunications initiatives.

Section 712 requires agencies to certify that a Schedule C appointment was not created solely or primarily to detail the employee to the White House.

Section 713 prohibits the salary payment of any employee who prohibits, threatens, prevents or otherwise penalizes another employee from communicating with Congress.

Section 714 prohibits Federal employee training not directly related to the performance of official duties.

Section 715 prevents funds from being used to implement or enforce non-disclosure agreement policies unless certain provisions are included, updates the Executive Order and other citations and makes provisions for nondisclosure agreements entered into before the effective date of any updated statutes of governance.

Section 716 prohibits executive branch agencies from using funds for propaganda or publicity purposes in support or defeat of legislative initiatives.

Section 717 prohibits any Federal agency from disclosing an employee's home address to any labor organization, absent employee authorization or court order.

Section 718 prohibits funds to be used to provide non-public information such as mailing or telephone lists to any person or organization outside the government without the approval of the House and Senate Committees on Appropriations.

Section 719 prohibits the use of funds for propaganda and publicity purposes not authorized by Congress.

Section 720 directs agency employees to use official time in an honest effort to perform official duties.

Section 721 authorizes the use of funds to finance an appropriate share of the Federal Accounting Standards Advisory Board administrative costs.

Section 722 authorizes the transfer of funds to the General Services Administration to finance an appropriate share of various government-wide boards and councils under certain conditions.

Section 723 permits breastfeeding in a Federal building or on Federal property if the woman and child are authorized to be there.

Section 724 permits interagency funding of the National Science and Technology Council and requires the Office of Management and Budget to provide a report to the House and Senate on the budget and resources of the National Science and Technology Council.

Section 725 requires that the Federal forms that are used in distributing Federal funds to a State must indicate the agency providing the funds, the Federal Domestic Assistance Number, and the amount provided.

Section 726 prohibits the use of funds to monitor personal information relating to the use of Federal Internet sites to collect, review, or create any aggregate list that includes personally identifiable information relating to access to or use of any Federal Internet site of such agency.

Section 727 requires health plans participating in the Federal Employees Health Benefits Program to provide contraceptive coverage and provides exemptions to certain religious plans.

Section 728 recognizes the United States is committed to ensuring the health of the Olympic, Pan American and Paralympic ath-

letes, and supports the strict adherence to antidoping in sport activities.

Section 729 allows funds for official travel to be used by departments and agencies, if consistent with OMB and Budget Circular A-126, to participate in the fractional aircraft ownership pilot program.

Section 730 prohibits funds for implementation of the Office of Personnel Management regulations limiting detailees to the Legislative Branch or implementing limitations on the Coast Guard Congressional Fellowship Program.

Section 731 restricts the use of funds for Federal law enforcement training facilities with an exception for the Federal Law Enforcement Training Center.

Section 732 prohibits funds for E-Government initiatives sponsored by the Office of Management and Budget prior to 15 days following submission of a report to the House and Senate Committees on Appropriations and receipt of the Committees' approval to transfer funds. The section also prohibits funds for new E-Government initiatives without the explicit approval of the Committees.

Section 733 prohibits funds to begin or announce a study or public-private competition regarding conversion to contractor performance pursuant to OMB Circular A-76.

Section 734 prohibits executive branch agencies from creating prepackaged news stories that are broadcast or distributed in the United States unless the story includes a clear notification within the text or audio of that news story that the prepackaged news story was prepared or funded by that executive branch agency.

Section 735 prohibits funds from being used in contravention of the Privacy Act or associated regulations.

Section 736 requires agencies to evaluate the creditworthiness of an individual before issuing a government travel charge card and prohibits agencies from issuing a government travel charge card to individuals who have an unsatisfactory credit history.

Section 737 requires the Office of Management and Budget to submit a crosscut budget report on Great Lakes restoration activities not later than 45 days after the submission of the budget of the President to Congress.

Section 738 prohibits funds in this or any other Act to be used for Federal contracts with inverted domestic corporations, unless the contract preceded this Act or the Secretary grants a waiver in the interest of national security.

Section 739 prohibits agencies from using funds to implement regulations changing the competitive areas under reductions-in-force for Federal employees.

Section 740 makes changes to Section 743 of the Consolidated Appropriations Act of 2010 (Public Law 111-117) to require reporting on task orders.

Section 741 requires agencies to pay a fee to the Office of Personnel Management for processing retirements of employees who separate under Voluntary Early Retirement Authority or who receive Voluntary Separation Incentive payments.

Section 742 declares references to "this Act" contained in any title other than title IV or VIII shall not apply to such titles IV or VIII.

Section 743 prohibits funds to require any entity submitting an offer for a Federal contract to disclose political contributions.

Section 744 provides transfer authority for amounts made available to the Commodity Futures Trading Commission for information

technology investments under Public Law 112–55.

#### TITLE VIII

#### GENERAL PROVISIONS—DISTRICT OF COLUMBIA

##### (INCLUDING TRANSFER OF FUNDS)

The conferees agree to the following general provisions for the District of Columbia:

Section 801 allows the use of local funds for making refunds or paying judgments against the District of Columbia government.

Section 802 prohibits the use of Federal funds for publicity or propaganda designed to support or defeat legislation before Congress or any State legislature.

Section 803 establishes reprogramming procedures for Federal funds.

Section 804 prohibits the use of Federal funds for the salaries and expenses of a shadow U.S. Senator or U.S. Representative.

Section 805 places restrictions on the use of District of Columbia government vehicles.

Section 806 prohibits the use of Federal funds for a petition or civil action which seeks to require voting rights for the District of Columbia in Congress.

Section 807 Needles—prohibits the use of Federal funds in this Act to distribute, for the purpose of preventing the spread of blood borne pathogens, sterile needles or syringes in any location that has been determined by local public health officials or local law enforcement authorities to be inappropriate for such distribution.

Section 808 concerns a “conscience clause” on legislation that pertains to contraceptive coverage by health insurance plans.

Section 809 modifies and makes permanent a provision that requires the Mayor of the District of Columbia to submit annual reports on various indicators pertaining to the District of Columbia as proposed by the Senate.

Section 810 prohibits the use of Federal funds to legalize or reduce penalties associated with the possession, use or distribution of any schedule I substance under the Controlled Substances Act or any tetrahydrocannabinols derivative.

Section 811 prohibits the use of funds for abortion except in the cases of rape or incest or if necessary to save the life of the mother.

Section 812 requires the CFO to submit a revised operating budget no later than 30 cal-

endar days after the enactment of this Act for agencies the CFO certifies as requiring a reallocation in order to address unanticipated program needs.

Section 813 requires the CFO to submit a revised operating budget for the District of Columbia Public Schools, no later than 30 calendar days after the enactment of this Act, that aligns school budgets to actual enrollment.

Section 814 authorizes the transfer of local funds to capital and enterprise funds.

Section 815 permits the District of Columbia Public Defender Service to purchase professional liability insurance for its attorneys, staff and board members as proposed by the Senate.

Section 816 modifies the frequency of management evaluations by the Government Accountability Office of the District of Columbia’s chartering authority for public charter schools as proposed by the Senate.

Section 817 specifies that references to this Act in this title or title IV are treated as referring only to the provisions of this title and title IV.

# DIVISION D—DEPARTMENT OF HOMELAND SECURITY APPROPRIATIONS ACT, 2012

The following is an explanation of the effects of Division D, which makes appropriations for the Department of Homeland Security for fiscal year 2012. Unless otherwise noted, reference to the House and Senate reports are to House Report 112-91 and Senate Report 112-74, respectively. The language and allocations contained in House Report 112-91 and Senate Report 112-74 should be complied with and carry the same emphasis as the language included in the explanatory statement, unless specifically addressed to the contrary in the conference report or this explanatory statement. While repeating some report language for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein. When this explanatory statement refers to the Committees or the Committees on Appropriations, unless otherwise noted, this reference is to the House Subcommittee on Homeland Security and the Senate Subcommittee on the Department of Homeland Security. In cases where the explanatory statement directs the submission of a report, such report shall be provided to the Committees on Appropriations by February 15, 2012, unless otherwise directed. In cases where the explanatory statement directs a briefing, such briefing shall be provided to the Committees by February 15, 2012, unless otherwise directed.

This explanatory statement refers to the following laws and organizations as follows: Implementing Recommendations of the 9/11 Commission Act of 2007, Public Law 110-53, is referenced as the 9/11 Act; Robert T. Stafford Disaster Relief and Emergency Assistance Act, Public Law 93-288 is referenced as the Stafford Act; Budget Control Act of 2011, Public Law 112-25, is referenced as the Budget Control Act (BCA); the Department of Homeland Security is referenced as DHS or the Department; the Government Accountability Office is referenced as GAO; and the Office of Inspector General of the Department of Homeland Security is referenced as OIG. In addition, any reference to “full-time equivalents” shall be referred to as FTE; any reference to “program, project, and activity” shall be referred to as PPA; and any reference to the Secretary shall be interpreted to mean the Secretary of Homeland Security.

## Classified Programs

Recommended adjustments to classified programs are addressed in a classified annex accompanying this explanatory statement.

## TITLE I—DEPARTMENTAL MANAGEMENT AND OPERATIONS

### OFFICE OF THE SECRETARY AND EXECUTIVE MANAGEMENT

A total of \$133,159,000 is provided for “Office of the Secretary and Executive Management.” Not to exceed \$51,000 of this funding shall be for official reception and representation expenses, including \$17,000 for the Office of Policy to support Visa Waiver Program negotiations in Washington, DC, and for other international activities. This Act also includes a provision requiring that funds made available for “Immediate Office of the Secretary” and “Immediate Office of the Deputy Secretary” shall be used to pay costs associated with use of government aircraft by DHS personnel in support of official travel of the Secretary and Deputy Secretary.

The amount provided for this appropriation by PPA is as follows:

Immediate Office of the Secretary .....	\$5,000,000
---	-------------

Immediate Office of the Deputy Secretary .....	1,918,000
Office of the Chief of Staff .....	2,300,000
Office of Counternarcotics Enforcement	1,800,000
Executive Secretary .....	8,100,000
Office of Policy .....	40,000,000
Office of Public Affairs .....	5,800,000
Office of Legislative Affairs .....	6,000,000
Office of Intergovernmental Affairs .....	2,650,000
Office of General Counsel .....	22,400,000
Office for Civil Rights and Civil Liberties .....	22,500,000
Citizenship and Immigration Services	
Ombudsman .....	6,200,000
Privacy Officer .....	8,491,000
.	
Total, Office of the Secretary and Executive Management .....	133,159,000

## Biometric Exit

Congress has long sought the Department’s determination on the path forward for implementing biometric exit, and the conferees have asked for a detailed plan to include costs. On October 17, 2011, the Secretary sent a letter to the chairmen and ranking members of relevant appropriations and authorization committees outlining general concerns about implementation, particularly the cost of such an undertaking, and proposing legislative changes to existing law. While the Secretary states, “DHS remains committed to introducing a biometric component to the exit process”, the letter does not constitute a detailed plan for implementation. Therefore, statutory language is included in this Act withholding funds from the Office of the Secretary until the plan is submitted, to include identifying associated costs.

## Office of Counternarcotics Enforcement

A total of \$1,800,000 is provided for “Office of Counternarcotics Enforcement” (CNE), which is available until March 30, 2012, to continue CNE operations while the Department conducts an orderly termination of the Office. This funding may be transferred to the Office of Policy, which is expected to assume policy development and coordination responsibilities currently assigned to CNE, and any such funds transferred will be available until September 30, 2012. The Assistant Secretary for Policy shall provide, as part of the requirement for an expenditure plan for the Office of Policy, a detailed description of any such transfers.

The termination of CNE reflects the need to streamline Executive Branch efforts to carry out the counternarcotics enforcement mission. Allowing the funds to be transferred to the Office of Policy will ensure the Department can integrate the existing CNE policy planning and coordination activities within the broader Department enforcement and security missions and make optimum use of the existing planning and operations elements of its key law enforcement agencies. It will also enable the Department, through the Office of Policy, to coordinate DHS policy and programs that are carried out with the Office of National Drug Control Policy and other Federal, State, local, and international government partners. As CNE will be terminated, the GAO is neither required to submit an assessment of progress in implementing OIG recommendations concerning CNE, nor to assess DHS counternarcotics coordination, as required in the House report.

## Expenditure Plans

The Department shall prepare expenditure plans for fiscal year 2012 for the agencies

funded under this appropriation as specified in the Senate report, with the exception of CNE which is being terminated. The plans shall be submitted to the Committees no later than March 30, 2012. The plan for the Office of Policy shall list planned projects for each sub-office within the Office of Policy, with their associated funding and staffing requirements. In addition, should the funds made available for either counternarcotics or risk management and analysis functions be transferred to the Office of Policy, as permitted by this Act, those resources should be delineated in the manner specified for each sub-office in the expenditure plan, including missions, planned expenditures, and activities. In addition to expenditure plans described above, the Act requires additional fiscal year 2012 expenditure plans, including a plan for TSA passenger screening and checked baggage technology programs, the Office of Infrastructure Protection and the National Cyber Security Division, the Office of Health Affairs, and the Federal Emergency Management Agency.

The Department has failed to deliver a number of statutorily required fiscal year 2011 expenditure plans, or has delivered them unacceptably late. The Department is expected to comply with Congressional direction and demonstrate the priority it places on these programs and submit required expenditure plans as directed and in accordance with the specified deadlines. The Department should already have these expenditure plans as part of its routine management activities; therefore, it is notable, and entirely inexcusable, that the Department did not, for example, submit fiscal year 2011 expenditure plans for the Office of Policy or US-VISIT—and it is well past the end of the fiscal year.

## Quarterly Reports

The Department is directed to continue submitting the quarterly Secure Border Initiative (SBI) reports, now to be called the Border Security Status Report. The new reports shall continue to include all performance metrics and resource data from past reports in their current format, with the exception that they no longer should include resource data on SBI total budget obligations and outlays and budget execution reports. That information already is contained in the annual Border Security Fencing, Infrastructure, and Technology expenditure plan. Additionally, the Department shall include the following in the report: (a) estimates of the impact of programs (such as Operation Streamline) that are intended to reduce the rate of recidivism of illegal border crossers; (b) for ports of entry, the maritime domain, and between the ports of entry: (1) estimates of total attempted border crossings; (2) the rate of apprehension of attempted border crossings; and (3) the inflow into the United States of illegal entrants that evade apprehension; and (c) data on the subsequent enforcement actions associated with Customs and Border Protection (CBP) apprehensions, such as voluntary return, expedited removal, transfer to Immigration and Customs Enforcement (ICE) custody, transfer for criminal prosecution, Mexican Interior Repatriation Program, and other categories necessary to provide an accurate accounting of such actions.

The Department is directed to submit quarterly reports on operations in a timely manner, including the overdue SBI Quarterly Status reports, the new Border Security Status Reports, the Secure Communities Quarterly Reports, and the Detention and Removal Operations Quarterly Reports. These

reports present critical operational statistics, readily available to the Department, which are necessary for appropriate oversight. However, in many instances, the Department has failed to provide these reports in accordance with specified deadlines, with submissions being so late that these reports limit the Committees' ability to ensure timely oversight.

#### Working Capital Fund

The Department shall include a separate justification in its fiscal year 2013 budget request for the Working Capital Fund (WCF), as specified in the House report. This justification shall identify and explain cross-cutting initiatives or activities that benefit multiple organizations and are not included in the WCF. The Department shall notify the Committees promptly of any changes made to the WCF during the fiscal year and should not use the WCF to support activities for which funding requests were previously disapproved by the Committees.

#### Official Reception and Representation Allowances

The Department is directed to submit quarterly reports to the Committees listing obligations for all DHS Reception and Representation Expenses by purpose and dollar amount, at a level of detail provided in fiscal year 2011, or in greater detail if that is required to explain how funds were used. The Department shall review the level of reception and representation allowances for its agencies and components to assure they align with missions and responsibilities and submit any proposed changes as part of the fiscal year 2013 budget request.

#### Coordination of Federal Chemical Security Efforts

The Department is expected to execute a Memorandum of Agreement between the National Protection and Programs Directorate and the Coast Guard regarding harmonization of chemical security responsibilities established by Chemical Facilities Anti-Terrorism Standards regulations and Maritime Transportation Security Act regulatory programs no later than March 30, 2012. The Deputy Secretary is directed to submit reports on chemical security efforts to the Committees on Appropriations as directed in the Senate report. However, the reports shall be submitted on a semi-annual basis instead of quarterly with the first report due no later than March 30, 2012.

#### Federally Funded Research and Development Centers

The Department is directed to report semi-annually to the Committees on Appropriations on projects tasked to Federally Funded Research and Development Centers as directed in the Senate report and to immediately submit reports for fiscal years 2010 and 2011, which are unacceptably late.

#### Cybersecurity

Both the Department of Homeland Security and the National Guard have capabilities, in conjunction with the private sector, to respond to issues related to cybersecurity. In an effort to improve coordination between the Federal government and the private sector and to exploit and enhance the capabilities of both sectors, the conferees direct the Deputy Secretary of DHS, jointly with the Deputy Secretary of Defense, to submit a report to the Committees no later than May 1, 2012, regarding the capabilities for a coordinated response to a cyber attack. The report shall evaluate the costs and benefits of deploying the National Guard, or other equivalent civilian teams, to supplement current

abilities to prevent and recover from a cyber attack. The report shall also include: a description of current activities of both DHS and the National Guard related to the deployment of teams to help prevent or recover from a cyber attack; the authorities of each Department, including the boundaries of such authorities and statutory changes that may be necessary to use joint authorities in a domestic response; a description of training and education efforts; and a discussion of how critical relationships can be established across the agencies to fulfill cybersecurity responsibilities.

#### Freedom of Information Act

The Privacy Officer is directed to report to the Committees on Appropriations no later than 30 days after the date of enactment of this Act on measures put in place to implement the OIG's recommendations to fix problems identified with the Department's Freedom of Information (FOIA) activities (OIG-11-67), including whether and how recent adjustments to DHS FOIA policies and procedures have improved the processing of inquiries, such as decreasing wait times for approval of significant requests.

#### Departmental Integrity Efforts

Since Congress initiated significant increases in funding for border security and immigration enforcement in 2005, CBP has hired more than 19,176 new employees, a 46 percent increase, and ICE has hired over 4,747 new personnel, a 31 percent increase. Since 2007, in an effort to reduce the potential for increased corruption, the Congress has provided over \$11,000,000 more than Presidents have requested for program integrity efforts. It is expected that the President will join Congress in the effort to get ahead of this problem by including increased resources in the fiscal year 2013 budget request.

#### OFFICE OF THE UNDER SECRETARY FOR MANAGEMENT

A total of \$235,587,000 is provided for "Office of the Under Secretary for Management," of which not to exceed \$2,500 shall be for official reception and representation expenses. Within this amount, \$5,000,000 shall be available until September 30, 2016, solely for costs of facilities alteration and improvement, tenant improvements, and relocations to consolidate DHS headquarters operations at the Nebraska Avenue Complex.

Pursuant to section 560, a total of \$55,979,000 is provided for "Office of the Under Secretary for Management" for costs associated with headquarters consolidation and mission support consolidation. These funds shall be prioritized towards the completion of phase I of the headquarters consolidation project at the St. Elizabeths site in order to avoid further increases to cost and schedule. The Under Secretary shall submit an expenditure plan no later than 90 days after the date of enactment of this Act detailing how these funds will be allocated, including a revised schedule and cost estimates for headquarters consolidation. Quarterly briefings are required on headquarters and mission support consolidation activities, including any deviation from the expenditure plan.

The amount provided for this appropriation by PPA is as follows:

Immediate Office of the Under Secretary for Management .....	\$2,550,000
Office of Security .....	70,000,000
Office of the Chief Procurement Officer .....	78,000,000
Office of the Chief Human Capital Officer:	

Salaries and Expenses .....	25,165,000
Human Resources Information Technology .....	14,172,000
Subtotal .....	39,337,000
Office of Chief Administrative Officer:	
Salaries and Expenses .....	40,700,000
Nebraska Avenue Complex .....	5,000,000
Subtotal .....	45,700,000
Total, Office of the Under Secretary for Management.....	235,587,000

#### Polar Icebreaker Program

None of the requested funding is provided for a new study of the need for Coast Guard icebreakers. Given the findings of previous reports and analyses of this issue, the Department is urged to develop a concept of operations and resource plan to meet national icebreaking needs, including leveraging expertise within the Coast Guard and Science and Technology Directorate. The Under Secretary shall brief the Committees on the status of this plan no later than 90 days after the date of enactment of this Act.

#### Comprehensive and Quarterly Acquisition Status Reports

Senate Report 111-31 directed the submission of quarterly acquisition reports for major acquisitions. The quarterly reports for fiscal year 2010 were not submitted to Congress at the end of each quarter as directed, but instead all four quarterly reports were combined into one report and submitted on April 12, 2011—over six months after the end of fiscal year 2010. This lack of responsiveness is unacceptable, especially since the information requested is already required by the Department as part of its own acquisition oversight process.

In order to obtain the information necessary for in-depth congressional oversight, statutory language is included in this Act under "Office of the Under Secretary for Management" that requires a Comprehensive Acquisition Status Report to be included as part of the submission of the President's fiscal year 2013 budget, with quarterly updates to be submitted 30 days after the completion of each quarter. The requirements for both reports are addressed below.

The Comprehensive Acquisition Status Report shall include programs identified for Major Acquisition Oversight as defined in the Department memorandum titled "Department of Homeland Security Major Acquisition Oversight List" dated January 25, 2011, and programs that have been classified for major acquisition oversight subsequent to the referenced memorandum.

The Comprehensive Acquisition Status Report shall include for each major acquisition:

1. A narrative description to include current gaps and shortfalls, the capabilities to be fielded, and the number of planned increments and/or units;
2. Acquisition Review Board (or other board designated to review the acquisition) status of each acquisition, including the current acquisition phase, the date of the last review and a listing of the required documents that have been reviewed with the dates reviewed and/or approved;
3. The most current approved Acquisition Program Baseline (to include project schedules and events);
4. A comparison of the original Acquisition Program Baseline, the current Acquisition Program Baseline, and the current estimate;

5. Whether or not an Independent Verification and Validation has been implemented, with an explanation for the decision and a summary of any findings;

6. A rating of cost risk, schedule risk, and technical risk associated with the program (including narrative descriptions and mitigation actions);

7. Contract status (to include earned value management data as applicable);

8. A life-cycle cost of the acquisition, and time basis for the estimate;

9. A planned procurement schedule, including the best estimate of the annual cost and increments/units to be procured annually until procurement is complete;

10. A table delineated by appropriation that provides (for prior years; past year; current year; budget year; budget year plus one; budget year plus two; budget year plus three; budget year plus four and beyond; and total cost) the actual or estimated appropriations, obligations, unobligated authority, and planned expenditures;

11. The reason for any significant changes (from the previous comprehensive report) in acquisition quantity, cost, or schedule;

12. Key Events/Milestones from the prior fiscal year; and

13. Key Events/Milestones for the current fiscal year.

Quarterly reports shall include:

1. An updated status report on any major acquisition for which there has been an approved or a new acquisition program baseline, a new acquisition decision memorandum, or where there has been significant deviation from the prior report with respect to acquisition cost, quantity, or schedule (a significant change is any deviation in cost or quantity that exceeds eight percent or any change in schedule that exceeds six months).

2. A table depicting the title of the program, quantity and cost based on the original Acquisition Program Baseline, quantity and cost based on the most current acquisition program baseline, the quantity and cost of the most current estimate, and the explanation for any change in quantity and cost from prior reports.

3. If applicable, a copy of the acquisition decision memorandum, together with a copy of the Letter of Assessment signed by the Director of Testing and Evaluation.

The requirements described under this heading shall replace those included in Senate Reports 111-31 and 112-74.

#### Office of the Chief Procurement Officer

A total of \$78,000,000 is provided for "Office of the Chief Procurement Officer" (OCPO), including an increase of \$3,403,000 to enhance DHS acquisition capabilities.

OCPO shall brief the Committees no later than February 15, 2012, on its acquisition workforce initiative, as directed in the House and Senate reports, including: a baseline analysis of its workforce and requirements used in defining the gaps in DHS acquisition capacity and determining the skill sets and positions needed to fill those gaps; risks of not filling needed positions; and the long-term strategy to close competency gaps. In cases where component requests for the Federal Acquisition Workforce Initiative were not funded at the requested amount, components should use existing appropriations and fee authority to hire and train highly qualified acquisition personnel for which there are clearly defined requirements.

#### Office of the Chief Human Capital Officer

A total of \$39,337,000 is provided for "Office of the Chief Human Capital Officer"

(OCHCO), including an increase of \$688,000 for salaries and expenses to enhance the Balanced Workforce Program Office, workforce training, and leadership development. A total of \$14,172,000 is included for the Human Resources Information Technology program.

#### Secretary's Efficiency Review and the Balanced Workforce Initiative

The Under Secretary for Management and the Chief Human Capital Officer are directed to brief the Committees on Appropriations no later than February 15, 2012, on the results of the Secretary's Efficiency Review and the ongoing Balanced Workforce Initiative. The briefing should cover, by priority, efficiencies identified through the Review and progress in implementing them; components and specific procurements where additional oversight personnel are required and where they are being or are planned to be deployed; and how reforms in headquarters structure and function are improving support and management for Department field operations. The briefing should cover the status of the ongoing Balanced Workforce Initiative; provide the most current list of positions DHS plans to convert from contractor to Federal positions, and progress against that list; and discuss estimated savings from that effort and the methodology used to calculate those savings.

The Department is directed to arrange for an independent evaluation of its efficiency review and provide the results to the Committees on Appropriations no later than 30 days after its completion.

#### OFFICE OF THE CHIEF FINANCIAL OFFICER

A total of \$50,860,000 is provided for "Office of the Chief Financial Officer." The amount provided includes a decrease from the budget request of \$11,000,000 for the Transformation and Systems Consolidation (TASC) project due to the Department's decision to cancel acquisition plans for TASC.

#### Annual Budget Justifications

Both Senate and House reports call for improvements in the content, detail, and format of annual Congressional Budget Justifications submitted by the Department and its components. It is essential to the work of Congress that such information be timely, accurate, concise, and organized in such a way that facilitates the comparison of current with proposed appropriations for programs, projects, and activities. Developing comprehensive and clear justifications not only disciplines the planning and resource allocation process but could also reduce the need for ancillary budget explanations and program and project expenditure plans and the associated withholding of funding necessitated by the Department's failure to submit these in a complete or timely manner.

Current budget presentation materials, while lengthy and containing a wide range of program data, do not uniformly provide the information the Committees need to assess the impact of the funding being proposed, how it compares to prior year actual appropriations and funded FTE levels, or to evaluate activities proposed to be continued, terminated, or initiated. Terminology is sometimes ambiguous, or used inconsistently, including terms such as interagency transfers or "transfers" between PPAs; adjustments to base; "authorized" rather than "funded" position and FTE levels; or unspecified references to "technical adjustments" or "administrative savings."

Current services descriptions of agency activity and accomplishments, while providing a context for agency operations and budgets, should be consolidated and presented sepa-

ately from the core justification for appropriations.

To address the concerns described above, the Chief Financial Officer is directed to ensure that fiscal year 2013 budget justifications for classified and unclassified budgets of all Department components are submitted on February 6, 2012, concurrent with the President's budget submission to Congress. The justifications shall include:

1. Detailed data and explanatory descriptions for each appropriations request, and for each PPA reflected in the table accompanying this statement, including offices that have been identified as PPAs. Information regarding actual and planned accomplishments should be in quantifiable terms and demonstrate a direct relationship to funding;

2. Tables that reflect actual and estimated funding by PPA for fiscal years 2011 and 2012; identify each increase, decrease, transfer, and staffing change proposed in fiscal year 2013; and explain such year-to-year changes in terms that are clear and unambiguous, and exclude nonspecific terms such as "technical adjustment" or "administrative savings" unless accompanied by a detailed explanation. To establish a common baseline reference, the fiscal year 2012 discretionary data shall tie to the fiscal year 2012 discretionary total in the table accompanying this statement or have a table identifying each change. Explanations of adjustments to base funding, whether increases or decreases, should be specific, and programmatic changes and initiatives should be clearly identified and justified;

3. For each PPA that is comprised of acquisition and procurement activity, the justification should address all proposed spending using a zero-based budget description;

4. Information by appropriations account and PPA on all reimbursable agreements and significant uses of the Economy Act for each fiscal year;

5. A detailed table identifying the last year that authorizing legislation was enacted into law for each PPA, including the amount of the authorization and the appropriation in the last year of authorization;

6. The text and citation of all Department appropriations provisions enacted to date that are permanent law;

7. Explanations and justifications for all proposed legislative language changes, whether they are new or amend existing law, whether they are substantive or technical in nature, with an annotated comparison of proposed versus existing language; and

8. A report on the status of overdue Committee reports, plans, and briefings for each of fiscal years 2011 and 2012.

Consistent with section 874 of Public Law 107-296, the Department shall submit a Future Years Homeland Security Program budget as part of the fiscal year 2013 budget justification, reflecting anticipated spending for fiscal years 2013-2017. It shall be in unclassified form so as to be accessible to the general public.

#### Financial Management Improvement

The Office of the Chief Financial Officer is directed to keep the Committees fully informed on financial management improvement plans for the Department, as required in the House and Senate reports, including any centralized or decentralized solutions that would fulfill the objectives originally set for the TASC project and any plans for integrating the Department's remaining management systems for acquisitions and assets. Balances remain available for TASC from prior-year appropriations, which may

be obligated for TASC closeout costs or obligated for additional financial management plans in fiscal year 2012 if a new strategy is approved by the DHS Acquisition Review Board and if the Department completes an independent evaluation to validate that strategy prior to obligation of any of these funds. In order to maintain other Department-wide management initiatives, \$5,000,000 is rescinded from unobligated balances related to this effort. This rescission is from funds appropriated in fiscal years 2005 and 2006.

#### Nuclear Detection Technology Acquisition

The Office of Program Analysis and Evaluation is directed to undertake an evaluation of the Department's current approach to acquisition of technology and systems for its nuclear detection mission, which is presently conducted through the Domestic Nuclear Detection Office, and an analysis of alternative approaches, including assigning acquisition responsibilities and resources to component agencies that own and operate the technology. The evaluation shall include a cost-benefit analysis of the relevant options. The results of this review shall be submitted to the Committees no later than 120 days after the date of enactment of this Act.

#### User Fees

The Department is directed to continue submitting user fee collections and balances on a semi-annual basis rather than quarterly, including steps taken to mitigate any shortfalls in collections.

#### OFFICE OF THE CHIEF INFORMATION OFFICER

A total of \$257,300,000 is provided for "Office of the Chief Information Officer."

The amount provided for this appropriation by PPA is as follows:

Salaries and Expenses .....	\$105,500,000
Information Technology Services .....	38,800,000
Infrastructure and Security Activities .....	69,000,000
Homeland Secure Data Network .....	44,000,000

Total, Office of the Chief Information Officer .....

Salaries and Expenses

A total of \$105,500,000 is provided for "Salaries and Expenses." Within the funding provided for this appropriation, \$253,000 is provided to strengthen acquisition workforce capabilities.

#### Infrastructure and Security Activities

A total of \$69,000,000 is provided for "Infrastructure and Security Activities." The multi-year investment and management plan shall include details on how the activities under this heading are to be funded.

#### Data Center Migration

Section 556 provides \$70,000,000 for data center migration. The CIO shall notify the Committees on the initial allocation of this funding within 45 days after the date of enactment of this Act. The CIO shall continue to provide quarterly briefings to the Committees on the progress of data center development and migration. Given that component data center migration schedules may shift during the course of the fiscal year based on changing circumstances and priorities the general provision includes authority for the Secretary to transfer funds made available for data center migration, as necessary, among components based on revised schedules and priorities with 15 days prior notice to the Committees.

#### ANALYSIS AND OPERATIONS

A total of \$338,068,000 is provided for "Analysis and Operations," of which \$141,521,000

shall remain available until September 30, 2013. No funding is provided for the C2 Gap Filler Technology initiative. The Department's Chief Intelligence Officer is directed to submit an expenditure plan no later than 60 days after the date of enactment of this Act to the Committees, as required in the Senate report. Additional information on funding levels and reporting requirements are detailed in the classified annex accompanying this statement.

#### State and Local Fusion Center Program

The Office of Intelligence and Analysis (I&A) is directed to develop robust programmatic justification to better identify and quantify the Federal benefit and return on investment from the State and Local Fusion Center (SLFC) program. I&A shall submit such justification at the time the President's fiscal year 2013 budget is submitted and provide semi-annual briefings on the fusion center program, in lieu of a quarterly reporting requirement in the House report and quarterly briefing requirements in the Senate report. The first briefing shall occur no later than February 15, 2012, conform to the requirements outlined in the Senate report, and include metrics to judge the success of the SLFC program.

#### Office of Inspector General

A total of \$141,000,000 is provided for "Office of Inspector General," including \$117,000,000 in direct appropriations and \$24,000,000 transferred from the Disaster Relief Fund (DRF) for audits and investigations related to that funding. The OIG is directed to submit a plan for expenditure of all funds no later than 30 days after the date of enactment of this Act, in lieu of the 90 day requirement in the Senate report. The Office is further directed to notify the Committees of all transfers from the DRF by including them in the Department of Homeland Security Chief Financial Officer's monthly budget execution reports submitted to the Committees, in lieu of the 15-day advance notification required in the Senate report. These reports shall satisfy the requirements for notification of DRF transfers under section 503 of this Act.

#### Integrity Investigations

Within the funding provided for this appropriation, an increase of no less than \$4,000,000 is provided for integrity investigations. In lieu of the 45-day requirement in the Senate report OIG is directed to submit, no later than 30 days after the date of enactment of this Act, a plan for expenditure of integrity oversight funds in coordination with CBP and ICE. This plan shall be submitted along with the overall expenditure plan for OIG.

#### TITLE II—SECURITY, ENFORCEMENT, AND INVESTIGATIONS

##### U.S. CUSTOMS AND BORDER PROTECTION SALARIES AND EXPENSES

A total of \$8,680,118,000 is provided for "Salaries and Expenses." The request for Headquarters, Management, and Administration is reduced by \$3,452,000 for the Acquisition Workforce Initiative, the data center migration funds, and \$10,400,000 in additional administrative savings. Data center migration is funded through a general provision. The funding level also reflects an additional \$5,000,000 for integrity programs.

Border Security Inspections and Trade Facilitation is funded at \$2,484,235,000, including the following for requested initiatives: \$44,407,000 for the adjustment for law enforcement journeyman pay costs; \$86,109,000 for prior year annualization of 963 CBP officers; \$20,692,000 for an additional 300 CBP of-

ficers at new and expanded ports of entry; \$2,212,000 for additional canine units at ports of entry; and \$7,499,000 to expand the Immigration Advisory Program to four additional locations. Funds provided for the following critical operations include increases above the request:

\$74,557,000 for International Cargo Screening, including \$3,287,000 for the Secure Freight Initiative and \$71,270,000 for the Container Security Initiative;

\$41,400,000 for Automated Targeting Systems which will enable enhancements to one of the Department's most effective counterterrorism and security capabilities;

\$51,950,000 for the National Targeting Center, including the requested increase of \$16,400,000 for 45 new CBP officers and 20 new analysts, as well as an additional \$5,000,000 to ensure operations are appropriately staffed; and

\$151,298,000 for trade compliance and enforcement efforts in the Office of Trade, including an increase of \$5,000,000 for personnel, enhanced targeting, and strategy development.

The enacted funding level has been adjusted to reflect the passage of Public Law 112-42, which removed the exemption from COBRA fee collections for certain travelers. This will result in additional revenue of \$110,000,000 annually and \$83,000,000 in fiscal year 2012, to support CBP inspection services. Such revenue is to directly support 21,186 CBP officers.

Border Security and Control between Ports of Entry is funded at \$3,619,604,000, which reflects an increase of \$191,459,000 for prior year annualization of 1,000 additional agents along with support personnel funded in the fiscal year 2010 Border Security Supplemental, as well as \$184,717,000 for the adjustment for law enforcement journeyman pay costs, as requested. This overall level will support a Border Patrol agent force of 21,370 (compared to 12,349 in fiscal year 2006), including 2,212 deployed to the Northern Border and 18,415 deployed to the Southwest Border.

The amount provided for this appropriation by PPA is as follows:

Headquarters, Management, and Administration:	
Management and Administration, Border Security Inspections and Trade Facilitation .....	\$667,794,000
Management and Administration, Border Security and Control between Ports of Entry ...	717,309,000
Rent .....	483,749,000

Subtotal, Headquarters Management and Administration .....	1,868,852,000
Border Security Inspections and Trade Facilitation:	
Inspections, Trade, and Travel Facilitation at Ports of Entry .....	2,484,235,000
Harbor Maintenance Fee Collection (Trust Fund) International Cargo Screening .....	3,274,000
Other international programs .....	74,557,000
Customs-Trade Partnership Against Terrorism (C-TPAT) .....	10,684,000
Trusted Traveler Programs .....	44,979,000
Inspection and Detection Technology Investments .....	6,311,000
	148,537,000

Automated Targeting Systems .....	41,400,000
National Targeting Center .....	51,950,000
Training .....	37,834,000
Subtotal, Border Security Inspections and Trade Facilitation ....	2,903,761,000
Border Security and Control between Ports of Entry:	
Border Security and Control .....	3,530,994,000
Training .....	88,610,000
Subtotal, Border Security and Control between POEs .....	3,619,604,000
Air and Marine Operations .....	287,901,000
Total, CBP Salaries and Expenses .....	\$8,680,118,000
Revised Budget Structure	

CBP is directed to propose a subdivision of the Inspections, Trade, and Travel Facilitation at Ports PPA and the Border Security and Control PPA within the "Salaries and Expenses" appropriation in conjunction with the budget submission for fiscal year 2013. At funding levels of \$2,484,235,000 and \$3,530,994,000, respectively, the PPAs and the accompanying budget justifications have not provided adequate detail for appropriate oversight of these funds. CBP shall brief the Committees on its proposed structure prior to submission of its budget request. For instance, each PPA could be subdivided into budget activities, such as: officer or agent pay, civilian pay, equipment, operations and maintenance, and procurement. CBP should provide a crosswalk from the 2012 budget structure to the new 2013 budget structure so that the Committees can easily compare funding levels for the activities within these new PPAs.

Further, CBP is directed to comply with the direction included under the heading "Office of Chief Financial Officer" with respect to improved budget justifications.

#### Financial Plan by Office Requirements

CBP is directed to provide the financial plan by office as required by the Senate report. In addition, CBP shall include its estimate by office with the budget justification material for fiscal year 2013.

#### Staffing and Fees Supporting CBP Port of Entry Operations

CBP is directed to submit its staffing model for Field Operations no later than February 15, 2012. In addition, CBP shall address the reporting requirements related to manpower and innovation in the House report and considerations related to the staffing model in the Senate report.

#### Outbound Inspections

CBP shall brief the Committees no later than February 15, 2012, on its plans for outbound operations, as outlined in the House report, and its 3-year strategy to improve and deploy technology for outbound inspections, as discussed in the Senate report.

#### Entry Process Improvements for Travelers

CBP shall submit a report no later than February 15, 2012, on actions taken to improve the entry process, as discussed in the Senate report.

#### Trusted Traveler Programs

The Department shall brief the Committees on all DHS trusted traveler programs, as discussed in the Senate report, no later than February 15, 2012.

#### Cargo Screening Activities

As discussed in the House and Senate reports, CBP shall brief the Committees no later than February 15, 2012, on its guidelines regarding low risk shipments and how it is improving trade processing and coordination.

#### Non-Intrusive Inspection and Radiation Detection Equipment

CBP is required to provide an investment and management plan for CBP's Non-Intrusive Inspection and Radiation Detection Equipment needs. The plan shall address all funds from all sources, not just the Inspection and Detection Technology PPA, including funding within the Domestic Nuclear Detection Office "Systems Acquisition" appropriation.

#### Automated Targeting Systems and National Targeting Center

CBP shall brief the Committees no later than January 13, 2012, on the use of the additional funds provided for these critical activities.

#### Maritime Supply Chain Security

No funds are provided for the 100 percent scanning pilots proposed in the President's budget request. DHS has failed to provide any details or plans regarding how the proposed \$7,500,000 would be used. Furthermore, while the Administration has been working on a supply chain security strategy to address this mandate, it has still not been submitted to the Committees. For that reason, these funds have been applied to address shortfalls in the request for the Container Security Initiative, a key supply chain security layer.

#### Border Patrol and Border Security between Ports of Entry

CBP shall submit a report to the Committees no later than 90 days after the date of enactment of this Act on its five-year staffing and deployment plan for the Border Patrol. In addition, the budget justification for fiscal year 2013 shall include a plan detailing staffing and funding for the Northern Border. CBP and ICE shall provide semi-annual briefings on assaults on personnel, threats to the border, and progress made on addressing the threats as required in the Senate report, with the first briefing no later than February 15, 2012. At the first briefing, CBP also shall brief on funds allocated for the health, welfare, and safety of Border Patrol agents, as directed in the House report.

#### Access to Federal Lands

As provided in the House report, the Departments of Homeland Security, Agriculture, and Interior are directed to brief the Committees no later than February 15, 2012, on their plan to address the Border Patrol's access to Federal lands, as appropriate and necessary, to ensure the border security of the United States. DHS shall also brief the Committees no later than February 15, 2012, on its implementation of GAO's recommendations for border security coordination on Southwest Federal lands contained in GAO-11-38 and GAO-11-177.

#### Joint Field Command Structure

While CBP allocated funds within its budget for the Joint Field Command (JFC), it is important to understand the cost-benefit for establishing the JFC and whether CBP intends to establish this concept in other areas along the border. As discussed in the House and Senate reports, CBP is directed to brief the Committees no later than February 15, 2012.

#### Integrity Programs

An additional \$5,000,000 above the amount requested is provided for CBP's integrity

programs, for a total of \$165,681,000. CBP is directed to provide the briefing required in the House report by January 13, 2012.

#### Detention Statistics

CBP is directed to review how it collects and manages information about individuals arrested and detained in CBP custody for less than 72 hours, including the facilities used for detaining such individuals. The review shall include ways to address data quality, standardize definitions, and utilize current reporting systems to routinely report on short-term detention. In a briefing to occur no later than 120 days after the date of enactment of this Act, CBP shall brief the Committees on its review and on its policies and procedures relating to conditions of facilities and what standards govern the conditions and duration of custody.

#### Trade Compliance and Enforcement

An additional \$5,000,000 above the amount requested is provided for trade compliance and enforcement efforts. CBP is directed to submit to the Committees the reports specified in the Senate report, including the 3-year trade compliance strategy and the antidumping and countervailing duty reports, within the timeframes detailed in that report. In addition, CBP shall submit the reports under the headings "Textile Transshipment Enforcement" and "Circumvention of Customs Duties—Imports from China," as discussed in the House report, within the timeframes detailed in that report.

#### MULTI-YEAR INVESTMENT AND MANAGEMENT PLANS

As provided in section 568, CBP is required to submit a multi-year investment and management plan with the congressional budget justification materials for all appropriated funds from all sources executed by the Office of Information Technology (OIT) to provide a full picture of CBP's information technology activities. It is expected that the acquisition program baselines for Level I and II programs under OIT will be provided as part of the comprehensive acquisition status reports provided by the under Secretary for management.

A similar requirement is also included for funds in the "Border Security Fencing, Infrastructure, and Technology" (BSFIT) appropriation.

#### Transportation of Aliens

In response to OIG inquiries and OIG 11-27, CBP has taken great strides to streamline its costs associated with transportation and removal of aliens between Field Operations and Border Patrol. ICE has also made progress in analyzing and more efficiently managing its transportation costs. The next step, however, has not been taken in a comprehensive manner—exploring options for coordination of transportation locally, regionally, and nationally, or sharing of transportation resources between CBP and ICE given constrained resources across DHS. CBP and ICE are directed to brief the Committees no later than 180 days after the date of enactment of this Act on the results of their joint efforts to take advantage of such efficiencies.

#### OFFICE OF TECHNOLOGY INNOVATION AND ACQUISITION

There is no clear plan for the Office of Technology Innovation and Acquisition (OTIA), including staffing and financing. CBP does not have authority to use funds provided to the "Automation Modernization" or the BSFIT appropriations for OTIA expenses. If additional funding from appropriations outside of "Salaries and Expenses"

can be justified, a transfer request must be submitted pursuant to section 503 of this Act. All funds for OTIA shall be requested within the "Salaries and Expenses" appropriation for fiscal year 2013.

#### Invasive Species

CBP is directed to fund activities associated with control of invasive species, such as Carrizo cane, from within the BSFIT appropriation.

#### AUTOMATION MODERNIZATION

A total of \$334,275,000 is provided for "Automation Modernization." Of that amount, not less than \$140,000,000 is for the Automated Commercial Environment (ACE). As provided in a general provision, CBP is required to submit a multi-year investment and management plan with the congressional budget justification materials for all funds executed by OIT to provide a full picture of CBP's information technology activities.

#### ACE and International Trade Data System

CBP shall brief the Committees on a quarterly basis on ACE progress, including the same information they have previously provided in quarterly reports. CBP shall use funds as necessary for the International Trade Data System (ITDS). Furthermore, prior year balances for ITDS are available for other priorities, such as ensuring completion of Cargo Release as planned. At the second quarterly briefing of fiscal year 2012, CBP shall provide its plans for use of these prior year balances.

#### TECS

CBP and ICE are directed to jointly brief the Committees on the status of modernization efforts, including their progress and plans forward, on a semi-annual basis.

#### BORDER SECURITY FENCING, INFRASTRUCTURE, AND TECHNOLOGY

A total of \$400,000,000 is provided for BSFIT. Within the total provided under this heading, \$20,000,000 is for Northern Border technology, \$40,000,000 is for tactical communications, and \$3,000,000 is for environmental assessment and mitigation, as requested. When the amount made available under this heading is combined with unobligated balances, a total of \$774,874,359 is available for this function in fiscal year 2012.

While it is clear that the Border Patrol requires additional tools and technology to execute its critical mission, concerns remain about the proposed Arizona Border Technology Plan and the administration's slow execution of funds provided in this appropriation. The prolonged delay in procurements, particularly for purchase and upgrade of Remote Video Surveillance Systems, is extremely concerning. Further, the fact that the President's request includes a plan to procure three off-the-shelf integrated fixed tower systems after the Secretary's decision to terminate SBInet, despite the benefits now being realized by the Border Patrol from the system, raises questions. Under the best of circumstances, the contract for two of these towers would not be awarded until the summer of 2012, delaying the execution of the associated funds into fiscal year 2013. As a result, \$60,000,000 is withheld for obligation from this appropriation until a detailed expenditure plan is provided to the Committees, no later than 90 days after the date of enactment of this Act. The expenditure plan shall clearly specify how DHS proposes to allocate funds among the BSFIT PPAs.

#### Multi-Year Investment and Management Plan

A new multi-year investment and management plan for BSFIT funds is required to be

submitted by the Commissioner with the fiscal year 2013 budget request. To the extent possible, CBP is encouraged to incorporate requirements from the multi-year investment and management plan into the fiscal year 2012 expenditure plan.

#### Invasive Species

CBP is directed to fund activities associated with control of invasive species, such as Carrizo cane from within the BSFIT appropriation.

#### Review of Contracts and Task Orders

The Inspector General is no longer required to review contracts and task orders on SBInet pursuant to conference report 109-699 accompanying P.L. 109-295.

#### Communications Along the Border

DHS is encouraged to explore the establishment of public-private partnerships with cellular carriers, residents, and State and local governments to extend mobile communications capabilities in isolated border areas with limited cellular coverage for the purposes of public safety.

#### AIR AND MARINE INTERDICTION, OPERATIONS, MAINTENANCE, AND PROCUREMENT

A total of \$503,966,000 is provided for "Air and Marine Interdiction, Operations, Maintenance, and Procurement." The funding includes \$365,087,000 for operations and maintenance and \$138,879,000 for procurement. The procurement funds include an additional \$6,900,000 for UH-60 Black Hawk conversions (to ensure completion of two conversions) and \$22,500,000 for purchase of an additional multi-enforcement aircraft (a high priority for CBP, particularly important given the increasing aircraft retirements CBP expects). Given the increasing reliance by CBP on unmanned aircraft systems (UAS) for patrolling our borders, \$4,000,000 is provided above the request for UAS operations and maintenance. It is imperative that sufficient funds be included in the fiscal year 2013 budget to operate and sustain these systems over multiple shifts.

#### Civil Air Patrol

As directed in the House report, the Comptroller General shall provide a report regarding the functions and capabilities of the civil air patrol in homeland security. The report shall be submitted no later than November 1, 2012.

#### Aircraft Upgrades

CBP is required to update its 5-year strategic recapitalization plan, which should also include direction outlined in the Senate report. Strong support for CBP's service life extension program (SLEP) for the P-3 fleet is reiterated. Further, CBP is directed to brief the Committees on its decision regarding the inclusion of the last two P-3's in the SLEP no later than the submission of the President's fiscal year 2013 budget request.

#### Unmanned Aircraft Operations

CBP is directed to brief the Committees on its efforts with the Department of Defense and the Federal Aviation Administration on ways to increase effective use of CBP air assets, including UAS. Further, the briefing shall include information regarding any restrictions on UAS operations related to availability of air traffic control.

#### CONSTRUCTION AND FACILITIES MANAGEMENT

A total of \$236,596,000 is provided for "Construction and Facilities Management." The funding includes \$182,500,000 for Facilities Construction and Sustainment and \$54,096,000 for Program Oversight and Management. Statutory language is included directing the

Commissioner to submit annually a real property inventory and requiring submission with the budget request of an annually-updated 5-year plan for all port of entry projects.

#### Future Land Border Port of Entry Requirements

As detailed in the Senate report, the Department shall work with the General Services Administration and the Office of Management and Budget on a multi-year strategy to address land border port of entry construction requirements and financing options, including the use of public-private partnerships.

#### U.S. IMMIGRATION AND CUSTOMS ENFORCEMENT

##### SALARIES AND EXPENSES

A total of \$5,528,874,000 is provided for "Salaries and Expenses" to ensure robust enforcement of our Nation's immigration laws. Within this amount, no less than \$1,600,000,000 is allocated to finance ICE's various efforts to identify aliens with criminal records who are incarcerated or at-large, and to remove those who are deportable. Of this amount, \$189,064,000 is provided for continued expansion of the Secure Communities program, \$5,000,000 above the President's budget request, to digitize paper fingerprint cards and enroll them into DHS's Automated Biometric Identification System (IDENT). An additional \$4,400,000 is provided for the Visa Security Program above the request to support expansion. The request for Headquarters, Management, and Administration was reduced by \$3,591,000 for the Acquisition Workforce Initiative, the data center migration funds, and \$1,000,000 in additional administrative savings. Data center migration is funded through a general provision.

In addition, ICE is directed to comply with the direction included under the heading "Office of Chief Financial Officer" with respect to improved budget justifications.

The amount provided for this appropriation by PPA is as follows:

Headquarters Management and Administration:	
Personnel, Compensation and Benefits, Services and Other Costs .....	\$233,251,000
Headquarters-Managed IT Investments .....	184,227,000
Subtotal, Headquarters Management and Administration .....	417,478,000
Legal Proceedings .....	215,935,000
Investigations:	
Domestic Investigations ....	1,725,234,000
International Investigations:	
International Operations .....	114,928,000
Visa Security Program ...	33,889,000
Subtotal, International Investigations .....	148,817,000
Subtotal, Investigations .....	1,874,051,000
Intelligence .....	81,503,000
Detention and Removal Operations:	
Custody Operations .....	2,050,545,000
Fugitive Operations .....	154,597,000
Criminal Alien Program .....	196,696,000
Alternatives to Detention .....	72,373,000

Transportation and Removal Program .....	276,632,000
Subtotal, Detention and Removal Operations .....	2,750,843,000
Secure Communities .....	189,064,000
Total, ICE Salaries and Expenses .....	5,528,874,000
ICE Domestic Investigations	

For ICE Domestic Investigations, \$1,725,234,000 is provided. ICE is directed to continue to provide quarterly data on investigative activities and expenditures on a timely basis. Of the funds above the request, \$4,000,000 is for enhancing investigations of antidumping/countervailing duty (AD/CVD) violations, intellectual property rights (IPR) investigations, and severe forms of human trafficking and smuggling activities. ICE is directed to submit to the Committees a plan for expenditure of these additional, targeted resources within 90 days after the date of enactment of this Act. The conferees also direct ICE to submit by February 13, 2012, a 3-year strategy to improve AD/CVD enforcement, per the Senate report, and the information required on the National IPR Coordination Center in the House report.

#### Improving Immigration Enforcement Activities

A total of \$12,000,000 above the request is provided to improve immigration enforcement activities, of which \$5,000,000 is included in Secure Communities for digitization of paper fingerprint cards from legacy immigration files. Both the House and Senate reports outlined areas for focus, such as: Developing a comprehensive strategy to address the visa overstay problem, modernizing the Alien Criminal Response Information Management System (ACRIME) to support the identification of criminal aliens and individuals attempting to overstay a visa, enhancing ICE capabilities for law enforcement support for immigration-related inquiries from State and local law enforcement, and digitizing old fingerprint records. ICE is directed to brief the Committees, with US-VISIT and other DHS components as appropriate, on its plan for utilization of these funds, no later than 60 days after the date of enactment of this Act. ICE is also directed, in conjunction with US-VISIT and United States Citizenship and Immigration Services (USCIS), to report to the Committees no later than 120 days after the date of enactment of this Act on the methodology of prioritizing files for the digitization effort as well as the overall projected cost of the project to ensure electronic availability of appropriate biometrics in IDENT.

#### Law Enforcement Support Center

The Law Enforcement Support Center (LESC) is the national entity which provides, among other things, immigration status information about individuals encountered by State and local law enforcement agencies. The significant expansion of Secure Communities has increased the status inquiries submitted by law enforcement. Recently, the LESO has been reorganized and the functions split between the Office of Investigations and Detention and Removal Operations. Prior to the reorganization, the LESO had the flexibility to move personnel between the functions depending on workload, but it now appears that flexibility has been lost. Additionally, as Secure Communities has matured, some of the early resource allocation decisions would benefit

from further review, specifically regarding the creation of the Interoperability Response Centers. ICE is directed to review the separation of LESO functions and the requirements of the Interoperability Response Centers and brief the Committees 90 days after the date of enactment of this Act. In addition, concerns have been raised about the progress of modernization of the information technology systems that sustain the Law Enforcement Support Center, such as ACRIME. ICE is directed to brief the Committees no later than 30 days after the date of enactment of this Act on the current status of ACRIME modernization and any revised development timelines.

#### Visa Security Program

A total of \$33,889,000 is provided for the ICE Visa Security Program, an increase of \$4,400,000 above the amount requested for expansion of the program to two additional overseas consular posts. ICE is directed to brief the Committees in a classified format no later than 60 days after the date of enactment of this Act on its plan for utilizing these additional funds.

#### Investigative Resources

ICE is directed to brief the Committees no later than February 15, 2012, on its efforts throughout the Caribbean basin, as outlined in the House report.

#### Intelligence

ICE is encouraged to ensure the Office of Intelligence supports investigations into AD/CVD violations, IPR violations, and human trafficking and smuggling organizations.

#### Detention and Removal Operations

A total of \$2,750,843,000 is provided for ICE Detention and Removal Operations, \$26,718,000 more than the request to raise the minimum number of detention bed spaces that ICE must maintain on a daily basis to 34,000. ICE is directed to intensify its enforcement efforts, fully use these resources, and manage detention and removal costs as efficiently as possible. As outlined in the House report, ICE is directed to provide comprehensive, regular briefings to the Committees on all steps being taken to reduce the costs of detention and removal, including: strategies to minimize transportation costs and house detainees at the lowest cost facilities; working with the Executive Office of Immigration Review (EOIR) to speed processing consistent with due process; continuing to review contracts to ensure maximum flexibility and lowest cost to ICE; and considering the cost-benefits of public and private providers for all services, including food and medical services. As required in the House and Senate reports, ICE is directed to brief the Committees on its detention bed space funding model, providing details on its bed space costs across the country and on the components of those costs, including food, medical, mental health, dental, pharmacy, and electronic health record services by location, and whether these components are provided by public agencies or private contract services. Such services must be aligned to humanitarian needs and should be provided in a cost-effective manner. The first comprehensive briefing shall take place no later than 30 days after the date of enactment of this Act.

Additionally, ICE is encouraged to look at ways to increase the short-term detention capacity in certain regions of the United States while minimizing the loss of existing detention capacity, personnel, and contracts at other facilities. ICE shall brief the Committees semi-annually on its efforts regard-

ing detention space alternatives, as discussed in the Senate report.

#### Secure Communities

A total of \$189,064,000 is provided to continue implementation of the Secure Communities program. ICE is directed to continue quarterly reports on the Secure Communities program, submit those reports within 45 days of the close of the quarter, and provide briefings within 45 days of the close of the quarter. Further, ICE is directed to develop analyses, for inclusion in these reports, to track the effect Secure Communities is having on ICE detention facilities, the EOIR docket, and the speed with which ICE is able to remove criminal aliens and high-risk detainees from the country once they are judged deportable. The reports shall also provide statistics on results of the program, including the number of individuals administratively arrested by ICE in each jurisdiction by the crime for which they are charged and the crime for which they have been convicted (if applicable); the number of individuals whom ICE identifies each quarter and intends to administratively arrest but must await the adjudication of the individual's criminal charges and/or the completion of a sentence as well as identify the crimes for which they are charged and crimes for which they have been convicted (if applicable); and the number of removals achieved as a result of the program, as outlined in the Senate report. Additionally, the briefings shall include quarterly data on the number of instances in which Secure Communities identifies when someone who is arrested is in this country illegally, the number of times ICE issues a detainer on such individuals (delineated by categories stipulating the reasons why a decision is made to issue or not issue a detainer), and the number actually deported.

Secure Communities is an effective and significant law enforcement tool; its deployment and use should not be hampered by any jurisdiction or official. It is important to remember that Secure Communities is applied to everyone booked into a jail. All individuals are treated the same, and no profiling occurs. Through the use of biometrics, ICE is able to determine not only an individual's immigration status, but also if the individual has committed more serious crimes in the past.

ICE is directed to brief the Committees no later than February 15, 2012, on any considerations associated with realigning the Secure Communities program under the Criminal Alien Program after interoperability has been accomplished.

#### ICE Support to State and Local Law Enforcement

ICE is directed to update the Committees on its progress toward closing all OIG recommendations on the 287(g) program no later than January 13, 2012. The Department is directed to immediately provide the status of all pending memoranda of agreement for 287(g) participation.

#### Hiring and Staffing Reports

ICE shall submit quarterly staffing and hiring reports. Further, as directed in the House report, ICE shall brief the Committees on appropriate staffing levels.

#### Worksite Enforcement

Of the funds provided for Domestic Investigations, \$134,626,000 is for worksite enforcement activities, as requested. ICE is directed to brief the Committees quarterly on how it is meeting this level of effort no later than 30 days after the end of each quarter. Further, ICE shall provide an annual report on

worksite enforcement activities as directed in the Senate report.

#### Detention and Removal Reporting

Statutory language is included, as requested, ensuring that all illegally present or otherwise removable aliens encountered when enforcing our immigration laws are apprehended. However, the Department does not collect or report comprehensive statistics on all of its encounters with inadmissible and deportable aliens by source as well as the disposition of all such encounters. For that reason, ICE, in conjunction with CBP and USCIS, is directed to develop a methodology and a means of collecting and reporting such information on a quarterly basis for fiscal year 2013. In the most transparent, concise manner possible, the reporting should cover all actions in the reporting period for all stages of the immigration enforcement process: encounters by identification source (i.e., Fugitive Operations, Criminal Alien Program, Border Patrol Southwest border between ports); subsequent enforcement action by agency (i.e., expedited removal, arrest, detention, release); detention/non-detention by program (i.e., ICE detention, bond, alternatives to detention); and processing/removal outcome (i.e., deferred action, relief, removal, administrative closing). The reporting shall clearly provide the number of aliens who received deferred action, including a renewal or extension of previously-granted deferred action. ICE, CBP, and USCIS shall brief the Committees no later than 120 days after the date of enactment of this Act on the developed methodology and means of collecting and reporting, including any information technology issues. Additionally, the agencies shall note where this comprehensive reporting could supersede other reports currently provided.

For fiscal year 2012, ICE is directed to continue reporting quarterly on detention and removal, including the number of deportation, exclusion, and removal orders sought and obtained by ICE. The first fiscal year 2012 quarterly report is to be submitted no later than February 15, 2012. ICE shall include "policy closure" reporting subdivided to clearly report where deferred action has been granted.

#### Personnel Recovery Units

ICE is directed to brief the Committees no later than February 15, 2012, on its interest in establishing a trained unit to handle abduction or evacuation of ICE personnel.

#### Multi-Year Investment and Management Plan

As provided in Section 568, ICE is required to submit a multi-year investment and management plan with the congressional budget justification materials for all funds executed by the Office of Information Technology (OIT) to provide a full picture of ICE's information technology activities. It is expected that the acquisition program baselines for Level I and II programs under OIT will be provided as part of the comprehensive acquisition status reports provided by the under Secretary for Management.

#### Transportation of Aliens

In response to OIG inquiries and OIG Report 11-27, CBP has taken great strides to streamline its costs associated with transportation and removal of aliens between Field Operations and Border Patrol. ICE has also made progress in analyzing and more efficiently managing its transportation costs. The next step, however, has not been taken in a comprehensive manner—exploring options for coordination of transportation lo-

cally, regionally, and nationally, or sharing of transportation resources between CBP and ICE given constrained resources across DHS. CBP and ICE are directed to brief the Committees no later than 180 days after the date of enactment of this Act on the results of their joint efforts to take advantage of such efficiencies.

#### Unexpended Construction Balances

ICE is directed to brief the Committees no later than February 15, 2012, on the unexpended balances in the ICE Construction appropriation.

#### AUTOMATION MODERNIZATION

A total of \$21,710,000 is provided for "Automation Modernization." CBP and ICE are directed to jointly brief the Committees on the status of TECS modernization efforts, including their progress and plans forward, on a semi-annual basis.

#### TRANSPORTATION SECURITY ADMINISTRATION

##### AVIATION SECURITY

A total of \$5,253,956,000 is provided for "Aviation Security." In addition to the amounts appropriated, a mandatory appropriation totaling \$250,000,000 is available through the Aviation Security Capital Fund. Statutory language reflects the collection of \$2,030,000,000 from aviation security fees, as authorized.

The amount provided for this appropriation by PPA is as follows:

Screening Operations:	
Screener Workforce:	
Privatized Screening ...	\$144,193,000
Screener Personnel, Compensation, and Benefits .....	3,025,771,000
Subtotal, Screener Workforce .....	3,169,964,000
Screener Training and Other .....	249,796,000
Checkpoint Support .....	204,768,000
EDS/ETD Systems:	
EDS Procurement and Installation .....	222,738,000
Screening Technology Maintenance and Utilities .....	320,365,000
Subtotal, EDS/ETD Systems .....	543,103,000
Subtotal, Screening Operations .....	4,167,631,000
Aviation Security Direction and Enforcement:	
Aviation Regulation and Other Enforcement .....	369,984,000
Airport Management and Support .....	570,226,000
Federal Flight Deck Officer and Flight Crew Training .....	25,461,000
Air Cargo .....	120,654,000
Subtotal, Aviation Security Direction and Enforcement .....	1,086,325,000
Total, Aviation Security ...	\$5,253,956,000

#### Impact of Checked Baggage Fees

As noted in the Senate report, TSA checkpoint screening costs have risen significantly as a result of the growth in the volume of carry-on baggage transported by passengers in response to the imposition of checked baggage fees by most airlines. This increase in checkpoint screening costs, however, comes at the expense of other TSA security programs, and none of the air carrier revenue collected from the checked baggage fees has

been used to offset the additional TSA workload. The Department is encouraged to work with the relevant authorizing Committees to find ways to recoup these costs, and ensure the best alignment between resources needed to achieve and sustain both security and efficient checkpoint operations.

#### Privatized Screening

A total of \$144,193,000 is provided for "Privatized Screening." TSA is to give full and fair consideration to applicants for participation in the Screening Partnership Program that can demonstrate their capacity to undertake passenger and baggage screening in a manner more cost effective than TSA and to provide a level of security comparable to that of Federal screening. If TSA approves the applications, it is authorized, and expected, to finance the transition to privatized operations using funding within "Screening Operations".

#### Screener Personnel and Training

A total of \$3,025,771,000 is provided for the "Screener Personnel, Compensation, and Benefits" PPA, and a total of \$249,796,000 is included for the "Screener Training and Other" PPA. Language is included that limits TSA's use of funds to recruit or hire more than 46,000 full-time equivalent screeners. The limitation does not apply to screeners hired as part-time employees. Statutory language is included that requires the Secretary to submit to the Committees no later than 90 days after the date of enactment of this Act a detailed report on how DHS is using its resources to develop more capable and cost-effective screening technology. The report shall also detail how it is deploying its existing workforce to optimize screening operations, their effectiveness, and labor savings from improved technology deployment, including how such savings are employed or reinvested. Funding is included to staff 250 new advanced imaging technology (AIT) systems, with the expectation that hiring for those positions will occur later than assumed in the request due to procurement delays. As directed in the Senate report, TSA is to work in coordination with airlines, airports, and cross-disability/medical organizations to design education and outreach programs that ensure access to the Nation's aviation system is available to everyone. TSA shall also work with airports to expand mock boarding events, such as those held for families with autistic children, and shall continue to improve the screening process for young passengers, as directed in the Senate report. TSA is to brief the Committees no later than 90 days after the date of enactment of this Act on its efforts in these areas.

#### Behavioral Detection Officers

Funding is included for 145 new behavioral detection officers (BDO). TSA is directed to brief the Committees no later than 90 days after the date of enactment of this Act on its plans and actions to implement recommendations rising from the study of Screening of Passengers by Observation Techniques (SPOT) that was sponsored by the Science and Technology Directorate. In addition, the briefing should cover how TSA is addressing issues raised in recent Government Accountability Office reviews of the program. These include validation, management, and communications issues identified in GAO-10-763 and recommendations for approaches to BDO assignment and cost-benefit analysis included in GAO-11-461T and GAO-10-157. Finally, the briefing should describe what TSA is doing to ensure its standardization testing of the SPOT program is carried out at airports with a frequency that will

support consistent program execution and optimal BDO training.

#### Checkpoint Support

A total of \$204,768,000 is provided for "Checkpoint Support," including funding for 250 new AIT systems and other security technology requested and listed in the Senate report. This excludes \$39,200,000 requested for explosives trace detection systems funded in fiscal year 2011, and an additional \$4,000,000 due to other acquisition delays. TSA is directed, as detailed in the Senate report, to brief the Committees no later than 30 days after the date of enactment of this Act on AIT procurement and deployment details and on progress in developing and deploying additional automated target recognition capability. In addition, TSA is directed to include a five-year budget estimate with each annual Congressional budget justification, beginning with its fiscal year 2013 submission, that projects funding for each passenger screening technology acquisition as specified in the Senate report.

#### Facilitating Passenger Screening and Reducing Wait Times

TSA is directed to brief the Committees no later than 90 days after the date of enactment of this Act on its efforts to meet a goal of keeping average passenger wait times below 10 minutes at screening checkpoints. Once TSA has begun deploying new automated wait time technology funded by this Act, TSA is directed to provide quarterly briefings to the Committees on wait times at screening checkpoints where such technology is in place.

#### Exit Lane Security

The TSA Administrator shall submit a report to the Committees no later than 180 days after the date of enactment of this Act making recommendations for improving security at each airport location where passengers exit the sterile area, as specified in the Senate report.

#### Explosives Detection Systems

A total of \$472,738,000 is provided for "Explosives Detection Systems (EDS) Procurement and Installation," including \$250,000,000 in mandatory funding from the Aviation Security Capital Fund and \$222,738,000 in discretionary funding. Not less than 10 percent of the funds provided shall be available for the purchase and installation of certified EDS at medium- and small-sized airports. Allocation of this funding between new projects, recapitalization, advanced surveillance systems, and payroll shall be detailed in the fiscal year 2012 EDS expenditure plan. In addition, the expenditure plan is to address the issue of eligible EDS costs incurred by airports that were not recipients of funding agreements, as specified in the Senate report.

#### Screening Technology Maintenance and Utilities

A total of \$320,365,000 is provided for the "Screening Technology Maintenance and Utilities" PPA, which reflects downward adjustments in estimates for the cost of maintenance warranties.

#### AVIATION REGULATION AND OTHER ENFORCEMENT

A total of \$369,984,000 is provided for the "Aviation Regulation and Other Enforcement" PPA, including an increase of \$3,500,000 above the request for international security enhancements related to air cargo security; \$5,000,000 above the request for 20 new canine teams; and \$11,755,000 for 12 new Visible Intermodal Prevention and Response

(VIPR) teams, with the assumption that personnel for the teams will not be hired until late in fiscal year 2012. TSA shall provide an expenditure plan to the Committees no later than 60 days after the date of enactment of this Act detailing where and how new VIPR teams will be deployed.

#### Air Cargo

A total of \$120,654,000 is provided for the "Air Cargo" PPA, \$6,000,000 above the request for international security enhancements to air cargo security. In combination with an additional \$3,500,000 provided under Aviation Regulation and Other Enforcement, this funding will support enhanced air cargo inspection and other security oversight and improvements, with the expectation that this will help TSA meet its statutory requirement of 100 percent system-wide screening of air cargo on passenger aircraft, including those originating overseas, and to enhance inspection, investigation, and monitoring efforts on all-cargo flights, including through additional international air cargo inspectors and transportation security specialists to assess all-cargo airports and increase inspection visits at high-risk airports. TSA is to continue working with U.S. Customs and Border Protection, in furtherance of TSA's mission, on the application of the Automated Targeting System to screen air cargo bound for the United States on all-cargo and passenger flights. The air cargo expenditure plan shall include progress on these ongoing efforts.

#### SURFACE TRANSPORTATION SECURITY

A total of \$134,748,000 is provided for "Surface Transportation Security." TSA is directed to submit a report no later than six months after the date of enactment of this Act on passenger and mass transit rail tunnel security, as specified in the Senate report.

#### TRANSPORTATION THREAT ASSESSMENT AND CREDENTIALING

A total of \$204,274,000 is provided for "Transportation Threat Assessment and Credentialing." This includes \$27,800,000 for TTAC Infrastructure Modernization (TIM) in recognition of scheduling delays in the modernization contract and an increase of \$10,000,000 to support risk-based screening.

TSA is directed to brief the Committees no later than 30 days after the date of enactment of this Act on developments in the TIM program, as specified in the House report.

The amount provided for this appropriation by PPA is as follows:

Secure Flight .....	\$92,414,000
Crew and Other Vetting Programs .....	71,540,000

Subtotal, Direct Appropriations .....	163,954,000
TWIC Fees .....	8,300,000
Hazardous Materials Fees .....	12,000,000
Alien Flight School Fees ...	4,000,000
Certified Cargo Screening Program .....	5,200,000
Large Aircraft Security Program .....	1,200,000
Secure Identification Display Area Checks .....	8,000,000
Other Security Threat Assessments .....	100,000
General Aviation at DCA ..	100,000
Indirect Air Cargo .....	1,400,000
Sensitive Security Information (SSI) fees .....	20,000
Subtotal, Fee Collections .....	\$40,320,000

#### Risk-Based Screening

A total of \$10,000,000 is provided to support risk-based screening efforts, including: the

development of systems architecture; the procurement of hardware and software; testing and implementation of new capabilities to expand known-traveler populations; and increases in the effectiveness, security, and efficiency of passenger screening. TSA is directed to report to the Committees no later than 90 days after the date of enactment of this Act on the status of its efforts, including current and planned pilots to develop such a known traveler program, funding requirements, and any legal or resource obstacles to implementation.

#### Universal Enrollment Centers

TSA is directed to expand the number of Universal Enrollment Centers to achieve at least a 50 percent increase in the number of TWIC enrollment sites and to brief the Committees no later than 180 days after the date of enactment of this Act as specified in the Senate report, on resource needs, security impacts, and prospects for direct shipment of TWIC cards to participants.

#### TRANSPORTATION SECURITY SUPPORT

A total of \$1,031,926,000 is provided for "Transportation Security Support."

The amount provided for this appropriation by PPA is as follows:

Headquarters Administration .....	\$292,334,000
Information Technology ....	447,200,000
Human Capital Services ....	249,400,000
Intelligence .....	42,992,000

Total, Transportation Security Support .....	\$1,031,926,000
--	-----------------

#### Expenditure Plans

Statutory language is included withholding \$20,000,000 from obligation for "Headquarters Administration" until the Administrator submits detailed expenditure plans to the Committees on air cargo security; checkpoint support; and EDS procurement, refurbishment, and installation on an airport-by-airport basis for fiscal year 2012. These plans should include details on technologies purchased, timelines for deployment, obligation schedules, and actual and anticipated unobligated balances at the close of the fiscal year. TSA shall brief the Committees on a quarterly basis with updates on performance against the expenditure plan.

In fiscal years 2010 and 2011, the Department and TSA failed to comply with statutory direction to provide expenditure plans for checkpoint and EDS activity. For fiscal year 2010, the required plan was submitted April 20, 2011—almost seven months into the next fiscal year. Similarly, TSA has not submitted its plan for fiscal year 2011. Such delays reflect either an inability to compile and transmit information about ongoing and planned activities, or disregard for Congress' oversight role. For fiscal year 2012, TSA is expected to act expeditiously to deliver the required expenditure plans.

#### Headquarters Administration

A total of \$292,334,000 is provided for the "Headquarters Administration" PPA, including \$1,998,000 for enhanced acquisition management, as requested, and \$2,000,000 above the request for the TSA Office of Professional Responsibility. In lieu of the Senate briefing requirement related to administrative savings, TSA is directed to clearly delineate assumed savings from reductions to administrative and support functions and assumed efficiencies in its budget justification, as directed in this statement under Departmental Management and Operations "Office of the Chief Financial Officer" heading.

#### Availability of Appropriations

TSA is directed to brief the Committees no later than February 15, 2012, on a proposed

PPA structure that reflects one-year availability of appropriations for salaries and expenses.

#### Passenger Complaints

TSA is directed to make every effort to ensure members of the traveling public are aware of the procedures and process for making complaints about passenger screening. GAO is directed to complete a review no later than nine months after the date of enactment of this Act on TSA policies and procedures for resolving passenger complaints, including an assessment of the organizational independence of the office.

#### FEDERAL AIR MARSHALS

A total of \$966,115,000 is provided for "Federal Air Marshals" (FAMS), including \$842,500,000 for Management and Administration and \$123,615,000 for Travel and Training. TSA shall continue to provide quarterly reports on the FAMS mission coverage, staffing levels, and hiring rates as directed in previous appropriations Acts and in the classified annex to this statement.

In light of the significant increase in sustained, enhanced flight coverage since the Christmas Day bombing attempt, TSA is directed to brief the Committees no later than 120 days after the date of enactment of this Act on its analysis of the optimal staffing, scheduling, and resource requirements for FAMS in light of the full range of security capabilities that TSA and the Department can use to complement FAMS operations. This analysis should include an independent assessment of the definitions of flights that present "high-security risks" and whether that review validates the current risk assessment model being used by the FAMS, or whether changes may be required that could warrant adjustments in current staffing levels.

#### COAST GUARD

##### OPERATING EXPENSES

A total of \$7,051,054,000 is provided for "Operating Expenses," including \$24,500,000 from the Oil Spill Liability Trust Fund, and including \$598,000,000 for defense activities, of which \$258,000,000 is designated as being for the global war on terrorism and overseas contingency operations. Funds provided in support of the global war on terrorism and overseas contingency operations under this heading may be allocated notwithstanding section 503 of this Act. The Coast Guard is directed to brief the Committees no later than 30 days after the date of enactment of this Act on any changes expected to funding for the global war on terrorism and overseas contingency operations during fiscal year 2012 or projected transition costs expected in fiscal year 2013.

Within the funding provided for this appropriation, the following amounts are provided for requested initiatives: \$10,666,000 for enhancements to marine safety; \$11,485,000 for enhancements to marine environmental response; \$9,300,000 for enhancements to military family childcare; \$39,000,000 for restoration of polar operations funding; \$8,600,000 for network security upgrades; and \$6,300,000 for the Distress Alerting Satellite System.

The amount provided for this appropriation includes the following reductions from the budget request: a decrease of \$8,000,000 in the costs of data center migration; a decrease of \$18,000,000 in technical adjustments; a decrease of \$12,000,000 in unneeded health care costs; a decrease of \$9,000,000 in unneeded permanent change of station costs; and a decrease in unneeded surface and air asset follow-on operational costs resulting from procurement delays totaling \$7,451,000.

The amount provided for this appropriation includes the following increases above the budget request: an additional \$3,700,000 to annualize fiscal year 2011 funding for marine environmental response capabilities; an additional \$20,300,000 to address unfunded depot level maintenance priorities; and an additional \$4,000,000 for small boat tactical training.

A total of \$75,000,000 is withheld from obligation for Headquarters Directorates until a future-years capital investment plan for fiscal years 2013-2017, as specified in statutory language under the Coast Guard "Acquisition, Construction, and Improvements" heading is submitted to the Committees.

Issues pertaining to the Coast Guard's classified and sensitive programs are addressed in the classified annex accompanying this statement.

The amount provided for this appropriation by PPA is as follows:

Military Pay and Allowances .....	\$3,413,061,000
Civilian Pay and Benefits ..	784,256,000
Training and Recruiting ....	213,321,000
Operating Funds and Unit Level Maintenance .....	1,109,623,000
Centrally Managed Accounts .....	336,653,000
Intermediate and Depot Level Maintenance .....	936,140,000
Global War on Terrorism Overseas Contingency Operations .....	258,000,000
<b>Total, Operating Expenses .....</b>	<b>\$7,051,054,000</b>

##### Depot Level Maintenance

An additional \$20,300,000 above the amount requested is provided to partially address the backlog of critical, but unfunded depot maintenance activities, as proposed by both the House and the Senate. In lieu of the specified subdivision of this funding enhancement contained in the House report, the Coast Guard is directed to provide the Committees within 30 days after the date of enactment of this Act a plan for expenditure of these additional funds. Furthermore, the Coast Guard is directed to apply a portion of these funds to the most urgent, but unfunded maintenance projects pertaining to the improvement of crew habitability aboard legacy cutters. Funds allocated toward crew habitability improvements shall be clearly delineated in the required expenditure plan.

##### Administrative Savings, Efficiencies, and Reductions to Support Functions

The Coast Guard is directed to clearly delineate assumed savings from reductions to administrative and support functions and assumed efficiencies in its annual budget justification, as directed by both the House and Senate, and as directed in this statement under the Departmental Management and Operations "Office of the Chief Financial Officer" heading.

##### Performance Metrics

The Coast Guard shall continue to include performance metrics, with particular emphasis on measures of operational proficiency, as well as all Government Performance and Results Act reporting requirements within its annual budget justification in lieu of the direction regarding a distinct submittal contained in the House report.

##### Financial Management

In lieu of the direction contained in the House and Senate reports, the Coast Guard is directed to semi-annually brief the Committees on its efforts to address material weaknesses in financial management. These brief-

ings shall include, but not be limited to: the progress towards achievement of obtaining an unqualified opinion with respect to unauditable balances; progress towards implementation of the Financial Strategy for Transformation and Audit Readiness plan; and detailed explanations of how the Coast Guard is working with the DHS Office of the Chief Financial Officer on such efforts. The first of these semi-annual briefings shall occur no later than March 15, 2012.

##### Maritime Surveillance

The Coast Guard is directed to submit the two reports regarding maritime surveillance hours no later than February 15, 2012, as required in the House report.

##### Marine Safety and Marine Environmental Protection

A total of \$15,185,000 is provided for marine environmental response enhancements, including an additional \$3,700,000 to annualize fiscal year 2011 costs. In addition, \$10,666,000 is provided for marine safety enhancements, as requested. Within 45 days after the date of enactment of this Act, the Coast Guard is directed to submit to the Committees the following: the updated Marine Safety Performance Plan, as directed in the Senate report; the Marine Environmental Response Mission Performance Plan, as directed in the House report, to include the specified reporting requirements delineated in the Senate report; and a 5-year strategic plan, including comprehensive funding estimates, to implement marine environmental protection mission requirements, as specified in the Senate report.

##### Gulf of Mexico Oil Spill Response

The Coast Guard is directed to submit a plan no later than 90 days after the date of enactment of this Act for addressing the recommendations contained in the Incident Specific Preparedness Review that was issued following the sinking and subsequent oil outflow from the Mobile Offshore Drilling Unit Deepwater Horizon, as required in the Senate report.

##### Military Family Childcare and Housing

As requested, \$9,300,000 is provided for enhancements to military family childcare activities. Funding and oversight regarding military housing is addressed under the, Coast Guard "Acquisition, Construction, and Improvements" heading.

##### Stem-to-Stern Review

The Coast Guard is directed to brief the Committees no later than 60 days after the date of enactment of this Act on efforts to implement the findings from the Commandant's stem-to-stern review.

##### Coast Guard Yard

The Coast Guard Yard located at Curtis Bay, Maryland, is recognized as a critical component of the Coast Guard's core logistics capability which directly supports fleet readiness. The Yard has been a vital part of the Coast Guard's readiness and infrastructure for more than 100 years and the Committees believe sufficient industrial work should be assigned to the Yard to maintain this capability.

##### Command and Control Aircraft

The Coast Guard shall include in its annual budget justification a detailed explanation, including cost implications, of any plans to alter the capabilities of command and control aircraft.

##### ENVIRONMENTAL COMPLIANCE AND RESTORATION

A total of \$13,500,000 is provided for "Environmental Compliance and Restoration".

The Coast Guard is directed to include within its annual budget justification a listing of the activities projected to be funded by the amount requested under this heading and an updated backlog report for Environmental Compliance and Restoration projects, with an explanation of how the amount requested will impact this documented backlog. The Coast Guard is further directed to assess environmental remediation costs for LORAN sites and brief the Committees no later than February 15, 2012, on its plans for such assessments, as specified in the Senate report.

#### RESERVE TRAINING

A total of \$134,278,000 is provided for "Reserve Training".

#### ACQUISITION, CONSTRUCTION, AND IMPROVEMENTS

A total of \$1,403,924,000 is provided for "Acquisition, Construction, and Improvements".

#### THE AMOUNT PROVIDED FOR THIS

#### APPROPRIATION BY PPA IS AS FOLLOWS:

#### Vessels:

Survey and Design-Vessels and Boats .....	\$6,000,000
Response Boat-Medium ..	110,000,000
In-Service Cutters	
Sustainment .....	14,000,000
National Security Cutter	77,000,000
Offshore Patrol Cutter ...	25,000,000
Fast Response Cutter ....	358,000,000
Cutter small boats .....	5,000,000
Medium Endurance Cutter Sustainment .....	47,000,000
Subtotal, Vessels .....	642,000,000

#### Aircraft:

Airframe Replacement (CGNR 6017) .....	18,300,000
Maritime Patrol Aircraft HH-60 conversion projects .....	56,100,000
Long Range Surveillance Aircraft .....	62,000,000
HH-65 conversion/sustainment projects ...	24,000,000
Subtotal, Aircraft .....	289,900,000

#### Other Acquisition Programs:

Program Oversight and Management .....	26,000,000
Systems Engineering and Integration .....	17,140,000
C4ISR .....	38,500,000
Coast Guard—Logistics Information Management System .....	6,500,000
Nationwide Automatic Identification System .....	5,000,000
Rescue 21 .....	65,000,000
Interagency Operations Centers .....	3,000,000
Subtotal, Other Acquisition Programs .....	161,140,000

#### Shore Facilities and Aids to Navigation:

Major Construction: Housing; ATON; and Survey & Design .....	92,900,000
Major Acquisition Systems Infrastructure ....	81,500,000
Minor Shore .....	6,292,000

Subtotal, Shore Facilities and Aids to Navigation .....	180,692,000
Military Housing .....	20,000,000
Personnel and Related Support	
Direct Personnel Costs ...	109,592,000

Core Acquisition Costs ...	600,000
Subtotal, Personnel and Related Support	110,192,000
Total, Acquisition, Construction, and Improvements .....	\$1,403,924,000
Comprehensive and Quarterly Acquisition Status Reports	

To strengthen oversight for all Departmental acquisition programs, a statutory requirement is included for the Department of Homeland Security Under Secretary for Management to submit to the Committees a comprehensive acquisition status report in tandem with the fiscal year 2013 budget request with quarterly updates on any deviations. Because the Department-wide comprehensive report will encompass Coast Guard acquisition data, a duplicative effort to submit Coast Guard specific quarterly reports is no longer necessary or required. In addition, acquisition specific information is required in the Coast Guard Capital Investment Plan (CIP), which has been expanded for the purpose of in-depth oversight. GAO shall review the CIP and brief the Committees on the results of the review.

In lieu of separate briefings on individual acquisitions, as required in the Senate report, the Coast Guard shall brief the Committees quarterly on all major acquisitions. These briefings shall include: the objective for operational hours the Coast Guard expects to achieve; the gap between that objective, current capabilities, and stated mission requirements; and how the acquisition of the specific asset closes the gap. The information presented at these required briefings shall also include a discussion of how the Coast Guard calculated the operational hours, an explanation on risks to mission performance associated with the current shortfall, and the operational strategy to mitigate such risks.

#### Fleet Mix Analysis

The Coast Guard is directed to submit to the Committees phases one and two of the Fleet Mix Analysis and the Cutter Fleet Mix Analysis, as specified by the Senate report.

#### National Security Cutter

A total of \$77,000,000 is repurposed from the budget request and provided for the acquisition of long-lead time materials necessary for production of the sixth National Security Cutter (NSC). In addition, statutory language specifies immediate availability of these funds, notwithstanding the availability of funds for production costs or post-production activities. The funding to support long-lead time materials along with the statutory direction is intended to enable a contract award approximately 90 days after the date of enactment of this Act. As noted in both the House and Senate reports, the Committees disagree with the Administration's current acquisition policy towards the NSC since it will result in substantially higher costs to the Coast Guard and the taxpayer, extension of the NSC acquisition program baseline, significant engineering inefficiencies, and an increased strain on the Coast Guard's legacy assets, including escalation of maintenance costs. By contrast, the funding of long-lead time materials in fiscal year 2012 will accelerate NSC production and result in not only direct savings of \$45,000,000 to \$60,000,000 per cutter, but also expedite completion of the NSC acquisition program baseline of eight NSCs. The conferees strongly support the acquisition of the planned eight NSCs in the most cost effective manner

within the guidelines of proper program oversight and governance.

#### Offshore Patrol Cutter

Notwithstanding the direction of the Senate report, the Coast Guard is directed to include updated information on the acquisition of the Offshore Patrol Cutter within the required comprehensive and quarterly acquisition status reports, as described in this statement under the Departmental Management and Operations "Under Secretary for Management" heading.

#### Fast Response Cutter

As requested, a total of \$358,000,000 is provided for the acquisition of six Fast Response Cutters (FRCs) and the re-procurement data and licensing rights package (RDL). Funding for six cutters is provided to maximize production capabilities and to realize a total savings of \$30,000,000, or \$5,000,000 per FRC. Funds provided for the RDL should sustain the acquisition program baseline and enable the planned re-competition of the next FRC contract award.

#### Response Boat-Medium

As requested, \$110,000,000 is provided to acquire 40 Response Boat-Mediums (RB-Ms). The acquisition of 40 RB-Ms will enable the Coast Guard to complete the RB-M acquisition program baseline one year ahead of schedule and achieve programmatic savings of approximately \$6,000,000.

#### C4ISR

An additional \$4,000,000 above the amount requested is provided to support the costs of installation of modernized communications systems on legacy cutters. The Coast Guard shall notify the Committees no later than February 15, 2012, on the planned expenditure of these additional funds as well as its deployment plan for C4ISR upgrades to the NSC fleet.

#### In-Service Sustainment

The Coast Guard shall develop a long-term plan of investments to address its in-service cutter sustainment requirements, as described in the Senate report.

#### Rotary Wing Aircraft Reset

As requested, \$18,300,000 is provided for a replacement HH-60 helicopter.

#### Long-Range Surveillance Aircraft

A new PPA combining HC-130J acquisition and HC-130H refurbishment is established, as directed by the House, in order to allow the Coast Guard to leverage its limited funding for the most cost effective budgeting for Long Range Surveillance Aircraft. The Coast Guard is directed to brief the Committees by February 15, 2012, on its evaluation of options presented in the recently completed Naval Air Systems Command business case analysis of the optimal mix of refurbished HC-130Hs and new HC-130Js.

#### Unmanned Aircraft Systems

Funding for unmanned aircraft systems is addressed under the Coast Guard "Research, Development, Testing, and Evaluation" heading and is not provided in this appropriation.

#### Program Oversight and Management

A total of \$26,000,000 is provided for Program Oversight and Management, a reduction of \$9,000,000 from the request due to budgetary constraints. This PPA is renamed from, "Government Program Management" to more accurately reflect the nature of the activities supported by the funding provided. The Coast Guard shall provide a more detailed budget justification, by activity, for this PPA in the fiscal year 2013 budget justification materials.

#### MAJOR SHORE CONSTRUCTION, AIDS TO NAVIGATION, AND SURVEY AND DESIGN

As requested, \$92,900,000 is provided for Major Shore Construction, Aids to Navigation, and Survey and Design. The Coast Guard is directed to submit a prioritized list of shore construction projects, as directed in the Senate report, which includes all unfunded and backlogged projects, to the Committees no later than 45 days after the date of enactment of this Act.

#### Infrastructure Improvement Plan for the Coast Guard Training Center

The Coast Guard shall submit to the Committees a plan to upgrade the barracks at the Coast Guard Training Center to include fire suppression systems and gender-equivalent facilities, as specified in the Senate report.

#### Major Acquisition Systems Infrastructure

A total of \$81,500,000 is provided for Major Acquisition Systems Infrastructure, a reduction of \$13,000,000 from the amount requested due to revised cost estimates. The Coast Guard is directed to submit a current expenditure plan on selected homeports to the Committees no later than 45 days after the date of enactment of this Act. Furthermore, the Coast Guard is directed to include within its annual budget justification materials the associated infrastructure costs of each operational asset proposed to be acquired.

#### Military Housing

As requested, \$20,000,000 is provided for military housing. The Coast Guard is directed to provide an exhaustive, prioritized listing of all military housing needs to the Committees no later than 45 days after the date of enactment of this Act.

#### Acquisition Personnel

A total of \$110,192,000 is provided for the direct costs of acquisition personnel. However, these funds do not support the costs of the requested enhancement to acquisition staffing due to: (1) an inadequate budget justification that does not fully explain baseline capabilities and how existing gaps in skills and capabilities will be addressed by the requested enhancement; and (2) the fact that the Coast Guard has not adequately budgeted to support the existing acquisition workforce. Therefore, the funds provided are intended to annualize the full costs of supporting acquisition personnel and related support to include resources that were reprogrammed at the request of the Coast Guard in fiscal year 2011. The Coast Guard is directed to brief the Committees on acquisition personnel management, as required by the Senate report, no later than February 15, 2012. This briefing shall also include a proposal for incorporating funding for acquisition staffing within the Coast Guard "Operating Expenses" appropriation and a method for tracking the budget for this function if it were to be merged with the funds that currently support personnel within the "Operating Expenses" appropriation.

#### RESEARCH, DEVELOPMENT, TEST, AND EVALUATION

A total of \$27,779,000 is provided for "Research, Development, Test, and Evaluation" (RDT&E). The Coast Guard is directed to revise its annual budget justification for this function, as per the standards and direction contained in this statement under the Departmental Management and Operations "Office of the Chief Financial Officer" heading. This revised justification shall also include a prioritized listing of planned RDT&E activities relative to stated mission needs and goals.

#### Unmanned Aircraft Systems

Within the amount provided under this heading, \$8,000,000 is provided for cutter-based unmanned aircraft systems (UAS). This funding, in addition to amounts previously appropriated, is provided for the purposes of procurement of shipboard integration equipment and to support an advanced concept technology demonstration.

#### RETIRED PAY

A total of \$1,440,157,000 is provided for "Retired Pay". The Coast Guard's "Retired Pay" appropriation is a mandatory budgetary activity.

#### UNITED STATES SECRET SERVICE

##### SALARIES AND EXPENSES

A total of \$1,661,237,000 is provided for "Salaries and Expenses." Within this total, the following amounts are provided for requested initiatives: \$57,300,000 for Operational Mission Support enhancements (within "Protection of Persons and Facilities"); \$113,462,000 for 2012 Presidential Campaign costs; \$19,307,000 for "National Special Security Events"; \$371,000 for enhanced acquisition management support; and \$43,843,000 for "Information Integration and Technology Transformation" (IITT). Of the funds provided for IITT, \$20,000,000 is withheld from obligation for the purchase or installation of information technology equipment until the DHS Chief Information Officer submits a report to the Committees certifying that all plans for integration and transformation are consistent with the Department's data center migration and enterprise architecture requirements. In addition, the Secret Service is directed to submit an updated, prioritized plan for the execution of Operational Mission Support that reflects the funding provided.

The amount provided for this appropriation by PPA is as follows:

<b>Protection:</b>	
Protection of Persons and Facilities .....	\$832,463,000
Protective Intelligence Activities .....	68,125,000
National Special Security Events .....	19,307,000
Presidential Candidate Nominee Protection ....	113,462,000
White House Mail Screening .....	18,472,000
Subtotal, Protection ...	1,051,829,000
<b>Investigations:</b>	
Domestic Field Operations .....	223,991,000
International Field Office Administration, Operations and Training .....	32,971,000
Electronic Crimes Special Agent Program and Electronic Crimes Task Forces .....	53,051,000
Support for Missing and Exploited Children .....	8,366,000
Subtotal, Investigations .....	318,379,000
Headquarters, Management and Administration .....	191,588,000
Rowley Training Center ....	55,598,000
Information Integration and Technology Transformation .....	43,843,000
Total, Salaries and Expenses .....	\$1,661,237,000
<b>Account Structure</b>	

The current PPA structure does not provide visibility into the management of fund-

ing provided for information technology and system investments, or identify costs associated with the site-specific, critical protective physical infrastructure, which merits ongoing investment and refreshment. The Secret Service is directed to adjust its PPA structure to align to the tables at the end of this statement and to build this revised structure into its fiscal year 2013 budget request. Costs associated with protective mission operations and support, including those based on unit cost elements for staffing and operational activities, excluding facilities and significant infrastructure investments, should continue to be reflected in the existing PPA for protection of persons and facilities. However, the Secret Service is directed to include a new PPA in its fiscal year 2013 budget submission which better captures the costs associated with investment and sustainment requirements for protective infrastructure, for which a substantial increase in funding was requested for fiscal year 2012 under "Protection of Persons and Facilities."

#### Overseas Offices

Within the funding provided for this appropriation, \$2,000,000 above the request is provided for the Secret Service to open and staff a new office in Lima, Peru. In lieu of the briefings on field operations required in the House and Senate reports, the Secret Service is directed to provide a briefing on the establishment of the office in Lima, Peru, as well as current and future funding requirements for a permanent office in Beijing, China, no later than February 15, 2012.

#### ACQUISITION, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

A total of \$5,380,000 is provided for "Acquisition, Construction, Improvements, and Related Expenses."

#### TITLE III—PROTECTION, PREPAREDNESS, RESPONSE, AND RECOVERY

##### NATIONAL PROTECTION AND PROGRAMS DIRECTORATE

##### MANAGEMENT AND ADMINISTRATION

A total of \$50,695,000 is provided for Management and Administration of the National Protection and Programs Directorate (NPPD).

This includes \$7,326,000 for management, planning, and administration activities in the Office of the Assistant Secretary for Infrastructure Protection and \$5,494,000 for the Office of the Assistant Secretary for Cybersecurity and Communications that were previously funded in "Infrastructure Protection and Information Security".

As discussed under Departmental Management and Operations, "Office of the Chief Financial Officer," NPPD shall provide, with the submission of the fiscal year 2013 budget request, a fully justified budget by PPA and line item. Further, the budget request shall be submitted in the PPA structure provided in this statement. The budget justification shall also include a full explanation of any funds that are requested with availability in excess of one year including a program description, the reason for the additional required availability, and a schedule for execution of the funding.

#### Risk Management and Analysis

A recent National Academy of Sciences (NAS) report highlighted several shortcomings in the NPPD Office of Risk Management and Analysis (RMA) program. While the NAS study concluded that the basic risk framework used by RMA is a sound approach to assessing risk, it identified other significant deficiencies in the Office's risk analysis

approach, limiting the level of confidence with which it can be used to support DHS decision-making. The NAS recommended major reforms to the current approach, but to date the Department has not submitted a plan to reform RMA. Such lack of needed reforms is unacceptable in the current fiscally constrained environment. Therefore, the Secretary has been provided the authority to transfer up to \$4,241,000 to the DHS Office of Policy, subject to notification, in order to reform and improve oversight of the Department's risk management and analysis functions. A transfer is also designed to elevate the importance of a strong risk modeling, analysis, and strategic planning function within the Department. If the Secretary does not submit a notification to transfer the risk management function to the Office of Policy, the funds shall be used to effect the orderly termination of RMA by March 30, 2012.

The Committees must receive the notification for such a transfer no later than 90 days after the date of enactment of this Act. Further, no later than the date upon which the notification is submitted, the Secretary shall provide to the Committees a plan identifying and justifying the specific risk modeling, analysis, and strategic planning functions of value and use to the Department and its individual components. The plan is to include the funding and personnel being allocated to each function and any reforms being made, including those undertaken in response to the NAS findings.

#### INFRASTRUCTURE PROTECTION AND INFORMATION SECURITY

A total of \$888,243,000 is provided for "Infrastructure Protection and Information Security" (IPIS), of which \$200,000,000 is available until September 30, 2013. A total of \$93,348,000 is provided for Infrastructure Security Compliance. This amount combined with the carryover balance of \$19,705,120 provides \$113,053,120 for program implementation in fiscal year 2012.

Statutory language is included requiring expenditure plans for the Office of Infrastructure Protection and the National Cyber Security Division. The plans shall include a description by PPA and line item with the associated costs subdivided by quarter. The plan shall provide sufficient detail on the items and services procured and the outcomes of those services or items. As requested in the President's budget, \$28,927,000 is included for Control Systems Security; \$14,876,000 is included for cyber education; and \$8,012,000 is included for cybersecurity outreach and awareness. Any funding used for acquisition workforce improvements shall be clearly identified. Funding levels for all Information, Sharing and Analysis Centers, the National Infrastructure Simulation and Analysis Center, and for vulnerability assessments shall also be clearly identified.

A provision that requires an investment and management plan is not included for the National Cybersecurity Protection System as directed in the House report. Additionally, a separate report for Next Generation Network Priority Services is not required as directed in the Senate report. NPPD shall instead comply with the requirements for the Comprehensive and Quarterly Acquisition Status Reports in Departmental Management and Operations under the heading "Under Secretary for Management."

With respect to sector cooperation, the Under Secretary for NPPD is to provide a report regarding the results of a review to streamline the processes for coordination and information sharing with industry partners, and GAO is to conduct an evaluation of the effort, as directed in the Senate report.

The Under Secretary is directed to provide a report that details the Department's definition of inherently safer technology as it relates to chemical facilities under the purview of the Chemical Facility Anti-Terrorism Standards program.

The amount provided for this appropriation by PPA is as follows:

Infrastructure Protection:	
Infrastructure Analysis & Planning .....	\$70,518,000
Sector Management & Governance .....	74,219,000
Regional Field Operations .....	57,367,000
Infrastructure Security Compliance .....	93,348,000
Subtotal, Infrastructure Protection .....	295,452,000
Cybersecurity and Communications:	
Cybersecurity:	
Cybersecurity Coordination .....	4,500,000
US-Computer Emergency Readiness Team (US-CERT) Operations .....	79,116,000
Federal Network Security .....	35,000,000
Network Security Deployment .....	229,000,000
Global Cybersecurity Management .....	23,992,000
Critical Infrastructure Cyber Protection & Awareness .....	60,000,000
Business Operations .....	11,568,000
Subtotal, Cybersecurity .....	443,176,000
Communications:	
Office of Emergency Communications .....	43,495,000
Priority Telecommunications Services .....	56,074,000
Next Generation Networks .....	25,253,000
Programs to Study and Enhance Telecommunications .....	13,441,000
Critical Infrastructure Protection Programs .....	11,352,000
Subtotal, Communications .....	149,615,000
Subtotal, Cybersecurity and Communications .....	592,791,000
Total, Infrastructure Protection and Information Security .....	\$888,243,000
FEDERAL PROTECTIVE SERVICE	

A total of \$1,261,537,000 is provided for the "Federal Protective Service" (FPS), as requested, for fiscal year 2012. This amount is fully offset by collections of security fees. A provision is included requiring the Secretary and the Director of the Office of Management and Budget to certify, no later than December 31, 2011, that FPS will collect a sufficient amount in fees to cover the total number of FTE requested in the budget, or adjust the fee to cover all costs.

The Director of FPS shall provide an expenditure plan by PPA for fiscal year 2012 no later than 60 days after the date of enactment of this Act. The plan shall include a description by line item and distinct activity with the expenditures subdivided quarterly. With the submission of the fiscal year 2013 budget, the Director of FPS shall comply

with the requirements as detailed in Departmental Management and Operations, "Office of the Chief Financial Officer" with respect to fiscal year 2013 budget justifications. The justification provided in fiscal year 2013 shall include all funding sources, including reimbursables.

FPS is directed to provide a strategic human capital plan and a plan to assume security and protection responsibilities from agencies that currently hold delegated authority to the Committees and GAO as directed in the Senate report. Further, GAO is directed to comply with the directions with respect to reviewing such plans.

#### UNITED STATES VISITOR AND IMMIGRANT STATUS INDICATOR TECHNOLOGY

A total of \$306,802,000 is provided for US-VISIT. No funds are included for the Acquisition Workforce Initiative. Statutory language is included to require a multi-year investment and management plan. In addition, US-VISIT is directed to comply with the direction included under the heading "Office of the Chief Financial Officer" with respect to improved budget justifications.

#### Overstay Backlog Elimination

Given the current budgetary environment, security requirements that must be met immediately, and the lack of an implementation plan for biometric air exit, unobligated balances from US-VISIT are rescinded for distribution to other security priorities across the Department for which funds can be more quickly executed. An increase of \$9,400,000 is provided for US-VISIT to prepare a comprehensive plan for implementation of biometric air exit, as well as for improvement of biographic entry-exit matching capabilities and to prevent future overstay backlogs. DHS is encouraged to identify additional funds to enhance funding for its biographic efforts. The Department is directed to brief the Committees no later than January 13, 2012, on its plan for use of these funds, to include elimination of the backlog of "unvetted" overstay records and the prevention of reoccurrence of backlogs.

#### Semi-Annual Briefings

US-VISIT shall continue to provide briefings to the Committees on biometric exit planning; interoperability in conjunction with its interagency counterparts; hirings and conversions; and other operations. The briefings will be on a semi-annual rather than a quarterly basis.

#### Identity Management and Screening Services

As required in the House report, US-VISIT shall brief the Committees quarterly on its workload and service levels, including any backlogs that may result from an influx of transactions or new users.

#### US-VISIT 1.0

Funds are not provided for "US-VISIT 1.0" due to insufficient justification regarding the use of such funds. US-VISIT is encouraged to continue planning efforts for modernization of IDENT, including ensuring that it can operate efficiently to meet the growing and evolving needs of its users and provide the critical capabilities necessary for our Nation's security. IDENT modernization should be outlined in the US-VISIT investment and management plan.

#### OFFICE OF HEALTH AFFAIRS

A total of \$167,449,000 is provided for the Office of Health Affairs (OHA). The Assistant Secretary for the OHA is directed to provide an expenditure plan that includes a description by line item and distinct activity, with

the expenditures subdivided by quarter, within 60 days after the date of enactment of this Act. Further, OHA is directed to comply with the direction included in Departmental Management and Operations, "Office of the Chief Financial Officer" with respect to improved budget justifications.

A total of \$12,013,000 is provided for the National Biosurveillance Integration System (NBIS), \$5,000,000 above the budget request, including funds to diversify DHS's biosurveillance capabilities. OHA is not required to collocate the National Biosurveillance Integration Center as directed in the Senate report.

A total of \$5,439,000 is provided for the Chemical Defense Program, of which \$3,000,000 is provided above the request for at least two additional demonstration projects, to be competitively selected.

#### FEDERAL EMERGENCY MANAGEMENT AGENCY SALARIES AND EXPENSES

A total of \$895,350,000 is provided for Salaries and Expenses under what was formerly called "Management and Administration." When combined with amounts available from other accounts, a total of \$1,031,378,000 is available for Salaries and Expenses including grant program execution.

The amount provided for this appropriation by PPA is as follows:

Administrative and Regional Offices .....	\$110,495,000
Office of National Capital Region Coordination .....	(5,493,000)
Preparedness and Protection .....	109,873,000
Response .....	226,228,000
Urban search and rescue response system .....	(41,250,000)
Recovery .....	78,373,000
Mitigation .....	43,675,000
Mission Support .....	219,433,000
Centrally Managed Accounts .....	107,273,000

Total, Salaries and Expenses .....

\$895,350,000

FEMA shall provide an expenditure plan no later than 90 days after the date of enactment of this Act. The plan shall be detailed by the PPA structure as detailed in this statement and by office. It shall include actual funding from the prior year, the current fiscal year, and deviations between the two years. Each year shall include the number of positions, the number of FTE, the amount for salaries and benefits, and the amount for the program, showing all sources of funding. Specific information regarding the transfer of funding from other appropriations should be included, with the same level of detail currently provided to the Committees.

For fiscal year 2013, the budget request for FEMA shall comply with the direction included in Departmental Management and Operations under the "Office of the Chief Financial Officer" with respect to improved budget justifications. Further, the budget request shall be detailed by office and under the new PPA structure provided and submitted in the same format as the required expenditure plan for fiscal year 2012.

FEMA is directed to study the feasibility to, on a quarterly basis, post on the FEMA website a summary of the financial status of funds appropriated under "State and Local Programs."

FEMA is provided the authority to reprogram funds within "Salaries and Expenses," notwithstanding the requirements of section 503 of this Act. This temporary authority shall expire on April 16, 2012.

A provision is included requiring the Administrator to submit the National Preparedness Report and a comprehensive plan to implement a system to measure the effectiveness of grants to State and local communities to the Committees in fiscal year 2012. Further, \$1,400,000, 25 percent of the funds for the Office of the Administrator, is withheld from obligation until the Report and the plan are submitted.

Within 90 days of the date of the enactment of this Act, the Administrator of FEMA, in consultation with the Commander of the U.S. Army Corps of Engineers (USACE), shall provide a report on the cost of debris removal. Specifically, the report shall address the disparity between the cost factors for the USACE as compared to other options communities have for debris removal services.

#### Program, Project, and Activity Restructuring

In order to provide additional visibility, the FEMA "Salaries and Expenses" account, formerly the "Management and Administration" account, has been subdivided into PPA lines. The Administrative and Regional Offices PPA includes the Office of the Administrator, Office of Policy and Program Analysis, Office of External Affairs, Disability Integration and Coordination, Office of Equal Rights, Office of Chief Counsel, Office of the Chief Financial Officer, Office of National Capital Region Coordination, Regional Operations, Federal Coordinating Officers, and Evaluations and Assessments. The Preparedness and Protection PPA includes the Office of Preparedness and National Protection, National Continuity, National Preparedness Directorate, Grants Programs Directorate, and Technical Assistance. The Response PPA includes the Office of Response and Recovery, Response Programs, and Logistics Programs. The Recovery PPA includes Recovery Programs. The Mitigation PPA includes Mitigation Programs. The Mission Support PPA includes the Office of the Associate Administrator, Chief Administrative Officer, Chief Security Officer, Chief Information Officer, Chief Human Capital Officer, Chief Procurement Officer, and Regional Support. The Centrally Managed Accounts PPA includes centrally managed functions in the Office of the Chief Financial Officer as well as the Enterprise Operations in the Office of the Chief Administrative Officer, Chief Information Officer, and Chief Security Officer. The Emergency Management Institute is funded under the "State and Local Programs" account.

#### Technical Assistance and Evaluations and Assessments

Funding for activities under Technical Assistance and Evaluations and Assessments has been provided under this heading instead of under the "State and Local Programs" account as in previous years. A total of \$10,000,000 is provided for Technical Assistance within the new Preparedness and Protection PPA, and \$10,000,000 is provided for Evaluations and Assessments within the new Administrative and Regional Offices PPA.

#### Facilities Management

A total of \$12,000,000 is provided for capital improvements at Mount Weather, as requested. Additionally, \$5,000,000 above the requested amount is provided to address unfunded repairs and capital improvement on priority projects across FEMA. None of these funds may be obligated until five days after the Chief Financial Officer (CFO) of FEMA briefs the Committees on an execution plan for these funds.

#### Automation Modernization

A total of \$13,662,000 is provided for FEMA to address automation modernization requirements. None of these funds may be obligated until five days after the CFO and the Chief Information Officer (CIO) of FEMA brief the Committees on the execution plan for these funds. A provision is included requiring FEMA to provide a strategic plan within 180 days after the date of enactment of this Act to modernize its automation and information systems. As noted in both the Senate and House reports, a recent OIG report (OIG-11-69) highlighted a systemic information management and systems problem within FEMA which leaves the Agency less able to efficiently and effectively accomplish its mission. FEMA relies on a time consuming and manual process to estimate its needs for disaster relief funding. Further, FEMA has been unable to quantify National preparedness capabilities, and gaps in capabilities, despite Congress's call to do so since before 2007. Lastly, FEMA is unable to efficiently work with partners in homeland security and emergency management due to a lack of comparable technology capability.

The lack of a comprehensive approach and needed investments to modernize systems has also left FEMA less able to integrate the preparedness, prevention, response, mitigation, and recovery missions with which it is charged. The funding and planning requirement established in the Act is to provide the means and the direction for FEMA to modernize for better performance and future cost savings. FEMA shall include the DHS CIO in planning efforts to ensure compatibility with DHS systems where practicable. Further, the needs of the Office of National Capital Region Coordination (ONCRC) shall be considered in the automation and information systems strategy. The Deputy Administrator is directed to brief the Committees within 45 days after the date of the enactment of this Act regarding the implementation of the findings of OIG report OIG-11-69, and the initial effort to formulate the modernization plan for each major component within FEMA. These requirements are in lieu of separate requirements addressed in Senate and House reports with respect to the information technology and modernization within the CIO, Preparedness and Protection, Recovery, Mission Support, and the ONCRC.

Funding for data center migration is not included in this account but is instead addressed under General Provisions in Title V. Disaster Relief Fund Financial Management Policy

Within 90 days after the date of the enactment of this Act, the Administrator and the CFO of FEMA shall develop a policy and issue guidance on the implementation of the restriction to immediate needs funding, or any other spending restrictions administratively imposed in the Disaster Relief Fund (DRF). This policy shall include thresholds for when a restriction will be implemented and identify which programs are impacted under the restriction. FEMA shall brief the Committees within 90 days after the date of the enactment of this Act on the completed policy. Further, FEMA is directed to notify the Committees no later than 15 days prior to the implementation of immediate needs funding restrictions, to the extent practicable.

To improve the validity and veracity of requests for disaster relief funding in future budgets, the Administrator and the CFO of FEMA shall develop policy and guidance that defines the methodology used to formulate the budget estimate for the DRF. The

policy shall be consistent with the Budget and Control Act and shall include a clear description of the data used as a basis for the request, the office responsible for providing the data, and the source(s) of data used. The Office of the Administrator and the CFO of FEMA shall brief the Committees within 90 days of the date of the enactment of this Act on the proposed policy and guidance. Using this policy and guidance, the CFO of FEMA shall work with a qualified third party organization to review the methodology and create estimating tools that will enable rigorous and more consistent forecasting of the requirements for the Disaster Relief Fund. Up to \$500,000 is provided for this effort. The Committees shall be regularly briefed by the CFO on the status of the project.

Further, to improve the management of the DRF and assistance programs, FEMA needs to improve the quality and timeliness of project worksheets for public assistance grants, as well as the process for sharing that information with regional offices, FEMA headquarters, and the Office of Management and Budget (OMB). Therefore, FEMA shall work with the Homeland Security Studies and Analysis Institute, or an independent organization with expertise in grants management, to review the project worksheet process and flow of information, and provide a report to the Committees no later than May 1, 2012. The organization shall provide recommendations to FEMA and the Committees on how to improve the collection and sharing of grant information between the regions, FEMA headquarters, and OMB. The review shall include a delineation of the time an application, or an application appeal, currently spends at each office and stage of the process including the joint field office, FEMA regional office, FEMA headquarters, DHS, and OMB; and ways to streamline the information and reduce the time needed to adjudicate applications.

#### Office of the National Capital Region Coordination

A total of \$5,493,000 is provided for the ONCRC. The ONCRC was created to oversee and coordinate Federal programs for and relationships with State, local, and regional authorities in the National Capital Region. Strides have been made in coordinating efforts, especially among the State and local partners, however, there is much more to do, especially in regard to coordination and communication among Federal entities in the area. The Office of the Administrator of FEMA, in conjunction with ONCRC, shall provide a briefing within 60 days after the date of enactment of this Act, on a clear strategy and an action plan to ensure that ONCRC activities are focused in the most efficient and effective manner. The briefing shall provide an understanding of specific outcomes of the ONCRC for fiscal year 2012, and the timeframe in which they will be completed. Further, the Administrator of FEMA is directed to comply with section 882 of the Homeland Security Act of 2002 with respect to the submission of the ONCRC annual report. The annual report shall be submitted within 60 days of the date of enactment of this Act.

A provision is continued requiring the inclusion of the Governors of the State of West Virginia and the Commonwealth of Pennsylvania in the National Capital Region decision-making and planning process for mass evacuation.

#### Urban Search and Rescue

A total of \$41,250,000 is for the Urban Search and Rescue Response System, an in-

crease of \$6,070,000 over fiscal year 2011. The increase provides for updating the chemical, biological, radiological, nuclear, or explosives equipment for existing teams and to add an additional team, if warranted, to ensure adequate response times and coverage across the Nation. None of the additional funds provided may be obligated until five days after FEMA briefs the Committees on the requirements and justification for the expenditure of funds. FEMA is directed to provide the details of the complete review of the System without delay.

#### Unaccompanied Minors Registry

A total of no less than \$500,000 is provided to automate the unaccompanied minors registry and call center as directed in the Senate report.

#### Presidential Policy Directive—8

The Conferees are pleased the National Preparedness Goal was submitted this past September, in accordance with the Presidential Policy Directive—8, and expect to receive a report describing the National Preparedness System before January 2012. Within 15 days after receiving the report, FEMA shall brief the Committees on the recommendations of the report, timelines for their implementation, and their budgetary impacts.

#### STATE AND LOCAL PROGRAMS (INCLUDING TRANSFER OF FUNDS)

A total of \$1,349,681,000 is provided for State and Local programs. The amount provided for this appropriation by PPA is as follows:

State and Local Programs	
Grants .....	\$1,118,000,000
Education, Training, and Exercises:	
Emergency Management Institute .....	16,181,000
Center for Domestic Preparedness .....	62,500,000
National Domestic Preparedness Consortium .....	93,000,000
National Exercise Program .....	34,000,000
Continuing Training .....	26,000,000
Subtotal, Education, Training, and Exercises .....	231,681,000
Total, State and Local Programs .....	\$1,349,681,000

The funds provided for State and Local Program grants are to be allocated according to threat, vulnerability, and consequence to assist high-risk urban areas, States, local and Tribal governments, and other homeland security partners in preventing, preparing for, protecting against, and responding to acts of terrorism. Congress has appropriated over \$34,000,000,000 to homeland security grants to date to build first responder capabilities and secure infrastructure. Given the current fiscal climate, the Department should work with the appropriate Committees of jurisdiction to clearly define the Federal role and reassess the most effective delivery of support and resources to sustain and improve homeland security capabilities.

The Secretary and the Administrator of FEMA are directed to study the current grant programs in order to make them the most effective and to reduce impediments to the timely expenditure of homeland security grant funds. The results of such study shall be provided to the Committees in conjunction with the required comprehensive plan to implement a system to measure the effectiveness of grants.

Several provisions are included related to grant administration. Grant guidance shall be issued within 60 days, applicants shall apply within 80 days, and award decisions shall be made within 65 days. Grantees may not use more than 5 percent of a grant for grant administration and shall provide reports on the use of funds as determined necessary by the Secretary. The installation of communications towers is not considered construction under State Homeland Security Grants and the Urban Area Security Initiative.

A provision is included allowing the Center for Domestic Preparedness to train certain emergency personnel provided it does not interfere with the primary mission to train state and local emergency response providers.

Funding for the Emergency Management Institute is provided under this heading, instead of under "Salaries and Expenses" (formerly "Management and Administration") as in previous years.

The Department shall brief the Committees on steps taken to ensure community leaders and grantees have the same threat, vulnerability, and consequence information that is available to the Department to ensure applications reflect true risk.

The GAO is no longer required to monitor the development of any system to measure the effectiveness of the grant programs as directed in the House report.

FEMA is required to provide a report on the accomplishments of the Regional Catastrophic Preparedness Grant Program, including how successes can be transitioned to and sustained through future catastrophic planning efforts.

As addressed in both the Senate and House reports, the continued slow expenditure of funds is concerning. FEMA is directed to brief the Committees no later than 90 days after the date of enactment of this Act on plans to expedite the expenditure of funds for interoperable emergency communications, port security, and transit security grants. Particular attention should be placed on funds that were appropriated prior to fiscal year 2008.

#### FIREFIGHTER ASSISTANCE GRANTS

A total of \$675,000,000 is provided for Firefighter Assistance Grants including \$337,500,000 for firefighter assistance grants and \$337,500,000 for firefighter staffing grants. FEMA is directed to continue the present practice of funding applications according to local priorities and those established by the United States Fire Administration, to maintain an all-hazards focus, and to grant funds for eligible activities in accordance with the authorizing statute. FEMA is required to continue the current grant application and review process as specified in the House report.

#### EMERGENCY MANAGEMENT PERFORMANCE GRANTS

A total of \$350,000,000 is provided for Emergency Management Performance Grants.

#### RADIOLOGICAL EMERGENCY PREPAREDNESS PROGRAM

Statutory language is included providing for the receipt and expenditure of fees collected, as authorized by P.L. 105-276.

#### UNITED STATES FIRE ADMINISTRATION

A total of \$44,038,000 is provided for the United States Fire Administration.

#### DISASTER RELIEF FUND

#### (INCLUDING TRANSFER OF FUNDS)

A total of \$7,000,000,000 is provided in this conference agreement for the Disaster Relief

Fund formerly called “Disaster Relief.” The conferees anticipate that an additional \$6,400,000,000 that is designated for major disasters pursuant to 251(b)(2)(D) of the Balanced Budget and Emergency Deficit Control Act of 1985 will be provided in legislation that is being considered in parallel to this conference agreement. Therefore, a total amount of \$7,100,000,000 will be provided for the Disaster Relief Fund for fiscal year 2012 consistent with estimates provided by the Director of the Office of Management and Budget in a letter dated October 19, 2011, and by the Secretary of Homeland Security in the report titled “Disaster Relief Funding Requirements” dated October 21, 2011, pursuant to the legislative requirement in Section 125 of H.R. 2017 (Public Law 112–36). Of the funds provided in this conference agreement, \$24,000,000 shall be transferred to the DHS OIG for audits and investigations related to disasters.

A provision is included amending Public Law 110–161 which exempts FEMA from the permanent requirement to submit a monthly “Disaster Relief” report. A new provision is included updating the timeframes and information which FEMA must report to the Committees on the Disaster Relief Fund. This provision reduces the burden of reporting by FEMA and allows for better oversight of funding requirements by the Committees. There are several previous reporting requirements which are deleted altogether. FEMA is cautioned that such data could be required in the future after a catastrophic event, and FEMA should therefore not lose the capacity to track and provide such information including: Mission Assignment obligations and expenditures by Federal agency; credit card costs and purchases by DHS agencies; and sole source contracts.

A report on the expenditure of funds for disaster readiness and support, including quarterly updates, is required, as in previous years.

A requirement is included in this statement under FEMA Salaries and Expenses to improve DRF budget estimates.

#### DISASTER ASSISTANCE DIRECT LOAN PROGRAM ACCOUNT

A total of \$295,000 is provided for the cost of direct loans.

#### FLOOD HAZARD MAPPING AND RISK ANALYSIS

A total of \$97,712,000 is provided for flood hazard mapping and risk analysis.

FEMA is directed to provide no less than 20 percent of the funds provided under this heading for map updates and maintenance conducted by Cooperating Technical Partners (CTPs) that provide at least a 25 percent cash match and have a strong record of working effectively with FEMA on floodplain mapping activities.

#### NATIONAL FLOOD INSURANCE FUND

A total of \$22,000,000 is provided for salaries and expenses and \$149,000,000 for flood plain management and mapping. Further, \$10,000,000 is provided for the severe repetitive loss program.

#### NATIONAL PREDISASTER MITIGATION FUND

A total of \$35,500,000 is provided for National Predisaster Mitigation Fund. The unobligated balance from previous years is \$173,259,000.

#### EMERGENCY FOOD AND SHELTER

A total of \$120,000,000 is provided for the Emergency Food and Shelter program.

### TITLE IV—RESEARCH AND DEVELOPMENT, TRAINING, AND SERVICES

#### UNITED STATES CITIZENSHIP AND IMMIGRATION SERVICES

A total of \$102,424,000 is provided in discretionary appropriations for USCIS for E-Verify.

#### FEE FUNDED PROGRAMS

USCIS operations that have been funded through fee revenue should continue to be funded in that manner, including the processing of refugee and asylum claims, Systematic Alien Verification for Entitlements (SAVE), and immigrant integration activities. USCIS is directed to include these costs in its revised fee schedule in recognition of the fact that no additional appropriations will be available to cover the costs of these activities. Further, the table at the end of this statement is updated to reflect these activities as funded through fee collections and includes new projections from USCIS. The requirement in the House report regarding quarterly briefings on fee revenues and obligations is incorporated into the user fee report requirement addressed in this statement under the heading “Office of the Chief Financial Officer.”

#### DIGITIZATION EFFORTS

USCIS, ICE, and the Executive Office of Immigration Review are directed to brief the Committees on use of digitized records, as required in the House report, no later than March 1, 2012. USCIS is also directed to provide no less than \$29,000,000 to continue conversion of immigration records to digital format.

#### SYSTEMATIC ALIEN VERIFICATION FOR ENTITLEMENTS

Due to current budgetary constraints, the SAVE program must continue to be funded through user fees and other USCIS fee revenues. USCIS shall explore all opportunities to reduce the burden on State and local benefits agencies that serve as a disincentive to participation. Additionally, USCIS shall ensure that improvements to the Verification Information System benefit both E-Verify and SAVE users.

#### REAL ID

The Department is directed to brief the Committees no later than April 13, 2012, on the steps being taken to encourage the States to draw down these funds, the progress on draw down, and the specific reasons by jurisdiction for the delay in draw down, as directed in the House report.

#### IMMIGRANT INTEGRATION GRANTS

Section 551 is included providing \$10,000,000 for immigrant integration grants from fee revenue. No more than five percent of the amount of funds utilized for immigrant integration grants can be used to administer the program.

#### FEDERAL LAW ENFORCEMENT TRAINING CENTER

#### SALARIES AND EXPENSES

A total of \$238,957,000 is provided for “Salaries and Expenses,” as requested. Within the funds provided, \$29,716,000 is for Management and Administration and \$1,304,000 is for the Federal Law Enforcement Training Accreditation Board.

#### ACQUISITIONS, CONSTRUCTION, IMPROVEMENTS, AND RELATED EXPENSES

A total of \$32,456,000 is provided for “Acquisitions, Construction, Improvements, and Related Expenses.”

#### SCIENCE AND TECHNOLOGY

#### MANAGEMENT AND ADMINISTRATION

A total of \$135,000,000 is provided for “Management and Administration,” including not

to exceed \$8,500 for official reception and representation expenses.

#### RESEARCH, DEVELOPMENT, ACQUISITION, AND OPERATIONS

A total of \$533,000,000 is provided for “Research, Development, Acquisition, and Operations,” including \$265,783,000 for a new consolidated “Research, Development, and Innovation” (RDI) PPA in lieu of the previous, more detailed program areas. Funding is available for three years, except Laboratory Facilities funding, which is available for five years.

The amount provided for this appropriation by PPA is as follows:

Research, Development, and Innovation .....	\$265,783,000
Laboratory Facilities (Operations and Construction) .....	176,500,000
Acquisition and Operations Support .....	54,154,000
University Programs .....	36,563,000

Total, Research, Development, Acquisition and Operations .....

\$533,000,000

#### RESEARCH, DEVELOPMENT, AND INNOVATION

The new PPA for RDI will enable S&T to more quickly shift resources, if necessary, between research activities without formal reprogramming or transfer actions. In some instances, research activity may straddle several different missions and thrust areas. S&T and the Department must prioritize this consolidated research budget, which is substantially reduced from recent fiscal years, to focus on areas with the greatest promise for delivering material improvements or tangible contributions to homeland security missions in the near term. This flexibility in funding should facilitate that effort and partially offset the impact of an overall funding reduction.

However, it remains important for accountability and visibility into the S&T research program that a more detailed reporting of research activity be available. Therefore, S&T is directed to submit to the Committees a detailed breakout of RDI funding by research thrust areas and by project, based on the categories presented in the budget justification materials, no later than 30 days after the date of enactment of this Act, and to submit quarterly updates thereafter.

#### APEX RESEARCH PROJECTS

The Apex initiative focuses on high-priority, high-value projects expected to produce results to solve a homeland security challenge in the near term. To provide the best oversight over these programs, S&T is directed to brief the Committees before initiating any new Apex projects, as specified in the House report. S&T and the Secret Service shall brief the Committees no later than 60 days after the date of enactment of this Act on the protective technology project, to include a progress report and a schedule for test and evaluation under operational conditions.

#### RESILIENCE AND CYBERSECURITY

S&T is encouraged to continue to support competitively awarded research into disaster resilience with universities and Federal research centers, as well as cybersecurity research and development, as discussed in the Senate report.

#### LABORATORY FACILITIES (OPERATIONS AND CONSTRUCTION)

A total of \$176,500,000 is provided for Laboratory Facilities (Operations and Construction), of which \$50,000,000 shall be to support

the construction of the National Bio- and Agro-defense Facility (NBAF), and of which \$18,200,000 shall be for infrastructure upgrades at the Transportation Security Laboratory as requested. Section 550 in the Act restricts funds appropriated in this Act for NBAF construction until the Department of Homeland Security completes 50 percent design planning for the NBAF, submits a revised site-specific biosafety and biosecurity mitigation risk assessment, and submits the National Academy of Sciences' review of the revised risk assessment. In addition, the revised site-specific biosafety and biosecurity mitigation risk assessment is to include a plan for expenditure of funds related to NBAF construction and a revised estimate of the total construction costs to complete the facility.

#### NUCLEAR AND RADIOLOGICAL RESPONSE AND RECOVERY

While funding for general transformational research and development of nuclear and radiological threat detection is funded within the Domestic Nuclear Detection Office (DNDO), S&T is directed as part of its fiscal year 2013 budget to give priority to research and development of technology for response and recovery from nuclear or radiological attacks or disasters, as part of its broader support of homeland security response and recovery requirements.

#### ACQUISITION AND OPERATIONS SUPPORT

A total of \$54,154,000 is provided for "Acquisition and Operations Support." S&T is directed to provide no less than \$6,641,000, as requested, for the establishment of policies and procedures for test and evaluation activities and to monitor and coordinate them across the Department's acquisition framework.

#### DOMESTIC NUCLEAR DETECTION OFFICE MANAGEMENT AND ADMINISTRATION

A total of \$38,000,000 is provided for "Management and Administration." the Secretary is directed to submit to the Committees no later than 180 days after the date of enactment of this Act a strategic plan of investments necessary to implement the Department's responsibilities under the domestic component of the Global Nuclear Detection Architecture (GNDA), as required by this Act.

#### RESEARCH, DEVELOPMENT, AND OPERATIONS

A total of \$215,000,000 is provided for "Research, Development, and Operations."

The amount provided for this appropriation by PPA is as follows:

Systems Engineering and Architecture .....	\$30,000,000
Systems Development .....	51,000,000
Transformational Research and Development .....	40,000,000
Assessments .....	38,000,000
Operations Support .....	33,000,000
National Technical Nuclear Forensics Center ....	23,000,000
<b>Total, Research, Development, and Operations .....</b>	<b>\$215,000,000</b>

#### SEMI-ANNUAL BRIEFINGS

In lieu of quarterly briefings, as directed in the House and Senate reports, DNDO is directed to brief the Committees semi-annually on program updates and to provide periodic updates on any new threats, research, and studies and assessments related to the GNDA. Semi-annual program briefings shall also cover emergent technology solutions being explored by DNDO, such as the human portable tripwire program; cargo scanning technologies for air, land, and sea ports of

entry; long-range detection; small vessel standoff detection; and related programs. Briefings shall include available test and evaluation results.

#### SYSTEMS ENGINEERING AND ARCHITECTURE

Funding for DNDO's proposed Mission Critical Messaging program is provided to enhance situational awareness of the GNDA.

#### SYSTEMS DEVELOPMENT

In lieu of the requirement for an evaluation of DNDO's acquisitions funding and the appropriateness of consolidating DNDO's "Systems Development" and "Test and Evaluation Infrastructure Operations" activities within the Department's Science and Technology Directorate, language is included under the "Office of the Chief Financial Officer" heading in this statement regarding an assessment of the Department's acquisition organization and performance in support of its nuclear detection mission.

#### TRANSFORMATIONAL RESEARCH AND DEVELOPMENT

The Department's request to transfer radiological and nuclear research and development from DNDO to the Department's Science and Technology Directorate is denied. Instead, a total of \$40,000,000 is provided for Transformational Research and Development (R&D).

The conferees recognize that transformational R&D is funded at a substantially reduced level when compared to prior fiscal years and urge DNDO to leverage partnerships within the Department and the inter-agency community to realize the Office's radiological and nuclear research objectives. DNDO is directed to provide a detailed breakout no later than 60 days after the date of enactment of this Act of how it intends to fund transformational R&D activities at the reduced appropriations level, as directed in the House report.

#### SYSTEMS ACQUISITION

A total of \$37,000,000 is provided for "Systems Acquisition."

The amount provided for this appropriation by PPA is as follows:

Radiation Portal Monitor Program .....	\$7,000,000
Securing the Cities .....	22,000,000
Human Portable Radiation Detection System .....	8,000,000
<b>Total, Systems Acquisition .....</b>	<b>\$37,000,000</b>

#### RADIATION PORTAL MONITOR PROGRAM

A total of \$7,000,000 is provided for the Radiation Portal Monitor (RPM) program. Reductions from the request are made in light of the Secretary's decision to cancel the Advanced Spectroscopic Portal (ASP) program as communicated in the Secretary's letter of October 3, 2011, to the Committees. As a result of the Secretary's decision, bill language restricting deployment of ASP is not included. If a successor program is initiated by the Department, the Committees are to be notified.

#### SECURING THE CITIES

A total of \$22,000,000 is provided for the Securing the Cities (STC) program, which includes \$2,000,000 for a new STC location beyond the New York pilot. In lieu of the reports required by the House and Senate on the STC program, DNDO is directed to provide a report, before committing funds to a new STC location, that: (1) Provides an evaluation of the New York STC pilot, including lessons learned for future STC sites and corrective actions that are being taken, or will be taken, to reconcile deficiencies identified

in exercises and reviews; (2) details efforts to establish a model for STC lifecycle costs; (3) delineates performance measures that will be used to evaluate STC sites; and (4) outlines plans for a Federal transition strategy for the existing and new STC location.

In lieu of quarterly briefings, as directed in the House report, DNDO is directed to provide periodic briefings on the Securing the Cities program, with the first briefing to be scheduled after the Committees receive the report assessing the 2011 STC exercise in New York City.

#### TITLE V—GENERAL PROVISIONS

Section 501. A provision proposed by the House and Senate is continued that no part of any appropriation shall remain available for obligation beyond the current year unless expressly provided.

Section 502. A provision proposed by the House and Senate is continued that unexpended balances of prior appropriations may be merged with new appropriation accounts and used for the same purpose, subject to reprogramming guidelines.

Section 503. A provision proposed by the Senate is continued that provides authority to reprogram appropriations within an account and to transfer up to 5 percent between appropriations accounts with 15-day advance notification to the Committees. The House proposed a similar provision. A detailed funding table identifying programs, projects, and activities is included at the end of this statement. This table along with funding levels specified in the report shall serve as the control level for all reprogrammings. These reprogramming guidelines shall be complied with by all agencies funded by this Act.

The Department shall submit reprogramming requests on a timely basis and provide complete explanations of the reallocations proposed, including detailed justifications of the increases and offsets, and any specific impact the proposed changes will have on the budget request for the following fiscal year and future-year appropriations requirements. Each request submitted to the Committees should include a detailed table showing the proposed revisions at the account, program, project, and activity level to the funding and staffing (full-time equivalent position) levels for the current fiscal year and to the levels requested in the President's budget for the following fiscal year.

The Department shall manage its programs and activities within the levels appropriated. The Department should only submit reprogramming or transfer requests in the case of an unforeseeable emergency or situation that could not have been predicted when formulating the budget request for the current fiscal year. When the Department submits a reprogramming or transfer request to the Committees and does not receive identical responses from the House and Senate, it is the responsibility of the Department to reconcile the House and Senate differences before proceeding, and if reconciliation is not possible, to consider the reprogramming or transfer request not approved.

The Department is not to submit a reprogramming or transfer of funds after June 30 except in extraordinary circumstances, which imminently threaten the safety of human life or the protection of property. If a reprogramming or transfer is needed after June 30, the notice should contain sufficient documentation as to why it meets this statutory exception.

Subsection (e), added in the fiscal year 2011 year-long continuing resolution, is included to ensure that funds that are deobligated by

the Department are also subject to the reprogramming and transfer guidelines and requirements set forth in this section.

Section 504. A provision proposed by the House and Senate is continued that prohibits funds appropriated or otherwise made available to the Department to make payment to the Department's Working Capital Fund, except for activities and amounts allowed in the President's fiscal year 2012 request. Funds provided to the WCF are available until expended. The Department can only charge components for direct usage of the WCF and these funds may be used only for the purposes consistent with the contributing component. Any funds paid in advance or reimbursed must reflect the full cost of each service. The WCF shall be subject to the requirements of section 503 of this Act.

Section 505. A provision proposed by the House and Senate is continued that not to exceed 50 percent of unobligated balances remaining at the end of fiscal year 2012 from appropriations made for salaries and expenses shall remain available through fiscal year 2013 subject to section 503 reprogramming guidelines.

Section 506. A provision proposed by the House and Senate is continued that funds for intelligence activities are deemed to be specifically authorized during fiscal year 2012 until the enactment of an Act authorizing intelligence activities for fiscal year 2012.

Section 507. A provision proposed by the House and Senate is continued and modified requiring notification of the Committees three days before grant allocations, grant awards, contract awards, other transactional agreements, letters of intent, or a task or delivery order on a multiple contract award totaling \$1,000,000 or more, or a task or delivery order greater than \$10,000,000 from multi-year funds, is announced by the Department, including contracts covered by the Federal Acquisition Regulation. The Department is required to brief the Committees 5 full business days prior to announcing the intention to make a grant under State and Local Programs. Notification shall include a description of the project or projects to be funded, including city, county, and State.

Section 508. A provision proposed by the House and Senate is continued that no agency shall purchase, construct, or lease additional facilities for Federal law enforcement training without advance approval of the Committees.

Section 509. A provision proposed by the House and Senate is continued that none of the funds may be used for any construction, repair, alteration, and acquisition project for which a prospectus, if required under chapter 33 of title 40, United States Code, has not been approved.

Section 510. A provision proposed by the House and Senate is continued and modified that consolidates by reference prior year statutory bill language into one provision. These provisions relate to contracting officer's technical representative training; sensitive security information; and the use of funds in conformance with section 303 of the Energy Policy Act of 1992.

Section 511. A provision proposed by the House and Senate is continued that none of the funds may be used in contravention of the Buy American Act.

Section 512. A provision proposed by the House and Senate is continued and modified on reporting requirements of the privacy officer.

Section 513. A provision proposed by the House and Senate is continued regarding the oath of allegiance required by section 337 of the Immigration and Nationality Act.

Section 514. A provision proposed by the House and Senate is continued requiring the Chief Financial Officer to submit monthly budget execution and staffing reports within 45 days after the close of each month.

Section 515. A provision proposed by the Senate is continued regarding the competitive sourcing for United States Citizenship and Immigration Services. The House proposed no similar provision.

Section 516. A provision proposed by the Senate is continued and modified directing that any funds appropriated or transferred to TSA "Aviation Security", "Administration", and "Transportation Security Support" in fiscal years 2004 and 2005 that are recovered or deobligated shall be available only for procurement and installation of explosives detection systems, air cargo, baggage, and checkpoint screening systems, subject to notification. Quarterly reports must be submitted identifying any funds that are recovered or deobligated. The House proposed a similar provision.

Section 517. A provision proposed by the House and Senate is continued for fiscal year 2012 requiring that any funds appropriated to the Coast Guard's 110-123 foot patrol boat conversion that are recovered, collected, or otherwise received as a result of negotiation, mediation, or litigation, shall be available until expended for the Fast Response Cutter program.

Section 518. A provision proposed by the House and Senate is continued for fiscal year 2012 relating to undercover investigative operations authority of the U.S. Secret Service.

Section 519. A provision proposed by the House and Senate is continued classifying the functions of the instructor staff at the Federal Law Enforcement Training Center as inherently governmental for purposes of the Federal Activities Inventory Reform Act.

Section 520. A provision proposed by the House and Senate is continued prohibiting the obligation of funds to the Office of the Secretary and Executive Management, the Office of the Under Secretary for Management, and the Office of the Chief Financial Officer for grants or contracts awarded by any means other than full and open competition. Certain exceptions apply, and this provision does not require new competitions of existing contracts during their current terms. It also requires the Inspector General to review Departmental contracts awarded noncompetitively and report on the results to the Committees.

Section 521. A provision proposed by the House is continued and modified that prohibits funding pertaining to the Principal Federal Official during a Stafford Act declared disaster or emergency, with certain exceptions. The Senate proposed no similar provision.

Section 522. A provision proposed by the Senate is continued and made permanent regarding the enforcement of section 4025(1) of the Intelligence Reform and Terrorism Prevention Act of 2004 (Public Law 108-458; 118 Stat. 3724) regarding butane lighters. The House proposed a similar provision.

Section 523. A provision proposed by the House and Senate is continued that precludes DHS from using funds in this Act to carry out reorganization authority. This prohibition is not intended to prevent the Department from carrying out routine or small reallocations of personnel or functions within components, subject to Section 503 of this Act. This language prevents large scale reorganization of the Department, which should be acted on legislatively by the relevant Congressional committees of jurisdiction.

Section 524. A provision proposed by the Senate is continued prohibiting the Secretary from reducing operations within the Coast Guard's Civil Engineering Program except as specifically authorized by a statute enacted after the date of enactment of this Act. The House proposed no similar provision.

Section 525. A provision proposed by the House and Senate is included prohibiting funding to grant an immigration benefit to any individual unless the results of background checks required by statute to be completed prior to the grant of benefit have been received by DHS.

Section 526. A provision proposed by the House and Senate is continued, modified, and made permanent prohibiting use of funds to destroy or put out to pasture any horse or other equine belonging to any component or agency of DHS unless adoption has been offered first.

Section 527. A provision proposed by the Senate is included extending other transactional authority for DHS through fiscal year 2012 and eliminates a GAO reporting requirement that is no longer necessary. The House proposed a similar provision.

Section 528. A provision proposed by the House and Senate is continued requiring the Secretary to link all contracts that provide award fees to successful acquisition outcomes.

Section 529. A provision proposed by the Senate is included and modified regarding waivers of 16 U.S.C. 501(b). The House proposed no similar provision.

Section 530. A provision proposed by the House and Senate is continued and modified prohibiting the obligation of funds for the Office of the Secretary and Executive Management for any new hires at DHS if they are not verified through the E-Verify program.

Section 531. A provision proposed by the Senate is continued prohibiting funds from being used to reduce the Coast Guard's Operations Systems Center mission or its government-employed or contract staff. The House proposed no similar provision.

Section 532. A provision proposed by the House and Senate is continued related to prescription drugs.

Section 533. A provision proposed by the Senate is continued prohibiting funds to be used to conduct or implement the results of a competition under Office of Management and Budget Circular A-76 with respect to the Coast Guard National Vessel Documentation Center. The House proposed no similar provision.

Section 534. A provision proposed by the House and Senate is continued requiring the Secretary, in conjunction with the Secretary of the Treasury, to notify the Committees of any proposed transfers from the Department of the Treasury Forfeiture Fund to any agency within DHS. No funds may be obligated until the Committees approve the proposed transfers. If the President proposes to rescind Treasury Forfeiture Funds in his fiscal year 2013 budget, he shall propose to divide the funds equitably between the Departments based upon their contributions to the Fund.

Section 535. A provision proposed by the House and Senate is continued prohibiting funds for planning, testing, piloting, or developing a national identification card.

Section 536. A provision proposed by the House is continued requiring the TSA Administrator to certify that no security risks will result if an airport does not participate in the E-Verify program. The Senate proposed no similar provision.

Section 537. A provision proposed by the House and Senate is continued and modified that requires a report, to be posted on the FEMA website, summarizing damage assessment information used to determine whether to declare a major disaster.

Section 538. A provision proposed by the House and Senate is continued, modified, and made permanent relating to the liquidation of Plum Island assets and how the proceeds from such sale may be applied to construction costs of the new National Bio- and Agro-defense Facility.

Section 539. A provision proposed by the House and Senate is continued directing that any official required by this Act to report or to certify to the Committees on Appropriations may not delegate any authority unless expressly authorized to do so in this Act.

Section 540. A provision proposed by the Senate is continued extending the risk-based security standards for chemical facilities cited in section 550 of Public Law 109-295, as amended, for one year. The House proposed a similar provision.

Section 541. A provision proposed by the Senate is continued prohibiting the use of funds for the transfer or release of individuals detained at United States Naval Station, Guantanamo Bay, Cuba. The House proposed a similar provision.

Section 542. A provision proposed by the House and Senate is continued prohibiting funds in this Act to be used for first-class travel.

Section 543. A provision proposed by the House and Senate is continued prohibiting funds in this Act to be used for adverse personnel actions for employees who use protective equipment or measures, including surgical masks, N95 respirators, gloves, or hand-sanitizers in the conduct of their official duties.

Section 544. A provision proposed by the House and Senate is continued prohibiting funds to be used to employ illegal workers as described in Section 274A(h)(3) of the Immigration and Nationality Act.

Section 545. A provision proposed by the Senate is continued and modified relating to the proper disposal of personal information collected through the Registered Traveler program. The House proposed a similar provision.

Section 546. A provision proposed by the Senate is continued and made permanent regarding the definition of the term "rural" for purposes of section 210C of the Homeland Security Act of 2002. The House proposed no similar provision.

Section 547. A provision proposed by the House and Senate is continued prohibiting funds appropriated or otherwise made available by this Act to pay for award or incentive fees for contractors with below satisfactory performance or performance that fails to meet the basic requirements of the contract.

Section 548. A provision proposed by the House and Senate is included that requires the TSA Administrator to submit biannual reports on how the agency will meet the requirement to screen 100 percent of air cargo transportation on passenger aircraft arriving in the United States. TSA has indicated they will not be able to meet the 9/11 Act deadline for this subset of air cargo.

Section 549. A provision proposed by the House and Senate is included that requires any new processes developed to screen aviation passengers and crews for transportation or national security to consider privacy and civil liberties, consistent with applicable laws, regulations, and guidance.

Section 550. A provision proposed by the Senate is included and modified pertaining to the construction of the National Bio- and Agro-defense Facility in Manhattan, Kansas. The House proposed no similar provision.

Section 551. A provision proposed by the House is included and modified that makes deposits into the Immigration Examinations Fee Account available to United States Citizenship and Immigration Services for the purposes of providing immigrant integration grants of \$10,000,000 in fiscal year 2012. The Senate provided funding for this activity under the USCIS heading.

Section 552. A provision proposed by the Senate is included and modified providing \$7,500,000 for the Federal Emergency Management Agency to reimburse costs incurred by State and local governments affected by National Special Security Events, including use of services, personnel, equipment, and facilities. The House proposed no similar provision.

Section 553. A provision proposed by the Senate is included providing some flexibility to the Department for financing a response to an immigration emergency, subject to notification. The House proposed no similar provision.

Section 554. A provision proposed by the Senate is included permitting administrative law judges to be available temporarily to serve on an arbitration panel as needed for cases related to Hurricanes Katrina and Rita. The House proposed no similar provision.

Section 555. A provision proposed by the Senate is included prohibiting funds appropriated or otherwise made available by this Act for DHS to enter into a Federal contract unless the contract meets requirements of the Federal Property and Administrative Services Act of 1949 or Chapter 137 of title 10 U.S.C., and the Federal Acquisition Regulation, unless the contract is otherwise authorized by statute without regard to this section. The House proposed no similar provision.

Section 556. A provision proposed by the Senate is included and modified providing \$70,000,000 for data center migration activities to be allocated by the Secretary and allowing the Secretary to transfer data center migration funds made available by this Act between appropriations after notifying the Committees 15 days in advance. The House proposed no similar provision.

Section 557. A provision proposed by the Senate is included and made permanent allowing the Advanced Training Center to charge fees for any service or thing of value it provides to the Federal Government or non-government entities or individuals, so long as the fee does not exceed the full costs associated with the service or thing of value. The House proposed no similar provision.

Section 558. A provision proposed by the Senate is included relating to the sale of LORAN properties. The House proposed no similar provision.

Section 559. A provision proposed by the Senate is included and modified permitting the Department to sell ICE-owned detention facilities and use the proceeds from any sale for improvement to other facilities provided that any such sale will not result in the maintenance of less than 34,000 detention beds. The House proposed no similar provision.

Section 560. A provision proposed by the Senate is included providing a total of \$55,979,000 for consolidation of the new DHS headquarters at St. Elizabeths and consolidation of mission support activities. The House proposed no similar provision.

Section 561. A provision proposed by the House and Senate is included for fiscal year 2012 requiring that SAFER grants shall be used to retain firefighters, instead of only for increasing the number of firefighters. The provision also prohibits funds to be used to enforce certain requirements of the Federal Fire Prevention and Control Act of 1974 related to the program.

Section 562. A provision proposed by the Senate is included for fiscal year 2011 requiring that Staffing for Adequate Fire and Emergency Response (SAFER) grants shall be used to retain firefighters, instead of only for increasing the number of firefighters. The provision also prohibits funds to be used to enforce certain requirements of the Federal Fire Prevention and Control Act of 1974 related to the program. The House proposed no similar provision.

Section 563. A provision proposed by the Senate is included pertaining to future spills of national significance and reimbursement for the Coast Guard. The House proposed no similar provision.

Section 564. A provision proposed by the Senate is included and modified to impose increased penalties on individuals who circumvent security screening at airports. The House proposed no similar provision.

Section 565. A provision proposed by the Senate is included and modified related to recoupment of debts in cases where funds were distributed based on an error made by FEMA. The House proposed no similar provision.

Section 566. A provision proposed by the Senate is included regarding reimbursement by FEMA of Small Business Administration Loans for eligible hazard mitigation activity. Execution of this authority shall not result in an individual being reimbursed more than once for the same mitigation activity. The House proposed no similar provision.

Section 567. A provision proposed by the House is included and modified prohibiting availability of funds for the Association of Community Organizations for Reform Now (ACORN) and its affiliated organizations. The Senate proposed no similar provision.

Section 568. A new provision is included requiring the Commissioner of CBP and the Assistant Secretary of ICE to submit multi-year investment and management plans for funds executed by their respective Offices of Information Technology. The House proposed similar provisions under the headings U.S. Customs and Border Protection "Automation Modernization," and U.S. Immigration and Customs Enforcement "Automation Modernization."

Section 569. A new provision is included stating that the Secretary shall ensure enforcement of immigration laws.

Section 570. A provision proposed by the House and Senate is included and modified rescinding unobligated balances made available to the Department when it was created in 2003.

Section 571. A new provision is included rescinding unobligated balances in multiple appropriations across the Department, pursuant to section 505 of Public Law 112-10.

Section 572. A provision is included rescinding unobligated balances of prior year appropriations in multiple appropriations across the Department.

Section 573. A provision proposed by the House is continued and modified to extend the authorization of the National Flood Insurance Program until the earlier of the date of the enactment into law of an Act that specifically reauthorizes or extends the authorization of the program, May 31, 2012.

## PROVISIONS NOT ADOPTED

The conference agreement does not include section 547 of the House bill rescinding \$11,300,000 in unobligated balances from ICE, Construction.

The conference agreement does not include section 558 of the Senate bill authorizing an increase to aviation security passenger fees for fiscal year 2012.

The conference agreement does not include section 565 of the Senate bill making available an additional \$18,300,000 until September 30, 2014, designated as emergency and offset by rescinding unobligated emergency balances, for Coast Guard to replace a rotary wing airframe.

The conference agreement does not include section 570 of the Senate bill rescinding \$20,000,000 in unobligated prior year balances from S&T "Research, Development, Acquisitions, and Operations."

The conference agreement does not include section 601 of the House bill rescinding \$500,000,000 from Department of Energy unobligated balances pursuant to section 129 of P.L. 110-329 and transfers \$1,000,000,000 to FEMA Disaster Relief.

The conference agreement does not include section 701 of the House bill prohibiting new

budget authority from exceeding budget allocation.

The conference agreement does not include section 702 of the House bill prohibiting use of funds in contravention of section 642(a) of the Illegal Immigration Reform and Immigrant Responsibility Act of 1996.

The conference agreement does not include section 703 of the House bill prohibiting use of funds to parole an alien or grant deferred action except on a case-by-case basis for urgent humanitarian reasons or significant public benefit.

The conference agreement does not include section 704 of the House bill prohibiting use of funds to require TWIC applicants to appear at a designated enrollment center for issuance, renewal, or activation.

The conference agreement does not include section 705 of the House bill prohibiting use of funds unless in accordance with Presidential Memorandum—Federal Fleet Performance (May 24, 2011).

The conference agreement does not include section 706 of the House bill prohibiting use of funds in contravention of section 44917 of 49 USC (pertaining to Federal Air Marshals).

The conference agreement does not include section 707 of the House bill prohibiting use of funds for the DHS Climate Change Adaptation Task Force.

The conference agreement does not include section 710 of the House bill prohibiting use of funds in contravention of section 236(c) of the Immigration and Nationality Act.

The conference agreement does not include section 711 of the House bill prohibiting use of funds for any political appointee to delay, vacate, or reverse a FOIA decision by a Privacy Office employee.

The conference agreement does not include section 712 of the House bill prohibiting use of funds to implement a determination regarding transportation security officers and collective bargaining.

The conference agreement does not include section 713 of the House bill prohibiting use of funds to implement any rule, regulation, or executive order regarding disclosure of political contributions.

The conference agreement does not include section 714 of the House bill limiting TSA Aviation Security funding for screener personnel, compensation, and benefits.

## CONFERENCE RECOMMENDATIONS

The conference agreement's detailed funding recommendations, specified by program, project, and activity level, are contained in the table listed below.

**DIVISION E—DEPARTMENT OF THE INTERIOR, ENVIRONMENT, AND RELATED AGENCIES APPROPRIATIONS ACT, 2012**

The following statement is an explanation of the effects of Division E, which makes appropriations for the Department of the Interior, the Environmental Protection Agency (EPA), the Forest Service, the Indian Health Service, and related agencies for fiscal year 2012. Language contained in House Report 112-151 providing specific guidance to agencies regarding the administration of appropriated funds and any corresponding reporting requirements carries the same emphasis as the language included in this explanatory statement and should be complied with unless specifically addressed to the contrary herein.

In instances where the House report speaks more broadly to policy issues or offers views that are subject to interpretation, such views remain those of the House and do not reflect the views of the conferees unless otherwise repeated in this statement. In cases where the House report or the statement of managers directs the submission of a report, such report is to be submitted to both the House and Senate Committees on Appropriations. Where this explanatory statement refers to the Committees or the Committees on Appropriations, unless otherwise noted, this reference is to the House Subcommittee on Interior, Environment and Related Agencies and the Senate Subcommittee on Interior, Environment and Related Agencies.

The conferees expect that each department and agency funded in this Act will follow the directions set forth in this Act and the accompanying statement, and will not reallocate resources or reorganize activities except as provided herein or otherwise approved by the Committees through the reprogramming process as described in this report. Funding levels for appropriations by account, program, and activity, with comparisons to the fiscal year 2011 enacted level and the fiscal year 2012 budget request, can be found in the table at the end of this division.

Unless expressly stated otherwise, any reference to "this Act" or "at the end of this statement" shall be treated as referring only to the provisions of this division.

**OVERSIGHT**—The EPA, Forest Service, and Department of the Interior are directed to report to the Committee no later than 60 days following enactment of this Act on steps taken to address management weaknesses and implement reforms identified by the Government Accountability Office (GAO) and each agency's IG during House oversight hearings held on March 1, 2011 (Department of the Interior); March 2, 2011 (EPA); and March 10, 2011 (U.S. Forest Service).

**Making Litigation Costs Transparent**—The EPA, Forest Service, and Department of the Interior are directed to provide to the House and Senate Committees on Appropriations, and make publicly available no later than 60 days after enactment, detailed Equal Access to Justice Act (EAJA) fee information as specified in House Report 112-151.

**Reprogramming Guidelines**—The following are the procedures governing reprogramming actions for programs and activities funded in the Department of the Interior, Environment and Related Agencies Appropriations Act.

**Definitions.**—"Reprogramming," as defined in these procedures, includes the reallocation of funds from one budget activity, budget line-item or program area, to another within any appropriation funded in this Act. In cases where the House Committee report displays an allocation of an appropriation below that level, that more detailed level shall be the basis for reprogramming.

For construction, land acquisition, and forest legacy accounts, a reprogramming constitutes the reallocation of funds, including unobligated balances, from one construction, land acquisition, or forest legacy project to another such project.

A reprogramming shall also consist of any significant departure from the program described in the agency's budget justifications. This includes proposed reorganizations, especially those of significant national or regional importance, even without a change in funding. Any change to the organization table presented in the budget justification shall be subject to this requirement.

**General Guidelines for Reprogramming.**—

(a) A reprogramming should be made only when an unforeseen situation arises, and then only if postponement of the project or the activity until the next appropriation year would result in actual loss or damage.

(b) Any project or activity, which may be deferred through reprogramming, shall not later be accomplished by means of further reprogramming, but instead, funds should again be sought for the deferred project or activity through the regular appropriations process.

(c) Except under the most urgent situations, reprogramming should not be employed to initiate new programs or increase allocations specifically denied or limited by Congress, or to decrease allocations specifically increased by the Congress.

(d) Reprogramming proposals submitted to the House and Senate Committees on Appropriations for approval shall be considered approved 30 calendar days after receipt if the Committees have posed no objection. However, agencies will be expected to extend the approval deadline if specifically requested by either Committee.

**Criteria and Exceptions.**—A reprogramming must be submitted to the Committees in writing prior to implementation if it exceeds \$1,000,000 annually or results in an increase or decrease of more than 10 percent annually in affected programs, with the following exceptions:

(a) With regard to the tribal priority allocations of the Bureau of Indian Affairs, there is no restriction on reprogrammings among these programs. However, the Bureau shall report on all reprogrammings made during a given fiscal year no later than 60 days after the end of the fiscal year.

(b) With regard to the EPA, State and Tribal Assistance Grants account, the Committee does not require reprogramming requests associated with States and Tribes Partnership Grants.

**Assessments.**—"Assessment" as defined in these procedures shall refer to any charges, reserves, or holdbacks applied to a budget activity or budget line item for costs associated with general agency administrative costs, overhead costs, working capital expenses, or contingencies.

(a) No assessment shall be levied against any program, budget activity, sub-activity, budget line item, or project funded by the Interior, Environment, and Related Agencies Appropriations Act unless such assessment and the basis therefore are presented to the Committees on Appropriations in the budget justifications and are subsequently approved by the Committees. The explanation for any assessment in the budget justification shall show the amount of the assessment, the activities assessed, and the purpose of the funds.

(b) Proposed changes to estimated assessments, as such estimates were presented in annual budget justifications, shall be sub-

mitted through the reprogramming process and shall be subject to the same dollar and reporting criteria as any other reprogramming.

(c) The conferees direct that each agency or bureau which utilizes assessments shall submit an annual report to the Committees which provides details on the use of all funds assessed from any other budget activity, line item, sub-activity, or project.

(d) In no case shall contingency funds or assessments be used to finance projects and activities disapproved or limited by Congress, or to finance programs or activities that could be foreseen and included in the normal budget review process.

(e) New programs requested in the budget should not be initiated before enactment of the bill without notification to, and the approval of, the Committees on Appropriations. This restriction applies to all such actions regardless of whether a formal reprogramming of funds is required to begin the program.

**Quarterly Reports.**—All reprogrammings between budget activities, budget line-items, program areas, or the more detailed activity levels shown in the Statement of the Managers, including those below the monetary thresholds established above, shall be reported to the Committees within 60 days of the end of each quarter and shall include cumulative totals for each budget activity, budget line item, or construction, land acquisition, or forest legacy project.

**Land Acquisitions, Easements, and Forest Legacy.**—Lands shall not be acquired for more than the approved appraised value (as addressed in section 301(3) of Public Law 91-646), unless such acquisitions are submitted to the Committees on Appropriations for approval in compliance with these procedures.

**Land Exchanges.**—Land exchanges, wherein the estimated value of the Federal lands to be exchanged is greater than \$1,000,000, shall not be consummated until the Committees have had a 30-day period in which to examine the proposed exchange. In addition, the Committees shall be provided advance notification of exchanges valued between \$500,000 and \$1,000,000.

**Budget Structure.**—The budget activity or line item structure for any agency appropriation account shall not be altered without advance approval of the House and Senate Committees on Appropriations.

**TITLE I—DEPARTMENT OF THE INTERIOR  
BUREAU OF LAND MANAGEMENT  
MANAGEMENT OF LANDS AND RESOURCES**

The bill provides \$961,900,000 for Management of Lands and Resources. The conferees also provide the following directions:

**Wild Horse and Burro Management.**—The bill provides \$75,008,000 for wild horse and burro management. The Bureau of Land Management is encouraged to take all necessary steps to keep costs under control for this program.

**Range Management.**—The bill increases funding to address numerous challenges including completion of grazing permit renewals; hiring of seasonal employees to ensure timely turn-out of livestock; annual and trend monitoring of grazing allotments; and improving the quality of Bureau work on environmental and other documents related to livestock grazing, among other range management activities.

**Native Plant Program.**—The conferees are supportive of the Bureau of Land Management's existing plant conservation and native plant materials program and expect the

Bureau to continue to support a robust program through resources provided under various accounts, including land management, wildlife management and threatened/endangered species.

**Wildlife and Fisheries.**—Funding is included throughout Bureau of Land Management line items for sage grouse habitat monitoring and updating Resource Management Plans to conserve the sage grouse. The Bureau should prioritize research related to White Nose Syndrome in bats and the inventory and monitoring of bat resources on Bureau-administered lands.

**Energy and Minerals.**—The conferees are concerned by rising energy prices and believe domestic energy production must increase while also being mindful of the environment and other competing land uses. To better track royalty payments, the Department should consider integrating systems that would allow for remote monitoring and third party verification of Bureau production. The conferees recommend that the Bureau of Land Management continue its policy of keeping renewable energy projects off lands that were donated for conservation regardless of deed status.

**Resource Protection and Maintenance.**—The bill provides \$101,707,000 for resource protection and maintenance. Within resource management planning, the Bureau should allocate at least \$5,000,000 toward revisions of the Resource Management Plans that contain sage grouse habitat.

In coordination with the Desert Renewable Energy Conservation Plan process, the Secretary is instructed to complete a report evaluating the possible Solar Energy Study Areas in the West Mojave that respect designated off-road vehicle routes and provide the report to the Committee on Appropriations within ninety days of enactment of this Act.

In the case of any land exchange involving public land carried out directly or through a third-party, the Bureau of Land Management is directed to provide written notice of the proposed land exchange to each owner of non-Federal land adjoining a parcel of public land proposed for exchange and each owner of non-Federal land adjoining the non-Federal land proposed to be acquired in the exchange. The Secretary shall determine adjoining landowners using the most recent available tax records.

#### CONSTRUCTION

The bill provides \$3,576,000 for Construction of which \$2,019,000 is for line item projects. The amount provided will fully fund construction projects as prioritized by the Bureau pursuant to the Administration's revised request list provided to the Committees on June 24, 2011. Requests for reprogramming will be considered pursuant to the guidelines in the front of this statement.

#### LAND ACQUISITION

The bill provides \$22,380,000 for Land Acquisition, of which \$1,880,000 is for Acquisition Management; \$1,500,000 is for Inholdings, Emergencies, and Hardships; and \$19,000,000 is for Acquisitions.

This amount will fully fund projects 1 through 5 as prioritized by the Bureau pursuant to the Administration's revised request list provided to the Committees on June 24, 2011. Requests for reprogramming will be considered pursuant to the guidelines in the front of this statement.

#### OREGON AND CALIFORNIA GRANT LANDS

The bill provides \$112,043,000 for Oregon and California Grant Lands.

#### RANGE IMPROVEMENTS

The bill provides \$10,000,000 to be derived from public lands receipts and Bankhead-

Jones Farm Tenant Act lands grazing receipts.

#### SERVICE CHARGES, DEPOSITS, AND FORFEITURES

The bill provides an indefinite appropriation estimated to be \$32,125,000 for Service Charges, Deposits, and Forfeitures.

#### MISCELLANEOUS TRUST FUNDS

The bill provides an indefinite appropriation estimated to be \$19,700,000 for Miscellaneous Trust Funds.

#### ADMINISTRATIVE PROVISIONS

The bill includes the administrative provisions as proposed by the conferees.

#### UNITED STATES FISH AND WILDLIFE SERVICE

##### RESOURCE MANAGEMENT

The bill provides \$1,228,142,000 for Resource Management. The detailed allocation of funding by activity and program element is included in the table at the end of this statement. The conferees have assumed administrative savings proposed in the budget request but have not provided requested funding increases for fixed costs or general program increases. In addition to the guidance and reporting requirements included in the House report, as noted in the front of this joint explanatory statement, the conference agreement includes the following directions:

**Ecosystem Initiatives.**—The conferees are aware that the budget request includes new funding for a number of regional restoration initiatives, including the Chesapeake Bay, Gulf Coast, Bay Delta, and the Everglades. Due to funding limitations, the conferees are not able to include new funding for these initiatives within the program levels below. However, subject to reprogramming limitations, the conferees do not object to these initiatives being funded within the levels provided if the Service is able to identify funding offsets from lower priority items.

**Endangered Species.**—The bill includes \$176,237,000 for Endangered Species. Listing and Critical Habitat is funded at the fiscal year 2011 enacted level of \$20,902,000; however, the conferees have agreed to combine the funding for activities within this program element in order to provide the Service with additional flexibility to target funding to its highest priorities. Consultation and HCPs are funded at \$61,041,000, of which \$2,000,000 is for renewable energy as requested. Recovery is funded at \$82,939,000, of which \$2,000,000 is for the declining species initiative instead of the requested \$4,000,000.

The conferees direct the Service to fund white nose syndrome research and response activities at no less than \$4,000,000 from within Recovery. Funds should be used to: (1) increase research capacity to fund basic and applied research to stop the spread of the disease; (2) provide funding for States to implement response activities; and (3) increase FWS capacity for surveillance, monitoring and coordination activities. The conferees expect these activities to be coordinated with other Federal partners.

The conferees direct the Service to provide \$1,000,000 from within Recovery to reinstate a livestock loss demonstration program as authorized by Public Law 111-11. States with de-listed wolf populations shall continue to be eligible for funding, provided that those States continue to meet the eligibility criteria contained in Public Law 111-11.

The conferees recommend that the Service and Federal action agencies take into account economic impacts when formulating actions and conducting all section 7 consultations pursuant to the Santa Ana Sucker Critical Habitat designation, to the extent authorized under the Endangered Species

Act. The economic impacts to be considered by the Service and Federal action agencies should include the costs of local water supply development and imported water costs, infrastructure needs, water conservation efforts, and efforts to increase employment in the region affected by the Santa Ana Sucker Critical Habitat designation.

The conferees are concerned that the Service's region 6 has a backlog of Endangered Species Act section 7 consultations on long term planning documents to assess grizzly bears, bull trout and their habitats. The conferees urge the Service to assign appropriate resources and staff, including filling any current vacancies, to support timely completion of those consultations.

**Northern Rocky Mountain Multispecies Conservation Agreements Initiative.**—The conferees recommend that the Fish and Wildlife Service convene a regional policy coordination and outreach effort to improve upon and increase the use of Endangered Species Act conservation agreements between the agency, the States, and private landowners. Nearly two-thirds of the nation's land is privately owned, and the Service cannot accomplish its conservation goals without the help of private landowners. Conservation agreements between non-Federal landowners and the Service help to conserve listed or at-risk species while offering a level of protection from certain Endangered Species Act actions. The conferees recognize the challenges that private landowners often face when confronted with working with a Federal regulatory agency such as the Service, and believe that the States can play a strong intermediary role. The conferees recommend that the Service work with the northern Rocky Mountain States and a diverse coalition of private landowners to find innovative, multi-species, multi-partner approaches to utilizing conservation agreements that simplify the process for private landowners; that empower the States to work directly with private landowners to set up the agreements; and that recognize the Service's final authority. The conferees request that the States and the coalition report to the Committees with recommendations as to how to improve upon and increase the use of conservation agreements.

**Habitat Conservation.**—The bill provides \$110,814,000 for Habitat Conservation. Partners for Fish and Wildlife is funded at \$54,856,000, of which \$6,000,000 is for the climate change initiative instead of the requested \$8,000,000. Conservation Planning Assistance is funded at \$35,837,000, of which \$2,000,000 is for renewable energy as requested.

In carrying out its renewable energy consultations, the conferees direct the Service to continue coordinating with other agencies within the Department of the Interior, as well as with the Department of Commerce, Department of Energy, and other Federal and State agencies, to ensure that the investments support the further development of the renewable energy industry, including the creation of an offshore wind manufacturing industry and related jobs in the United States.

The conferees support the Secretary's decision to establish an office that will be focused on Endangered Species Act compliance for renewable energy projects. In order to facilitate better species protection and stewardship of public resources, the conferees expect that this office will develop permitting policies that make it less difficult and time-consuming to permit projects on disturbed private lands than on pristine public lands.

The conferees are aware that the Service has begun work on a rule under section 4(d) of the Endangered Species Act to address this concern, but the Service has not yet released a draft. The conferees expect the Service to publish its draft and final rules to address this issue during fiscal year 2012. The conferees are aware that the Service is exploring opportunities to expedite the permitting of renewable energy projects and support efforts by the Service to establish a pilot fee program using the Service's existing authorities. The Service is expected to provide a report within 120 days of enactment of this Act that details how and where the Service plans to institute fees in fiscal year 2012 to improve program delivery and customer service.

**National Wildlife Refuge System.**—The bill includes \$486,469,000 for the National Wildlife Refuge System. Wildlife and Habitat Management is funded at \$223,797,000, of which \$1,000,000 is for a pilot program to eradicate feral swine on national wildlife refuges; and \$20,000,000 is for climate change inventory and monitoring, as requested. Conservation Planning is funded at \$11,723,000, which is an increase of \$3,440,000 above the request in order to maintain funding for land protection planning within this program element instead of within Land Acquisition, as was proposed.

The conferees are concerned about particular restrictions on overnight houseboat accommodations at concessionaire-operated marinas. In keeping with Executive Order 12866, the conferees direct the Service to carefully consider the impact to concessionaires of such operational changes.

The conferees are aware of local concerns regarding the implementation of certain management activities on the Willapa National Wildlife Refuge and direct the Service to postpone the implementation of those sections of the Final Comprehensive Conservation Plan and Environmental Impact Statement for the refuge that deal with the removal of the dikes at the Porter Point Unit, Reikkola Unit, and Lewis Unit of the refuge until at least April 1, 2012, in order to give the Service more time to work with stakeholders to address the concerns.

**Migratory Birds, Law Enforcement and International Conservation.**—The bill includes \$126,769,000 for Migratory Birds, Law Enforcement, and International Conservation. Migratory Bird Management is funded at \$51,535,000, which includes a decrease of \$1,366,000 from the request for the North American Waterfowl Management Plan and a general program decrease of \$1,522,000.

**Fisheries and Aquatic Resource Conservation.**—The bill includes \$135,534,000 for Fisheries and Aquatic Resource Conservation. National Fish Hatchery System Operations is funded at \$46,149,000. The conferees have restored the proposed \$3,388,000 shortfall in the budget for mitigation hatchery operations and critical supplies. An additional \$3,800,000 is appropriated elsewhere in this consolidated Act for the U.S. Army Corps of Engineers to reimburse the Service. Together, these amounts fully fund mitigation hatcheries operated by the Service for the Corps, Tennessee Valley Authority, Bureau of Reclamation's Central Utah Project and the Bonneville Power Administration. The conferees support efforts by the Service to recover costs of programs that are conducted to mitigate the environmental effects of other Federal partners. However, future budget requests must ensure that Federal partners have committed to make sufficient funding available to reimburse the Service

before the Service proposes to eliminate funding for mitigation hatcheries so that operations at these hatcheries are not disrupted.

**Aquatic Habitat and Species Conservation** is funded at \$71,325,000. The bill includes \$1,000,000 towards the implementation of mandatory operational inspection and decontamination stations at Federally-managed or interjurisdictional water bodies considered to be of highest risk, as called for in the February 2010 Quagga-Zebra Mussel Action Plan for Western U.S. Waters. An additional \$1,000,000 is included to continue and expand funding for the control and eradication of zebra and quagga mussels and other aquatic invasive species, including funding for State aquatic invasive species management plans. Also included is a \$2,000,000 increase above the fiscal year 2011 enacted level for Asian carp monitoring and eradication activities.

**Cooperative Landscape Conservation and Adaptive Science.**—The bill includes \$32,250,000 for Cooperative Landscape Conservation and Adaptive Science. The conferees recognize that fish and wildlife conservation organizations are facing increasingly complex ecological and fiscal challenges that require resource threats to be addressed in a more efficient and effective way. In light of these challenges, the Service has established a network of Landscape Conservation Cooperatives (LCCs) with other Federal, State, local and tribal partners to better leverage conservation resources and better prioritize and coordinate research and program delivery. The conferees support these efforts but also expect the Service to establish clear goals, objectives and measurable outcomes for LCCs that can be used as benchmarks of success of the program. Further, the conferees direct the Service to clearly articulate how it plans to integrate its LCCs with other successful regional partnerships, including its Joint Ventures and Fish Habitat Partnerships programs, as well as with other Federal and non-Federal partners, including the U.S. Geological Survey's regional Climate Science Centers, the Cooperative Fish and Wildlife Research Units, and the Cooperative Ecosystem Studies Units.

**Bill Language.**—The bill includes language to cap expenditures at \$7,472,000 for critical habitat designations; \$1,500,000 for listing species that are indigenous to the United States; and \$1,500,000 for listing foreign species. The bill includes language providing for fiscal year 2012 and hereafter: \$400,000 for certain law enforcement activities; and \$1,000,000 for certain environmental contaminant activities.

#### CONSTRUCTION

The bill includes \$23,088,000 for Construction, as requested, of which \$12,149,000 is for line item projects. The amount provided will fully fund the projects as prioritized by the Service pursuant to the Administration's revised request list provided to the Committees on June 24, 2011. Requests for reprogramming will be considered pursuant to the guidelines in the front of this statement.

#### LAND ACQUISITION

The bill provides \$54,720,000 for Land Acquisition. The conference agreement includes \$5,000,000 for the Highlands Conservation Act; \$10,555,000 for Acquisition Management; \$2,000,000 for User Pay Cost Share; \$2,500,000 for exchanges; \$4,500,000 for Inholdings, Emergencies, and Hardships; and \$30,165,000 for Acquisitions. The conferees have rejected the proposal to transfer land

protection planning funds from the Resource Management account.

The amount provided for Acquisitions will fully fund projects 1 through 13 as prioritized by the Service pursuant to the Administration's revised request list provided to the Committees on June 24, 2011. Requests for reprogramming will be considered pursuant to the guidelines in the front of this statement.

The Secretaries of the Interior and Agriculture are directed to report to the Committees on Appropriations within 180 days of enactment of this Act on potential exchange proposals for approximately 1,700 acres currently managed by the U.S. Fish and Wildlife Service and generally depicted on a map titled "The Sharkey Restoration Research Site, Delta NF," for lands of equal or approximate value managed by the U.S. Forest Service in Mississippi.

**Bill Language.**—The bill includes language allowing the Service to fund limited administrative costs for the Highlands Conservation Act program administration. Also included is language providing that no funds appropriated for specific projects may be used for overhead, planning or other management costs.

#### COOPERATIVE ENDANGERED SPECIES CONSERVATION FUND

The bill provides \$47,757,000 for the Cooperative Endangered Species Conservation Fund. The detailed allocation of funding by activity is included in the table at the end of this statement.

**Bill Language.**—The bill includes language deriving \$22,757,000 from the Cooperative Endangered Species Conservation Fund and \$25,000,000 from the Land and Water Conservation Fund.

#### NATIONAL WILDLIFE REFUGE FUND

The bill provides \$13,980,000 for payments to counties authorized by the National Wildlife Refuge Fund.

#### NORTH AMERICAN WETLANDS CONSERVATION FUND

The bill provides \$35,554,000 for the North American Wetlands Conservation Fund.

#### NEOTROPICAL MIGRATORY BIRD CONSERVATION

The bill provides \$3,792,000 for Neotropical Migratory Bird Conservation.

#### MULTINATIONAL SPECIES CONSERVATION FUND

The bill provides \$9,481,000 for the Multinational Species Conservation Fund. The detailed allocation of funding by activity is included in the table at the end of this statement.

#### STATE AND TRIBAL WILDLIFE GRANTS

The bill provides \$61,421,000 for State and Tribal Wildlife Grants, of which \$51,405,000 is for State formula grants, \$5,741,000 is for State competitive grants, and \$4,275,000 is for tribal competitive grants. The Service is directed to report to the Committees within 90 days of enactment of this Act on the amounts of unobligated and reapportioned funds, by State and Territory, for fiscal years 2008, 2009, and 2010. The conferees encourage the Service and the program partners to complete the Wildlife TRACS database so that the program can better demonstrate its ability to prevent at-risk species from having to be listed under the Endangered Species Act.

**Bill Language.**—The bill includes language requiring a 25 percent non-Federal cost share for planning grants and a 35 percent non-Federal cost share for implementation grants. Bill language is included allowing unobligated balances to be reapportioned.

## NATIONAL PARK SERVICE

## OPERATION OF THE NATIONAL PARK SYSTEM

The bill provides \$2,240,152,000 for the Operation of the National Park System account.

*Civil War Sesquicentennial.*—In observances marking the 150th anniversary of the Civil War, the Service is urged to recognize the historic, social, legal, racial, cultural and political forces that caused the Civil War and influenced its course and outcomes.

*Technical Assistance.*—The Service is encouraged to support the effort of NPS retirees to provide volunteer technical assistance to national parks in other countries.

*Historic Leases.*—The Service is encouraged to pursue the use of cost-effective, innovative solutions like historic leases when practical and when the arrangement comports with a park unit's enabling legislation.

*Flight 93 Memorial.*—The conferees remain firmly committed to the timely completion of the Flight 93 Memorial and direct the Service to devote the resources necessary to properly archive, maintain, and preserve the invaluable collections, including 50,000 personal tributes and 2,000 hours of audio interviews, associated with this memorial.

*National Capitol Area Performing Arts Program.*—The conferees direct the Service to maintain funding for the National Capitol Area Performing Arts Program and have included \$612,000 for the summer concert series staged on the U.S. Capitol grounds.

*Cuyahoga Valley National Park.*—The Service is encouraged to continue its work with surrounding communities to support the local road systems and establish maintenance priorities.

*Statue of Liberty and Martin Luther King, Jr. Memorial and Visitor Center.*—The conferees have provided an increase of \$1,100,000 million as requested within Park Protection for additional Park Police protection at the Statue of Liberty and Martin Luther King, Jr. Memorial.

*Sequoia National Park.*—The conference agreement does not include report language contained in the House report nor bill language proposed by the Senate directing the Department of the Interior to report on the methodology used in calculating hydropower fees on National Park Service lands. The conferees understand that this issue has been settled and the need for the report no longer exists.

*Delaware Water Gap National Recreation Area and Middle Delaware National Scenic and Recreational River, Appalachian National Scenic Trail.*—The conferees are concerned about delays in completing an Environmental Impact Statement (EIS) announced by the National Park Service and the Department of the Interior regarding improvement of electric transmission lines partially lying within the boundaries of the Delaware Water Gap National Recreation Area. The National Park Service and the Department are directed to adhere to the previously announced schedule and publish a final Record of Decision (ROD) by October of 2012.

*Historic Properties.*—The conferees are concerned that a proposal to remove the Fresnel lens currently installed at the Block Island Southeast Lighthouse in Rhode Island will have an adverse impact on this historic property. As such, the conferees direct the Service to report to and consult with the Committees on Appropriations prior to facilitating the transfer of the lens or accepting the lens for display at any unit within the System.

*Point Reyes National Seashore.*—The conferees are aware that the Service will shortly be issuing a Draft Environmental Impact

Statement (DEIS) regarding a possible 10-year extension for oyster operations at Point Reyes National Seashore. Because of concerns relating to the validity of the science underlying the DEIS, the conferees direct the National Academy of Sciences to assess the data, analysis, and conclusions in the DEIS in order to ensure there is a solid scientific foundation for the Final Environmental Impact Statement expected in mid-2012.

## NATIONAL RECREATION AND PRESERVATION

The bill provides \$59,975,000 for the National Recreation and Preservation account with the following specific directive:

*Heritage Partnership Program.*—The bill provides an increase of \$8,408,000 above the request to maintain funding at the fiscal year 2011 enacted level.

## HISTORIC PRESERVATION FUND

The bill provides \$56,000,000 for the Historic Preservation Fund account with the following specific directive:

*State and Tribal Historic Preservation Offices.*—The bill provides \$47,000,000 for State Historic Preservation Offices and \$9,000,000 for Tribal Historic Preservation Offices.

## CONSTRUCTION

## (INCLUDING RESCISSION OF FUNDS)

The bill provides \$159,621,000 for the Construction account.

*Line Item Construction.* The bill provides \$77,847,000 in funding for line item construction projects. The amount provided will fully fund NPS construction projects as prioritized by the Service pursuant to the Administration's revised request list provided to the Committees on June 24, 2011. Requests for reprogramming will be considered pursuant to the guidelines in the front of this statement.

*Washington Monument Stabilization and Repair, National Capital Region.*—The bill provides a total of \$7,500,000 for the stabilization and repair of the Washington Monument. The conferees understand these funds will be matched on a 1:1 basis by a private citizen. The conferees have also included language allowing the National Park Service to enter into a single procurement for repairs to the Washington Monument.

*Special Resource Studies.*—The conferees urge the Service to complete previously authorized studies before initiating any new studies.

LAND AND WATER CONSERVATION FUND  
(RESCISSION)

The bill rescinds \$30,000,000, as in previous years, in annual contract authority. There are no plans to use this authority in fiscal year 2012.

## LAND ACQUISITION AND STATE ASSISTANCE

The bill provides \$102,060,000 for Land Acquisition and State Assistance, of which \$9,000,000 is for the American Battlefield Protection Program; \$9,500,000 is for Acquisition Management; \$5,000,000 is for Inholdings and Exchanges; \$3,000,000 is for Emergencies and Hardships; and \$30,560,000 is for Federal Acquisitions. The State Assistance Grant Program is funded at \$45,000,000, of which \$2,794,000 is for Administrative Expenses.

The amount provided for Federal Acquisitions will fully fund the first two projects as prioritized by the Service pursuant to the Administration's revised request list provided to the Committees on June 24, 2011. Requests for reprogramming will be considered pursuant to the guidelines in the front of this statement.

## UNITED STATES GEOLOGICAL SURVEY

## SURVEYS, INVESTIGATIONS, AND RESEARCH

The bill provides \$1,069,744,000 for Surveys, Investigations, and Research of the U.S. Geo-

logical Survey. The detailed allocation of funding by activity and sub-activity is included in the table at the end of this statement and comports with the requested budget structure realignment. Unless otherwise indicated below, the conferees have accepted the proposals for reductions resulting from Department-wide efficiencies, administrative savings, and Enterprise Publishing Network savings. A decrease of \$2,172,000 to the request has been assumed to reflect changes in the final fiscal year 2011 operating plan, which was not available at the time the request was submitted. Support for ecosystem restoration activities throughout the Survey's programs is maintained at the fiscal year 2011 enacted level. Additional changes to the request are specified below.

*Ecosystems.*—The bill provides \$161,536,000 for Ecosystems activities. Increases above the enacted level include \$1,500,000 for The Chesapeake Bay Executive Order and \$2,500,000 for the Great Lakes Asian Carp Control Framework. The conferees support the President's budget proposal to conduct an in-depth analysis of the extent and sources of endocrine disrupting chemicals impacting fish and wildlife in the Chesapeake basin.

*Climate and Land Use Change.*—The bill provides \$144,320,000 for Climate and Land Use Change programs. Within Climate Variability, changes to the request include decreases of \$2,000,000 from Research and Development, and \$6,460,000 from Science Support for DOI Bureaus. Carbon Sequestration is funded at \$9,000,000.

Within Land Use Change, an increase of \$11,500,000 is provided to complete funding for Landsat 8 ground operations development. The conferees have not agreed with the proposal to create a separate "Land Imaging" account and have instead maintained funding for all satellite operations within this subactivity. Estimated administrative savings assumed in the proposed new account have been assumed within the Land Use Change account instead.

The conferees have not agreed to transfer budgetary authority for the launch of Landsat satellites 9 and 10 from the National Aeronautics and Space Administration to the Survey. Of the requested \$48,000,000 increase for its implementation, the conferees have provided \$2,000,000 for program development only. The conferees note that future requests for the project are estimated by the Administration to escalate to over \$400,000,000 by fiscal year 2014. There is little doubt that resources will not be available within the Interior Appropriations bill to support these very large increases without decimating all other Survey programs. The conferees note that the launch of Landsat 9 is not scheduled until 2018. This allows time in the year ahead for all interested parties to re-examine how to proceed with future Landsat missions. In the conferees' view this would be a prudent step, inasmuch as the current budget proposal is based on a report from the Office of Science and Technology Policy issued in 2008, and both technological advances and a vastly different economic environment may point to other, less costly, options for obtaining Landsat data.

*Energy, Minerals, and Environmental Health.*—The bill provides \$96,368,000 for Energy, Minerals, and Environmental Health. The following amounts have been restored to ongoing programs that were proposed to be reduced in the request: \$250,000 for the Minerals External Research Program; \$5,000,000 for Minerals Resources; \$1,000,000 for Energy Resources; \$500,000 for Contaminants; and

\$2,500,000 for Toxic Substances Hydrology. An increase of \$1,000,000 is provided for the New Energy Frontier initiative.

**Natural Hazards.**—The bill provides \$134,696,000 for Natural Hazards. The conferees have not agreed to proposed reductions in the request and have restored funds to the following programs: \$2,000,000 for Earthquake Grants; \$1,800,000 for the 2012 Multi-Hazards Initiative; and \$1,500,000 for the National Volcano Early Warning System. Decreases from the request include \$800,000 from the 2011 Multi-Hazards Initiative, and \$3,000,000 from Coastal and Marine Spatial Planning.

**Water Resources.**—The bill provides \$214,996,000 for Water Resources. Funding has been restored for the following programs that were proposed to be reduced in the request: \$2,000,000 for Groundwater Resources; \$6,049,000 for the National Water Quality Assessment Program; \$1,963,000 for the Cooperative Water Program; and \$6,500,000 for the Water Resources Research Act Program. A program increase of \$2,846,000 above the request is provided for the National Streamflow Information Program. Decreases from the request include \$2,500,000 from the WaterSMART initiative within Hydrologic Networks and Analysis. The conferees encourage the Survey to include with its fiscal year 2013 budget request a proposal to establish a national groundwater monitoring network as authorized by the Secure Water Act.

**Core Science Systems.**—The bill provides \$106,849,000 for Core Science Systems. Increases to the request include \$998,000 for the National Geological and Geophysical Data Preservation Program to continue funding at the current year enacted level, and \$1,500,000 for National Cooperative Geologic Mapping Federal and State Partnerships to partially restore the proposed reduction to that program. Decreases from the request include \$500,000 from WaterSMART.

**Administration and Enterprise Information.**—The bill provides \$110,397,000 for Administration and Enterprise Information. There is a decrease from the request of \$5,920,000 for separation costs. This amount is significantly below what the Survey would need to implement its proposed reduction in force. If a similar plan is put forward in future budget requests, the conferees expect that sufficient funds will be requested for its implementation.

**Facilities.**—The bill provides \$100,582,000 for Facilities. The conferees do not agree with the administration's proposal to create a separate "Construction" line item within the budget and consequently have maintained those funds within the "Deferred Maintenance and Capital Improvement" subactivity. In the conferees' view, the Survey has the authorities it requires to manage its facilities and space requirements within the current structure.

#### BUREAU OF OCEAN ENERGY MANAGEMENT OCEAN ENERGY MANAGEMENT

The bill provides \$59,792,000 for Ocean Energy Management to be partially offset with the collection of offsetting rental receipts and cost recovery fees totaling \$101,082,000. This new account funds the activities of the Bureau of Ocean Energy Management, including leasing, environmental studies, economic analysis and the Renewable Energy Program. The conferees also provide the following directions:

**Renewable Energy.**—The bill provides \$22,697,000 for renewable energy leasing activities, including program development, environmental analysis, consultation with Federal, State, and local stakeholders, and de-

velopment of a multipurpose marine cadastre. The Director should work with the Secretary of Energy and States to exchange information about the development of new technology related to the structural material, environmental, and design safety criteria, as well as design and performance standards, of transitional depth and floating wind turbines. The Bureau is expected to continue working with coastal states and other stakeholders to study new wind energy areas, including in shallow, transitional, and deep (over 200 feet) waters.

**Conventional Energy.**—The bill provides \$47,283,000 for conventional oil and gas leasing activities, including planning of the Five-year Oil and Gas Leasing Program, surveying Outer Continental Shelf boundaries, implementing the lease sale process, administering leases, and reviewing exploration and development plans.

**Environmental Assessment.**—The bill provides \$62,041,000 for environmental assessment activities.

The Bureau is encouraged to continue its efforts in working with partners to collect information about methane hydrates on the sea floor and the relationships between gas hydrates and episodes of sediment instability that may pose a threat to the petroleum industry's infrastructure and safety of operations.

**Bill Language.**—The bill includes in Title IV a general provision that amends Sec. 328 of the Clean Air Act (42 U.S.C. 7627(a)(1)) to transfer air quality permitting authority, as of the date of enactment of this Act, from the Environmental Protection Agency to the Department of the Interior, giving regulatory parity for the Beaufort and Chukchi Sea planning areas with the Western and Central Gulf of Mexico planning areas. Paragraph (c) ensures that this change in the issuance and administration of air quality requirements will not invalidate or stay any permit, or proceeding related thereto, which is existing or pending as of the date of enactment of this Act.

#### BUREAU OF SAFETY AND ENVIRONMENTAL ENFORCEMENT OFFSHORE SAFETY AND ENVIRONMENTAL ENFORCEMENT

The bill provides \$61,473,000 for Offshore Safety and Environmental Enforcement to be partially offset with the collection of offsetting rental receipts, cost recovery fees and inspection fees totaling \$121,081,000. The conferees also provide the following directions:

Funding has been increased with the expectation that much-needed inspectors and engineers will be hired and that permits will be processed expeditiously. The highest priority for BSEE with the funding appropriated is ensuring safety and prompt consideration of permits. Appropriated dollars should not be used for expanding regulation of non-lease holders, with the exception of those involved in the *Deepwater Horizon* accident, unless approved through reprogramming pursuant to the guidelines in the front of this statement.

**Environmental Enforcement.**—The bill provides \$4,110,000 for environmental enforcement actions, as requested. Activities include environmental compliance activities related to issuing permits associated with plans, inspections of environmental measures and enforcement of incidences of non-compliance, and monitoring industry compliance with mitigation and other environmental requirements through office and field inspections. With the additional resources provided, applications for permits to drill should be processed with all due speed.

**Operations, Safety, and Regulation.**—The bill provides \$132,139,000 for operations, safety, and regulation.

**Inspection Fees.**—The bill includes in Title IV a general provision that provides for the collection of \$62,000,000 in inspection fees.

**Bill Language.**—The bill includes new language requiring that at least fifty percent of collected inspection fees are dedicated to mission related costs including the review of applications for permits to drill.

The report requested in House Report 112-151 on *Deepwater Horizon* recommendations is no longer required.

#### OIL SPILL RESEARCH

The bill provides \$14,923,000 for Oil Spill Research.

#### OFFICE OF SURFACE MINING RECLAMATION AND ENFORCEMENT

##### REGULATION AND TECHNOLOGY

The bill provides \$122,950,000 for Regulation and Technology. Within this amount, the bill funds regulatory grants at \$68,700,000, equal to the fiscal year 2011 enacted level. The conferees find the proposal to reduce regulatory grants would undermine the State-based regulatory system. It is imperative that States continue to operate protective regulatory programs as delegation of authority to the States is the cornerstone of the surface mining regulatory program. Further, the conference agreement does not provide funds to expand and enhance Federal oversight activities of State programs.

On October 26, 2011 the Secretary of the Interior issued an order to consolidate the Office of Surface Mining (OSM) within the Bureau of Land Management (BLM). The conferees are deeply concerned about the lack of coordination and consultation prior to the issuance of this order. Subsequently, the Department of the Interior initiated discussions with employees, Members of Congress, and stakeholders. Significant issues have been identified with this proposed reorganization, including questions of the wisdom of attempting to combine statutorily created agencies that have responsibilities in law that cannot be combined with or transferred to another agency. The conferees are aware that on November 28, 2011, the Secretary suspended the effective date of his directive in order to gather further information on this potential restructuring. The conferees expect the Department to enhance its consultation and coordination with employees, Members of Congress and stakeholders on this matter and to consult with the appropriate committees of jurisdiction before any final decisions are made.

#### ABANDONED MINE RECLAMATION FUND

The bill provides \$27,443,000 for the Abandoned Mine Reclamation Fund.

#### BUREAU OF INDIAN AFFAIRS AND BUREAU OF INDIAN EDUCATION

##### OPERATION OF INDIAN PROGRAMS (INCLUDING TRANSFER OF FUNDS)

The bill provides \$2,371,532,000 for the Operation of Indian Programs. The detailed allocation of funding by program area and activity is included in the table at the end of the statement. Specific changes to the request and direction are the following:

**Tribal Government.**—The bill provides \$520,163,000 for Tribal Government. Contract Support Costs are funded at the fiscal year 2011 enacted level of \$219,560,000. Small and Needy Tribes are funded at \$1,950,000.

**Human Services.**—The bill provides \$136,579,000 for Human Services. Social Services are funded at \$34,379,000.

**Trust—Natural Resources Management.**—The bill provides \$157,496,000 for Trust—Natural Resources Management. Rights Protection Implementation is funded at \$29,022,000, and

the Tribal Management/Development Program is funded at \$7,717,000; increases to the fiscal year 2011 enacted level should be distributed proportionally across all program elements within these two subactivities. Forestry is funded at \$43,644,000. Water Resources is funded at \$10,150,000. Fish, Wildlife, and Parks is funded at \$11,340,000.

**Trust—Real Estate Services.**—The bill provides \$126,963,000 for Trust—Real Estate Services. Trust Services—General is funded at \$11,000,000. The increase above the request is for continued implementation of the Klamath Basin Restoration Agreement.

**Education.**—The bill provides \$796,753,000 for Education. Elementary and Secondary Programs (Forward Funded) are funded at \$523,083,000, of which \$391,333,000 is for ISEP Formula Funds; \$5,286,000 is for ISEP Program Adjustments; \$12,051,000 is for Education Program Enhancements; \$52,716,000 is for Student Transportation; \$15,370,000 is for Early Childhood Development; and \$46,327,000 is for Administrative Cost Grants. Post-Secondary Programs (Forward Funded) are funded at \$67,401,000. Post-Secondary Programs are funded at \$61,533,000, of which \$18,527,000 is for Haskell and SIPI—an increase of \$1,153,000 over the request that is to be divided proportionally between the two schools.

**Public Safety and Justice.**—The bill provides \$346,778,000 for Public Safety and Justice, an increase of \$12,688,000 above the fiscal year 2011 enacted level. Law Enforcement is funded at \$322,460,000, of which \$185,315,000 is for Criminal Investigations and Police Services; and \$81,941,000 is for Detention/Corrections. The requested increase for Conservation Law Enforcement is not agreed to.

**Indian Employment, Training and Related Services.**—The bill does not include section 430 of the House bill pertaining to Indian employment, training, and related services pursuant to Public Law 102-477. This provision was intended to block the Administration from continuing with new, unauthorized and retroactive policies which run counter to how “477” funds have been transferred to tribal governments and how funds have been audited since the program’s inception 19 years ago. The conferees have dropped this provision in order to give the Administration time to honor its recent commitments to suspend new policies while working with Tribes to find alternative solutions.

The conferees understand that recent Administration commitments to the Tribes and the Congress include but are not limited to the following: that it has engaged the Tribes in a new consultative process to address agency and tribal concerns; that it has halted any effort to alter the manner and conditions under which “477” funds have historically been transferred to Tribes; that it has indefinitely suspended its 2009 supplemental audit requirements for any “477” program audits, covering fiscal years 2009 through 2012, that were not completed on or before September 30, 2011; and that annual “477” program audits will continue to comply with the Single Audit Act of 1984.

The conferees expect the Administration to consult with Tribes on a government-to-government basis, and to only proceed with improvements that reflect general consensus among the impacted Tribes and agencies. The P.L. 102-477 Tribal Work Group shall be consulted on the precise content of all guidance documents and similar issuances prior to their finalization. The House and Senate Appropriations Committees will be closely monitoring the progress of the consultation process, and will expect regular updates from

the Administration. If issues concerning the transfer and audit of “477” funds are not permanently resolved administratively, the Committees intend to address this issue in the fiscal year 2013 process.

**Other Matters.**—The conferees are aware of a lack of local support for two recent off-reservation gaming projects in Yuba, California, and Madera, California, which received Secretarial Determinations on September 1, 2010. The evidentiary record provided by the Bureau of Indian Affairs indicates that only two of the 33 elected officials or bodies that were consulted on these projects expressed support for them. The conferees are also concerned that in one case, the Department appears to have largely ignored a popular vote which indicated a majority of the county was opposed to the construction of a casino on the site which was approved by the Department. Therefore, the conferees direct the Secretary to review these applications to verify the claim of “strong local support” and report those findings to the Committees within 60 days of enactment of this Act.

#### CONSTRUCTION

##### (INCLUDING TRANSFER OF FUNDS)

The bill provides \$123,828,000 for Construction. The detailed allocation of funding by program area and activity is included in the table at the end of the statement. Specific changes to the request are the following:

**Education.**—The bill provides \$70,940,000 for Education. Replacement Schools are funded at \$17,836,000, which funds the next school on the 2004 priority list. Facilities Improvement and Repair is funded at \$48,669,000.

#### INDIAN LAND AND WATER CLAIM SETTLEMENTS AND MISCELLANEOUS PAYMENTS TO INDIANS

The bill provides \$32,855,000 for Indian Land and Water Claim Settlements and Miscellaneous Payments to Indians, as requested. The detailed allocation of funding by subactivity and program element is included in the table at the end of the statement.

#### INDIAN GUARANTEED LOAN PROGRAM ACCOUNT

The bill provides \$7,114,000 for the Indian Guaranteed Loan Program Account, an increase of \$4,000,000 above the request. The conferees are aware that there is strong interest among tribally owned construction contractors to have the Bureau of Indian Affairs offer supplemental surety bond guarantees in an effort to increase economic opportunity in Indian country, particularly in the construction trades. In an effort to begin to respond to this interest, the conferees request that the Bureau present a plan within 90 days of enactment of this Act detailing the need for such supplemental surety bond guarantees, how the Bureau would implement such a program, whether or not the Bureau currently has the personnel to implement such authorities, and an analysis of how much additional activity would be generated through the offering of supplemental surety bond guarantees.

#### DEPARTMENTAL OFFICES

##### OFFICE OF THE SECRETARY

##### DEPARTMENTAL OPERATIONS

The bill provides \$262,317,000 for Departmental Offices, Office of the Secretary, Departmental operations.

The bill includes the proposed restructuring of Departmental Offices, reflecting the incorporation of the Office of Natural Resources Revenue (ONRR) and alignment of the budget with the Department’s organization. The increase over the fiscal year 2011

enacted level reflects the move of the ONRR from the former Minerals Management Service. The conferees direct the Department to continue providing the Committees with the level of budget detail that has historically been provided (at the office level). Further, the Department is directed to provide to the Committees within 120 days of enactment of this Act a report on the organization, funding, staffing, and status of reforms with the ONRR.

The conferees direct the Department to work collaboratively with interested parties, including the Congress, States, local communities, Tribal governments and others in making national monument designations.

#### INSULAR AFFAIRS

##### ASSISTANCE TO TERRITORIES

The bill provides \$87,997,000 for Assistance to Territories. Within that amount, the bill provides the requested increase for staffing, which shall be used by the Department to fill positions at current Office of Insular Affairs locations rather than at a new location as proposed in the request. At least one of the positions shall be dedicated to working on Compact impact issues as detailed below. Within the resources provided, the conferees urge the Secretary to fill the current staffing vacancy in the Federated States of Micronesia.

The bill includes \$3,000,000 for insular community infrastructure improvements including \$791,000 for water infrastructure projects and \$2,209,000 for the Empowering Insular Communities initiative. That amount includes the proposed funding levels for Guam infrastructure and \$1,089,000 for sustainable energy strategies projects that will reduce the islands’ over-dependence on imported oil and high electricity prices. Projects shall be chosen based on plans specific to each jurisdiction and which are developed and approved in conjunction with the Department of Energy and island stakeholders, with priority given to energy efficiency projects that result in immediate energy savings. The Department is directed to report annually to Congress on the status of activities funded under this program, including data on oil savings and utility rates.

The bill also provides \$5,000,000 to fund discretionary grants to jurisdictions that are affected by Compact migration, as authorized by section 104(e) of Public Law 108-188. The Department shall allocate these grants in conjunction with other currently authorized mandatory grants to help offset educational costs incurred by these jurisdictions. The Department is directed to follow the guidance detailed in Senate Report 112-74 related to the Compact of Free Association agreements with the governments of the Federated States of Micronesia [FSM], the Republic of the Marshall Islands [RMI], and the Republic of Palau. The Department shall also meet regularly with officials from the Freely Associated States, other Federal agencies and affected jurisdictions, and develop and implement a comprehensive plan to mitigate the costs of Compact migration within 90 days of enactment of this Act. This plan shall establish specific goals and action items that include: (1) expanding the education of migrants and potential migrants in order to reinforce that the primary purpose of the Compact migration benefit is to provide educational and employment opportunities to FAS citizens, not for migrants to develop an over-reliance on public services; (2) improving FAS capacity to provide dialysis and other medical services to prevent citizens from needing to seek treatment abroad; and (3) improving screening procedures to

identify and restrict migration of individuals who have communicable diseases or who have been convicted of serious crimes. The Department is directed to monitor the progress of meeting these goals and action items and report to Congress every 6 months. The Department is also directed to ensure that the new position dedicated to Compact impact issues will work closely with officials of Compact nations, other Federal areas and affected areas to implement Compact impact priorities identified in the plan detailed above.

The conferees urge the Department to continue funding for the Commonwealth of the Northern Marianas Islands Initiative on Labor, Immigration and Law Enforcement at no less than the enacted level.

#### COMPACT OF FREE ASSOCIATION

The bill provides \$17,318,000 which includes \$3,318,000 for obligations related to the Compact of Free Association. The conferees have also included language in the Title I general provisions section to extend the eligibility for the Republic of Palau to receive Federal aid while a new Compact of Free Association is enacted by Congress. The amount provided is equal to the fiscal year 2011 appropriation.

#### ADMINISTRATIVE PROVISIONS

##### (INCLUDING TRANSFER OF FUNDS)

The bill does not include the requested language that would provide the Secretary with new authority to redistribute capital improvement funds in fiscal year 2012. The conferees are similarly focused on the slow spending rates in the territories and urge all territories to increase expenditure of previously awarded funds. The conferees intend to revisit the issue in fiscal year 2013 if expenditure rates have not substantially increased.

#### OFFICE OF THE SOLICITOR

##### SALARIES AND EXPENSES

The bill provides \$66,296,000 for the Office of the Solicitor, including the requested increase for the Department's ethics office.

#### OFFICE OF INSPECTOR GENERAL

##### SALARIES AND EXPENSES

The bill provides \$49,471,000 for the Office of Inspector General. The detailed allocation of funding by program and activity is included in the table at the end of the statement.

#### OFFICE OF THE SPECIAL TRUSTEE FOR AMERICAN INDIANS

##### FEDERAL TRUST PROGRAMS

##### (INCLUDING TRANSFER OF FUNDS)

The bill provides \$152,319,000 for the Office of the Special Trustee for American Indians, as requested.

*Bill Language.*—The bill includes language, as in previous years, limiting the amount of funding that can be used for historical accounting.

#### DEPARTMENT-WIDE PROGRAMS

##### WILDLAND FIRE MANAGEMENT

##### (INCLUDING TRANSFERS AND RESCISSION OF FUNDS)

The bill provides \$566,495,000 for Department of the Interior Wildland Fire Management. The Department is directed to use \$189,577,000 in carryover emergency fire suppression funds before obligating fiscal year 2012 suppression funds. The bill includes a rescission of \$82,000,000 in suppression carryover funds. The amount provided, combined with \$92,000,000 in the FLAME Wildfire Suppression Reserve Fund, fully funds the Department's 10-year average expenditure for fire suppression. The bill also terminates the

Rural Fire Assistance program. The detailed allocation of funding for these accounts is included in the table at the end of this statement. The conferees also provide the following directions:

The Department is directed to complete an assessment of all Department Wildland Fire programs to determine the most cost effective and efficient means of providing comprehensive fire management services in support of Department and bureau missions and to better direct scarce resources from duplicative administrative management organizations. As provided in the House Report, the Department is directed to report to the Committees on Appropriations no later than 180 days after enactment of this Act.

The Department is directed to remove the requirement that ninety percent of hazardous fuels funding be spent in the Wildland Urban Interface and instead the conferees direct hazardous fuels funding be spent on the highest priority projects in the highest priority areas. The Department must also work more closely with the Forest Service in developing a strategy for the replacement of the current air tanker fleet.

To reduce the cost of fighting fires in Alaska caused by transporting crews from the continental United States, the Office of Wildland Fire Coordination and the Bureau of Land Management are strongly encouraged to develop a program to train crews in Alaska, particularly the existing native crews that might not now be qualified as type I or type II wildland firefighting crews.

#### FLAME WILDFIRE SUPPRESSION RESERVE FUND

##### (INCLUDING TRANSFER OF FUNDS)

The bill provides \$92,000,000 for the FLAME Wildfire Suppression Reserve Fund.

#### CENTRAL HAZARDOUS MATERIALS FUND

The bill provides \$10,149,000 for the Central Hazardous Materials Fund.

#### NATURAL RESOURCE DAMAGE ASSESSMENT AND RESTORATION

##### NATURAL RESOURCE DAMAGE ASSESSMENT FUND

The bill provides \$6,263,000 for the Natural Resource Damage Assessment Fund. The detailed allocation of funding by activity is included in the table at the end of this statement. The conferees are aware that the program is conducting an internal review of the status of restoration funds and options for enhanced implementation of restoration projects. The conferees direct the program to report back to the Committees upon completion of this review.

#### WORKING CAPITAL FUND

The bill provides \$62,019,000 for the Department of the Interior, Working Capital Fund. The conferees have included \$52,019,000 for the Financial and Business Management System (FBMS). The bill also provides \$5,000,000 as requested to support the Department's ongoing IT transformation. Further, the bill provides \$2,500,000 for the Department's effort to identify operating efficiencies and achieve savings across bureaus through consolidation of services, facilities, and infrastructure. Lastly, the bill provides \$2,500,000 for training, recruitment, retention, and hiring of the acquisition workforce.

#### GENERAL PROVISIONS, DEPARTMENT OF THE INTERIOR

##### (INCLUDING TRANSFERS OF FUNDS)

The conferees have included various legislative provisions affecting the Department in Title I of the bill, "General Provisions, Department of the Interior". Several of

these provisions have been carried in previous years and others are newly proposed this year. The provisions are:

Section 101 provides Secretarial authority for the intra-bureau transfer of program funds for expenditures in cases of emergencies when all other emergency funds are exhausted.

Section 102 provides for the Department-wide expenditure or transfer of funds by the Secretary in the event of actual or potential emergencies including forest fires, range fires, earthquakes, floods, volcanic eruptions, storms, oil spills, grasshopper and Mormon cricket outbreaks, and surface mine reclamation emergencies.

Section 103 provides for the use of appropriated funds by the Secretary for contracts, rental cars and aircraft, telephone expenses, and other certain services.

Section 104 provides for the transfer of funds from the Bureau of Indian Affairs or the Office of Special Trustee for American Indians.

Section 105 permits the redistribution of tribal priority allocation and tribal base funds to alleviate funding inequities.

Section 106 permits the Secretary to pay private attorney fees for employees and former employees in connection with *Cobell v. Salazar*.

Section 107 provides authority to the National Park Service to implement modifications to restoration efforts of the Everglades ecosystem.

Section 108 authorizes the acquisition of lands for the purpose of operating and maintaining facilities that support visitors to Ellis, Governors, and Liberty Islands.

Section 109 establishes Outer Continental Shelf inspection fees to be collected by the Secretary of the Interior.

Section 110 authorizes the Bureau of Land Management to establish an oil and gas Internet leasing program.

Section 111 extends the authority of the Department to hire Indian probate judges.

Section 112 authorizes the Secretary of the Interior to implement the reorganization of the Bureau of Ocean Energy Management, Regulation and Enforcement in conformance with Committee reprogramming guidelines.

Section 113 allows the Bureau of Indian Education to utilize funds recovered from grants or ISDA contracts to Tribes upon re-assumption of school operations by the Bureau.

Section 114 provides the Secretary of the Interior with authority to enter into multi-year cooperative agreements with non-profit organizations for long-term care of wild horses and burros.

Section 115 provides the Secretary of the Interior statutory authority to enter into rental or lease agreements that benefit Bureau of Indian Education operated schools.

Section 116 extends for one year existing authority of the Department of the Interior to efficiently manage construction and land acquisition projects.

Section 117 addresses the U.S. Fish and Wildlife Service's responsibilities for mass marking of salmonid stocks.

Section 118 directs the Secretary of the Interior to make certain certifications with respect to existing rights of way. The section also retains a provision limiting funding for a proposal to approve specified rights-of-way on the Mojave National Preserve or lands managed by the Needles Field Office of the Bureau of Land Management.

Section 119 address a matter of jurisdiction between the National Park Service and the Coast Guard relating to boater safety checks

on the Yukon River within the Yukon-Charley National Preserve.

Section 120 extends authorization for certain payments to the Republic of Palau for fiscal year 2012.

Section 121 provides the Secretary of the Interior certain hiring authorities.

Section 122 addresses BLM actions regarding grazing on public lands.

Section 123 provides for the trailing of livestock across public lands through fiscal year 2013.

Section 124 allows the Department of the Interior to lease certain lands within Fort Pulaski National Monument.

Section 125 continues a provision prohibiting funds to implement, administer, or enforce Secretarial Order 3310 issued by the Secretary of the Interior on December 22, 2010.

## TITLE II

### ENVIRONMENTAL PROTECTION AGENCY

**Budget Restructuring.**—The conferees note that the Agency has proposed major changes to its budget structure in order to better align program goals and outcomes. The conferees have accepted the proposed budget restructuring, as reflected in the program levels below.

**Congressional Budget Justification.**—In addition to the three directives provided in the fiscal year 2010 House report 111–80, the conferees direct the Agency to include in future Justifications: a comprehensive, detailed explanation of all changes within a program project; a table showing consolidations, realignments or other transfers of resources and personnel from one program project to another such that the outgoing and receiving program projects offset and clearly illustrate a transfer of resources; and, a table listing the budgets and FTE by major office within each National Program Management area with pay/non-pay breakouts. The conferees note that the Congressional Justification includes the bill language for each account. The conferees direct the Agency to highlight and explain any changes to the proposed bill language in the Congressional Justification.

**Reprogramming.**—The Agency is held to the reprogramming limitation of \$1,000,000 and should continue to follow the reprogramming directives as provided in the fiscal year 2010 House report 111–80. Further, the Agency may not use any amount of deobligated funds to initiate a new program, office, or initiative, without the prior approval of the Committees. The conferees note that the Agency's reprogramming procedures allow the Agency to seek funding to implement its highest-priority items if it identifies offsetting funding reductions during the fiscal year, provided those offsets are not taken from program increases that have specifically been provided herein.

Within 30 days of enactment of this Act, the Agency is directed to submit to the House and Senate Committees on Appropriations its annual operating plan for FY 2012, which shall include detail on how the Agency plans to allocate funds at the program project level.

### SCIENCE AND TECHNOLOGY

The bill provides \$795,000,000 for Science and Technology programs and transfers \$23,016,000 from the Hazardous Substance Superfund account to this account. The bill provides the following specific funding levels and direction:

**Clean Air and Climate.**—The bill provides \$124,576,000 which includes a \$1,000,000 increase for the fuel standards program.

**Operations and Administration.**—The bill provides \$72,137,000 for Operations and Administration.

**Research: Air, Climate, and Energy.**—The bill provides \$99,000,000. Within the amount provided, the bill includes \$78,649,000 for Research: Clear Air, \$18,305,000 for Research: Global Change and, \$2,047,000 for Research: Air, Climate, and Energy (Other). The bill does not provide the requested \$3,000,000 increase for air toxics monitors.

**Research: Chemical Safety and Sustainability.**—The bill provides \$131,498,000 for Research: Chemical Safety and Sustainability. No new funds have been provided for the requested green chemistry or e-waste initiatives.

**Research: National Priorities.**—The bill provides \$5,000,000 which shall be used for extramural research grants to fund high-priority water quality and availability research by not-for-profit organizations who often partner with the Agency. Funds shall be awarded competitively with priority given to partners proposing research of national scope and who provide a 10 percent match, which may include in-kind contributions. The Agency is directed to allocate funds to grantees within 180 days of enactment of this Act.

**Research: Safe and Sustainable Water Resources.**—The bill provides \$113,654,000. Within the amount provided, the hydraulic fracturing study is funded at the requested amount, and \$8,500,000 is provided for green infrastructure research.

**Research: Sustainable and Healthy Communities.**—The bill provides \$171,026,000, as requested. The conferees note that \$2,000,000 has been provided within this amount as requested to fund a long-term evaluation of the Agency's laboratory network to ensure that the current organization matches the Agency's strategic needs. The conferees continue to support the Agency's space strategy efforts, including those options that could lead to further efficiencies and potential reductions to the Agency's real property footprint. The conferees encourage the Office of Research and Development (ORD) to institute efficiency improvements that will result in long term savings using the amounts provided.

**Additional Guidance.**—The conferees include the following additional guidance with respect to funding provided under this account:

**Biocrude Research.**—The conferees encourage the Agency to work with its university partners to research the potential for producing biocrude from wastewater treatment plants that allow the production of renewable fuels through traditional petroleum refining techniques.

**Integrated Risk Information System (IRIS).**—In lieu of the directives contained in H. Rept. 112–151 regarding the Integrated Risk Information System, the conferees agree to the following:

(1) Fundamental improvements to the policies and practices of this program are necessary to ensure that IRIS assessments reflect the highest standard of scientific inquiry.

(2) The Agency shall incorporate, as appropriate, based on chemical-specific datasets and biological effects, the recommendations of Chapter 7 of the National Research Council's Review of the Environmental Protection Agency's Draft IRIS Assessment of Formaldehyde into the IRIS process.

(3) The Agency shall issue a progress report to House and Senate Committees on Appropriations and relevant Congressional authorizing committees no later than March 1, 2012, describing its implementation of the National Research Council's Chapter 7 rec-

ommendations for ongoing and new assessments.

(4) For draft assessments released in fiscal year 2012, the Agency shall include documentation describing how the Chapter 7 recommendations of the National Academy of Sciences (NAS) have been implemented or addressed, including an explanation for why certain recommendations were not incorporated.

(5) The Agency shall contract with NAS to conduct up to three reviews of IRIS assessments that EPA seeks to make final. Reviews shall include an evaluation of whether the recommendations it made in previous reviews, including in Chapter 7 of the National Research Council's Review of the Environmental Protection Agency's Draft IRIS Assessment of Formaldehyde, have been implemented. Reviews are not intended to unduly delay the Agency's risk assessment process. The conferees further direct NAS to complete any reviews authorized by this paragraph by no later than 18 months after the date that EPA and the NAS have agreed to the terms of the review. One of these NAS reviews shall be a study of the cancer and non-cancer hazards from oral exposure to inorganic arsenic. The NAS review of inorganic arsenic shall incorporate the direction provided in House Report 112–151 regarding parameters of the study. Additional reviews will be chosen by NAS from a representational sample of IRIS assessments and NAS will notify Congress directly of these choices.

(6) Further, the conferees strongly believe any current and future IRIS assessments must not only be grounded in sound, objective, and peer-reviewed science and methodologies but should also provide risk managers with realistic values that will result in enhanced protection of human health.

### ENVIRONMENTAL PROGRAMS AND MANAGEMENT

The bill provides \$2,682,514,000 for Environmental Programs and Management and includes following specific funding levels and direction:

**Brownfields.**—The bill provides \$23,680,000 and funds the Smart Growth program as requested.

**Clean Air and Climate.**—The bill provides \$286,568,000. Within this amount the bill provides \$99,642,000 for the Climate Protection Program.

The conferees believe EPA may not rely on broad user fee authority as the basis for charging Energy Star fees and therefore lacks such authority. If EPA wishes to collect user fees to offset the costs of the program, such fees should be tied to increased performance or service-related goals, and the Administration should send a legislative proposal to the committees of jurisdiction for consideration in the same manner as they have requested for the electronic manifest system and pesticide user fees.

The conferees note that the SmartWay transportation program has successfully established a partnership among government, businesses, and consumers to reduce fuel consumption and improve air quality and supports a robust funding level.

The bill provides \$27,343,000 for Federal Stationary Source Regulations. From within this amount, EPA is directed to spend \$5,412,000 on New Source Performance Standards. The conferees note that the Administration delayed the issuance of new Ozone NAAQS as urged by House Report 112–151.

The bill provides \$123,666,000 for Federal Support for Air Quality Management. EPA is directed to spend \$3,408,000 of this amount on

greenhouse gas permitting of stationary sources. No new funds have been provided for requested compliance monitoring activities.

Lastly, the bill provides \$5,578,000 for Stratospheric Ozone. The conferees direct that \$1,000,000 shall be for the Sunwise program. Other than provided herein, the agreement does not include further directives regarding allocation of funds for Clean Air and Climate programs, but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

**Enforcement.**—The bill provides \$249,965,000 for enforcement activities, with funding for environmental justice maintained at the fiscal year 2011 enacted level. The agreement does not include further directives regarding allocation of funds but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

**Environmental Protection: National Priorities.**—The bill provides \$15,000,000 for a competitive grant program to provide rural and urban communities with technical assistance to improve water quality and provide safe drinking water. EPA shall award grants on a competitive basis and give priority to not-for-profit organizations that: conduct activities that are national in scope; can provide a 10 percent match, including in-kind contributions; and are supported by a majority of small community water systems, currently provide multi-state regional technical assistance, or currently provide assistance to private well owners. The Agency is directed to allocate funds to grantees within 180 days of enactment of this Act.

**Geographic Programs.**—The bill provides \$410,375,000, as distributed in the table at the end of this division. No funds have been provided for the proposed Mississippi River program or to continue the Community Action for a Renewed Environment program. The bill includes the following direction:

**Great Lakes Restoration Initiative.**—The bill provides \$300,000,000 and EPA shall follow the direction provided in House Report 112-151 for fiscal year 2012. EPA may distribute the funds provided among the five focus areas but shall not spend less than the fiscal year 2011 enacted level for Toxic Substances and Areas of Concern and for the Invasive Species focus areas. The conferees direct the agency to provide a revised spending plan for the Great Lakes program that includes funding levels for the five focus areas at the same time the Agency submits its operating plan. Once submitted, changes to the funding amounts for the focus areas are subject to a reprogramming threshold of \$5,000,000, and the Agency is further directed to report quarterly to the Committees on Appropriations on changes below the threshold.

**Chesapeake Bay.**—The conference agreement includes \$57,391,000 for the Chesapeake Bay program. Within the amount provided, \$8,000,000 is for nutrient and sediment removal grants and \$2,000,000 is for small watershed grants. The conferees do not provide additional directives regarding the allocation of funds for this program but instead direct the Agency to report a proposed allocation of the remaining funds as part of its operating plan. EPA is further directed to support the local government study through the small watershed grant program as discussed in House Report 112-151.

**Puget Sound.**—The bill provides \$30,000,000 to manage and implement Washington State's Puget Sound Action agenda, an approved Comprehensive Conservation and Management Plan (CCMP) under Section 320

of the Clean Water Act. The conferees direct that funding to restore Puget Sound be allocated consistent with the near-term priorities established in the CCMP and the existing Lead Organization and Tribal capacity agreements funded in prior years. EPA is directed to expeditiously obligate funds, in a manner consistent with the authority and responsibilities under Section 320 and the National Estuary Program. Not more than 4 percent shall be used for EPA intramural costs to manage the cooperative and inter-agency agreements to restore and protect Puget Sound.

**Information Exchange.**—The bill provides \$130,896,000 for the Information Exchange program. From within this amount, \$3,285,000 has been provided for the Administrator's Immediate Office. Funding for Children and Other Sensitive Populations and for Environmental Education programs shall be maintained at the enacted level. The agreement does not include further directives regarding allocation of funds or FTE but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

**International Programs.**—The bill provides \$17,632,000 for international programs. The agreement does not include further directives regarding allocation of funds but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

**Legal/Science/Regulatory/Economic Review.**—The bill provides \$110,946,000 and maintains the enacted level for the SmartGrowth program. The bill provides no more than \$15,286,000 for Regulatory/Economic Management and Analysis. The agreement does not include further directives regarding allocation of funds but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

**Operations and Administration.**—The bill provides \$487,880,000, including requested funding for rent, security and utilities. The agreement does not include further directives regarding allocation of funds but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

**Resource Conservation and Recovery Act.**—The bill provides \$112,643,000 for the RCRA program. The bill does not provide the \$2,000,000 request to develop the e-manifest system despite the conferees strong support for the establishment of this system because EPA lacks the legal authority to collect user fees to offset system costs as expressed in the House report.

**Water: Ecosystems.**—The bill provides \$48,257,000 for Water: Ecosystems. Within this amount the bill provides the requested amount for the National Estuary Program and Section 320 grants. The bill provides \$21,199,000 for the Wetlands program and eliminates previously reprogrammed funds for work on the Enhanced Coordination Procedures with the Army Corps of Engineers, and the Office of Surface Mining. The conferees have not included bill language addressing the enhanced coordination procedures given the U.S. District Court's recent ruling that set aside the procedures.

**Water: Human Health Protection.**—The bill provides \$101,256,000 and directs the reduction below the fiscal year 2011 enacted level to the drinking water regulatory program. The agreement does not include further directives regarding allocation of funds but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

**Water Quality Protection.**—The bill provides \$217,101,000, of which up to \$4,738,000 is for the urban waters program. The agreement does not include further directives regarding allocation of funds but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

**Additional Guidance.**—The conferees include the following additional guidance with respect to funding provided under this account:

**Administrator Priorities.**—Funding for Administrator priorities shall not exceed the fiscal year 2011 enacted level. The conferees direct the Agency to submit a report within 90 days of enactment that identifies how the fiscal year 2010 and 2011 funding was used, by account, program area and program project and include a description of the activities and any anticipated results. Future congressional justifications should identify funding in each program project that has been set aside for Administrator priorities, and include a justification for the effort and any anticipated results.

**Arsenic Reporting.**—Not later than 180 days after the date of enactment of this Act, the Agency is directed to: (1) promptly submit to Congress an overdue report—requested as part of the Consolidated Appropriations Act, 2005 (P.L. 108-447)—on the extent to which communities are being affected by the arsenic rule, and proposing compliance alternatives and making recommendations to minimize costs; (2) convene a working group composed of representatives from States, small publicly owned water systems, local public health officials, drinking water consumers and treatment manufacturers to provide input and recommendations on barriers to the use of point-of-use and point-of-entry treatment units, package plants, (including water bottled by the public water system), and modular units, as well as alternative affordability criteria that give extra weight to small, rural, and lower income communities, and (3) based upon input from the working group submit to the Committees a report on actions to make alternative compliance methods (such as point of use, point of entry and package plants) more accessible to water systems and a report on alternative affordability criteria.

**Boiler MACT.**—The conferees are encouraged by the outcome of EPA's reconsideration of the Boiler MACT rule and offer no directives regarding Boiler MACT standards. The proposed rule addresses substantive concerns by including additional flexibility with respect to compliance costs, and a biomass exemption.

**Eastern Long Island Sound Supplemental Environmental Impact Study.**—The conferees are concerned by the lack of progress at the Agency in completing a Supplemental Environmental Impact Statement for eastern Long Island Sound, which has been slated since 2002 and is necessary to ensure that significant military installations do not lose access to dredged disposal sites. The conferees direct the Agency to submit a report no later than 90 days after enactment of this Act outlining its plan to carry out the Supplemental Environmental Impact Statement for the eastern Long Island Sound, including the possible use of existing appropriated funds to begin the study. The conferees also urge the Agency to work collaboratively with appropriate stakeholders, including the Army Corps of Engineers and State partners, to expeditiously determine a dredging solution for eastern Long Island Sound.

**Economic Analysis of Reciprocating Engine Rule.**—The conferees are aware that EPA has

initiated a reconsideration process which the conferees expect will address the concerns expressed in House Report 112-151. Amendments to the reciprocating engine rule are expected in early 2012. The conferees fully expect that EPA will include an analysis of the economic impacts of the rule on small government jurisdictions per the direction in the House report. Therefore the bill does not provide a directive to initiate a separate analysis of the economic impacts of the rule on small government jurisdictions within 60 days of enactment of this Act.

**Personnel and Full Time Equivalents.**—While the statement does not cap FTE levels for EPA, the conferees do not expect EPA's actual utilization levels will exceed the 2010 utilization levels given that EPA's 2012 budget has been reduced. The conferees remain concerned about the growing disparity between regional and headquarters personnel as well as how EPA develops its personnel requests in its annual budget proposal.

**Recycling Programs.**—The conferees direct that the Agency submit the report requested in House Report 112-151 within 90 days of enactment of this Act.

**Refrigerant Gas Containers.**—Within 90 days of enactment of this Act, the conferees direct the agency to initiate a study on the environmental impacts of using disposable containers to transport and store refrigerant gasses, compared to refillable containers, and to submit the study to the House and Senate Committees on Appropriations upon completion.

**Regional Haze.**—States have raised legitimate concerns about the costs and compliance deadlines within EPA federal implementation plans to address regional haze issues. The Clean Air Act offers substantial flexibility with regard to how States may choose to mitigate regional haze impacts. The conferees are aware that EPA released a court-ordered schedule for finalizing Regional haze rules in November 2011. Therefore, the agreement does not include the specific directives contained in House Report 112-151 but instead directs EPA to work with the States as partners in order to resolve compliance and cost differences while adhering to the schedule.

**Southern New England Estuaries.**—The conferees recommend that the Agency convene and lead a comprehensive regional policy coordination and outreach effort to protect, enhance, and restore the coastal watersheds of southern New England. No entity or consortium exists to meet these challenges, and there is an urgent and immediate need for such an effort. For example, in Rhode Island's Narragansett Bay, there are documented extensive areas of pollution severely degrading fish and wildlife habitat and water quality; problems that are compounded by the effects of warmer water temperatures and milder winters. The conferees recommend that EPA establish goals for the regional effort, emphasizing water quality and habitat restoration as well as the development and implementation of innovative technologies to meet these challenges and create jobs. The effort should provide for streamlined interagency communication, and involve an inclusive stakeholder process. Specifically, EPA should collaborate with State agencies as well as other Federal partners such as the National Oceanic and Atmospheric Administration, the U.S. Fish and Wildlife Service, U.S. Geological Survey, Natural Resources Conservation Service, and the Small Business Administration. The Agency should also include stakeholders from local governments and agencies, non-

governmental organizations, and academic institutions. The conferees also recommend that the Agency, through this regional effort, facilitate the development of strategies to restore and protect the southern New England Estuaries.

#### OFFICE OF INSPECTOR GENERAL

The bill provides \$42,000,000 for the Office of Inspector General. The conferees appreciate the value of a robust Inspector General and expect the same level of effort as in fiscal year 2011 within the funding provided. The funding level reflects the high unobligated balances that remain in this account and the Inspector General should utilize previously appropriated funds first in fiscal year 2012.

#### BUILDINGS AND FACILITIES

The bill provides \$36,428,000 for Buildings and Facilities, equal to the fiscal year 2011 enacted level.

#### HAZARDOUS SUBSTANCE SUPERFUND

##### (INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,215,753,000 for the Hazardous Substance Superfund account, and includes bill language to transfer \$9,955,000 to the Inspector General account and \$23,016,000 to the Science and Technology account. Due to budget constraints, the conferees have reluctantly proposed general program reductions to the Superfund emergency response and removal and remedial programs, as detailed below.

The bill provides the following additional direction:

**Enforcement.**—The bill provides \$187,033,000 for Superfund Enforcement.

**Operations and Administration.**—The bill provides \$135,969,000 for Superfund Operations and Administration. The agreement does not include further directives regarding allocation of funds but instead directs the Agency to submit an allocation of funds at the program project level as part of the operating plan.

**Superfund Cleanup.**—The bill provides \$789,180,000 for Superfund Cleanup, of which \$189,895,000 is for Superfund: Emergency Response and Removal and \$565,922,000 is for Superfund: Remedial. The conferees expect that future budget requests will propose a higher percentage of cleanup funding as part of the total request in addition to proposing funding sufficient to meet program goals, such as increasing the number of annual "construction completes" and more importantly "sites made ready for reuse". The conferees direct the Inspector General to report to the Committees on Appropriations within 90 days of enactment of this Act on current agency efforts to strengthen Superfund contracting controls to prevent future waste, fraud and abuse.

**Financial Assurance.**—In lieu of the directives contained in H. Rept. 112-151 regarding financial assurance requirements, the conferees direct the Administrator to collect and analyze information from the commercial insurance and financial industries regarding the use and availability of necessary instruments (including surety bonds, letters of credit, and insurance) for meeting any new financial responsibility requirements and to make that analysis available to the House and Senate Committees on Appropriations and to the general public on the Agency website 90 days prior to proposing any rule pursuant to section 108(b) of the Comprehensive Environmental Response, Compensation, and Liability Act of 1980 (42 U.S.C. 9608(b)).

**Special Accounts.**—The conferees direct EPA to follow the language in House Report

112-151 with respect to managing the unobligated balances in the Superfund special accounts.

#### LEAKING UNDERGROUND STORAGE TANK TRUST FUND PROGRAM

The bill provides \$104,309,000 for the Leaking Underground Storage Tank Trust Fund Program.

#### INLAND OIL SPILL PROGRAMS

The bill provides \$18,274,000 for Inland Oil Spill Programs.

#### STATE AND TRIBAL ASSISTANCE GRANTS

The bill provides \$3,618,727,000 for the State and Tribal Assistance Grants (STAG) program and includes the following specific funding levels and direction:

**Infrastructure Assistance.**—The bill provides \$2,528,169,000 for infrastructure assistance, including \$1,468,806,000 for the Clean Water State Revolving Fund and \$919,363,000 for the Drinking Water State Revolving Fund. The amount provided for the Clean Water State Revolving Fund program will fund approximately 473 new wastewater projects nationwide and more than 81,000 jobs when combined with state matching funds and leverage capabilities, according to Agency estimates. Amounts provided for the Drinking Water State Revolving Funds program will fund approximately 353 new drinking water projects nationwide and more than 50,000 jobs when combined with state matching and leveraged funds.

The conferees do not direct EPA to submit a report on water rates requested in the House report. However, the conferees direct the Agency to report on how EPA and the States have used the additional subsidization authority including information on the number and amounts of loans awarded with additional subsidization, recipient communities, and descriptions of projects funded.

**Alaska Native Villages.**—The bill provides \$10,000,000 as requested.

**Brownfields.**—The bill provides \$95,000,000 for the Brownfields program.

**Diesel Emissions Reduction Act (DERA) Grants.**—The bill provides \$30,000,000 as the conferees do not agree with the proposal to terminate the DERA grants.

**Mexico Border.**—The bill provides \$5,000,000 for the Mexico border program.

**Categorical Grants.**—The bill provides \$1,090,558,000 for Categorical Grants and funding levels are specified in the table at the end of this division. This amount includes \$164,757,000 for nonpoint source grants as requested. The amount also includes \$236,107,000 for the State and Local Air Quality Management grant program, and the conferees direct EPA to allocate funds for this program using the same formula as fiscal year 2011.

**Bill Language.**—The bill includes modified language specifying amounts made available under the state revolving fund programs for additional subsidization, and amounts made available for the green infrastructure reserve in the Clean Water State Revolving Fund program. The bill does not provide the requested mandatory set-aside for green infrastructure projects within the Drinking Water State Revolving Fund program but does include language allowing States to continue to fund these types of projects at their discretion.

#### ADMINISTRATIVE PROVISIONS, ENVIRONMENTAL PROTECTION AGENCY (INCLUDING TRANSFER AND RESCISSION OF FUNDS)

The bill rescinds \$50,000,000 from specific unobligated balances. Modified bill language

has been included to provide specific wage rate requirements for the Clean Water and Drinking Water State Revolving funds.

**Oil Spill Transfer Authority.**—The bill includes modified transfer authority language that allows the Agency to meet its obligations to pay contractors responding to inland oil spills. The conferees have included this language for fiscal year 2012 only. The conferees strongly urge EPA, in conjunction with the Office of Management and Budget, to propose a more appropriate legislative fix if the Administration is unable to process routine transfers from the Oil Spill Trust Fund in a timely fashion. The conferees support the approach discussed in the House report to be a more permanent solution.

#### TITLE III—RELATED AGENCIES

##### DEPARTMENT OF AGRICULTURE

##### FOREST SERVICE

##### FOREST AND RANGELAND RESEARCH

The bill provides \$295,773,000 for Forest and Rangeland Research. The conferees also provide the following directions:

The agreement does not specify allocations for individual research facilities. The conferees encourage the Forest Products Laboratory, as part of the Department of Agriculture's effort to promote and use wood products as a green building material, to invest in wood products life cycle assessment research to improve our understanding of the environmental and economic implications of using wood in building construction.

The Forest Service is commended for its localized needs research and is directed to expand this research in support of project development on national forests. The Forest Service should prioritize research related to White Nose Syndrome as well as inventory and monitoring of bat resources on Forest Service lands. The Service is expected to continue ongoing urban natural resources stewardship research and should produce a joint report with the Department of Energy on the role that this work can play in helping reduce the urban heat island effect, as well as reduce the energy demand to cool buildings.

##### STATE AND PRIVATE FORESTRY

The bill provides \$253,331,000 for State and Private Forestry. The conferees also provide the following directions:

Within six months of enactment of this Act, the Forest Service is directed to develop a process in consultation with State foresters that considers State Assessments and Strategies in the annual budget for Cooperative Forestry Assistance Act (CFAA) programs, and to develop a process allowing State foresters flexibility, with appropriate accountability, to reallocate a percentage of authorizations for CFAA programs to address State priorities consistent with the State Assessments and Strategies.

**Forest Legacy.**—The bill provides \$53,388,000 for the Forest Legacy program. This includes \$6,628,000 for program administration, \$2,500,000 for new State startups, and \$44,260,000 for forest legacy projects. The Service should fund projects in priority order according to their competitively selected national priority list for fiscal year 2012.

##### NATIONAL FOREST SYSTEM

The bill provides \$1,556,628,000 for the National Forest System. The agreement includes a proof of concept pilot for Integrated Resource Restoration (IRR). The conferees also provide the following directions:

**Land Management Planning.**—The bill provides \$40,000,000 for land management planning. The agreement does not approve the

consolidation of this line item with the Inventory and Monitoring line item. The Planning Rule should provide for a cost-effective and timely process for forest plan revisions.

**Inventory and Monitoring.**—The bill provides \$161,980,000 for inventory and monitoring. The Forest Service is encouraged to allocate more funding towards monitoring of grazing allotments and work with State agencies, universities, professional societies and other USDA agencies, such as the Natural Resources Conservation Service, to efficiently and effectively increase allotment monitoring.

**Recreation, Heritage, and Wilderness.**—The bill provides \$281,627,000 for recreation, heritage and wilderness programs. In place of House direction on the travel management rule, the Forest Service is encouraged to revise travel management plans where significant issues have arisen and resolve the Maintenance Level-3 road problem in Region 5. The agreement does not provide direction on the Wyoming Wilderness Act.

**Grazing Management.**—The bill provides \$55,445,000 for the grazing management program. The conferees are concerned that the best science should be used in making decisions concerning grazing on the Dakota Prairie Grasslands. Currently, North Dakota State University is conducting research that should benefit the agency in making these determinations. The agency is strongly encouraged to work cooperatively with the university and utilize its research to the extent practicable, to better inform its grazing management decisions.

**Forest Products.**—The bill provides \$336,049,000 for the forest products program. The Forest Service is directed to improve the health and resilience of national forests and through these efforts, work to achieve three billion board feet of timber sold. The conferees note that over the last ten years, the timber supply in Region 10 has been constrained to less than 10 percent of the allowable sale quantity in the current land management plan. The Forest Service is encouraged to prepare and offer, within three years, the four 10-year timber sales as previously indicated.

**Vegetation and Watershed Management.**—The bill provides \$184,341,000 for vegetation and watershed management activities. The Service is strongly encouraged to provide sufficient resources for leafy spurge eradication.

**Wildlife and Fish Habitat Management.**—The bill provides \$140,260,000 for wildlife and fish habitat management activities.

**Collaborative Forest Landscape Restoration.**—The bill provides \$40,000,000 for the Collaborative Forest Landscape Restoration Fund.

**Minerals and Geology Management.**—The bill provides \$83,560,000 for minerals and geology management activities.

The Service should implement the recommendations included in the report, "Assessing the Potential for Renewable Energy on National Forest System Lands" and initiate a planning process for a renewable energy development program and, where appropriate, apply guidelines already developed by the Bureau of Land Management.

**Landownership Management.**—The bill provides \$85,875,000 for landownership management activities. In the case of any land exchange involving National Forest System land carried out directly or through a third party, the Forest Service is directed to provide written notice of the proposed land exchange to each owner of non-Federal land adjoining a parcel of National Forest System land proposed for exchange and each owner

of non-Federal land adjoining the non-Federal land proposed to be acquired in the exchange. The Secretary shall determine adjoining landowners using the most recent available tax records.

**Integrated Resource Restoration.**—The conferees have agreed to the House proposal to allow the Administration to conduct an Integrated Resource Restoration pilot in Regions 1, 3, and 4. Within 90 days of enactment of this Act, the Forest Service should present a plan and guidance to the pilot regions for measuring performance and accountability. The plan and guidance should ensure program transparency, monitoring, fair allocation of funding, a consistent approach across the three regions, and that restoration is the primary goal of any projects funded through the pilot. The plan should also include traditional measures, such as timber targets and acres treated, while also including new measures such as watershed condition framework.

##### CAPITAL IMPROVEMENT AND MAINTENANCE (INCLUDING TRANSFER OF FUNDS)

The bill provides \$394,721,000 for capital improvement and maintenance programs offset by a \$12,000,000 scoring credit related to the road and trail fund. The conferees also provide the following directions:

**Facilities.**—The bill provides \$75,785,000 for facilities including \$13,124,000 for construction and \$62,661,000 for maintenance. For future year planning, the Forest Service should include both new construction and maintenance in its list of major facilities projects based on its facility master plans and the most efficient use of taxpayer dollars.

**Roads.**—The bill provides \$182,818,000 for roads including \$27,327,000 for construction and \$155,491,000 for maintenance.

**Trails.**—The bill provides \$81,982,000 for trails including \$63,422,000 for maintenance and \$18,560,000 for construction.

**Legacy Roads.**—The bill provides \$45,000,000 for the legacy roads and trails program. The agreement retains this program within Capital Improvement and Maintenance. The Forest Service should report on the jobs associated with this program and publicly post this information.

**Back-country airstrips.**—In place of the reporting requirements in the House Report for back-country airstrips, within one year after the date of enactment of this Act, the Forest Service is directed to provide the Committees with a general assessment of back-country airstrips on National Forest System lands with recommendations for improving their function as an important component of the forest transportation and recreation system.

**Bill Language.**—The bill includes language allowing the transfer of funding from Capital Improvement and Maintenance to the National Forest System for the Integrated Resource Restoration pilot.

##### LAND ACQUISITION

The bill provides \$52,605,000 for Land Acquisition, of which \$7,500,000 is for acquisition management; \$3,500,000 is for critical inholdings/cash equalization; and \$41,605,000 is for acquisitions.

This amount will fully fund projects 1 through 30 as prioritized by the Service pursuant to the Administration's revised request list provided to the Committees on August 26, 2011. Requests for reprogramming will be considered pursuant to the guidelines in the front of this statement.

The conferees direct the Forest Service to use inholding funding to acquire high priority lands within Federal boundaries that

maximize benefits to the public through consolidated Federal ownership that provides access, creates management efficiencies, or protects critical resources.

The Secretary of Agriculture is directed to submit a report to the Committees on Appropriations within 90 days of enactment of this Act describing current negotiations between the Forest Service and private landowners for projects receiving prior year and current appropriations within the Tongass National Forest, including the overall scope and timing of these acquisitions.

#### ACQUISITION OF LANDS FOR NATIONAL FORESTS SPECIAL ACTS

The bill provides \$955,000 for the Acquisition of Lands for National Forests Special Acts.

#### ACQUISITION OF LANDS TO COMPLETE LAND EXCHANGES

The bill provides \$227,000 for the Acquisition of Lands to Complete Land Exchanges.

#### RANGE BETTERMENT FUND

The bill provides \$3,262,000 for the Range Betterment Fund.

#### GIFTS, DONATIONS AND REQUESTS FOR FOREST AND RANGELAND RESEARCH

The bill provides \$45,000 for Gifts, Donations and Requests for Forest and Rangeland Research.

#### MANAGEMENT OF NATIONAL FOREST LANDS FOR SUBSISTENCE USES

The bill provides \$2,577,000 for the Management of National Forest Lands for Subsistence Uses.

#### WILDLAND FIRE MANAGEMENT (INCLUDING TRANSFERS OF FUNDS)

The bill provides \$1,737,631,000 for Forest Service Wildland Fire Management. In addition to the funding provided, the Forest Service is directed to use \$240,000,000 in carryover emergency fire suppression funds before obligating fiscal year 2012 suppression funds. The amount provided, combined with \$315,886,000 in the FLAME Wildfire Suppression Reserve Fund, fully funds the Forest Service's 10-year average expenditures for fire suppression. The conferees also provide the following directions:

The Forest Service should complete a plan to replace the aging fleet of federal air tankers as soon as possible. While the Forest Service and others have produced study after study on the critical shortage of firefighting aircraft, there has been a complete lack of substantive progress this year. The Service must work more closely with the Department of the Interior in developing the strategy for replacing the current air tanker fleet.

*Hazardous Fuels.*—The bill provides \$317,584,000 for hazardous fuels activities. The Forest Service is directed to remove the requirement that seventy-five percent of hazardous fuels funding be spent in the Wildland Urban Interface and instead the conferees direct hazardous fuels funding be spent on the highest priority projects in the highest priority areas.

#### FLAME WILDFIRE SUPPRESSION RESERVE FUND (INCLUDING TRANSFERS OF FUNDS)

The bill provides \$315,886,000 for the FLAME Wildfire Suppression Reserve Fund.

#### ADMINISTRATIVE PROVISIONS, FOREST SERVICE (INCLUDING TRANSFERS OF FUNDS)

The bill includes administrative provisions similar to previous years.

### DEPARTMENT OF HEALTH AND HUMAN SERVICES

#### INDIAN HEALTH SERVICE

##### INDIAN HEALTH SERVICES

The bill provides \$3,872,377,000 for Indian Health Services. Of the amount requested for current services, the conferees have included \$56,019,000 above the fiscal year 2011 enacted level, which covers the cost of staffing new facilities. Program increases above the fiscal year 2011 enacted level include \$12,000,000 for the Indian Health Care Improvement Fund; \$3,400,000 for Health IT Security; \$65,000,000 for Contract Health Services; \$3,185,000 for Direct Operations; and \$74,500,000 for Contract Support Costs. In agreement with the request, a reduction of \$7,000,000 has been assumed from savings in grant programs. The conferees direct the Service to meet its annual Contract Support Costs reporting requirement due date, and to provide the Committees with current Contract Support Costs estimates in conjunction with its annual budget submission.

The Service is directed to update the Committees at least annually on the progress of the Early Childhood Caries initiative and the ability of the Service to meet its goals in the allowed time frame. The conferees note that the Service has already complied with the request contained in the House report to provide a detailed schedule for implementation of the Electronic Dental Record system.

Within the overall amount identified in the "Indian Health Services" account for the staffing of new facilities, funds are directed to the following projects, as requested in the President's budget request: \$1,809,000 for the Carl Albert Hospital replacement, Ada, Oklahoma; \$783,000 for the Lake County Tribal Health Center, Lakeport, California; \$6,294,000 for the Elbowoods Health Center, New Town, North Dakota; \$21,185,000 for the Cheyenne River Health Center, Eagle Butte, South Dakota; \$8,226,000 for the Absentee Shawnee Health Center, Little Axe, Oklahoma; \$7,879,000 for the Cherokee Nation Vinita Health Center, Vinita, Oklahoma; and \$9,843,000 for joint venture projects. This distribution is in agreement with the budget estimate as it has been revised to reflect distributions made under the fiscal year 2011 operating plan, which was not available at the time the Service's request was submitted to Congress.

The conferees understand that a number of joint venture construction projects are nearing completion and will require support for the staffing of these new facilities. The Service is urged to request sufficient funding in future budgets to fulfill its obligations to participating tribes in the joint venture program.

Within the Indian Health Professions activity, the conferees have continued support for the Recruitment/Retention of American Indians into Nursing program; the Indians into Psychology program; and the Indians into Medicine program.

##### INDIAN HEALTH FACILITIES

The bill provides \$441,052,000 for Indian Health Facilities. Of the amount requested for current services, the conferees have included \$7,032,000 above the fiscal year 2011 enacted level, which covers the cost of staffing new facilities. Program changes to the fiscal year 2011 enacted level include a decrease of \$15,955,000 from Sanitation Facilities Construction, as requested, and an increase of \$46,028,000 for Health Care Facilities Construction.

Within the overall amount identified in the "Facilities Services" account for the

staffing of new facilities, funds are directed to the following projects, as requested in the President's budget request: \$678,000 for the Carl Albert Hospital replacement, Ada, Oklahoma; \$305,000 for the Lake County Tribal Health Center, Lakeport, California; \$1,021,000 for the Elbowoods Health Center, New Town, North Dakota; \$3,487,000 for the Cheyenne River Health Center, Eagle Butte, South Dakota; \$755,000 for the Absentee Shawnee Health Center, Little Axe, Oklahoma; and \$786,000 for the Cherokee Nation Vinita Health Center, Vinita, Oklahoma.

The amount provided for health care facilities construction includes, as requested in the President's budget request: \$62,184,000 to complete the Barrow Hospital, Barrow, Alaska; \$10,000,000 for the Kayenta Health Center, Kayenta, Arizona; \$10,000,000 for the San Carlos Health Center, San Carlos, Arizona; \$2,000,000 for the Southern California Youth Regional Treatment Center, Hemet, California; and \$1,000,000 to complete a feasibility report on the use of modular construction for health facilities.

The conferees are concerned about the large unobligated balances in the "Indian Health Services" and the "Indian Health Facilities" accounts. The conferees direct the Service to review the programs that have carried high unobligated balances in recent years and provide a detailed report to the Committees within 90 days of enactment of this Act on the causes for these unobligated balances and present a plan for reducing them.

#### NATIONAL INSTITUTES OF HEALTH NATIONAL INSTITUTE OF ENVIRONMENTAL HEALTH SCIENCES

The bill provides \$79,054,000 for the National Institute of Environmental Health Sciences.

#### AGENCY FOR TOXIC SUBSTANCES AND DISEASE REGISTRY TOXIC SUBSTANCES AND ENVIRONMENTAL PUBLIC HEALTH

The bill provides \$76,337,000 for the Agency for Toxic Substances and Disease Registry. Within the funds provided, \$2,000,000 has been included as requested to continue the important epidemiological studies of health conditions caused by exposures to uranium released from mining and milling operations in the Navajo Nation.

#### OTHER RELATED AGENCIES

##### EXECUTIVE OFFICE OF THE PRESIDENT COUNCIL ON ENVIRONMENTAL QUALITY AND OFFICE OF ENVIRONMENTAL QUALITY

The bill provides \$3,153,000 for the Council on Environmental Quality and Office of Environmental Quality.

##### CHEMICAL SAFETY AND HAZARD INVESTIGATION BOARD

##### SALARIES AND EXPENSES

The bill provides \$11,147,000 for the Chemical Safety and Hazard Investigation Board.

##### OFFICE OF NAVAJO AND HOPI INDIAN RELOCATION

##### SALARIES AND EXPENSES

The bill provides \$7,750,000 for the Office of Navajo and Hopi Indian Relocation, Salaries and Expenses.

##### INSTITUTE OF AMERICAN INDIAN AND ALASKA NATIVE CULTURE AND ARTS DEVELOPMENT PAYMENT TO THE INSTITUTE

The bill provides \$8,533,000 for the Institute of American Indian and Alaska Native Culture and Arts Development.

##### SMITHSONIAN INSTITUTION SALARIES AND EXPENSES

The bill provides a total of \$811,530,000 for all Smithsonian Institution accounts, of

which \$636,530,000 is provided for salaries and expenses. The conferees encourage collaborative efforts between the Smithsonian Institution and regional and rural museums that facilitate greater access to the Smithsonian's virtual collections such as that of the Museum of Natural History. The conferees support the joint venture between the Library of Congress and the Smithsonian Institution creating a comprehensive compilation of personal histories and testimonials of individuals who participated in the Civil Rights movement. The conferees remain committed to the preservation of priceless, irreplaceable Smithsonian Institution collections and direct the Smithsonian to take steps toward implementing the recommendations of a recently completed audit by the Smithsonian's Office of Inspector General (OIG) on collections stewardship at the National Museum of American History. The conferees also support the decision by the OIG to use the Institution's Strategic Plan as a standard by which to measure the Institution's performance in its proposed audits and reviews. The Smithsonian Institution is directed to work with the Committees to standardize its annual budget submission justifications and supporting materials.

#### FACILITIES CAPITAL

The bill provides \$175,000,000 for the Facilities Capital account of which \$75,000,000 is to complete the design and begin the construction of the National Museum of African American History and Culture (NMAAHC). Bill language is included providing that a future procurement for construction of the NMAAHC may include the full scope of the project, but that any contract for such procurement must contain a clause clarifying that any payment under the contract will be subject to the availability of funds. The Smithsonian is directed to devote remaining Facilities Capital funds to the highest and best uses on a priority basis and clearly articulate in future budget submissions specific funding needs in priority order for all Facilities Capital program initiatives.

#### NATIONAL GALLERY OF ART

##### SALARIES AND EXPENSES

The bill provides \$114,066,000 for the Salaries and Expenses account of the National Gallery of Art of which not to exceed \$3,481,000 is for the special exhibition program.

#### REPAIR, RESTORATION, AND RENOVATION OF BUILDINGS

The bill provides \$14,516,000 for the Repair, Restoration, and Renovation of Buildings account. Bill language is included providing the Gallery with the authority to enter into operating lease agreements of no more than 10 years, with no extensions or renewals, in order to address space needs created by ongoing renovations in the Master Facilities Plan.

#### JOHN F. KENNEDY CENTER FOR THE PERFORMING ARTS

##### OPERATIONS AND MAINTENANCE

The bill provides \$23,200,000 for the Operations and Maintenance account.

##### CAPITAL REPAIR AND RESTORATION

The bill provides \$13,650,000 for the Capital Repair and Restoration account.

#### WOODROW WILSON INTERNATIONAL CENTER FOR SCHOLARS

##### SALARIES AND EXPENSES

The bill provides \$11,005,000 for the Woodrow Wilson International Center for Scholars.

#### NATIONAL FOUNDATION ON THE ARTS AND HUMANITIES

##### NATIONAL ENDOWMENT FOR THE ARTS GRANTS AND ADMINISTRATION

The bill provides \$146,255,000 for the National Endowment for the Arts (NEA). The conferees agree that initiatives begun in prior years, such as the *Big Read* and *Shakespeare in American Communities*, are programs of demonstrated worth that reach a broad geographic audience. The Endowment is urged to maintain these grants at an appropriate funding level to allow a vibrant, competitive program to be maintained.

The conferees understand that the proposal included in the budget request to eliminate the National Heritage Fellowship program and the American Jazz Masters Fellowship program was reconsidered by the Endowment and subsequently withdrawn. The conferees support this decision and expect the Endowment to continue its annual recognition of individuals with outstanding achievements in these disciplines in a similar manner to past years. The conferees disagree with the proposal to exempt funds for the "Our Town" initiative from the overall calculation for providing base funding to State arts agencies and direct that funds be distributed based on the longstanding agreement that States receive 40 percent of all appropriated grant funds. Reforms originally instituted by the Committees more than a decade ago relating to program priorities and grant guidelines are fully restated in Sections 418 and 419. These reforms maintain broad bipartisan support and the conferees expect the NEA to adhere to them fully. Further, the conferees encourage the Administration and the appropriate committees of jurisdiction in Congress to address the vacancies on the National Council on the Arts in a timelier manner than has been the case to date.

##### NATIONAL ENDOWMENT FOR THE HUMANITIES GRANTS AND ADMINISTRATION

The bill provides \$146,255,000 for the National Endowment for the Humanities (NEH). The conferees urge the NEH to provide no less than 40 percent of program funds to support the critical work of state humanities councils. The conferees support the Endowment's efforts to encourage a better understanding of our Nation's history and the democratic principles upon which it was founded by supporting grants for the teaching and study of American history. The conferees, therefore, have included \$3,000,000 for the longstanding, successful *We the People* initiative. The NEH is encouraged to include Native American communities in the *Bridging Cultures* initiative and to work with tribes in the preservation of Native American languages through the Documenting Endangered Languages grant program.

##### COMMISSION OF FINE ARTS

##### SALARIES AND EXPENSES

The bill provides \$2,400,000 for the Commission of Fine Arts.

#### NATIONAL CAPITAL ARTS AND CULTURAL AFFAIRS

The bill provides \$2,000,000 for the National Capital Arts and Cultural Affairs program. Language has been included in the bill amending the program's underlying authorization to ensure that all grantees meet the program's eligibility requirements.

##### ADVISORY COUNCIL ON HISTORIC PRESERVATION

##### SALARIES AND EXPENSES

The bill provides \$6,108,000 for the Advisory Council on Historic Preservation.

#### NATIONAL CAPITAL PLANNING COMMISSION SALARIES AND EXPENSES

The bill provides \$8,154,000 for the National Capital Planning Commission.

#### UNITED STATES HOLOCAUST MEMORIAL MUSEUM

##### HOLOCAUST MEMORIAL MUSEUM

The bill provides \$50,798,000 for the United States Holocaust Memorial Museum. The conferees concur with the Museum's proposal to re-designate its exhibition fund as an outreach initiatives fund to broaden access to historic material, enhance its website, and provide a larger public education component.

##### PRESIDIO TRUST

##### PRESIDIO TRUST FUND

The bill provides \$12,000,000 for the Presidio Trust Fund.

#### DWIGHT D. EISENHOWER MEMORIAL COMMISSION

##### SALARIES AND EXPENSES

The bill provides \$2,000,000 for the Salaries and Expenses account.

##### CAPITAL CONSTRUCTION

The bill provides \$30,990,000 for Capital Construction. Bill language has been included authorizing the contracting officer to procure construction services as long as such contracts are contingent upon the availability of funds, and authorizes the Commission to proceed with the construction process despite not having full funding in place.

#### TITLE IV—GENERAL PROVISIONS

##### (INCLUDING TRANSFERS OF FUNDS)

The conferees have included various legislative provisions in Title IV of the bill. A number of these provisions have been carried in previous years and others are newly proposed this year. The provisions are:

Section 401 continues a provision providing for public availability of information on consulting service contracts.

Section 402 continues a provision providing that appropriations available in the bill shall not be used to produce literature or otherwise promote public support of a legislative proposal on which legislative action is not complete.

Section 403 continues a provision providing for annual appropriations unless expressly provided otherwise in this Act.

Section 404 continues a provision limiting the use of personal cooks, chauffeurs or servants.

Section 405 continues a provision providing restrictions on departmental assessments unless approved by the Committees on Appropriations.

Section 406 continues a provision limiting the actions of the Forest Service and the Bureau of Land Management with regard to the sale of giant sequoia trees to a manner consistent with such sales as were conducted in fiscal year 2011.

Section 407 continues a limitation on accepting and processing applications for patents and on the patenting of Federal lands.

Section 408 continues a provision regarding the payment of contract support costs.

Section 409 continues a provision providing that the Secretary of Agriculture shall not be considered in violation of certain provisions of the Forest and Rangeland Renewable Resources Planning Act solely because more than 15 years have passed without revision of a forest plan, provided that the Secretary is working in good faith to complete the plan revision.

Section 410 continues a provision limiting preleasing, leasing, and related activities

within the boundaries of National Monuments.

Section 411 modifies a provision authorizing the Secretary of the Interior and the Secretary of Agriculture to enter into reciprocal agreements with foreign wildfire suppression organizations.

Section 412 continues a provision through fiscal year 2013 authorizing the Secretary of the Interior and the Secretary of Agriculture to consider local contractors when awarding contracts for certain activities on public lands.

Section 413 restricts funding appropriated for acquisition of land or interests in land from being used for declarations of taking or complaints in condemnation.

Section 414 continues a provision making Alaska red cedar timber available to domestic mills.

Section 415 extends certain authorities through fiscal year 2013 allowing the Forest Service and Department of the Interior to renew grazing permits.

Section 416 continues a provision which prohibits no-bid contracts.

Section 417 continues a provision which requires public disclosure of certain reports.

Section 418 continues a provision which delineates the grant guidelines for the National Endowment for the Arts.

Section 419 continues a provision which delineates the program priorities for the programs managed by the National Endowment for the Arts.

Section 420 amends existing law to allow for the use of certain competitive grant funds.

Section 421 extends authorities from the Forest Service Realignment and Enhancement Act of 2005 through 2016.

Section 422 makes permanent authorities made available to the Secretary of the Interior and the Chief of the Forest Service to conduct joint programs to promote customer service and efficiency.

Section 423 retains a provision allowing the State of Utah, through contracts or cooperative agreements with the Forest Service, to perform certain activities on Forest Service lands through fiscal year 2013.

Section 424 requires the Department of the Interior, EPA, Forest Service and Indian Health Service to provide the Committees on Appropriations quarterly reports on the status of balances of appropriations.

Section 425 requires the President to submit a report to the Committees on Appropriations no later than 120 days after submission of the fiscal year 2013 budget request describing Federal agency obligations and expenditures for climate change programs in fiscal year 2011.

Section 426 continues a provision prohibiting the use of funds to promulgate or implement any regulation requiring the issuance of permits under Title V of the Clean Air Act for carbon dioxide, nitrous oxide, water vapor, or methane emissions.

Section 427 continues a provision prohibiting the use of funds to implement any provision in a rule if that provision requires mandatory reporting of greenhouse gas emissions from manure management systems.

Section 428 provides the Forest Service the authority to use a pre-decisional objection process in place of post-decisional appeals.

Section 429 clarifies Silvicultural Operations under the Federal Water Pollution Control Act.

Section 430 modifies claim maintenance fees for placer claims held by two or more persons known as association placer claims.

Section 431 addresses the management of domestic sheep and bighorn sheep on Federal lands.

Section 432 addresses the issuance of air quality permits in the Outer Continental Shelf.

Section 433 prohibits funds from being used to enter into contracts or agreements with any corporation where the agency is aware of a conviction of a felony under any Federal law within the preceding 24 months.

Section 434 prohibits funds for contacts or agreements with any corporation where the agency is aware of any unpaid Federal tax liability that is not being paid in a timely manner pursuant to a payment agreement.

Section 435 continues current authorities for operations of Indian Health Service programs in Alaska.

Section 436 includes an across the board rescission of 0.16 percent. This reduction shall be applied to each program, project, and activity, except for Miscellaneous Payments to Indians, which has a different application of the rescission as specified in the statutory language. The bill also requires the Office of Management and Budget to submit a report within 30 days specifying the account and amount of each rescission.

**DIVISION F—DEPARTMENTS OF LABOR, HEALTH AND HUMAN SERVICES, AND EDUCATION, AND RELATED AGENCIES APPROPRIATIONS ACT, 2012**

The Departments of Labor, Health and Human Services, and Education, and Related Agencies Appropriations Act, 2012, put in place by this division incorporates the following agreements of the managers. Funds for the individual programs and activities within the accounts in this division are displayed in the detailed table at the end of the statement of the managers for this Act. Funding levels that are not displayed in the detailed table are identified within this statement of the managers. In implementing this conference agreement, the Departments and agencies should be guided by the language and instructions set forth in Senate Report 112-84 accompanying the bill, S. 1599, unless specifically addressed in this statement. In cases where the language and instructions in the Senate report specifically address the allocation of funds, each has been reviewed by the conferees and those that are jointly concurred in have been endorsed in this statement of managers.

**TITLE I**

**DEPARTMENT OF LABOR**

**EMPLOYMENT AND TRAINING ADMINISTRATION  
TRAINING AND EMPLOYMENT SERVICES  
(INCLUDING TRANSFER OF FUNDS)**

The conference agreement includes \$3,195,383,000 for Training and Employment Services (TES). Of the amount appropriated under the heading TES, \$1,423,383,000 shall be available for obligation for the period July 1, 2012 through June 30, 2013, and the remaining \$1,772,000,000 shall be available as an advance appropriation for the period October 1, 2012 through June 30, 2013.

The conferees direct that, beginning with the fiscal year 2013 budget request, the TES detailed workload and performance tables in the congressional justification materials be modified to include, as a subset of the "Participants Served in Employment and Training Activities," the number of participants who participated in core and intensive services, the number of participants who participated in training services, the number of exiters, and the number of exiters who gained employment.

The conference agreement includes \$1,008,432,000 for Dislocated Worker Assistance employment and training activities, of which \$148,432,000 shall be available for obligation for the period July 1, 2012 through June 30, 2013, and the remaining \$860,000,000 shall be available as an advance appropriation for the period October 1, 2012 through June 30, 2013. The conferees continue to support the use of National Emergency Grants to meet unanticipated increases in demand for employment and training services and encourage a rapid execution of funding throughout the program year to address these needs throughout the country.

The conference agreement includes \$84,451,000 for migrant and seasonal farmworker formula grants. The conferees direct that \$5,689,000 shall be for migrant and seasonal farmworker housing grants, of which not less than 70 percent of this amount shall be used for permanent housing grants. The conferees further direct the Department of Labor to submit annual reports documenting the use of farmworker housing funds. The reports should include information on the amount of funds used for permanent and temporary housing activities, respectively; a list of the communities served; a list of the grantees and the states in which they are lo-

cated; the total number of individuals or families served; and a list of allowable temporary housing activities.

The conference agreement includes \$50,000,000 for the Workforce Innovation Fund.

The conference agreement includes new language that provides that funding previously made available under Public Law 112-10 designated for young parents training grants may be used for research and implementation activities related to the VOW to Hire Heroes Act of 2011 and other pilots, demonstrations, and research activities.

The conferees note that the National Guard's Youth Challenge program at the Department of Defense provides a structured high school curriculum in a residential setting for 16- to 18-year old high school dropouts across 27 states. However, the success of this program is hindered by the lack of a formalized employment training component. As the Department of Labor has a long history with such endeavors, the conferees encourage the Secretary of Labor to work with the Department of Defense, providing technical assistance and guidance where needed, in establishing a vocational training component within the Youth Challenge program.

The conference agreement includes a directive for the Government Accountability Office to assess the capabilities of the Adult and Dislocated Worker Employment and Training programs to adequately prepare participants for currently available jobs. The study shall include, but is not limited to, the following:

1. An evaluation of the means by which Workforce Investment Act (WIA) local areas identify currently available jobs and the skills required for those jobs in potential growth sectors of the economy. This may include an evaluation of decisions by regional and local WIA areas and an assessment of the quality of available labor market information and job projections.

2. An evaluation of the means by which WIA local areas direct program participants to prepare or train for currently or soon-to-be available jobs in the WIA area. To the extent that prospects for employment are greater outside the WIA area, the evaluation will assess the extent to which WIA areas help the participants of the programs prepare or train for these jobs.

3. A compilation of any recommendations on how participants may be better prepared for current openings and for openings in growth sectors of the economy.

The conference agreement includes \$6,475,000 for the Workforce Data Quality Initiative.

**OFFICE OF JOB CORPS**

The conference agreement includes \$1,706,171,000 for the Office of Job Corps (OJC). The budget request includes \$1,033,747,000 in fiscal year 2012 funding and, in addition, \$666,000,000 in advance funding for fiscal year 2013. The conferees provide full funding for OJC in fiscal year 2012, eliminating the need for advance appropriations, and direct the Secretary of Labor to submit future budget requests for OJC without advance appropriations beginning with the fiscal year 2013 budget submission.

**COMMUNITY SERVICE EMPLOYMENT FOR OLDER AMERICANS**

The conference agreement includes \$449,100,000 for Community Service Employment for Older Americans.

**STATE UNEMPLOYMENT INSURANCE AND EMPLOYMENT SERVICE OPERATIONS**

The conference agreement includes \$4,094,672,000 for State Unemployment Insur-

ance and Employment Service Operations, including a total of \$60,000,000 to conduct in-person reemployment and eligibility assessments (REA) and unemployment insurance improper payment reviews.

The conference agreement for Unemployment Insurance (UI) State operations does not explicitly include funds for the expansion of REAs or for the new initiative requested for UI operations incentive grants for improved operations. Funds not required for workload should be used by the Department to increase REA funding and other activities to address improper payments, to fund State requests for technology improvement funding, and to initiate performance improvement grants.

The conference agreement does not include funding requested for expansion of the worker misclassification initiative.

**PROGRAM ADMINISTRATION**

The conference agreement includes \$147,360,000 for Program Administration.

The conference agreement does not include funding requested for expansion of the worker misclassification initiative.

**EMPLOYEE BENEFITS SECURITY ADMINISTRATION**

**SALARIES AND EXPENSES**

The conference agreement includes \$183,500,000 for the Employee Benefits Security Administration.

**WAGE AND HOUR DIVISION**

**SALARIES AND EXPENSES**

The conference agreement includes \$227,491,000 for the Wage and Hour Division.

The conference agreement does not include funding requested for expansion of the worker misclassification initiative.

**OFFICE OF FEDERAL CONTRACT COMPLIANCE PROGRAMS**

**SALARIES AND EXPENSES**

The conference agreement includes \$105,386,000 for the Office of Federal Contract Compliance Programs.

The conference agreement does not include funding requested for expansion of the worker misclassification initiative.

**OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION**

**SALARIES AND EXPENSES**

The conference agreement includes \$565,857,000 for the Occupational Safety and Health Administration (OSHA).

The conferees note that OSHA's National Emphasis Program (NEP) on Recordkeeping has been underway since October, 2009, to assess the accuracy of injury and illness data recorded by employers. The conferees direct the Secretary of Labor to submit a report, not later than 90 days after enactment of this Act, to the Committees on Appropriations of the House and the Senate detailing the findings of this NEP, as well as other Department activities, related to the accuracy of employer reporting of injury and illness data.

**MINE SAFETY AND HEALTH ADMINISTRATION**

**SALARIES AND EXPENSES**

The conference agreement includes \$374,000,000 for the Mine Safety and Health Administration (MSHA).

The conference agreement provides sufficient funding to improve MSHA's emergency response operations and rescue capabilities through the upgrade of emergency response equipment and the purchase and deployment of new underground mine rescue communications systems for mine rescue teams, continue making progress on the elimination of

the backlog of mine safety and health appeals, support the reorganization and strengthening of the Office of Accountability within the assessments line, upgrade the Mt. Hope laboratory, continue the coal dust spot inspection program, and acquire continuous personal dust monitors for MSHA personnel.

#### BUREAU OF LABOR STATISTICS

##### SALARIES AND EXPENSES

The conference agreement includes \$610,224,000 for the Bureau of Labor Statistics (BLS).

##### GENERAL PROVISIONS

##### JOB CORPS COMPENSATION

The conference agreement modifies a provision that prohibits the use of Job Corps funding from being used to compensate an individual at a rate in excess of Executive Level II.

##### AMERICAN COMPETITIVENESS AND WORKFORCE IMPROVEMENT ACT

The conference agreement modifies a provision relating to grants made from the Department of Labor under the authority of the American Competitiveness and Workforce Improvement Act.

##### EMPLOYMENT AND TRAINING ADMINISTRATION COMPENSATION

The conference agreement modifies a provision to prohibit the use of funds provided to the Employment and Training Administration for the compensation of any individual at a rate in excess of Executive Level II.

##### TRANSFER AUTHORITY FOR TECHNICAL ASSISTANCE SERVICES

The conference agreement modifies a provision providing the Secretary of Labor with the authority to transfer funds made available to the Employment and Training Administration by this Act, or by Public Law 112-10, for technical assistance services to Program Administration.

##### DEFINITION OF FIDUCIARY REGULATION

The conference agreement includes a new provision relating to the "Definition of Fiduciary" regulation being developed by the Employee Benefits Security Administration (Regulatory Identification Number 1210-AB32). The conferees understand that it is the Secretary of Labor's intention to formally withdraw this proposed rule upon the issuance of a new notice of proposed rulemaking (NPRM). This section shall not be construed as preventing the Secretary from publishing a new or revised NPRM relating to the definition of a fiduciary, provided that interested parties and stakeholders are afforded a sufficient opportunity to review and comment on the proposed rulemaking.

##### WAGE METHODOLOGY FOR THE TEMPORARY NON-AGRICULTURAL EMPLOYMENT H-2B PROGRAM REGULATION

The conference agreement modifies a provision relating to the "Wage Methodology for the Temporary Non-Agricultural Employment H-2B Program" regulation published by the Employment and Training Administration.

##### OCCUPATIONAL INJURY AND ILLNESS RECORDING AND REPORTING REQUIREMENTS—MUSCULOSKELETAL DISORDERS (MSD) COLUMN REGULATION

The conference agreement includes a new provision relating to the "Occupational Injury and Illness Recording and Reporting Requirements—Musculoskeletal Disorders (MSD) Column" regulation being developed by the Occupational Safety and Health Administration.

##### LOWERING MINERS' EXPOSURE TO COAL MINE DUST, INCLUDING CONTINUOUS PERSONAL DUST MONITORS REGULATION

The conference agreement includes a new provision relating to the "Lowering Miners' Exposure to Coal Mine Dust, Including Continuous Personal Dust Monitors" regulation being developed by the Mine Safety and Health Administration (MSHA). This section is not intended to restrict MSHA's ability to enforce the current rule while this section is in effect or address any compliance assistance or training needs arising from the publication of the final rule during the effective period of this section.

##### OVERTIME EXEMPTIONS FOR SERVICE ADVISORS IN AUTOMOTIVE DEALERSHIPS

The conference agreement includes a new provision relating to overtime exemptions as defined by the Fair Labor Standards Act.

#### TITLE II

#### DEPARTMENT OF HEALTH AND HUMAN SERVICES

##### HEALTH RESOURCES AND SERVICES ADMINISTRATION

The conference agreement includes \$6,450,534,000 for the Health Resources and Services Administration (HRSA). In addition, \$25,000,000 is made available under section 241 of the Public Health Service (PHS) Act.

The conference agreement includes bill language that divides HRSA into several accounts to improve transparency and accountability. The conferees direct that future budget requests reflect this new structure.

##### PRIMARY HEALTH CARE

The conference agreement includes \$1,598,957,000 for Primary Health Care.

##### HEALTH WORKFORCE

The conference agreement includes \$734,402,000 for Health Workforce.

Within the funds provided for Training in Oral Health Care, the conferees include \$7,563,000 each for general and pediatric dentistry.

The conference agreement includes language prohibiting health workforce funds to be used for section 340G-1, the Alternative Dental Health Care Providers Demonstration programs.

Within the funds provided for Public Health and Preventive Medicine Programs, the conferees direct HRSA to fund preventive medicine residencies at no less than fiscal year 2011 levels. The conferees have provided sufficient funding for a national coordinating center and \$2,500,000 for grants to incorporate competency-based integrative medicine curricula in graduate medical education.

Within the funds for Advanced Education Nursing, the conferees direct HRSA to allocate funding for nurse anesthetist education at no less than fiscal year 2011 levels.

##### MATERNAL AND CHILD HEALTH

The conference agreement includes \$863,607,000 for Maternal and Child Health.

The conference agreement includes bill language setting aside \$79,586,000 for Special Projects of Regional and National Significance (SPRANS). The agreement includes sufficient funding to continue State grants and the set-asides for oral health, epilepsy, sickle cell, and fetal alcohol syndrome at no less than fiscal year 2011 levels.

Within the funding provided for the Autism and Other Related Developmental Disorders program, the conferees direct HRSA to fund the Leadership Education in

Neurodevelopmental and Related Disabilities (LEND) program at no less than fiscal year 2011 levels.

##### RYAN WHITE HIV/AIDS PROGRAMS

The conference agreement includes \$2,351,665,000 for Ryan White HIV/AIDS Programs, of which \$2,326,665,000 is provided as budget authority and \$25,000,000 is made available under section 241 of the Public Health Service Act.

The conferees intend that HRSA allocate funds for the Minority AIDS Initiative within the Ryan White HIV Programs at no less than the fiscal year 2011 funding level.

##### HEALTH CARE SYSTEMS

The conference agreement includes \$83,526,000 for Health Care Systems.

##### RURAL HEALTH

The conference agreement includes \$139,832,000 for Rural Health.

*Rural Outreach Models.*—The conferees recognize the continuing challenges facing rural communities in providing adequate healthcare services. The conferees urge HRSA to consider projects that demonstrate new and innovative models of outreach in rural areas, such as the integration and coordination of health services; the utilization of technologies to improve access to health services; distance education for health professionals; and activities that improve mental healthcare services in rural areas.

##### FAMILY PLANNING

The conference agreement includes \$297,400,000 for Family Planning.

##### PROGRAM MANAGEMENT

The conference agreement includes \$161,815,000 for Program Management.

##### CENTERS FOR DISEASE CONTROL AND PREVENTION

The conference agreement includes \$5,667,735,000 in discretionary appropriations for the Centers for Disease Control and Prevention (CDC). In addition, \$371,357,000 is made available under section 241 of the Public Health Service (PHS) Act.

The conference agreement includes bill language that divides CDC into several accounts to improve transparency and accountability. The conferees direct that future budget requests, to include the fiscal year 2013 budget request, reflect this new structure. Further, the conferees direct CDC to provide additional programmatic information in budget justifications beginning in fiscal year 2014. This information shall be included for every activity identified in this Statement of the Managers and shall include: a short description of the nature of CDC's work on a particular subject; the number of new and continuing grants made; the average grant size; and a State-by-State table for any formula-based funding. The conferees understand that the fiscal year 2013 justification is already in draft form; therefore, the conferees expect an operating plan 90 days after enactment of this Act that details spending levels for all CDC budget lines included in this Statement of the Managers.

*Extramural Research.*—The conferees request a report from CDC by March 1 of each year that details the breakdown of intramural and extramural funding for each program of the various offices and centers at CDC. This report shall include the amount of funding in each Center dedicated to administrative activities.

##### IMMUNIZATION AND RESPIRATORY DISEASES

The conference agreement includes \$579,375,000 for Immunization and Respiratory Diseases. In addition, \$12,864,000 is

made available under section 241 of the PHS Act.

Within the program level total for Immunization and Respiratory Diseases, the conference agreement includes the following amounts:

Budget Activity	Conference
Section 317 Immunization Program .....	\$369,553,000
Program Operations .....	63,005,000
National Immunization Survey .....	12,864,000
Influenza .....	159,681,000

#### HIV/AIDS, VIRAL HEPATITIS, SEXUALLY TRANSMITTED DISEASES AND TUBERCULOSIS PREVENTION

The conference agreement includes \$1,105,995,000 for HIV/AIDS, Viral Hepatitis, Sexually Transmitted Diseases and Tuberculosis Prevention.

Within the total for HIV/AIDS, Viral Hepatitis, Sexually Transmitted Diseases, and Tuberculosis Prevention, the conference agreement includes the following amounts:

Budget Activity	Conference
Domestic HIV/AIDS Prevention and Research .....	
HIV Prevention by Health Departments .....	\$336,912,000
HIV Surveillance .....	117,667,000
National/Regional/Local/Community/Other .....	138,059,000
Enhanced HIV Testing .....	65,401,000
Improving Program Effectiveness .....	102,406,000
School Health .....	30,000,000
Viral Hepatitis .....	19,784,000
Sexually Transmitted Diseases .....	154,666,000
Tuberculosis .....	141,100,000

Within the total for Domestic HIV/AIDS Prevention and Research programs, the conference agreement provides funding at no less than the fiscal year 2011 level to support activities that are targeted to address the growing HIV/AIDS epidemic and its disparate impact on communities of color, including African Americans, Latinos, Native Americans, Asian Americans, Native Hawaiians, and Pacific Islanders.

#### EMERGING AND ZOONOTIC INFECTIOUS DISEASES

The conference agreement includes \$253,919,000 for Emerging and Zoonotic Infectious Diseases.

Within the total for Emerging and Zoonotic Infectious Diseases, the conference agreement includes the following amounts:

Budget Activity	Conference
Vector-borne Diseases .....	\$23,232,000
Lyme Disease .....	8,773,000
Food Safety .....	27,172,000
Prion Disease .....	5,000,000
Chronic Fatigue Syndrome .....	4,737,000
Emerging Infectious Diseases .....	124,151,000
National Healthcare Safety Network .....	14,872,000
Quarantine .....	26,032,000

**Lyme Disease.**—The conferees encourage CDC to expand its activities related to developing sensitive and more accurate diagnostic tools and tests for Lyme disease, including the evaluation of emerging diagnostic methods and improving utilization of diagnostic testing to account for the multiple clinical manifestations of acute and chronic Lyme disease. CDC is encouraged to expand its epidemiological research activities on tick-borne diseases, to include an objective to determine the long-term course of illness for Lyme disease and to improve surveillance and reporting of Lyme and other tick-borne diseases in order to produce more accurate data on their prevalence. Finally, the conferees encourage CDC to evaluate the feasibility of developing a national reporting system on Lyme disease, including laboratory reporting; and to expand prevention of Lyme and tick-borne diseases through increased community-based public education and cre-

ating a physician education program that includes the full spectrum of scientific research on the diseases.

#### CHRONIC DISEASE PREVENTION AND HEALTH PROMOTION

The conference agreement includes \$760,700,000 for Chronic Disease Prevention and Health Promotion.

Within the total for Chronic Disease Prevention and Health Promotion, the conference agreement includes the following amounts:

Budget activity	Conference
Tobacco .....	108,685,000
Nutrition, Physical Activity, and Obesity .....	34,189,000
School Health .....	13,600,000
Food Allergies .....	488,000
Health Promotion .....	17,682,000
Community Health Promotion .....	6,141,000
Glaucoma .....	3,337,000
Visual Screening Education .....	511,000
Alzheimer's Disease .....	1,812,000
Inflammatory Bowel Disease .....	680,000
Interstitial Cystitis .....	654,000
Excessive Alcohol Use .....	2,454,000
Chronic Kidney Disease .....	2,093,000
Prevention Research Centers .....	18,001,000
Heart Disease and Stroke .....	55,284,000
Diabetes .....	64,796,000
Cancer Prevention and Control .....	350,332,000
Breast and Cervical Cancer .....	206,001,000
WISEWOMAN .....	20,745,000
Breast Cancer Awareness for Young Women .....	4,908,000
Cancer Registries .....	50,295,000
Colorectal Cancer .....	43,070,000
Comprehensive Cancer .....	20,313,000
Johanna's Law .....	5,000,000
Ovarian Cancer .....	4,909,000
Prostate Cancer .....	13,188,000
Skin Cancer .....	2,150,000
Cancer Survivorship Resource Center .....	498,000
Oral Health .....	14,726,000
Safe Motherhood/Infant Health .....	44,049,000
Other Chronic Diseases .....	25,338,000
Arthritis .....	13,075,000
Epilepsy .....	7,801,000
National Lupus Patient Registry .....	4,462,000
Community Grants .....	14,018,000
Healthy Communities .....	0
REACH .....	14,018,000

The conferees expect the Office of Smoking and Health to transfer no less than the amount it did in fiscal year 2011 to the Environmental Health Laboratory. The conferees intend that this transfer is to be provided to the lab in a manner that supplements and in no way replaces existing funding for tobacco-related activities.

The conferees are pleased to learn that CDC has decided to retain the Division of Oral Health. This action is supported by a recent Institute of Medicine (IOM) report titled "Advancing Oral Health in America" that recommends oral health be given a high priority within HHS. This decision will allow CDC to focus on the prevention and elimination of oral disease, support state oral health infrastructure programs, and improve the coordination of oral health activities with other chronic disease prevention activities.

#### BIRTH DEFECTS AND DEVELOPMENTAL DISEASES

The conference agreement includes \$138,072,000 for birth defects and developmental diseases.

The conferees have rejected the consolidation proposed in the fiscal year 2012 budget for disability initiatives in the National Center on Birth Defects and Developmental Disabilities (NCBDDD). The conferees direct that any new consolidation put forward by the administration be accompanied by an assessment of the needs of people with disabilities that includes the categories of disabilities currently served, validates the value of such a consolidation, considers the input of stakeholders, and establishes the basis for any proposed efficiencies and commonalities.

Within the total for Birth Defects and Developmental Diseases, the conference agreement includes the following amounts:

Budget activity	Conference
Child Health and Development .....	\$62,295,000
Birth Defects .....	20,304,000
Craniofacial Malformation .....	1,809,000
Fetal Death .....	808,000
Fetal Alcohol Syndrome .....	9,891,000
Folic Acid .....	2,795,000
Infant Health .....	7,925,000
Autism .....	21,380,000
Health and Development for People with Disabilities .....	56,920,000
Disability & Health (incl. Child Development) .....	17,893,000
Limb Loss .....	2,836,000
Tourette Syndrome .....	1,701,000
Early Hearing Detection and Intervention .....	10,672,000
Muscular Dystrophy .....	5,865,000
Paralysis Resource Center .....	6,739,000
Attention Deficit Hyperactivity Disorder .....	1,718,000
Fragile X .....	1,684,000
Spina Bifida .....	5,812,000
Congenital Heart Failure .....	2,000,000
Public Health Approach to Blood Disorders .....	18,857,000
Hemophilia .....	16,670,000
Thalassemia .....	1,861,000

**Congenital Heart Disease.**—The conferees are concerned that there is a lack of rigorous epidemiological and longitudinal data on individuals of all ages with congenital heart disease and has included funding to begin to compile this information. The conferees are particularly interested in information on prevalence, barriers to effective care, survival outcomes and neurocognitive outcomes.

#### PUBLIC HEALTH SCIENTIFIC SERVICES

The conference agreement includes \$144,795,000 for public health scientific services. In addition, \$247,769,000 is made available under section 241 of the PHS Act.

Within the total for Public Health Scientific Services, the conference agreement includes the following amounts:

Budget activity	FY 2012 Committee
Health Statistics .....	138,683,000
Surveillance, Epidemiology, and Informatics .....	217,747,000
Public Health Workforce .....	36,134,000

The conferees remain supportive of the Primary Immunodeficiency Education and Awareness Program. The program has successfully leveraged federal money and private contributions to improve the quality of life for these patients.

#### ENVIRONMENTAL HEALTH

The conference agreement includes \$105,598,000 for environmental health programs.

Within the total for Environmental Health, the conference agreement includes the following amounts:

Budget activity	Conference
Environmental Health Laboratory .....	\$42,628,000
Newborn Screening Quality Assurance Program .....	6,865,000
Newborn Screening /Severe Combined Immuno. Diseases .....	970,000
Environmental Health Activities .....	35,526,000
Safe Water .....	7,150,000
Volcanic Emissions .....	197,000
Environmental and Health Outcome Tracking .....	0
Amyotrophic Lateral Sclerosis (ALS) Registry .....	5,903,000
Climate Change .....	7,401,000
Built Environment and Health Initiative .....	2,634,000
Asthma .....	25,444,000
Lead Poisoning .....	2,000,000

The conferees direct CDC to continue its support of the National Asthma Control Program as currently structured.

The conferees intend that the funds provided for the CDC lead poisoning program be used to maintain expertise and analysis at the national level and to provide a resource for States and localities.

#### INJURY PREVENTION AND CONTROL

The conference agreement includes \$138,480,000 for injury prevention and control activities.

Within the total for Injury Prevention and Control, the conference agreement includes the following amounts:

Budget activity	Conference
Intentional Injury .....	\$93,690,000
Domestic Violence and Sexual Violence .....	31,315,000
Child Maltreatment .....	6,974,000
Youth Violence Prevention .....	15,000,000
Domestic Violence Community Projects .....	5,423,000
Rape Prevention .....	39,474,000
Unintentional Injury .....	31,315,000
Traumatic Brain Injury .....	6,039,000
Elderly Falls .....	1,963,000
Injury Control Research Centers .....	9,996,000
National Violent Death Reporting System .....	3,479,000

#### NATIONAL INSTITUTE FOR OCCUPATIONAL SAFETY AND HEALTH

The conference agreement includes \$182,903,000 for Occupational Safety and Health. In addition, \$110,724,000 is made available under section 241 of the PHS Act.

Within the total for Occupational Safety and Health, the conference agreement includes the following amounts:

Budget activity	FY 2012 Committee
Education and Research Centers .....	\$24,321,000
Personal Protective Technology .....	16,828,000
Healthier Workforce Centers .....	5,026,000
National Occupational Research Agenda .....	111,367,000
Mining Research .....	52,687,000
Other Occupational Safety and Health Research .....	83,398,000
Miners Choice .....	647,000
National Mesothelioma Registry and Tissue Bank .....	1,022,000

Within the total for the National Occupational Research Agenda, the conferees provide no less than fiscal year 2011 levels for the Agriculture, Forestry, and Fishing Program.

#### ENERGY EMPLOYEES OCCUPATIONAL ILLNESS COMPENSATION PROGRAM

The conference agreement includes \$55,358,000 for CDC's responsibilities with respect to the Energy Employee Occupational Illness Compensation Program.

#### GLOBAL HEALTH

The conference agreement includes \$349,547,000 for global health activities.

Within the total for Global Health, the conference agreement includes the following amounts:

Budget activity	FY 2012 Committee
Global AIDS Program .....	\$118,023,000
Global Immunization Program .....	160,854,000
Polio Eradication .....	111,597,000
Other Global/Measles .....	49,257,000
Global Disease Detection and Emergency Response .....	41,902,000
Parasitic Diseases/Malaria .....	19,467,000
Global Public Health .....	9,301,000

#### PUBLIC HEALTH PREPAREDNESS AND RESPONSE

The conference agreement includes \$1,306,906,000 for public health preparedness and response activities.

Within the total for Public Health Preparedness and Response, the conference agreement includes the following amounts:

Budget activity	Conference
Public Health Emergency Preparedness Cooperative Agreements .....	\$643,069,000
Centers for Public Health Preparedness .....	7,997,000
Advanced Practice Centers .....	0
All Other State and Local Capacity .....	7,784,000
CDC Preparedness and Response .....	138,570,000
BioSense .....	20,772,000
Lab Reporting .....	8,092,000
Strategic National Stockpile .....	509,486,000

#### CDC-WIDE ACTIVITIES

The conference agreement includes \$621,445,000 for CDC-wide activities.

Within the total for CDC-Wide Activities, the conference agreement includes the following amounts:

Budget activity	FY 2012 Committee
Preventive Health/Health Services Block .....	\$80,000,000

Budget activity	FY 2012 Committee
Business Services Support .....	397,026,000
Buildings and Facilities .....	25,000,000
Public Health Leadership .....	119,419,000

The conference agreement includes language making Vessel Sanitation Program user fees available through September 30, 2013.

**Working Capital Fund.**—The conferees have included bill language that allows CDC to begin creating a Working Capital Fund (WCF) to achieve greater cost efficiencies across the administrative operations of the agency. The conferees expect this WCF to begin making disbursements no sooner than fiscal year 2014. CDC shall notify the House and Senate Committees on Appropriations prior to any funds being transferred to or deposited in the WCF.

The conferees direct CDC to create a strong auditing system for the WCF, which shall include annual auditing of the calculation by which programs are charged to ensure that WCF funds are used solely for administrative costs and that CDC Centers and Offices are not over-charged for services. The conferees instruct that the structure of the WCF shall assume no more than a 2 year availability of any funds within it, that no construction of facilities shall be allowable costs, and that all allowable costs are clearly defined. The conferees further direct that the governance system be designed to include a role for all Center Directors in overseeing the costs incurred. The Committees on Appropriations expect quarterly briefings on the progress being made in drafting the charter and the methodology being used to set up the WCF.

Within the amount provided for Business Services, the conferees have made \$30,000,000 available until September 30, 2013.

#### NATIONAL INSTITUTES OF HEALTH

The conference agreement includes \$30,689,990,000 for the accounts that comprise the National Institutes of Health (NIH) total appropriation. This total does not include any funding for the Global Fund to Fight AIDS, Tuberculosis and Malaria; the conferees understand that all fiscal year 2012 funding for the Global Fund is provided through Division I (Department of State, Foreign Operations, and Related Programs). The conference agreement continues the allocation to NIH of \$8,200,000 in program evaluation set-aside funding. Appropriation levels for individual institutes and centers are described in the table at the end of this statement of managers.

The conferees recognize NIH's mission to invest in basic biomedical research and apply that knowledge to enhance our Nation's health and well-being, lengthen life, and reduce the burdens of illness and disability. NIH is strongly urged to ensure its policies continue to support a robust extramural community and make certain sufficient research resources are available to the more than 300,000 NIH-supported scientists at over 3,100 institutions across the country. The conferees affirm the critical importance of new and competing research project grants (RPGs) to the mission of NIH and are concerned that in the past few years, NIH has failed to support the number of new, competing RPGs that it estimated would be awarded in its annual congressional budget justifications. The conferees expect NIH to evaluate its new grant-estimating methodology to improve its accuracy and support as many scientifically meritorious new and competing RPGs as possible, at a reasonable

award level, with the funding provided in this Act.

In recent years, extramural research has accounted for nearly 90 percent of NIH's budget. The conferees strongly urge NIH to maintain at least that level in fiscal year 2012. NIH should also establish safeguards to ensure the percentage of funds used to support basic research across NIH is maintained.

The Office of the Director (OD) shall ensure, as practicable, the programs and offices within OD receive increases proportional to the overall increase, unless otherwise specified. The conferees request quarterly notification on obligations from the NIH Director's Discretionary Fund to the Committees on Appropriations of the House of Representatives and the Senate.

The conferees expect NIH to continue the long-standing policy for Common Fund projects to be short-term, high-impact awards, with no projects receiving funding for more than 10 years. The conferees recognize that certain investigator-initiated programs such as Pioneer Awards may be exceptions to the 10-year limit. Any other proposed exceptions should be explained in the fiscal year 2013 congressional budget justification.

The conference agreement includes language to eliminate the National Center for Research Resources (NCRR) and create the National Center for Advancing Translational Sciences (NCATS).

NCATS will study steps in the therapeutics development and implementation process, consult with experts in academia and the biotechnology and pharmaceutical industries to identify bottlenecks in the processes that are amenable to re-engineering, and develop new technologies and innovative methods for streamlining the processes. In order to evaluate these innovations and new approaches, NCATS will undertake targeted therapeutics development and implementation projects. In all of these efforts, the conferees expect that NCATS will complement, not compete with, the efforts of the private sector.

While the conferees welcome the creation of NCATS, they were disappointed by the way the administration requested it. The President's proposed budget for fiscal year 2012 included a vague description of NCATS but did not formally request funding for the restructuring or provide any details about which components of NIH would be consolidated into the new Center. The failure to do so caused unnecessary uncertainty about the proposal and contributed to the impression that it was being rushed. The conferees are also aware of concerns that the NIH process for evaluating the merits of the NCATS reorganization did not comply with the NIH Reform Act of 2006 with respect to the role of the Scientific Management Review Board (SMRB).

Lessons learned with NCATS should guide NIH as it considers another proposed restructuring, one that would involve consolidating NIDA, NIAAA and components of other Institutes and Centers (ICs) into a new Institute devoted to research on substance use, abuse and addiction. The conferees understand that this approach should include full consideration by the SMRB and that if the administration ultimately decides to seek such a restructuring, it should provide sufficient details in a formal budget request to Congress.

The following table provides the specific funding levels for the institutes and centers

and displays the comparable adjustments related to the reorganization.

	(Dollars in thousands)	FY 2011 Enacted*	Reallocation of resources	FY 2011 reorganization comparable	FY 2012 enacted

Cures Acceleration Network (CAN) .....			0		

Note: The FY 2011 enacted level does not include transfers.

*Cures Acceleration Network (CAN).*—The conferees provide NCATS with up to \$10,000,000 to support the CAN Board and related activities. The conferees expect a high bar for any use of waiver authority for CAN grant matching funds; any use should be extremely limited to maximize funds towards the CAN goals. The conferees encourage the CAN Board to create general principles and measurable outcomes to track success. The conferees request NCATS to charter an Institute of Medicine (IOM) work group to review, evaluate, and identify issues related to the CAN authority and provide a report for use

by the CAN Board to help it identify ways to accelerate and expand the number of cures. The report should include a survey and inventory of activities at NIH, FDA, AHRQ, CDC, the Patent and Trademark Office (PTO), and in the private sector that relate to the CAN program. The conferees urge IOM to include balanced participation by the entities listed above as well as the representatives of the pharmaceutical and biotechnology industry and the biotech venture capital community. The report should address patent authority, marketability, use of high-throughput analysis, regulatory

timelines, and cost structure issues related to the purpose of CAN.

*Accelerating Commercialization of Therapies to Patients.*—The conferees understand the need to develop models to assist research universities and institutes on the best ways to leverage and commercialize federally supported basic and applied biomedical research discoveries. This is a key reason why the conferees have agreed to create NCATS. The conferees note the market has started to develop public-private sector models that are beginning to show results in translating

basic research far more quickly than traditional models. These types of models use pre-defined technology-licensing terms to rapidly license new products and build a core of options for commercialization partnerships with pharmaceutical and biotechnology companies to establish joint ventures to further advance products to the market. The conferees strongly urge NIH to study and foster these models.

The conferees expect any NIH-supported partnerships to expand translational pharmaceutical development in a manner that does not inhibit creative market models. Top priorities of the Center should include developing tools to improve the “de-risking” process and advancing the drug development process to the point at which it can reasonably be expected to be picked up by the private sector. The conferees suggest the selection of Center projects should consider future market acceptance as one component of the criteria to evaluate and select potential Center projects. The conferees direct NIH to host a trans-NIH workshop with key research organizations, venture capitalists, pharmaceutical firms, the PTO, the FDA, and a sample of research universities and institutes to work together with NIH and the drug development market. The workshop should also consider how existing NIH and government mechanisms can be used to encourage models around the country to speed commercialization of therapies through a market-based approach.

*Clinical and Translational Science Awards (CTSAs).*—The conferees are encouraged by the success of the CTSA consortium and recommend the program receive full funding as it nears full implementation. The conferees expect the NCATS Director to ensure the current focus on the full spectrum of translational research is maintained, and CTSA resources are not diverted. The inclusion of patient-centered research, community engagement, training, dissemination science, and behavioral research is extremely important to the translation and application of basic science discoveries and success of the CTSAs. CTSAs now represent an investment of half a decade of innovation in translational research. To ensure the benefits of this investment are maintained, the conferees urge NIH to support a study by the IOM that would evaluate the CTSA program and recommend whether changes to the current mission are needed. The review should include stakeholders’ input and be available no later than 18 months after the enactment of this bill.

*Therapeutics for Rare and Neglected Disease (TRND) Program.*—The conferees continue support for TRND at a level of \$24,000,000 within NCATS. The conferees urge NIH to provide an annual report on the TRND program that identifies the number of projects started each year, cost per project, and the outcome of each project. The first report should be provided to the Committees on Appropriations by July 1, 2012.

*Institutional Development Awards.*—The conferees provide \$276,480,000 to increase support for the Institutional Development Awards (IDeA) program. The conferees recognize the importance of the Centers of Biomedical Research Excellence (COBRE) and the IDeA Networks of Biomedical Research Excellence (INBRE) programs. The conferees believe the IDeA program has made a significant contribution to biomedical research and creating a skilled workforce. Therefore, the conferees provide a \$45,882,000 increase and recommend it be divided equally toward a new COBRE competition and to support new

awards for the IDeA Clinical Trial and Translation Program to develop infrastructure for clinical and translational research in IDeA States. The conferees encourage the NIH Director to expand the program to support co-funding of IDeA projects across NIH ICs to foster the development of efforts in IDeA State programs. Further, as an Office of Experimental Program to Stimulate Competitive Research (EPSCoR) program, the focus of IDeA should continue to be on improving the necessary infrastructure and strengthening the biomedical research capacity and capability of research institutions. Unfortunately, many institutions in EPSCoR-qualifying States who could benefit from the IDeA program are ineligible for funding. The conferees encourage NIH to revise current eligibility criteria to take into account how the decreasing success rate for R01 grants NIH-wide is affecting IDeA eligibility. In particular, the conferees believe the IDeA Director should have the authority to consider funding institutions in any State that is EPSCoR eligible. The conferees urge NIH to develop criteria to incorporate flexibility into the program to address these concerns. The conferees request an update on both the IDeA eligibility criteria proposals and funding level by State and major activities, to include the co-funding activity, in the fiscal year 2013 congressional budget justification.

*Third Party Collections 3-Year Pilot.*—Since fiscal year 1997, Congress has included bill language authorizing NIH to “collect third party payments for the cost of clinical services that are incurred in NIH research facilities.” NIH has not yet exercised that authority. A recent study released in September that was conducted by PricewaterhouseCoopers LLP (PwC) found that there are numerous potential advantages as well as potential disadvantages to implementing a third party billing program. “The potential use of third party billing represents a significant investment and enduring change for the NIH Clinical Center,” the study states. “As such, additional efforts beyond the 14-week study represented in this report may be undertaken to more fully consider the challenges associated with the use of third party billing and the opportunities that may exist.” The conferees concur with this observation and therefore direct NIH to conduct a 3-year pilot study to assess the viability of third party reimbursement at NIH by looking at one of the services commonly used by a significant number of outpatients at some point in the patient’s protocol. One possible example would be radiology services, but this is not the only option. The Committees on Appropriations expect to be briefed on the proposed subject area and scope of the pilot before it is finalized. The conferees include \$10,000,000 for the Clinical Center for the costs of building the billing infrastructure for the pilot.

*Neuroblastoma.*—The conferees note the promising results of a recent clinical trial using a chimeric antibody to treat newly diagnosed neuroblastoma patients. The conferees support efforts to facilitate access to this new therapy for relapsed patients and request an update in the fiscal year 2013 congressional budget request.

*Clinical Trials.*—The conferees are aware of a 2010 IOM study on clinical trials that identified a number of concerns which may apply across all ICs.

The conferees direct NIH to conduct a trans-NIH review of the applicability of the 12 IOM recommendations to all NIH ICs that conduct clinical trials. The review should ex-

amine ways to develop and strengthen NIH-wide policies with a focus on opportunities to improve the incorporation of innovative science, increase speed of initiation and completion, improve the means of setting priorities, and develop better incentives for participation in clinical trials.

The conferees note the report found it takes over 900 days to open a clinical trial, but trials supported through the American Recovery and Reinvestment Act developed methods to open studies within 90 days. The conferees encourage NIH to consider guidance to incorporate the 90-day opening model into other NIH-wide clinical trial activity.

The review should examine the policies of each IC regarding funding for variable accrual costs per case, and ensure consistent guidelines across NIH. Specifically, the review should examine the viability and effect on speed of opening trials of a multi-tier system in which payments for cost-per-accrual vary according to the time required to open the trial. Furthermore, the review should examine the methods and processes ICs use to prioritize clinical trials based on peer-review input, funding, and other ways to optimize selection of studies.

The conferees request a report by September 30, 2012, that identifies the findings, proposed policy changes, implementation timeline, and key measures NIH will use to monitor clinical trial activity.

SUBSTANCE ABUSE AND MENTAL HEALTH SERVICES ADMINISTRATION

The conference agreement includes \$3,354,313,000 for the Substance Abuse and Mental Health Services Administration (SAMHSA). In addition, the conference agreement makes available \$129,667,000 under section 241 of the Public Health Service (PHS) Act.

The conference agreement includes bill language that divides SAMHSA into several accounts to improve transparency and accountability. The conferees direct that future budget requests, to include the fiscal year 2013 budget request, reflect this new structure. Further, the conferees direct SAMHSA to include in its budget justification the specific funding increases, decreases and FTE changes being requested by program, project or activity, along with a detailed description of activities funded under each program, the number of new and continuing grants made; the average grant size; and a State-by-State table for any formula-based funding for all budget lines included in this Statement of the Managers. The conferees expect that SAMHSA shall not make changes to any program, project, or activity as outlined by the budget tables included in this Statement of the Managers without prior notification to the House and Senate Committees on Appropriations.

The conferees have provided funding for Programs of Regional and National Significance under each of SAMHSA’s statutorily-created Centers rather than consolidate funding into a single account for Innovation and Emerging Issues, as proposed in the budget request.

MENTAL HEALTH

The conference agreement includes \$934,853,000 for Mental Health. In addition, \$21,039,000 is made available under section 241 of the PHS Act.

Within the total provided for Mental Health Programs of Regional and National Significance, the conference agreement includes the following amounts:

Budget activity	Conference
Capacity:	

Budget activity	Conference
Co-Occurring State Incentive Grant .....	0
Seclusion & Restraint .....	2,449,000
Youth Violence Prevention .....	23,200,000
National Traumatic Stress Network .....	45,800,000
Children and Family Programs .....	6,486,000
Consumer and Family Network Grants .....	6,236,000
MH System Transformation and Health Reform .....	10,623,000
Project LAUNCH .....	34,706,000
Primary and Behavioral Health Care Integration .....	30,807,000
Community Resilience and Recovery Initiative .....	0
Suicide Lifeline .....	5,522,000
GLS—Youth Suicide Prevention—States .....	29,738,000
GLS—Youth Suicide Prevention—Campus .....	4,975,000
AI/AN Suicide Prevention Initiative .....	2,944,000
Homelessness Prevention Programs .....	30,830,000
Older Adult Programs .....	0
Minority AIDS .....	9,283,000
Criminal and Juvenile Justice Programs .....	6,684,000
Science and Service:	
GLS—Suicide Prevention Resource Center .....	4,957,000
Information Dissemination and Training .....	7,878,000
Consumer & Consumer Support I.A. Centers .....	1,927,000
Primary/Behavioral Health Integration TA .....	2,000,000
Minority Fellowship Program .....	5,099,000
Disaster Response .....	1,054,000
Homelessness .....	2,306,000
HIV/AIDS Education .....	774,000

Within the funds provided for the National Child Traumatic Stress Network, the conferees provide \$1,000,000 for continued data analysis and reports related to the National Center for Child Traumatic Stress core data set.

The conferees intend that funds provided to Project LAUNCH should not duplicate activities eligible for funding elsewhere in HHS.

The conferees intend that all grants awarded for the Primary and Behavioral Health Integration program are funded under the authorities in section 520(K) of the PHS Act. In addition, the conferees have provided \$2,000,000 under a separate budget line for SAMHSA to provide technical assistance related to this program.

Within the funds provided for the Minority Fellowship Program, the conferees have provided an increase in funding to allow SAMHSA to increase the pool of culturally competent mental health professionals by granting professional counselors eligibility to participate in the program.

#### SUBSTANCE ABUSE TREATMENT

The conference agreement includes \$2,123,993,000 for Substance Abuse Treatment. In addition, \$81,200,000 is made available under section 241 of the PHS Act.

Within the total provided for Programs of Regional and National Significance, the conference agreement includes the following amounts:

Budget activity	Conference
Capacity:	
Co-occurring State Incentive Grants (SIGs) .....	0
Opioid Treatment Programs/Regulatory Activities .....	8,903,000
Screening, Brief Intervention, Referral, & Treatment ..	28,237,000
TCE—General .....	28,033,000
Pregnant & Postpartum Women .....	16,000,000
Strengthening Treatment Access and Retention .....	1,675,000
Recovery Community Services Program .....	2,450,000
Access to Recovery .....	98,454,000
Children and Families .....	30,678,000
Treatment Systems for Homeless .....	41,650,000
Minority AIDS .....	65,988,000
Criminal Justice Activities .....	67,635,000
NASPER .....	0
Science and Service:	
Addiction Technology Transfer Centers .....	9,081,000
Minority Fellowship Program .....	547,000
Special Initiatives/Outreach .....	2,271,000

The conferees direct SAMHSA to ensure that Addiction Technology Transfer Centers continue to maintain a primary focus on addiction treatment and recovery services in order to strengthen the addiction workforce.

The conferees direct SAMHSA to ensure that all funding appropriated to the Center for Substance Abuse Treatment for drug treatment courts is allocated to serve people diagnosed with a substance use disorder as their primary condition.

The conferees direct SAMHSA to ensure that funds provided for SBIRT are used for existing evidence-based models of providing early intervention and treatment services to those at risk of developing substance abuse disorders.

#### SUBSTANCE ABUSE PREVENTION

The conference agreement includes \$186,361,000 for Substance Abuse Prevention.

Within the total provided for Programs of Regional and National Significance, the conference agreement includes the following amounts:

Budget activity	Conference
Capacity:	
Strategic Prevention Framework/Partnerships for Success .....	110,015,000
Mandatory Drug Testing .....	5,206,000
Minority AIDS .....	41,385,000
Sober Truth on Preventing Underage Drinking (STOP Act) .....	7,000,000
National Adult-Oriented Media Public Service Campaign .....	1,000,000
Community-based Coalition Enhancement Grants .....	5,000,000
Intergovernmental Coordinating Committee on the Prevention of Underage Drinking .....	1,000,000
Science and Service:	
Fetal Alcohol Spectrum Disorder .....	9,821,000
Center for the Application of Prevention Technologies ..	8,074,000
Science and Service Program Coordination .....	4,789,000
Minority Fellowship Program .....	71,000

The conferees direct SAMHSA to fund the remaining cohort of Strategic Prevention Framework State Incentive Grant grantees at amounts not less than what they received in fiscal year 2011.

The conferees note that building on the infrastructure of current and past Drug Free Communities grantees is an effective way to invest minimal federal dollars to address underage drinking issues at the community level.

#### HEALTH SURVEILLANCE AND PROGRAM SUPPORT

The conference agreement includes \$109,106,000 for health surveillance and program support activities. In addition, \$27,428,000 is made available under section 241 of the PHS Act.

The conferees have included \$3,500,000 to conduct Military Families Initiatives policy academies.

#### AGENCY FOR HEALTHCARE RESEARCH AND QUALITY

##### HEALTHCARE RESEARCH AND QUALITY

The conference agreement includes a program level of \$369,053,000 for the Agency for Healthcare Research and Quality. The conference agreement makes these funds available through section 241 of the Public Health Service (PHS) Act.

Within the total for the Crosscutting Activities Related to Quality, Effectiveness and Efficiency Research portfolio, the conferees provide \$43,364,000 for investigator-initiated research.

#### CENTERS FOR MEDICARE AND MEDICAID SERVICES

##### GRANTS TO STATES FOR MEDICAID

The conference agreement includes \$184,279,110,000 for the Federal share of current law State Medicaid costs. In addition, the agreement includes \$90,614,082,000 for program costs in the first quarter of fiscal year 2013.

#### PAYMENTS TO HEALTH CARE TRUST FUNDS

The conference agreement includes \$230,741,378,000 for the Payments to Health Care Trust Funds account.

#### PROGRAM MANAGEMENT

The conference agreement includes \$3,879,476,000 for the Program Management account. The agreement maintains the State

Health Insurance Assistance Program within the Program Management account. The conferees recommend the following levels within the Program Management account:

Program Management	
Research, Demonstration and Evaluation .....	\$21,200,000
Program Operations .....	2,663,935,000
State Survey and Certification .....	355,876,000
State High Risk Insurance Pools .....	44,000,000
Federal Administration .....	794,465,000

The conferees include funding for Research, Demonstration, and Evaluation activities, including the Medicare Current Beneficiary Survey. The conferees encourage CMS to review the programs within this account to determine if they are funded in the appropriate budget line. Specifically, CMS is encouraged to evaluate the advantages and disadvantages of moving the Medicare Current Beneficiary Survey into the Program Operations activity.

**Ambulatory Surgical Centers (ASC).**—The conferees understand that in 2008, ASCs provided 3.3 million Medicare recipients with outpatient surgical services, including screening services. The conferees have heard concerns related to the use of the consumer price index for urban consumers (CPI-U) to update the payment rates of ASCs, a different method than is used for other comparable service providers. The conferees request that CMS develop a report that compares other potential options for updating the payment rates of ASCs and report back the findings in the fiscal year 2013 budget request.

**CMS Test Environment for Testing Industry Solutions in Secure Settings.**—The conferees direct and provide \$5,000,000 for CMS to provide a test environment “sandbox” where vendors can work independently and with CMS to seek solutions and execute “proof of concept” tests to Medicare issues in a secure environment, using Medicare data, on CMS technical architecture. The conferees recommend support within the Enterprise IT Activities function to establish an isolated, stand-alone test environment for independent vendor testing of industry solutions that could provide significant benefit to CMS operations. The test environment will provide controlled access to Medicare data to run “proof of concept” tests that determine solution effectiveness in addressing Medicare issues such as improper payment and quality measurement. The test environment must ensure data privacy and security, comply with CMS technical architecture standards, provide temporary access and secure connectivity for vendor testing, and make relevant data sets available for product testing. The conferees request a report and timeline in the fiscal year 2013 budget request.

**Comparison of Residency Position.**—The conferees request CMS conduct an analysis evaluating the implementation of Section 5503 of Public Law 111–148 on the allocation of Medicare Graduate Medical Education (GME) resident slots to hospitals. This analysis shall compare how residency slots are allocated according to two assignment strategies. Strategy one is the allocation of GME slots according to the current final CMS Federal Rule as published in the *Federal Register* on November 24, 2010. The current final rule states that fiscal year 2009 report data not be included if it was reported after March 23, 2010. Strategy two involves an assessment of GME slot allocation which includes all fiscal year 2009 cost reports, including data for hospitals whose fiscal year ended on December 31, 2009, and as such have

cost data reported after March 23, 2010. The report of this analysis shall include the number of Medicare GME slots allocated to each hospital under the two different allocation strategies. The conferees request CMS provide the final report with the detailed hospital level information under each option to the House and Senate Appropriations Committees not later than 6 months after enactment.

**Dialysis Facilities.**—The conferees are concerned by reports of delays in the processing for surveys and certifications for dialysis facilities and encourage CMS to reduce the wait times. Further, the conferees request CMS report back to the Congress within 6 months on major impediments related to processing applications timely and provide its plan to address these impediments.

The conferees urge CMS to develop an overall strategic plan that links its vision for operations, program integrity, information technology, and other areas into a comprehensive approach with measurable objectives and resources. The conferees request a copy of this plan no later than 180 days after enactment.

#### HEALTH CARE FRAUD AND ABUSE CONTROL ACCOUNT

The conference agreement includes \$310,377,000 from the Medicare trust funds for the Health Care Fraud and Abuse Control Account.

#### ADMINISTRATION FOR CHILDREN AND FAMILIES LOW INCOME HOME ENERGY ASSISTANCE

The conference agreement includes \$3,478,246,000 for the Low Income Home Energy Assistance Program.

#### REFUGEE AND ENTRANT ASSISTANCE

The conference agreement includes \$769,789,000 for Refugee and Entrant Assistance programs.

Within the total provided for Transitional and Medical Services, the conferees include \$65,000,000 for the voluntary agency matching grant program.

Within the total for Unaccompanied Alien Children, the conference agreement includes up to \$6,100,000 for the pro bono legal services pilot to ensure legal representation for both released and detained children.

#### CHILD CARE AND DEVELOPMENT BLOCK GRANT

The conference agreement includes \$2,282,627,000 for the Child Care and Development Block Grant.

#### CHILDREN AND FAMILIES SERVICES PROGRAMS

The conference agreement includes \$9,926,709,000 for Children and Families Services Programs. In addition, \$5,762,000 is made available under section 241 of the Public Health Service (PHS) Act.

The conferees direct that not later than 120 days after enactment, ACF shall submit to the Committee on Health, Education, Labor and Pensions of the Senate and the Committee on Education and the Workforce of the House of Representatives the results of the study related to suspected and known instances of child abuse and neglect, as required under section 110(d) of the Child Abuse Prevention and Treatment Reauthorization Act of 2010.

The conference agreement includes up to \$10,000,000 for the Healthy Foods Financing Initiative within the Community Economic Development Program.

#### PROMOTING SAFE AND STABLE FAMILIES

The conference agreement includes \$345,000,000 in mandatory funds for Promoting Safe and Stable Families.

#### ADMINISTRATION ON AGING AGING SERVICES PROGRAMS

The conference agreement includes \$1,473,703,000 for Aging Services Programs. The conferees urge the Administration on Aging (AA) to improve its consultation with the Committees on Appropriations regarding any reallocation of funds that may occur after the submission of its congressional justification. The conferees have not transferred the SHIP program from CMS.

#### OFFICE OF THE SECRETARY

##### GENERAL DEPARTMENTAL MANAGEMENT

The conference agreement includes \$475,221,000 for General Departmental Management. In addition, the conference agreement includes \$69,211,000 in funding from the Public Health Service program evaluation set-aside.

Within the funds for the Office of the Secretary, the conference agreement designates \$1,000,000 for the Office of the Assistant Secretary for Financial Resources to begin implementing a new, integrated system that can accurately track and report the Department's finances, including by source year of the appropriation.

The conference agreement provides \$9,000,000 for the Office of the Assistant Secretary for Public Affairs.

The conference agreement provides \$250,000 for the Advisory Council on Alzheimer's Research, Care and Services, \$1,000,000 for a competitive grant program to provide assistance regarding transportation assistance for individuals with disabilities, \$1,000,000 to continue the national health education program on lupus for healthcare providers, and \$3,010,000 to continue the preventing violence against women initiative, all as proposed in Senate Report 112-84.

In addition, the conference agreement includes \$1,000,000 for the Assistant Secretary for Health to contract with the National Academy of Sciences to conduct a scientific peer review of the 12th Report on Carcinogens determinations related to formaldehyde and styrene. Included in the review should be all relevant, peer-reviewed research related to both formaldehyde and styrene.

The conference agreement includes no funding for the Adolescent Family Life program, as proposed in the budget request.

The conference agreement provides \$104,790,000 for the teenage pregnancy prevention initiative. In addition, \$8,455,000 is to be derived from the Public Health Service program evaluation set-aside, including \$4,000,000 to carry out evaluations (including longitudinal evaluations) of teenage pregnancy prevention approaches.

The conference agreement also includes \$5,000,000 for an abstinence education program.

#### OFFICE OF MEDICARE HEARINGS AND APPEALS

The conference agreement includes \$72,147,000 for the Office of Medicare Hearings and Appeals.

#### OFFICE OF THE NATIONAL COORDINATOR FOR HEALTH INFORMATION TECHNOLOGY

The conference agreement includes \$61,257,000 for the Office of the National Coordinator for Health Information Technology, of which \$16,446,000 is provided in budget authority and \$44,811,000 is made available through the Public Health Service program evaluation set-aside.

#### OFFICE OF INSPECTOR GENERAL

The conference agreement includes \$50,178,000 for the Office of Inspector General.

#### OFFICE FOR CIVIL RIGHTS

The conference agreement includes \$41,016,000 in budget authority only for the Office for Civil Rights.

#### PUBLIC HEALTH AND SOCIAL SERVICES EMERGENCY FUND (INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$984,452,000 for the Public Health and Social Services Emergency Fund.

Within the total for Preparedness and Emergency Operations, the conference agreement includes \$10,000,000 to prepare for and respond to non-Stafford Act National Special Security Events and makes such funds available until September 30, 2014.

The conferees direct the Biomedical Advanced Research and Development Authority to develop a plan to deliver recombinant anthrax vaccine to the Strategic National Stockpile by 2015 and brief the House and Senate Committees on Appropriations on such a plan not later than 60 days after enactment of this Act.

#### GENERAL PROVISIONS

##### SALARY CAP ON GRANTS AND OTHER EXTRAMURAL MECHANISMS

The conference agreement includes a general provision capping the permitted use of grant and contract funds that may be used to pay the salary of a grantee to Executive Level II and applies the cap to all HHS operating divisions funded in this Act.

#### TRANSFER AUTHORITY

##### (TRANSFER OF FUNDS)

The conference agreement modifies a general provision providing the Secretary of Health and Human Services the authority to transfer up to 1 percent of discretionary funds between appropriations accounts.

#### CENTERS FOR DISEASE CONTROL AND PREVENTION STAFF TRAINING

The conference agreement modifies a general provision regarding Centers for Disease Control and Prevention Individual Learning Accounts.

#### NIH MINOR REPAIRS AND ALTERATIONS

The conference agreement modifies a general provision allowing NIH to use up to \$45,000,000 for alteration, repair or improvement of its facilities and caps the amount that can be spent on any single project to \$3,500,000.

#### GUN CONTROL

The conference agreement modifies a provision previously carried in the CDC account that prohibits any HHS operating division funded in this Act from being used to advocate or promote gun control.

#### FEDERALLY FUNDED RESEARCH AND DEVELOPMENT CENTERS

The conference agreement includes a general provision prohibiting creation of a new Federally Funded Research and Development Center unless certain conditions are met.

#### TITLE III

##### DEPARTMENT OF EDUCATION

##### EDUCATION FOR THE DISADVANTAGED

The conference agreement includes \$15,750,983,000 for Education for the Disadvantaged. The conference agreement provides \$4,909,806,000 in fiscal year 2012 and \$10,841,177,000 in fiscal year 2013 funding for this account.

For Title I School Improvement Grants, the conference agreement continues bill language permitting fiscal year 2012 appropriations to be used by local educational agencies to serve any Title I, part A-eligible school that has not made adequate yearly progress for at least two years or is in a State's lowest quintile of performance based on proficiency rates and, in the case of secondary schools, priority shall be given to

those schools with graduation rates below 60 percent.

The conference agreement includes language permitting the Secretary to establish a maximum subgrant size of \$2,000,000 for Title I School Improvement Grants and allows the Secretary to reserve up to 5 percent of school improvement funds for State and local capacity building.

The conferees note that many children in schools receiving SIG funds face myriad personal, familial, and community challenges (including poverty-related stressors), and these challenges follow students into their schools, often resulting in distracting, disruptive, and ineffective learning environments. Even the best school leaders and teachers cannot achieve optimal results unless poverty-related barriers to teaching, learning, and school organization are addressed and effective conditions for learning are established. These barriers to teaching and learning must be addressed in addition to in-school factors in order to achieve sustained academic success.

The conferees direct the Department to require that all schools receiving SIG funds have a plan in place for addressing the academic and non-academic needs of their students, including improving the overall school climate where necessary, in addition to addressing factors such as the usage of time, instructional practices, and professional development and supports. The conferees expect the plan to assess and address as appropriate the mental health needs and interventions of the students at the school in an integrated manner within the overall turnaround strategy; related training and professional development for all staff that increase classroom efficacy such as classroom organization and management, including teachers and administrators; access to school-based counseling services; the development of school-based systems, such as teams, to identify and address individual student academic, behavioral, health, or social needs and to support a positive and developmentally appropriate school climate; and how parents, families and the community will be engaged in this and other aspects of the school turnaround process.

For the Striving Readers program, the conference agreement includes \$160,000,000 and bill language to continue a comprehensive literacy program for States.

#### IMPACT AID

The conference agreement includes \$1,293,631,000 for Impact Aid. In addition, the conference agreement includes bill language providing for competitive grants for Impact Aid construction grants.

#### SCHOOL IMPROVEMENT PROGRAMS

The conference agreement includes \$4,550,018,000 for the School Improvement Programs account. The conference agreement provides \$2,868,577,000 in fiscal year 2012 and \$1,681,441,000 in fiscal year 2013 funding for this account.

Within the amount provided for Teacher Quality State Grants, the conference agreement provides a set aside of one and one-half percent of funds for competitive awards for teacher or principal training or professional enhancement activities to national not-for-profit organizations.

The conference agreement includes bill language that allows funds under the Education of Native Hawaiians program to be used for construction, renovation, and modernization of any elementary school, secondary school, or related structure run by the Department of Education of the State of

Hawaii that serves a predominantly Native Hawaiian student body.

The conference agreement also includes bill language that requires the Alaska Native Education program to be awarded without regard to earmarks included in the program's authorizing statute. The conference agreement also allows funds within this program to be used for construction.

The conferees intend that in providing the technical assistance and guidance described in Senate Report 112-84, the Department of Education should not give priority to, show preference for, or provide direction about whether communities use 21st Century Community Learning Center funds for after school, before school, summer school or extended school day programs, unless specifically requested by a State or local educational agency.

The conference agreement provides \$27,000,000 for the Advanced Placement program. The conferees intend that \$20,000,000 of these funds be used to continue the Advanced Placement Test Fee program and that \$7,000,000 be used for continuation costs for the Advanced Placement Incentive Program.

#### INDIAN EDUCATION

The conference agreement includes \$131,027,000 for Indian Education.

The conferees recognize that tribal education departments and agencies are uniquely situated at the local level to implement innovative education programs to improve Native American education. Accordingly, the conference agreement includes \$2,000,000 under the National Activities line for a pilot project to increase the role of tribal education departments in Native American education. In the pilot, tribal education agencies would directly administer some Elementary and Secondary Education Act programs to enter into collaborative agreements with States to work closely with school districts located on Indian reservations or former Indian reservations located in Oklahoma. The conferees expect the Department of Education to collaborate with the Bureau of Indian Affairs on this effort.

#### INNOVATION AND IMPROVEMENT

The conference agreement includes \$1,530,429,000 for Innovation and Improvement.

The conference agreement includes \$550,000,000 for the Race to the Top program and authorizes the Secretary to make grants under this authority to local educational agencies. The conferees expect that the Secretary will include a robust early childhood education component in administering the Race to the Top competition. The conference agreement also authorizes the Secretary to use up to five percent of funds under the Race to the Top and Investing in Innovation authorities for technical assistance and evaluation of these programs.

The conference agreement continues language in the Teacher Incentive Fund program that provides for competitive grants to implement performance-based compensation systems for teachers, principals and other personnel in high-need schools.

In the charter schools program, the conference agreement continues language requiring \$23,000,000 to be used to support charter school facilities needs. The conference agreement also includes language allowing the Secretary to reserve up to \$55,000,000 to make multiple awards to nonprofit charter management organizations and other entities that are not-for-profit entities for replication and expansion of successful charter school models.

The conference agreement also includes bill language for the charter school program requiring the Secretary of Education to reserve up to \$11,000,000 for national activities for technical assistance, evaluation and to make grants to authorized public chartering agencies in order to increase the number of high-performing charter schools.

Within FIE, the conference agreement includes funding for the following activities in the following amounts:

Budget activity	Conference agreement
Arts in Education .....	\$25,000,000
Data Quality and Evaluation .....	1,300,000
Full Service Community Schools .....	10,113,000
National Clearinghouse for Educational Facilities .....	733,000
Peer Review .....	100,000

The conference agreement also includes \$28,654,000 for a literacy initiative within FIE as described in Senate Report 112-84.

#### SAFE SCHOOLS AND CITIZENSHIP EDUCATION

The conference agreement includes \$256,237,000 for Safe Schools and Citizenship Education. Within this total, \$60,000,000 is provided for Promise Neighborhoods with funding available through December 31, 2012.

#### ENGLISH LANGUAGE ACQUISITION

The conference agreement includes \$733,530,000 for English Language Acquisition.

#### SPECIAL EDUCATION

The conference agreement includes \$12,647,066,000 for Special Education. The conference agreement provides \$3,363,683,000 in fiscal year 2012 and \$9,283,383,000 in fiscal year 2013 funding for this account.

The conference agreement includes \$2,000,000 to remain available through September 30, 2013 for a program to improve the outcomes of children receiving Supplemental Security Income (SSI) benefits and their families. The agreement allows States to subgrant funds to other public and private non-profit entities. The conferees note that additional funds for this PROMISE initiative are available through the Rehabilitation Services and Disability Research Account and Social Security Administration.

#### REHABILITATION SERVICES AND DISABILITY RESEARCH

The conference agreement includes \$3,512,019,000 for Rehabilitation Services and Disability Research.

The conference agreement includes language allowing the Secretary to use amounts that remain available after reallocation of State vocational rehabilitation funds for activities to improve the outcomes of children receiving SSI benefits and their families, allows States to make subgrants of such funds to other public and private, non-profit entities and extends availability of these funds to September 30, 2013.

The conference agreement provides \$2,000,000 for competitive grants to support alternative financing programs that provide for the purchase of assistive technology (AT) devices. The conferees' goal in providing these funds is to allow greater access to affordable financing to help people with disabilities purchase the specialized technologies needed to live independently, to succeed at school and work and to otherwise live active and productive lives. The conferees intend that applicants incorporate credit building activities in their programs, including financial education and information about other possible funding sources. Successful applicants must emphasize consumer choice and control and build programs

that will provide financing for the full array of AT devices and services and ensure that all people, regardless of type of disability or health condition, age, level of income and residence have access to the program.

#### SPECIAL INSTITUTIONS FOR PERSONS WITH DISABILITIES

##### NATIONAL TECHNICAL INSTITUTE FOR THE DEAF

The conference agreement includes \$65,546,000 for operations for the National Technical Institute for the Deaf. The conferees have consolidated funds into the operations line for NTID this year due to fiscal constraints, but will consider construction funding for NTID in the future as needs may warrant.

##### GALLAUDET UNIVERSITY

The conference agreement includes \$125,754,000 for Gallaudet University. The conference agreement includes bill language designating \$7,990,000 of this amount for construction and provides that the funds are available until expended.

##### CAREER, TECHNICAL, AND ADULT EDUCATION

The conference agreement includes \$1,738,946,000 for Career, Technical, and Adult Education. The conference agreement provides \$947,946,000 in fiscal year 2012 funding and \$791,000,000 in fiscal year 2013 funding for this account.

##### STUDENT FINANCIAL ASSISTANCE

The conference agreement includes \$24,538,521,000 for Student Financial Assistance.

The conference agreement includes \$22,824,000,000 for the Pell Grant program. The funds in this conference agreement will support a \$4,860 maximum discretionary Pell grant for the 2012-2013 award year.

The conferees concur that the Department shall provide the same funding in fiscal year 2012 for the Work Colleges program authorized under section 448 of the Higher Education Act from the Federal Work-Study Program appropriation.

##### STUDENT AID ADMINISTRATION

The conference agreement includes \$1,045,363,000 for student aid administration. Within the total, \$370,000,000 is provided for servicing activities and \$675,363,000 is provided for salaries and expenses to remain available until September 30, 2013.

The conferees direct the Department to provide a report by April 1, 2012 and quarterly reports thereafter detailing their obligation plan by quarter for spending mandatory and discretionary funding for student aid administrative activities broken out by servicer, activity and funding source.

##### HIGHER EDUCATION

The conference agreement includes \$1,873,196,000 for Higher Education.

The conference agreement provides \$74,177,000 for International Education and Foreign Language Studies. The conferees acknowledge that funding provided in the conference agreement for international education will likely only allow funding for continuation costs. The conferees encourage the Department to look for ways to support undergraduate study abroad programs as authorized by section 604 of the Higher Education Act (HEA).

The conference agreement includes language that allows international education funds to be used to support visits and study in foreign countries to develop language skills and allows up to one percent of international education funds to be used for evaluation, outreach and information dissemination. The conferees direct the Secretary to

use international education domestic program funding to maintain a focus on continuing instruction in foreign languages that are less commonly taught, emphasize those critical for national security, and to maintain a pool of international experts for national security needs.

The conference agreement continues language that requires recipients of a multi-year award under the tribal colleges program to continue to receive the amount they would have received prior to the Higher Education Act's reauthorization in accordance with the original award terms.

The conference agreement includes language which consolidates the Javits Fellowship program within the Graduate Assistance in Areas of National Need Program as proposed by the Administration.

Within the amount for FIPSE, the conference agreement includes \$1,130,000 for the Training for Realtime Writers program. The conferees direct that these funds be awarded in accordance with section 872 of the HEA.

Within the amount for FIPSE, \$2,103,000 is included for the European Union-United States Atlantis Program. The conferees direct that these funds be awarded in accordance with section 744 of the HEA.

Within the amount for FIPSE, \$267,000 is for continuation of a data contract.

The conferees continue to be concerned with the tardiness of the Department in making TRIO and GEARUP awards this year. Accordingly, the conferees direct the Department to provide a report to the Committees on Appropriations of both the House and the Senate outlining the causes of grant award delays and providing an action plan for remedying this situation in the future.

##### HOWARD UNIVERSITY

The conference agreement provides \$234,507,000 for support for Howard University and Howard University Hospital.

##### HISTORICALLY BLACK COLLEGE AND UNIVERSITY CAPITAL FINANCING PROGRAM

The conference agreement includes \$20,541,000 for the HBCU Capital Financing Program. The conference agreement provides a total loan principal of \$367,255,000 and includes language to allow funds to be used to support loans without regard to section 344(a) of the Higher Education Act.

##### INSTITUTE OF EDUCATION SCIENCES

The conference agreement includes \$594,788,000 for the Institute of Education Sciences to remain available through fiscal year 2013. The agreement provides \$11,000,000 for awards to public or private organizations or agencies to support activities to improve data coordination, quality and use at the local, State and national levels and modifies language to clarify that funds for statewide data systems may be used to link various State systems together.

##### DEPARTMENTAL MANAGEMENT

##### PROGRAM ADMINISTRATION

The conference agreement includes \$447,104,000 for Program Administration.

The conferees are aware that the Government Accountability Office issued a report this year which identified 82 federal programs designed to improve teacher quality spread across several federal agencies, including 64 at the Department of Education. The conferees note that the report "recognize[d] that there could be instances where some degree of program duplication, overlap, or fragmentation may be warranted due to the nature or magnitude of the federal effort". The conferees also note that under the fiscal year 2011 bill and this conference

agreement nearly 25 percent of the identified programs within the Department have been consolidated or eliminated. The conferees request the Department to issue a report within 180 days of enactment of this Act that identifies remaining programs designed to improve teacher quality, which agency administers the program, the most recent program evaluation data available for each (if any), and includes recommendations on how agencies can better collaborate and coordinate on administration of these programs.

##### GENERAL PROVISIONS

##### TRANSFER OF FUNDS

The conference agreement includes language allowing the Secretary to transfer not to exceed one percent of appropriated funds between appropriations, provided that no appropriation is increased by more than three percent as a result of such transfer, and that no new programs are created, nor programs for which funds were not appropriated are funded, as a result of such transfer. The conference agreement also requires the Secretary to notify the Committees on Appropriations of both the House and the Senate at least 15 days in advance of any transfer.

##### OUTLYING AREAS FUNDS CONSOLIDATION

The conference agreement includes a general provision that extends Palau's eligibility to participate in certain education programs through the end of fiscal year 2012.

##### PELL ELIGIBILITY

The conference agreement includes changes to limit the number of full-time equivalent Pell grants to a lifetime maximum of six years/twelve semesters; to lower the adjusted gross income level at which an expected family contribution will automatically receive a "zero" to \$23,000; to raise the minimum award for eligibility to ten percent of the maximum award; and to require students to either have completed a high school diploma, a GED, or have been homeschooled to be eligible for a Pell award, unless they were enrolled prior to July 1, 2012. The conference agreement further provides that these provisions will take effect on July 1, 2012 and that negotiated rulemaking will not apply to changes made by these amendments.

##### INTEREST SUBSIDY ELIMINATION

The conference agreement includes language that suspends for two years the interest subsidies on loans made on or after July 1, 2012 through June 30, 2014 during the six-month grace period following a student's withdrawal or graduation.

##### STUDENT LOAN INDEX

The conference agreement includes language that changes the index used for holders of federal student loans from commercial paper to LIBOR.

##### HBCU GULF HURRICANE DISASTER LOANS

The conference agreement includes language that authorizes the Secretary to modify terms of Gulf hurricane disaster loans to HBCUs if such modifications result in no net cost to the government and if such modifications are approved by the Departments of Education, Treasury and the Office of Management and Budget.

##### RACE TO THE TOP SUBGRANTING AUTHORITY

The conference agreement includes language that clarifies that a State may make subgrants to public or private agencies and organizations under the early childhood component of the Race to the Top program. Not later than 60 days after enactment of this Act, the conferees direct the Department to provide a briefing on expected outcomes of grantees awarded funds from the

fiscal year 2011 Race to the Top appropriation, including specifically how this subgranting authority will contribute to the successful implementation of State plans.

#### TITLE IV

##### RELATED AGENCIES

###### COMMITTEE FOR PURCHASE FROM PEOPLE WHO ARE BLIND OR SEVERELY DISABLED

The conference agreement includes \$5,385,000 for the Committee for Purchase from People Who Are Blind or Severely Disabled.

###### CORPORATION FOR NATIONAL AND COMMUNITY SERVICE

##### OPERATING EXPENSES

The conference agreement includes \$751,672,000 for the operating expenses of the programs administered by the Corporation for National and Community Service (CNCS).

Within the total provided for Innovation, Assistance, and Other Activities, the conference agreement includes \$53,381,000, which includes \$44,900,000 for the Social Innovation Fund, \$3,992,000 for the Volunteer Generation Fund, and \$1,000,000 for the Martin Luther King Day of Service. The conferees have included language allowing CNCS to make minimum grants of \$200,000 to State Service Commissions to spread funding more equitably across the Nation.

##### NATIONAL SERVICE TRUST

###### (INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$212,198,000 for the National Service Trust.

##### SALARIES AND EXPENSES

The conference agreement includes \$83,000,000 for the CNCS Salaries and Expenses.

##### INSPECTOR GENERAL

The conference agreement includes \$4,000,000 for the CNCS Inspector General Office.

##### ADMINISTRATIVE PROVISIONS

The conferees have included a new provision that clarifies the use of Education Awards at G.I. Bill institutions related to CNCS.

##### CORPORATION FOR PUBLIC BROADCASTING

The conference agreement includes a fiscal year 2014 advance appropriation of \$445,000,000 for the Corporation for Public Broadcasting (CPB).

In addition, the conferees request CPB provide a report within 180 days of enactment to House and Senate Committees on Appropriations on alternative sources of funding for public broadcasting stations in lieu of federal funding.

##### FEDERAL MEDIATION AND CONCILIATION SERVICE

##### SALARIES AND EXPENSES

The conference agreement includes \$46,250,000 for the Federal Mediation and Conciliation Service and does not include funding for the Labor-Management Cooperation Grant program.

##### FEDERAL MINE SAFETY AND HEALTH REVIEW COMMISSION

##### SALARIES AND EXPENSES

The conference agreement includes \$17,637,000 for the Federal Mine Safety and Health Review Commission.

##### INSTITUTE OF MUSEUM AND LIBRARY SERVICES

###### OFFICE OF MUSEUM AND LIBRARY SERVICES: GRANTS AND ADMINISTRATION

The conference agreement includes \$232,393,000 for the Institute of Museum and Library Services (IMLS).

Within the total for IMLS, the conference agreement includes funds for the following activities in the following amounts:

Budget activity	Conference
Library Services Technology Act:	
Grants to States .....	156,661
Native American Library Services .....	3,876
National Leadership: Libraries .....	11,968
Laura Bush 21st Century Librarian .....	12,548
Museum Services Act:	
Museums for America .....	18,064
21st Century Museum Professionals .....	1,972
Conservation Project Support .....	2,619
Native American/Hawaiian Museum Services .....	927
National Leadership: Museums .....	5,923
African American History and Culture Act:	
Museum Grants for African American History & Culture .....	1,413
Program Administration .....	16,422

Within the amount provided for Program Administration, the conference agreement includes \$1,889,000 for research and data collection activities.

##### MEDICAID AND CHIP PAYMENT AND ACCESS COMMISSION

##### SALARIES AND EXPENSES

The conference agreement includes \$6,000,000 for the Medicaid and CHIP Payment and Access Commission.

##### MEDICARE PAYMENT ADVISORY COMMISSION

##### SALARIES AND EXPENSES

The conference agreement includes \$11,800,000 for the Medicare Payment Advisory Commission.

##### NATIONAL COUNCIL ON DISABILITY

The conference agreement includes \$3,264,000 for the National Council on Disability.

##### NATIONAL LABOR RELATIONS BOARD

##### SALARIES AND EXPENSES

The conference agreement includes \$278,833,000 for the National Labor Relations Board.

##### ADMINISTRATIVE PROVISIONS

The conference agreement includes a new provision that prohibits the National Labor Relations Board from issuing any new administrative directive or regulation related to electronic voting.

##### RAILROAD RETIREMENT BOARD

##### LIMITATION ON ADMINISTRATION

The conference agreement includes \$108,855,000 for administrative expenses of the Railroad Retirement Board.

##### SOCIAL SECURITY ADMINISTRATION

##### SUPPLEMENTAL SECURITY INCOME

The conference agreement includes \$37,582,991,000 for the Supplemental Security Income (SSI) program. Within this amount, the agreement includes \$8,000,000, available through fiscal year 2013, for the Research and Demonstration activity conducted under sections 1110 and 1144 of the Social Security Act to support research activities like PROMISE, the Occupational Information System, and the Disability Research Consortium. The conferees encourage the Commissioner to develop policies related to section 1110 research portfolio governance related to funding and ensure projects meet the intent of section 1110. Such policies should ensure that research projects, with very limited exceptions, are either discontinued or graduated into a more appropriate funding line within 5 years from project's beginning. The conferees direct SSA to include in its operating plan funding allocations by project at the level of detail included in its congressional budget justification and expect advance notification of any subsequent realignment of funds within those activities.

##### LIMITATION ON ADMINISTRATIVE EXPENSES

The conference agreement includes \$10,984,494,000 for a Limitation on Administrative Expenses (LAE) for the SSA, including dedicated program integrity funding and applicable user fees.

*Information Technology Investments.*—The conferees direct SSA to include information in its congressional budget justification each year regarding LAE expired unobligated balances and the amount made available from these balances without fiscal year limitation for information technology investments. This should include actual or estimated amounts for the prior, current, and budget years. In addition, the conferees direct SSA to include a consolidated information technology plan in its congressional budget justification each year, including the total amount of Information Technology (IT) expenses and the actual or estimated amount paid for with LAE funds and no-year IT funds.

*Independent SSA Resource Analysis and Strategy.*—With a large percentage of SSA's workforce eligible for retirement, and short- and long-term constraint on available resources, the conferees are concerned that SSA faces continued service delivery challenges in the coming decades. Therefore, the conferees provide SSA with up to \$500,000 to contract with the National Academy of Public Administration to develop and submit a report proposing a long-range strategic plan for SSA's consideration. This report shall be conducted in consultation with SSA and its stakeholders and address the following: an evaluation of SSA's existing organizational structure, workforce capacity, physical infrastructure and review of SSA's electronic service delivery and investment in automation and information technology. The report shall be submitted within 180 days of enactment to the House and Senate Committees on Appropriations, the House Committee on Ways and Means and the Senate Committee on Finance.

*Annual Social Security Statement Review.*—The conferees note the public value of the annual Social Security statement. The conferees encourage the Commissioner to examine a broad range of options for continuing to provide the information included in the annual statement to the public and request a report no later than March 2012 to examine options to continue to do so. The report should examine the advantages and disadvantages, costs, benefits, and other potential implications to each method considered. The conferees request the Commissioner submit the report to the House and Senate Committees on Appropriations, the House Committee on Ways and Means and the Senate Committee on Finance.

*DOL and SSA Occupational Handbook.*—The conferees appreciate the steps SSA has taken to update occupational information used by the SSA to adjudicate claims for disability benefits. The conferees urge DOL and SSA to continue to work together on this effort and submit a joint report to the House and Senate Committees on Appropriations, the House Committee on Ways and Means, and the Senate Committee on Finance with a timeline, major milestones, and projected 5-year costs of this project within 180 days of enactment of this bill and to provide annual progress reports thereafter.

*Budget Request.*—The conferees direct SSA to include the following information in its annual budget requests, operating plans, and reprogramming requests:

SSI Extramural Research and Demonstration program, project, and activity details;

Annual fiscal year workload table on disability appeals at the same level of detail as provided in the House fiscal year 2011 questions for the record;

Annual performance targets for pending cases and processing times for the reconsideration level of appeal;

Updates on the new national data center project milestones and plans to use the projected IT refresh/replacement, operations, and repair/maintenance funds over the next 5 years to outfit the new facility;

FTE table by major component for the prior actual year at the level of detail as answered in the House fiscal year 2011 hearing question for the record; and

Identification of key assumption and cost drivers for each program.

The conferees note the required operating plan and reprogramming rules in the bill apply to SSA at the program, project, and activity level for all funds provided.

OFFICE OF THE INSPECTOR GENERAL  
(INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$102,477,000 for the SSA Office of the Inspector General (OIG).

*Video Technology.*—The conferees note the recent Administrative Conference of the United States report that referred to ODAR's use of video technology as a model for other agencies. The conferees request a report by OIG within 180 days of enactment analyzing legislative and administrative options, including potential challenges, for expanding access to video hearings. The report should analyze the costs and benefits to the claimant, claimant representatives, and taxpayers related to the current use and potential expansion of the use of video hearings by SSA. The report should be sent to the House and Senate Appropriations Committees, the

House Committee on Ways and Means and the Senate Committee on Finance.

TITLE V

GENERAL PROVISIONS

LOBBYING RESTRICTION

The conference agreement modifies a general provision related to lobbying.

STATUS OF FUNDS REPORTING

The conference agreement includes a general provision that requires the Departments of Labor, Health and Human Services, and Education and the Social Security Administration to report quarterly on unobligated balances, by source year, beginning on October 1, 2012. The conferees direct the Departments of Labor, Health and Human Services, and Education and the Social Security Administration to continue providing quarterly status of funds reports as have been provided during fiscal year 2011.

# **DIVISION G—LEGISLATIVE BRANCH APPROPRIATIONS ACT, 2012**

The following is an explanation of the effects of Division G, which makes appropriations for the Legislative Branch for fiscal year 2012. Unless otherwise noted, reference to the House and Senate reports are to House Report 112-148 and Senate Report 112-80. The language included in House Report 112-148 and Senate Report 112-80 should be complied with and carry the same emphasis as the language included in the explanatory state-

ment, unless specifically addressed to the contrary in this explanatory statement. While repeating some report language for emphasis, this explanatory statement does not intend to negate the language referred to above unless expressly provided herein.

## **TITLE I LEGISLATIVE BRANCH SENATE**

The conferees agree to appropriate \$868,593,000 for Senate operations. This item

relates solely to the Senate, and is in accordance with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention.

The conferees note one technical correction to the chart included in Senate Report 112-80 under the heading Senators' Official Personnel and Office Expense Allowance Fiscal Year 2012 to take into account a population change for the state of Colorado that was inadvertently omitted.

	Admini- strative and clerical as- sistance al- lowance 10/ 1/2011	Legislative assistance allowance 10/1/2011	O.O.E.A. al- lowance 10/ 1/2011	Total allow- ance 10/1/ 2011
Colorado .....	2,431,275	477,874	180,096	3,089,245

### **HOUSE OF REPRESENTATIVES**

The conferees agree to appropriate \$1,225,680,000 for House operations. This item relates solely to the House, and is in accordance with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention.

#### **SECURITY IN CONGRESSIONAL DISTRICT OFFICES**

The conferees are aware of efforts underway by the House Sergeant At Arms (HSAA) and the Capitol Police (USCP) to improve security in Congressional district offices. With the assistance of the HSAA and USCP, many Member offices had security assessments conducted and were provided a list of recommended security upgrades as a result of those assessments. Member offices currently pay for their office leases, including physical security, through their office budgets, also called the Members' Representational Allowance, which have been reduced. While the payment for district security is decentralized, the guiding principles and policies should not be. Therefore, the HSAA, along with USCP, shall assist offices in prioritizing improvements and highlighting alternative office locations that yield greater security with less cost. In addition the House's Chief Administrative Officer is directed to provide outreach to Member offices and offer assistance in lease negotiations as Member offices

look to relocate or negotiate more favorable terms that incorporate heightened security concerns.

#### **JOINT ITEMS JOINT ECONOMIC COMMITTEE**

The conference agreement includes \$4,203,000 for salaries and expenses.

#### **JOINT COMMITTEE ON INAUGURAL CEREMONIES OF 2013**

The conference agreement includes \$1,237,000, for salaries and expenses associated with conducting the inaugural ceremonies of the President and Vice President of the United States.

#### **JOINT COMMITTEE ON TAXATION**

The conference agreement includes \$10,004,000 for salaries and expenses.

#### **OFFICE OF THE ATTENDING PHYSICIAN**

The conference agreement includes \$3,400,000.

#### **OFFICE OF CONGRESSIONAL ACCESSIBILITY SERVICES**

The conference agreement includes \$1,363,000.

#### **ADMINISTRATIVE PROVISION**

The conferees have included an administrative provision which authorizes employees of the Office of Congressional Accessibility Services to participate in the Senate employee student loan repayment program.

### **CAPITOL POLICE**

#### **SALARIES**

The conference agreement includes \$277,133,000 for salaries of officers, members, and employees of the Capitol Police. This level will support a staffing level of 1,775 sworn officers and 370 civilian personnel.

#### **GENERAL EXPENSES**

The conference agreement includes \$63,004,000 for general expenses of the Capitol Police.

#### **WORKFORCE MANAGEMENT/MISSION REQUIREMENTS**

The conferees support the directive contained in House Report 112-148 regarding workforce management and mission requirements in lieu of the directive in Senate Report 112-80.

#### **OVERTIME**

The conferees recommend no more than 634,667 hours of additional duty in fiscal year 2012 as depicted below. The conferees direct that the Department report on the expenditure of overtime within individual accounts by pay period to the House and Senate Committees on Appropriations, and that the Committees are notified prior to any transfer within accounts, including the associated hours of additional duty.

	Funding	Hours (est.)
Scheduled .....	\$28,915,170	503,364
Annualization of overtime savings .....	(700,370)	0
Unscheduled .....	1,141,850	20,000
DPD .....	876,018	15,326
Conventions .....	1,626,240	28,000
Training .....	1,371,840	24,000
LOC—non-reimbursable events .....	214,896	3,700
Dome Skirt .....	1,853,739	31,917
Red Tunnel Project .....	485,548	8,360
Dome Skirt and other project re-estimations .....	(677,000)	0
Total .....	\$35,107,931	634,667

### **THREAT ASSESSMENT**

The conferees understand that the Capitol Police conduct many different types of threat assessments and direct the Chief of Police to work with the House and Senate Committees on Appropriations to develop methods of updating the Committees on threat assessment activities.

#### **ADMINISTRATIVE PROVISIONS (INCLUDING TRANSFER OF FUNDS)**

The conferees have included a routine administrative provision, section 1101, which continues authorization for transfers between various accounts upon the approval of the Committees on Appropriations of the House and Senate. The conferees have also

included an administrative provision, section 1102, which authorizes the Secretary of the Senate and the Chief Administrative Officer of the House to waive erroneous payments to officers and employees.

#### **OFFICE OF COMPLIANCE**

#### **SALARIES AND EXPENSES**

The conference agreement includes \$3,817,000, of which \$700,000 shall remain available until September 30, 2013 for salaries and expenses of the Office of Compliance.

### **CONGRESSIONAL BUDGET OFFICE**

#### **SALARIES AND EXPENSES**

The conference agreement includes \$43,787,000 for salaries and expenses of the Congressional Budget Office.

#### **ARCHITECT OF THE CAPITOL**

#### **GENERAL ADMINISTRATION**

The conference agreement includes \$101,340,000 for General Administration, of which \$3,749,000 shall remain available until September 30, 2016.

With respect to operations and projects, the House and Senate conferees have agreed to the following:

Operating Budget: ..... \$97,591,000

Project Budget: .....	
1. Energy Savings Performance Contracts (ESPC) .....	2,700,000
2. Senate Reception Room .....	550,000
3. Conservation of Fine Architectural Art .....	499,000

Total, General Administration .....

\$101,340,000

#### CONGRESSIONAL YOUTH PARK

The conferees note that the fiscal year 2002 Legislative Branch appropriations bill, Public Law 107-68 included a provision designating a special parcel of the Capitol Grounds as the Congressional Youth Park. The conferees commend the Architect of the Capitol (AOC) for developing the Capitol Complex Master Plan as a guiding document for the future development of the Capitol grounds. The plan embraces Frederick Law Olmstead's original landscape design establishing grounds that enhance and elevate the U.S. Capitol. Integral to this plan should be the original intent of the Botanic Garden to educate visitors about the aesthetic, cultural, economic, therapeutic, and ecological importance of plants. In this spirit, the conferees direct the AOC to develop, as part of the Capitol Complex Master Plan, the cultural landscape plan for the Congressional Youth Park that aligns the use of the Park with Olmstead's historically important vision about the importance of the natural world in their daily lives. This segment of the Master Plan shall also take into consideration landscape requirements necessary to ensure the continued security of the Capitol complex.

#### CAPITOL BUILDING

The conference agreement includes \$36,154,000, of which \$11,063,000 shall remain available until September 30, 2016, for maintenance, care, and operation of the Capitol.

With respect to operations and projects, the House and Senate conferees have agreed to the following:

Operating Budget: .....	\$25,091,000
Project Budget: .....	
1. Presidential Inaugural Stand and Support Facilities .....	4,263,000
2. Brumidi Corridors Restoration and Conservation Plan .....	800,000
3. Minor Construction ....	6,000,000

Total, Capitol Building .....

\$36,154,000

#### CAPITOL GROUNDS

The conference agreement includes \$9,852,000 for the care and improvements of the grounds surrounding the Capitol, House and Senate office buildings, and the Capitol Power Plant.

With respect to operations and projects, the House and Senate conferees have agreed to the following:

Operating Budget: .....	\$9,852,000
Total, Capitol Grounds .....	\$9,852,000

#### SENATE OFFICE BUILDINGS

The conference agreement includes \$71,128,000 for Senate Office Buildings, of which \$13,128,000 shall remain available until September 30, 2016, for the maintenance, care and operation of the Senate office buildings. This item relates solely to the Senate and is in accordance with long practice under which each body determines its own house-

keeping requirements, and the other concurs without intervention.

Operating Budget: .....	\$58,000,000
Project Budget: .....	
1. Skylight Replacement (HSOB) .....	5,000,000
2. Infrastructure Improvements, Phase 3, North Wing (DSOB) .....	6,128,000
3. Minor Construction ....	2,000,000

Total, Senate Office Buildings .....

\$71,128,000

#### HOUSE OFFICE BUILDINGS

*Base funding, House Office Buildings.*—The conference agreement includes \$94,154,000 for the basic and recurring needs of the House within the House Office Buildings account, of which \$45,631,000 shall remain available until September 30, 2016. These funds support the regular maintenance, care, and operation of the House office buildings by the Architect of the Capitol.

Operating Budget: .....	\$48,523,000
Project Budget: .....	
1. Alternate Life Safety Approach, CHOB .....	4,229,000
2. Interior Rehabilitation of the West House Underground Garage .....	18,000,000
3. Power Distribution System Replacement, Vault C, FHOB .....	3,957,000
4. Domestic Water and Sanitary Piping Replacement, RHOB .....	1,598,000
5. Fire Alarm System Replacement, RHOB .....	1,457,000
6. CAO Project Support ..	4,390,000
7. 480V Switchgear & Transformer Replacement, Phase III, HOB ..	5,000,000
8. Minor Construction ....	7,000,000

Total, House Office Buildings (base program) .....

\$94,154,000

*House Historic Buildings Revitalization Trust Fund.*—In addition to funding for core facility needs, the conference agreement includes \$30,000,000 for the Historic Buildings Revitalization Trust Fund, to remain available until expended.

As these funds relate solely to the House, and is in accordance with long practice under which each body determines its own housekeeping requirements and the other concurs without intervention.

#### CAPITOL POWER PLANT

In addition to the \$9,000,000 made available from receipts credited as reimbursements to this appropriation, the conference agreement includes \$123,229,000 for maintenance, care and operation of the Capitol Power Plant. Of this amount, \$37,617,000 shall remain available until September 30, 2016.

With respect to operations and project differences, the House and Senate conferees have agreed to the following:

Operating Budget (net): .....	\$94,612,000
Project Budget: .....	
1. Utility Tunnel Program .....	14,406,000
2. WRP Chiller System Replacement, RPR, CPP .....	800,000
3. East Plant Chiller Relocation, RPR, CPP .....	16,411,000
4. Cogeneration Management Program .....	2,000,000
5. Minor Construction ....	4,000,000

Total, Capitol Power Plant .....

\$132,229,000

#### LIBRARY BUILDINGS AND GROUNDS

The conference agreement includes \$46,876,000 for Library of Congress buildings

and grounds. Of this amount, \$21,116,000 shall remain available until September 30, 2016.

With respect to operations and projects, the House and Senate conferees have agreed to the following:

Operating Budget: .....	\$25,760,000
Project Budget: .....	
1. Sprinkler System, West Main Pavilion 1st Floor, Phase III TJB ...	4,100,000
2. Egress Improvements ..	1,126,000
3. Generator Replacement JAB .....	5,000,000
4. Secured Storage Facilities, Phase III .....	2,000,000
5. East and West Pavilion Copper Roof and Fall Protection Replacement, Design .....	309,000
6. Air Handling Unit Replacement and Hazardous Materials Abatement, TJB .....	2,047,000
7. Fall Protection .....	4,034,000
8. ABA Space Reorganization, JMMB .....	500,000
9. Minor Construction ....	2,000,000

Total, Library Buildings and Grounds .....

\$46,876,000

#### CAPITOL POLICE BUILDINGS, GROUNDS AND SECURITY

The conference agreement includes \$21,500,000 for Capitol Police Buildings, Grounds and Security. Of this amount, \$3,473,000 shall remain available until September 30, 2016.

With respect to operations and projects, the conferees have agreed to the following:

Operating Budget: .....	\$18,027,000
Project Budget: .....	
1. Fire Alarm System Replacement, Headquarters .....	2,473,000
2. Minor Construction ....	1,000,000

Total, Capitol Police Buildings, Grounds and Security .....

\$21,500,000

#### BOTANIC GARDEN

The conference agreement includes \$12,000,000 for salaries and expenses, Botanic Garden.

#### CAPITOL VISITOR CENTER

The conference agreement includes \$21,276,000 for the Capitol Visitor Center (CVC).

#### CVC GIFT SHOP

The conferees note that the CVC gift shop operating budget exceeds the revenues generated within the gift shop revolving fund. The conferees understand that there are mitigating circumstances such as "Buy American" requirements that account for the CVC gift shop operating differently than other gift shops, such as the Library of Congress gift shop. Given that the CVC gift shop has been operating for a few years, the conferees believe it would be beneficial at this juncture for the AOC to review and report on the operations and steps that can be taken to improve operations within the revolving fund understanding the distinctive parameters under which the CVC gift shop operates. This report should be provided to the Committee on Appropriations of the House and Senate no later than March 31, 2012.

#### ADMINISTRATIVE PROVISIONS (INCLUDING TRANSFER OF FUNDS) REIMBURSABLE OVERTIME COSTS

The conference agreement includes an administrative provision, section 1201, which

authorizes the Architect of the Capitol to reimburse the Capitol Police for the cost of overtime associated with construction projects.

The conferees direct the Architect of the Capitol and the United States Capitol Police to enter into a memorandum of understanding to establish the appropriate mechanisms necessary to implement this reimbursable process. The memorandum of understanding shall include, but not be limited to, the identification of the type and scope of construction projects subject to reimbursement, the projected overtime and related benefits costs for security requirements necessitated by a specific project before the project commences, and the reporting to the Architect of the Capitol actual costs for reimbursement on a regular basis during and upon completion of a security project. It is the conferees intent that this practice will commence with the submission of the fiscal year 2013 budget request. The Architect of the Capitol shall submit the requested overtime for ongoing and future construction projects for fiscal year 2013. During fiscal year 2013, and for future fiscal years, if overtime costs exceed those requested, the Architect of the Capitol, with the concurrence of the Capitol Police, will submit such costs to the House and Senate Committees on Appropriations for approval.

The conference agreement includes an administrative provision, section 1202, concerning the Capitol grounds.

#### LIBRARY OF CONGRESS SALARIES AND EXPENSES

The conference agreement includes \$413,743,000 in direct appropriations, of which \$6,959,000 is to remain available until expended for digital collections and educational curricula program, Library of Congress. In addition to this amount \$6,350,000 is available from receipts collected by the Library of Congress and is to remain available until expended.

#### COPYRIGHT OFFICE SALARIES AND EXPENSES

The conference agreement includes \$16,137,000 in direct appropriations to the Copyright Office. An additional \$35,513,000 is made available from receipts for salaries and expenses.

#### CONGRESSIONAL RESEARCH SERVICE SALARIES AND EXPENSES

The conference agreement includes \$106,790,000 for salaries and expenses, Congressional Research Service including up to \$1,000,000 for a review of the Government Printing Office.

#### BOOKS FOR THE BLIND AND PHYSICALLY HANDICAPPED

##### SALARIES AND EXPENSES

The conference agreement includes \$50,674,000 for salaries and expenses. This amount includes \$650,000 for costs to provide recorded newspaper services for the blind and physically handicapped. The conferees have agreed that up to \$2,000,000 of unobligated balances can be utilized for media production.

#### ADMINISTRATIVE PROVISIONS

The conferees have agreed to include administrative provisions (sections 1301–1304) related to reimbursable and revolving fund activities, transfer authority, availability of funds for Workers Compensation Payments, and disposition of surplus or obsolete personal property.

#### GOVERNMENT PRINTING OFFICE Operational Review

Over the past 10 years, the Government Printing Office has regularly contracted out

approximately 75% of the dollar value of all work ordered annually (other than U.S. passports and secure credentials). The vast majority of the work that is contracted out is for the Executive Branch. Printing for the Congress, passports for State Department, secure credentials for Federal agencies and Congress, products for the Office of the Federal Register, and several important jobs of the Executive Branch, such as the President's Annual Budget and printing for the White House, are conducted in-house, as are all of GPO's digital information operations serving all three branches of the Federal Government. The conferees note that several studies evaluating GPO's production, procurement, and information dissemination programs and operations, including the Federal Depository Library Program, have been conducted in the past. The conferees also note that past reviews have supported the GPO's business model as the most efficient way in which the government should operate its printing and information dissemination responsibilities. The conferees believe that the GPO and the Congress would benefit from an update of these reviews, particularly given the growth in printing and digital technology in recent years, including the feasibility of Executive Branch printing being continued to be performed by the GPO, and other cost saving operational alternatives that might be worthy of consideration. Within available funds under the heading, "Congressional Research Service", the conferees direct the Congressional Research Service to award a grant or contract to the National Academy of Public Administration, an independent, nonpartisan organization that was chartered by Congress to assist Federal, State, and local governments in improving their effectiveness, efficiency, and accountability, to conduct a study on updating a review of GPO operations and additional cost saving opportunities beyond what GPO has already instituted, if any, and report its findings to the Committee on Appropriations of the House and Senate no later than one year after enactment of this Act.

#### CONGRESSIONAL PRINTING AND BINDING (INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$90,700,000 for authorized printing and binding for the Congress.

#### OFFICE OF THE SUPERINTENDENT OF DOCUMENTS

##### SALARIES AND EXPENSES

##### (INCLUDING TRANSFER OF FUNDS)

The conference agreement includes \$35,000,000.

#### GOVERNMENT PRINTING OFFICE REVOLVING FUND

The conference agreement includes \$500,000.

#### GOVERNMENT ACCOUNTABILITY OFFICE SALARIES AND EXPENSES

The conference agreement includes \$511,296,000 in direct appropriations for salaries and expenses, Government Accountability Office. In addition, \$22,304,000 is available from offsetting collections.

#### ADMINISTRATIVE PROVISION

The agreement includes an administrative provision, section 1401, that allows GAO to be treated the same as other Legislative Branch agencies regarding employee buyout authority.

The conferees direct that GAO cease all work and no funds are provided for any GAO study related to the study requested in House Report 112-148 regarding the future of

the Government Printing Office. That work is being conducted by NAPA through CRS.

#### Cost Analysis

The conferees believe that in order to provide the GAO with the appropriate funding level to conduct its audits efficiently, the conferees need a complete understanding of the costs associated with conducting the audits. The concern that certain costs associated with the reports cannot be accounted for was heightened by the GAO Office of Inspector General report noting that "GAO's travel card program could be strengthened by adopting selected best practices identified in related Office of Management and Budget (OMB) guidance. . . . Further, we found that OMB's travel card guidance was not used by GAO to manage or assess the effectiveness of its travel card program controls." Therefore, the conferees direct the GAO to report to the Senate and House Committees on Appropriations on a semi-annual basis, with a cost analysis by function of its work products, a total funding level for any completed report during the fiscal year, and the number of reports previously conducted on the particular issues for which reports are being conducted.

#### OPEN WORLD LEADERSHIP CENTER TRUST FUND

The conference agreement includes \$10,000,000 for payment to the Open World Leadership Center Trust Fund.

In June 2003 the House Committee on Appropriations directed the Government Accountability Office (GAO) to assess the overall effectiveness and efficiency of the Open World Leadership Center (OWLC) in fulfilling its responsibilities and role in achieving the overall intent and purposes of the program. In March 2004 the GAO issued a report (GAO-04-436) containing recommendations that OWLC establish strategic and performance plans, strengthen assessing and reporting on program performance, and improve its financial management and accountability mechanisms. In the report the OWLC took issue with the GAO emphasis on performance measures, noting that its success is only measurable in the medium or long term. The conferees direct the GAO to reexamine the OWLC regarding the recommendations to determine what action has been taken to meet the GAO recommendations with special emphasis on financial management and performance measures. It has been a number of years since this report was issued, and the conferees believe enough time has lapsed to determine progress in both these fields. Therefore, the conferees direct the GAO to reexamine the recommendations of the March 2004 report with emphasis on financial management and accountability mechanisms and the measurable benefits of the OWLC. GAO shall consult with the Committees on Appropriations as it develops the methodology and scope of the review. GAO shall issue its final report by August 2012 and provide regular updates to the Committees prior to issuing the final report.

#### JOHN C. STENNIS CENTER FOR PUBLIC SERVICE TRAINING AND DEVELOPMENT

The conference agreement includes \$430,000. The conferees direct that future budget requests from the John C. Stennis Center be accompanied by an appropriately detailed budget justification.

#### TITLE II—GENERAL PROVISIONS

The conference agreement continues, in sections 201 to 209, nine routine provisions carried in prior years. In addition the agreement includes section 210 related to delivery of printed copies of bills, joint resolutions,

and resolutions, section 211 related to delivery of printed copies of the Congressional Record being delivered to a Members House office, and section 212 related to Members of the House, which places a limitation on the amount that can be expended for the lease of a vehicle.

REPROGRAMMING GUIDELINES FOR LEGISLATIVE  
BRANCH AGENCIES

The conferees expect all agencies to notify the Committees on Appropriations of the

House and Senate of any significant departures from budget plans presented to the Committees of the House and Senate. In particular, agencies funded in this bill are required to notify the Committees prior to each reprogramming of funds in excess of the lesser of 10 percent or \$500,000 between programs, projects, or activities, or in excess of \$500,000 between object classifications (except for shifts within the pay categories, object class 11, 12, and 13, or as further speci-

fied in each agency's respective section). This includes cumulative reprogrammings that together total at least \$500,000 from or to a particular program, activity, or object classification, as well as reprogramming of FTE's or funds to create new organizational entities within the Agency or to restructure entities which already exist. These guidelines remain effective unless modified by a subsequent conference.

**DIVISION H—MILITARY CONSTRUCTION AND VETERANS AFFAIRS AND RELATED AGENCIES APPROPRIATIONS ACT, 2012**

*Matters Addressed by Only One Committee.*—

The language and allocations set forth in House Report 112-94 and Senate Report 112-29 should be complied with unless specifically addressed to the contrary in the conference agreement and this explanatory statement. Report language included by the House, which is not changed by the report of the Senate or this explanatory statement, and Senate report language, which is not changed by this explanatory statement, is approved by the Committees on Appropriations of both Houses of Congress. This explanatory statement, while repeating some report language for emphasis, does not intend to negate the language referred to above unless expressly provided herein. In cases where the House or the Senate has directed the submission of a report, such report is to be submitted to both Houses of Congress. House or Senate reporting requirements with deadlines prior to, or within 15 days after, enactment of the conference agreement shall be submitted no later than 60 days after enactment of this Act. All other reporting deadlines not changed by this explanatory statement are to be met.

**TITLE I**

**DEPARTMENT OF DEFENSE**

**ITEMS OF GENERAL INTEREST**

*Reprogramming Guidelines.*—The following reprogramming guidelines apply for all military construction and family housing projects. A project or account (including the sub-elements of an account) which has been specifically reduced by the Congress in acting on the budget request is considered to be a congressional interest item and as such, prior approval is required. Accordingly, no reprogrammings to an item specifically reduced below the threshold by the Congress are permitted, except that the Department of Defense may seek reprogrammings for appropriated increments.

The reprogramming criteria that apply to military construction projects (25 percent of the funded amount or \$2,000,000, whichever is less) continue to apply to new housing construction projects and to improvements over \$2,000,000. To provide the services the flexibility to proceed with construction contracts without disruption or delay, the costs associated with environmental hazard remediation such as asbestos removal, radon abatement, lead-based paint removal or abatement, and any other legislated environmental hazard remediation may be excluded, provided that such remediation requirements could not be reasonably anticipated at the time of the budget submission. This exclusion applies to projects authorized in this budget year, as well as projects authorized in prior years for which construction has not been completed. Planning and design costs associated with military construction and family housing projects may also be excluded from these guidelines. In instances where prior approval to a reprogramming request for a project or account has been received from the Committees on Appropriations, the adjusted amount approved becomes the new base for any future increase or decrease via below-threshold reprogrammings (provided that the project or account is not a congressional interest item as defined above).

In addition to these guidelines, the services are directed to adhere to the guidance for military construction reprogrammings and notifications, including the pertinent

statutory authorities contained in DOD Financial Management Regulation 7000.14-R and relevant updates and policy memoranda. The conferees encourage the Office of the Director of National Intelligence to use a format similar to that used by the Office of the Secretary of Defense to submit reprogramming requests.

*Incrementally Funded Projects.*—The conferees note that the Administration requested several large military construction projects that can be incrementally funded, but were instead submitted as large single-year requests, in accordance with a directive from the Office of Management and Budget to the Department of Defense to severely restrict the use of incremental funding for military construction. The Committees on Appropriations of both Houses of Congress have previously notified the Administration that they reserve the prerogative to provide incremental funding where appropriate, in accordance with authorizing legislation. The conferees continue to believe that military construction projects should be fully funded or separated into stand-alone phases when practical. In some cases, however, incremental funding makes fiscal and programmatic sense. The conference agreement therefore incrementally funds the following projects: Aviation Complex Phase 3A, Fort Wainwright, Alaska; Mountainview Operations Facility, Buckley AFB, Colorado; Hospital Replacement, Increment 3, Fort Bliss, Texas; Ambulatory Care Center Phase 3, Joint Base San Antonio, Texas; STRATCOM Replacement Facility, Increment 1, Offutt AFB, Nebraska; Data Center, Increment 3, Camp Williams, Utah; Ambulatory Care Center, Ph 3, Joint Base Andrews, Maryland; and Strike Fuel Systems Maintenance Hanger, Anderson AFB, Guam.

*Quarterly Summary of Notifications.*—The conferees direct the services and the Office of the Secretary of Defense (on behalf of itself and Defense agencies) to continue to submit a quarterly report listing all notifications, to include bid savings by service and Defense agencies, that have been submitted to the Committees during the preceding three-month period.

*Report on Design Obligations.*—The conferees direct that the Secretary of Defense, and the secretaries of the Army, Navy, and Air Force, each submit separate semi-annual reports on the obligation and expenditure of planning and design funds. The Secretary of Defense's report shall cover Military Construction, Defense-Wide, and the reports by the Army, Navy, and Air Force shall cover active, guard, and reserve military construction accounts. Each report shall provide data on the total amount available from each and all fiscal years for planning and design activities, as well as the amounts currently obligated and expended. The reports shall be submitted no later than 30 days following the end of the second and fourth quarters of fiscal year 2012 and semi-annually no later than 30 days following the second and fourth quarters of each fiscal year thereafter.

*Quadrennial Defense Review/Nuclear Posture Review (QDR/NPR).*—The conference agreement does not reference language requiring the Secretary of Defense to submit a report regarding future funding for the QDR/NPR programs because the reporting requirement has already been fulfilled.

*Army Stationing in Europe.*—In order to better understand future requirements for U.S. military construction in Germany in light of current and projected realignment activities, the conferees direct that no later than 90 days after enactment of this Act, the Sec-

retary of Defense shall provide a report, in writing, on installations and properties in Germany that the Department of Defense intends to return to the host nation. This report should include (1) intended timelines for closures of U.S. Army installations along with a list of military construction projects required at other installations to facilitate the downsizing and consolidation of Army forces in Germany; (2) identification of the brigade combat team that will be withdrawn from Germany; (3) an estimate of costs (including operation and maintenance costs and military construction costs) to be incurred during fiscal years 2012 through 2015 in connection with keeping the brigade identified in Germany through September 30, 2015, versus stationing a similar brigade in the United States; and (4) identification of the Army installations in the United States with the capability, existing infrastructure, and training facilities to support a brigade combat team similar to the one referenced above. The report should be submitted to the Committees on Appropriations of both Houses of Congress and may include a classified annex if necessary.

*Guam Realignment.*—The conferees support the Administration's focus on strengthening the U.S. military posture in the Pacific region. One of the most ambitious undertakings by the Department of Defense is the joint U.S.-Japanese plan to move 8,000 Marines and their families from Okinawa to Guam. The conferees note that a number of unforeseen obstacles, including lengthy environmental studies, legal challenges, and land use issues, have hampered the Department's ability to execute planned military construction projects associated with the realignment that have been funded in previous appropriations bills. In light of these delays, the conference agreement does not include funding, as requested, for two projects associated with the realignment. The conferees encourage the Department to complete the Guam master plan and provide a revised cost estimate and timetable for the Guam relocation so that the realignment can proceed without further delay.

**MILITARY CONSTRUCTION, ARMY**

The conference agreement appropriates \$3,006,491,000 for Military Construction, Army, instead of \$3,041,491,000 as proposed by the House and \$3,066,891,000 as proposed by the Senate. Within this amount, the agreement provides \$229,741,000 for study, planning, design, architect and engineer services, and host nation support, the same amount as proposed by the House and Senate.

**MILITARY CONSTRUCTION, NAVY AND MARINE CORPS**

The conference agreement appropriates \$2,112,823,000 for Military Construction, Navy and Marine Corps, instead of \$2,436,547,000 as proposed by the House and \$2,187,622,000 as proposed by the Senate. Within this amount, the agreement provides \$84,362,000 for study, planning, design, architect and engineer services, the same amount as proposed by the House and Senate.

**MILITARY CONSTRUCTION, AIR FORCE**

The conference agreement appropriates \$1,227,058,000 for Military Construction, Air Force, instead of \$1,247,358,000 as proposed by the House and \$1,227,058,000 as proposed by the Senate. Within this amount, the agreement provides \$81,913,000 for study, planning, design, architect and engineer services, the same amount as proposed by the House and Senate.

# MILITARY CONSTRUCTION, DEFENSE-WIDE

(INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates \$3,431,957,000 for Military Construction, Defense-Wide, instead of \$3,533,757,000 as proposed by the House and \$3,380,917,000 as proposed by the Senate. Within this amount, the agreement provides \$430,602,000 for study, planning, design, architect and engineer services, the same amount as proposed by the House and Senate.

*Fort Gordon, Georgia, National Security Agency (NSA) Project Adjustment.*—The President's budget submission included \$11,340,000 for the NSA Whitelaw Wedge Building addition at Fort Gordon, Georgia. Subsequent to the budget submission NSA determined that the cost of the project had increased to \$17,705,000 and requested a \$6,365,000 funding adjustment for the project. The Director of the NSA transmitted a formal request for this adjustment to the Committees on Appropriations of the House and Senate on June 2, 2011. Therefore, the conference agreement includes an additional \$6,365,000 for this project as requested, with a corresponding decrement from the NSA minor construction account.

*Department of Defense Education Activity (DODEA) Schools.*—The conferees note that over 86,000 children attend DODEA schools in the United States and overseas, but according to the 2009 DOD Report to Congress on Department of Defense Education Activity's Military Construction Program, 79 percent of DODEA schools were structurally rated as poor or failing. The conferees note that DOD's Future Years Defense Plan (FYDP) for fiscal years 2012 through 2016 includes funding to recapitalize many, but not all, of these schools. The conferees urge the Secretary of Defense to prioritize the recapitalization of all poor or failing DODEA schools, and accelerate funding for this purpose in future FYDPs.

*Energy Conservation Investment Program (ECIP).*—The conference agreement provides \$135,000,000 for ECIP, as proposed by both the House and the Senate. Additionally, the conference agreement provides \$10,000,000 in dedicated funding for ECIP planning and design, as proposed by the Senate. The conferees strongly support the efforts of the Department of Defense to promote energy conservation, green building initiatives, energy security, and investment in renewable energy resources, and commend the leadership of the Department and the services for making energy efficiency a key component of construction on military installations. The conferees urge the Department to use the dedicated planning and design funds to invest in innovative renewable energy projects as well as projects that enhance energy security at military installations and encourages the Department to request dedicated planning and design funding for ECIP in future budget submissions.

*Landstuhl Regional Medical Center.*—The conferees strongly support the construction of the new Landstuhl Regional Medical Center in Germany to replace the current aging facility, which is inefficient, and structurally a failing facility. However, the conferees note that the size, scope and design of the proposed replacement hospital was initiated several years ago, before the withdrawal schedule for U.S. troops in Iraq and Afghanistan was established, and before looming budget restraints prompted the Department of Defense (DOD) to reconsider all overseas basing of U.S. military forces. Given the potential for major force structure reductions

in Europe, the conferees believe that the planning assumptions for the new Landstuhl Regional Medical Center should be re-evaluated to ensure that the facility is properly sized and scoped to meet the emerging contingency and force structure requirements in Europe.

Because of the importance of this project, the conference agreement fully funds the Department's request to proceed with site preparation and utility infrastructure for the replacement hospital. However, the conference agreement restricts the Department from awarding a design contract for the hospital that exceeds the 20 percent design level until the Secretary of Defense has provided a plan to the Committees on Appropriations of the House of Representatives and the Senate describing how it intends to implement the recommendations of a Government Accountability Office study with regard to the plans, baseline data, and estimated cost of the new facility, and certifies that the replacement hospital is properly sized and scoped to meet the projected health care requirements.

The conferees further direct DOD to provide to the Committees, in conjunction with the certification, justification supporting the size and scope of the replacement hospital that includes, at a minimum, (1) documentation that clearly shows how health care requirements were used to calculate the size, configuration, and associated costs of the facility, and (2) a risk or sensitivity analysis that assesses, at a minimum, how potential global posture changes in the area of responsibility of the European Command may impact the health care requirements for the proposed facility.

## MILITARY CONSTRUCTION, ARMY NATIONAL GUARD

The conference agreement appropriates \$773,592,000 for Military Construction, Army National Guard, as proposed by the Senate instead of \$798,592,000 as proposed by the House. Within this amount, the agreement provides \$20,671,000 for study, planning, design, architect and engineer services.

## MILITARY CONSTRUCTION, AIR NATIONAL GUARD

The conference agreement appropriates \$116,246,000 for Military Construction, Air National Guard, as proposed by the both the House and the Senate. Within this amount, the agreement provides \$12,225,000 for study, planning, design, architect and engineer services.

## MILITARY CONSTRUCTION, ARMY RESERVE

The conference agreement appropriates \$280,549,000 for Military Construction, Army Reserve, as proposed by both the House and the Senate. Within this amount, the agreement provides \$28,924,000 for study, planning, design, architect and engineer services.

## MILITARY CONSTRUCTION, NAVY RESERVE

The conference agreement appropriates \$26,299,000 for Military Construction, Navy Reserve as proposed by both the House and the Senate. Within this amount, the agreement provides \$2,591,000 for study, planning, design, architect and engineer services.

## MILITARY CONSTRUCTION, AIR FORCE RESERVE

The conference agreement appropriates \$33,620,000 for Military Construction, Air Force Reserve, as proposed by both the House and the Senate. Within this amount, the agreement provides \$2,200,000 for study, planning, design, architect and engineer services.

# NORTH ATLANTIC TREATY ORGANIZATION SECURITY INVESTMENT PROGRAM

The conference agreement appropriates \$247,611,000 for the North Atlantic Treaty Organization Security Investment Program, the same amount as proposed by the House, instead of \$272,611,000 as proposed by the Senate.

## FAMILY HOUSING CONSTRUCTION, ARMY

The conference agreement appropriates \$176,897,000 for Family Housing Construction, Army as proposed by both the House and the Senate.

## FAMILY HOUSING OPERATION AND MAINTENANCE, ARMY

The conference agreement appropriates \$493,458,000 for Family Housing Operation and Maintenance, Army instead of \$494,858,000 as proposed by both the House and the Senate.

*General Officer Flag Officer Quarters.*—The conferees reduced the request for Family Housing Operation and Maintenance by \$1,400,000 based on the Secretary of the Army's notification that the exterior repairs in Stuttgart, Germany are no longer necessary.

## FAMILY HOUSING CONSTRUCTION, NAVY AND MARINE CORPS

The conference agreement appropriates \$100,972,000 for Family Housing Construction, Navy and Marine Corps as proposed by both the House and the Senate.

## FAMILY HOUSING OPERATION AND MAINTENANCE, NAVY AND MARINE CORPS

The conference agreement appropriates \$367,863,000 for Family Housing Operation and Maintenance, Navy and Marine Corps as proposed by both the House and the Senate.

## FAMILY HOUSING CONSTRUCTION, AIR FORCE

The conference agreement appropriates \$60,042,000 for Family Housing Construction, Air Force instead of \$84,804,000 as proposed by both the House and the Senate. The funding adjustment was requested by the Air Force to offset a shortfall in family housing operation and maintenance funding. To cover the shortfall, the Air Force requested the cancellation of a family housing construction improvement project at Misawa, Japan, resulting in a decrease of \$24,762,000 from the budget submission.

## FAMILY HOUSING OPERATION AND MAINTENANCE, AIR FORCE

The conference agreement appropriates \$429,523,000 for Family Housing Operation and Maintenance, Air Force instead of \$404,761,000 as proposed by both the House and the Senate. The \$24,762,000 increase was requested by the Air Force to cover a projected shortfall in family housing operation and maintenance funding. The funding increase is offset by a corresponding reduction of \$24,762,000 in Air Force family housing construction funding.

## FAMILY HOUSING OPERATION AND MAINTENANCE, DEFENSE-WIDE

The conference agreement appropriates \$50,723,000 for Family Housing Operation and Maintenance, Defense-Wide as proposed by both the House and the Senate.

## DEPARTMENT OF DEFENSE FAMILY HOUSING IMPROVEMENT FUND

The conference agreement appropriates \$2,184,000 for the Department of Defense Family Housing Improvement Fund as proposed by both the House and the Senate.

#### HOMEOWNERS ASSISTANCE FUND

The conference agreement appropriates \$1,284,000 for the Homeowners Assistance Fund as proposed by both the House and the Senate. The conference agreement also includes language that the Secretary of Defense shall not issue any regulation or otherwise take any action to limit the submission of applications prior to September 30, 2012, for benefits, including permanent change of station benefits, as provided under section 1013 of the Demonstration Cities and Metropolitan Development Act of 1966, (42 U.S.C. 3374), as amended.

#### CHEMICAL DEMILITARIZATION CONSTRUCTION, DEFENSE-WIDE

The conference agreement appropriates \$75,312,000 for Chemical Demilitarization Construction, Defense-Wide as proposed by both the House and the Senate.

#### DEPARTMENT OF DEFENSE BASE CLOSURE ACCOUNT 1990

The conference agreement appropriates \$323,543,000 for the Department of Defense Base Closure Account 1990, as proposed by the Senate instead of \$373,543,000 as proposed by the House.

#### DEPARTMENT OF DEFENSE BASE CLOSURE ACCOUNT 2005

The conference agreement appropriates \$258,776,000 for the Department of Defense Base Closure Account 2005, as proposed by both the House and Senate. The conferees note that significant bid savings have been realized in the BRAC 2005 military construction program, primarily as a result of the favorable bid climate over the past several years, and believe that these savings should be used to offset current BRAC 2005 requirements as well as current and projected requirements of the Homeowners Assistance Program. The conferees therefore are rescinding \$258,776,000 from previous BRAC 2005 appropriations (Sec. 132 of Administrative Provisions) to offset the fiscal 2012 request. Additionally, the conferees direct the Department to use the transfer authority provided elsewhere in this Act to transfer sufficient unobligated balances from the BRAC 2005 account to the Homeowners Assistance Program to address eligible claims for benefits, including permanent change of station benefits, submitted through September 30, 2012.

**BRAC 133.**—On November 30, 2011, the Department of Defense Inspector General (DODIG) released report number DODIG 2012-024, which found that the Army's transportation management plan for Base Closure and Realignment (BRAC) recommendation #133 (Mark Center) was based on faulty data, rendering the transportation plan's findings and conclusions unreliable. Further, the Inspector General found that the traffic studies used to develop the plan do not address the totality of issues related to site ingress and egress, nor will the plan achieve its goal of reducing single-occupancy vehicle utilization. The conferees find the analysis as outlined in the DODIG's report deeply troubling. Equally troubling is the Army's refusal to even consider the DODIG's recommendations.

In an effort to mitigate traffic congestion surrounding the Mark Center site, the conference agreement includes a limitation on the number of parking spaces the Department may utilize at the Mark Center to no more than 2,000, with the exception of disabled parking spaces. The limitation may be waived in part, but not in whole, if the Secretary of Defense certifies that none of the intersections surrounding the Mark Center

reach failing levels of service "e" or "f," as defined by the Transportation Research Board Highway Capacity Manual, during a consecutive 90 day period.

Should the intersections currently undergoing traffic monitoring surrounding the Mark Center be deemed as not to have reached failing levels of service, the Department of Defense (DOD) and the Virginia Department of Transportation (VDOT) must agree to the number of additional spaces that may be utilized at the Mark Center, which would then be subject to another 90 day traffic monitoring program. To ensure that the Department adequately plans and mitigates traffic generated by the BRAC #133 development, the Department is directed to implement the DODIG's recommendations outlined in report number DODIG-2012-024, and certify to Congress not later than 180 days after enactment of this Act that the recommendations have been implemented.

The conferees recognize that the employees that work at the Mark Center bear no fault in the poor planning and execution of the transportation management plan. The conferees therefore strongly encourage the Department of Defense to examine mandatory commuting alternatives such as telework, flexible work schedules, satellite parking facilities with dedicated shuttle service to the Mark Center, parking capacity at the Pentagon, additional ridesharing and public transit incentives and all other means to ensure that Mark Center employees can commute to and from work without undue burden.

#### ADMINISTRATIVE PROVISIONS (INCLUDING TRANSFERS AND RESCISSIONS OF FUNDS)

The conference agreement includes section 101 as proposed by both the House and the Senate limiting the use of funds under a cost-plus-a-fixed-fee contract.

The conference agreement includes section 102 as proposed by both the House and the Senate allowing the use of construction funds in this title for hire of passenger motor vehicles.

The conference agreement includes section 103 as proposed by both the House and the Senate allowing the use of construction funds in this title for advances to the Federal Highway Administration for the construction of access roads.

The conference agreement includes section 104 as proposed by both the House and the Senate prohibiting construction of new bases in the United States without a specific appropriation.

The conference agreement includes section 105 as proposed by both the House and the Senate limiting the use of funds for the purchase of land or land easements that exceed 100 percent of the value.

The conference agreement includes section 106 as proposed by both the House and the Senate prohibiting the use of funds, except funds appropriated in this title for that purpose, for family housing.

The conference agreement includes section 107 as proposed by both the House and the Senate limiting the use of minor construction funds to transfer or relocate activities.

The conference agreement includes section 108 as proposed by both the House and the Senate prohibiting the procurement of steel unless American producers, fabricators, and manufacturers have been allowed to compete.

The conference agreement includes section 109 as proposed by both the House and the Senate prohibiting the use of construction or family housing funds to pay real property taxes in any foreign nation.

The conference agreement includes section 110 as proposed by both the House and the Senate prohibiting the use of funds to initiate a new installation overseas without prior notification.

The conference agreement includes section 111 as proposed by the Senate establishing a preference for American architectural and engineering services for overseas projects. The House bill contained a similar provision, but included countries within the United States Central Command Area of Responsibility.

The conference agreement includes section 112 as proposed by the Senate establishing a preference for American contractors in certain locations. The House bill contained a similar provision, but included countries within the United States Central Command Area of Responsibility.

The conference agreement includes section 113 as proposed by both the House and the Senate requiring congressional notification of military exercises when construction costs exceed \$100,000.

The conference agreement includes section 114 as proposed by both the House and the Senate limiting obligations in the last two months of the fiscal year.

The conference agreement includes section 115 as proposed by both the House and the Senate allowing funds appropriated in prior years for new projects authorized during the current session of Congress.

The conference agreement includes section 116 as proposed by both the House and the Senate allowing the use of expired or lapsed funds to pay the cost of supervision for any project being completed with lapsed funds.

The conference agreement includes section 117 as proposed by both the House and the Senate allowing military construction funds to be available for five years.

The conference agreement includes section 118 as proposed by both the House and the Senate allowing the transfer of proceeds between BRAC accounts.

The conference agreement includes section 119 as proposed by both the House and the Senate allowing the transfer of funds from Family Housing Construction accounts to the Family Housing Improvement Fund.

The conference agreement includes section 120 as proposed by both the House and the Senate allowing transfers to the Homeowners Assistance Fund.

The conference agreement does not include a provision proposed by the Senate (Sec. 120) requiring congressional notification prior to issuing a solicitation for a contract with the private sector for family housing. The House bill contained no similar provision.

The conference agreement includes section 121 as proposed by both the House and the Senate limiting the source of operation and maintenance funds for flag and general officer quarters and allowing for notification by electronic medium.

The conference agreement includes section 122 as proposed by both the House and the Senate extending the availability of funds in the Ford Island Improvement Account.

The conference agreement includes section 123 as proposed by both the House and the Senate placing limitations on the expenditure of funds for projects impacted by BRAC 2005.

The conference agreement includes section 124 as proposed by both the House and the Senate allowing the transfer of expired funds to the Foreign Currency Fluctuations, Construction, Defense account.

The conference agreement includes section 125 as proposed by the Senate allowing for

the reprogramming of construction funds among projects and activities subject to certain criteria. The House bill contained a similar provision with an additional reporting requirement.

The conference agreement does not include a provision proposed by the House (Sec. 126) rescinding unobligated balances available for the Base Realignment and Closure Account 1990. The Senate bill contained no similar provision.

The conference agreement includes a modified section 126 as proposed by the Senate related to the closure of the Umatilla Army Chemical Depot. The House bill contained no similar provision.

The conference agreement includes a modified section 127 as proposed by the House which limits parking at BRAC 133 to 2,000 spaces and includes other requirements and exemptions. The Senate bill contained no similar provision.

The conference agreement includes section 128 as proposed by the Senate restricting the obligation of funds for a permanent United

States Africa Command headquarters outside of the United States until an analysis of all military construction costs is submitted to the congressional defense committees. The House bill contained no similar provision.

The conference agreement includes section 129 as proposed by the House prohibiting the use of funds for any action related to the expansion of Pinon Canyon Maneuver Site, Colorado. The Senate bill contained no similar provision.

The conference agreement includes a modified section 130 as proposed by the House restricting the obligation of funds for relocating an Army unit that performs a testing mission. The Senate bill contained no similar provision.

The conference agreement does not include a provision proposed by the Senate (Sec. 129) restricting the obligation of funds for military construction projects in Germany. The House bill contained no similar provision. This issue is instead addressed under Items of General Interest in Title I.

The conference agreement does not include a provision proposed by the Senate (Sec. 130) requiring a report on the status and improvement plan for all DODEA schools with Q3 or Q4 rating. The House bill contained no similar provision. This issue is instead addressed under Military Construction, Defense-Wide in Title I.

The conference agreement includes section 131 rescinding unobligated balances primarily due to bid savings from the following accounts in the specified amounts: Military Construction, Army, \$100,000,000; Military Construction, Navy and Marine Corps, \$25,000,000; Military Construction, Air Force, \$32,000,000; and Military Construction, Defense-Wide, \$131,400,000. The Senate bill contained no similar provision.

The conference agreement includes section 132 rescinding unobligated balances from the Department of Defense Base Closure Account 2005. The House bill contained a similar provision and the Senate bill contained no similar provision.

## TITLE II

DEPARTMENT OF VETERANS AFFAIRS  
VETERANS BENEFITS ADMINISTRATION  
COMPENSATION AND PENSIONS

The conference agreement appropriates \$51,237,567,000 for Compensation and Pensions instead of \$58,067,319,000 as proposed by both the House and the Senate. The agreement reflects new estimates provided in the Administration's mid-session review. Of the amount provided, not more than \$32,187,000 is to be transferred to General Operating Expenses, Veterans Benefits Administration, Medical Support and Compliance, and Information Technology Systems for reimbursement of necessary expenses in implementing provisions of title 38, as proposed by both the House and the Senate.

## READJUSTMENT BENEFITS

The conference agreement appropriates \$12,108,488,000 for Readjustment Benefits instead of \$11,011,086,000 as proposed by both the House and the Senate. The agreement reflects new estimates provided in the Administration's mid-session review.

VETERANS INSURANCE AND  
INDEMNITIES

The conference agreement appropriates \$100,252,000 for Veterans Insurance and Indemnities as proposed by both the House and the Senate.

VETERANS HOUSING BENEFIT PROGRAM  
FUND

The conference agreement appropriates such sums as may be necessary for costs associated with direct and guaranteed loans for the Veterans Housing Benefit Program Fund, as proposed by both the House and the Senate. The agreement limits obligations for direct loans to not more than \$500,000 and provides that \$154,698,000 shall be available for administrative expenses, as proposed by both the House and the Senate.

VOCATIONAL REHABILITATION LOANS  
PROGRAM ACCOUNT

The conference agreement appropriates \$19,000 for the cost of direct loans from the Vocational Rehabilitation Loans Program Account, plus \$343,000 to be paid to the appropriation for General Operating Expenses, Veterans Benefits Administration, as proposed by both the House and the Senate. The agreement provides for a direct loan limitation of \$3,019,000 as proposed by both the House and the Senate.

NATIVE AMERICAN VETERAN HOUSING  
LOAN PROGRAM ACCOUNT

The conference agreement appropriates \$1,116,000 for administrative expenses of the Native American Veteran Housing Loan Program Account as proposed by both the House and the Senate.

VETERANS HEALTH ADMINISTRATION  
AREAS OF INTEREST

*Rural access.* The conferees are deeply concerned about the difficulties veterans in rural areas face in finding appropriate and accessible Department of Veterans Affairs (VA) health care. As identified in the House and Senate reports, the conferees urge the VA to focus on infrastructure improvements at small and mid-sized medical centers, to consider offering mobile health services, to promulgate regulations allowing veterans service organizations to provide better transportation options for rural veterans, and to partner with State and local organizations to identify veterans in rural and highly rural areas. The conferees also expect to see a long-range strategic plan for the Office of

Rural Health, as well as that Office's response to recommendations in the Inspector General's April 2011 report. The conferees emphasize that all reports on rural access issues requested by either the House or Senate are required to be submitted to the Committees on Appropriations of the House of Representatives and the Senate ("Committees") 90 days after enactment of this Act, as described in the first section of this explanatory statement. In addition to the strategic plan, the conferees strongly urge the Department to improve the accessibility, efficiency, and effectiveness of rural healthcare by detailing options available for veterans who need to access healthcare from facilities which are "split campus" models where outpatient care and specialty services are not collocated.

*Licensing.* The conferees urge the Department of Defense (DOD) and the VA to examine ways to eliminate duplicative licensing requirements as described in Senate Report 112-29.

## MEDICAL SERVICES

The conference agreement appropriates \$41,354,000,000 in advance for fiscal year 2013 for Medical Services, as proposed by both the House and the Senate. The agreement does not extend the availability of any of this funding until September 30, 2014, as proposed by the House. The conferees do not include the language proposed by the House limiting the use of \$664,000,000 of fiscal year 2012 medical services funding to the fourth quarter and only once approval is obtained from the Committees.

The conference agreement fully funds the family caregivers program at the request level of \$248,000,000 for fiscal year 2013. The conferees urge the VA to ensure that the caregivers program remains a top priority.

The conference agreement provides sufficient resources to fully implement VA homeless assistance programs, including the providers grant and per diem, domiciliary care for homeless veterans, and the HUD-VA supported housing program. In particular, the conferees urge the VA to focus on homeless veterans living in rural and highly rural areas.

The conferees concur with the direction of the House regarding an annual report detailing the distribution of medical services funding among the Veterans Integrated Service Networks, central headquarters, and medical centers.

The conferees concur with the House report language directing the VA not to convert dialysis service from contract-provided care to in-house care until after completion and evaluation of its pilot demonstration. The conferees include an exception to this directive if there are any locations where it would result in a diminution of clinical care.

The conferees urge the VA to continue implementation of the Integrated Mental Health Strategy.

The conferees note that VA HIV testing rates significantly improved at VA facilities which used a clinical reminder to prompt routine HIV testing. The conferees urge the VA to employ HIV testing clinical reminders at all VA medical centers to accelerate the implementation of routine HIV testing, consistent with VHA Directive 2009-036. The conferees also encourage the VA to continue to award laboratory and clinical grants to implement routine HIV testing.

## MEDICAL SUPPORT AND COMPLIANCE

The conference agreement appropriates \$5,746,000,000 in advance for fiscal year 2013 for Medical Support and Compliance, as pro-

posed by both the House and the Senate. The agreement does not extend the availability of any of this funding until September 30, 2014, as proposed by the House.

## MEDICAL FACILITIES

The conference agreement appropriates \$5,441,000,000 in advance for fiscal year 2013 for Medical Facilities, as proposed by both the House and the Senate. The agreement does not extend the availability of any of this funding until September 30, 2014, as proposed by the House. The conferees urge the Department to submit an additional fiscal year 2013 budget request for Medical Facilities with the submission of the 2013 budget to address the need for increased non-recurring maintenance funding. Additionally, the conferees direct the Department to submit no later than April 6, 2012, a comprehensive list by location of all established multi-specialty outpatient clinics and any proposed to be opened in fiscal year 2012.

## MEDICAL AND PROSTHETIC RESEARCH

The conference agreement appropriates \$581,000,000 for Medical and Prosthetic Research as proposed by the Senate instead of \$530,774,000 as proposed by the House.

The conferees continue to support the development of advanced prosthetic devices and direct that, no later than 90 days after the enactment of this Act, the Secretary, in coordination with the Defense Advanced Research Projects Agency, shall submit to the Committees on Appropriations, the Committees on Veterans Affairs, and the Committees on Armed Services of both Houses of Congress a report on the Department's plans to make the next generation of advanced prosthetics available for injured veterans and members of the Armed Forces. The report shall include the strategic plan and timetable to make the next generation prosthetic devices available and a description of the challenges (both technical and administrative) that could impact the schedule, as well as the Department's plans to mitigate these challenges.

## NATIONAL CEMETERY ADMINISTRATION

The conference agreement appropriates \$250,934,000 for the National Cemetery Administration (NCA) as proposed by both the House and the Senate. Of the amount provided, \$25,100,000 is available until September 30, 2013, as proposed by both the House and the Senate.

The conferees are concerned that the NCA has failed to adequately serve the burial needs the nation's veterans in rural areas. The NCA fiscal year 2012 budget submission acknowledges that 10 percent of all veterans will not have access to a burial option in a national, State or tribal cemetery. The majority of these underserved veterans live in rural areas, and the conferees are concerned that the NCA's Urban Initiative will exacerbate the disparity of burial services between urban and rural veterans. The conferees have included a provision in the bill prohibiting funds from being used to expand the Urban Initiative beyond the sites already outlined in the budget until the NCA submits to the Committees a detailed strategy to meet the burial needs of veterans residing in rural and highly rural areas. The report shall include a timeline for implementation of such a strategy and cost estimates of establishing new burial sites in at least five rural or highly rural locations. This report shall be submitted no later than February 6, 2012.

In the short term, because the Secretary has the authority to waive Department guidance establishing a population threshold for creating national cemeteries, the conferees

urge the Secretary to use this waiver authority to address the pressing needs for access to VA cemeteries in some rural areas.

DEPARTMENTAL ADMINISTRATION  
GENERAL ADMINISTRATION  
(INCLUDING TRANSFER OF FUNDS)

The conference agreement appropriates \$416,737,000 for General Administration, instead of \$400,500,000 as proposed by the House and \$431,257,000 as proposed by the Senate. Of the amount provided, \$20,837,000 is available for obligation until September 30, 2013, instead of \$22,144,000 as proposed by the House and \$21,562,000 as proposed by the Senate. The conference agreement includes bill language permitting the transfer of funds from this account to "General Operating Expenses, Veterans Benefits Administration", as proposed by both the House and Senate. Bill language is not included to identify specific resources to improve acquisition workforce capacity. The House and Senate had included such language, but with different funding amounts.

The Administration's budget request proposed that funding for administrative expenses associated with executive offices be included in a single account with the general operating expenses of the Veterans Benefits Administration. The conference agreement includes funding for these two distinct functions in two separate accounts: General operating expenses, Veterans Benefits Administration; and General administration, as proposed by both the House and Senate. The conferees believe that differences in the mission and purpose of the Department's executive offices and the Veterans Benefits Administration justify providing funding in two separate accounts. Further, separating these two broad categories will provide the Congress with greater visibility of budgetary resources and oversight of expenditures for these two vital missions.

The conference agreement includes the following funding levels:

[In thousands of dollars]			
Office	House	Senate	Conference
The Secretary .....	9,270	10,104	10,085
Board of Veterans Appeals .....	78,273	78,006	78,006
General Counsel .....	80,778	84,073	83,099
Management .....	43,956	45,686	45,598
Human Resources .....	68,590	70,516	70,379
Policy and Planning .....	26,015	26,127	26,015
Operations Security and Prep ..	16,746	19,543	18,510
Public and Intergovernmental Affairs .....	22,079	23,330	23,286
Cong and Legislative Affairs ..	6,065	6,065	6,053
Acquisition, Logistics and Construction .....	70,728	67,807	55,706
Undistributed .....	-22,000	.....	.....
Total .....	400,500	431,257	416,737

The total for the Office of the General Counsel includes \$1,889,000 for staffing to speed the appeals process and regulation promulgation, as requested by the Administration and proposed by the Senate. The House had no similar provision.

Within the total for the Office of Management, the conference agreement provides \$1,600,000 to conduct audits of the Veterans Health Administration Fee Care program, as requested by the Administration and proposed by the Senate. The House did not include a similar provision. The conferees concur in the Fee Care report requirement proposed by the Senate and expect the report to be submitted within 90 days of enactment of this Act.

The conferees provide \$1,900,000 within the Office of Operations, Security and Preparedness to implement the Homeland Security Presidential Directive 12 mandate. The Senate provided \$2,900,000 for this activity, as

proposed in the Administration request; the House did not provide specific funding. The agreement also provides \$705,000 to activate the Integrated Operations Center and the Capital Region Readiness Center, as requested by the Administration and proposed by the Senate. The House did not include a similar provision.

The conference agreement provides \$1,150,000 within the Office of Public and Intergovernmental Affairs for the tribal government outreach and new media offices, as requested by the Administration and proposed by the Senate. The House did not include similar provisions.

The conference agreement provides \$5,000,000 within the Office of Acquisition, Logistics, and Construction for the 2012 President's acquisition initiative and the facilities management transformation. The House provided \$20,000,000 for these activities; the Senate provided \$17,000,000.

The conferees require the VA to include in budget justification documents each year a detailed summary of the marketing campaign budget, as proposed in the House report. The Senate report did not include a similar requirement.

The conferees concur in the Senate report directive requiring a report on adopting payment recapture audits, with the report to be submitted within 90 days of enactment of this Act.

GENERAL OPERATING EXPENSES,  
VETERANS BENEFITS ADMINISTRATION

The conference agreement appropriates \$2,018,764,000 for General Operating Expenses, Veterans Benefits Administration, as proposed by the Senate instead of \$2,020,128,000, as proposed by the House. The agreement makes available not to exceed \$105,000,000 of this funding until the end of fiscal year 2013, as proposed by the Senate, instead of \$105,856,000 as proposed by the House. The conferees concur with Senate report language regarding Decision Review Officers.

INFORMATION TECHNOLOGY SYSTEMS

The conference agreement appropriates \$3,111,376,000 for Information Technology (IT) Systems instead of \$3,025,000,000 as proposed by the House and \$3,161,376,000 as proposed by the Senate. The agreement follows the Senate format of identifying separately in bill language the funding available for pay (\$915,000,000); operations and maintenance (\$1,616,018,000); and systems development, modernization, and enhancement (\$580,358,000). The Senate bill provided \$915,000,000 for pay; \$1,709,953,000 for operations and maintenance; and \$536,423,000 for development. The House provided all IT funding in one lump sum. The agreement also adopts the Senate proposal of making \$25,000,000 of pay funding available until the end of fiscal year 2013; \$110,000,000 of operations and maintenance funding available until the end of fiscal year 2013; and all IT systems development, modernization and enhancement funding available until the end of fiscal year 2013. The House proposed to make the entire IT appropriation available until the end of fiscal year 2013.

On May 2, 2011, the Secretary of Veterans Affairs and the Secretary of Defense entered into an agreement to implement an integrated electronic health record (iEHR) system rather than pursue separate strategies for modernizing the two existing health record systems. The conferees are encouraged by this agreement and believe that successful development and implementation is crucial for both Departments to continue to provide high-quality medical care in the 21st

century and to enhance seamless transition from active duty to the VA.

The conferees strongly encourage the Secretaries of the Department of Veterans Affairs and the Department of Defense to continue to work together throughout the development of this new system to ensure an unambiguous and unified message is clearly articulated to both Departments. It is imperative the new iEHR system be agreed to and driven by senior leadership at both Departments to ensure system development is on time and within budget.

Given that the two Departments entered into this agreement after the Administration had transmitted the fiscal year 2012 budget request to Congress, the VA has had to alter its original Information Technology budget submission to account for iEHR. According to the VA, the requirement for iEHR in fiscal year 2012 is \$100,000,000, which includes \$73,200,000 in development funds. The conference agreement fully funds this request and includes an updated development chart displaying the iEHR development requirement.

The conferees direct the Department of Veterans Affairs, in conjunction with the Department of Defense, to identify the timeframe for completion of an integrated electronic health record system and develop detailed benchmarks to track progress. Additionally, the conferees direct the Office of Information Technology to provide quarterly updates on the progress of this project to the Committees on Appropriations of both Houses of Congress.

The conference agreement includes language proposed in both the House and Senate bills requiring that no IT funding may be obligated until the VA submits to the Committees, and the Committees approve, an expenditure plan meeting the four criteria outlined. The conferees are disturbed that the VA has not complied with this language in previous years and expect prompt compliance in fiscal year 2012.

The conference agreement includes bill language proposed by the Senate but not the House prohibiting the obligation of IT development, modernization, and enhancement funding until the VA submits a certification of the amounts to be obligated, in part or in full, for each development project.

The conference agreement includes bill language proposed by the Senate but not the House permitting funding made available for the three IT subaccounts to be transferred among them after the VA requests and receives approval from the Committees.

The conferees include bill language making funds available for IT development, modernization, and enhancement for the projects and in the amounts specified in the following table:

INFORMATION TECHNOLOGY DEVELOPMENT PROJECTS  
[In thousands of dollars]

Total Other Development .....	334,916
Total Development .....	580,538

As proposed in the Senate bill, the conferees intend this table to serve as the Department's approved list of development projects; any requested changes are subject to reprogramming guidelines. The agreement does not include the House proposed bill language requiring the VA to submit to the Committees a reprogramming base letter by project within 30 days of enactment of this Act.

The conference agreement directs the Department to submit an expenditure plan to the Committees within 30 days of enactment of this Act as proposed by both the House and the Senate. This plan should be in the same format as the table above. The conferees also expect all future IT budget displays provided to the Committees to use this format.

The conferees concur in the Senate report language concerning metrics for evaluating the Veterans Benefits Management System pilot.

#### OFFICE OF INSPECTOR GENERAL

The conference agreement appropriates \$112,391,000 for the Office of Inspector General as proposed by the Senate instead of \$109,391,000 as proposed by the House. Of the amount provided, \$6,000,000 is available for obligation until September 30, 2013, as proposed by the House instead of \$6,600,000 as proposed by the Senate.

#### CONSTRUCTION, MAJOR PROJECTS

The conference agreement appropriates \$589,604,000 for Construction, Major Projects as proposed by both the House and the Senate.

The agreement makes this funding available until expended, as proposed by the Senate, rather than with a limitation of five years as proposed by the House. The conferees are concerned about the very large unobligated balances that have built up in the major construction account and believe that the account's "no year" funding framework must be changed. In contrast, military construction funds provided in this bill are made available on a five-year basis. The Department of Defense (DOD) is able to manage these funds and construct its buildings in a timely way. The conferees understand that the VA will need to make process changes in planning, budgeting, and execution to make the DOD five-year obligation approach viable. The conferees direct the VA to develop a plan to transition to five-year availability of funds for both major and minor construction and deliver the plan to the Committees within 180 days of enactment of this Act. The plan should identify any legislative language needed to make the plan workable. The conferees' goal is to implement this plan when finalizing the fiscal year 2013 budget in the fall of 2012.

The conference agreement funds the following items as requested in the budget submission and as proposed by both the House and Senate:

Project	Conference agreement
Veterans Health Admin (VHA):	
New Orleans, LA new medical facility .....	\$60,000,000
Denver, CO new medical facility .....	42,000,000
San Juan, PR seismic corrections .....	100,720,000
St. Louis, MO medical facility improvements .....	80,000,000
Palo Alto, CA polytrauma/ambulatory care .....	75,900,000
Bay Pines, FL in-/outpatient improvements .....	43,970,000
Seattle, WA seismic deficiencies .....	47,500,000
Reno, NV expansion of clinical services .....	21,380,000
W. Los Angeles, CA new tower/renovation .....	50,790,000
San Francisco, CA seismic deficiencies .....	22,480,000
Advance Planning Fund .....	59,145,000
Asbestos .....	40,000,000
Facility Security .....	8,000,000
CFM Staff .....	24,200,000
Judgment Fund .....	5,000,000
Total VHA .....	681,085,000
National Cemetery Admin (NCA):	
National Memorial Cemetery of Pacific columbarium/administration .....	23,700,000
Advance Planning Fund .....	4,500,000
NCA Land Acquisition Fund .....	10,000,000
Total NCA .....	38,200,000
General Admin staff offices .....	6,000,000
Available from existing projects .....	(135,681,000)
Major construction total .....	589,604,000

The conferees direct the VA to submit a master plan at the time of the budget submission describing each major construction project included in the budget. The plan should include the projected time line for completion of each component of each of the projects and the annual and total cost of each project. The format of the DOD Form 1391 is a good model for the VA to use to describe clearly and completely the expected obligations for each project.

The conferees encourage the VA to examine its practices on rehabilitation and re-use of national landmarks within the VA infrastructure that are aging, outdated, or obsolete and report to the Committees on any actions taken or planned to be taken on these facilities.

#### CONSTRUCTION, MINOR PROJECTS

The conference agreement appropriates \$482,386,000 for Construction, Minor Projects, instead of \$475,091,000 as proposed by the House and \$550,091,000 as proposed by the Senate. The agreement makes this funding available until expended, as proposed by the Senate, rather than with a limitation of five years as proposed by the House. As indicated in the narrative for Construction, Major Projects, the VA is directed to develop a plan to transition to five-year availability of funds for both major and minor construction and deliver the plan to the Committees within 180 days of enactment of this Act.

As proposed by the Senate, the conferees direct the Department to provide to the Committees an expenditure plan for this account within 30 days of enactment of this Act. The House did not propose a similar requirement.

The conferees expect the fiscal year 2013 budget submission to include a separate list of all minor construction projects proposed to be funded in fiscal year 2013 in priority order, consistent with the integrated Strategic Capital Investment Plan.

#### GRANTS FOR CONSTRUCTION OF STATE EXTENDED CARE FACILITIES

The conference agreement appropriates \$85,000,000 for Grants for Construction of State Extended Care Facilities, as proposed by both the House and the Senate.

#### GRANTS FOR CONSTRUCTION OF VETERANS CEMETERIES

The conference agreement appropriates \$46,000,000 for Grants for Construction of Veterans Cemeteries, as proposed by both the House and the Senate.

#### ADMINISTRATIVE PROVISIONS

##### (INCLUDING TRANSFERS AND RESCISSIONS OF FUNDS)

The conference agreement includes section 201 as proposed by both the House and the Senate allowing for transfers among three mandatory accounts.

The conference agreement includes section 202 as proposed by both the House and the Senate allowing for the transfer of funds among the three medical accounts.

The conference agreement includes section 203 as proposed by both the House and the Senate allowing salaries and expenses funds to be used for related authorized purposes.

The conference agreement includes section 204 as proposed by both the House and the Senate restricting the use of funds for the acquisition of land.

The conference agreement includes section 205 as proposed by both the House and the Senate limiting the use of funds in the Medical Services account only for entitled beneficiaries unless reimbursement is made to the Department.

The conference agreement includes section 206 as proposed by both the House and the Senate allowing for the use of certain mandatory appropriations accounts for payment of prior year accrued obligations for those accounts.

The conference agreement includes section 207 as proposed by both the House and the Senate allowing the use of appropriations available in this title to pay prior year obligations.

The conference agreement includes section 208 as proposed by both the House and the Senate allowing the Department to use surplus earnings from the National Service Life Insurance Fund, the Veterans' Special Life Insurance Fund, and the United States Government Life Insurance Fund to administer these programs.

The conference agreement includes section 209 as proposed by both the House and the Senate allowing the Department to cover the administrative expenses of enhanced-use leases and provides authority to obligate these reimbursements in the year in which the proceeds are received.

The conference agreement includes section 210 as proposed by both the House and the Senate limiting the amount of reimbursement the Office of Resolution Management and the Office of Employment Discrimination Complaint Adjudication can charge other offices of the Department for services provided.

The conference agreement includes section 211 as proposed by both the House and the Senate limiting the use of funds for any lease with an estimated annual rental cost of more than \$1,000,000 unless approved by the Committees on Appropriations of both Houses of Congress.

The conference agreement includes section 212 as proposed by both the House and the Senate requiring the Department to collect third-party payer information for persons treated for a non-service connected disability.

The conference agreement includes section 213 as proposed by both the House and the Senate allowing for the use of enhanced-use leasing revenues for Construction, Major Projects and Construction, Minor Projects.

The conference agreement includes section 214 as proposed by both the House and the Senate allowing Medical Services funds to be used for expenses related to the broader mission of medical care to veterans.

The conference agreement includes section 215 as proposed by both the House and the Senate allowing for funds deposited into the Medical Care Collections Fund to be transferred to the Medical Services account.

The conference agreement includes section 216 as proposed by both the House and the Senate which allows Alaskan veterans to use medical facilities of the Indian Health Service or tribal organizations.

The conference agreement includes section 217 as proposed by the Senate providing for the transfer of funds from the Department of Veterans Affairs Capital Asset Fund to the Construction, Major Projects and Construction, Minor Projects accounts and makes those funds available until expended. The House proposed that these funds be made available for five years.

The conference agreement includes section 218 as proposed by both the House and the Senate prohibiting the use of funds for any policy prohibiting the use of outreach or marketing to enroll new veterans.

The conference agreement includes section 219 as proposed by both the House and the Senate requiring the Secretary to submit quarterly reports on the financial status of the Veterans Health Administration.

The conference agreement includes section 220 as proposed by both the House and the Senate requiring the Department to notify and receive approval from the Committees of any proposed transfer of funding to or from the Information Technology Systems account.

The conference agreement includes section 221 as proposed by the Senate providing for

transfer of funds among development, modernization and enhancement projects or to newly identified projects within the Information Technology Systems account. The House proposed similar but more general language.

The conference agreement includes section 222 as proposed by the Senate prohibiting any funds to be used to contract out any function performed by more than ten employees without a fair competition process. The House did not propose a similar provision.

The conference agreement includes section 223 as proposed by both the House and the Senate limiting the obligation of non-recurring maintenance funds during the last two months of the fiscal year.

The conference agreement includes section 224 as proposed by both the House and the Senate providing up to \$241,666,000 for transfer to the joint DoD-VA Medical Facility Demonstration Fund.

The conference agreement includes section 225 as proposed by both the House and the Senate which authorizes transfers from the Medical Care Collections Fund to the joint DoD-VA Demonstration Fund.

The conference agreement includes section 226 as proposed by both the House and the Senate which transfers at least \$15,000,000 from VA medical accounts to the DoD-VA health care sharing incentive fund.

The conference agreement includes section 227 which is similar to a provision proposed by both the House and the Senate. It rescinds fiscal year 2012 medical account funding and re-appropriates it to be available for two years. The provision rescinds and re-appropriates \$1,400,000,000 for Medical Services, \$100,000,000 for Medical Support and Compliance, and \$250,000,000 for Medical Facilities. The House bill provided slightly different amounts.

The conference agreement includes section 228 as proposed by the Senate requiring that the Department notify the Committees of bid savings in major construction projects of at least \$5,000,000 or 5 percent within 14 days of a contract identifying the programmed amount. The House bill proposed similar language.

The conference agreement includes section 229 as proposed by both the House and the Senate which prohibits the VA from increasing the scope of work for a major construction project above the scope specified in the original budget request.

The conference agreement includes section 230 which is similar to a provision proposed by the House regarding VA provision of information about controlled substance prescriptions to State controlled substance monitoring programs. The Senate bill did not contain a similar provision.

The conference agreement does not include section 230 as proposed by the Senate, requiring the Secretary, in coordination with the Defense Advanced Research Projects Agency (DARPA), to submit a report on the next generation of advanced prosthetics. This issue is addressed under the Medical and Prosthetic Research account.

The conference agreement includes section 231 requiring the Secretary to report to the Committees each quarter about any single national outreach and awareness marketing campaign exceeding \$2,000,000. The House bill contained similar language. The Senate did not have a comparable provision.

The conference agreement includes, as VA administrative provision section 232, a general provision proposed by the House prohibiting the VA from using any funds to declare

as excess to the needs of the VA Federal land and improvements to the St. Albans campus in New York. The Senate bill did not include a similar provision.

The conference agreement includes, as VA administrative provision section 233, a general provision proposed by the House prohibiting the use of funds in the Act for any contract using procedures that do not give to small business concerns owned and controlled by veterans any preference with respect to such contract, except for a preference given to small business concerns owned and controlled by service-disabled veterans. The Senate bill did not include a similar provision.

The conference agreement includes section 234 extending the authorization for the VA office in the Philippines through December 31, 2012. Neither the House nor the Senate bill contained a comparable provision.

### TITLE III

#### RELATED AGENCIES

##### AMERICAN BATTLE MONUMENTS COMMISSION

##### SALARIES AND EXPENSES

The conference agreement includes \$61,100,000 for Salaries and Expenses of the American Battle Monuments Commission.

##### FOREIGN CURRENCY FLUCTUATIONS ACCOUNT

The conference agreement includes such sums as necessary, estimated at \$16,000,000, for the Foreign Currency Fluctuations Account.

##### UNITED STATES COURT OF APPEALS

##### FOR VETERANS CLAIMS SALARIES AND EXPENSES

The conference agreement includes \$30,770,000 for Salaries and Expenses.

##### DEPARTMENT OF DEFENSE—CIVIL CEMETERIAL EXPENSES, ARMY SALARIES AND EXPENSES

The conference agreement includes \$45,800,000 for Salaries and Expenses.

*Information Technology.*—The conferees recognize the significant management and oversight improvements that have been made at Arlington National Cemetery over the past year, particularly efforts to improve the accuracy and reliability of burial and headstone records. The conferees also realize that the development of a robust information technology system is essential to this effort. To ensure that information technology development remains on track, the Executive Director of the Cemetery is directed to provide a report to Congress detailing the strategic plan and timetable for completing the modernization of the Cemetery's information technology system, including electronic burial records. The report should also include a description of improvements implemented to date, and identify any remaining information technology and systems infrastructure requirements. The report should be submitted to the following Committees of both Houses of Congress no later than 90 days after enactment of this Act: The Committees on Appropriations, Armed Services, Veterans Affairs, and the Senate Homeland Security and Governmental Affairs Committee.

##### ARMED FORCES RETIREMENT HOME TRUST FUND

The conference agreement includes \$67,700,000 for the Armed Forces Retirement Home, to be derived from the Trust Fund.

##### GENERAL FUND PAYMENT ARMED FORCES RETIREMENT HOME

The conference agreement includes \$14,630,000 for the Armed Forces Retirement

Home, to be derived from the General Treasury. The amount provided is to facilitate repairs at the Washington, DC, campus to correct damage sustained by an earthquake on August 23, 2011.

#### ADMINISTRATIVE PROVISION

The conference agreement does not include a Senate provision (Sec. 301) requiring a report on information technology modernization for Arlington National Cemetery. This issue is instead addressed elsewhere in this Statement of Managers.

#### TITLE IV

##### OVERSEAS CONTINGENCY OPERATIONS DEPARTMENT OF DEFENSE

The conference agreement includes a new title IV, Overseas Contingency Operations.

Title IV provides funding for certain military construction projects in the Central Command and Africa Command Areas of Responsibility that was requested in title I, Military Construction, in the budget submission. The conferees agree that the projects transferred to title IV are necessary to support the global war on terrorism and should be designated as overseas contingency operations functions.

#### MILITARY CONSTRUCTION, ARMY

The conference agreement appropriates \$80,000,000 for Military Construction, Army in this title instead of title I of this Act as proposed by both the House and Senate.

#### MILITARY CONSTRUCTION, NAVY AND MARINE CORPS

The conference agreement appropriates an additional \$189,703,000 for Military Construction, Navy and Marine Corps in this title instead of title I of this Act as proposed by both the House and Senate.

#### ADMINISTRATIVE PROVISIONS

##### (INCLUDING RESCISSION OF FUNDS)

The conference agreement includes section 401 rescinding unobligated balances from title IV, Division E of Public Law 111-117 in the specific amount of \$269,703,000. The House and Senate bill included no similar provision.

Note: Funding for these projects was requested and is displayed in title I, Military Construction. The conference agreement provides the requested level of funding for these projects in title IV.

## TITLE V

## GENERAL PROVISIONS

Section 501 prohibits the obligation of funds in the Act beyond the current fiscal year unless expressly so provided.

Section 502 prohibits the use of the funds in this Act for programs, projects or activities not in compliance with Federal law relating to risk assessment, the protection of private property rights, or unfunded mandates.

Section 503 requires pay raises to be absorbed within the levels appropriated in the Act.

Section 504 prohibits the use of funds in the Act to support or defeat legislation pending before Congress.

Section 505 encourages all Departments to expand their use of “E-Commerce”.

Section 506 specifies the Congressional Committees that are to receive all reports and notifications.

Section 507 prohibits the transfer of funds to any instrumentality of the United States Government without authority from an appropriations Act.

Section 508 prohibits the use of funds for a project or program named for a serving Member, Delegate, or Resident Commis-

sioner of the United States House of Representatives.

Section 509 requires all reports submitted to the Congress to be posted on official websites of the submitting agency.

Section 510 prohibits the use of funds to establish or maintain a computer network unless such network blocks the viewing, downloading, and exchanging of pornography, except for law enforcement investigation, prosecution, or adjudication activities.

Section 511 prohibits the use of funds in this Act for the renovation, expansion, or construction of any facility in the continental United States for the purpose of housing any individual who has been detained at the United States Naval Station, Guantanamo Bay, Cuba.

Section 512 prohibits the use of funds for the payment of first-class travel by an employee of the executive branch.

Section 513 prohibits the use of funds in this Act for any contract where the contractor has not complied with E-Verify requirements.

The conference agreement includes a modified House provision, Section 514, which prohibits the use of funds in this Act for any contract, memorandum of understanding, or cooperative agreement with any corporation

convicted of a felony criminal violation within the preceding 24 months, where the awarding agency is aware of the conviction.

The conference agreement includes House provision 416 as an administrative provision under title II.

The conferees have not included a House provision, section 417 which prohibited funds for the enforcement of section 526 of the Energy Independence and Security Act of 2007. The conferees note that the enforcement of section 526 of the Energy Independence and Security Act of 2007 may lead to higher fuel costs for federal fleets in the absence of competitively priced new generation fuels that emit fewer emissions. In carrying out this statute, the Secretary of Defense and the Secretary of Veterans Affairs should work to ensure that costs associated with fuel purchases necessary to carry out the missions of their respective departments should be minimized to the extent possible under the law.

The conference agreement includes House provision 418 as an administrative provision under title II.

The conference agreement does not include House provision 419 which prohibited funds to be used in contravention of the War Powers Resolution.

DIVISION I—DEPARTMENT OF STATE,  
FOREIGN OPERATIONS, AND RELATED  
PROGRAMS APPROPRIATIONS ACT, 2012

In implementing this conference agreement, the departments and agencies shall comply with the Senate report (S. Rept. 112-85) accompanying S. 1601 as though stated in this joint explanatory statement unless specifically directed to the contrary. Matters addressed in the report of the House Subcommittee on State, Foreign Operations, and Related Programs (Full Committee Print, circulated on July 29, 2011) are restated in this joint explanatory statement where the conferees concur.

TITLE I

DEPARTMENT OF STATE AND RELATED  
AGENCY

DEPARTMENT OF STATE

ADMINISTRATION OF FOREIGN AFFAIRS

DIPLOMATIC AND CONSULAR PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$6,550,947,000 for Diplomatic and Consular Programs (D&CP), of which up to \$1,355,000,000 is for Worldwide Security Protection. The conference agreement provides an additional \$4,389,064,000 in title VIII under this heading, which is designated for Overseas Contingency Operations/Global War on Terrorism (OCO/GWOT) pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

Within the total provided under this heading, the conference agreement includes:

- \$2,277,862,000 for Human Resources (of which \$121,814,000 is for public diplomacy);
- \$2,109,293,000 for Overseas Programs (of which \$347,572,000 is for public diplomacy);
- \$822,513,000 for Diplomatic Policy and Support; and
- \$1,341,279,000 for security programs.

The conference agreement does not include funding for the 185 new positions requested in fiscal year 2012. The conference agreement assumes continuation of the pay freeze in fiscal year 2012 for all Department of State employees, including Foreign Service Officers.

The conference agreement includes language amending the heading "Civilian Stabilization Initiative" included in prior acts to "Conflict Stabilization Operations" (CSO) and provides transfer authority of up to \$35,000,000 of the funds appropriated under this heading to funds made available under the CSO heading. The conference agreement provides an additional \$8,500,000 in title VIII under the CSO heading, which is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985. The conferees remain concerned with CSO's limited activities, specifically the minor role it has played in response to the earthquake in Haiti and the revolution in Libya. The conferees will further assess the performance of the CSO during fiscal year 2012.

The conferees request the Secretary of State to be prepared to report to the Committees on Appropriations in hearings on the fiscal year 2013 budget on the use of the Secretary's authority to determine whether an American citizen has voluntarily renounced United States citizenship as a result of engaging in activities with a Foreign Terrorist Organization.

The conferees recognize that B-1 and B-2 visitor visa applications in some countries, such as the People's Republic of China (PRC) and Brazil, are significantly and rapidly increasing. The number of visa applications increased 53 percent in Brazil and 64 percent in

the PRC from fiscal year 2010 to fiscal year 2011, resulting in increased delays in interviewing applicants and longer approval times. The Department of State is taking steps to reduce the wait time but more needs to be done. Section 7076 of this Act directs the Secretary of State to take steps to reduce delays in processing tourist visas in the PRC, Brazil, and India, and to consider extending the expiration period for B-1 and B-2 visas for applicants before requiring a consular officer interview. The conferees recognize that wait times for interviews can fluctuate due to unforeseen circumstances, including assisting United States citizens abroad during an emergency, but expect the Department to continue to implement steps to minimize wait times. The conferees expect the Secretary of State to determine the appropriate extension beyond the current one-year limit in a manner consistent with security controls. The conference agreement also permits the Secretary to conduct a pilot program for processing tourist visas via secure remote videoconferencing technology if doing so would not pose a security risk.

The conferees direct the Secretary of State to report to the Committees on Appropriations, not later than 90 days after enactment of this Act, on steps taken to reduce visa processing wait times; the Department of State's 5-year forecast of non-immigrant visas for each country; the number of consular officers necessary to meet the Department's standards; a comparison of the Department's forecast with the Department of Commerce's 5-year visitor arrival projections; and the impact of the different projections on visa processing times and the required number of consular officers.

The conferees direct the Secretary of State to provide to the Committees on Appropriations, not later than 90 days after the end of any videoconference pilot program, an assessment of the efficacy, efficiency, and security of this technology for conducting visa interviews.

The conferees endorse Senate report language regarding the Coordinator for Cyber Issues, and recommend \$1,000,000, in addition to funds otherwise made available for such purposes, for operations and programs under the Coordinator's authority. The conferees recommend that the fiscal year 2013 congressional budget justification materials include a request for program funds under the Coordinator's authority in the accounts included in title III of this Act.

The conferees urge the Department of State to examine alternative approaches to furnishing residences for Foreign Service Officers posted overseas, including consideration of options for substantially reducing costs and delivery times and increasing available choices.

The conferees are concerned with the unnecessary idling of parked motor vehicles that is wasteful and harms the environment. The conferees direct that, not later than 90 days after enactment of this Act, the Secretary of State, in consultation with the head of each United States Government agency that uses funds appropriated by this Act to purchase or lease motor vehicles, shall establish a policy to eliminate the unnecessary idling of parked motor vehicles and provide a copy of such policy to the Committees on Appropriations. Such policy may include exceptions to accommodate important security, health, or safety concerns, and if necessary to perform an important job function, ensure safe operating conditions, or to operate a motor vehicle in accordance with manufacturer specifications.

The conferees support the Secretary of State's expanded engagement with governments to improve the inter-country adoption process, to finalize implementation agreements with such governments, where appropriate, and to resolve impediments to the completion of adoptions for waiting families and children.

The conferees encourage the Secretary of State to continue to support the United States-Colombia Action Plan on Racial and Ethnic Equality and the United States-Brazil Joint Action Plan on Racial and Ethnic Equality.

The conference agreement includes new language prohibiting the use of funds under this heading for the preservation of religious sites unless the Secretary of State determines and reports to the Committees on Appropriations that: (1) the site is historically, artistically, or culturally significant; (2) the purpose of the project is neither to advance nor to inhibit the free exercise of religion; and (3) the project is in the national interest of the United States.

The conferees direct that a portion of the funds that have been provided to the Bureau of International Organizations Affairs and Office of International Conferences should be used to support the Group of 8 (G-8) and NATO summits during 2012.

The conference agreement includes language requiring the continuation of the pilot Partner Vetting System (PVS), and requires that such pilot be implemented by September 30, 2012. The conferees direct that such PVS pilot continue to be applied equally to the programs and activities of the Department of State and USAID, as required by section 7034 of Public Law 111-117.

The conferees direct the Secretary of State to provide to the Committees on Appropriations, not later than 90 days after enactment of this Act, the following information on the Acquisitions Management program funded by the 1 percent procurement fee: (1) the Working Capital Fund (WCF) including carry-over balances, by line item, service center and program, currently available for the Acquisitions Management program; (2) the actual expenditures in fiscal year 2011 by line item, service center and program; (3) the number of staff, including employees and contractors funded by the 1 percent procurement fee; and (4) an evaluation of the efficiencies and improvements gained through this program. The Secretary is also directed to include: (1) the funds from the 1 percent procurement fee in the WCF in the Department's operating plans and quarterly unobligated balances report; and (2) a WCF section in the Department's fiscal year 2013 congressional budget justification, providing information on total budgetary resources for the Bureau of Administration and any other office that receives WCF funds and a WCF table by line item, service center and program that shall serve as the control level for reprogramming and transfer purposes.

The conferees direct the Secretary of State to continue to assist American victims of terrorism abroad regarding frozen assets for compensation and other issues, including from the bombings of United States facilities in Kenya and Tanzania and terrorist acts sponsored by former Libyan leader Muammar Qaddafi.

The conferees endorse Senate report language regarding funding for the Bureau of Democracy, Human Rights and Labor to monitor United States assistance to foreign security forces pursuant to section 620M of the Foreign Assistance Act of 1961, as amended by this Act.

The conferees direct the Secretary of State to continue the reporting requirement detailed under this heading in the joint statement accompanying the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2010 (division F of Public Law 111-117) concerning agreements for transfer and release of detainees at Naval Station, Guantanamo Bay, Cuba.

Section 7078 of this Act requires the Secretary of State to submit an operating plan for funds appropriated in title I. The conferees expect the operating plan to integrate the additional funds appropriated in title VIII for OCO/GWOT, where appropriate, and the OCO/GWOT amounts should be separately identified in the integrated plan.

#### CAPITAL INVESTMENT FUND

The conference agreement provides \$59,380,000 for the Capital Investment Fund. In addition, the conference agreement permits the transfer of up to \$6,000,000 from funds appropriated under the heading Diplomatic and Consular Programs to funds available under this heading.

#### OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$61,904,000 for the Office of Inspector General (OIG), and an additional \$67,182,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The conferees direct the Inspectors General of the Department of State and the United States Agency for International Development (USAID), the Special Inspector General for Afghanistan Reconstruction (SIGAR), and the Special Inspector General for Iraq Reconstruction (SIGIR) to coordinate audit plans and activities to minimize unnecessary duplication, ensure comprehensive oversight plans, and maximize the effective use of resources. The conferees direct the OIG to continue to plan for increased responsibilities when SIGIR draws down its oversight operations.

Section 7078 of the conference agreement requires the relevant department, agency, or organization to submit to the Committees on Appropriations a spend plan for funds appropriated in titles I and II of this Act. The conferees expect each inspector general funded under this heading in titles I and VIII to submit such plans within 30 days of enactment of this Act.

#### EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS

The conference agreement provides \$583,200,000 for Educational and Cultural Exchange Programs, and an additional \$15,600,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

No funds are provided for the one-time competitive grants program in fiscal year 2012.

Section 7078 of this Act includes a requirement that the Secretary of State submit to the Committees on Appropriations an operating plan for funds appropriated under this heading. The conferees expect such plan will include the distribution of unobligated balances and recoveries, as well as any transfers to this account from other accounts. The operating plan should integrate the funds appropriated under this heading in title VIII of this Act for OCO/GWOT, and the OCO/GWOT amounts should be separately identified in the integrated plan.

Funds in this account are allocated, unless otherwise noted, according to the following table, and are subject to the provisions of section 7019 of this Act:

#### EDUCATIONAL AND CULTURAL EXCHANGE PROGRAMS

(Budget authority in thousands of dollars)

Activity	Budget authority
Academic Exchanges .....	324,582
<b>Special Academic Exchanges (non-add)</b> .....	<b>[38,670]</b>
Professional and Cultural Exchanges .....	193,964
<b>Special Professional and Cultural Exchanges (non-add)</b> .....	<b>[7,881]</b>
Program Evaluation .....	5,054
Exchanges Support .....	59,600
Total, Educational and Cultural Exchange Programs <sup>1</sup> .....	583,200

<sup>1</sup> An additional \$15,600,000 is included in title VIII under this heading designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

#### REPRESENTATION ALLOWANCES

The conference agreement provides \$7,300,000 for Representation Allowances.

The conferees direct the Secretary of State to provide a semi-annual report to the Committees on Appropriations on the allotment and expenditure of representation allowances.

#### PROTECTION OF FOREIGN MISSIONS AND OFFICIALS

The conference agreement provides \$27,000,000 for Protection of Foreign Missions and Officials.

The conferees expect the Secretary of State to continue to submit to the Committees on Appropriations a semi-annual report on the number of claims for extraordinary protective services that have been submitted by eligible jurisdictions and certified as meeting the program requirements, and the amount of unobligated funds available to pay such claims.

The conferees urge the Secretary of State to make appropriate reimbursements to jurisdictions providing security for visiting foreign officials and their delegations attending the G-8 and NATO summits in the United States during 2012.

#### EMBASSY SECURITY, CONSTRUCTION, AND MAINTENANCE

The conference agreement provides \$1,537,000,000 for Embassy Security, Construction, and Maintenance, of which \$775,000,000 is for worldwide security upgrades and \$762,000,000 is for other construction, operations, and maintenance. The conference agreement provides an additional \$33,000,000 in title VIII under this heading designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The conference agreement does not include funding for the nine new positions requested for fiscal year 2012. The conference agreement includes authorization for the Maintenance Cost Sharing initiative to utilize funding from the Capital Security Cost Sharing (CSCS) program for the maintenance, repair, and rehabilitation of new facilities with an inter-agency presence.

The conferees are concerned with the long-term sustainability of the operating, maintenance, and utility costs of new diplomatic and consular facilities and directs the Secretary of State to impose a moratorium on beginning any new Capital Security construction projects until the Secretary provides the following information to the Committees on Appropriations: (1) the additional annual costs for operations and maintenance, including utilities and salaries, and the number of additional facilities and engineering staff that have been hired to operate the diplomatic and consular facilities that have become operational since the CSCS program began; (2) the estimated additional

costs for operations and maintenance, including utilities and salaries, and the number of additional facilities and engineering staff necessary to operate the diplomatic and consular facilities that have been funded and/or are being constructed; and (3) the plan for addressing the \$111,000,000 in deferred maintenance at existing diplomatic and consular facilities reported in the Department's 2010 financial statements.

The conferees direct the Secretary of State to seek to ensure that, where practicable, construction projects funded by this Act are accessible to people with disabilities.

Section 7004(c) of this Act continues the requirement that all agencies and departments fully meet their capital cost share obligations under section 604(e) of the Secure Embassy Construction and Counterterrorism Act of 1999, and directs that such agency assessments be proportional to the Department of State's capital security cost share contribution. The conferees direct that funds appropriated in prior acts not be used to augment the Department of State's capital security cost share contribution for purposes of determining the 2012 capital security cost share assessment of other agencies.

Section 7004(f) of this Act includes a limitation on the use of funds, other than funds from real property sales located in London, United Kingdom, for site acquisition and mitigation, planning, design or construction of the New London Embassy and requires regular reporting on the project's progress and cost.

Section 7078 of this Act requires the Secretary of State to submit to the Committees on Appropriations an operating plan for funds appropriated under this heading. Such plan should include all resources available to the Department of State in fiscal year 2012 for operations, maintenance, and construction, and an accounting of the actual and anticipated proceeds of sales for all projects in fiscal year 2011. The operating plan should integrate the funds appropriated under this heading in title VIII of this Act for OCO/GWOT, and the OCO/GWOT amounts should be separately identified in the integrated plan.

#### EMERGENCIES IN THE DIPLOMATIC AND CONSULAR SERVICE (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$9,300,000 for Emergencies in the Diplomatic and Consular Service.

#### REPATRIATION LOANS PROGRAM ACCOUNT (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$1,447,000 for the Repatriation Loans Program Account, of which not more than \$710,000 is for administrative expenses.

#### PAYMENT TO THE AMERICAN INSTITUTE IN TAIWAN

The conference agreement provides \$21,108,000 for the American Institute in Taiwan.

#### PAYMENT TO THE FOREIGN SERVICE RETIREMENT AND DISABILITY FUND

The conference agreement provides \$158,900,000 for the Foreign Service Retirement and Disability Fund.

#### INTERNATIONAL ORGANIZATIONS CONTRIBUTIONS TO INTERNATIONAL ORGANIZATIONS

The conference agreement provides \$1,449,700,000 for Contributions to International Organizations, and an additional \$101,300,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the

Balanced Budget and Emergency Deficit Control Act of 1985.

The conferees direct the Secretary of State to report to the Committees on Appropriations, not later than 90 days after enactment of this Act, on the current status of the United Nations Capital Master Plan, including its initial scope and costs, any modifications made or planned, and the total contributions made to date by each United Nations (UN) member state.

The conferees direct the Secretary of State to conduct a review of United States membership in each international organization supported by this account and prioritize the United States participation in, and funding for, each organization in accordance with United States policy goals. The review should also include any recent reforms the organizations have taken to increase transparency and accountability. The conferees direct the Secretary to provide the results of the review not later than 120 days after enactment of this Act.

The conferees direct the United States Mission to the United Nations (USUN) and the Department of State to continue to advocate for an independent Office of Internal Oversight Services (OIOS) to improve internal controls, efficiency, and effectiveness of the UN. The conferees expect the Department and USUN to make the United Nations Transparency and Accountability Initiative a priority, and to provide updates in the congressional budget justification for fiscal year 2013 and on the Web site.

The conferees expect the Department of State to continue to submit a report to the Committees on Appropriations on voting practices in the UN.

Section 7078 of this Act requires the Secretary of State to submit an operating plan for the funds made available under this heading. The operating plan should include each international organization funded, a notation of any exchange rate fluctuations that occurred since such estimates were calculated for the congressional budget justification for fiscal year 2012, and a description of any Tax Equalization Fund credits applied. In addition, the operating plan should integrate the funds appropriated under this heading in title VIII of this Act for OCO/GWOT, and the OCO/GWOT amounts should be separately identified in the integrated plan.

#### CONTRIBUTIONS FOR INTERNATIONAL PEACEKEEPING ACTIVITIES

The conference agreement provides \$1,828,182,000 for Contributions for International Peacekeeping Activities.

The conferees expect the Department of State and USUN to evaluate and prioritize peacekeeping missions, and consider phase-out and withdrawal when mission goals have been substantially achieved.

The conferees direct the Department of State to ensure that OIOS conducts oversight of UN peacekeeping missions.

The conference agreement includes language in section 7078 requiring an operating plan for this account not later than 30 days after enactment of this Act. The conferees expect the operating plan to include each peacekeeping mission funded and a description of any credits applied.

#### INTERNATIONAL COMMISSIONS

##### INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO SALARIES AND EXPENSES

The conference agreement provides \$44,722,000 for salaries and expenses of the International Boundary and Water Commission, United States and Mexico (IBWC).

#### CONSTRUCTION

The conference agreement provides \$31,453,000 for planning, preparation, and construction.

Funds in this account are allocated according to the following table and are subject to the provisions of section 7019 of this Act:

IBWC-Construction (Budget authority in thousands of dollars)	
Program/activity	Budget authority
Water Quantity Program .....	24,353
Rio Grande Flood Control System Rehabilitation (non-add) .....	[9,700]
Water Quality Program .....	1,400
Resource & Asset Management Program .....	5,700
Total, IBWC—Construction .....	31,453

#### AMERICAN SECTIONS, INTERNATIONAL COMMISSIONS

The conference agreement provides \$11,687,000 for American Sections, International Commissions.

#### INTERNATIONAL FISHERIES COMMISSIONS

The conference agreement provides \$36,300,000 for International Fisheries Commissions.

The conference agreement includes funding for the operational costs of the International Pacific Halibut Commission, including current lease expenses, and the conferees direct the Commission to fund these costs prior to investing in new programs or expanding existing programs.

The conferees intend that funds made available under this heading be allocated as detailed in the Senate report.

#### RELATED AGENCY

##### BROADCASTING BOARD OF GOVERNORS

##### INTERNATIONAL BROADCASTING OPERATIONS

The conference agreement provides \$740,100,000 for International Broadcasting Operations, and an additional \$4,400,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The conferees endorse Senate report language regarding the denial of funding for Broadcasting Board of Governors (BBG) program enhancements. The conferees do not support the proposed recommendation to restructure broadcasting to the PRC, and provide adequate funding to sustain fiscal year 2011 program levels for Voice of America (VOA) and Radio Free Asia broadcasts to the PRC, including engineering costs. The conferees also provide adequate funding to continue fiscal year 2011 program levels for Radio Free Europe/Radio Liberty's Radio Mashaal and VOA's Radio Deewa.

The conferees direct the BBG to notify the Committees on Appropriations of any significant increases or decreases to broadcast hours on each transmission platform (including shortwave, medium wave, Internet, satellite, and television) previously justified to Congress for all BBG language services. The conferees do not intend that the BBG should notify the Committees regarding minor or short-term broadcast schedule changes with minimal funding implications or that result from spring and fall time changes.

The conferees support continued funding for the BBG's Internet circumvention program and direct the BBG to submit a report to the Committees on Appropriations, prior to the initial obligation of funds, detailing planned expenditures of funds that are made available for activities to promote Internet freedom. The conferees also direct the BBG,

in coordination with the Secretary of State, to submit to the Committees on Appropriations, not later than September 30, 2012, a report describing efforts supported by the BBG, Department of State and USAID to promote Internet freedom, including an assessment of the results of such efforts and safeguards against the use of circumvention technology for illicit or illegal purposes. The conferees recommend that the fiscal year 2013 congressional budget justification materials include a request for funds for this program under this heading.

Funds in this account are allocated according to the following table and are subject to the provisions of section 7019 of this Act:

International Broadcasting Operations (Budget authority in thousands of dollars)	
Program	Budget authority
Federal	
BBG/IBB Operations .....	72,760
Voice of America .....	206,255
Broadcasting to Cuba .....	28,475
Engineering and Technical Services .....	189,300
Subtotal, Federal .....	496,790
Independent Grantee Organizations:	
Radio Free Europe/Radio Liberty (RFE/RL) .....	94,870
Radio Free Asia .....	38,315
Middle East Broadcasting Networks .....	110,125
Subtotal, Grantees .....	243,310
Total, International Broadcasting Operations <sup>1</sup> .....	740,100

<sup>1</sup> An additional \$4,400,000 is included in title VIII under this heading designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

Section 7078 requires the BBG to submit an operating plan for funds appropriated under this heading not later than 30 days after enactment of this Act. The conferees request that such plan include the assessed amount for the BBG's capital security cost share. In addition, the operating plan should integrate the funds appropriated under this heading in title VIII of this Act for OCO/GWOT, and the OCO/GWOT amounts should be separately identified in the integrated plan.

#### BROADCASTING CAPITAL IMPROVEMENTS

The conference agreement provides \$7,030,000 for Broadcasting Capital Improvements.

#### RELATED PROGRAMS

##### THE ASIA FOUNDATION

The conference agreement provides \$17,000,000 for The Asia Foundation (TAF).

The conferees urge TAF to continue to seek donations from private foundations and corporations, competitively bid awards from governmental and multilateral development agencies, and fee-based or reimbursable agreements as a means of sustaining its activities, programs and offices in an environment of fiscal constraint. The conferees request that TAF include a summary table detailing total revenue and support by category for fiscal year 2011 and projected for fiscal year 2012 in the fiscal year 2013 congressional budget justification.

#### UNITED STATES INSTITUTE OF PEACE

The conference agreement provides \$30,589,000 for the United States Institute of Peace (USIP), and an additional \$8,411,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The conferees urge USIP to continue to seek competitively bid awards from other Federal agencies and to fully implement fee-based or reimbursable agreements, where appropriate, as a means of sustaining its activities and programs in an environment of

fiscal constraint. The conferees request USIP include in the fiscal year 2013 congressional budget justification information on the amount of funds received in fiscal year 2011 from other Federal agencies, and the amount of revenue generated from fees and reimbursable agreements in fiscal year 2011, and projected for fiscal years 2012 and 2013.

CENTER FOR MIDDLE EASTERN-WESTERN  
DIALOGUE TRUST FUND

The conference agreement provides \$840,000 from interest and earnings from the Center for Middle Eastern-Western Dialogue Trust Fund.

EISENHOWER EXCHANGE FELLOWSHIP PROGRAM  
The conference agreement provides \$500,000 from interest and earnings from the Eisenhower Exchange Fellowship Program Trust Fund.

ISRAELI ARAB SCHOLARSHIP PROGRAM

The conference agreement provides \$375,000 from interest and earnings from the Israeli Arab Scholarship Endowment Fund.

EAST-WEST CENTER

The conference agreement provides \$16,700,000 for the East-West Center.

NATIONAL ENDOWMENT FOR DEMOCRACY

The conference agreement provides \$117,764,000 for the National Endowment for Democracy (NED).

The conference agreement directs that \$100,000,000 shall be allocated in the traditional and customary manner, as in prior years, to include the core institutes.

The conference agreement requires the President of NED to submit a report on the proposed uses of these funds on a regional and country basis not later than 45 days after enactment of this Act. The report should include programmatic goals for each country and region, and how the planned use of funds will meet such goals. The conferees direct NED to consult with the Committees on Appropriations in advance of any significant deviation from the plans outlined in such report.

OTHER COMMISSIONS

COMMISSION FOR THE PRESERVATION OF  
AMERICA'S HERITAGE ABROAD

SALARIES AND EXPENSES

The conference agreement provides \$634,000 for Commission for the Preservation of America's Heritage Abroad.

UNITED STATES COMMISSION ON  
INTERNATIONAL RELIGIOUS FREEDOM

SALARIES AND EXPENSES

The conference agreement provides \$3,000,000 for the United States Commission on International Religious Freedom.

The conference agreement extends the Commission's authorization for one year and adds language making applicable to the Commission certain authorities and limitations regarding employee rights, travel, and the procurement of temporary services.

The conferees also direct the Commission to provide a report to the Committees on Appropriations on actual fiscal year 2012 obligations and expenditures by cost category not later than October 31, 2012.

COMMISSION ON SECURITY AND COOPERATION IN  
EUROPE

SALARIES AND EXPENSES

The conference agreement provides \$2,715,000 for the Commission on Security and Cooperation in Europe.

CONGRESSIONAL-EXECUTIVE COMMISSION ON  
THE PEOPLE'S REPUBLIC OF CHINA

SALARIES AND EXPENSES

The conference agreement provides \$1,996,000 for Congressional-Executive Commission on the People's Republic of China.

UNITED STATES-CHINA ECONOMIC AND  
SECURITY REVIEW COMMISSION

SALARIES AND EXPENSES

The conference agreement provides \$3,493,000 for the United States-China Economic and Security Review Commission.

Not later than 180 days after enactment of this Act, the conferees direct the Commission to report to the Committees on Appropriations on the use of non-military assistance by the PRC (including loans, grants, and other funds not recognized as assistance by the Organization for Economic Cooperation and Development) to expand its strategic influence and access to natural resources. The report should be prepared on a region-by-region basis, include an analysis of the use of state-owned enterprises by the Government of the PRC (including those of the People's Liberation Army) to further these objectives, and be publicly available on the Commission's Web site.

TITLE II

UNITED STATES AGENCY FOR  
INTERNATIONAL DEVELOPMENT  
FUNDS APPROPRIATED TO THE PRESIDENT  
OPERATING EXPENSES

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$1,092,300,000 for USAID Operating Expenses, and an additional \$255,000,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The conference agreement extends the period of availability of funds under this heading from one to two years, and no longer extends the authorities of section 7011 for funds made available under this heading.

The conference agreement does not provide funding for additional Development Leadership Initiative positions in fiscal year 2012.

The conferees recognize the importance of USAID's procurement reform efforts to enable USAID to become a more accessible, transparent, effective, and efficient agency, and the conference agreement includes several provisions intended to support these efforts as well as to build the capacity of local partners. The conference agreement includes section 7077 regarding authority for a local competition pilot project, provides \$22,000,000 for the Acquisition Workforce Initiative and the Implementation and Procurement Reform Initiative, and \$3,000,000 for upgrades to the procurement IT system. The conferees intend that these funds will be used for USAID's procurement reform efforts in fiscal years 2012 and 2013. In addition, the conference agreement includes adequate funds for fiscal year 2012 staffing and operations costs for the Office of Acquisition and Assistance and for operations and maintenance of the procurement IT system. The conference agreement does not include a requested provision authorizing a new USAID Working Capital Fund. The conferees will revisit the justification for such a fund in fiscal year 2013. The conferees direct the USAID Administrator to provide to the Committees on Appropriations not later than May 1, 2012, an assessment of the efficiencies and improvements achieved as a result of USAID's procurement reform efforts.

The conferees direct the USAID Administrator to provide a report on staff hired by USAID, not later than 60 days after enactment of this Act, which details the number of people employed by: employment category (direct hire, personal service contractor, Participating Agency Service Agreement, and similar categories); veteran status of di-

rect hires; headquarters office or overseas post; and the appropriation account used to fund employees. The report shall also include the specific legislative authorities used to hire the employees as applicable, and if hired by another Federal agency, the additional administrative expenses charged by that agency. The conferees direct that this employment report reflect data as of the end of fiscal year 2011.

As in past years, USAID is directed to notify the Committees on Appropriations 15 days prior to any procurement action that involves awarding a sole source contract in excess of \$15,000,000; awarding a non-competitive grant or contract (other than sole source) in an amount greater than \$75,000,000; raising the ceiling on an existing Indefinite Quantity Contract (IQC) by an amount greater than \$35,000,000; issuing a new IQC in excess of \$75,000,000; awarding an umbrella grant in excess of \$25,000,000; or raising the ceiling on an existing umbrella grant in excess of \$25,000,000. This requirement does not apply to assistance in critical priority countries and assistance for humanitarian response or post-conflict situations.

The conferees direct the USAID Administrator to include in the fiscal year 2013 congressional budget justification an estimate of savings resulting from closing missions by each mission for fiscal years 2012, 2013, and 2014. The conferees support USAID's plan to close three missions during fiscal year 2012.

The conference agreement includes changes in section 7015 on notification requirements for certain reorganization actions, and the conferees direct the USAID Administrator to consult with the Committees on Appropriations prior to initiating such actions. For the purposes of this requirement, such reorganizations are limited to those resulting in a significant shift in responsibility of the operating unit or in staffing and funds. The conferees do not expect to be consulted or notified for staffing reorganizations resulting in little or no change in responsibility of the operating unit, staffing or funds.

The conferees direct the USAID Administrator to submit a report to the Committees on Appropriations, not later than 180 days after enactment of this Act, on the implementation of its branding policy. The report should include an analysis of the public diplomacy impact of the current branding policy on a regional basis and the justification for the use of waivers to the policy.

The conferees intend that funds appropriated under this heading be made available to develop and implement training for staff in overseas missions to promote the full inclusion and equal participation of people with disabilities. The conferees direct the USAID Administrator to seek to ensure that, where practicable, construction projects funded by this Act are accessible to people with disabilities and in compliance with USAID Policy on Standards for Accessibility for the Disabled, or other similar accessibility standards.

Funds in this account are allocated, unless otherwise noted, according to the following table, and are subject to the provisions of section 7019 of this Act:

USAID OPERATING EXPENSES

(Budget authority in thousands of dollars)

Program	Budget authority
Agency Reform Efforts .....	344,762
Development Leadership Initiative (no new hires) (non-add) .....	[319,762]
Procurement Reform (non-add) ....	[25,000]

USAID OPERATING EXPENSES—Continued  
(Budget authority in thousands of dollars)

Program	Budget authority
Non-Frontline States Operations (including headquarters) ..	632,100
Overseas Space Expansion .....	12,500
Central Support .....	191,064
Less other sources <sup>1</sup> .....	-88,126
<b>TOTAL, USAID Operating Expenses<sup>2</sup> .....</b>	<b>1,092,300</b>

<sup>1</sup> Other sources include trust funds and reimbursements.

<sup>2</sup> An additional \$255,000,000 is included in title VIII under this heading designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

CAPITAL INVESTMENT FUND

The conference agreement provides \$129,700,000 for the Capital Investment Fund.

The conferees direct the USAID Administrator to consult with the Committees on Appropriations, not later than 60 days after enactment of this Act and prior to the initial obligation of funds, on the proposed uses of these funds for the Capital Security Cost Sharing Program.

OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$46,500,000 for the Office of Inspector General, and an additional \$4,500,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

Funds appropriated under this heading are subject to the terms of section 7078 of this Act.

TITLE III

BILATERAL ECONOMIC ASSISTANCE

FUNDS APPROPRIATED TO THE PRESIDENT

GLOBAL HEALTH PROGRAMS

(INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$8,167,860,000 for Global Health Programs.

The conference agreement does not include language restricting the use of USAID's Global Health Programs funds for nonproject assistance. However, the conferees understand that USAID does not intend to enter into additional funding arrangements of this type, and agree with that position.

The Secretary of State and USAID Administrator are directed to provide a government-wide funding summary of global health programs for fiscal year 2012 to the Committees on Appropriations, not later than 90 days after enactment of this Act. The conferees expect the report to include a description of the differentiation of goals, implementing partners, and auditing standards for each Federal agency.

The conferees expect USAID to prioritize awarding funds under this heading through a competitive bidding process.

The conferees direct the USAID Administrator and the United States Global AIDS Coordinator to provide to the Committees on Appropriations, not later than 60 days after enactment of this Act, a report detailing steps taken to prevent the misappropriation of drugs funded through bilateral and multilateral funds.

The conferees direct USAID to develop and submit a new multi-year strategy on health-related research and development to the Committees on Appropriations.

The conferees direct that no funds under this heading may be used for needle exchange programs in fiscal year 2012.

The conferees direct the United States Global AIDS Coordinator to consult with the Committees on Appropriations, not later than 45 days after enactment of this Act, on how the Office of the Global AIDS Coordinator (OGAC) is expanding efforts to support microbicide development and product access.

The conferees direct the United States Global AIDS Coordinator to consult with the Committees on Appropriations regarding opportunities to further reduce treatment costs to enable more individuals to have access to life-saving drugs.

The conferees direct the Secretary of State to provide a report to the Committees on Appropriations, not later than 120 days after enactment of this Act, that contains the most recent Global Fund audit information, commitment and disbursement data, and a summary of the recipient and sub-recipient expenditures as reported to the United States Government, and to notify the Committees when this information is posted on the Department's Web site.

The conferees urge OGAC to work with countries to increase HIV testing, including the use of rapid tests, where feasible.

The conferees recommend that USAID and OGAC continue to support HIV-related media prevention programming.

The conferees recommend that OGAC and the USAID Bureau for Global Health consider utilizing the Department of the Treasury's technical advisors when programming funds for procurement and oversight capacity building in recipient countries.

Funds in this account are allocated, unless otherwise noted, according to the following table, and are subject to the provisions of section 7019 of this Act:

GLOBAL HEALTH PROGRAMS

(Budget authority in thousands of dollars)

Program/activity	Budget authority
Maternal and Child Health .....	605,550
Polio (non-add) .....	[35,000]
The GAVI Alliance (non-add) .....	[100,000]
Micronutrients (non-add) .....	[30,000]
[of which, Vitamin A] (non-add) .....	[20,000]
[of which, Iodine Deficiency Disorder] (non-add) .....	[2,000]
Nutrition (USAID) .....	95,000
Vulnerable Children (USAID) .....	17,500
Blind Children (non-add) .....	[2,500]
HIV/AIDS (USAID) .....	350,000
Microbicides (non-add) .....	[45,000]
HIV/AIDS (Department of State) .....	5,542,860
Global Fund to Fight HIV/AIDS, Malaria and Tuberculosis (non-add) .....	[1,050,000]
UNAIDS (non-add) .....	[45,000]
Family Planning/Reproductive Health (USAID) .....	523,950
Other Infectious Diseases (USAID) .....	1,033,000
Pandemic Preparedness (non-add) .....	[58,000]
Malaria (non-add) .....	[650,000]
Tuberculosis (non-add) .....	[236,000]
[of which, Global TB Drug Facility] (non-add) .....	[15,000]
Neglected Tropical Diseases (non-add) .....	[89,000]
<b>Total, Global Health Programs .....</b>	<b>8,167,860</b>

DEVELOPMENT ASSISTANCE

The conference agreement provides \$2,519,950,000 for Development Assistance (DA).

PROGRAMS

The conferees expect USAID to allocate funds provided for the American Schools and Hospitals Abroad program through an open and competitive process, in accordance with all applicable rules and regulations.

The conference agreement moves the position of Basic Education Coordinator from the Department of State to USAID. The conferees direct USAID to integrate schools and educational programs, as appropriate, within health and development programs to continue to implement the "Communities of Learning" model. The USAID Administrator is directed to consult with the Committees on Appropriations on a regular basis on these efforts.

The conferees authorize a contribution to be made to the Global Partnership for Education (the Partnership), formerly known as

the Education for All Fast Track Initiative, with funds appropriated in this Act for basic education. The conferees expect USAID to maintain its leadership role on the Partnership's Executive Board and provide assistance with monitoring and evaluation efforts.

The conferees endorse Senate report language regarding \$15,000,000 for partnerships between United States and African institutions of higher education.

The conferees expect USAID to consider the prevalence of child marriage when developing country operational plans and increase programmatic focus on this issue where appropriate.

The conferees direct the USAID Administrator to submit a report to the Committees on Appropriations, not later than 120 days after the date of enactment of this Act, on implementation of the Development Innovation Ventures (DIV) program. The report should include an overview of projects funded by DIV and their outcomes as they relate to the goals and objectives of the program, including successes related to efficiencies and cost-effectiveness. The conferees support USAID's efforts to leverage other Federal agencies' investments in similar areas and avoid duplication.

Funds made available for food security and agriculture development are subject to the terms of section 7078 of this Act. The required spend plan should also specify the amount and purpose of any funds to be transferred to other agencies.

Funds provided for environment programs funded through USAID, the Department of State, and the Department of the Treasury should be made available to help developing countries reduce greenhouse gas emissions; develop renewable energy and increase end-use energy efficiency; adapt to rising temperatures, water and food scarcity, and rising sea levels; protect tropical forests, wildlife, and other biodiversity; and implement policies for the transparent and sustainable use of natural resources. The conferees endorse language in the Senate report directing that \$200,000,000 be made available for biodiversity conservation programs, including \$2,000,000 to implement and enforce the Lacey Act (section 8204 of Public Law 110-246), \$10,000,000 for biodiversity programs in the Brazilian Amazon and \$20,000,000 for such programs in the Andean Amazon. The conferees endorse language in the Senate report on funding for the Congo Basin Forest Partnership, and direct that not less than \$9,000,000 of such funds be directly apportioned to the United States Fish and Wildlife Service (USFWS) for programs in Central Africa. The conferees endorse language in the Senate report directing that \$1,000,000 be directly apportioned to the Department of the Interior for biodiversity and archaeological conservation activities in Guatemala's Mayan Biosphere Reserve, to include governance and law enforcement. The conferees recommend funding for other international conservation programs administered by the USFWS, United States Forest Service, the National Park Service, and the National Oceanic and Atmospheric Administration. The conferees continue to support funding to protect great apes in Indonesia and Africa and wildlife in South Sudan and Niger.

The conferees direct the Secretary of the Treasury to submit a report to the Committees on Appropriations describing, for each international financial institution, the amount and type of assistance provided, by country, for the extraction and export of natural resources in the preceding 12 months, and whether each institution considered, in providing such assistance, the extent to which the country has functioning

systems, laws, and regulations in place to prevent or limit the public disclosure of company payments as required by section 1504 of Public Law 111-203.

The conferees endorse funding and purposes included in the Senate report for the Leahy War Victims Fund.

The conferees direct the USAID Administrator to target 50 percent of funding for microenterprise and microfinance to the very poor, as required by section 252(c) of the Foreign Assistance Act of 1961. The conferees direct USAID to continue to increase these programs in sub-Saharan Africa.

The conferees note the importance of land tenure in economic development, and expect USAID to build upon the programmatic experience of the Millennium Challenge Corporation to improve the implementation of such activities.

The conferees expect USAID to seek to ensure that assistance does not compete with emerging small businesses, entrepreneurs, and local economies in recipient countries, and instead works to strengthen them.

The conferees direct the Secretary of State, in consultation with the Ambassador-at-Large of the Office for Global Women's Issues, other relevant United States Government agencies, and international and non-governmental organizations, to identify and take emergency measures to respond to violence against women and girls in situations of armed conflict and direct the Secretary of State to consult with the Committees on Appropriations, as necessary.

The conferees endorse funding included in the Senate report for victims of torture.

#### COUNTRIES

*Ecuador.*—The conferees endorse language in the Senate report on health and environment programs in Ecuador.

*Ethiopia.*—The conferees remain concerned with the Government of Ethiopia's increasing restrictions on the media and expect the Department of State and USAID to support programs that promote freedom of expression and association in Ethiopia.

*Guatemala.*—The conferees support programs to address gender-based violence.

*Indonesia.*—The conferees recommend that \$70,000,000 of funds provided under this heading be made available for assistance for Indonesia, of which not less than \$400,000 should be made available for grants for capacity building of Indonesian human rights organizations, including in Papua.

*Morocco.*—The conferees note that funds provided in title III of this Act for Morocco may be used in regions and territories administered by Morocco. The conferees remain concerned with resolving the dispute over the Western Sahara and urge the Department of State to prioritize a negotiated settlement.

*Nepal.*—The conferees endorse the Senate report recommending that \$7,000,000 under this heading be made available for assistance for Nepal.

*People's Republic of China.*—The conference agreement does not include funds for programs in the PRC under this heading.

*Philippines.*—The conferees recommend that \$35,000,000 be made available for assistance for the Philippines under this heading.

*Senegal.*—The conferees recommend that not less than \$50,000,000 should be made available for assistance for Senegal under this heading. However, the conferees are concerned that Hissène Habré has not been extradited for prosecution for crimes against humanity, and direct the Secretary of State to submit a report to the Committees on Appropriations, not later than 45 days after en-

actment of this Act, on steps taken by the Government of Senegal to assist in bringing Habré to justice.

*Vietnam.*—The conferees recommend not less than \$5,000,000 under this heading be made available for health/disability activities in areas in Vietnam that were targeted with Agent Orange or remain contaminated with dioxin. The conferees endorse Senate report language on consultation and the development of a multi-year plan.

#### INTERNATIONAL DISASTER ASSISTANCE

The conference agreement provides \$825,000,000 for International Disaster Assistance, and an additional \$150,000,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The conferees direct the USAID Administrator to consult with the Committees on Appropriations on efforts to facilitate communication and collaboration with the private sector, non-profit organizations, and other entities seeking to assist during an international disaster.

The USAID Administrator is also directed to consult with the Committees on Appropriations, not later than 90 days after enactment of this Act, on the format and content of international disaster assistance reports that are made available to Congress and the public.

#### TRANSITION INITIATIVES

The conference agreement provides \$50,141,000 for Transition Initiatives, and an additional \$6,554,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The conferees direct USAID's Office of Transition Initiatives (OTI) to submit a report to the Committees on Appropriations at the end of the fiscal year summarizing new, ongoing, and completed country programs implemented by OTI in fiscal year 2012. Prior to submission, OTI should consult with the Committees on Appropriations regarding the format and content of the report.

#### COMPLEX CRISES FUND

The conference agreement provides \$10,000,000 for Complex Crises Fund, and an additional \$30,000,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

#### DEVELOPMENT CREDIT AUTHORITY (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides a ceiling of \$40,000,000 for funds that may be transferred from other programs in this title to the Development Credit Program and provides \$8,300,000 for administrative expenses.

#### ECONOMIC SUPPORT FUND

##### (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$3,001,745,000 for Economic Support Fund (ESF), and an additional \$2,761,462,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

Section 7078 of this Act requires submission of a spend plan for certain countries and programs not later than 30 days after enactment of this Act. The conferees request that these spend plans integrate the funds appropriated under this heading and in title VIII of this Act for OCO/GWOT where appropriate, and the OCO/GWOT amounts should be separately identified in the integrated plan.

*Afghanistan.*—The conferees remain concerned with the capacity of the Government

of Afghanistan to effectively oversee increased levels of direct government-to-government assistance.

The conferees direct the USAID Administrator to regularly update the Committees on Appropriations on the Accountable Assistance for Afghanistan Initiative.

The conferees expect the Department of State to resolve disagreements regarding the tax-exempt status for United States-based contractors and subcontractors that implement United States Government assistance programs in Afghanistan and direct the Secretary of State to report to the Committees on Appropriations on steps being taken to address tax-exempt status in new and existing contracts and agreements.

The conference agreement provides \$10,000,000 for the Afghan Civilian Assistance Program if problems identified by the USAID Inspector General are addressed and not less than \$5,000,000 for the Office of Global Women's Issues small grant program as described in the Senate report.

*Africa.*—The conferees support the budget request for Liberia and South Sudan.

*Burma.*—The conferees endorse Senate report language on the United States Special Envoy and Policy Coordinator for Burma and request that the Special Envoy consult regularly with the Committees on Appropriations on developments in, and assistance for, Burma.

*Central American Regional Security Initiative (CARSI)/Caribbean Basin Security Initiative (CBSI).*—The conferees support the budget request for CARSI and CBSI.

*Colombia.*—The conference agreement provides not less than \$179,000,000 under this heading to be apportioned directly to USAID for continued support of new and ongoing alternative development/institution building in Colombia, of which not less than \$7,000,000 shall be transferred to the Migration and Refugee Assistance account to address the needs of Colombian refugees in neighboring countries, and not less than \$15,000,000 is provided for assistance for Afro-Colombian and indigenous groups including for renewable energy activities in isolated communities. The conferees support assistance for flood relief and recovery including for small farmers, and recommend that not less than \$3,000,000 be made available for continued support for biodiversity conservation programs and \$500,000 for community-based programs to address the needs of children disabled by landmines and other causes related to the armed conflict.

*Cuba.*—The conferees support the budget request for Cuba.

*Cyprus.*—The conferees recommend \$3,500,000 for Cyprus and endorse the purposes and intent of the funding included in the Senate report.

*Egypt.*—The conference agreement includes conditions on assistance and authority regarding assistance for Egypt in section 7041 of this Act, which are further discussed under title VII of this joint explanatory statement.

The conferees direct the Secretary of State to submit a report to the Committees on Appropriations, not later than 60 days after enactment of this Act, outlining steps that the Government of Egypt is taking to protect religious minorities, including Coptic Christians, prevent sectarian and gender-based violence, and hold accountable those who commit such acts.

Funds made available for Egypt are subject to the terms of section 7078 of this Act. The required spend plan shall also include the proposed uses of unobligated/available funds appropriated in prior years.

*El Salvador.*—The conferees are aware of the devastating flooding in El Salvador during 2011 that caused extensive damage and recognize that El Salvador is extremely vulnerable to recurrent natural disasters. The conferees expect that additional assistance be provided under this heading and under the International Disaster Assistance heading for flood relief, reconstruction, and relocation of at-risk populations, including support for small farmers, and to enhance El Salvador's capabilities to prevent and respond to future disasters.

*Haiti.*—The conferees support the budget request for Haiti and direct that assistance for Haiti provided under this heading in this Act and prior appropriations acts be made available, to the maximum extent practicable, in a manner that emphasizes the participation of Haitian civil society organizations and directly improves the security, economic and social well-being, and political status of Haitian women and girls.

*Iraq.*—The conference agreement includes conditions on assistance for Iraq in section 7041(d) of this Act, which are similar to prior years. As the Government of Iraq's oil revenues continue to increase, the conferees expect Iraq to assume the full cost for development and security programs in Iraq currently funded by the Department of State and USAID.

The conferees recommend \$10,000,000 for stabilization programs in Iraq, for which the policy justification and decisions shall be the responsibility of the Chief of Mission. Such funds shall not be used for cultural programs or for costs usually associated with Department of State operations.

Not later than 90 days after enactment of this Act, the Secretary of State shall submit a report to the Committees on Appropriations detailing: (1) the specific manner in which the Government of Iraq has committed to contributing to, and sustaining, security-related programs funded by this Act; (2) the estimated timeframe under which Iraq will assume full responsibility for funding such security-related programs; (3) the operation and maintenance costs of aircraft utilized in Iraq in support of security-related programs; and (4) estimates for the overhead costs associated with security sector programs in fiscal year 2012 and subsequent fiscal years. The report may be submitted in classified form, if necessary.

The conferees expect the Department of State and USAID to continue efforts to encourage the incorporation of women in stabilizing and developing Iraq, including within government institutions.

The conferees endorse language in the Senate report on ethno-religious minorities in Iraq.

*Jordan.*—The conferees intend that assistance for Jordan provided under this heading will be used for programs to reduce poverty and create jobs, strengthen democracy, and protect human rights, in addition to activities described in the justification materials submitted to Congress.

*Lebanon.*—The conferees recommend \$500,000 for continued support for the United States Forest Service's forest and biodiversity conservation programs in Lebanon.

*Mexico.*—The conferees support the budget request under this heading and under the Development Assistance heading for USAID programs in Mexico and direct the USAID Administrator to submit a report, not later than 90 days after enactment of this Act, on how these programs address the root causes of violence and instability.

*Middle East Partnership Initiative (MEPI).*—The conferees provide \$70,000,000 for MEPI

and recommend that not less than \$10,000,000 of such funds be made available to continue scholarships for students in countries with significant Muslim populations at not-for-profit education institutions, in a manner consistent with prior fiscal years, including the awarding of funds through an open and competitive process. The conferees endorse the reporting requirement under this subheading in the Senate report.

The conferees support efforts to promote peace and stability in the Middle East, including through activities that seek to mitigate extremist incitement and propaganda efforts, in order to further United States counterterrorism efforts.

The conferees also encourage the use of Internet-based activities to further peace and reconciliation online.

*Middle East Regional Cooperation Program (MERC).*—The conferees recommend \$5,000,000 for MERC.

*Middle East/North Africa Response Fund (Response Fund).*—The conference agreement includes \$50,000,000 for the Response Fund to provide the Department of State and USAID with the necessary flexibility to respond quickly to political crises in the Middle East and North Africa. The Secretary of State and USAID Administrator are directed to consult with the Committees on Appropriations on the uses of such funds and submit a spending plan for all funds provided in this Act and prior appropriations acts for these purposes.

*Near East Regional Democracy (NERD).*—The conferees support the budget request for NERD.

*Pakistan.*—Funds provided under Chief of Mission authority in Pakistan shall not be used for cultural programs or for costs usually associated with Department of State operations.

*People's Republic of China.*—The conferees recommend \$12,000,000 under this heading for United States institutions of higher education and nongovernmental organizations for democracy, governance, rule of law, and environment programs in the PRC. These programs should support training for citizens, lawyers, and businesses on key issues including criminal justice, occupational safety, and environmental protection. No funds are for the Government of China and programs should be awarded on a competitive basis.

The conferees endorse the requirement in the Senate report for an assessment of the PRC's long term strategic intentions in the region.

*Reconciliation Programs.*—The conferees recommend \$10,000,000 for "New Generation in the Middle East" initiative to build understanding, tolerance, and mutual respect among young Israelis and Palestinians of diverse economic and social backgrounds who have leadership potential. The conferees intend such programs and activities to be conducted in the region, and direct the Secretary of State and the USAID Administrator to consult with the Committees on Appropriations on the development and implementation of this initiative.

*Syria.*—The conference agreement includes a provision relating to democracy and human rights programs in Syria. The conferees direct that a portion of the funds be programmed in consultation with other governments in the region, specifically Turkey and other key allies in the Middle East, as appropriate.

*Tibet.*—The conferees endorse the funding and purposes included in the Senate report for Tibet.

*Timor-Leste.*—The conferees recommend not less than \$1,000,000 for higher education scholarships in Timor-Leste.

*Tunisia.*—The conferees recommend \$5,000,000 for democracy and governance programs and for programs to protect human rights in Tunisia. The conference agreement also authorizes funding for the cost of loan guarantees.

*Uganda.*—The conference agreement includes section 7043(h) regarding areas affected by the Lord's Resistance Army (LRA). The conferees support the goals of the Lord's Resistance Army Disarmament and Northern Uganda Recovery Act (Public Law 111-172) to help end the atrocities committed by the LRA, protect innocent civilians, and stabilize the affected region. The conferees direct that up to \$10,000,000 be made available for peace and security in the affected region to address these issues, including programs to improve physical access, telecommunications infrastructure and early-warning mechanisms and to support the disarmament, demobilization, and reintegration of former LRA combatants, especially child soldiers.

*Vietnam.*—The conferees recommend not less than \$15,000,000 for environmental remediation of dioxin contamination at the Da Nang and Bien Hoa airports and other severely contaminated sites.

*West Bank and Gaza.*—The conference agreement continues restrictions in current law on assistance for the West Bank and Gaza, and includes new limitations.

The conferees endorse Senate report language regarding a Government Accountability Office assessment of the United Nations Relief and Works Agency in the West Bank.

#### GLOBAL PROGRAMS

The conferees recognize the utility of humanitarian cash disbursements to individuals in certain limited dire circumstances, but expect that any such assistance provided through the government of the recipient country will comply with the determination, consultation, and notification requirements in section 7031 of this Act relating to direct government-to-government assistance.

The conferees endorse language in the Senate report on classification societies, except that the foreign governments noted shall include those of the Islamic Republic of Iran, the Democratic People's Republic of North Korea, the Republic of the Sudan, and Syria.

The conferees recommend \$3,000,000 to implement the Kimberly Process Certification Scheme, but are concerned with reports that the Kimberly Process is failing to prevent conflict diamonds from entering the legitimate global diamond trade. The conferees direct the Department of State to assess whether the Kimberly Process can achieve its goals, and whether alternative mechanisms are needed to prevent conflict diamonds from entering legitimate supply chains.

The conferees recommend \$5,000,000 under this heading for activities to counter violent extremism included in the budget request under Nonproliferation, Anti-terrorism, Demining, and Related Programs.

The conference agreement provides the budget request for counterterrorism programs in Africa. The conferees direct that an additional \$10,000,000 be made available for counterterrorism programs in East Africa to be managed by USAID.

The conferees endorse language in the Senate report recommending \$5,000,000 for disability programs.

The conferees support continued funding for the Department of State's Internet freedom program and direct the Secretary of State to submit to the Committees on Appropriations prior to the initial obligation of

funds, a report detailing planned expenditures of the funds made available to promote Internet freedom. The conferees also direct the Secretary, in coordination with the USAID Administrator, to submit to the Committees, not later than September 30, 2012, a report listing programs supported by the Department of State and USAID to promote Internet freedom, including an assessment of the results of these programs and safeguards against the use of circumvention technology for illicit or illegal purposes, and detailing how such programs support and are coordinated with cyber diplomacy and the United States International Strategy for Cyberspace. The conferees recommend that the fiscal year 2013 congressional budget justification materials include a request for funds for this program under this heading.

The conferees recommend \$5,000,000 for the Extractive Industries Transparency Initiative.

The conferees endorse language in the Senate report on forensic anthropology in countries of Central and South America.

The conferees recommend \$1,900,000 for the House Democracy Partnership.

The conferees recommend \$4,500,000 under this heading for polio eradication activities in Afghanistan and Pakistan.

The conferees recommend that not less than \$36,000,000 under the Economic Support Fund, International Narcotics Control and Law Enforcement, Assistance for Europe, Eurasia and Central Asia, and Development Assistance headings should be used for activities to combat trafficking in persons internationally, including to protect and rehabilitate victims, prosecute perpetrators, and support research initiatives. Additional funds are provided under Diplomatic and Consular Programs.

The conferees endorse language included in the Senate report on assistance for wheelchair programs.

#### DEMOCRACY FUND

The conference agreement provides \$114,770,000 for Democracy Fund.

The conferees recognize that dissidents and defectors often possess unique information about the political and economic situation inside a country, particularly in closed societies. The conferees therefore direct the Secretary of State, in consultation with the heads of other relevant United States agencies, to consider ways to better disseminate this information, including to human rights groups and civil society.

#### ASSISTANCE FOR EUROPE, EURASIA AND CENTRAL ASIA

The conference agreement provides \$626,718,000 for Assistance for Europe, Eurasia and Central Asia.

The conferees support the budget request for fiscal year 2012 for countries funded under this heading and note that any deviation from these amounts is subject to the regular notification procedures of the Committees on Appropriations.

The conferees endorse language in the Senate report concerning assistance for the North Caucasus in the amount and for purposes similar to prior fiscal years.

The conferees recommend assistance for victims of the Nagorno-Karabakh conflict at levels consistent with prior years, and for ongoing needs related to the conflict. The conferees urge a peaceful resolution of the conflict.

The conferees direct the Secretary of the Treasury to keep the Committees on Appropriations informed on its efforts to address: export quotas, allocation of grain licenses,

and VAT tax refunds with the Government of Ukraine, and repression of fundamental rights in Ukraine, including due process of law and freedoms of expression and association.

The conferees endorse language and funding amounts in the Senate report for wildlife conservation programs in Russia and forest management programs in Ukraine.

The conferees support programs to address the fight against tuberculosis and HIV/AIDS in Ukraine and Georgia.

#### DEPARTMENT OF STATE

##### MIGRATION AND REFUGEE ASSISTANCE

The conference agreement provides \$1,639,100,000 for Migration and Refugee Assistance, and an additional \$229,000,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The conferees remain concerned with the plight of refugees from Burma residing in Thailand and India, and recommend sufficient funding to address their needs. The conferees direct the Secretary of State to continue to make the welfare of such refugees a priority, including in bilateral and multilateral discussions with other donors and governments.

The conferees endorse directives in the Senate report concerning Iraqi and Pakistani refugees and internally displaced persons (IDPs), and the use of assistance for Pakistani IDPs identified in the Internally Displaced Persons Vulnerability Assessment and Profiling mechanism.

The conferees encourage the Secretary of State to sustain and enhance efforts for increasing resettlement opportunities for Eritrean refugees, and continue to coordinate with the international community to develop and implement a strategy to protect and assist displaced Somalis. Additionally, the conferees encourage the Secretary to build on the Department of State's report on repatriation and reintegration of unaccompanied children by exploring initiatives and partnerships with United States nongovernmental organizations for the safe return and reintegration of such children.

The conferees endorse the funding recommendation in the Senate report regarding Tibetan refugees in India and Nepal and urge the Secretary of State to work with the Government of Nepal to ensure the safe transit of Tibetan refugees and provide legal protections to Tibetans residing in Nepal.

The conferees note that United Nations Relief and Works Agency (UNRWA) schools serve as an alternative to Hamas-run schools in Gaza, and that UNRWA has included supplemental human rights and non-violent conflict resolution training in their curriculum. The conferees urge the Secretary of State to work with UNRWA to explore steps to further the elimination of inflammatory and inaccurate information in host country textbooks used in UNRWA schools. Additionally, section 7049(d) continues the accountability report included in prior appropriations acts for the Department of State, foreign operations and related programs.

#### UNITED STATES EMERGENCY REFUGEE AND MIGRATION ASSISTANCE FUND

The conference agreement provides \$27,200,000 for the United States Emergency Refugee and Migration Assistance Fund.

#### INDEPENDENT AGENCIES

##### PEACE CORPS

##### (INCLUDING TRANSFER OF FUNDS)

The conference agreement provides \$375,000,000 for the Peace Corps.

The conferees note the recent enactment of the Kate Puzey Peace Corps Volunteer Protection Act of 2011 (Public Law 112-57) containing various reporting requirements addressing the safety and security of volunteers, including the prevention of, and response to, sexual assault.

The conferees direct that opinions and recommendations from Peace Corps volunteers should be solicited through regular surveys on a confidential basis, and that information that would otherwise be obtainable under the Freedom of Information Act that is of general interest to the public concerning the Peace Corps is made publicly available in a timely manner on the Peace Corps Web site.

Funds appropriated under this heading are subject to the terms of section 7078 of this Act.

#### MILLENNIUM CHALLENGE CORPORATION

The conference agreement provides \$898,200,000 for Millennium Challenge Corporation (MCC).

The conferees direct the Chief Executive Officer (CEO) of the MCC to submit a report to the Committees of Appropriations, not later than 90 days after enactment of this Act, that includes an assessment of the current practices, procedures, and recommendations for improvements in the MCC's ability to identify and track patterns of corruption; the MCC's process for determining the actions necessary to inhibit corruption; and the process to determine if the level of corruption warrants termination or suspension of the MCC compact.

The conferees reaffirm the MCC's mandate to increase economic growth and reduce poverty, and direct the CEO of the MCC to consult with the Committees on Appropriations, prior to submission of congressional notifications, for new compacts regarding the corresponding economic rate of return estimated for each compact component funded.

The conferees recognize that the MCC amended its procurement guidelines on September 28, 2010, to bar government-owned enterprises from competing for MCC procurement contracts. The conferees direct the CEO of the MCC to consult with the Committees on Appropriations on a case-by-case basis if this policy is waived.

The conferees direct the MCC CEO to submit an annual report to the Committees on Appropriations, not later than 120 days after enactment of this Act, on all MCC-funded investment funds, that includes the following information for each investment fund in operation: the identity, selection process, and professional background of current and past managers; the fees and compensation currently provided to senior management; the level of MCC financing provided at the end of the previous fiscal year; a comprehensive and detailed description of the fund's operations, activities, financial condition, and accomplishments for the preceding fiscal year; and the audit plan for each fund.

Funds in this account are subject to the requirements of section 7078 of this Act.

#### INTER-AMERICAN FOUNDATION

The conference agreement provides \$22,500,000 for Inter-American Foundation.

#### AFRICAN DEVELOPMENT FOUNDATION

The conference agreement provides \$30,000,000 for African Development Foundation.

#### DEPARTMENT OF THE TREASURY

##### INTERNATIONAL AFFAIRS TECHNICAL ASSISTANCE

The conference agreement provides \$25,448,000 for International Affairs Technical

Assistance, and an additional \$1,552,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

DEBT RESTRUCTURING

The conference agreement provides \$12,000,000 for Debt Restructuring to support implementation of the Tropical Forest Conservation Act.

TITLE IV

INTERNATIONAL SECURITY ASSISTANCE

DEPARTMENT OF STATE

INTERNATIONAL NARCOTICS CONTROL AND LAW ENFORCEMENT

The conference agreement provides \$1,061,100,000 for International Narcotics Control and Law Enforcement, and an additional \$983,605,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The conferees direct the Secretary of State to notify the Committees on Appropriations in writing, within 5 days of exercising authority allowing funds made available under this heading to be spent “notwithstanding any other provision of law”, and such notification shall include a justification of such activities.

The conferees did not include the requested authority to disregard the geographic or purpose limitations on assistance provided in prior acts related to the Andean Counterdrug Initiative or Andean Counterdrug Programs. The conferees direct the Department of State and USAID to program remaining funds without delay and use the funds within the region.

The conferees support the budget request for CARSI and CBSI and expect the spend plans submitted pursuant to section 7078 of this Act for CARSI and CBSI to include activities that were conducted with prior year appropriations, achievements associated with the expenditure of such funds, and activities that will be funded in fiscal year 2012, including goals to be met.

The conferees recommend \$160,600,000 for activities in Colombia of which not less than \$30,000,000 is for rule of law programs, including \$7,000,000 for USAID human rights activities, and \$15,000,000 for the Office of the Colombian Attorney General including \$7,000,000 for the human rights unit. The conferees direct the Department of State to report to the Committees on Appropriations, not later than 45 days after enactment of this Act, on the proposed uses of funds for Colombia’s judicial agencies, including activities to be supported, information on how assistance will help to reduce impunity, and benchmarks to be used for measuring progress in meeting specific goals.

The conferees recommend \$5,000,000 for the International Commission Against Impunity in Guatemala (CICIG).

The conferees continue to be concerned with the lack of a professional, accountable police force in Guatemala and expect priority be given to funding the implementation of a police reform strategy that has the support of the Guatemalan government and human rights organizations.

The conferees direct the Secretary of State to report to the Committees on Appropriations, not later than 120 days after enactment of this Act, on the role of United States assistance in addressing the needs of Guatemalan women and girls who have been victims of violence. The report shall include a description of how assistance supports victims of trafficking, rape and other sexual violence, combats human trafficking, and improves the capacity of government institutions, including the judiciary, law enforcement, and civil society organizations.

The conferees direct that no funds made available under this heading may be used to transfer excess weapons, ammunition or other lethal property of an agency of the United States Government to any individual or unit of the Haitian National Police if the Secretary of State has credible information that such individual or unit has committed a gross violation of human rights or other serious crimes.

The conferees support the budget request for the International Law Enforcement Academies.

The conferees recommend up to \$248,500,000 for assistance for Mexico and note efforts by the Government of Mexico to implement constitutional reforms. The conferees are concerned, however, with the steadily increasing drug-related violence in Mexico, and credible reports of a pattern of abuses by Mexican police. The conferees are also concerned with ongoing gender-based crimes in Mexico, and encourage the Department of State to provide forensic equipment and training to Mexican states and localities that have the highest rate of homicide and other violent crime to ensure local law enforcement agencies have tools to solve and prosecute these cases. Additionally, the conferees direct the Secretary of State to provide a report, not later than 90 days after enactment of this Act, on how programs funded under this heading are achieving judicial and law enforcement reforms in Mexico. The report should include objectives to be met, benchmarks for measuring progress, intended results, and the extent to which such programs are coordinated with the federal and state governments in Mexico.

The conferees support continued assistance to strengthen civilian law enforcement and judicial institutions to reduce violent crime and narcotics trafficking in Mexico and Honduras. The conference agreement includes sections 7045(d) and 7045(e) that require the withholding of a portion of the assistance for military and police forces in these countries until the Secretary of State makes certain findings and submits them in a report to the Committees on Appropriations.

The conferees direct the Department of State to ensure the prompt delivery of equipment and training provided under this heading for Mexico. Additionally, the conferees continue to support cooperation between the United States and Mexico to combat organized crime and drug trafficking along the border. The conferees direct the Secretary of State to develop and implement a coordinated border security strategy.

The conferees continue to support demand reduction programs and direct the Secretary of State to provide assistance at levels consistent with prior fiscal years.

The conferees request that the country-by-country report required under this heading integrate the additional funds appropriated under this heading in title VIII for OCO/GWOT where appropriate, and the OCO/GWOT amounts should be separately identified in the integrated report.

NONPROLIFERATION, ANTI-TERRORISM, DEMINING AND RELATED PROGRAMS

The conference agreement provides \$590,113,000 for Nonproliferation, Anti-terrorism, Demining and Related Programs (NADR), and an additional \$120,657,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

Section 7078 of this Act requires submission of a spend plan for certain countries and programs not later than 30 days after enactment of the Act. The conferees request that these spend plans integrate the funds appropriated under this heading and in title VIII of this Act for OCO/GWOT where appropriate, and the OCO/GWOT amounts should be separately identified in the integrated plan.

The conferees direct the Secretary of State to notify the Committees on Appropriations in writing, within 5 days of exercising authority allowing funds made available under this heading to be spent “notwithstanding any other provision of law”, and such notification shall include a justification of such activities.

The conference agreement does not include assistance for the Countering Violent Extremism program as included in the budget request, but includes funding for these programs within the ESF account.

The conferees recognize the importance of mine removal, mine victim assistance, and the proper storage and disposition of small arms/light weapons, and support the Department of State’s efforts to expand this work.

The conference agreement prioritizes the clearance of unexploded ordnance (UXO) in areas where such ordnance was caused by the United States. The conferees endorse Senate report language directing that \$9,000,000 be made available for UXO clearance in Laos, and intend that funds also be prioritized for UXO clearance in locations in the Oceania region that have high concentrations of United States UXO dating to World War II.

Section 7078 of this Act requires a spend plan for this account not later than 30 days after enactment of this Act. The conferees request that the spend plan integrate the funds appropriated under this heading in title VIII of this Act for OCO/GWOT, and the OCO/GWOT amounts should be separately identified in the integrated plan.

Funds in this account are allocated according to the following table, and are subject to the provisions of section 7019 of this Act:

NONPROLIFERATION, ANTI-TERRORISM, DEMINING AND RELATED PROGRAMS

(Budget authority in thousands of dollars)

Programs	Budget authority
Nonproliferation Programs:	
Nonproliferation and Disarmament Fund .....	30,000
Export Control and Related Border Security Assistance ..	60,909
Global Threat Reduction .....	68,978
IAEA Voluntary Contribution .....	85,900
CTBT International Monitoring System .....	33,000
Weapons of Mass Destruction Terrorism .....	6,042
UN Security Council Resolution 1540 Trust Fund .....	1,500
CTBT Preparatory Commission-Special Contributions ...	7,500
Subtotal—Nonproliferation Programs .....	293,829
Anti-terrorism Programs <sup>1</sup>	
Anti-terrorism Assistance .....	79,284
Terrorist Interdiction Program .....	42,000
CT Engagement with Allies .....	8,000
Counterterrorism Financing .....	17,000
Countering Violent Extremism .....	0
Subtotal—Anti-terrorism Programs .....	146,284
Regional Stability & Humanitarian Assistance	
Conventional Weapons Destruction .....	150,000
Humanitarian Demining Program (non-add)	[95,000]
Small Arms/Light Weapons Destruction (non-add)	[55,000]
Subtotal—Regional Stability & Humanitarian Assistance .....	150,000
Total, Nonproliferation, Anti-terrorism, Demining, and Related Programs .....	590,113

<sup>1</sup> An additional \$120,657,000 is included in title VIII under this heading designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

PEACEKEEPING OPERATIONS

The conference agreement provides \$302,818,000 for Peacekeeping Operations, and

an additional \$81,000,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

Section 7078 of this Act requires submission of a spend plan for certain countries and programs not later than 30 days after enactment of the Act. The conferees request that these spend plans integrate the funds appropriated under this heading and in title VIII of this Act for OCO/GWOT where appropriate, and the OCO/GWOT amounts should be separately identified in the integrated plan.

The conferees direct the Secretary of State to submit a report to the Committees on Appropriations, prior to the obligation of funds provided under this heading, for the Africa Maritime Security Initiative (AMSI), including a description of how the AMSI will address piracy, terrorist activity, and trafficking in drugs, arms, and persons along the African coast, as well as a description of coordination efforts with the Department of Defense.

The conference agreement provides \$28,000,000 for the Multinational Force and Observers (MFO) including \$1,000,000 to address force protection enhancements. The conferees expect the MFO to account for and apply funds in a manner such that the principle of equality of contributions to the basic operating budget between the United States, Egypt, and Israel shall be maintained.

Section 7078 of this Act requires a spend plan for this account not later than 30 days after enactment of this Act. The conferees request that the spend plan integrate the funds appropriated under this heading in title VIII of this Act for OCO/GWOT, and the OCO/GWOT amounts should be separately identified in the integrated plan.

#### FUNDS APPROPRIATED TO THE PRESIDENT INTERNATIONAL MILITARY EDUCATION AND TRAINING

The conference agreement provides \$105,788,000 for International Military Education and Training (IMET).

The conferees recommend parity in the allocation of funds for Armenia and Azerbaijan.

The conferees support the budget request for Indonesia and the Philippines.

The conferees direct the Secretary of State to consult with the Committees on Appropriations prior to the obligation of funds provided under this heading for assistance for Libya.

#### FOREIGN MILITARY FINANCING PROGRAM

The conference agreement provides \$5,210,000,000 for Foreign Military Financing Program (FMF), and an additional \$1,102,000,000 in title VIII under this heading is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

Section 7078 of this Act requires submission of a spend plan for certain countries and programs not later than 30 days after enactment of the Act. The conferees request that these spend plans integrate the funds appropriated under this heading and in title VIII of this Act for OCO/GWOT where appropriate, and the OCO/GWOT amounts should be separately identified in the integrated plan.

The conference agreement provides the budget request for Israel, Egypt, Jordan, and Tunisia.

The conferees note the recent progress of PRC military modernization, and the increasing frequency of aggressive assertions in territorial disputes, including on the seas

and in cyberspace. In response, regional neighbors, including India, Japan, and Singapore, are reviewing defense postures and updating their military hardware. The conferees encourage the Administration to continue to engage the People's Liberation Army in these matters, as well as allies in the region on the political, economic, and military implications of the strategic rise of the PRC, including through military assistance and sales programs.

The conferees recommend parity in the allocation of funds for Armenia and Azerbaijan.

The conferees note the existence of multiple laws that prohibit assistance to Foreign Terrorist Organizations (FTOs). Because of particular concerns with United States military assistance in Lebanon and Yemen, the conferees include language in section 7041 reaffirming that such assistance may not be provided to the armed forces of either country if such force is controlled by an FTO.

The conferees support programs for the Guatemalan Coast Guard, Navy, and Army Corps of Engineers that enhance regional naval cooperation and maritime security and that increase disaster response and peace-keeping capabilities.

The conference agreement continues restrictions in current law on assistance for the Guatemalan Army. The conferees will consider a request for funding for such activities in fiscal year 2013 if the army has a narrowly defined mission focused on border security and external threats, is implementing a reform strategy that has broad support within Guatemalan society, is respecting human rights, is cooperating with civilian investigations and prosecutions of cases involving current and retired officers and with the CICIG, and is publicly disclosing all military archives pertaining to the internal armed conflict.

The conferees support the budget request for Mexico.

The conferees direct the Secretary of State to submit a report to the Committees on Appropriations, not later than 90 days after enactment of this Act, in classified form if necessary, on the use of assistance provided by the United States for the Lebanese Armed Forces, including the training, curriculum, and equipment provided, and an assessment of the performance of such forces and of factors that limit the operational capabilities of such forces. The conferees note that section 7041 limits the purposes for which funds may be made available, and the conferees further direct that United States security assistance not affect Israel's qualitative military edge in the region.

#### TITLE V

#### MULTILATERAL ASSISTANCE

#### FUNDS APPROPRIATED TO THE PRESIDENT INTERNATIONAL ORGANIZATIONS AND PROGRAMS

The conference agreement provides \$348,705,000 for International Organizations and Programs.

The conferees direct the Secretary of State to submit a report to the Committees on Appropriations, not later than 45 days after enactment of this Act, describing the amount of funds since 2008 that the United Nations Environment Program has allocated for anti-malaria research and the programs funded.

Funds in this account are allocated, unless otherwise noted, according to the following table, and are subject to the provisions of section 7019 of this Act:

#### INTERNATIONAL ORGANIZATIONS AND PROGRAMS

(Budget authority in thousands of dollars)

Programs	Budget authority
Center for Human Settlements .....	1,900
International Civil Aviation Organization .....	950
International Conservation Programs .....	7,900
International Contributions for Scientific, Educational, and Cultural Activities .....	0
International Development Law Organization .....	600
IMO Maritime Security Programs .....	400
Intergovernmental Panel on Climate Change/U.N. Framework on Climate Change .....	10,000
Montreal Protocol Multilateral Fund .....	27,000
OAS Development Assistance Programs .....	3,500
OAS Fund for Strengthening Democracy .....	4,500
Inter-American Commission on Human Rights (non-add) .....	(2,000)
U.N. Capital Development Fund .....	955
U.N. Children's Fund .....	131,755
U.N. Democracy Fund .....	4,755
U.N. Development Program .....	82,000
U.N. Environment Program .....	7,700
U.N. High Commissioner for Human Rights .....	5,000
Multilateral Action Initiatives .....	0
U.N. Office for the Coordination of Humanitarian Affairs .....	3,000
U.N. Population Fund .....	35,000
U.N. Voluntary Fund for Technical Cooperation in the Field of Human Rights .....	1,400
U.N. Voluntary Fund for Victims of Torture .....	6,000
U.N. Women .....	7,500
World Meteorological Organization .....	2,090
World Trade Organization Technical Assistance .....	1,150
International Chemicals and Toxics Programs .....	3,650
<b>Total, International Organizations and Programs ...</b>	<b>348,705</b>

#### INTERNATIONAL FINANCIAL INSTITUTIONS

The conferees direct the Secretary of the Treasury to report to the Committees on Appropriations, not later than 45 days after enactment of this Act, on the status of the implementation of the International Monetary Fund's (IMF) New Income Model; the degree to which staff reductions have occurred as planned; a comparison of the number of staff over the previous three years; the average and median salary for senior officers of the IMF; and an overview of IMF internal resources over the previous three years. Additionally, the report shall include a cost estimate of the planned renovation of Headquarters Building 1 and the source of funds to pay for this renovation.

The conference agreement includes a provision, section 7082, directing the Secretary of the Treasury to report to the Committees on Appropriations, prior to disbursing any funds for United States contributions to the general capital increases, that the multilateral banks are making substantial progress toward implementing reforms, including those agreed to as part of the general capital increase agreements.

The conferees direct the Secretary of the Treasury to submit to the Committees on Appropriations, not later than 90 days after enactment of this Act, a report that estimates the impact on poverty alleviation and economic growth in communities along the border between the United States and Mexico if the North American Development Bank's mandate were expanded to include financing of infrastructure projects in the border region that promote growth in trade between the United States and Mexico, sustainable economic and social development, and job creation in the region.

#### GLOBAL ENVIRONMENT FACILITY

The conference agreement provides \$89,820,000 for the Global Environment Facility (GEF).

The conferees direct the Secretary of the Treasury to submit a report to the Committees on Appropriations, not later than 45 days after enactment of this Act, describing the amount of funds since 2008 that the GEF has allocated for anti-malaria research and the programs funded.

CONTRIBUTION TO THE INTERNATIONAL  
DEVELOPMENT ASSOCIATION

The conference agreement provides \$1,325,000,000 for Contribution to the International Development Association.

The conference agreement provides \$167,000,000 for the United States' share of the Multilateral Debt Relief Initiative commitment, including \$91,000,000 for the remainder of the IDA-15 share and \$76,000,000 for the IDA-16 share.

CONTRIBUTION TO THE INTERNATIONAL BANK  
FOR RECONSTRUCTION AND DEVELOPMENT

The conference agreement provides \$117,364,344 for Contribution to the International Bank for Reconstruction and Development.

LIMITATION ON CALLABLE CAPITAL  
SUBSCRIPTIONS

The conference agreement provides \$2,928,990,899 for Limitation on Callable Capital Subscriptions.

CONTRIBUTION TO THE CLEAN TECHNOLOGY  
FUND

The conference agreement provides \$184,630,000 for Contribution to the Clean Technology Fund.

CONTRIBUTION TO THE STRATEGIC CLIMATE  
FUND

The conference agreement provides \$49,900,000 for Contribution to the Strategic Climate Fund.

GLOBAL AGRICULTURE AND FOOD SECURITY  
PROGRAM

The conference agreement provides \$135,000,000 for Global Agriculture and Food Security Program.

CONTRIBUTION TO THE INTER-AMERICAN  
DEVELOPMENT BANK

The conference agreement provides \$75,000,000 for Contribution to the Inter-American Development Bank.

The conference agreement provides \$4,670,000 for payment to the Inter-American Investment Corporation.

LIMITATION ON CALLABLE CAPITAL  
SUBSCRIPTIONS

The conference agreement provides \$4,098,794,833 for Limitation on Callable Capital Subscriptions.

CONTRIBUTION TO THE ENTERPRISE FOR THE  
AMERICAS MULTILATERAL INVESTMENT FUND

The conference agreement provides \$25,000,000 for Contribution to the Enterprise for the Americas Multilateral Investment Fund.

CONTRIBUTION TO THE ASIAN DEVELOPMENT  
BANK

The conference agreement provides \$106,586,000 for Contribution to the Asian Development Bank.

LIMITATION ON CALLABLE CAPITAL  
SUBSCRIPTIONS

The conference agreement provides \$2,558,048,769 for Limitation on Callable Capital Subscriptions.

CONTRIBUTION TO THE ASIAN DEVELOPMENT  
FUND

The conference agreement provides \$100,000,000 for Contribution to the Asian Development Fund.

CONTRIBUTION TO THE AFRICAN DEVELOPMENT  
BANK

The conference agreement provides \$32,417,720 for Contribution to the African Development Bank.

LIMITATION ON CALLABLE CAPITAL  
SUBSCRIPTIONS

The conference agreement provides \$507,860,808 for Limitation on Callable Capital Subscriptions.

CONTRIBUTION TO THE AFRICAN DEVELOPMENT  
FUND

The conference agreement provides \$172,500,000 for Contribution to the African Development Fund.

The conference agreement provides \$7,500,000 for the Multilateral Debt Relief Initiative.

EUROPEAN BANK FOR RECONSTRUCTION AND DE-  
VELOPMENT LIMITATION ON CALLABLE CAP-  
ITAL SUBSCRIPTIONS

The conference agreement provides \$1,252,331,952 for Limitation on Callable Capital Subscriptions.

CONTRIBUTION TO THE INTERNATIONAL FUND  
FOR AGRICULTURAL DEVELOPMENT

The conference agreement provides \$30,000,000 for Contribution to the International Fund for Agricultural Development.

## TITLE VI

## EXPORT AND INVESTMENT ASSISTANCE

## EXPORT-IMPORT BANK OF THE UNITED STATES

## INSPECTOR GENERAL

The conference agreement provides \$4,000,000 for the Inspector General for the Export-Import Bank (the Bank).

The conferees are concerned with the absence of regular inspections of Overseas Private Investment Corporation (OPIC) operations and the oversight of an Inspector General, and direct the President of OPIC to consult with the Committees on Appropriations and other appropriate congressional committees on the options for increasing oversight of OPIC programs, including under the authorities of the Export-Import Bank Inspector General.

## SUBSIDY APPROPRIATION

The conference agreement provides \$58,000,000 for Subsidy Appropriation for the Export-Import Bank.

## ADMINISTRATIVE EXPENSES

The conference agreement provides \$89,900,000 for Administrative Expenses for the Export-Import Bank.

The conference agreement includes \$6,000,000 to support the Bank's efforts to establish regional offices focusing on small businesses and to significantly increase the number of small business transactions.

The conferees direct that the use of the aggregate loan, guarantee, and insurance authorities available to the Bank in fiscal year 2012 should not result in greenhouse gas emissions from the extraction or production of fossil fuels or the use of fossil fuels in electricity generation that exceed the average of the total emissions in the preceding three fiscal years resulting from the use of these authorities unless, not less than 15 days prior to each such use of such authorities in fiscal year 2012, the Bank provides a written report to the Committees on Appropriations that such use would result in emissions exceeding this amount and indicating the amount of the increase, and posts such report on the Bank's Web site.

The conference agreement directs that not less than 10 percent of the Bank's authority for aggregate loan, guarantee, and insurance should be used for renewable energy and end-use energy efficiency technologies. The conferees direct the Bank to provide a report to the Committees on Appropriations, not later than 90 days after enactment of this Act, that includes: all financing for renewable energy and end-use energy efficiency technologies, or other environmentally beneficial exports carried out in fiscal year 2011; efforts made by the Bank to promote and support such exports; information on which regions

and sectors exhibit the greatest potential for such exports; how the Bank defines and tracks such activities; data on the Bank's progress toward meeting the 10 percent directive and the Bank's planned efforts to overcome any shortfall; the Bank's data, current policies, and efforts to mitigate greenhouse gas emissions resulting from projects it finances; and, as applicable, the implementation status of recommendations made by the GAO concerning the promotion of renewable energy and end-use energy efficiency technologies, as well as other environmentally beneficial exports.

OVERSEAS PRIVATE INVESTMENT CORPORATION  
NONCREDIT ACCOUNT

The conference agreement provides \$54,990,000 for Noncredit Account of OPIC.

## PROGRAM ACCOUNT

The conference agreement provides \$25,000,000 for Program Account of OPIC.

The conferees endorse prior year reporting requirements relating to a semi-annual report on OPIC investment funds, and prior consultation on local currency guarantees and financing for nongovernmental organizations and private and voluntary organizations, as stated in House Report 111-187 accompanying H.R. 3081.

The conferees direct the President of OPIC to include in its fiscal year 2013 congressional budget justification a confidential annex that describes new loans, guarantees, and insurance approved in fiscal year 2011 by category, recipient, country, level of OPIC resources provided, and source year of financing used. The conferees also direct OPIC to provide additional detail, including an annual summary of positive and negative subsidy by product line.

The conferees are concerned with the absence of regular inspections of OPIC operations and the oversight of an Inspector General, and direct the President of OPIC to consult with the Committees on Appropriations and other appropriate congressional committees on the options for increasing oversight of OPIC programs, including under the authorities of the Export-Import Bank Inspector General.

## TRADE AND DEVELOPMENT AGENCY

The conference agreement provides \$50,000,000 for Trade and Development Agency.

TITLE VII  
GENERAL PROVISIONS

The following general provisions are continued in this Act substantively unchanged from the Department of State, Foreign Operations, and Related Programs Appropriations Act, 2010 (division F of Public Law 111-117):

- Sec. 7001. Allowances and Differentials
- Sec. 7003. Consulting Services
- Sec. 7005. Personnel Actions
- Sec. 7007. Prohibition Against Direct Funding for Certain Countries
- Sec. 7010. Reporting Requirement
- Sec. 7012. Limitation on Assistance to Countries in Default

 Sec. 7073. Prohibition on First-Class Travel

The following general provisions are either new, or are substantively modified, from those included in division F of Public Law 111-117:

*Sec. 7002. Unobligated Balances Report (Modified)*

Section 7002 of the conference agreement requires any department or agency funded by this Act to provide a quarterly report on unobligated and unexpended balances to the Committees on Appropriations. The conferees expect the report to specify, where feasible, funds obligated pursuant to bilateral agreements which have not been further sub-obligated. The conferees note that current reports from USAID designate expired and unexpired funds by account and fiscal year, and expect the Department of State to continue to work on modifying their financial systems to enable them to submit a report in a similar format. The conferees also direct the Department of State and USAID to provide periodic briefings on the information in this report, including on the status of sub-obligations related to bilateral agreements.

*Sec. 7004. Embassy Construction (Modified)*  
 The conference agreement includes authorization within section 7004 for the Maintenance Cost Sharing initiative to utilize funding from the Capital Security Cost Sharing (CSCS) program for the maintenance, repair, and rehabilitation of new facilities with an inter-agency presence.

*Sec. 7006. Local Guard Contracts (Modified)*  
*Sec. 7008. Coups d'Etat (Modified)*

The conferees intend that the modifications to this provision shall apply to prospective coups d'état and shall not apply to retrospective assessments.

*Sec. 7009. Transfer Authority (Modified)*

*Sec. 7011. Availability of Funds (Modified)*  
*Sec. 7013. Prohibition on Taxation of United States Assistance (Modified)*  
*Sec. 7015. Notification Requirements (Modified)*

*Sec. 7019. Allocations (Modified)*  
*Sec. 7021. Prohibition on Assistance to Governments Supporting International Terrorism (Modified)*

Section 7021 of the conference agreement combines sections 7021 and 7022 in division F of Public Law 111-117 relating to prohibitions on the export of lethal military equipment and on providing bilateral assistance to countries supporting international terrorism. Additionally, section 7021 prohibits bilateral assistance to any foreign government controlled by a designated terrorist organization.

*Sec. 7024. Authorities for the Peace Corps, Inter-American Foundation and African Development Foundation (Modified)*

*Sec. 7025. Commerce, Trade and Surplus Commodities*

The conference agreement includes language expanding exceptions to the application of subsection (b). When relying on this expanded exception, the USAID Administrator should, in order to maximize program effectiveness, consult with relevant agriculture industry representatives regarding the same, similar, or substitute commodities and products.

*Sec. 7029. International Financial Institutions (Modified)*

*Sec. 7031. Financial Management and Budget Transparency (Modified)*

For the purposes of this section the term "direct government-to-government assistance" shall include cash transfers, non-project sector assistance, and other forms of assistance where funds appropriated by this Act are provided directly to the recipient government.

Section 7031(c) includes language related to anti-kleptocracy. The conferees note that this provision revises current law (section 7084 of division F of Public Law 111-117) and includes a national interest waiver. The conferees note that ineligibility for entry into the United States under this provision is not dependent on a decision or other action by any Federal agency other than the Department of State.

*Sec. 7033. Multi-Year Commitments (New)*

The conferees understand that the Secretary of the Treasury does not intend to increase the quota resources of the IMF in fiscal year 2012. If the Secretary does intend to commit the United States to additional contributions to the IMF, the conference agreement includes a provision that would, at a minimum, require consultation with the Committees on Appropriations not less than 7 days before such pledge is made.

*Sec. 7034. Special Provisions (Modified)*

Section 7034(h)(5) states that funds appropriated by this Act that are made available to promote democracy and human rights shall also be made available to support freedom of religion, especially in the Middle East and North Africa.

Section 7034(k) redesignates section 620J of the Foreign Assistance Act of 1961 to section 620M, and modifies it by substituting "credible information" for "credible evidence" in order to clarify that the information need not be admissible in a court of law to be credible and to conform to similar wording in a comparable provision in the Defense Appropriations Act, and by adding guidelines for: tracking United States assistance to foreign security forces; the collection, receipt,

evaluation, and preservation of information about gross violations of human rights; vetting both individuals and units; and, to the maximum extent practicable, publicly identifying units for which no assistance shall be furnished pursuant to section 620M.

*Sec. 7040. Limitation on Assistance for the Palestinian Authority (Modified subsection (f))*

*Sec. 7041. Near East (Modified)*

Section 7041(a)(1) of this Act provides limitations on assistance for Egypt, and includes authorities for an Egypt debt initiative.

Section 7041(a)(3) provides authority and conditions for an Egypt initiative. The conferees make available up to \$500,000,000 of the funds appropriated under the Economic Support Fund heading in this Act and prior acts for such purposes. However, the conferees note that all funds are subject to the regular notification procedures of the Committees on Appropriations and expect that funds will be provided in tranches, at the minimum rate necessary, and in a manner consistent with the advancement of United States—Egyptian strategic interests. The conferees note that this initiative demonstrates United States support for Egypt's democratic transition and economic development, and should serve as an incentive to the Government of Egypt (GOE) to pursue policies of mutual interest. The conferees intend that prior to the use of the authority under this initiative the transition to a civilian government will have substantially progressed, and the GOE will implement economic development policies consistent with the objectives of such initiative.

The conferees direct that the notification submitted to the Committees on Appropriations include a detailed description and estimate of the economic benefits of projects anticipated to be undertaken, the role of the GOE in implementing projects, an explanation of how such projects contribute to economic and democratic reforms in Egypt, and the means by which the uses of funds and results achieved will be monitored and measured. The conferees intend that the notification may be submitted to other congressional committees, as appropriate.

The conferees direct the Secretary of State to use prior appropriated funds to the maximum extent practicable with respect to supporting projects and initiatives in Egypt, and to structure the timing and amounts of disbursements of funds for activities regarding the Egypt debt initiative. The Secretary of State shall consult with the Committees on Appropriations and other congressional committees, as appropriate, on the planned uses of the funds prior to obligating funds under such structured disbursement. The conferees expect the Secretary of State to spend down prior appropriated funds in an efficient manner, and to keep the Committees on Appropriations informed on a regular basis on the balances of such funds.

Section 7041(b) of this Act includes language authorizing the establishment of enterprise funds in Egypt, Tunisia, and Jordan. The conferees intend that at the termination of the respective funds, 50 percent of the proceeds realized by each fund from the liquidation of its assets should be returned to the United States Treasury. The conferees request that the Comptroller General of the United States conduct a review, one year after the establishment of any enterprise fund, to examine the management and oversight of the funds and to determine if appropriate and sufficient safeguards exist against financial misconduct.

The conference agreement includes language regarding democracy promotion in

Libya and Syria, and restricts infrastructure assistance for Libya.

Sec. 7042. Serbia (Modified)

Sec. 7043. Africa (Modified)

The conferees direct the Secretary of State to provide to the Committees on Appropriations the report detailed in section 7061(b)(3) of S. 1601 (112th Congress).

The conferees endorse language in the Senate report regarding the disappearance of journalist Ebrimah Manneh from The Gambia.

Sec. 7044. Asia (Modified)

Sec. 7045. Western Hemisphere (Modified)

The conferees direct that of the funds appropriated by this Act that are available for assistance for the Colombian Armed Forces, 25 percent may be obligated only after the Secretary of State consults with, and subsequently certifies and submits a written report to, the Committees on Appropriations that—

(1) The Colombian Armed Forces are suspending those members, of whatever rank, who have been credibly alleged to have violated human rights, or to have aided, abetted or benefitted from paramilitary organizations or other illegal armed groups; all such cases are promptly referred to civilian jurisdiction for investigation and prosecution, and the Colombian Armed Forces are not opposing civilian jurisdiction in such cases; and the Colombian Armed Forces are cooperating fully with civilian prosecutors and judicial authorities.

(2) The Government of Colombia has taken all necessary steps to sever links with paramilitary organizations or other illegal armed groups.

(3) The Government of Colombia is dismantling paramilitary networks, including by arresting and prosecuting under civilian criminal law individuals who have provided financial, planning, or logistical support, or have otherwise aided, abetted or benefitted from paramilitary organizations or other illegal armed groups, and by returning land and other assets illegally acquired by such organizations or their associates to their rightful occupants or owners.

(4) The Government of Colombia is respecting the rights of human rights defenders, journalists, trade unionists, and other social activists, and the rights and territory of indigenous and Afro-Colombian communities; and the Colombian Armed Forces are implementing procedures to distinguish between civilians, including displaced persons, and combatants, in their operations.

The conferees also direct that not later than 90 days after enactment of this Act, the Secretary of State shall submit a report to the Committees on Appropriations detailing any United States funding, assistance or other support for the Departamento Administrativo de Seguridad, its officials, employees, affiliates and contractors during the period 2002 through 2010, including but not limited to training, equipment, information sharing, technical assistance, and facilities construction. To the maximum extent possible the report shall be provided in unclassified form, but may also include a classified annex.

Sec. 7046. South Asia (Modified)

The conferees direct the Secretary of State to submit a report to the Committees on Appropriations not later than 45 days after enactment of this Act, detailing what steps have been taken by the Government of Sri Lanka and international bodies to thoroughly and credibly investigate war crimes and violations of international humanitarian law during the internal armed conflict, and evaluating the adequacy of steps taken by the Government of Sri Lanka to hold perpetrators accountable. The report should also indicate whether suspected combatants detained during the conflict remain in custody and whether humanitarian organizations have access to such detainees.

The conferees direct that funds available for Afghanistan under the ESF and INCLE headings for training of foreign police, judicial, and military personnel should address gender-based violence, where appropriate.

The conferees direct that, not later than 180 days after enactment of this Act, the Secretary of State, in consultation with the USAID Administrator, submit a report to the Committees on Appropriations detailing actions taken by the Government of Afghanistan to expand rail transport in Afghanistan since 2009; providing an assessment of any national rail transport strategy, including the costs associated with implementation of such strategy; providing an analysis of the economic benefits of expanding and improving rail connections with neighboring countries, including in areas with significant resources; and making recommendations for the standardization of rail gauge in Afghanistan that is compatible with Central Asian countries, including Uzbekistan.

Sec. 7049. United Nations (New)

Section 7049(a) requires that 15 percent of United States contributions to United Nations agencies and the Organization of American States shall be withheld from obligation if the Secretary of State determines and reports that such agency or organization is not taking steps to meet certain conditions. The Secretary may waive this requirement if to do so is in the national interest. The conferees intend this restriction to apply only to such entities that receive annual United States contributions exceeding \$20,000,000. The conferees further intend that for the purposes of this section, "necessary access" means access necessary for United States Government officials to obtain the results of financial and performance audits in a timely manner.

Sec. 7051. Attendance at International Conferences (Modified)

Sec. 7052. Aircraft Transfer and Coordination (Modified)

Sec. 7057. United States Agency for International Development Management (Modified)

The conferees intend that funds appropriated under the heading Operating Expenses in title II of this Act are made available to develop and implement training for staff in overseas USAID missions to promote the full inclusion and equal participation of people with disabilities.

Sec. 7058. Global Health Activities (Modified)

Sec. 7060. Programs to Promote Gender Equality (Modified)

Sec. 7061. Gender-Based Violence

For the purposes of this Act, the conferees direct that gender-based violence should include any form of violence or abuse that tar-

gets women or men on the basis of their gender and results in physical, sexual or psychological harm.

The conferees direct the Secretary of State and the USAID Administrator to submit to the Committees on Appropriations, not later than 180 days after the enactment of this Act, a multi-year strategy to prevent and respond to violence against women and girls in countries where it is common. The strategy should include achievable and sustainable goals, benchmarks for measuring progress, and expected results. The formulation of the strategy should include regular engagement with men and boys as community leaders and advocates in ending such violence.

Sec. 7062. Sector Allocations (New)

This section consolidates directives, related reporting requirements and limitations for program funding in sectors including education, environment, and food security and agriculture development. The conferees expect these funds to be awarded competitively and in accordance with all applicable rules and regulations. With respect to funding requirements in this section and other minimum funding requirements contained in the conference agreement, the conferees note that funds appropriated in title VIII of this Act under the same headings may be used to meet such requirements.

Sec. 7063. Central Asia (Modified)

Sec. 7065. Overseas Private Investment Corporation (Modified)

Sec. 7066. International Prison Conditions (Modified)

Sec. 7067. Prohibition on Use of Torture (Modified)

Sec. 7070. Independent States of the Former Soviet Union (Modified)

Sec. 7071. International Monetary Fund (Modified)

Sec. 7074. Disability Programs (Modified)

Sec. 7075. Enterprise Funds (Modified)

Sec. 7076. Consular Affairs (New)

Sec. 7077. Procurement Reform (New)

Section 7077 provides authority to the USAID Administrator to award contracts and other acquisition instruments to local entities if the procurement meets the criteria described in this provision.

Sec. 7078. Operating and Spend Plans (New)

Sec. 7079. Rescissions (New)

Sec. 7080. Special Defense Acquisition Fund (New)

Sec. 7081. Authority for Capital Increases (New)

Sec. 7082. Reforms Related to General Capital Increases (New)

Sec. 7083. Authority for Replenishments (New)

Sec. 7084. Authority for the Fund for Special Operations (New)

Sec. 7085. United Nations Population Fund (Modified)

The conference agreement continues prior year conditions on funding for the United Nations Population Fund and modifies the funding level.

Sec. 7086. Limitations (New)

Sec. 7087. Use of Funds in Contravention of this Act (Modified)

The conferees continue the requirement that the Executive Branch notify the Committees on Appropriations 5 days in advance of any action or other decision that would otherwise have been prohibited or required by this Act but for a determination that a provision in this Act is unconstitutional.

The following general provisions included in division F of Public Law 111-117 have been modified and merged with other provisions in this Act: Sections 7022, 7043, 7046, 7050,

7052, 7054, 7064, 7065, 7076, 7081, 7084, 7086, and 7089.

The conference agreement does not include section 7066 included in division F of Public Law 111-117 regarding a comprehensive expenditures report. Instead, the conferees direct the Secretary of State, in consultation with relevant agency heads, to report to the Committees on Appropriations, not later than 180 days after enactment of this Act, on options for standardizing assistance information, by program, country, and fiscal year. The conferees intend to direct the submission of this report in future fiscal years, and to require its posting on the Foreign Assistance Dashboard.

The conference agreement does not continue the following general provisions included in division F of Public Law 111-117: Sections 7033, 7041, 7068, 7088, and 7091.

#### TITLE VIII

##### OVERSEAS CONTINGENCY OPERATIONS/ GLOBAL WAR ON TERRORISM

Funds appropriated as OCO/GWOT under this title address the "extraordinary and temporary" costs of contingency operations in Afghanistan, Pakistan and Iraq, as well as other counterterrorism and counterinsurgency programs and response to conflict-related and other crises. As noted in the congressional budget justification for fiscal year 2012, OCO funds are expected to be phased out over time.

#### DEPARTMENT OF STATE

##### ADMINISTRATION OF FOREIGN AFFAIRS DIPLOMATIC AND CONSULAR PROGRAMS

The conference agreement provides \$4,389,064,000 for Diplomatic and Consular Programs, of which \$236,201,000 is for Worldwide Security Protection. The amount provided is for the extraordinary costs of operations in Afghanistan, Pakistan, and Iraq and is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The conferees intend that funds made available for operations in Afghanistan will be used to train and deploy additional direct-hire personnel to improve monitoring and control of United States assistance.

The conferees direct the Secretary of State to cooperate with the Office of Inspector General for the Department of State and SIGIR, including requests from the SIGIR for information and documentation involving operations in support of foreign assistance programs.

The conferees direct that the spend plan required by section 7078 of this Act include a detailed description of the designated amounts by category, break-out costs of operations by location and provide staffing levels for each location and provincial area, where applicable. In addition, with respect to funds transferred to other agencies in support of Afghanistan operations, the spend plan should include projected transfer amounts and number of staff supported by each agency.

#### CONFLICT STABILIZATION OPERATIONS

The conference agreement provides \$8,500,000 for CSO for deployment costs, including to Afghanistan, Pakistan, and Iraq. The amount provided is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985. In addition, the agreement includes authority for the Secretary of State to transfer up to \$35,000,000 of the funds appropriated under the heading Diplomatic and Consular Programs in title I for the support of CSO operations and activities.

The conferees direct that the Secretary of State notify the Committees on Appropriations within fifteen days of a new deployment of the Civilian Response Corps (CRC), to include the destination, size, composition, and expected duration and cost of the deployment.

The conferees expect the spend plan required by section 7078 of this Act to include details on projected staffing of the CRC, a list of deployments and planned deployments for the fiscal year, and a summary of any strategic review of CSO operations, including a timeline for implementation of organizational, personnel, and program changes.

#### OFFICE OF INSPECTOR GENERAL

The conference agreement provides \$67,182,000 for the Office of Inspector General at the Department of State, of which \$3,250,000 is for support of the Middle East Regional Office, \$44,387,000 is for SIGAR, and \$19,545,000 is to sustain the current level of operations for SIGIR. The amount provided is for the extraordinary costs of program oversight in Afghanistan, Pakistan, and Iraq and is designated for OCO/GWOT pursuant to the Balanced Budget and Emergency Deficit Control Act of 1985.

The conferees do not support the proposed drawdown of SIGIR in fiscal year 2012 as proposed in the request. SIGIR should continue to exercise oversight over the assistance programs in Iraq, including the support costs associated with programs funded under the International Narcotics Control and Law Enforcement heading.
